# **Investigation Information**

**Complaint Date(s):** N/A **Complaint Information**: N/A

**Date(s) of Investigation:** June 1, 2020 through August 5, 2020

**Date(s) of NOE(s):** August 11, 2020

### **Violation Information**

- 1. Failed to report all instances of deviations. Specifically, the deviation report for the April 1, 2018 through September 30, 2018 reporting period did not include the deviations for failing to authorize a stationary internal combustion engine and for failing to maintain monthly emissions records for the V-401A Storage Tank [30 Tex. ADMIN. CODE §§ 122.143(4) and 122.145(2)(A), Federal Operating Permit ("FOP") No. O2204, General Terms and Conditions ("GTC"), and Tex. Health & Safety Code § 382.085(b)].
- 2. Failed to operate each monitoring system at least 95 percent ("%") of the time when the cooling tower is operational, averaged over a calendar year. Specifically, Cooling Tower 2320 operated continuously during calendar year 2019 but the flow meter had 1,447.75 downtime hours during the months of January 2019, February 2019, and May 2019, resulting in Cooling Tower 2320 being monitored for only 83% of the time in calendar year 2019 [30 Tex. Admin. Code §§ 115.764(a)(3) and 122.143(4), FOP No. O2204, GTC and Special Terms and Conditions ("STC") No. 1.A, and Tex. Health & Safety Code § 382.085(b)].
- 3. Failed to obtain authorization prior to constructing or modifying a source of air contaminants. Specifically, the Respondent operated a stationary internal combustion engine intermittently from July 1, 2017 through April 25, 2019 without obtaining the proper authorization [30 Tex. Admin. Code §§ 116.110(a) and 122.143(4), FOP No. O2204, GTC, and Tex. Health & Safety Code §§ 382.0518(a) and 382.085(b)].
- 4. Failed to conduct quarterly visible emissions observations. Specifically, the Respondent did not conduct quarterly visible emissions observations for Cooling Tower 320 and Cooling Tower 2320 from the fourth quarter of 2015 through the first quarter of 2019 [30 Tex. Admin. Code §§ 116.115(c), 122.143(4), and 122.144(1)(a), FOP No. O2204, GTC and STC No. 3.A.(iv)(1), and Tex. Health & Safety Code § 382.085(b)].
- 5. Failed to maintain records containing the information and data sufficient to demonstrate compliance with the permit. Specifically, the Respondent did not maintain monthly emissions records for the V-401A Storage Tank [30 Tex. Admin. Code §§ 116.115(b)(2)(E)(i) and (c) and 122.143(4), New Source Review Permit No. 48715, Special Conditions No. 7, FOP No. O2204, GTC and STC No. 16,, and Tex. Health & Safety Code § 382.085(b)].

# Corrective Actions/Technical Requirements

# **Corrective Action(s) Completed:**

The Respondent implemented the following corrective measures:

- a. On February 28, 2019, replaced the flow meter for Cooling Tower 2320.
- b. On April 25, 2019, removed the stationary internal combustion engine.
- c. By June 1, 2019, implemented measures and procedures designed to ensure that each monitoring system is operated at least 95% of the time the cooling tower is operational.
- d. On June 20, 2019, began maintaining monthly emissions records for the V-401A Storage Tank.
- e. On June 26, 2019, began performing quarterly visible emissions observations for Cooling Tower 320 and Cooling Tower 2320.
- f. On September 17, 2020, submitted a revised deviation report for the April 1, 2018 through September 30, 2018 reporting period to report the deviations for failing to authorize a stationary internal combustion engine and failing to maintain monthly emissions records for the V-401A Storage Tank.

# **Technical Requirements:**

- 1. The Order will require the Respondent to implement and complete a SEP (see SEP Attachment A).
- 2. The Order will also require the Respondent to:
- a. Within 30 days, implement measures and/or procedures designed to ensure that all instances of deviations are reported in a timely manner; and
- b. Within 45 days, submit written certification to demonstrate compliance with a.

Item 12	October 21, 2020	(1626277)

#### E. Written notices of violations (NOV) (CCEDS Inv. Track. No.):

A notice of violation represents a written allegation of a violation of a specific regulatory requirement from the commission to a regulated entity. A notice of violation is not a final enforcement action, nor proof that a violation has actually occurred.

