TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

November 1, 2024

Honorable Greg Abbott, Governor
Honorable Glenn Hegar, Texas Comptroller
Jerry McGinty, Director, Legislative Budget Board
Lisa Collier, State Auditor

Ladies and Gentlemen:

We are pleased to submit the Annual Financial Report of the Texas Commission on Environmental Quality for the fiscal year ended August 31, 2024, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) 34, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas Annual Comprehensive Financial Report (ACFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Please contact Yolanda Davis, Deputy Director of the Financial Administration Division, at 512-239-6888 or yolanda.davis@tceq.texas.gov if you have any questions or require any additional information.

Sincerely,

A handwritten signature in black ink that reads "K Keel". The signature is written in a cursive style with a large, stylized "K" and "Keel" written in a more fluid, connected script.

Kelly Keel
Executive Director

**NOTES TO THE
FINANCIAL
STATEMENTS**

NOTES TO THE FINANCIAL STATEMENTS

Note 1: Summary of Significant Accounting Policies

Entity

The Texas Commission on Environmental Quality (TCEQ) is an agency of the State of Texas, and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for Annual Financial Reports of State Agencies and Universities.

In accordance with Senate Bill 2, Acts of the 72nd Legislature First Called Session, Subchapter B, the state's environmental protection functions were consolidated within the TCEQ. The TCEQ operates as a regulatory agency to implement the provisions of the constitution and laws of the state and strives to protect our state's human and natural resources consistent with sustainable economic development.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report is considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Component Units

The TCEQ does not have any component units.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types and Government-Wide Adjustment Fund Types

General Revenue Funds

General Revenue Fund (0001) - The general revenue fund is used to account for all financial resources of the state except those required to be accounted for in another fund. This fund accounts for legislative appropriations from the State's General Revenue Fund, and miscellaneous appropriated and unappropriated receipts. The Pollution Control Equipment Review Fee is also deposited to this fund.

Texas Emissions Reduction Plan Trust (1201) - This account is a Trust fund outside of the state treasury held by the Comptroller consisting of surcharges on motor vehicle sales taxes, registrations, inspections and a portion of title fees. Also includes sales taxes on sales or rental of heavy equipment. Thirty-five percent of the amount deposited to the fund is remitted to the State Highway Fund 0006 for use in congestion mitigation and air quality projects by the Texas Department of Transportation.

Funds Held Outside Treasury (9999) - The TCEQ currently has two funds held outside the Treasury.

Natural Resource Trustee Account (7998) - This account was created by an agreement effective July 24, 1995, between the Texas General Land Office, the Texas Parks and Wildlife Department, the TCEQ and the State Treasurer (Comptroller) specifically as a joint repository

for Natural Resource Damages (NRD) settlement funds. By federal statute (42 USC 9607 Comprehensive Environmental Response Compensation and Liability Act and 33 USC 2706 Oil Pollution Act) the NRD settlement funds can be used only for restoration of natural resources affected by releases of oil or hazardous substances. Pursuant to these statutes, NRD settlement funds must be placed in a revolving, interest-bearing account and must be available without further appropriation. Under the agreement, all transactions must be jointly authorized by all three agencies. For these reasons, these funds are kept separate from the agency's operating budget. TCEQ is given the primary responsibility for implementing the constitution and laws of the state relating to the conservation of natural resources and the protection of the environment. For this reason, it was determined that the TCEQ would report the Natural Resource Trustee Account.

Securities Held in Trust (0998) - The TCEQ arranges deposits into the Comptroller's Texas Treasury Safekeeping Trust Company to provide assurance for environmental cleanups. These deposits are made because waste site owner's financial assurance instrument provider (e.g. banks, surety companies) indicate the instrument is to be terminated. The TCEQ draws the funds promised via the instrument prior to cancellation in order to protect its financial position. These funds are held outside the Treasury since funds will be used either for cleanup as authorized by statute or returned to the site owner if a replacement financial assurance instrument is provided. Funds are expended for environmental clean-up of facilities as per Texas Health and Safety Code 361.085.

