COMMENTS: April 8th, 2022 Office of the Chief Clerk, MC 105 Texas Commission on Environmental Quality PO Box 13087 Austin, TX 78711-3087 Hawthorn Park Landfill RN102664232 TCEQ Permit No: 2185A To Whom it May Concern: Thank you for allowing me the opportunity to provide comments on the Hawthorn Park Landfill expansion project. I understand the Carverdale community has concerns regarding the current proposal as is, and I respectfully request their concerns be addressed before moving forward. I commend the Texas Commission on Environmental Quality (TCEQ) for

scheduling a second in-person public meeting regarding USA Waste of Texas Landfills, Inc. / Application No. 2185A as public participation is an integral part of the permitting process. I support Council Member Peck's request to reduce the maximum height of the landfill and to require additional air monitoring in the area. I share the concerns of the community and ask for your consideration of these requests during the public engagement process. Warm regards, Sallie Alcorn

COMMENTS: RE: TCEQ Permit No. 2185A Dear Texas Commission on Environmental Quality, Thank you for the opportunity to provide written comment on the Hawthorn Park Recycling and Disposal Facility permit amendment. I spoke at the virtual meeting on January 18, 2021 in support of my colleague, Council Member Amy Peck, and the many residents opposing this amendment. The Carverdale neighborhood has a rich history and a strong sense of community.

The residents who spoke last night voiced their continued displeasure with the Hawthorn Park facility and reiterated the health and safety concerns they have had during its operation. Expanding this facility, when previous concerns have yet to be addressed, is inadvisable. I support Council Member Peck's request to reduce the maximum height of the landfill and to require additional air monitoring in the area. This will better protect the closest and most affected neighbors of the Carverdale community. Sallie Alcorn

Dear Texas Commission on Environmental Quality,

Thank you for the opportunity to provide written comment on the Hawthorn Park Recycling and Disposal Facility permit amendment.

I spoke at the virtual meeting on January 18, 2021 in support of my colleague, Council Member Amy Peck, and the many residents opposing this amendment.

The Carverdale neighborhood has a rich history and a strong sense of community. The residents who spoke last night voiced their continued displeasure with the Hawthorn Park facility and reiterated the health and safety concerns they have had during its operation. Expanding this facility, when previous concerns have yet to be addressed, is inadvisable.

I support Council Member Peck's request to reduce the maximum height of the landfill and to require additional air monitoring in the area. This will better protect the closest and most affected neighbors of the Carverdale community.

COMMENTS: Tanner Road is a very dangerous Road between Beltway and Gessner since it is 2 lanes with no shoulder and it floods frequently. The additional traffic is a major concern of mine. We know of two pedestrians killed walking on the side of the road crowded by the ditch and the road. We also saw over 25 vehicles towed during the last flood as they

fell off the road that is so deeply rutted on the sides, their vehicles got trapped. Can someone help us get this road widened to accommodate the additional traffic that this expansion will create and keep citizens safe?

COMMENTS: As a Home owner in Carverale I inherited my home from my mother and plan to leave it to my kids. I have suffered with this landfill my whole life. I do not want my kids or grandkids to suffer as the residents that are my age and my mothers age. I have a lot of health issues and so did my mother before he passed away a few years after this landfill was first brought here. No one has actually looked at the causes of death out here because it's not their family. I am asking for you all not allow us to suffer with this landfill for another 40 plus years. I pay my taxes like every other

resident in there community and I don't want to keep losing property value because we have a dump a block from my home. Give us a chance to breath a breathe of fresh air for change. Let's not put it in anyone's community especially if you won't put it in yours. Please listen to the community we are crying out for environmental protection.

COMMENTS: As someone who has been in Carverdale since birth and with my parents raising 12 kids in the community I am very disappointed that we are dealing with this again as if our health, property or well-being is not important. TCEQ is suppose to protect people, kids, animals and the environment in this case to even consider adding another 40 years to our community is UNJUST and UNACCEPTABLE!!! We need a breath of fresh air please. Please hear the cries from our ancestors and from the people NO LANDFILL close it down like they promised. Think about the future we have growing

up not seeing the state agencies caring about their health and well-being then they would think that's how it will always be. Show them something different show them that you really do care about them and not just wildlife. I ask if you would want this in your community for 40 years affecting you and your children. We have had our turn let's end this now. We all can agree that landfills and dumps are needed, but not in anyone's community. Please stop our suffering

Re: Comments on USA Waste of Texas Landfills, Inc. Major Amendment Application for Permit 2185A in Harris County, TX.

Dear Ms. Gharis,

Harris County Pollution Control Services (PCS) respectfully submits the following comments on the USA Waste of Texas Landfills Inc. application referenced above. The application is requesting to change the name of the facility to Hawthorn Park Recycling and Disposal Facility and a lateral and vertical expansion of the facility.

PCS inspects facilities in Harris County for compliance with solid waste laws and regulations, reviews permit applications and submits comments to the Texas Commission of Environmental Quality (TCEQ) on permitting actions. PCS also works closely with the TCEQ's Houston Region 12 office, which refers a substantial portion of environmental complaints, including nuisance complaints, from Harris County citizens to PCS. PCS then investigates these complaints and, when appropriate, issues Violation Notices and refers cases to the Harris County Attorney's Office or District Attorney's Office for civil or criminal enforcement.

The Hawthorn Park Recycling and Disposal (Hawthorn) Facility is located at 10550 Tanner Road, Houston, Texas 77041. This is a mixed commercial, industrial, and residential area. The nearest residence is 50 feet from the southern portion of the landfill. PCS has conducted a review of the application dated February 2021 and submits the following comments and recommendations for your consideration.

All Weather Operations

Hawthorn will remove mud and debris at least once per day when it is tracked on the road. Sweepers will also be used to clean the road. The onsite access road will be inspected daily and dust controlled with water trucks that use water from the detention pond.

PCS Recommendation

PCS recommends the permit include a provision requiring Hawthorn to keep a daily log of inspections and activities and create a table of required scheduled activities for easy reference for operators, employees, and inspectors.

Program for Detection and Prevention of Regulated Hazardous Wastes and Prohibited PCBs

This program includes random inspections of incoming loads and records of the random inspections. The random inspection of loads will be conducted on one waste vehicle per day.

PCS Recommendation

PCS recommends the permit include a provision requiring random inspections be performed daily for more than 10% of the incoming loads to ensure prohibited wastes do not enter the landfill and maintain a log of all inspections.

Landfill Gas Management Plan

The number of gas probes has not changed or increased. If a probe is damaged or inoperable a stationary perimeter probe will be installed and upon completion an installation report will be sent to TCEQ. During sampling events if a replacement probe is not in place yet results from a bore-hole sample will be sent.

PCS Recommendation

PCS recommends special annotations be made in the data indicating the sample was taken from a bore-hole instead of a gas probe. PCS requests that Hawthorn provide justification for the gas probe not being available to provide samples.

PCS is concerned the proposed Landfill Gas Management Plan does not adequately address the gas monitoring needs of the proposed expansion. Therefore, PCS requests additional gas probes to be installed in anticipation of damaged or inoperable gas probes.

Transportation Study

A transportation study was conducted in 2020 using historical October 2019 data due to the pandemic. Different analysis was performed for the year 2019 at existing conditions, the year 2068 conditions if the landfill expansion does not occur (background), and the year 2068 conditions if the landfill expansion does occur (projected). There are no known weight restrictions in the proximity

of the site other than the maximum legal weight limit of 80,000 lbs. The hours of operation at the landfill are Monday through Saturday, 5:00 AM – 9:00 PM with waste acceptance hours of Monday through Saturday 6:00 AM – 7:00 PM. Access to the site will remain on the north side of Tanner Road, which is a two-lane road that presently has no turning lane. Peak hours used in the study were identified as 7:00 AM to 8:00 AM and 4:00 PM to 5:00 PM.

The capacity analysis summary states the signaled and un-signaled intersections are currently operating at an unacceptable level of service, and in 2068 with or without the landfill the unacceptable level of service will continue. The landfill does not contribute to changing the level of service. The study concluded that landfill traffic would only account for a small percentage of the traffic on the surrounding roads.

The initial waste acceptance rate will be 150,000 tons/year for Year 1, 200,000 tons/year for Year 2, and is expected to increase to 1.2% per year with an estimated max acceptance rate of 342,100 tons/year when the 46.3 active site life is reached.

PCS Recommendation

The peak time used is only one hour in the morning and one hour in the evening. This does not reflect the actual peak hours of traffic in the area, which should be extended to 3 hours in the morning, 6:00 AM to 9:00 AM, and 3 in the afternoon, 3:00 PM to 6:00 PM. This would also reflect the hours when waste would be accepted at the landfill, and waste vehicles would most likely be impacting traffic and communities in the area.

PCS recommends the traffic study reassess the peak hours used to draw the current conclusion and determine if they are valid. PCS further requests the traffic study extend the hours to those proposed above to more accurately reflect the impact of waste vehicles on traffic in the area.

Additionally, based on the analysis conducted the traffic situation is already at an unacceptable level. The addition of large waste vehicles will not improve the situation but instead contribute to the continuation of unacceptable levels of service as well as further destruction of the roads.

PCS recommends the traffic study also reflect the effects large vehicles will have on the level of service and the destruction of the roads by including the type of large waste vehicles used in the study, for example, pickup trucks with trailers, vehicles with roll-offs, semi-trucks, flatbeds, dump trucks, garbage trucks, etc.

PCS is concerned based on the traffic study the conditions surrounding the landfill are already at an unacceptable level of service and allowing further large waste vehicle traffic to enter the area for the landfill will cause more harm to the neighboring communities who are already in an abysmal traffic situation according to the study.

PCS recommends the waste acceptance rate remain at 150,000 tons/year to prevent traffic congestion and minimize the impact on the infrastructure.

Disease Vector Control

Non-lethal bird control measures such as pyrotechnics may be used to discourage birds at Hawthorn.

PCS Recommendation

PCS is concerned the use of pyrotechnics to discourage birds may cause noise complaints and create fire hazards during dry weather and would recommend Hawthorn limit the use of pyrotechnics.

PCS appreciates the opportunity to submit these comments for your consideration. Should you or other TCEQ staff have questions, contact Elita Castleberry at (713) 274-6236 or by email at elita.castleberry@pcs.hctx.net.

Sincerely,

Dr. Latrice Babin

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY
2021 JUN -7 PM 1:58
CHIEF CLERKS OFFICE

June 2, 2021

Laurie Gharis, Chief Clerk
Texas Commission on Environmental Quality
Office of the Chief Clerk, MC 105
P. O. Box 13087
Austin, TX 78711-3087

Re: Comments on USA Waste of Texas Landfills, Inc. Major Amendment Application for Permit 2185A in Harris County, TX.

Ms. Gharis.

Harris County Pollution Control Services (PCS) respectfully submits the following comments on the USA Waste of Texas Landfills Inc. application referenced above. The application is for authorizing the name change of the facility to Hawthorn Park Recycling and Disposal Facility and the lateral and vertical expansion of the facility.

PCS inspects facilities in Harris County for compliance with solid waste laws and regulations; reviews permit applications and comments to the TCEQ on permitting actions. PCS also works closely with the TCEQ's Houston regional office, referring to a substantial portion of environmental complaints, including nuisance complaints, from Harris County citizens to PCS. PCS then investigates these complaints and, when appropriate, issues Violation Notices or refers cases to the Harris County Attorney's Office or District Attorney's Office for civil or criminal enforcement.

