COMMENTS: I filed timely for a contested case hearing for this application on April 20, 2022. I received a receipt of the filing but haven't heard anything from TCEQ about this since April 22, 2022 when I received the receipt of my request. I have looked online at the status which appears unclear to me. Will I be receiving a date for my contested case hearing, or did I get skipped over somehow? Dana Garrett 1893 Borchert Loop Lockhart TX 78644

COMMENTS: We request a contested case hearing on this case because the 499,000 gallons per day on top of Walton's 1.5 million per day that has already permitted for the Clear Fork Branch of Plum Creek is going to be detrimental to the Fauna and Flora of our pristine Clear Fork Creek. The proposed location is 2,376 feet upstream from our property that is a wildlife habitat for Canadian Geese, Whistling Ducks, Egyptian Geese, Pileated Woodpeckers, Peacocks, Wood Ducks, Guineas, and Chickens. Children play in our clean spring creek waters as well. This enormous amount of additional

wastewater being dumped daily into the creek is dangerous for the health of all creatures that depend on the water for their existence.

This letter will serve as my family's official position regarding the permit requested by PHAU-Lockhart 450, LLC on behalf of the Estates of Heartland Ranch.

I, Shalaina Walker, hereby declare that I am in total **opposition** to the permit no. WQ0016107001 to allow a sewage wastewater treatment facility to be built at the intersection of TX State Highway 142 and Borchert Loop, Lockhart, Texas.

There are many factors that contribute to our opposing a sewage wastewater facility being so close to our home.

First and foremost, I worry about the health and safety of my family. Gastrointestinal issues, respiratory illnesses, and cancers have been found to be directly linked to living near of sewage wastewater facilities. My daughter is asthmatic. The pollutants emitted from such a facility has the potential to greatly exacerbate her troubles with breathing.

Secondly, my family's quality of life would suffer greatly as well. My family has built and lived in our home since 2006. To see our peace of mind ripped away by introducing pests (flies, roaches, etc.) that are attracted to sewage wastewater facilities, compounded with the constant smell of feces attributed with living downwind of a sewage wastewater facility is heartless at best.

Lastly, there is the issue of money. While I am sure PHAU-Lockhart 450, LLC is set to make a hefty profit (at the expense of my family's health), we must also consider the loss of value of our home that my husband and I stand to stand to take. The existence and close physical location of a sewage wastewater treatment facility to our home would severely devalue our property.

I/we request a contested case hearing to discuss permit no. WQ0016107001 and my **opposing** it being granted. My home sits directly in adjacent to the proposed site of the facility. TCEQ, I implore you, as a tax paying and concerned citizen, to please consider rejecting the permit to allow the building of this sewage wastewater facility so dangerously close to our family's home.

Sincerely,

Shalaina Walker