Low Level Radioactive Waste Fund (0088) - The passage of H.B. 1567 by the 78th Legislature provided for the licensing of a low-level radioactive waste disposal site in Texas and established procedures to accept and evaluate license applications. The bill allows a proposed disposal facility to accept compact waste (waste from Texas and Vermont or waste that has been approved for importation to this state by the Compact Commission) and to accept federal facility waste at a separate and adjacent facility under one TCEQ license.

Clean Air Account (0151) - The Clean Air Account is established in the State Treasury to receive Clean Air Act fees. Fees in the account are used to safeguard the air resources of the state. Fees deposited to this fund include the Motor Vehicle Safety Fee, the Air Inspection Fee, and the Air Permit Fee.

Water Resource Management Account (0153) - This account receives waste treatment inspection fees, recovery of costs to protect water resources, administer water quality programs, water supply system owner fees, assessments on public utilities, certification of boat sewage disposal devices, and other application and permit fees and penalties. Also receives fees collected for used oil registration and sale of automotive oil, gifts, grants donations and penalties and interest. This account is used to support and administer the TCEQ water quality programs and the used oil recycling programs.

Watermaster Administration Account (0158) This account derives revenue from assessments paid by the holders of water rights in the Lower Rio Grande River basin, the Concho River basin, the Lower Brazos River Basin, and river basins in South Texas. Water rights assessments are based on the amount of budgeted operating expenditures of the Lower Rio Grande, Concho, Lower Brazos, and South Texas Watermaster Offices. The account pays the compensation and necessary expenses of the Watermaster Offices.

Coronavirus Relief Fund (0325) This account is established outside the General Revenue Fund to receive Texas's share of federal money appropriated under various federal legislation related to the coronavirus pandemic.

TCEQ Occupational Licensing Account (0468) - This account is authorized to administer the State's regulatory and licensing programs for waterworks and wastewater system operators, landscape irrigators, petroleum storage tank professionals and others.

Waste Management Account (0549) - This account receives two thirds of the fees assessed on municipal solid waste disposal in the state. In addition, it receives fees imposed on industrial solid waste disposal, hazardous waste generation, radioactive substances licensing, the Voluntary Clean-Up Program Fee, and numerous other fees. This account pays for regulation of industrial solid and hazardous waste and for related administrative costs incurred by the TCEQ.

Hazardous & Solid Waste Remediation Fee Account (0550) - This account receives revenue from fees imposed on the sale of batteries and disposal of industrial solid or hazardous waste. This account is used for the necessary removal and remedial action at sites which hazardous waste or hazardous substances have been disposed if funds from a liable party, third party or the federal government are insufficient.

Petroleum Storage Tank Remediation Account (0655) - This account receives fees assessed on the bulk delivery of petroleum products. The account may be used to pay expenses associated with the program.

License Plate Trust Fund (0802) - This account is created in the treasury for deposit of specialty license plate fees and related revenue. Dedicated balances and revenues are to be deposited into accounts within the fund to be used in accordance with their specific statutory purpose.

Restore Act Trust Fund (0930) - This account is held outside the treasury with the comptroller. Its purpose is to receive federal money related to the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies (RESTORE) of the Gulf Coast States Act. It will be used for cleanup associated with the April 20, 2010, explosion and spill of the Deepwater Horizon oil rig in the Gulf of Mexico. Amounts are receipts from the Gulf Coast Restoration Trust Fund in the U.S. Treasury.

Solid Waste Disposal Fees Account (5000) - This account receives one third of the fees assessed on municipal solid waste disposal in the state, as well as fees on the transport and use of sludge. Revenues deposited to this account are allocated to local and regional solid waste projects.

Workplace Chemicals List (5020) - This account receives fees from facility operators for filing tier two forms relating to hazardous chemicals. Up to 20% may be used for grants to local emergency planning committees, and up to 15% to administer Ch. 502, Hazardous Communications Act. The remainder may be used for administering Manufacturing Facility (Ch. 505) and Public Employer Community (Ch. 506) Right-to-Know Acts.

Environmental Testing Laboratory Accreditation Account (5065) - This account was created by H.B. 2912, 77th Leg., R.S., to fund the creation of an Environmental Testing Laboratory accreditation program. Revenue deposited to this account is generated by lab accreditation fees.