PCS is concerned that the vertical and horizontal expansion proposed by USA Waste of Texas Landfills, Inc. will create a potentially damaging footprint in the community of Northwest Houston. Current vertical limits have created a highly visible operation covering 171.6 acres on property 500 feet east of West Sam Houston Parkway and adjacent to residential neighborhoods. An addition of 87.8 feet, equivalent to a seven-story building, would create an unwelcoming structure for community members.

PCS recommends that the current maximum elevation of 139.4 feet above mean sea level to be maintained.

As for the proposed lateral expansion, the application indicates an overall reduction in landfill gas monitoring devices. PCS is concerned the proposed Landfill Gas Management Plan does not adequately address the gas monitoring needs of the proposed expansion. PCS recommends that the facility retain gas monitoring probes GP-16, GP-17, GP-23R, and GP-24. Additionally, PCS recommends the relocation and addition of the following gas monitoring probes:

- GP-5 relocated north, between GP-4 and GP-13.
- GP-7 relocated south, between GP-8 and GP-28.
- GP-14 relocated north, between GP-13 and GP-26.
- Gas monitoring probe was added between GP-22 and GP-15.
- Gas monitoring probe was added between GP-3 and GP-4.

Additionally, the proposed expansion would increase waste capacity from 71,726 cubic yards to 16,106,490 cubic yards. That is 224 times the current remaining capacity. Based on the densely populated and high trafficked location of the landfill, the current waste acceptance rate should remain at 150,000 tons per year to prevent additional traffic congestion and minimize the depletion of an already stressed infrastructure.

Operationally, PCS is concerned that the submitted application does not properly address odor management, given the only described control is additional cover application upon odor detection. PCS recommends the addition of an odor control system that can be utilized to detect odors during an odor survey or an odor complaint.

COMMENTS: According to my HCPC Notice this permit is for a permanent Concrete Batch Plant! This Possible source of air pollution is approximately 600 feet SE from my property line the way the wind blows I am 65 years old with heart and breathing problems. My wife suffers from Heart, Colon, Allergies, and COPD she is 70 years old. This plant if allowed to operate it would on any given day affect nearby neighbor hoods, polluting N-E-S-W residential neighborhoods. The oldest being the Original Old Huffman Town-site Not only is this a pollutant! I presume the Entity is being given permits

to build and operate within The Harris County Flood Plain I clearly do not agree with operation approval as our homes were Flooded by Harvey and Imelda among other storms. The location of this plant borders HCFCD Q134-01-00 and is only slightly East of Cedar Bayou. How can runoff pollution be controlled in these waterways? I cant see this property having the capacity of sq footage to have adequate retention area with all the aggregate on inventory. Where will water waste from constant cleaning of the trucks go.. I see nothing but bad eminating from this operation if Allowed!

COMMENTS: I believe that the expansion of the landfill will only add to more health problem than it already provided. Landfills should not be anywhere near residential communities. I fear that groundwater and soil will become contaminated with God knows what causing sickness to near by residents. I think that because the rain water drainage is not good go down Tanner Rd.

COMMENTS: Our residential area is becoming more and more commercial. We still have children growing up in this community. We have enough. We do not need a dump to continue yo decrease our property value. Communities of color continue to face disparities every day. Why a waste site in my neighborhood. My family owns a restaurant in the community. This will be an added eye sore to what we are already seeing.

COMMENTS: My name is Hugh Carter and I am against the Tanner Rd Landfill expansion. I was born and raised in the Carverdale community and those landfills and dump sites have always been an unwelcomed eye sore. Imagine it in your community for your children to see and smell. We want better for our community, for the place we raise our kids. Tanner Rd is and always have been the worst rd to travel in our community from all the heavy trucks carrying rock and debris. Yet we have churches and a community park on the same road. There's a soccer field and homes right accross

and on the same street next to that project. Enough is enough! They can claim to meet all the regulations they want but we the community are the ones that will have to deal with it day in and day out. Thank you for your time in considering this matter, Hugh Carter.

COMMENTS: I oppose the existence of the Hawthorn Park Landfill period. It should be removed out of the Carverdale Neighborhood.

Petition Against Permit Number 2185A, Hawthorn Park Recycling and Disposal Facility

MY COMMENT: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore I am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, I am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.

Petición contra el permiso número 2185A, instalación de reciclaje y eliminación de Hawthorn Park

MI COMENTARIO: Me opongo a la expansión del vertedero existente en Carverdale, el vertedero de Hawthorn Park (HPL), y por lo tanto le pido a la Comisión de Calidad Ambiental de Texas (TCEQ) que niegue el permiso número 2185A, la instalación de reciclaje y eliminación de Hawthorn Park. Además, le pido al TCEQ que cierre permanentemente el HPL, el vertedero existente, porque elimina la capacidad de Carverdale para prosperar como vecindario e impide la capacidad de los residentes de Carverdale para vivir, trabajar y aprender en un ambiente saludable.

Petition In Opposition to Permit Number 2185A, Hawthorn Park Recycling and Disposal Facility

PASTOR'S COMMENT: Whereas the existing landfill has harmed the Carverdale Community for more than 30 years and USA Waste of Texas Landfills, Inc. (Waste Management) has applied to the Texas Commission on Environmental Quality for a permit amendment to authorize the expansion of the Hawthorn Park Landfill that would increase its active life 46.5 more years by installing a permanent Mountain of Trash on top of the existing landfill waste; As Pastor of a local Church in the Carverdale Community, I am opposed to said landfill expansion and I am hereby asking the Texas Commission of Environmental Quality to deny Permit Number 2185A, so that Carverdale residents may live, work, and learn in a healthy environment.

COMMENTS: Why can't you utilize the existing facilities in lieu of opening another one. Carverdale has dealt with the odor, and we do not know the health issues that s coming from the Landfill. Tanner Road is a mess when it rains, the road flood, yet you are wanting to have additional trucks and massive traffic if andcwhen the new Landfill open. The cyfair ISD closed Carverdale school because of the landfills because they didn't want to expose the white children to the dump. Please thank about our neighborhood and not permit another dum to open PLEASE, put one in Katy or CYPRESS.

I oppose any proposed expansion of the current landfill. The facility is located less than 1 mile away from a community of hundreds of homes. This community already suffered from the Watson explosion, noise pollution from the Cyrus One data centers and the beltway, and now we will be forced to suffer odor and toxin pollution. Enough is enough.

RE: Hawthorn Park Recycling and Disposal Facility, 10550 Tanner Road, TCEQ Permit MSW-2185A

To Whom it May Concern:

On behalf of the Board of Directors of the West Houston Association, we are writing to express our concern about the proposed permit amendment. The expansion of the landfill vertically and horizontally negatively impacts the existing residential and new residential communities within a mile and a half of the landfill both visually and regarding mobility.

The permit application states that the "maximum final contour elevation of the expanded facility will increase from approximately 139.4 ft-msl to approximately 227.2 ft-msl." This would potentially increase the eyesore that already exists next to the community and is becoming increasing surrounded with industrial development. We recognize that WM has proposed that most of the landfill would not be visible above the tree line but would hope for additional actions to enhance the visual appeal of the area or lower the height of the landfill.

Mobility is already an issue in the area and continued and potentially increased traffic due to the expansion of the life of the landfill would further impact regional mobility. Tanner Road is a key east - west entrance road for residents and businesses in the area. This road is two lanes and poorly maintained, making for an already unsightly and potentially dangerous entrance into the community. Continued and potentially increased heavy truck traffic from the landfill will exacerbate the roadway condition.

The West Houston Association believes that everyone should find great experiences and opportunities in Greater West Houston because it is resilient, well-planned, well-maintained, and welcoming. We would like TCEQ to consider the concerns raised here and seek to find a mutually agreeable solution.

COMMENTS: I am looking at the nearby residential area for this landfill and understand that the residents are very upset about the renewal and expansion of this MSW permit. I can easily see how the proposed height expansion is troubling for the residents. It seems that dust suppression measures could be required of the permittee to reduce respirable particulates in the air from the truck traffic. In fact, a review of 30 TAC 111 seems warranted, although my recollection is that it does not address such areas comprehensively since the area is not in non-attainment for PM. This is unfortunate

and does not mean that the PM is not hazardous to those living nearby. If the location of the landfill does not violate statutes, could the company still be required via Best Management Practices to reduce dust at the residences across the street and provide a more aesthetically pleasing setting? Suggestions include planting additional large, tall brush or bushes at the fenceline and to pave the entrance/edit roads. The community was there long before the landfill, and it seems likely that the corporation could easily bear this additional burden, to improve the air quality and visual appeal for the residents. It seems that paving the roads would also help to reduce noise from the truck traffic.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY
2022 APR 20 AM 9:41
CHIEF CLERKS OFFICE

April 21, 2022

Laurie Gharis
TCEQ Office of the Chief Clerk
PO Box 13087, MC 105
Austin, TX 78711

Dear Laurie,

I am writing this letter in opposition to the USA Waste of Texas Landfills, Inc. project on Tanner Road, Application No. 2185A. This proposal seeks a lateral and vertical expansion of the existing site and an increase in the volume of waste allowed without regard for the impact on Carverdale, the nearby residential neighborhood. Carverdale is a predominately black community that suffers from flooding, traffic congestion, inadequately built streets, and odors from the current site which all affect the health and safety of the community.

Carverdale may be familiar to you as it is the community that was severely impacted by the Watson Grinding and Manufacturing explosion on January 24th, 2020. This explosion damaged or destroyed approximately 200 homes and businesses, killing 3 and injuring 18. 2 years have passed since the explosion and the community is still rebuilding. Allowing the landfill to expand will be adding insult to injury. The neighborhood should be allowed to fully recover.

The Spring Branch Management District is committed to making the Spring Branch area safer, cleaner, and greener. Carverdale is within our boundary, and we have been working with area partners to support the community in their efforts to rebuild and thrive. We do not believe that a mountain of waste taller than trees fits into anyone's idea of "cleaner" or "greener" and will undermine all the hard work the community has put in while destroying what pride the area has left.

Additionally, Tanner Road specifically, is a 2-lane asphalt road with no curbs, no gutters, no sidewalks, and no pedestrian lights. The road suffers from potholes and inadequate patches and is a danger to pedestrians and small passenger vehicles. Increasing the capacity of the landfill will mean increasing dump truck traffic through an area that is already unable to accommodate daily traffic without delays. Increasing the number of large vehicles in the area will also have a direct, negative impact on the safety of smaller cars, pedestrians, and cyclists in the neighborhood.

Landfills also come with a risk of air emissions and pollutants to surface and groundwater. Increasing the capacity of a decades-old landfill that does not meet the current safety and containment standards will only exacerbate any existing issues with the site. This also will

SPRING BRANCH DISTRICT
THE HEART OF HOUSTON®
SBMD.org

9600 Long Point #250 Houston TX 77055
713.595.1219

increase the risk of poisoning the neighborhood as the older infrastructure begins to fail and fall apart until the community is too sick or dejected to stand up.

As mentioned previously, Carverdale has a largely open-ditch drainage system and thus relies heavily on permeable surfaces and retention ponds to prevent and alleviate flooding in the area. Waste is not permeable. Waste does not absorb water the way plants do, and it does not carry water to the White Oak Bayou or Addicks Reservoir the way a drainage system does. Waste clogs drainage systems and is detrimental to plant growth. Neither of which is beneficial to a community already prone to flooding.