1 Date: 05/28/2020 (1631851)

Self Report? NO Classification: Minor

Citation: 30 TAC Chapter 116, SubChapter B 116.115(c)

No DOV Associated

Notice of Intent Date: 01/13/2016 (1306514)

Disclosure Date: 04/26/2016 Viol. Classification: Moderate

Citation: 40 CFR Chapter 63, SubChapter C, PT 63, SubPT EEE 63.1209(b)(2)

Description: Failure to update process control code on replacement stack gas flow meter on FTB-603 to account for a

change in the meter that resulted in inaccurate flow data. The differential pressure meter installed did not apply a square root filter to the signal input to the process control code, resulting in flow rates which were not properly calculated. It is possible that the stack gas operating limits may have been exceeded during

the time this flow meter was in place. Preliminary estimates of stack f

Viol. Classification: Moderate

Citation: 30 TAC Chapter 116, SubChapter B 116.115(c)(1)

30 TAC Chapter 335, SubChapter B 335.43(b)

Rgmt Prov: PERMIT NSR Permit 3434, SC 1

Description: Failure to control chlorine emissions while prepping for compliance burn testing. During preparations for

compliance burn testing, F-210 exceeded the RCRA permit emission limit for free chlorine during approximately a 9 hour period (based on sampling data from 2- two hour pre-test runs). While trying to establish new lower limits for scrubber pH and L/G parameters, too much chlorine was emitted into the

atmosphere.

Notice of Intent Date: 01/12/2016 (1306516)

40 CFR Part 63, Subpart H 63.174

Rgmt Prov: PERMIT NSR Permit No. 3434, SC 6

Description: Failure to monitor leak from a connector in light liquid service. A leak from a connector in light liquid service

subject to a 28 MID fugitive program, 30 TAC Subchapter D, Division 3 and 40 CFR Part 63, Subpart H was discovered by AVO means by Phenol/ Acetone personnel. It was discovered on February 25, 2016 and the visual leak was repaired that day. It was not monitored to confirm the repair.

Viol. Classification: Minor

Citation: 40 CFR Chapter 63, SubChapter C, PT 63, SubPT A 63.8

Description: Failure to include heavy oil pressure transmitters in the Continuous Monitoring System Performance

Evaluation Plan (CMSPEP). A minimum pressure differential of 10 psig is maintained between the heavy oil pressure and the atomizing steam pressure at B-901, B-902, and B-903 boilers when heavy oil is fed to them. It has been determined that the heavy oil pressure transmitters were not included in the CMSPEP.

The transmitters do meet the accuracy and calibration requirements included in the plan.

30 TAC Chapter 106, SubChapter S 106.433

Description: Failure to maintain permit by rule documentation to demonstrate compliance with 30 TAC 106

authorizations for the following: Bench scale laboratory equipment; batch mixing; ovens, barbecue pits and cookers; handheld and manually operated machines; vacuum cleaning systems; water based adhesive mixers; cooling water units; industrial gases; refrigeration systems; dipping tanks and containers; surface

coat facility.

Viol. Classification: Minor

Citation: 30 TAC Chapter 115, SubChapter E 115.468(b)(2)

Description: Failure to maintain records required by 30 TAC 115.468(b)(2) to demonstrate continuous compliance with

the exemption criteria in 30 TAC 115.461(d)(7).

Notice of Intent Date: 01/29/2019 (1548461)

Disclosure Date: 04/15/2019

Viol. Classification: Minor

Citation: 40 CFR Chapter 82, SubChapter C, PT 82, SubPT F 82.166(o)

Description: Failure to document the full charge capacity of each of the industrial Process Refrigeration systems in

accordance with one of the four options within 40 CFR 82 Subpart F.

Viol. Classification: Minor

Citation: 40 CFR Chapter 61, SubChapter C, PT 61, SubPT M 61.144(b)(3)

Description: Failure to document sufficient information used for process wastewater group determinations by process

knowledge for the A-1800 and A-2400 blocks.

Viol. Classification: Minor

Citation: 40 CFR Chapter 61, SubChapter C, PT 61, SubPT FF 61.356(b)

Description: Failure to keep records demonstrating the total annual benzene concentration and flow rate for waste

streams generated from the process contain greater than 10% water.

Viol. Classification: Major

Citation: 30 TAC Chapter 116, SubChapter B 116.116(a)

Description: Failure to demonstrate compliance with requirements of the determination of response factors for each of

the chemical compounds that are measured in the Leak Detection and Repair program.

