FINDINGS OF FACT

- 1. Respondent owns and operates, as defined in 30 Tex. Admin. Code § 334.2, a UST system and a convenience store with retail sales of gasoline located at 6215 North Doffing Road in Mission, Hidalgo County, Texas (Facility ID No. 69879) (the "Facility"). The USTs at the Facility are not exempt or excluded from regulation under the Texas Water Code or the rules of the Commission, and they contain or contained a regulated petroleum substance as defined in the rules of the TCEO.
- 2. During an investigation conducted on May 9, 2022, an investigator documented that Respondent:
 - a. Failed monitor the UST in a manner which will detect a release at a frequency of at least once every 30 days;
 - b. Failed to provide release detection for the pressurized piping associated with the UST system. Specifically, Respondent had not conducted the annual line leak detector and piping tightness tests for the UST at the Facility;
 - Failed to maintain required operator training certification documentation on-site and make it available for inspection upon request by agency personnel.
 Specifically, documentation for the Class A/B and Class C operator training certification was not available for review at the time of the investigation; and
 - d. Failed to assure that all UST recordkeeping requirements are met. Specifically, Respondent failed to provide triennial corrosion protection testing records and proof of overfill prevention.
- 3. By letter dated July 1, 2022, Respondent was provided with written notice of the violations and of TCEQ's authority to shut down and remove from service USTs not in compliance with release detection, spill and/or overfill prevention, corrosion protection, and/or financial assurance requirements if the violations were not corrected.

- 4. The Executive Director filed the "Executive Director's Preliminary Report and Petition Recommending that the Texas Commission on Environmental Quality Enter an Enforcement Order Assessing an Administrative Penalty Against and Requiring Certain Actions of SORT Valley LLC dba Mini Max 4" (the "EDPRP") in the TCEQ Chief Clerk's office on December 5, 2023.
- 5. By letter dated December 5, 2023, sent to Respondent's last known address via certified mail, return receipt requested, postage prepaid, the Executive Director served Respondent with notice of the EDPRP. According to the return receipt "green card," Respondent received notice of the EDPRP on December 7, 2023, as evidenced by the signature on the card.
- 6. More than 20 days have elapsed since Respondent received notice of the EDPRP. Respondent failed to file an answer and failed to request a hearing.
- 7. By letter dated October 15, 2024, the Executive Director provided Respondent with notice of TCEQ's intent to order the USTs at the Facility to be shut down and removed from service if Respondent failed to correct the release detection violations within 30 days after Respondent's receipt of the notice.
- 8. As of the date of entry of this Order, Respondent has not provided the Executive Director with documentation demonstrating that the release detection violations alleged in Findings of Fact Nos. 2.a. and 2.b. have been corrected.
- 9. The USTs at the Facility do not have release detection as required by Tex. Water Code § 26.3475(a) and (c)(1) and 30 Tex. Admin. Code § 334.50(b)(1)(A) and (b)(2), and they may be releasing petroleum products to the environment. Therefore, conditions at the Facility constitute an imminent peril to public health, safety, and welfare.

CONCLUSIONS OF LAW

- 1. As evidenced by Finding of Fact No. 1, Respondent is subject to the jurisdiction of the TCEQ pursuant to Tex. Water Code ch. 26 and the rules of the TCEQ.
- 2. As evidenced by Finding of Fact No. 2.a., Respondent failed to monitor the UST in a manner which will detect a release at a frequency of at least once every 30 days, in violation of Tex. WATER CODE § 26.3475(c)(1) and 30 Tex. ADMIN. CODE § 334.50(b)(1)(A).
- 3. As evidenced by Finding of Fact No. 2.b., Respondent failed to provide release detection for the pressurized piping associated with the UST system, in violation of Tex. Water Code § 26.3475(a) and 30 Tex. Admin. Code § 334.50(b)(2).
- 4. As evidenced by Finding of Fact No. 2.c., Respondent failed to maintain required operator training certification documentation on-site and make it available for inspection upon request by agency personnel, in violation of 30 Tex. ADMIN. CODE § 334.606.
- 5. As evidenced by Finding of Fact No. 2.d., Respondent failed to assure that all UST recordkeeping requirements are met, in violation of 30 Tex. Admin. Code § 334.10(b)(2).
- 6. As evidenced by Findings of Fact Nos. 4 and 5, the Executive Director timely served Respondent with proper notice of the EDPRP, as required by Tex. Water Code § 7.055 and 30 Tex. Admin. Code § 70.104(b)(1).
- 7. As evidenced by Finding of Fact No. 6, Respondent failed to file a timely answer as required by Tex. Water Code § 7.056 and 30 Tex. Admin. Code § 70.105. Pursuant to Tex. Water Code § 7.057 and 30 Tex. Admin. Code § 70.106, the Commission may enter a Default Order against Respondent and assess the penalty recommended by the Executive Director.

- 8. Pursuant to Tex. Water Code § 7.051, the Commission has the authority to assess an administrative penalty against Respondent for violations of state statutes within TCEQ's jurisdiction, for violations of rules adopted under such statutes, or for violations of orders or permits issued under such statutes.
- 9. An administrative penalty in the amount of \$6,619 is justified by the facts recited in this Order, and considered in light of the factors set forth in Tex. WATER CODE § 7.053.
- 10. As evidenced by Findings of Fact Nos. 2.a., 2.b., 3, 7, and 8, Respondent failed to correct documented violations of TCEQ release detection requirements within 30 days after Respondent received notice of the violations and notice of the Executive Director's intent to shut down the USTs at the Facility.
- 11. Tex. Water Code §§ 26.3475(e) and 26.352(i) authorize the Commission to order a UST owner or operator to shut down a UST system if, within 30 days after receiving notice of the violations, the owner or operator fails to correct violations of TCEQ regulatory requirements relating to release detection for tanks and/or piping, spill and/or overfill prevention for tanks, corrosion protection for tanks and/or piping, and/or acceptable financial assurance.
- 12. Tex. Water Code §§ 5.102 and 7.002 authorize the Commission to issue orders and make determinations necessary to effectuate the purposes of the statutes within its jurisdiction.
- 13. Pursuant to 30 Tex. Admin. Code § 334.8(c)(6), the Commission has authority to revoke the Facility's UST fuel delivery certificate if the Commission finds that good cause exists.
- 14. Good cause for revocation of the Facility's UST fuel delivery certificate exists as justified by Findings of Fact Nos. 2 and 4 through 6, and Conclusions of Law Nos. 2 through 7.
- 15. As evidenced by Findings of Fact Nos. 8 and 9, current conditions at the Facility constitute an imminent peril to public health, safety, and welfare. Therefore, pursuant to the Administrative Procedure Act, Tex. Gov't Code § 2001.144(a)(3), this Order is final and effective on the date it is signed by the Commission.