Texas Emission Reduction Plan Account (5071) - This account previously received revenue from surcharges on motor vehicle titles, sales of on- and off-road diesel vehicles, and commercial vehicle registration and inspection. The revenue is now deposited to the new TERP Trust Fund. Remaining funds in the account can only be spent if appropriated by the Legislature.

Dry Cleaning Facility Release Account (5093) - This account was created by H.B. 1366, 78th Leg., R.S., to receive revenues from fees on dry cleaning establishments and on the purchase of dry-cleaning solvents. The revenues are used to fund the cleanup of releases of dry-cleaning solvents into the soil or water of the state.

Operating Permit Fees Account (5094) - This account was created by H.B. 1481, 78th Leg., R.S., to receive revenue generated by the Air Emissions Fee to cover the costs of developing and administering the federal permit programs under Title IV or V of the federal Clean Air Act.

Perpetual Care Account (5096) - This account in General Revenue was created by H.B. 1567, H.B. 1678 and H.B. 3318, 78th Leg., R.S., to receive most fees and administrative penalties relating to radioactive waste under Health and Safety Ch. 401.

Environmental Radiation and Perpetual Care (5158) - This account is used for the decontamination, decommissioning, stabilization, reclamation, maintenance, surveillance, control, storage, and disposal of radioactive substances. Money in the account may not be used for normal operating expenses of the commission. It is for deposit of certain radioactive materials and devices regulation fees and low-level radiation waste disposal fees.

Special Revenue Fund

Leaking Water Wells Fund (0308) - This account consists of appropriations, gifts, grants, and interest, and is used to provide grants to groundwater conservation districts for the purpose of plugging water wells. Eligible districts include those with a population of 16,000 or fewer, and that are adjacent to at least seven counties with populations of less than 15,000. Any grant amounts not spent for the completion of a project must be returned to TCEQ and deposited back into the fund.

Capital Assets Adjustment Fund Type

The Capital Assets Adjustment fund converts governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

The Long-Term Liabilities Adjustment fund converts governmental fund types' debt from modified accrual to full accrual.

Other Adjustments Fund Type

The Other Adjustments fund converts all other governmental fund type activity from modified accrual to full accrual.

Fiduciary Fund Types

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds.

Agency Funds

Agency Funds are used to account for assets held in a custodial capacity for the benefit of other agencies or individuals.

Basis of Accounting

The basis of accounting determines when revenues and expenditures are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

The State of Texas considers receivables collected within sixty days after fiscal year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. The following activities are recognized in these fund types:

- Capital assets
- Capital assets, accumulated depreciation
- Right to Use Assets
- Right to Use Assets, accumulated amortization
- Right to Use Lease Obligations
- Employees' compensable leave
- Pollution remediation obligations

Budgets and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act). The Commissioners adopt an annual operating budget and policies consistent with these appropriations. Encumbrance accounting is utilized for budgetary control purposes. Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities and Fund Balances/Net Assets

Assets

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Receivables

Receivables represent revenue from licenses, fees, permits and federal funds that has been earned but not received. This account is presented net of Allowance for Bad Debts.

Inventories and Prepaid Items

Consumable Inventories includes supplies and postage on hand. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental fund types. The cost of these items is expensed when the items are used or consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

Liabilities

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Payroll Payable

Payroll Payable represents the liability for August salaries at the balance sheet date for which payment is pending.

Contracts Retainage Payable

Contract Retainage Payable represents the liability for amounts retained pursuant to contract agreements at the balance sheet date for which payment is pending.

Pollution Remediation Obligations

Pollution Remediation Obligations represent obligations to address the detrimental effects of existing pollution by participating in pollution remediation activities such as site assessments and cleanups. Pollution Remediation Obligations are accounted for in the long-term liability adjustment column, as current (for amounts due within one year) and non-current (for amounts due thereafter). Pollution Remediation Obligations are recognized in the financial statements when an obligating event has occurred, and the outlays expected to be incurred to settle those liabilities are reasonably estimable.

Fund Balance/Net Position

“Fund balance” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. “Net position” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide and fiduciary fund statements.