Disclosure Date: 10/11/2019 Viol. Classification: Moderate

Citation: 30 TAC Chapter 111, SubChapter A 111.111(a)(1)(B)

Description: Failure to perform visible observations on a cooling tower.

Notice of Intent Date: 03/08/2019 (1553058)

Disclosure Date: 04/23/2019 Viol. Classification: Moderate

Citation: 30 TAC Chapter 101, SubChapter A 101.10

Description: Failure to accurately report NOx emissions from the hydrogen flare due to an error in the NOx emission

formula within the air emission reporting tool. The unreported emissions represent approximately 5% of the

facility wide annual total.

Viol. Classification: Moderate

Citation: 30 TAC Chapter 111, SubChapter A 111.111(a)(1)(B)

Description: Failure to perform quarterly visible emissions observations on the equipment listed below during the third

quarter of 2018. The observations were delayed due to an unplanned plant outage and performed later

during the fist week of the forth quarter.

Viol. Classification: Moderate

Citation: 30 TAC Chapter 116, SubChapter B 116.115(c)

Description: Failure to operate the chlorine monitor on T-206B per manufacturer's recommendation. The chlorine

monitor's low voltage alarm was set below the minimum recommended value, thus not alerting the plant when the voltage fell below the minimum recommended voltage. the monitor was also operated at a

voltage below the minimum voltage recommendation.

Viol. Classification: Moderate

Citation: 30 TAC Chapter 111, SubChapter A 111.111(a)(1)(B)

Description: Failure to conduct visible emission observations for the Chlorine 4 equipment units B22SV8 and B22SV9 at

the appropriate time. Observations were conducted earlier than one hour after sunrise during two

instances.

Viol. Classification: Moderate

Citation: 30 TAC Chapter 111, SubChapter A 111.111(a)(1)(B)

Description: Failure to conduct visible emission observations for the Chlorine 3 equipment units B6SV8, B6SV9, B6SV10,

B6SV11, B6SV12, B6SV13, B6SV14, B6SV15, B6SV16, and B6SV17 at the appropriate time. Observations

were conducted earlier than one hour after sunrise.

Disclosure Date: 05/23/2019 Viol. Classification: Moderate

Citation: 30 TAC Chapter 111, SubChapter A 111.111(a)(1)(B)

Description: Failure to perform visible emission observations on four cooling towers (B6CT201, B6CT401, B22CT201,

B22CT401).

Disclosure Date: 10/22/2019 Viol. Classification: Moderate

Citation: 30 TAC Chapter 116, SubChapter B 116.115(c)

Description: Failure to perform annual inspections of drift eliminators within a year from the previous inspection date for

the cooling towers; B6CT201, B6CT401, and B22CT401.

Viol. Classification: Moderate

Citation: 30 TAC Chapter 116, SubChapter B 116.115(c)

Description: Failure to perform annual calibrations on liquid flow monitoring devices within a year from the previous

calibration date date for the following scrubbers; B6Sv6, B6SV7, B6SV8.

Notice of Intent Date: 04/01/2019 (1554973)

Disclosure Date: 10/15/2019 Viol. Classification: Moderate

Citation: 30 TAC Chapter 115, SubChapter D 115.354

40 CFR Chapter 63, SubChapter C, PT 63, SubPT H 63.160(a)

Description: Failure to monitor and/or report 5 valves and 5 connectors. These components were not included in the %

leaker calculations.

Viol. Classification: Moderate

Citation: 30 TAC Chapter 116, SubChapter B 116.115(c)

30 TAC Chapter 122, SubChapter B 122.143(4)

Description: Failure to accurately record visible emissions observations as required by Title V Permit O2207.

Viol. Classification: Moderate

Citation: 30 TAC Chapter 111, SubChapter A 111.111(a)(1)(B)

Description: Failure to perform visible observations on cooling tower B52CT1.

Notice of Intent Date: 04/17/2019 (1557095)

Disclosure Date: 10/16/2019 Viol. Classification: Moderate

Citation: 30 TAC Chapter 115, SubChapter D 115.354

40 CFR Chapter 63, SubChapter C, PT 63, SubPT H 63.160(a)

Description: Failure to monitor and report 2 valves, 198 connectors, and 32 pumps as required. These components were

also not included in the % leaker calculations.

No DOV Associated

Notice of Intent Date: 04/30/2019 (1559109)

Disclosure Date: 09/11/2019 Viol. Classification: Moderate

Citation: 30 TAC Chapter 116, SubChapter B 116.115(a)

Description: Failure to estimate the emissions from the use of a vacuum truck to empty an anhydrous HCL line. the

activity was recorded, but the estimated emissions of less than 0.01 lb VOC were omitted from the record.

