Dear Ms. Gharis:

Thank you for your service to the Texas Commission on Environmental Quality (TCEQ) and the State of Texas. This is to request that TCEQ hold a public meeting regarding the proposed major amendment to the City of Kyle's Texas Pollutant Discharge Elimination System Permit No. WQ0011041002, which we represent in the Texas Legislature.

The San Marcos River Foundation expressed concerns regarding this permit application. Consistent with our goal of encouraging communication to address important community issues, we believe a public meeting would provide a valuable opportunity to enhance transparency, communicate effectively about this project, and enable those who would be affected by the permit's approval to submit comments and have their questions answered. In the process, we urge TCEQ to examine all concerns thoroughly and to resolve any problems identified.

Your favorable consideration of this request would be appreciated greatly. Feel free to contact us regarding this issue or whenever we can be of assistance. May God bless you.

Very truly yours,

Re: City of Kyle / Application No. WQ0011041002

Dear Senator Zaffirini:

Thank you for your letter to the Texas Commission on Environmental Quality (TCEQ) requesting a public meeting regarding City of Kyle / Application No. WQ0011041002. The City of Kyle has applied for a major amendment to Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0011041002 to authorize an increase in the discharge of treated domestic wastewater from an annual average flow limit not to exceed 4,500,000 gallons per day to an annual average flow limit not to exceed 12,000,000 gallons per day and the addition of an Interim II phase at an annual average flow not to exceed 9,000,000 gallons per day. The facility is located at 941 New Bridge Drive, in Hays County, Texas 78640. The treated effluent is discharged directly to Plum Creek in Segment No. 1810 of the Guadalupe River Basin.

Public participation is an integral part of the permitting process. Proposed public meetings will provide an opportunity for the public to ask questions, to voice their concerns, and to formally comment. The public may also provide written comments to the TCEQ anytime during the public comment period. The TCEQ takes both types of comments into consideration during the permitting process.

The Office of the Chief Clerk will facilitate the public meeting and are available to answer any questions the public may have concerning this meeting. If you have any questions, please contact me at (512) 239-3900 or Laurie Gharis, Chief Clerk, at (512) 239-3300.

Sincerely,