Fund Balance Components

Fund balances for governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

- Nonspendable fund balance includes amounts not available to be spent because they are either:
 - Not in spendable form, or
 - Legally or contractually required to be maintained intact.
- Restricted fund balance includes those resources that have constraints placed on their use through external parties — such as creditors, grantors, contributors, laws or regulations of other governments — or by law through constitutional provisions or enabling legislation.
- Committed fund balance can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state’s highest level of decision-making authority.
- Assigned fund balance includes amounts constrained by the state’s intent to be used for specific purposes, but the constraints do not meet the requirements to be reported as either restricted or committed. Intent is expressed by:
 - The Texas Legislature, or
 - A body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

Net Investment in Capital Assets

Net Investment in Capital Assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.

Restricted Net Position

Restricted net position results when constraints placed on net resources are either externally imposed by creditors, grantors, contributors and the like or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted net position consists of net resources that do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

Interfund Activities and Balances

The agency has the following types of transactions between funds:

- Transfers:
Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfers Out' by the disbursing fund.
- Reimbursements:
Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- Accruals of Operating Transfers are shown as Due To and Due From.

Note 2: Capital Assets

A summary of changes in Capital Assets for the year ended August 31, 2024, is presented below:

		PRIMARY GOVERNMENT							
		Balance		Reclassifications					Balance
		9/1/2023	Adjustments	Completed CIP	Increase Interagency Transaction	Decrease Interagency Transaction	Additions	Deletions	8/31/2024

Note 3: Deposits, Investments and Repurchase Agreements

Deposits of Cash in Bank

The Texas Commission on Environmental Quality (TCEQ) reports investments held in the Texas Treasury Safekeeping Trust Company (TTSTC). The TTSTC is authorized by statute to make investments following the "prudent person rule," which ensures investment decisions are made with care and responsibility. During the reporting period, there were no significant violations of legal provisions.

As of August 31, 2024, the recorded value of deposits is as follows:

Government and Business-Type Activities

Cash in Bank - Carrying Amount	\$50.00
Cash in Bank (Exhibit I)	<u>\$50.00</u>

Investments

The following were the fair values of investments as of August 31, 2024:

Governmental and Business-Type Activities

Repurchase Agreements - Texas Treasury Safekeeping Trust Co - Natural Resource Trustee Account. ¹	Fair Value \$67,917,997.23
Total	<u>\$67,917,997.23</u>

Governmental and Business-Type Activities

Repurchase Agreements - Texas Treasury Safekeeping Trust Co - Securities Held In Trust. ¹	Fair Value \$22,974,878.19
Total	<u>\$22,974,878.19</u>

Credit Risk refers to the possibility that an issuer or counterparty to an investment may fail to meet its financial obligations.

As of August 31, 2024, the agency's credit quality distribution for securities with exposure to credit risk is as follows:

Fund Type	GAAP Fund	Investment Type	AAA	AA	A	BB
01	9999	Repurchase Agreements Texas Treasury Safekeeping Trust Co. - Natural Resource Trustee Account	\$67,917,997.23			
01	9999	Repurchase Agreements Texas Treasury Safekeeping Trust Co - Securities Held In Trust.	\$22,974,878.19			

¹ Repurchase agreements with the Texas Treasury Safekeeping Trust Company are classified as Cash Equivalents and are referred to as Repurchase Agreements in the financial statement notes. This classification is made in accordance with the Reporting Requirements for Annual Financial Reports of State Agencies and Universities.

Note 4: Short-Term Debt

Not applicable

Note 5: Long-Term Liabilities

Changes in Long-Term Liabilities

The following changes occurred in liabilities during the fiscal year ended August 31, 2024.

Governmental Activities	Balance 9/01/23	Additions	Reductions	Restatement/ Adjustment	Balance 8/31/24	Amounts Due Within One Year	Amounts Due Thereafter
Right to Use Lease Obligations	\$ 37,407,968.23	\$ 2,865,156.81	\$ 6,815,929.81	\$ (1,162,170.78)	\$ 32,295,024.45	\$ 6,891,361.41	\$ 25,403,663.04
Employees' Compensable Leave	26,387,409.28	20,668,596.20	20,537,284.21	1,860,397.05	28,379,118.32	15,123,462.57	13,255,655.75
Pollution Remediation Obligations	230,869,767.65	20,790,948.83	13,842,478.24		237,818,238.24	37,702,207.43	200,116,030.81
Total Governmental Activities	\$ 294,665,145.16	\$ 44,324,701.84	\$ 41,195,692.26	\$ 698,226.27	\$ 298,492,381.01	\$ 59,717,031.41	\$ 238,775,349.60

