§

BEFORE THE
TEXAS COMMISSION ON
ENVIRONMENTAL QUALITY

THE OFFICE OF PUBLIC INTEREST COUNSEL'S RESPONSE
TO REQUEST FOR HEARING

To the Members of the Texas Commission on Environmental Quality:

The Office of Public Interest Counsel (OPIC) at the Texas Commission on Environmental Quality (TCEQ) files this Response to Request for Hearing on the petition in the above-captioned matter and respectfully submits the following.

I. INTRODUCTION

A. Summary of Position

The Commission received a request for a contested case hearing from J. Grady Randle on behalf of Williamson County regarding the application for the creation of Burford Ranch Municipal Utility District (Burford Ranch MUD or District). For the reasons discussed herein, OPIC respectfully recommends that the Commission grant the hearing request of Williamson County.

B. Background

Applicant 05 Ranch Investments, LLC, a Texas limited liability company, filed a petition for creation of Burford Ranch MUD with the TCEQ pursuant to Article XVI, Section 59 of the Texas Constitution; Chapters 49 and 54 of the Texas Water Code (TWC); Title 30 of the Texas Administrative Code (TAC), Chapter 293; and the procedural rules of the TCEQ. The petition states that: (1) the Petitioner

holds title to a majority in value of the land to be included in the proposed District; (2) there are no lienholders on the property to be included in the proposed District; (3) the proposed District will contain approximately 232.00 acres located within Williamson County; and (4) a portion of the land within the proposed District is within the extraterritorial jurisdiction (ETJ) of the City of Coupland. The remainder of the land to be included within the proposed District is within the unincorporated area of Williamson County and is not within the corporate limits or ETJ of any city.

The petition was declared administratively complete on August 30, 2023, and the Notice of District Petition was published on October 16, 2023. According to the notice, the proposed District will: (1) design, construct, acquire, maintain, and operate a waterworks and sanitary sewer system for domestic and commercial purposes; (2) design, construct, acquire, improve, extend, maintain, and operate works, improvements, facilities, plants, equipment, and appliances helpful or necessary to provide more adequate drainage for the proposed District; (3) control, abate, and amend local storm waters or other harmful excesses of waters; (4) design, acquire, construct, finance, issue bonds for, operate, maintain, and convey to the state, county, or a municipality for operation and maintenance, roads or any improvement in aid of the roads; and (5) acquire, own, develop, construct, improve, manage, maintain, and operate parks and recreational facilities, and to accomplish the design, construction, acquisition, improvement, maintenance, and operation of such additional facilities, systems, plants, and enterprises, as shall be consonant with all of the purposes for which

the proposed District is created. The comment period ended on December 5, 2023.

II. APPLICABLE LAW

A municipal utility district may be created under and subject to the authority, conditions, and restrictions of Article XVI, Section 59, of the Texas Constitution. Chapters 49 and 54 of the TWC and the Commission's administrative rules found at Title 30, Chapter 293, of the TAC govern petitions to create a MUD. A district shall be created for the following purposes:

- (1) the control, storage, preservation, and distribution of its storm water and floodwater, the water of its rivers and streams for irrigation, power, and all other useful purposes;
- (2) the reclamation and irrigation of its arid, semiarid, and other land needing irrigation;
- (3) the reclamation and drainage of its overflowed land and other land needing drainage;
- (4) the conservation and development of its forests, water, and hydroelectric power;
- (5) the navigation of its inland and coastal water;
- (6) the control, abatement, and change of any shortage or harmful excess of water;
- (7) the protection, preservation, and restoration of the purity and sanitary condition of water within the state; and
- (8) the preservation of all natural resources of the state.

TWC § 54.012.

To create a MUD, a petition requesting creation shall be filed with the Commission. TWC § 54.014. The petition shall be signed by a majority in value of the holders of title of the land within the proposed district, as indicated by the tax rolls of the central appraisal district. *Id.* Among other things, the petition shall: (1) describe the boundaries of the proposed district by metes and bounds or by lot and block number; (2) state the general nature of the work proposed to

be done, the necessity for the work, and the cost of the project as then estimated by those filing the petition; and (3) include a name of the district which shall be generally descriptive of the locale of the district. TWC § 54.015. *See also* 30 TAC § 293.11(a) and (d).

If all of the district is proposed to be located outside corporate limits of a municipality, the commissioners court of the county in which the district is to be located may review the petition for creation and other evidence and information relating to the proposed district that the commissioners consider necessary. TWC § 54.0161(a). If the commissioners court votes to make a recommendation to the Commission, the commissioners court shall submit to the Commission, at least 10 days before the date set for the hearing on the petition, a written opinion stating whether or not the county would recommend the creation of the proposed district and stating any findings, conclusions, and other information that the commissioners court thinks would assist the Commission in making a final determination on the petition. TWC § 54.0161(b). The Commission shall consider the written opinion submitted by the county commissioners. TWC § 54.0161(c).

