BROWNFIELD TX 79316-6701

PHONE: 8067771543

FAX:

COMMENTS: West Gin's ginning methods create an adverse affect on myself as an employee of Brownfield Farmers Cooperative Station. On more than one occasion, we have been evacuated due to fires at the gin and the associated smoke. Our vehicles have suffered severe smoke damage and during ginning season there is an overabundance of lint and dirt in the air originating from the gin.

COMMENTS: Their exceptional disregard of safe gin practices. Constantly affects our entire community in negative ways. Not only do they jeopardize the safety of their own staff but those of the surrounding businesses. Especially considering the ever changing conditions in our weather creating the need for management to be more vigilant than ever. This lack of respect for working conditions created fires of extreme portions in 2018 and 2021. These fires did not only affect the

gin but had quite the ripple affect throughout our town. These events could have been prevented or possibly reduced in their affects had the proper safety measures been observed.