Employees' Compensable Leave

If a state employee had continuous employment with the state for at least six months, the state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal, or separation from state employment.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net position. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

Pollution Remediation Obligations

Dry Cleaners

The TCEQ is responsible for collecting fees for a remediation fund designed to help pay for the cleanup of contaminated dry cleaner sites. The fees are generated from the annual registration of facilities and drop stations, as well as from the sale of perchloroethylene and other dry-cleaning solvents. The TCEQ receives applications for remediation, and then ranks and prioritizes them for corrective action. Legislation in 2007 established requirements for property owners and preceding property owners who wish to claim benefits from the remediation fund and authorized a lien against property owners and preceding property owners who fail to pay registration fees due during corrective action. No additional cost recovery is allowed by statute.

The pollution remediation obligation is measured by using the national average cleanup cost, as calculated by the State Coalition for Remediation of Drycleaners. Direct salary and benefit costs are added to the national average, and the total cost is multiplied by the number of active sites. The amount of the estimated pollution remediation assumes that there will be no major increases in the cost of providing these cleanup services. The TCEQ has 242 active sites at fiscal year end, with a total estimated pollution remediation obligation of \$54,884,854.14.

Leaking Petroleum Storage Tanks

The TCEQ oversees cleanups of leaking petroleum storage tanks (LPST). Cleanup costs are paid by the owners' environmental liability insurance or other financial assurance mechanisms or from their own funds. If the responsible party is unknown or is unwilling or financially unable to do the work, state and federal funds are used to pay for the corrective actions. Revenue is generated from a fee on the delivery of petroleum products removed from bulk storage facilities. State statutes allow cost recovery from the current owner or any previous responsible owner; however, to date this has not been necessary.

The TCEQ calculates expected outlays related to this pollution remediation by establishing the average cost of cleanup and multiplying that cost by the number of active sites, plus direct salaries, and benefits for the duration of the cleanup. This methodology is based upon historical experience in estimating these cleanups.

At fiscal yearend there were 222 active State Lead sites, with a total estimated pollution remediation obligation of \$62,453,646.96.

Superfund

The TCEQ Superfund Section includes the State Superfund, Federal Superfund, Superfund Site Discovery and Assessment (SSDAP) and the Preliminary Assessment/Site Inspection (PA/SI) Programs. On behalf of the TCEQ, the Section identifies, ranks, and addresses sites contaminated with hazardous substances, which no parties are willing to address through a permit, corrective action, voluntary cleanup or enforcement program. These sites are identified through referral from internal and external groups such as TCEQ Enforcement, TCEQ Regional Offices, TCEQ Water Supply Division, public complaints and the United States Environmental Protection Agency (EPA).

When a site is referred to the TCEQ Superfund Section one of two events occurs: either the SSDAP performs the initial assessment and ranking of the site, or the PA/SI Program evaluates the site for the Federal Superfund Program. Sites evaluated by the PA/SI program are later referred to the SSDAP if they do not meet the criteria for the Federal Superfund Program or if EPA does not include them in the Federal Superfund Program. Sites referred to SSDAP are assessed and ranked for potential referral to the State Superfund Program.

The objective of the State and Federal Superfund Programs is to address environmental problems associated with the imminent and substantial endangerment to public health and safety or the environment due to a release or threatened release of hazardous substances. The State and Federal Superfund Programs meet this objective by investigating and evaluating the release or threatened release of hazardous substances, identifying responsible parties, and remediating State and Federal Superfund sites.

The Pollution Remediation Obligation for Superfund sites was calculated by estimating the remediation obligations for active Superfund Section sites in Texas. The following sites or site phases were excluded from the estimation:

- Potentially Responsible Party (PRP) funded investigations and cleanups, because these sites are funded by PRPs;
- Federal sites' costs associated with the Remedial Investigation (RI), Feasibility Study (FS), and Remedial Design (RD), because these phases are funded through the 100% federal match grant coverage; and
- SSDAP and PA/SI sites in the queue for evaluation under the State or Federal Superfund Program, because it is not known if these sites will require cleanup under the Superfund Programs.