We, the Board of Directors of the Spring Branch Management District, are opposed to the expansion of the USA Waste of Texas Landfills, Inc. site, also known as the Hawthorn Park Recycling and Disposal Facility, located at 10550 Tanner Road, Houston, Harris County, Texas 77041 on the basis of concerns for the health and safety of Carverdale Neighborhood.

COMMENTS: What is with the name of this dump? Hawthorne Park / Hawthorne Dump Using the word Park is a slap in the face--Referencing a Predominantly minority neighborhood to a dump. These people should be banned from the neighborhood, and so should the people following them. There is some vacant property on Tanner Road west of the beltway for sale. The name Hawthorne Park would fit very well. It is on the right near Eldredge Park way.

COMMENTS: 1. Health Hazard to the entire community. 2. Runner-off to Gessner Road, Tanner Road and adjoining streets will be atrocious. 3.There will not be sufficient control over what is dumped and buried there. 3.All surrounding well water will be endangered. 4.How can Tanner Road handle an additional 125 trucks daily,in its current condition?

Please give this form to the person at the information table. Thank you.

As Executive Director of The Mission of Yahweh, I represent 120 residents and 20 staff membe We have been in this location for 61 years, and Our campus is within 1 mile of the landfill. We are concerned about the increase in traffic and congestion in the area, the concern about pollution of the air and ground water, mosqu flooding, disease and the unsightly appearance I am also concerned about the depreciation of our property values

COMMENTS: (1) The fact that Waste Management provided no blueprints to give a visual of what they want to do is reason to believe they're not being transparent. How are we to trust or verify that they're only accepting Type IV Trash? (2) Likewise, the fact that Waste Management did not provide the original Permit#2185 for comparison m demonstrates their lack of transparency.

Petición en oposición al permiso TCEQ número 2185A

Para protestar por el vertedero en Carverdale, complete y envíe esta petición *por* correo a la dirección *TCEQ que se muestra a continuación:*

[10] El permiso número 2185A de TCEQ carece de transparencia con respecto a la huella proyectada de vertedero de 210.20 acres; la supuesta expansión de 38.6 acres; y la historia del número de permiso de vertedero existente MSW # 2185. Específicamente, la Solicitud de Enmienda de Permiso (PAA) guarda silencio con respecto a los 12.9 acres en RSU # 1448 y, por lo tanto, la Gestión de Residuos solo representa 171.6 acres, lo que resulta en una escasez de huella de 38.6 acres. [11]No obstante, sobre la base del número de décadas en las que el vertedero existente ha operado en 10550 Tanner Road en Carverdale, un vecindario minoritario (negro y marrón) de Houston, Condado de Harris, Texas 77041, es ampliamente conocido que el vertedero había alcanzado la capacidad de eliminación y estaba inactivo cuando Waste Management solicitó al TCEQ una enmienda importante de permiso para autorizar el cambio de nombre a The Hawthorn Park Recycling and Disposal Facility y la expansión lateral y vertical de la instalación.

[9]Las instalaciones industriales y de desechos peligrosos permitidas están sujetas a requisitos de cierre; pero, como su cambio de nombre de Hawthorn Park Landfill (HPL) a Hawthorn Park Recycling and Disposal Facility implica, HPL ha alcanzado su capacidad y Waste Management ha solicitado un permiso para evitar el cierre, mediante la instalación de una instalación de eliminación sobre los desechos del vertedero existentes. [2]En cualquier circunstancia, ninguna persona podrá comenzar a instalar ninguna estructura sobre los residuos del vertedero existente, ya que ello provocaría la perturbación de la cubierta final, con el riesgo de contaminación de las aguas subterráneas. Además, sobre la base de las deficiencias en su lista de equipos, Waste Management tiene la intención de operar su [8]Instalación de Transferencia, Almacenamiento y Eliminación (TSDF) y gestionar los residuos peligrosos sin seguir las reglas establecidas en 40 CFR Partes 265/265, especialmente la Subparte A-E con respecto a la garantía de calidad de la construcción (CQA); preparación y prevención; y plan de contingencia y procedimientos de emergencia. Todo, mientras se crea un montón de basura montañosa (permanente) que produce gases de efecto invernadero.

[1]Cuando un vertedero alcanza su capacidad, el propietario puede tenerlo tapado, cubierto permanentemente con un tapón de polietileno y suelo compactado, y plantado con vegetación para evitar la erosión por la lluvia y el viento; además, el propietario debe monitorear y mantener el sitio por hasta 30 años. O, alternativamente, el propietario puede convertir el sitio en un espacio verde; [6]o una agencia gubernamental reconocida pueden designarlo como un brownfield. A pesar de que el Director Ejecutivo de TCEQ ha determinado que la solicitud de Waste Management es administrativamente completa; la PAA no es técnicamente completa o legal. El plan es que se le niegue el permiso número 2185A; y, para quese cierre el vertederoexistente, Hawthorn Park Landfill, en 10550 Tanner Road, Houston, Texas 77041. Gracias.

Para protestar por el vertedero en Carverdale, complete y envíe esta petición por correo a la dirección TCEQ que se muestra a continuación:

TCEQ llevará a cabo una reunión pública el martes 18 de enero de 2022, a las 7:00 PM. Petition in Opposition to TCEQ Permit Number 2185A

To Protest the Landfill in Carverdale complete & mail this petition to the TCEQ address shown below:

[10] TCEQ Permit Number 2185A lacks transparency regarding the projected 210.20-acre landfill footprint; the alleged 38.6-acre expansion; and the history of the Existing Landfill Permit Number MSW#2185. Specifically, the Permit Amendment Application (PAA) is silent regarding the 12.9 acres in MSW#1448 and therefore Waste Management only accounts for 171.6 acres, resulting in a 38.6-acre footprint shortage. [11]Nonetheless, based on the number of decades in which the existing landfill has operated at 10550 Tanner Road in Carverdale, a minority (black and brown) neighborhood of Houston, Harris County, Texas 77041, it is widely known that the landfill had reached disposal capacity and was dormant when Waste Management applied to the TCEQ for a permit major amendment to authorize the name change to The Hawthorn Park Recycling and Disposal Facility and the lateral and vertical expansion of the facility.

[9]Industrial and hazardous waste-permitted facilities are subject to closure requirements; but, as its name change from Hawthorn Park Landfill (HPL) to Hawthorn Park Recycling and Disposal Facility implies, HPL has reached capacity and Waste Management has applied for a permit to avoid closure, by installing a disposal facility on top of existing landfill waste. [2]In any circumstance, no person may commence to install any structure on top of existing landfill waste as it would result in the disturbance of the final cover, risking groundwater contamination. Further, based on deficiencies in its equipment list, Waste Management intends to operate its [8]Transfer, Storage, and Disposal Facility (TSDF) and manage hazardous waste without following the rules set forth in 40 CFR Parts 265/265, especially Subpart A-E regarding construction quality assurance (CQA); preparedness and prevention; and contingency plan and emergency procedures. All, while creating a (permanent) mountainous trash heap producing greenhouse gas.

[1]When a landfill reaches capacity the owner may have it capped, covered permanently with a polyethylene cap and compacted soil, and planted with vegetation to prevent erosion by rainfall and wind; in addition, the owner must monitor and maintain the site for up to 30 years. Or, in the alternative, the owner may turn the site into green space; [6]or a recognized government agency may have it designated as a brownfield. Even though TCEQ's Executive Director has determined that Waste Management's application is administratively complete; the PAA is not technically complete or legal. The plan is to have Permit Number 2185A denied; and, to have the Existing Landfill, Hawthorn Park Landfill, at 10550 Tanner Road, Houston, Texas 77041 closed. Thank you.

To Protest the Landfill in Carverdale complete & mail this petition to the TCEQ address shown below:

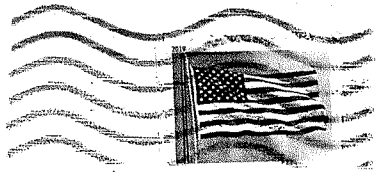

TCEQ will conduct a Public Meeting on Tuesday, January 18, 2022, at 7:00 PM. You may access the meeting via webcast at: https://www.gotomeeting.com/webinar/join-webinar and entering Webinar ID 655-137-955, at least 15 minutes before the meeting begins. Those without internet access must call (512) 239-1201 at least one day prior to the meeting to register for the meeting and to obtain information for participating telephonically. Members of the public who wish to only listen to the meeting may call, toll free, (914) 614-3221 and enter access code 827-425-587. Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at 512-239-3300 or 1-800-RELAY-TX (TDD) at least five business days prior to the meeting.

COMMENTS: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.

COMMENTS: We are against the proposed permit No 2185A as The Hawthorn Park Recycling and Disposal Facility is trying to expand. Presently we already have bad smells and poor air quality due to the current facility. The expansion would only make things worse. In addition, we do not trust drinking our water due to this facility. Expanding it vertically and laterally would definitely increase the risk of our drinking water being contaminated. Such facilities should not exist

in proximity of prominent residential areas but should be located much farther from the city limits. We appreciate anything you can do to NOT allow the expansion of the Hawthorn Park Recycling and Disposal Facility.

COMMENTS: We are against the lateral and vertical expansion of this facility. Landfills are an eyesore even if you try to hide them. They contain toxins, leachate and greenhouse gases which are released into the ground and atmosphere. Any expansion would negatively affect the neighborhoods around it, like Independence Gardens, which in turn snowballs to affect the areas around it. An example is that section of Tanner to Gessner/Clay which is finally getting an economic upswing with new construction residential housing in what has historically been a depressed area. To expand

the facility would doom the area to long-term depressed economics and that radiates out to the surrounding areas. We need more new, clean, environmentally safe affordable housing options close to the beltway and economic commerce areas like Memorial City, the Energy Corridor, and Cypress-Fairbanks. To go a step further, if this facility has reached capacity, then I strongly urge it be capped and turned into a green space which would actually help the neighborhoods economic recovery, and the areas around it.

GREATER
MACEDONIA BAPTIST CHURCH

January 14, 2022

Texas Commission on Environmental Quality
Office of the Chief Clerk
Mail Code MC-105
P.O. Box 13087
Austin, Texas 78711-3087

Sent Electronically to: https://www14.tceq.texas.gov/epic/eComment/

To Whom It May Concern:

The members of Greater Macedonia Baptist Church, which is located less than one mile from the entrance of the Hawthorn Park Landfill, has a concerned interest in the proposed expansion of the landfill which will further impact our church and community. Our active membership of 460 includes 100 Carverdale residents, in addition to several hundred guests who commute to our campus for weekly church services and activities.

On behalf of the officers and members of the Greater Macedonia Baptist Church, who adamantly opposes Permit 2185A to expand the Hawthorn Park Landfill, we submit the questions noted below to be recognized at the public meeting during the formal comment period on Tuesday, January 18, 2022. Furthermore, we request said questions become part of the record and a written response be forthcoming from the Executive Director.

1. Are the current underground linings up to current standards? Are there plans to test the durability of the linings?
2. Tanner Road is known for heavy flooding. How will the discharge from the Hawthorn facility be addressed?
3. With the potential for gas release, what appropriate checks are in place to monitor the gas emissions?
4. Should the proposal go forward, what will be done to block the visual site of the landfill to Greater Macedonia (use of trees, fences, levees, etc.)?

Please feel free to contact us at 713-466-7161 or via email gmbcsecretary1@gmail.com.

