Re: Proposed Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016003001

Dear Ms. Gharis,

My staff and I have reviewed the hundreds of public comments on the application for a pollutant discharge elimination permit WQ0016003001 and have received numerous comments from constituents in opposition to this permit in my State Senate District.

As the State Senator for this area, I am opposing this application for a permit. I encourage the developers of this project, as the applicant for an original wastewater permit, to fully engage the affected residents, neighborhoods, and cities within the Maxwell Creek watershed to fully address the concerns residents have expressed both to my office and the TCEQ.

Thank you for your consideration of this request. Please contact my office if you have further questions.

Blessings,