Site estimates were based on budget projections to cover necessary activities for the upcoming fiscal year, along with estimated costs for future years and phases, plus direct salaries and

benefits. For sites without available budget projections, estimated costs were provided for the Superfund phases of investigation and cleanup, based on staff experience with similar sites. Site estimates may change drastically from one year to another as the investigations progress and better understanding of site conditions are obtained. The estimate of liabilities is limited to sites that have been, or are, being assessed and ranked for the Superfund program. Cost recovery activities during FY24 resulted in collections of \$340,935.43.

At the end of FY24, Texas had 72 sites with Pollution Remediation Obligations in the State and Federal Superfund programs and one site that required an immediate response or removal action. The current total Superfund liability, as of 8/31/2024 is \$120,479,737.14.

Note 6: Bonded Indebtedness

Note 12: Interfund Activity and Transactions

As explained in Note 1- Interfund Activities and Balances, there are numerous transactions between funds and agencies. At year-end amounts to be received or paid are reported as follows:

- Due From Other Agencies or Due To Other Agencies
- Transfers In or Transfers Out
- Federal Pass Through Expenditures and State Pass Through Expenditures

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer.

Due To/Due From	GAPP Fund	Totals	Purpose

Note 13: Continuance Subject to Review

Under the Texas Sunset Act, the Texas Commission on Environmental Quality will be abolished effective September 1, 2035, unless continued in existence by the 93rd Legislature as provided by the Act. If abolished, the agency may continue until September 1, 2036, to conclude its business.

Note 14: Adjustments to Beginning Net Position, Fund Balances or Fund Net Position

In Fiscal Year 2024, the correction on some capital asset amounts was done in the State Property Accounting System; the Interest Rate modification for five office leases and the changes to payments scheduled in prior year for one office lease were done in the LeaseQuery system resulting in a restatement of TCEQ's September 1, 2023, Fund Balance/Net Position in Fund Type 11 - Capital Asset Basis Conversion Adjustments and Fund Type 12 - Long-Term Liability Basis Conversion Adjustments as follows:

Governmental Activity Adjustment	9/01/2023 As Previously Reported	Restatements	09/01/2023 As Restated
Capital Assets	\$77,070,403.39	(\$1,171,546.12)	\$75,898,857.27
Long-Term Liabilities	\$294,696,676.56	(\$1,162,170.78)	\$293,534,505.78

Note 15: Contingencies and Commitments

Regarding legal liabilities, as a grantee receiving funds from various federal granting agencies, Texas Commission on Environmental Quality may be liable for refunding any disallowed costs to those agencies. Based on prior experience, management believes such disallowances, if any, would be immaterial. It should be noted that TCEQ is currently the subject of multiple complaints regarding Title VI of the Civil Rights Act of 1964, some of which EPA has accepted and begun the investigation process. In the instance of an adverse finding in a Title VI investigation, the most extreme remedy is rescission of federal funding. Since the agency does not allow discrimination on the basis of race, color, national origin, sex, disability, age, sexual orientation, veteran status, or retaliation in the administration of its programs or activities, as required by federal and state laws and regulations, management believes it is unlikely that EPA would resort to this excessive remedy. Additionally, TCEQ is involved in several administrative claims proceedings and civil lawsuits that could result in liabilities in the event of an adverse ruling. However, while adverse rulings regarding any of these claims are possible, it is management's opinion that the possibility of adverse rulings resulting in liabilities is unlikely.

As of August 31, 2024, the TCEQ encumbered expenditures in governmental funds for signed contracts and purchase orders as presented in the table below:

Appropriated Fund Number	Appropriated Account Name	Encumbrance	Available Fund Balance	Total Fund Balance
0001	General Revenue	12,948,993.81	16,709,686.68	29,658,680.49
1201	Texas Emissions Reduction Plan Trust	165,873,110.78	163,828,285.40	329,701,396.18

5158	Environmental Radiation Perpetual Care	0.00	17,592,174.66	17,592,174.66

Note 16: Subsequent Events

Not Applicable

Note 17: Risk Management

As a recipient of funds from various federal agencies, TCEQ may bear liability for refunding any disallowed costs to those agencies. However, based on historical experience, management believes that any potential disallowances would be immaterial.