Petition in Opposition to TCEQ Permit Number 2185A

To Protest the Landfill in Carverdale complete & mail this petition to the TCEQ address shown below:

[10] TCEQ Permit Number 2185A lacks transparency regarding the projected 210.20-acre landfill footprint; the alleged 38.6-acre expansion; and the history of the Existing Landfill Permit Number MSW#2185. Specifically, the Permit Amendment Application (PAA) is silent regarding the 12.9 acres in MSW#1448 and therefore Waste Management only accounts for 171.6 acres, resulting in a 38.6-acre footprint shortage. [11]Nonetheless, based on the number of decades in which the existing landfill has operated at 10550 Tanner Road in Carverdale, a minority (black and brown) neighborhood of Houston, Harris County, Texas 77041, it is widely known that the landfill had reached disposal capacity and was dormant when Waste Management applied to the TCEQ for a permit major amendment to authorize the name change to The Hawthorn Park Recycling and Disposal Facility and the lateral and vertical expansion of the facility.

[9]Industrial and hazardous waste-permitted facilities are subject to closure requirements; but, as its name change from Hawthorn Park Landfill (HPL) to Hawthorn Park Recycling and Disposal Facility implies, HPL has reached capacity and Waste Management has applied for a permit to avoid closure, by installing a disposal facility on top of existing landfill waste. [2]In any circumstance, no person may commence to install any structure on top of existing landfill waste as it would result in the disturbance of the final cover, risking groundwater contamination. Further, based on deficiencies in its equipment list, Waste Management intends to operate its [8]Transfer, Storage, and Disposal Facility (TSDF) and manage hazardous waste without following the rules set forth in 40 CFR Parts 265/265, especially Subpart A-E regarding construction quality assurance (CQA); preparedness and prevention; and contingency plan and emergency procedures. All, while creating a (permanent) mountainous trash heap producing greenhouse gas.

[1]When a landfill reaches capacity the owner may have it capped, covered permanently with a polyethylene cap and compacted soil, and planted with vegetation to prevent erosion by rainfall and wind; in addition, the owner must monitor and maintain the site for up to 30 years. Or, in the alternative, the owner may turn the site into green space; [6]or a recognized government agency may have it designated as a brownfield. Even though TCEQ's Executive Director has determined that Waste Management's application is administratively complete; the PAA is not technically complete or legal. The plan is to have Permit Number 2185A denied; and, to have the Existing Landfill, Hawthorn Park Landfill, at 10550 Tanner Road, Houston, Texas 77041 closed. Thank you.

To Protest the Landfill in Carverdale complete & mail this petition to the TCEQ address shown below:

TCEQ will conduct a Public Meeting on Tuesday, January 18, 2022, at 7:00 PM. You may access the meeting via webcast at: https://www.gotomeeting.com/webinar/join-webinar and entering Webinar ID 655-137-955, at least 15 minutes before the meeting begins. Those without internet access must call (512) 239-1201 at least one day prior to the meeting to register for the meeting and to obtain information for participating telephonically. Members of the public who wish to only listen to the meeting may call, toll free, (914) 614-3221 and enter access code 827-425-587. Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at 512-239-3300 or 1-800-RELAY-TX (TDD) at least five business days prior to the meeting.

Petición en oposición al permiso TCEQ número 2185A

Para protestar por el vertedero en Carverdale, complete y envíe esta petición *por* correo a la dirección *TCEQ que se muestra a continuación:*

[10] El permiso número 2185A de TCEQ carece de transparencia con respecto a la huella proyectada de vertedero de 210.20 acres; la supuesta expansión de 38.6 acres; y la historia del número de permiso de vertedero existente MSW # 2185. Específicamente, la Solicitud de Enmienda de Permiso (PAA) guarda silencio con respecto a los 12.9 acres en RSU # 1448 y, por lo tanto, la Gestión de Residuos solo representa 171.6 acres, lo que resulta en una escasez de huella de 38.6 acres. [11]No obstante, sobre la base del número de décadas en las que el vertedero existente ha operado en 10550 Tanner Road en Carverdale, un vecindario minoritario (negro y marrón) de Houston, Condado de Harris, Texas 77041, es ampliamente conocido que el vertedero había alcanzado la capacidad de eliminación y estaba inactivo cuando Waste Management solicitó al TCEQ una enmienda importante de permiso para autorizar el cambio de nombre a The Hawthorn Park Recycling and Disposal Facility y la expansión lateral y vertical de la instalación.

[9]Las instalaciones industriales y de desechos peligrosos permitidas están sujetas a requisitos de cierre; pero, como su cambio de nombre de Hawthorn Park Landfill (HPL) a Hawthorn Park Recycling and Disposal Facility implica, HPL ha alcanzado su capacidad y Waste Management ha solicitado un permiso para evitar el cierre, mediante la instalación de una instalación de eliminación sobre los desechos del vertedero existentes. [2]En cualquier circunstancia, ninguna persona podrá comenzar a instalar ninguna estructura sobre los residuos del vertedero existente, ya que ello provocaría la perturbación de la cubierta final, con el riesgo de contaminación de las aguas subterráneas. Además, sobre la base de las deficiencias en su lista de equipos, Waste Management tiene la intención de operar su [8]Instalación de Transferencia, Almacenamiento y Eliminación (TSDF) y gestionar los residuos peligrosos sin seguir las reglas establecidas en 40 CFR Partes 265/265, especialmente la Subparte A-E con respecto a la garantía de calidad de la construcción (CQA); preparación y prevención; y plan de contingencia y procedimientos de emergencia. Todo, mientras se crea un montón de basura montañosa (permanente) que produce gases de efecto invernadero.

[1]Cuando un vertedero alcanza su capacidad, el propietario puede tenerlo tapado, cubierto permanentemente con un tapón de polietileno y suelo compactado, y plantado con vegetación para evitar la erosión por la lluvia y el viento; además, el propietario debe monitorear y mantener el sitio por hasta 30 años. O, alternativamente, el propietario puede convertir el sitio en un espacio verde; [6]o una agencia gubernamental reconocida pueden designarlo como un brownfield. A pesar de que el Director Ejecutivo de TCEQ ha determinado que la solicitud de Waste Management es administrativamente completa; la PAA no es técnicamente completa o legal. El plan es que se le niegue el permiso número 2185A; y, para quese cierre el vertederoexistente, Hawthorn Park Landfill, en 10550 Tanner Road, Houston, Texas 77041. Gracias.

Para protestar por el vertedero en Carverdale, complete y envíe esta petición por correo a la dirección TCEQ que se muestra a continuación:

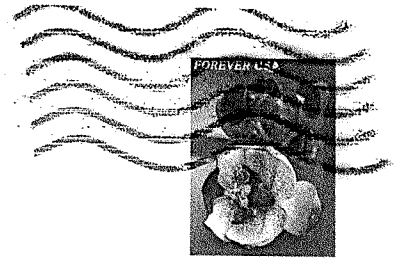

TCEQ llevará a cabo una reunión pública el martes 18 de enero de 2022, a las 7:00 PM. Puedeacceder a la reunión a través de webcast en: https://www.gotomeeting.com/webinar/join-webinar e ingresando el ID de seminario web 655-137-955, al menos 15 minutos antes de que comience la reunión. Aquellos que no tienen acceso a Internet deben llamar al (512) 239-1201 al menos un día antes de la reunión para inscribirse en la reunión y obtener información para participar telefónicamente. Los miembros del público que deseen escuchar solo la reunión pueden llamar, sin cargo, (914) 614-3221 e ingresar el código de acceso 827-425-587. Las personas con discapacidades que necesiten adaptaciones especiales en la reunión deben llamar a la Oficina del Secretario Principal al 512-239-3300 o al 1-800-RELAY-TX (TDD) al menos cinco días hábiles antes de la reunión.

COMMENTS: I am not in favor in having a dump in my neighborhood. It need to be in area where there are no homes. I grew up in the neighborhood and this is where my family and I live. People are moving here from everywhere and I know they feel the same way that I do. I will continue to protest and fight for this area. It is not fair what they are trying to do. They are trying to stretch that garbage as far as they can see. I declare and decree it will not happen in this neighborhood.

COMMENTS: The following residents of Carverdale are not in favor of the expansion of the landfill on Tanner Rd.

PETITION AGAINST PROPOSED USA WASTE OF TEXAS LANDFILL EXPANSION (HAWTORN PARK RECYCLING AND DISPOSAL FACILITY)

June 16, 2021

To Whom It May Concern:

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities, including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

PETITION AGAINST PROPOSED USA WASTE OF TEXAS LANDFILL EXPANSION (HAWTORN PARK RECYCLING AND DISPOSAL FACILITY)

June 16, 2021

To Whom It May Concern:

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities, including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

PETICIÓN CONTRA LA PROPUESTA EXPANSIÓN DEL RELLENO DE TEXAS DE RESIDUOS DE LOS EE. UU. (INSTALACIÓN DE RECICLAJE Y ELIMINACIÓN DE HAWTORN PARK)

A quien le interese:

Esta carta sirve como petición a Chance Goodin, Comisión de Calidad Ambiental de Texas, Sección de Permisos de MSW; Ciudad de Houston; y otras Entidades Gubernamentales de Texas, que incluyen, entre otras, R. Jack Cagle, Comisionado, Precinto 4 del Condado de Harris, Sylvester Turner, Alcalde de la Ciudad, Stephen Williams, Director, Autoridad de Salud de la Ciudad, Lina Hidalgo, Juez del Condado de Harris, et al, como nombrado en el Permiso TCEQ MW-2185A.

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente,

To Whom It May Concern:

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities, including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

(Signature)

COMMENTS: I am a property owner in the Carverdale community. I spent my entire childhood in the community, and I strongly oppose allowing another landfill in our community. I, along with other community members, do not wish to add another eye soar in Carverdale. I will be working diligently to ensure this is not approved. Attached you will find signed petitions from the community and more to come.

PETITION AGAINST PROPOSED USA WASTE OF TEXAS LANDFILL EXPANSION (HAWTORN PARK RECYCLING AND DISPOSAL FACILITY)

June 16, 2021

To Whom It May Concern:

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities, including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

Sandra Jefferson

COMMENTS: I am a property owner in the Carverdale community. I spent my entire childhood in the community, and I strongly oppose allowing another landfill in our community. I, along with other community members, do not wish to add another eye soar in Carverdale. I will be working diligently to ensure this is not approved. Attached you will find signed petitions from the community and more to come.

PETITION AGAINST PROPOSED USA WASTE OF TEXAS LANDFILL EXPANSION (HAWTORN PARK RECYCLING AND DISPOSAL FACILITY)

June 16, 2021

To Whom It May Concern:

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities, including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities, including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

COMMENTS: I am a property owner in the Carverdale community. I spent my entire childhood in the community, and I strongly oppose allowing another landfill in our community. I, along with other community members, do not wish to add another eye soar in Carverdale. I will be working diligently to ensure this is not approved. Attached you will find signed petitions from the community and more to come.

PETITION AGAINST PROPOSED USA WASTE OF TEXAS LANDFILL EXPANSION (HAWTORN PARK RECYCLING AND DISPOSAL FACILITY)

June 16, 2021

To Whom It May Concern:

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities, including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities, including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities, including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

COMMENTS: I would like a in person public meeting. Carverdale Civic Club is concerned about our community and the affect another 40 years will have on community.

