EMAIL: Strvpark@gmail.com

COMPANY: Stephenville TExas RV Park

ADDRESS: 4710 N US HIGHWAY 281
STEPHENVILLE TX 76401-8918

PHONE: 2545952017

FAX:

COMMENTS: I have an RV Park directly behind the Schreiber Foods two holding tanks. I have looked online and emailed for a map of the plans for the new site. The information is not clear as the only map is of the Schreiber property which I understand where that is. I have concerns and would like to be able to ask questions about their plans and progress. Currently the smell of raw sewage is strong when we get a breeze from the East. Our concern is if the new plans will eliminate those smells or make them worse. The sewage smell concerns me for my business and health. I am requesting a Contested Case Hearing. Please help me get answer prior to approving this permit. My husband and I live on the North side of the RV Park directly behind the Schreiber Foods property.

COMMENTS: We are concerned with the sewage smell. With enlarging and getting the 2nd pond the last time, we are getting smells of raw sewage that flows all the way up to our house and into the RV Park. It is really bad when we are riding horses down at the bottom of our property. We didn't have the smell when we first moved here in 2017 but with Schreiber's last build on the other pond it can smell really bad. What can Schreiber do to help lessen the smell? Possibly line the property with fast growing trees. Maybe starting with trees of at least 6 inches in diameter. If Schreiber enlarges

or adds another pond, I can't imagine the smell and what it could do to our RV Park business. We understand growth but we have a beautiful property. It still has somewhat of a view but now sometimes smells like sewer from Schreiber's cheese water. Can we get a solution to the smell?