TCEQ is currently the subject of multiple complaints under Title VI of the Civil Rights Act of 1964, and the EPA is conducting a jurisdictional review of these complaints. In the event of an adverse finding resulting from a Title VI investigation, the most severe potential remedy is the rescission of federal funding. Nevertheless, TCEQ strictly prohibits discrimination based on race, color, national origin, sex, disability, age, sexual orientation, veteran status, or retaliation in the administration of its programs and activities, as required by federal and state laws and regulations. Therefore, management considers it highly unlikely that the EPA would resort to such an extreme remedy.

Furthermore, TCEQ is engaged in several administrative claims proceedings and civil lawsuits that could potentially result in liabilities if adverse rulings are made. While adverse outcomes are possible, management deems the likelihood of such outcomes resulting in liabilities to be low.

The agency's claim and judgement liability activities as of August 31, 2024, is provided below:

Claims and Judgements				
	Beginning balance	Increases	Decreases	Ending Balance
FY 2024	\$0.00	\$4,492.65	(\$4,492.65)	\$0.00
FY 2023	\$0.00	\$112,102.71	(\$112,102.71)	\$0.00

Note 18: Management’s Discussion and Analysis

During the fiscal year 2024, the financial status of the funds at the Texas Commission on Environmental Quality (TCEQ) encountered various impacts as listed below:

The overall fund balance of the TCEQ increased by 1.65% from the adjusted ending balance of \$3.02 billion in FY 2023 to \$3.07 billion in FY 2024. The change is influenced by the following major contributors.

The fund balance of the **General Revenue Account (0001)** increased by 132.81%. The annual revenue deposited into the fund exceeds the annual expenditures for this account, which accounts for the increase.

The balance of the **Low-Level Radioactive Waste Account (0088)** decreased by 9.92%. The account expenditures and obligations exceeded the annual revenues. The fund balance will continue to decline because the agency can only recover costs for direct licensing and shipment

inspection expenses. The agency is unable to recoup the costs of additional compliance expenses related to the facility.

The fund balance of the **Clean Air Account (0151)** experienced a 0.31% increase. The reason for the increase is that the annual revenue deposited into the fund is higher than the annual level of expenditures for this account.

The **Water Resource Management Account (0153)** fund balance decreased by 11.07%. The decrease is due to the annual revenue deposited into the fund did not exceed the annual level of expenditures for this account. During the 88th Legislative session increased transfer amounts to PUC and OPUC were authorized adding to the decrease in fund balance.

The **Watermaster Administration Account (0158)** decreased by 30.69% in FY 2024. The decrease is due to the annual revenue deposited into the fund failing to exceed the annual level of expenditures for this account.

The **Waste Management Account (0549)** fund balance increased by 949.78%. The increase is due to consolidation of funds from account 5000.

The fund balance of the **Petroleum Storage Tank Remediation Account (0655)** decreased by 22.3% primarily due to the impact of HB 7, passed during the 84th Legislature. This legislation required the agency to decrease its revenue by the exact amount of appropriations allocated for pre-1998 PST sites. The agency anticipates a comparable decrease in the coming years.

The **TERP Trust Fund Account (1201)** fund balance increased 25.61%. The increase is due to a significantly higher number of outstanding encumbrances on 08/31 than in prior years.

The fund balance of the **Solid Waste Disposal Fee Account (5000)** decreased by 100%. The decrease is a result of funds consolidation with account 0549. Starting from September 1, 2023, all revenue that was previously deposited into the account will now be deposited into the **Waste Management Account (0549)**.

The **Environmental Testing Laboratory Accreditation account (5065)** experienced a decrease of 23.76%. The decrease is a result of expenditures surpassing revenue collections.

The **Dry-Cleaning Facility Release Account (5093)** fund balance decreased by 4.69%. The decrease is due to expenditures exceeding revenue collections.

The **Operating Permit Fees Account (5094)** fund balance increased by 4.13%. The increase is due to annual revenue deposited into the fund exceeding the annual level of expenditures for this account.

Note 19: The Financial Reporting Entity

As required by Generally Accepted Accounting Principles, the financial statements present the Texas Commission on Environmental Quality. The TCEQ has no component units.