Petition in Opposition to TCEQ Permit Number 2185A

To Protest the Landfill in Carverdale complete & mail this petition to the TCEQ address shown below:

[10] TCEQ Permit Number 2185A lacks transparency regarding the projected 210.20-acre landfill footprint; the alleged 38.6-acre expansion; and the history of the Existing Landfill Permit Number MSW#2185. Specifically, the Permit Amendment Application (PAA) is silent regarding the 12.9 acres in MSW#1448 and therefore Waste Management only accounts for 171.6 acres, resulting in a 38.6-acre footprint shortage. [11]Nonetheless, based on the number of decades in which the existing landfill has operated at 10550 Tanner Road in Carverdale, a minority (black and brown) neighborhood of Houston, Harris County, Texas 77041, it is widely known that the landfill had reached disposal capacity and was dormant when Waste Management applied to the TCEQ for a permit major amendment to authorize the name change to The Hawthorn Park Recycling and Disposal Facility and the lateral and vertical expansion of the facility.

RECEIVED
JAN 2[illegible] 2022
BY

[9]Industrial and hazardous waste-permitted facilities are subject to closure requirements; but, as its name change from Hawthorn Park Landfill (HPL) to Hawthorn Park Recycling and Disposal Facility implies, HPL has reached capacity and Waste Management has applied for a permit to avoid closure, by installing a disposal facility on top of existing landfill waste. [2]In any circumstance, no person may commence to install any structure on top of existing landfill waste as it would result in the disturbance of the final cover, risking groundwater contamination. Further, based on deficiencies in its equipment list, Waste Management intends to operate its [8]Transfer, Storage, and Disposal Facility (TSDF) and manage hazardous waste without following the rules set forth in 40 CFR Parts 265/265, especially Subpart A-E regarding construction quality assurance (CQA); preparedness and prevention; and contingency plan and emergency procedures. All, while creating a (permanent) mountainous trash heap producing greenhouse gas.

[1]When a landfill reaches capacity the owner may have it capped, covered permanently with a polyethylene cap and compacted soil, and planted with vegetation to prevent erosion by rainfall and wind; in addition, the owner must monitor and maintain the site for up to 30 years. Or, in the alternative, the owner may turn the site into green space; [6]or a recognized government agency may have it designated as a brownfield. Even though TCEQ's Executive Director has determined that Waste Management's application is administratively complete; the PAA is not technically complete or legal. The plan is to have Permit Number 2185A denied; and, to have the Existing Landfill, Hawthorn Park Landfill, at 10550 Tanner Road, Houston, Texas 77041 closed. Thank you.

To Protest the Landfill in Carverdale complete & mail this petition to the TCEQ address shown below:

TCEQ will conduct a Public Meeting on Tuesday, January 18, 2022, at 7:00 PM. You may access the meeting via webcast at: https://www.gotomeeting.com/webinar/join-webinar and entering Webinar ID 655-137-955, at least 15 minutes before the meeting begins. Those without internet access must call (512) 239-1201 at least one day prior to the meeting to register for the meeting and to obtain information for participating telephonically. Members of the public who wish to only listen to the meeting may call, toll free, (914) 614-3221 and enter access code 827-425-587. Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at 512-239-3300 or 1-800-RELAY-TX (TDD) at least five business days prior to the meeting.

Petición en oposición al permiso TCEQ número 2185A

Para protestar por el vertedero en Carverdale, complete y envíe esta petición *por* correo a la dirección *TCEQ que se muestra a continuación:*

[10] El permiso número 2185A de TCEQ carece de transparencia con respecto a la huella proyectada de vertedero de 210.20 acres; la supuesta expansión de 38.6 acres; y la historia del número de permiso de vertedero existente MSW # 2185. Específicamente, la Solicitud de Enmienda de Permiso (PAA) guarda silencio con respecto a los 12.9 acres en RSU # 1448 y, por lo tanto, la Gestión de Residuos solo representa 171.6 acres, lo que resulta en una escasez de huella de 38.6 acres. [11]No obstante, sobre la base del número de décadas en las que el vertedero existente ha operado en 10550 Tanner Road en Carverdale, un vecindario minoritario (negro y marrón) de Houston, Condado de Harris, Texas 77041, es ampliamente conocido que el vertedero había alcanzado la capacidad de eliminación y estaba inactivo cuando Waste Management solicitó al TCEQ una enmienda importante de permiso para autorizar el cambio de nombre a The Hawthorn Park Recycling and Disposal Facility y la expansión lateral y vertical de la instalación.

[9]Las instalaciones industriales y de desechos peligrosos permitidas están sujetas a requisitos de cierre; pero, como su cambio de nombre de Hawthorn Park Landfill (HPL) a Hawthorn Park Recycling and Disposal Facility implica, HPL ha alcanzado su capacidad y Waste Management ha solicitado un permiso para evitar el cierre, mediante la instalación de una instalación de eliminación sobre los desechos del vertedero existentes. [2]En cualquier circunstancia, ninguna persona podrá comenzar a instalar ninguna estructura sobre los residuos del vertedero existente, ya que ello provocaría la perturbación de la cubierta final, con el riesgo de contaminación de las aguas subterráneas. Además, sobre la base de las deficiencias en su lista de equipos, Waste Management tiene la intención de operar su [8]Instalación de Transferencia, Almacenamiento y Eliminación (TSDF) y gestionar los residuos peligrosos sin seguir las reglas establecidas en 40 CFR Partes 265/265, especialmente la Subparte A-E con respecto a la garantía de calidad de la construcción (CQA); preparación y prevención; y plan de contingencia y procedimientos de emergencia. Todo, mientras se crea un montón de basura montañosa (permanente) que produce gases de efecto invernadero.

[1]Cuando un vertedero alcanza su capacidad, el propietario puede tenerlo tapado, cubierto permanentemente con un tapón de polietileno y suelo compactado, y plantado con vegetación para evitar la erosión por la lluvia y el viento; además, el propietario debe monitorear y mantener el sitio por hasta 30 años. O, alternativamente, el propietario puede convertir el sitio en un espacio verde; [6]o una agencia gubernamental reconocida pueden designarlo como un brownfield. A pesar de que el Director Ejecutivo de TCEQ ha determinado que la solicitud de Waste Management es administrativamente completa; la PAA no es técnicamente completa o legal. El plan es que se le niegue el permiso número 2185A; y, para quese cierre el vertederoexistente, Hawthorn Park Landfill, en 10550 Tanner Road, Houston, Texas 77041. Gracias.

Para protestar por el vertedero en Carverdale, complete y envíe esta petición por correo a la dirección TCEQ que se muestra a continuación:

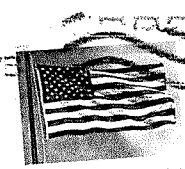

TCEQ llevará a cabo una reunión pública el martes 18 de enero de 2022, a las 7:00 PM. Puedeacceder a la reunión a través de webcast en: https://www.gotomeeting.com/webinar/join-webinar e ingresando el ID de seminario web 655-137-955, al menos 15 minutos antes de que comience la reunión. Aquellos que no tienen acceso a Internet deben llamar al (512) 239-1201 al menos un día antes de la reunión para inscribirse en la reunión y obtener información para participar telefónicamente. Los miembros del público que deseen escuchar solo la reunión pueden llamar, sin cargo, (914) 614-3221 e ingresar el código de acceso 827-425-587. Las personas con discapacidades que necesiten adaptaciones especiales en la reunión deben llamar a la Oficina del Secretario Principal al 512-239-3300 o al 1-800-RELAY-TX (TDD) al menos cinco días hábiles antes de la reunión.

COMMENTS: I am writing to oppose the planned expansion of the landfill outside of Carverdale, near Houston. We all know that this is in a community where lower-income people make their homes, and we should recognize that any expansion will upset their lives. Certainly that kind of landfill would never make a good neighbor no matter how many "studies" are completed and found to be "acceptable". To whom? I am asking that you find another place that won't be

a problem for an established community and let these good folks live their lives without the unsightly, loud, heavily trafficked disruptions. Thank you.

MJW
12320

To whom it may concern at the Texas Commission on Environmental Quality permit committee,

I am writing in regards to the municipal solid waste disposal permit application (2185A) for the Hawthorn Park Recycling and Disposal Facility landfill expansion (RN number: 102664232). I urge the committee to please consider denying the permit application to expand in this neighborhood or to consider alternatives. I understand that your attorney Anthony Tatu has stated that your agency doesn't have the authority to consider community demographics when granting permits. I ask that the committee consider other aspects or reasons to deny this permit because approval would severely damage the Carverdale neighborhood even further for generations to come. Can the agency please look from a perspective of environmental quality and safety? Expanding the landfill to the extent requested will only compound the negative effects on the land and air quality because it is only adding more to a location that has already caused environmental damage to the local area. We are already living in a state of deteriorating environmental sustainability, thus I implore the TCEQ to explore alternative options that better serve our lands and people. Thank you for your time and consideration.

COMMENTS: Please STOP this from happening! I have COPD/ Respiratory Illness and have trouble breathing already so by granting this permit for expansion, it will be detrimental to my health. My house is less than a mile from this facility. It is a selfish and greedy attempt by USA Waste to try to expand this landfill in a heavily populated area. I will be contacting some of the new housing developers in the area including Meritage Homes and KB Homes to stop this some happening since they have more economic loss at stake. For me, this is my home and my health is at stake. Please stop

this from happening! Our neighborhood is still trying to recover from the Watson Explosion of 2020 and we don't need to suffer anymore. Some of our neighbors are still trying to rebuild from the explosion and are psychologically traumatized by it. Have Mercy and give us a break!

COMMENTS: I was at the public meeting tonight and participated in the January Zoom call. I am not only discouraged by the lies and conflicting stories told by the USA Waste attorney but shocked and disgusted by the blatant racism. As an Asian-American, I witnessed Jim Crow for the first time tonight from the way the attorney for the waste management company presented himself and reminded everyone of how the company was the white "savior" who brought books,

laptops, and tutors for the African American and Latino kids in the neighborhood while dumping toxic and moldy construction waste in their area. USA Waste had set up the presentation screen in the corner of the meeting hall tonight, where more than half of the room couldn't even see the slide presentation. It was a sham meeting that was hastily prepared. TCEQ also misled the people by repeating that 16 wells were tested. They did not bother to explain that individual wells were never tested, and the state only tested public wells. In addition, TCEQ did not fully explain what type of environmental impact survey it did, and no printed copies of the mentioned survey were provided to the people at the meeting. It was obvious that no health impact study was done as part of the permitting process. Please DENY this permit that will allow dumping for generations to come in this community.

Delivered by e-mail to laurie.gharis@tceq.texas.gov

Re: Hawthorn Park Recycling & Disposal Facility Pending Municipal Solid Waste Permit Amendment No. 2185A

Dear Ms. Gharis,

As the Houston City Council Member for District A where the Hawthorn Park Landfill is located, I respectfully request a public meeting in the community near this facility to discuss this pending solid waste permit. This request is submitted under the authority provided by administrative rule and referenced in the notice of the draft permit issued by your agency on February 3, 2022 .

While I have previously expressed my serious concerns with the proposed expansion of this landfill, I am most concerned about the lack of public engagement in this application process. Although the virtual public hearing was well attended, I am aware of many affected residents that were not able to participate due to economic conditions or technological limitations. A public meeting on this permit in the Carverdale neighborhood would allow the Texas Commission on Environmental Quality to hear directly from those who will be directly impacted by the reopening of this facility.

