COMMENTS: To whom this concern , I would just like to give a little of my words in hopes it makes a difference. I live out here in the community of Deer Mountain on the outsides of El Paso / Hudspeth County. I've lived out here for about a good 6 years & I love my small community . I've learned today that Cerro Alto has a slugged dump out here & El Paso's waste is being dumped very close to my Community. I would like to let you guys know this is very very bad for our health. I've always wondered why it smell like waste out here not all the time but it does & the flies are just horrible . I

ask myself why is this being allowed : , have children , many people have children out here and they cannot be smelling all this poisoning . Cerro Alto should be ashamed of what they are doing & should be liable for anyone getting sick! To who ever gets this comment please help us to stop this from happening any further . Would you like this to be happening in your community? I bet not . We don't want all this waste dumped in our community. Please this is a cry out for help! Don't renew their licensing and continue this . I'm sure there's many other places that can be used for this purpose . Don't renew their license . That company is nothing but problems not just with my billing of my services but now this . I will spread the word door to door & make sure everyone knows about this . This needs to stop! NOW!

COMMENTS: The sludge being transferred through our area is a problem to me, as it is for all of us that live there. Numerous times I have seen evidence of spillage on the road without any type of cleanup attempted. My other concern is regarding the environment where they dump this waste. We know that we live in a dry environment with a near constant wind. As seen in person as well as from Google Maps the sludge is left above ground with no regard for containment once the sludge has dried and become airborne. We have no assurances or studies that the airborne

particles from the sludge they are dumping is not causing harm to the environment or more importantly our health. Please cease all permits allowing this activity.

COMMENTS: No disclosure of this facility was made to any resident prior to purchasing our homes You devalue our property values! This facility endangers the health and welfare of this community and its future generations This facility jeopardizes the future water table You do not pay taxes to our community for the privilege of dumping El Paso's sewage here It STINKS to high heaven! You destroy our PRIVATE roads and have failed to re-pave them and maintain them in

acceptable condition Trucks cracking the bridge of our only road into our community! You have the option to put in a commercial road to Hwy 62 directly and NOT use our residential PRIVATE roads. Excessive Speeding semis endanger our Children, our Pets, and our community in general.

Evaluating Odor Complaints

The Texas Commission on Environmental Quality (TCEQ) evaluates outdoor odor-related complaints to determine if nuisance conditions exist. In order to better evaluate each occurrence, the information listed below is intended to partially standardize how information is provided.

If you wish to file a complaint regarding outdoor odors, the accompanying odor log may be submitted to the appropriate TCEQ Region Office. **If an outdoor odor is creating a health effect, contact the appropriate TCEQ Region Office by phone at or near the time you're experiencing these effects.** The information you provide will be used in conjunction with information gathered by the investigator to evaluate your concerns. In addition, you may submit a signed written statement documenting how you are being impacted by the alleged odor. In the event nuisance conditions are confirmed by the investigator, a signed written statement or notarized affidavit is required to proceed with citing a nuisance odor violation. You will need to provide your name and contact information, including address, to the agency. If you do not wish to provide your name and contact information, we may still investigate your complaint but may be unable to issue a nuisance violation. Your contact information will be handled as confidential but please be advised that you must be willing to testify in any formal enforcement hearing in regards to your written statement. If you have additional evidence to submit, you may find information on the TCEQ's webpage for Gathering and Preserving Information and Evidence Showing a Violation.

Documenting Odors on the Odor Log

This log is intended to document how often an outdoor odor occurs and how long it lasts. You may also provide additional details about the nature of the odor, impact of the odor and weather conditions. This will assist the investigator in scheduling their investigation and assessing nuisance conditions.

- List the date and time of each time you smell the odor of concern. Please note a.m. or p.m.
- State how long the odor lasted in hours and minutes and note whether the odor was intermittent. For odors that lasted longer than you were outside, be sure to document whether the odor was constant each time you went outside.
- Describe the strength of the odor.
- Weather conditions such as temperature, wind direction, and wind speed may be estimated.
- Under comments, describe the nature of the odor. What does it smell like? You may also list where you think the odor may be coming from.

Texas Commission on Environmental Quality Order Log

Date	Time(s) (a.m. or p.m.)	How long did the odor last (hours and minutes)?	Was the odor constant or intermittent?	Weather Conditions	Effects / Comments / Concerns