Viol. Classification: Moderate

Citation: 30 TAC Chapter 122, SubChapter B 122.145(2)(A)

Description: Failure to include all citations in the Title V Deviation Report dated October 29, 2018. Deviation Item # 5

did not include all applicable citations.

Viol. Classification: Moderate

Citation: 40 CFR Chapter 63, SubChapter C, PT 63, SubPT H 63.182(d)(2)

Description: Failure to report a violation for a tank temporarily not routed to control in the HON Report submitted on

November 19, 2019.

Viol. Classification: Moderate

Citation: 30 TAC Chapter 101, SubChapter A 101.10(b)(1)

30 TAC Chapter 101, SubChapter A 101.10(b)(2)

Description: Failure to report in the Title V Deviation report dated April 24, 2019 the unauthorized emission of <.01lb of

VOC from a < 1 gallon spill occurring on Mach 22, 2019, A final record was also not created.

Viol. Classification: Moderate

Citation: 30 TAC Chapter 101, SubChapter A 101.10(b)(1)

30 TAC Chapter 101, SubChapter A 101.10(b)(2)

Description: Failure to correctly report the pound per day emissions for the ozone season for every emission source at

the Tricloroethylete and HCL Adsorption plants that emitted in 2016 and 2017. The tool used to transfer the

data to state data base had a calculation error.

Viol. Classification: Moderate

Citation: 30 TAC Chapter 111, SubChapter A 111.111(a)(1)(B)

Description: Failure to repair, isolate the leak or use a leak collection system within one hour of detection a leak from a

component in HCL service.

Viol. Classification: Minor

Citation: 30 TAC Chapter 116, SubChapter B 116.115(a)

Description: Failure to correctly document the creation and closure of open ended lines during maintenance of the E-6

reboiler.

Viol. Classification: Moderate

Citation: 40 CFR Chapter 265, SubChapter I, PT 265, SubPT BB 265.1056

40 CFR Chapter 265, SubChapter I, PT 265, SubPT BB 265.1057

Description: Failure to identify fugitive components on a smell vessel as being subject to RCRA BB requirements.

Viol. Classification: Moderate

Citation: 40 CFR Chapter 265, SubChapter I, PT 265, SubPT BB 265.1056

40 CFR Chapter 265, SubChapter I, PT 265, SubPT BB 265.1057

Description: Failure the equip an open-ended line on a small vessel with an appropriately sized cap, blind flange, plug,

or second valve to seal the line. the Open eneded line has a cap/cover, but upon examination it was found

not to be tight-fitting.

Notice of Intent Date: 06/12/2019 (1577954)

Disclosure Date: 10/07/2019 Viol. Classification: Moderate

Citation: 30 TAC Chapter 111, SubChapter A 111.111

Description: Failure to maintain quarterly visible emission logs for the firewater pump engine (EPN A70ECGE503) and

NPA Lab vents for two quarters in 2016 and two quarters in 2017.

Disclosure Date: 04/16/2020 Viol. Classification: Moderate

## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

IN THE MATTER OF AN	<b>§</b>	BEFORE THE
ENFORCEMENT ACTION	§	
CONCERNING	§	TEXAS COMMISSION ON
BLUE CUBE OPERATIONS LLC	§	
RN108772245	§	ENVIRONMENTAL QUALITY

### AGREED ORDER DOCKET NO. 2020-1083-AIR-E

### I. JURISDICTION AND STIPULATIONS

On	, the Texas Commission on Environmental Quality ("the
Commission" or "TCEQ") con	sidered this agreement of the parties, resolving an enforcement
action regarding Blue Cube O	perations LLC (the "Respondent") under the authority of TEX.
HEALTH & SAFETY CODE ch. 38	32 and TEX. WATER CODE ch. 7. The Executive Director of the
TCEQ, through the Enforcement	ent Division, and the Respondent together stipulate that:

