COMMENTS: I have reviewed the application issued for mine services Inc. permit number 169683, I feel there are several questions unanswered concerning our air quality, concerning the traffic that this new rock crusher will create. I think more information needs to be available to our neighborhood and more questions answered before the application is allowed to proceed. Would it be possible to request a public hearing so we can get our concerns resolved?

COMMENTS: I am very concerned by this permit request for multiple reasons 1.) It will affect the quality of air that we breath on a daily basis during this plant's operation hours: my wife, son in law, and grandson are all asthmatics 2.) The additional dust and particles that will be in the air will affect the quality of are central air, and additional dirt in our pool. 3.) We do not want any truck's exiting the plant onto McLennan Crossing Rd it is a very narrow road as is. (they must exit

out toward Hwy. 6) Lastly I want to REQUEST/DEMAND a public hearing on pertaining permit #169683. Thank you in advance for listening to my concerns.
