Livingston, TX 77351

I'm a concerned "AFFECT PERSON
POINTS OF INTERESTS":

- ENVIRONMENTAL Impact study
- Discharging in to a somewhat STAGNANT water way where it will become the major flow
- Engineering. ASSUMPTIONS on
- Problems "NOT" anticipated &
- Well water contaminated
- Location
- Dechlorination
- NOT ALL exceptable levels of chlorine in areas like Rocky creek's wildlife

- Effluent Discharge Levels
- Implementation of BENEFICIAL Reuse
- Disinfectant Method + AMTS.
- Impact on Rocky creek, Kickapoo creek
- Segment No. 0803 are primary contact:
 - Recreational use
 - Public water supply
 - High aquatic life use
 - and more
- Lake Livingston is currently listed as an impaired water body in the TEXAS 303(d)
- Low Level in 1988, 1997, 2005, 2007 also 2022. more are listed in

This creates land locked areas

- My bussiness relies on fishing and recreation.
- My Business was started in 1969 - now I have seen Kickapoo creek 4in deep + clear water Now it's 20ft deep

Chimney Creek
after

- Measurements of opening in Hwy 190 bridge to main lake very small. Water flow study from 2 Creek Cross site to Main Lake.
This Kickapp Creek has ^{en}questionable Water flow regime
- Effects of chlorinated effluents on aquatic ecosystem
- Feasibility Study on the 80 acres before construction began
- 45,000 gals chlorinated waste water
- EMERGANCE Shut off plan.
- Testing on waste water before contaminating this very small creek
- Drawing attached are not to scale only to show what the affected areas look like.

If the subjects are duplicated in this letter. It's because I'm very worried about the effect on my income - needed to run my business.

It's true Lake Livingston is polluted by improper management of the Trinity River industries. That shouldn't make it OK to give the entire lake a yes to all treatment plant applications, with out any study or consideration of conditions.

The Only thing I'm concerned about is the chlorine amt. and any accidental mistakes connected to this waste sewer plant of 2 creeks crossing.

Very Concerned
Thank you.