- 1. The Respondent owns and operates a chemical manufacturing plant located at 2301 North Brazosport Boulevard in Freeport, Brazoria County, Texas (the "Plant"). The Plant consists or consisted of one or more sources as defined in Tex. Health & Safety Code § 382.003(12).
- 2. The Executive Director and the Respondent agree that the TCEQ has jurisdiction to enter this Order pursuant to Tex. Water Code §§ 7.002, 7.051, and 7.073, and that the Respondent is subject to TCEQ's jurisdiction. The TCEQ has jurisdiction in this matter pursuant to Tex. Water Code § 5.013 because it alleges violations of Tex. Health & Safety Code ch. 382 and the rules of the TCEQ.
- 3. The occurrence of any violation is in dispute and the entry of this Order shall not constitute an admission by the Respondent of any violation alleged in Section II ("Allegations"), nor of any statute or rule.
- 4. An administrative penalty in the amount of \$72,500 is assessed by the Commission in settlement of the violations alleged in Section II ("Allegations"). The Respondent paid \$29,000 of the penalty and \$14,500 of the penalty is deferred contingent upon the Respondent's timely and satisfactory compliance with all the terms of this Order and shall be waived only upon full compliance with all the terms and conditions of this Order. If the Respondent fails to timely and satisfactorily comply with any of the terms and conditions contained in this Order, the Executive Director may demand payment of all or part of the deferred penalty amount.

Pursuant to Tex. Water Code § 7.067, \$29,000 of the penalty shall be conditionally offset by the Respondent's timely and satisfactory completion of a Supplemental Environmental Project ("SEP") as defined in the attached SEP Agreement ("Attachment

- A", incorporated herein by reference). The Respondent's obligation to pay the conditionally offset portion of the penalty shall be discharged upon full compliance with all the terms and conditions of this Order, which includes the timely and satisfactory completion of all provisions of the SEP Agreement, as determined by the Executive Director.
- 5. The Executive Director and the Respondent agree on a settlement of the matters alleged in this enforcement action, subject to final approval in accordance with 30 Tex. ADMIN. CODE § 70.10(a). Any notice and procedures, which might otherwise be authorized or required in this action, are waived in the interest of a more timely resolution of the matter.
- 6. The Executive Director may, without further notice or hearing, refer this matter to the Office of the Attorney General of the State of Texas ("OAG") for further enforcement proceedings if the Executive Director determines that the Respondent has not complied with one or more of the terms or conditions in this Order.
- 7. This Order represents the complete and fully-integrated agreement of the parties. The provisions of this Order are deemed severable and, if a court of competent jurisdiction or other appropriate authority deems any provision of this Order unenforceable, the remaining provisions shall be valid and enforceable.
- 8. This Order shall terminate five years from its effective date or upon compliance with all the terms and conditions set forth in this Order, whichever is later.
- 9. The Executive Director recognizes that the Respondent implemented the following corrective measures at the Plant:
  - a. On February 28, 2019, replaced the flow meter for Cooling Tower 2320.
  - b. On April 25, 2019, removed the stationary internal combustion engine from the Plant.
  - c. By June 1, 2019, implemented measures and procedures designed to ensure that each monitoring system is operated at least 95 percent ("%") of the time the cooling tower is operational.
  - d. On June 20, 2019, began maintaining monthly emissions records for the V-401A Storage Tank.
  - e. On June 26, 2019, began performing quarterly visible emissions observations for Cooling Tower 320 and Cooling Tower 2320.
  - f. On September 17, 2020, submitted a revised deviation report for the April 1, 2018 through September 30, 2018 reporting period to report the deviations for failing to authorize a stationary internal combustion engine and failing to maintain monthly emissions records for the V-401A Storage Tank.

#### II. ALLEGATIONS

During a record review conducted from June 1, 2020 through August 5, 2020, an investigator documented that the Respondent:

- 1. Failed to report all instances of deviations, in violation of 30 Tex. Admin. Code §§ 122.143(4) and 122.145(2)(A), Federal Operating Permit ("FOP") No. O2204, General Terms and Conditions ("GTC"), and Tex. Health & Safety Code § 382.085(b). Specifically, the deviation report for the April 1, 2018 through September 30, 2018 reporting period did not include the deviations for failing to authorize a stationary internal combustion engine and for failing to maintain monthly emissions records for the V-401A Storage Tank.
- 2. Failed to operate each monitoring system at least 95% of the time when the cooling tower is operational, averaged over a calendar year, in violation of 30 Tex. Admin. Code §§ 115.764(a)(3) and 122.143(4), FOP No. O2204, GTC and Special Terms and Conditions ("STC") No. 1.A, and Tex. Health & Safety Code § 382.085(b). Specifically, Cooling Tower 2320 operated continuously during calendar year 2019 but the flow meter had 1,447.75 downtime hours during the months of January 2019, February 2019, and May 2019, resulting in Cooling Tower 2320 being monitored for only 83% of the time in calendar year 2019.
- 3. Failed to obtain authorization prior to constructing or modifying a source of air contaminants, in violation of 30 Tex. Admin. Code §§ 116.110(a) and 122.143(4), FOP No. O2204, GTC, and Tex. Health & Safety Code §§ 382.0518(a) and 382.085(b). Specifically, the Respondent operated a stationary internal combustion engine intermittently from July 1, 2017 through April 25, 2019 without obtaining the proper authorization.
- 4. Failed to conduct quarterly visible emissions observations, in violation of 30 Tex. Admin. Code §§ 116.115(c), 122.143(4), and 122.144(1)(a), FOP No. O2204, GTC and STC No. 3.A.(iv)(1), and Tex. Health & Safety Code § 382.085(b). Specifically, the Respondent did not conduct quarterly visible emissions observations for Cooling Tower 320 and Cooling Tower 2320 from the fourth quarter of 2015 through the first quarter of 2019.
- 5. Failed to maintain records containing the information and data sufficient to demonstrate compliance with the permit, in violation of 30 Tex. Admin. Code §§ 116.115(b)(2)(E)(i) and (c) and 122.143(4), New Source Review Permit No. 48715, Special Conditions No. 7, FOP No. O2204, GTC and STC No. 16,, and Tex. Health & Safety Code § 382.085(b). Specifically, the Respondent did not maintain monthly emissions records for the V-401A Storage Tank.

### III. DENIALS

The Respondent generally denies each allegation in Section II ("Allegations").

### IV. ORDERING PROVISIONS

NOW, THEREFORE, THE TEXAS COMMISSION ON ENVIRONMENTAL QUALITY ORDERS that:

1. The Respondent is assessed a penalty as set forth in Section I, Paragraph No. 4. The payment of this penalty and the Respondent's compliance with all of the requirements set forth in this Order resolve only the allegations in Section II. The Commission shall not be constrained in any manner from requiring corrective action or penalties for violations which are not raised here. Penalty payments shall be made payable to "TCEQ" and shall be sent with the notation "Re: Blue Cube Operations LLC, Docket No. 2020-1083-AIR-E" to:

Financial Administration Division, Revenue Operations Section Attention: Cashier's Office, MC 214 Texas Commission on Environmental Quality P.O. Box 13088 Austin, Texas 78711-3088

- 2. The Respondent shall implement and complete an SEP as set forth in Section I, Paragraph No. 4. The amount of \$29,000 of the assessed penalty is conditionally offset based on the Respondent's implementation and completion of the SEP pursuant to the terms of the SEP Agreement, as defined in Attachment A. Penalty payments for any portion of the SEP deemed by the Executive Director as not complete shall be paid within 30 days after the date the Executive Director demands payment.
- 3. The Respondent shall undertake the following technical requirements:
  - a. Within 30 days after the effective date of this Order, implement measures and/or procedures designed to ensure that all instances of deviations are reported in a timely manner.
  - b. Within 45 days after the effective date of this Order, submit written certification, and include detailed supporting documentation including photographs, receipts, and/or other records to demonstrate compliance with Ordering Provision No.
     3.a. The certification shall be signed by the Respondent and shall include the following certification language:

"I certify under penalty of law that I have personally examined and am familiar with the information submitted and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations."

Blue Cube Operations LLC DOCKET NO. 2020-1083-AIR-E Page 5

The certification shall be submitted to:

Order Compliance Team Enforcement Division, MC 149A Texas Commission on Environmental Quality P.O. Box 13087 Austin, Texas 78711-3087

with a copy to:

Air Section Manager Houston Regional Office Texas Commission on Environmental Quality 5425 Polk Street, Suite H Houston, Texas 77023-1452