It is my hope that you will allow the people of Carverdale to share their concerns in an in person meeting near the proposed expansion site. I will be happy to help identify a venue that will accommodate the large number of residents that will want to participate. Please let me or my staff know if you have any questions for me or would like to discuss this permit further.

Respectfully,

Amy Peck

Amy Peck
Houston City Council Member, District A

COMMENTS: As the Houston City Council Member for District A, I am opposed to the application for the Hawthorn Park Landfill expansion in its current proposal. The Carverdale community has concerns about this expansion that need to be addressed before moving forward. I request a reduction of the height of the landfill closest to the Carverdale neighborhood or for the boundaries to be pushed farther from the neighborhood. I also request additional air monitoring requirements to make sure that there are no issues that might impact the health or quality of life of those

living and working nearby. I share the concerns of the community and ask for these changes to the application. Thank you for your consideration of these requests.

COMMENTS: I choose to be against this landfilled as Tanner road is always trashy it has no water flow no retention pond it always floods and I do not want to have the stench this close to home. This will only create more flooding to come. And decrease the value of the home surrounding. And who knows how much toxic waste that we will be ingesting.

COMMENTS: Carverdale Ministers Alliance Carverdale Church of God In Christ Latter Day Ministry Riverdale Baptist Church St. James Baptist Church Wolridge Chape Africian Methodist Episcopal Church TO WHOM IT MAY CONCERN: The Carverdale Ministers Alliance Fellowship is a network of faith-based churches that servers in the Carverdale Community. The Carverdale Ministers Alliance opposes the expansion of the Hawthorn Park Landfill located at 10332 Tanner Rd. We share the concerns of the many members of our congregations. The concerns are as follows: 1. The environmental and

health hazards risk for the people in the community. 2. Increase in truck traffic which will cause an increase in traffic pollution from the vehicle odors. 3. Potential increase in flooding which already exist on Tanner. 4. Loss of property value. We stand in support with the community in protest of this expansion which will harm the citizens of the Carverdale Community, particularly future generations. We would also like to you to consider postponing the public hearing on January 18th until a later date in which we could meet in person. Rev Calvin Smith, President Jackie Roberson, Secretary

COMMENTS: A landfill near a residential property impacts the capital value but also it poses a serious threat to residents health. Here are some reason why I oppose the expansion of Waste Management Landfill 1. Poor Water Quality 2. Methane Gas Build up 3. Contaminated Air 4. Reduced Property values 5. The street is not adequately able to take on more traffic.

COMMENTS: I Object to the expansion of the Hawthorne Landfill in Carverdale. I oppose the existence of the landfill period. It should be removed out of the Carverdale neighborhood.

PETICIÓN CONTRA LA PROPUESTA EXPANSIÓN DEL RELLENO DE TEXAS DE RESIDUOS DE LOS EE. UU. (INSTALACIÓN DE RECICLAJE Y ELIMINACIÓN DE HAWTORN PARK)

A quien le interese:

Esta carta sirve como petición a Chance Goodin, Comisión de Calidad Ambiental de Texas, Sección de Permisos de MSW; Ciudad de Houston; y otras Entidades Gubernamentales de Texas, que incluyen, entre otras, R. Jack Cagle, Comisionado, Precinto 4 del Condado de Harris, Sylvester Turner, Alcalde de la Ciudad, Stephen Williams, Director, Autoridad de Salud de la Ciudad, Lina Hidalgo, Juez del Condado de Harris, et al, como nombrado en el Permiso TCEQ MW-2185A.

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente,

La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente,
(Firma)

PETICIÓN CONTRA LA PROPUESTA EXPANSIÓN DEL RELLENO DE TEXAS DE RESIDUOS DE LOS EE. UU. (INSTALACIÓN DE RECICLAJE Y ELIMINACIÓN DE HAWTORN PARK)

A quien le interese:

Esta carta sirve como petición a Chance Goodin, Comisión de Calidad Ambiental de Texas, Sección de Permisos de MSW; Ciudad de Houston; y otras Entidades Gubernamentales de Texas, que incluyen, entre otras, R. Jack Cagle, Comisionado, Precinto 4 del Condado de Harris, Sylvester Turner, Alcalde de la Ciudad, Stephen Williams, Director, Autoridad de Salud de la Ciudad, Lina Hidalgo, Juez del Condado de Harris, et al, como nombrado en el Permiso TCEQ MW-2185A.

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. A quien le interese:

Esta carta sirve como petición a Chance Goodin, Comisión de Calidad Ambiental de Texas, Sección de Permisos de MSW; Ciudad de Houston; y otras Entidades Gubernamentales de Texas, que incluyen, entre otras, R. Jack Cagle, Comisionado, Precinto 4 del Condado de Harris, Sylvester Turner, Alcalde de la Ciudad, Stephen Williams, Director, Autoridad de Salud de la Ciudad, Lina Hidalgo, Juez del Condado de Harris, et al, como nombrado en el Permiso TCEQ MW-2185A.

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente,
(Firma)

COMMENTS: I Object to the expansion of the Hawthorne Landfill in Carverdale. I oppose the existence of the landfill period. It should be removed out of the Carverdale neighborhood.

PETITION AGAINST PROPOSED USA WASTE OF TEXAS LANDFILL EXPANSION (HAWTORN PARK RECYCLING AND DISPOSAL FACILITY)

June 16, 2021

To Whom It May Concern:

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities,.including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway In Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

(Signature)

Esta carta sirve como petición a Chance Goodin, Comisión de Calidad Ambiental de Texas, Sección de Permisos de MSW; Ciudad de Houston; y otras Entidades Gubernamentales de Texas, que incluyen, entre otras, R. Jack Cagle, Comisionado, Precinto 4 del Condado de Harris, Sylvester Turner, Alcalde de la Ciudad, Stephen Williams, Director, Autoridad de Salud de la Ciudad, Lina Hidalgo, Juez del Condado de Harris, et al, como nombrado en el Permiso TCEQ MW-2185A.

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente, Victoria López

COMMENTS: I Object to the expansion of the Hawthorne Landfill in Carverdale. I oppose the existence of the landfill period. It should be removed out of the Carverdale neighborhood.

PETITION AGAINST PROPOSED USA WASTE OF TEXAS LANDFILL EXPANSION (HAWTORN PARK RECYCLING AND DISPOSAL FACILITY)

June 16, 2021

To Whom It May Concern:

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities,.including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

(Signature)

Jack Cagle, Comisionado, Precinto 4 del Condado de Harris, Sylvester Turner, Alcalde de la Ciudad, Stephen Williams, Director, Autoridad de Salud de la Ciudad, Lina Hidalgo, Juez del Condado de Harris, et al, como nombrado en el Permiso TCEQ MW-2185A.

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente, Victoria Lopez

A quien le interese:

Esta carta sirve como petición a Chance Goodin, Comisión de Calidad Ambiental de Texas, Sección de Permisos de MSW; Ciudad de Houston; y otras Entidades Gubernamentales de Texas, que incluyen, entre otras, R. Jack Cagle, Comisionado, Precinto 4 del Condado de Harris, Sylvester Turner, Alcalde de la Ciudad, Stephen Williams, Director, Autoridad de Salud de la Ciudad, Lina Hidalgo, Juez del Condado de Harris, et al, como nombrado en el Permiso TCEQ MW-2185A.

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente,
(Firma) Flor Moreno

Jack Cagle, Comisionado, Precinto 4 del Condado de Harris, Sylvester Turner, Alcalde de la Ciudad, Stephen Williams, Director, Autoridad de Salud de la Ciudad, Lina Hidalgo, Juez del Condado de Harris, et al, como nombrado en el Permiso TCEQ MW-2185A.

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente,
(Firma)

Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente,
(Firma)

PETICIÓN CONTRA LA PROPUESTA EXPANSIÓN DEL RELLENO DE TEXAS DE RESIDUOS DE LOS EE. UU. (INSTALACIÓN DE RECICLAJE Y ELIMINACIÓN DE HAWTORN PARK)

A quien le interese:

Esta carta sirve como petición a Chance Goodin, Comisión de Calidad Ambiental de Texas, Sección de Permisos de MSW; Ciudad de Houston; y otras Entidades Gubernamentales de Texas, que incluyen, entre otras, R. Jack Cagle, Comisionado, Precinto 4 del Condado de Harris, Sylvester Turner, Alcalde de la Ciudad, Stephen Williams, Director, Autoridad de Salud de la Ciudad, Lina Hidalgo, Juez del Condado de Harris, et al, como nombrado en el Permiso TCEQ MW-2185A.

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

COMMENTS: I Object to the expansion of the Hawthorne Landfill in Carverdale. I oppose the existence of the landfill period. It should be removed out of the Carverdale neighborhood.

PETITION AGAINST PROPOSED USA WASTE OF TEXAS LANDFILL EXPANSION (HAWTORN PARK RECYCLING AND DISPOSAL FACILITY)

June 16, 2021

To Whom It May Concern:

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities,.including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

(Signature)

La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente, C Ramirez

PETICIÓN CONTRA LA PROPUESTA EXPANSIÓN DEL RELLENO DE TEXAS DE RESIDUOS DE LOS EE. UU. (INSTALACIÓN DE RECICLAJE Y ELIMINACIÓN DE HAWTORN PARK)

A quien le interese:

Esta carta sirve como petición a Chance Goodin, Comisión de Calidad Ambiental de Texas, Sección de Permisos de MSW; Ciudad de Houston; y otras Entidades Gubernamentales de Texas, que incluyen, entre otras, R. Jack Cagle, Comisionado, Precinto 4 del Condado de Harris, Sylvester Turner, Alcalde de la Ciudad, Stephen Williams, Director, Autoridad de Salud de la Ciudad, Lina Hidalgo, Juez del Condado de Harris, et al, como nombrado en el Permiso TCEQ MW-2185A.

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. COMMENTS: I Object to the expansion of the Hawthorne Landfill in Carverdale. I oppose the existence of the landfill period. It should be removed out of the Carverdale neighborhood.

PETITION AGAINST PROPOSED USA WASTE OF TEXAS LANDFILL EXPANSION (HAWTORN PARK RECYCLING AND DISPOSAL FACILITY)

June 16, 2021

To Whom It May Concern:

This letter serves as a petition to Chance Goodin, Texas Commission on Environmental Quality, MSW Permits Section; City of Houston; and other Texas Governmental Entities,.including, but not limited to R. Jack Cagle, Commissioner, Harris County Precinct 4, Sylvester Turner, City Mayor, Stephen Williams, Director, City Health Authority, Lina Hidalgo, Harris County Judge, et al, as named in TCEQ Permit MW-2185A.

The circumstances surrounding my petition are: USA Waste of Texas Landfills, Inc. has requested a permit amendment application authorizing a vertical and lateral expansion of the existing Hawthorn Park Recycling and Disposal Facility, a Type IV municipal solid waste facility located at North of Tanner Road, West of Gessner and East of Sam Houston Parkway in Houston Harris County, Texas 77041. The maximum final contour elevation of the expanded facility will increase from approximately 136.4 ft-msl to approximately 227.2 ft-msl. It is projected the facility's waste acceptance will reach a maximum of approximately 340,000 tons per year and will have an active site life of approximately 46.3 years. Facilities that will be negatively impacted by this expansion include residences, commercial establishments, schools, licensed day-care facilities, churches, cemeteries, ponds, lakes and recreational areas. Negative environmental impact will include water, air, vegetation and wetlands.

