

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY
AGENDA ITEM REQUEST
for Adoption of Rules Review & Readoption of Chapter 222

AGENDA REQUESTED: July 31, 2024

DATE OF REQUEST: July 12, 2024

INDIVIDUAL TO CONTACT REGARDING CHANGES TO THIS REQUEST, IF NEEDED: Gwen Ricco, Agenda Coordinator, (512) 239-2678

CAPTION: Docket No. 2022-1726-MIS. Consideration for the adoption of the rules review and readoption of 30 TAC Chapter 222, Subsurface Area Drip Dispersal Systems. This review is in accordance with Texas Government Code, Section 2001.039, which requires state agencies to review and consider for readoption each of their rules every four years. The proposal was published in the November 24, 2023, issue of the *Texas Register* (Vol. 48 TexReg page 6922). (Shannon Gibson, Harrison Cole Malley) (Non-Rule Project No. 2023-042-222-OW)

Interoffice Memorandum

To: Commissioners **Date:** July 12, 2024

Thru: Laurie Gharis, Chief Clerk
Kelly Keel, Executive Director

From: Cari-Michel La Caille, Director
Office of Water

Docket No.: 2023-1726-MIS

Subject: Commission Approval for Adoption of Rules Review and Readoption of Rules
Chapter 222, Subsurface Area Drip Dispersal Systems
Rules Review of 30 TAC Chapter 222
Non-Rule Project No. 2023-042-222-OW

What the adopted action will do:

This action will approve the rules review of Chapter 222, and readopt the chapter.

This action constitutes a determination by the Texas Commission on Environmental Quality (TCEQ), after opportunity for public review and comment, that the initial reasons for adopting the rules of this chapter continue to exist.

Applicable law:

The review of the rules is authorized under the requirements of Texas Government Code, §2001.039; and the General Appropriations Act, Article IX, §9-10.13, 76th Texas Legislature, 1999, which require state agencies to review and consider for readoption each of their rules every four years.

Reason rules are needed:

Chapter 222 implements Chapter 32 of the Texas Water Code by establishing a permit application process for subsurface area drip dispersal systems (SADDSs) and standards for the design, construction, location, operation, and maintenance of SADDSs. A SADDS is a waste disposal system that injects processed commercial, industrial, or municipal wastewater into the ground at a depth of not more than 48 inches and spreads the waste over a large enough area that the soil hydrologic absorption rate and crop/plant root absorption rate are not exceeded.

Rules found to be obsolete:

None.

Public comment:

A public hearing was not offered for this review. The comment period for the rules review closed on December 28, 2023. No comments were received.

Affected agency program(s):

The program area(s) responsible for implementing these rules are organized under the Water Quality Division within the Office of Water.

Agency contacts:

The Texas Commission on Environmental Quality (TCEQ) files this Notice of Intention to Review 30 Texas Administrative Code Chapter 86, Special Provisions for Contested Case Hearings.

This proposal is *limited* to the review in accordance with the requirements of Texas Government Code, §2001.039, which requires a state agency to review and consider its rules for readoption, readoption with amendments, or repeal every four years. During this review, the commission will assess whether the reasons for initially adopting the rules in Chapter 86 continue to exist.

Comments regarding suggested changes to the rules in Chapter 86 may be submitted but will not be considered for rule amendments as part of this review. Any such comments may be considered in a future rule-making action by the commission.

Submittal of Comments

The commission invites public comment on this preliminary review of the rules in Chapter 86. Written comments may be submitted to Gwen Ricco, MC 205, Office of Legal Services, Texas Commission on Environmental Quality, P.O. Box 13087, Austin, Texas 78711-3087, or faxed to (512) 239-4808. Electronic comments may be submitted at: <https://tceq.commentinput.com/>. File size restrictions may apply to comments being submitted via the TCEQ Public Comment system. All comments should reference Non-Rule Project Number 2023-021-086-LS. Comments must be received by January 3, 2024. For further information, please contact Harrison Malley, Environmental Law Division, at (512) 239-1439.

The Texas Commission on Environmental Quality (TCEQ) files this Notice of Intention to Review 30 Texas Administrative Code Chapter 217, Design Criteria for Domestic Wastewater Systems.

This proposal is *limited* to the review in accordance with the requirements of Texas Government Code, §2001.039, which requires a state agency to review and consider its rules for readoption, readoption with amendments, or repeal every four years. During this review, TCEQ will assess whether the reasons for initially adopting the rules in Chapter 217 continue to exist.

Comments regarding suggested changes to the rules in Chapter 217 may be submitted but will not be considered for rule amendments as

part of this review. Any such comments will be considered in a future rulemaking action.

Submittal of Comments

TCEQ invites public comment on this preliminary review of the rules in Chapter 217. Adopted Rule Reviews

Texas State Library and Archives Commission

Title 13, Part 1

The Texas State Library and Archives Commission (commission) has completed its review of Texas Administrative Code, Title 13, Part 1,

The Texas Commission on Environmental Quality (TCEQ) has completed its Rule Review of 30 Texas Administrative Code (TAC) Chapter 222, Subsurface Area Drip Dispersal Systems, as required by Texas Government Code (TGC), §2001.039. TGC, §2001.039, requires a state agency to review and consider for readoption, readoption with amendments, or repeal each of its rules every four years. TCEQ published its Notice of Intent to Review these rules in the November 24, 2023, issue of the *Texas Register* (48 TexReg 6922).

The review assessed whether the initial reasons for adopting the rules continue to exist and TCEQ has determined that those reasons exist. A subsurface area drip dispersal system (SADDS) is a waste disposal system that injects processed commercial, industrial, or municipal wastewater into the ground at a depth of not more than 48 inches and spreads the waste over a large enough area that the soil hydrologic absorption rate and crop/plant root absorption rate are not exceeded. Chapter 222 is necessary as it implements Chapter 32 of the Texas Water Code by establishing a permit application process for SADDSs thereby setting standards for the design, construction, location, operation, and maintenance of SADDSs.

Public Comment

The public comment period closed on December 28, 2023. TCEQ did not receive comments on the rules review of this chapter.

As a result of the review TCEQ finds that the reasons for adopting the rules in 30 TAC Chapter 222 continue to exist and readopts these sections in accordance with the requirements of TGC, §2001.039.

Texas Commission on Environmental Quality

ORDER ADOPTING RULES REVIEW AND READOPTING RULES

Docket No. 2022-1726-MIS
Non-Rule Project No. 2023-042-222-OW

On July 31, 2024, the Texas Commission on Environmental Quality (Commission) approved the rules review of 30 Texas Administrative Code (TAC) Chapter 222, Subsurface Area Drip Dispersal Systems, in accordance with the requirements of Texas Government Code, § 2001.039, which requires a state agency to review and consider for re-adoption each of its rules every four years. The proposed Notice of Intention to Review was published in the November 24, 2023, issue of the *Texas Register* (48 TexReg 6922).

IT IS THEREFORE ORDERED BY THE COMMISSION, that the rules review of 30 TAC Chapter 222 is hereby adopted. The rules and the preamble to the rules approved by the Commission are incorporated by reference in this Order as if set forth at length verbatim in this Order.

IF ANY PORTION OF THIS ORDER is for any reason held to be invalid by a court of competent jurisdiction, the invalidity of any portion shall not affect the validity of the remaining portions.