The Commission shall grant the petition if it conforms to the requirements of § 54.015 and the project is feasible, practicable, necessary, and further, would be a benefit to the land to be included in the district. TWC § 54.021(a). In determining if the project is feasible, practicable, necessary, and beneficial to the land included in the district, the Commission shall consider:

- (1) the availability of comparable service from other systems,

- including but not limited to water districts, municipalities, and regional authorities;
- (2) the reasonableness of projected construction costs, tax rates, and water and sewer rates; and
 - (3) whether or not the district and its system and subsequent development within the district will have an unreasonable effect on the following:
 - (A) land elevation;
 - (B) subsidence;
 - (C) groundwater level within the region;
 - (D) recharge capability of a groundwater source;
 - (E) natural run-off rates and drainage;
 - (F) water quality; and
 - (G) total tax assessments on all land located within a district.

TWC § 54.021(b).

If the Commission finds that not all of the land proposed to be included in the district will be benefited by the creation of the district, it shall exclude all land not benefited and redefine the proposed district's boundaries accordingly.

TWC § 54.021(c). If the petition does not conform to the requirements of TWC § 54.015 or the project is not feasible, practicable, necessary, or a benefit to the land in the district, the Commission shall deny the petition. TWC § 54.021(d). The rights, powers, privileges, authority, and functions of a district shall be subject to the continuing right of supervision by the Commission. TWC § 54.024.

The applicant must publish notice of the petition to create a district once a week for two consecutive weeks in a newspaper regularly published or circulated in the county where the district is proposed to be located not later than the 30th day before the date of the Commission's decision on the application. TWC §§ 49.011(b) and 54.018. Additionally, the applicant must post notice of the petition on the bulletin board used for posting legal notices in each

county in which all or part of the proposed district is to be located. 30 TAC § 293.12(b)(2). The Commission shall hold a public hearing if requested by the Commission, Executive Director, or an “affected person” under the factors in 30 TAC, Chapter 55. TWC § 49.011(c). *See also* 30 TAC § 55.250 (applying rules governing contested case hearings to applications declared administratively complete after September 1, 1999). Affected persons must file their hearing requests during the 30 days following the final notice publication date. TWC § 49.011(c); 30 TAC § 293.12(c).

A hearing requestor must make the request in writing within the time period specified in the notice and identify the requestor’s personal justiciable interest affected by the application, specifically explaining the “requestor’s location and distance relative to the activity that is the subject of the application and how and why the requestor believes he or she will be affected by the activity in a manner not common to members of the general public.” 30 TAC § 55.251(b)-(d).

An affected person is “one who has a personal justiciable interest related to a legal right, duty, privilege, power, or economic interest affected by the application. An interest common to members of the general public does not qualify as a personal justiciable interest.” 30 TAC § 55.256(a). Governmental entities with authority under state law over issues contemplated by the application may be considered affected persons. 30 TAC § 55.256(b). Relevant factors to be considered in determining whether a person is affected include, but are not limited to:

- (1) whether the interest claimed is one protected by the law under which the application will be considered;
- (2) distance restrictions or other limitations imposed by law on the affected interest;
- (3) whether a reasonable relationship exists between the interest claimed and the activity regulated;
- (4) likely impact of the regulated activity on the health, safety, and use of property of the person;
- (5) likely impact of the regulated activity on use of the impacted natural resource by the person; and
- (6) for governmental entities, their statutory authority over or interest in the issues relevant to the application.

30 TAC § 55.256(c).

The Commission shall grant a request for a contested case hearing if: (1) the request is made by the applicant or the ED; or (2) the request is made by an affected person, complies with the requirements of § 55.251, is timely filed with the chief clerk, and is made pursuant to a right to hearing authorized by law. 30 TAC § 55.255(b).

III. ANALYSIS OF HEARING REQUEST

The Commission received a timely hearing request from J. Grady Randle on behalf of Williamson County. Williamson County's hearing request stated that the proposed District is located entirely within Williamson County. Williamson County raised concerns about drainage, as well as infrastructure, health and safety, and emergency services.

Governmental entities with authority under state law over issues contemplated by the application may be considered affected persons. 30 TAC § 55.256(b). Additionally, a relevant factor for determining whether governmental entities qualify as affected persons is their statutory authority over or interest in

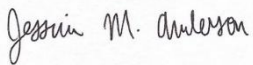

the issues relevant to the application. 30 TAC § 55.256(c)(6). As stated in its hearing request, Williamson County has statutory authority over various functions that may be affected by the creation of the proposed District, including drainage on public roads. *See* Tex. Transp. Code, Chapter 254. In its determination as to whether a District creation project is feasible, practicable, necessary, and beneficial to the land included in the district, the Commission must consider whether or not the district and its system and subsequent development within the district will have an unreasonable effect on natural runoff rates and drainage. TWC § 54.021(B)(3)(e). As contemplated by 30 TAC § 55.256(b) and (c)(6), Williamson County holds statutory authority over and an interest in an issue relevant to this application—drainage. Therefore, based on Williamson County’s identified interest in drainage issues and the proposed District’s location entirely within its boundaries, OPIC finds that Williamson County has demonstrated that it qualifies as an affected person in this matter.

IV. CONCLUSION

For the foregoing reasons, OPIC respectfully recommends the Commission find that Williamson County qualifies as an affected person, grant its hearing request, and refer the matter to the State Office of Administrative Hearings for a contested case hearing.

Respectfully submitted,

Garrett T. Arthur
Public Interest Counsel