As a result of USA Waste of Texas Landfills, Inc.'s proposed Permit Amendment, TCEQ Permit MW-2185A, I, the undersigned, petition that we reverse course of this application. The health and safety of the Carverdale Community and surrounding area are at risk.

Your favorable consideration of my request would be greatly appreciated.

Sincerely,

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente, C Ramirez

PETICIÓN CONTRA LA PROPUESTA EXPANSIÓN DEL RELLENO DE TEXAS DE RESIDUOS DE LOS EE. UU. (INSTALACIÓN DE RECICLAJE Y ELIMINACIÓN DE HAWTORN PARK)

A quien le interese:

Esta carta sirve como petición a Chance Goodin, Comisión de Calidad Ambiental de Texas, Sección de Permisos de MSW; Ciudad de Houston; y otras Entidades Gubernamentales de Texas, que incluyen, entre otras, R. Jack Cagle, Comisionado, Precinto 4 del Condado de Harris, Sylvester Turner, Alcalde de la Ciudad, Stephen Williams, Director, Autoridad de Salud de la Ciudad, Lina Hidalgo, Juez del Condado de Harris, et al, como nombrado en el Permiso TCEQ MW-2185A.

Las circunstancias que rodean mi petición son: USA Waste of Texas Landfills, Inc. ha solicitado una solicitud de enmienda de permiso que autorice una expansión vertical y lateral de la actual Planta de Reciclaje y Eliminación de Hawthorn Park, una instalación de desechos sólidos municipales Tipo IV ubicada en el norte de Tanner Road , Al oeste de Gessner y al este de Sam Houston Parkway en el condado de Houston Harris, Texas 77041. La elevación máxima del contorno final de la instalación ampliada aumentará de aproximadamente 136,4 pies-msnm a aproximadamente 227,2 pies-msnm. Se proyecta que la aceptación de desechos de la instalación alcanzará un máximo de aproximadamente 340.000 toneladas por año y tendrá una vida útil activa de aproximadamente 46,3 años. Las instalaciones que se verán afectadas negativamente por esta expansión incluyen residencias, establecimientos comerciales, escuelas, guarderías con licencia, iglesias, cementerios, estanques, lagos y áreas recreativas. El impacto ambiental negativo incluirá agua, aire, vegetación y humedales.

Como resultado de la Enmienda al Permiso propuesta por USA Waste of Texas Landfills, Inc., Permiso MW-2185A de la TCEQ, yo, el abajo firmante, solicito que invirtamos el curso de esta solicitud. La salud y la seguridad de la comunidad de Carverdale y el área circundante están en riesgo.

Su consideración favorable de mi solicitud será muy apreciada.

Atentamente,
(Firma)

COMMENTS: As a resident in this community for past 50 plus years.Raising my family in this neighborhood have never felt disrespected. To build a dump in this neighborhood show no concern about the people living in the area. Nor is there any concern about the health risks you trying to force on people in this area. I disapprove of the building of a larger DUMPING SITE IN OUR NEIGHBORHOOD. YOU STATED YOU HAVE OTHER PROPERTIES YOU SHOULD THISE PROPERTIES IN STEAD RISKING MY HEALTH, MY CHILDREN, GRAND CHILDREN PARENTS SENIOR CITIZEN IN THIS

COMMUNITY. WE WANT BE ABLE TO ENJOY BEING OUTSIDE FOR THE SMELL OF DUMP, IF YOU'RE ALLOWED TO PUT IN IN OUR NEIGHBORHOOD. WHO TO SAY WHAT YOU DUMP WANT CAUSE HEALTH ISSUES. SO TO AVOID PUTTING MY COMMUNITY AT RISK PLEASE USE YOUR PROPERTIES YOU OWN IN OTHER AREAS TO DUMP YOUR TRASH. MY FAMILY FRIENDS NEIGHBORS HEALTH IS MORE IMPORANT THAN ANYTHIG.I DISAGREE TOTALLY AGAINST THIS MESS YOU TRYING TO PUT IN THIS HISTORIC NEIGHBORHOOD..OUR FAMILIES MATTERS TO US..NO THANK YOU.

COMMENTS: I am opposed to the expansion of the landfill in North West houston. The landfill is already full. This will have a negative impact on the property owners in the surrounding area, as well as create an unpleasant aroma for the area. This neighborhood is seeing a lot of improvements, with new businesses moving into the area. This landfill will deter and possibly even reverse the growth that we have been experiencing.

COMMENTS: I absolutely, unequivocally denounce the expansion of this landfill (trash pile) in the community of Carverdale. As a citizen who was born and raised in the Community, I have seen for myself the destruction that the current landfill brought to our neighborhood. Waste Management has deposited nothing into this community but trash and is attempting to further "trash" our community with this expansion. While this community may not be seen as valuable to others, it is extremely valuable to those who reside here and we are proud of it. We don't want to see

outsiders come into this community simply to dump their trash while returning to their pristine communities with no responsibility for their actions. If Waste Management doesn't believe the issues that this will cause (WATER CONTAMINATION, RODENTS, ERRAND TRASH AND THE LIKE) then they should simply elect to have a "dump" placed in their respective communities. This is an atrocity and should not be allowed to happen - not now or in the future. This community will fight to keep Waste Management from moving forward with their plans with every fiber of our being and using all available tools at our disposal! NOT IN OUR BACKYARD!!!!

COMMENTS: I object to the extending and expanding of the Hawthorne Park (what a repugnant use of the work "Park") Landfill in the Carverdale Community. It must be removed from our community rather than expanded. If Waste Management genuinely feels like there is no threat to the water, environment and community then they should put it in the communities where they reside. They should allow their property values and children to be affected. The residents

of Carverdale do not want this landfill and especially do not want an expansion to be allowed. How dare they attempt to put their "trash" in our community! This is absolutely unacceptable and should not be allowed.

COMMENTS: Carverdale Ministers Alliance Fellowship Carverdale Church of God in Christ Latter Day Ministry Riverdale Baptist Church St James Baptist Church Yellowstone Baptist Church Wolridge Chapel African Methodist Episcopal Church TO Whom IT MAY CONCERN: The Carverdale Ministers Alliance Fellowship is a network of faith-based churches that serves in Carverdale Community. The Carverdale Ministers Alliance opposes the expansion of the Hawthorn Park Landfill

located at 10332 Tanner Rd, Houston, TX. We share the concerns of the many members of our congregations. The concerns are as follows: 1. The environmental and health hazards increase in the community. 2. Increase in Truck traffic, increase in traffic pollution and odors from vehicles. 3. Potential increase in flooding which already exist on Tanner. 4. Loss of property value We stand in support with the community in protest of this expansion which will harm the citizens of the Carverdale community, particularly future generations of citizens. We are asking if you would please consider postponing the public until a later date in which we could meet in person. If you have any questions please feel free to contact me by email pastorcesmithsr@outlook.com or my mailing address 10122 Porto Rico, Houston, TX 77041 Rev Calvin Smith, President Jackie Roberson, Secretary

COMMENTS: I am writing to request the purposed expansion of this landfill be denied. Expansion of this landfill will negatively impact the surrounding neighborhoods. This landfill can frequently be seen and smelled by the surrounding area and expansion will only make this problem worse for my area. This area is well populated and expansion will negatively impact far too many citizens and property values.

COMMENTS: I am writing to oppose of the Crowford dump. We do not need a dump in our neighborhood!!!! We already have issues, with Tanner road. Concrete getting on everyone's cars, from plant /companies, flooding issues and this will just add to the problem at hand. Why can't they dump somewhere else??? This not the answer, especially for a community, that's already facing all kinds of issues already, that has not been fixed. We don't want to see 125 trucks of trash trafficking through our neighborhood. We definitely know how it would go. We have endured Hurricane Harvey

traffic, now this!!! I can see like Harvey, because we didn't have any control over Mother Nature! But this is ridiculous, to know what's going to happen. No thanks!

COMMENTS: I do not wish to have this Waste Dump open again for dumping in the Carverdale Neighborhood. When it was open before there was always fowl odors coming from the dump. There is several people living near the dump with water wells used for their drinking water. When Gessner Road floods, the runoff from this Waste Dump flows into the yards in the area. Because they will not be checking each load of Waste, all types of Chemicals could be unloaded at the dump. I plead to you not to allow this Waste Dump to open up again.

COMMENTS: I am a property owner in the Carverdale community. I am concerned about my health and living a vibrant life due to the proposed extension/ enlargement of landfill. I have a right to breathe fresh air without inhaling toxic chemicals. I am also concerned about our drinking water and how likely it will be contagious/ contaminated due to waste materials and lack of supervision in exposed dumping environment. This facility (approximately 105 ft) high also

demise the appearance of the community. I know it's another place that this landfill can open and another opportunity to reserve history.

The proposed height of the landfill is stated as 127ft. What happens when that is exceeded, will new permits be filed and approved as it continues to get higher and higher? What is our neighborhood's recourse if this grows to 3, 4, 5, 6 and 7 plus stories high?!

Please give this form to the person at the information table. Thank you.

Petition in Opposition to TCEQ Permit Number 2185A

To Protest the Landfill in Carverdale complete & mail this petition to the TCEQ address shown below:

[10] TCEQ Permit Number 2185A lacks transparency regarding the projected 210.20-acre landfill footprint; the alleged 38.6-acre expansion; and the history of the Existing Landfill Permit Number MSW#2185. Specifically, the Permit Amendment Application (PAA) *is silent regarding the 12.9 acres in MSW#1448* and therefore Waste Management only accounts for 171.6 acres, resulting in a 38.6-acre footprint shortage. [11]Nonetheless, based on the number of decades in which the existing landfill has operated at 10550 Tanner Road in Carverdale, a minority (black and brown) neighborhood of Houston, Harris County, Texas 77041, it is widely known that the landfill had reached disposal capacity and was dormant when Waste Management applied to the TCEQ for a permit major amendment to authorize the name change to The Hawthorn Park Recycling and Disposal Facility and the lateral and vertical expansion of the facility.

[9]Industrial and hazardous waste-permitted facilities are subject to closure requirements; but, as its name change from Hawthorn Park Landfill (HPL) to Hawthorn Park Recycling and Disposal Facility implies, HPL has reached capacity and Waste Management has applied for a permit to avoid closure, by installing a disposal facility on top of existing landfill waste. [2]In any circumstance, no person may commence to install any structure on top of existing landfill waste as it would result in the disturbance of the final cover, risking groundwater contamination. Further, based on deficiencies in its equipment list, Waste Management intends to operate its [8]Transfer, Storage, and Disposal Facility (TSDF) and manage hazardous waste without following the rules set forth in 40 CFR Parts 265/265, especially Subpart A-E regarding construction quality assurance (CQA); preparedness and prevention; and contingency plan and emergency procedures. All, while creating a (permanent) mountainous trash heap producing greenhouse gas.

[1]When a landfill reaches capacity the *owner may have it capped, covered permanently* with a polyethylene cap and compacted soil, and planted with vegetation to prevent erosion by rainfall and wind; in addition, the owner must monitor and maintain the site for up to 30 years. Or, in the alternative, the owner may turn the site into green space; [6]or a recognized government agency may have it designated as a brownfield. Even though TCEQ's Executive Director has determined that Waste Management's application is administratively complete; the PAA is not technically complete or legal. The plan is to have Permit Number 2185A denied; and, to have the Existing Landfill, Hawthorn Park Landfill, at 10550 Tanner Road, Houston, Texas 77041 closed. Thank you.

