COMMENTS: We are requesting a contested case hearing on this matter. We live along the pecan creek and have been adversely affected by the quality of air and believe it is in part due to the release of certain hazards into the Pecan Creek water shed.

COMMENTS: We have concerning issues regarding this permit. We live along Pecan Creek and are in close proximity to the land fill and the water plant. We have been complaining about the smell for many years and it has become very serious. We cannot enjoy our backyard especially now with the cooler air filtering in from the North. We cannot even open our windows due to the stench. Wanting to increase output into the creek is definitely a concern and something that we greatly oppose.