- 4. All relief not expressly granted in this Order is denied.
- 5. The duties and provisions imposed by this Order shall apply to and be binding upon the Respondent. The Respondent is ordered to give notice of this Order to personnel who maintain day-to-day control over the Plant operations referenced in this Order.
- 6. If the Respondent fails to comply with any of the Ordering Provisions in this Order within the prescribed schedules, and that failure is caused solely by an act of God, war, strike, riot, or other catastrophe, the Respondent's failure to comply is not a violation of this Order. The Respondent shall have the burden of establishing to the Executive Director's satisfaction that such an event has occurred. The Respondent shall notify the Executive Director within seven days after the Respondent becomes aware of a delaying event and shall take all reasonable measures to mitigate and minimize any delay.
- 7. The Executive Director may grant an extension of any deadline in this Order or in any plan, report, or other document submitted pursuant to this Order, upon a written and substantiated showing of good cause. All requests for extensions by the Respondent shall be made in writing to the Executive Director. Extensions are not effective until the Respondent receives written approval from the Executive Director. The determination of what constitutes good cause rests solely with the Executive Director. Extension requests shall be sent to the Order Compliance Team at the address listed above.
- 8. This Order, issued by the Commission, shall not be admissible against the Respondent in a civil proceeding, unless the proceeding is brought by the OAG to: (1) enforce the terms of this Order; or (2) pursue violations of a statute within the Commission's jurisdiction, or of a rule adopted or an order or permit issued by the Commission under such a statute.
- 9. This Order may be executed in separate and multiple counterparts, which together shall constitute a single instrument. Any page of this Order may be copied, scanned, digitized, converted to electronic portable document format ("pdf"), or otherwise reproduced and may be transmitted by digital or electronic transmission, including but not limited to facsimile transmission and electronic mail. Any signature affixed to this Order shall constitute an original signature for all purposes and may be used, filed, substituted, or

Blue Cube Operations LLC DOCKET NO. 2020-1083-AIR-E Page 6

issued for any purpose for which an original signature could be used. The term "signature" shall include manual signatures and true and accurate reproductions of manual signatures created, executed, endorsed, adopted, or authorized by the person or persons to whom the signatures are attributable. Signatures may be copied or reproduced digitally, electronically, by photocopying, engraving, imprinting, lithographing, electronic mail, facsimile transmission, stamping, or any other means or process which the Executive Director deems acceptable. In this paragraph exclusively, the terms: electronic transmission, owner, person, writing, and written, shall have the meanings assigned to them under Tex. Bus. Org. Code § 1.002.

10. The effective date of this Order is the date it is signed by the Commission. A copy of this fully executed Order shall be provided to each of the parties.

### **Attachment A**

## Docket Number: 2020-1083-AIR-E SUPPLEMENTAL ENVIRONMENTAL PROJECT

Blue Cube Operations LLC
\$58,000
\$29,000
Contribution to a Third-Party Pre-Approved SEP
Houston-Galveston Area Council-AERCO
Clean Vehicles Partnership Project

<u>Location of SEP:</u> Angelina, Austin, Brazoria, Chambers, Colorado, Fort Bend, Galveston, Hardin, Harris, Houston, Jasper, Jefferson, Liberty, Matagorda, Montgomery, Nacogdoches, Newton, Orange, Polk, Sabine, San Augustine, San Jacinto, Trinity, Tyler, Walker, Waller, and Wharton Counties

The Texas Commission on Environmental Quality ("TCEQ") agrees to offset a portion of the administrative penalty amount assessed in this Agreed Order for the Respondent to contribute to a Supplemental Environmental Project ("SEP"). The offset is equal to the SEP Offset Amount set forth above and is conditioned upon completion of the project in accordance with the terms of this Attachment A.

## 1. Project Description

### a. Project

The Respondent shall contribute the SEP Offset Amount to the Third-Party Administrator named above. The contribution will be to the **Houston-Galveston Area Council-AERCO** for the *Clean Vehicles Partnership Project*. The contribution will be used in accordance with the SEP between the Third-Party Administrator and the TCEQ (the "Project"). Specifically, the SEP Offset Amount will be used to replace old, higher emission buses that do not meet 2010 Environmental Protection Agency ("EPA") emissions standards ("Old Buses") with new, lower emission buses that meet the most recent EPA emissions standards ("New Buses") or to retrofit or convert Old Buses with emissions reducing equipment. The Third-Party Administrator shall allocate the SEP Offset Amount to public entities such as school districts, local governments, and public transit authorities ("SEP Administrators") that apply for replacement, retrofit, or conversion of buses.

The SEP Offset Amount may also be used for retrofit or conversion technology that brings an Old Bus up to current EPA emissions standards. New Buses may be alternative-fueled. The SEP Offset Amount may be used for up to 100% of the replacement, conversion, or retrofit cost. The SEP Offset Amount will be used only for purchase of New Buses or conversion or retrofit equipment and contract labor for

Blue Cube Operations LLC Agreed Order - Attachment A

installation of equipment. The SEP Offset Amount will not be used for financing such a purchase through a lease-purchase or similar agreement.