To Protest the Landfill in Carverdale complete & mail this petition to the TCEQ address shown below:

TCEQ will conduct a Public Meeting on Tuesday, January 18, 2022, at 7:00 PM. You may access the meeting via webcast at: https://www.gotomeeting.com/webinar/join-webinar and entering Webinar ID 655-137-955, at least 15 minutes before the meeting begins. Those without internet access must call (512) 239-1201 at least one day prior to the meeting to register for the meeting and to obtain information for participating telephonically. Members of the public who wish to only listen to the meeting may call, toll free, (914) 614-3221 and enter access code 827-425-587. Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at 512-239-3300 or 1-800-RELAY-TX (TDD) at least five business days prior to the meeting.

Petition in Opposition to TCEQ Permit Number 2185A

To Protest the Landfill in Carverdale complete & mail this petition to the TCEQ address shown below:

[10] TCEQ Permit Number 2185A lacks transparency regarding the projected 210.20-acre landfill footprint; the alleged 38.6-acre expansion; and the history of the Existing Landfill Permit Number MSW#2185. Specifically, the Permit Amendment Application (PAA) is silent regarding the 12.9 acres in MSW#1448 and therefore Waste Management only accounts for 171.6 acres, resulting in a 38.6-acre footprint shortage. [11]Nonetheless, based on the number of decades in which the existing landfill has operated at 10550 Tanner Road in Carverdale, a minority (black and brown) neighborhood of Houston, Harris County, Texas 77041, it is widely known that the landfill had reached disposal capacity and was dormant when Waste Management applied to the TCEQ for a permit major amendment to authorize the name change to The Hawthorn Park Recycling and Disposal Facility and the lateral and vertical expansion of the facility.

[9]Industrial and hazardous waste-permitted facilities are subject to closure requirements; but, as its name change from Hawthorn Park Landfill (HPL) to Hawthorn Park Recycling and Disposal Facility implies, HPL has reached capacity and Waste Management has applied for a permit to avoid closure, by installing a disposal facility on top of existing landfill waste. [2]In any circumstance, no person may commence to install any structure on top of existing landfill waste as it would result in the disturbance of the final cover, risking groundwater contamination. Further, based on deficiencies in its equipment list, Waste Management intends to operate its [8]Transfer, Storage, and Disposal Facility (TSDF) and manage hazardous waste without following the rules set forth in 40 CFR Parts 265/265, especially Subpart A-E regarding construction quality assurance (CQA); preparedness and prevention; and contingency plan and emergency procedures. All, while creating a (permanent) mountainous trash heap producing greenhouse gas.

[1]When a landfill reaches capacity the owner may have it capped, covered permanently with a polyethylene cap and compacted soil, and planted with vegetation to prevent erosion by rainfall and wind; in addition, the owner must monitor and maintain the site for up to 30 years. Or, in the alternative, the owner may turn the site into green space; [6]or a recognized government agency may have it designated as a brownfield. Even though TCEQ's Executive Director has determined that Waste Management's application is administratively complete; the PAA is not technically complete or legal. The plan is to have Permit Number 2185A denied; and, to have the Existing Landfill, Hawthorn Park Landfill, at 10550 Tanner Road, Houston, Texas 77041 closed. Thank you.

To Protest the Landfill in Carverdale complete & mail this petition to the TCEQ address shown below:

TCEQ will conduct a Public Meeting on Tuesday, January 18, 2022, at 7:00 PM. You may access the meeting via webcast at: https://www.gotomeeting.com/webinar/join-webinar and entering Webinar ID 655-137-955, at least 15 minutes before the meeting begins. COMMENTS: The members of Greater Macedonia Baptist Church, which is located less than one mile from the entrance of the Hawthorn Park Landfill, has a concerned interest in the proposed expansion of the landfill which will further impact our church and community. Our active membership of 460 includes 100 Carverdale residents, in addition to several hundred guests who commute to our campus for weekly church services and activities. On behalf of the officers and members of the Greater Macedonia Baptist Church, who adamantly opposes Permit 2185A to expand the

Havrrthorn Park Landfill, we submit the questions noted below to be recognized at the public meeting during the formal comment period on Tuesday, January 18,2022. Furthermore, we request said questions become part of the record and a written response be forthcoming from the Executive Director. 1. Are the current underground linings up to current standards? Are there plans to test the durability of the linings? 2. Tanner Road is known for heavy flooding. How will the discharge from the Hawthorn facility be addressed? 3. With the potential for gas release, what appropriate checks are in place to monitor the gas emissions? 4. Should the proposal.go fonrvard, what will be done to block the visual site of the landfill to Greater Macedonia (use of trees, fences, levees, etc.)? Please feel free to contact us at 713-466-7161 or via email gmbcsecretaryl@gmail.com.

COMMENTS: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.

Petición contra el permiso número 2185A, instalación de reciclaje y eliminación de Hawthorn Park

MI COMENTARIO: Me opongo a la expansión del vertedero existente en Carverdale, el vertedero de Hawthorn Park (HPL), y por lo tanto le pido a la Comisión de Calidad Ambiental de Texas (TCEQ) que niegue el permiso número 2185A, la instalación de reciclaje y eliminación de Hawthorn Park. Además, le pido al TCEQ que cierre permanentemente el HPL, el vertedero existente, porque elimina la capacidad de Carverdale para prosperar como vecindario e impide la capacidad de los residentes de Carverdale para vivir, trabajar y aprender en un ambiente saludable.

Petition Against Permit Number 2185A, Hawthorn Park Recycling and Disposal Facility

MY COMMENT: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore I am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, I am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.

Petición contra el permiso número 2185A, instalación de reciclaje y eliminación de Hawthorn Park

MI COMENTARIO: Me opongo a la expansión del vertedero existente en Carverdale, el vertedero de Hawthorn Park (HPL), y por lo tanto le pido a la Comisión de Calidad Ambiental de Texas (TCEQ) que niegue el permiso número 2185A, la instalación de reciclaje y eliminación de Hawthorn Park. Además, le pido al TCEQ que cierre permanentemente el HPL, el vertedero existente, porque elimina la capacidad de Carverdale para prosperar como vecindario e impide la capacidad de los residentes de Carverdale para vivir, trabajar y aprender en un ambiente saludable.

Petition Against Permit Number 2185A, Hawthorn Park Recycling and Disposal Facility

MY COMMENT: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore I am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, I am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.

Petición contra el permiso número 2185A, instalación de reciclaje y eliminación de Hawthorn Park

MI COMENTARIO: Me opongo a la expansión del vertedero existente en Carverdale, el vertedero de Hawthorn Park (HPL), y por lo tanto le pido a la Comisión de Calidad Ambiental de Texas (TCEQ) que niegue el permiso número 2185A, la instalación de reciclaje y eliminación de Hawthorn Park. Además, le pido al TCEQ que cierre permanentemente el HPL, el vertedero existente, porque elimina la capacidad de Carverdale para prosperar como vecindario e impide la capacidad de los residentes de Carverdale para vivir, trabajar y aprender en un ambiente saludable.

Petición contra el permiso número 2185A, instalación de reciclaje y eliminación de Hawthorn Park

MI COMENTARIO: Me opongo a la expansión del vertedero existente en Carverdale, el vertedero de Hawthorn Park (HPL), y por lo tanto le pido a la Comisión de Calidad Ambiental de Texas (TCEQ) que niegue el permiso número 2185A, la instalación de reciclaje y eliminación de Hawthorn Park. Además, le pido al TCEQ que cierre permanentemente el HPL, el vertedero existente, porque elimina la capacidad de Carverdale para prosperar como vecindario e impide la capacidad de los residentes de Carverdale para vivir, trabajar y aprender en un ambiente saludable.

Petition Against Permit Number 2185A, Hawthorn Park Recycling and Disposal Facility

MY COMMENT: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore I am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, I am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.

Petition Against Permit Number 2185A, Hawthorn Park Recycling and Disposal Facility

MY COMMENT: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore I am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, I am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.

Petición contra el permiso número 2185A, instalación de reciclaje y eliminación de Hawthorn Park

MI COMENTARIO: Me opongo a la expansión del vertedero existente en Carverdale, el vertedero de Hawthorn Park (HPL), y por lo tanto le pido a la Comisión de Calidad Ambiental de Texas (TCEQ) que niegue el permiso número 2185A, la instalación de reciclaje y eliminación de Hawthorn Park. Además, le pido al TCEQ que cierre permanentemente el HPL, el vertedero existente, porque elimina la capacidad de Carverdale para prosperar como vecindario e impide la capacidad de los residentes de Carverdale para vivir, trabajar y aprender en un ambiente saludable.

Petición contra el permiso número 2185A, instalación de reciclaje y eliminación de Hawthorn Park

MI COMENTARIO: Me opongo a la expansión del vertedero existente en Carverdale, el vertedero de Hawthorn Park (HPL), y por lo tanto le pido a la Comisión de Calidad Ambiental de Texas (TCEQ) que niegue el permiso número 2185A, la instalación de reciclaje y eliminación de Hawthorn Park. Además, le pido al TCEQ que cierre permanentemente el HPL, el vertedero existente, porque elimina la capacidad de Carverdale para prosperar como vecindario e impide la capacidad de los residentes de Carverdale para vivir, trabajar y aprender en un ambiente saludable.

Petition Against Permit Number 2185A, Hawthorn Park Recycling and Disposal Facility

MY COMMENT: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore I am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, I am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.

COVER MESSAGE

To Whom It May Concern,

Attached are petitions submitted by Carverdale residents at the Carverdale Community Center Event on April 4, 2022. Thank you.

Myra Jefferson

Petition Against Permit Number 2185A, Hawthorn Park Recycling and Disposal Facility

MY COMMENT: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore I am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, I am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.

Petition Against Permit Number 2185A, Hawthorn Park Recycling and Disposal Facility

MY COMMENT: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore I am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, I am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.

Petition Against Permit Number 2185A, Hawthorn Park Recycling and Disposal Facility

MY COMMENT: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore I am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, I am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.

Petición contra el permiso número 2185A, instalación de reciclaje y eliminación de Hawthorn Park

MI COMENTARIO: Me opongo a la expansión del vertedero existente en Carverdale, el vertedero de Hawthorn Park (HPL), y por lo tanto le pido a la Comisión de Calidad Ambiental de Texas (TCEQ) que niegue el permiso número 2185A, la instalación de reciclaje y eliminación de Hawthorn Park. Además, le pido al TCEQ que cierre permanentemente el HPL, el vertedero existente, porque elimina la capacidad de Carverdale para prosperar como vecindario e impide la capacidad de los residentes de Carverdale para vivir, trabajar y aprender en un ambiente saludable.

Petition Against Permit Number 2185A, Hawthorn Park Recycling and Disposal Facility

MY COMMENT: I am opposed to the expansion of the existing landfill in Carverdale, the Hawthorn Park Landfill (HPL), and therefore I am asking the Texas Commission on Environmental Quality (TCEQ) to deny Permit Number 2185A, The Hawthorn Park Recycling and Disposal Facility. Additionally, I am asking the TCEQ to permanently close the HPL, the existing landfill, because it removes Carverdale's ability to thrive as a neighborhood and impedes the ability of Carverdale residents to live, work and learn in a healthy environment.
