COMMENTS: I was recently made aware of the expansion to the landfill and am fully against its expansion. Living in close proximity has led to smelling the horrid landfill on days when the winds blow from the east. Also I was not informed to what will be allowed in the landfill. What types of solids and liquids will be permitted as well as what will be done to reduce any levels of methane generation in the landfill and how potentially toxic liquids will seep into the surrounding ground and water table. Also, why is such a large project being permitted so close to residential areas and schools?

Projects like these should not be allowed in the city and should be moved to areas that are significantly away from homes and schools. I would like further feedback concerning this project as soon as it is made available. Again to reiterate, I am fully AGAINST this expansion in our neighborhood!

COMMENTS: To whom may concern, This is amazing that I never received a letter letting me know what is going on with this landing expansion. I am in disagreement with this project for the reason that it will affect the environment around it. I live at the border with it and there are times that we get the bad smell of it, a lot of birds flying around trying to eat from it. Another problem is the noise produce for all the vehicles comming to throw trash to it, many times is frustrating. As well, I am in disagreement about it because I never received a notice to regarding the issue. It made it

look like they (waste management) did not want for the neighbors to know because they knew we were going to disagree with this project. So, please do not allow it to happen, it is not good for the neighborhoods around it. Thank you, and really hope that you take our comments in account. Sincerely, Karen Entwistle

COMMENTS: I am very opposed to the proposed landfill. I live in a beautiful community called Southway that is filled with hard working families. One of the highlights of Southway is the beautiful park that is frequented by many of community children. That park is dangerously close the proposed landfill. I feel strongly that it is wrong to expose the community and these kids to the hazards that will come with this landfill, to the smells, the health hazards, not to mention and increase in rodents and bugs so close to our community and park. The proposed landfill also borders dining

establishments as well as a senior living facility. This is wrong, wrong, and did I mention the wildlife population of ducks that live in the lake. Please re-evaluate the planning on this because Southway does not deserve this. In addition Harris County has raised our property taxes for what a landfill. The landfill will also be highly visible from the freeway and this is not a good way to beautify Texas, Houston, or Southway.

COMMENTS: I am the property manager and managing agent for Southway Homeowners Association. I am submitting this at the request of a Board Member for the Association. The Board does not feel they have had adequate time to inform the community since receiving this notice on 3/08/2023. In addition, the Association did not receive any previous communication regarding this project. The Board would request a public meeting be conducted so the Homeowners of Southway Homeowners Association affected by this project may learn additional details and voice their concerns. The

Board would also request instructions be sent to us for requesting a Contested Case Hearing. We appreciate the opportunity to comment and make these requests. Once determined, please provide a date and time of a public meeting so we may notify Homeowners and Board Members who will want to attend.