Retrofitting means reducing exhaust emissions to current standards by installing devices that are verified or certified by the EPA or the California Air Resources Board as proven retrofit technologies. Converting means replacing an engine system with an alternative fuel engine system to bring the Old Bus within the current EPA emissions standards. Buses to be replaced, retrofitted, or converted must be in regular use (driven at least five hundred miles per year for at least the past two years) by the SEP Administrator and must not already be scheduled for replacement in the following twenty-four months. All replaced buses must be fully decommissioned. The Third-Party Administrator shall provide proof of decommissioning to TCEQ for each replaced vehicle by submitting a copy of the TCEQ SEP Vehicle Replacement Disposition Form. The SEP will be done in accordance with all federal, state, and local environmental laws and regulations.

All dollars contributed will be used solely for the direct cost of implementing the Project, including, but not limited to supplies, materials, and equipment. Any portion of this contribution that is not spent on the specifically identified SEP may, at the discretion of the Executive Director ("ED"), be applied to another pre-approved SEP.

The Respondent's signature affixed to this Agreed Order certifies that the Respondent has no prior commitment to make this contribution and that it is being contributed to settle this enforcement action. The Respondent shall not profit from this SEP.

### b. Environmental Benefit

This SEP will directly benefit air quality by reducing harmful exhaust emissions that contribute to the formation of ozone and may cause or exacerbate many respiratory diseases, including asthma. For example, by replacing a 1989 diesel bus with a 2010 ultra-low emission model, passengers' exposure to nitrogen oxides may be reduced by 98 percent; volatile organic compounds by 93 percent; carbon dioxide by 83 percent; and particulate matter by 99 percent. In addition, by encouraging less bus idling, this SEP contributes to public awareness of air pollution and air quality.

### c. Minimum Expenditure

The Respondent shall contribute at least the SEP Offset Amount to the Third-Party Administrator and comply with all other provisions of this SEP.

#### 2. Performance Schedule

Within 30 days after the effective date of this Agreed Order, the Respondent must contribute the SEP Offset Amount to the Third-Party Administrator. The Respondent shall make the check payable to **Houston-Galveston Area Council-AERCO SEP** and shall mail the contribution with a copy of the Agreed Order to:

Houston-Galveston Area Council-AERCO Attn: Air Quality Program Manager P.O. Box 22777 Houston, Texas 77227-2777

## 3. Records and Reporting

Concurrent with the payment of the SEP Offset Amount, the Respondent shall provide the Enforcement SEP Coordinator with a copy of the check and transmittal letter indicating full payment of the SEP Offset Amount to the Third-Party Administrator. The Respondent shall mail a copy of the check and transmittal letter to:

Texas Commission on Environmental Quality Enforcement Division Attention: SEP Coordinator, MC 219 P.O. Box 13087 Austin, Texas 78711-3087

## 4. Failure to Fully Perform

If the Respondent does not perform its obligations under this Attachment A, including full expenditure of the SEP Offset Amount and submittal of the required reporting described in Sections 2 and 3 above, the ED may require immediate payment of all or part of the SEP Offset Amount.

In the event the ED determines that the Respondent failed to fully implement and complete the Project, the Respondent shall remit payment for all or a portion of the SEP Offset Amount, as determined by the ED, and as set forth in the attached Agreed Order. After receiving notice of failure to complete the SEP, the Respondent shall include the docket number of the attached Agreed Order and a note that the enclosed payment is for the reimbursement of a SEP; shall make the check payable to "Texas Commission on Environmental Quality"; and shall mail it to:

Blue Cube Operations LLC Agreed Order - Attachment A

> Texas Commission on Environmental Quality Litigation Division Attention: SEP Coordinator, MC 175 P.O. Box 13087 Austin, Texas 78711-3087

### 5. Publicity

Any public statements concerning this SEP and/or project, made by or on behalf of the Respondent must include a clear statement that **the Project was performed as part of the settlement of an enforcement action brought by the TCEQ**. Such statements include advertising, public relations, and press releases.

## 6. Recognition

The Respondent may not seek recognition for this contribution in any other state or federal regulatory program.

### 7. Other SEPs by TCEQ or Other Agencies

The SEP Offset Amount identified in this Attachment A and in the attached Agreed Order has not been, and shall not be, included as a SEP for the Respondent under any other Agreed Order negotiated with the TCEQ or any other agency of the state or federal government.
