COMMENTS: October 17, 2023 Office of the Chief Clerk, MC 105 Texas Commission on Environmental Quality P.O. Box 13087 Austin, Texas 78711-3087 RE: Request for Public Meeting on FNH Construction, LLC Air Quality Standard Permit for Concrete Batch Plants CBP No. 2, Seagoville, Dallas County, Texas To Whom It May Concern: This letter is in response to FNH Construction, LLC's application with the Texas Commission on Environmental Quality (TCEQ) for an Air Quality Standard Permit, Registration No. 173515, which would authorize construction of a permanent concrete batch plant to be located south of the intersection of Cloverhill Road and West Simonds Road in Seagoville, Dallas County, Texas. I

would officially like to request a public meeting be held to discuss this permit application and allow all interested parties an opportunity to ask questions about the application and provide additional comments. Dallas County has dealt with and continues to deal with a number of public health and safety issues in regard to air quality. In fact, the Dallas-Fort Worth nonattainment area is currently classified as "severe" for the 2008 ozone standard with an attainment deadline of 2027. With an air quality plan currently being developed by your organization to assist in addressing these non-attainment issues, I believe it would benefit the public to have further discussions about this proposed concrete batch plant and its potential impact on public health and air quality. I appreciate your consideration of my written request for a public meeting and would be happy to answer any questions or provide clarification if needed. Sincerely, Clay Lewis Jenkins Dallas County Judge

RE: Request for Public Meeting on FNH Construction, LLC Air Quality Standard Permit for Concrete Batch Plants CBP No. 2, Seagoville, Dallas County, Texas

To Whom It May Concern:

This letter is in response to FNH Construction, LLC's application with the Texas Commission on Environmental Quality (TCEQ) for an Air Quality Standard Permit, Registration No. 173515, which would authorize construction of a permanent concrete batch plant to be located south of the intersection of Cloverhill Road and West Simonds Road in Seagoville, Dallas County, Texas.

I would officially like to request a public meeting be held to discuss this permit application and allow all interested parties an opportunity to ask questions about the application and provide additional comments. Dallas County has dealt with and continues to deal with a number of public health and safety issues in regard to air quality. In fact, the Dallas-Fort Worth nonattainment area is currently classified as "severe" for the 2008 ozone standard with an attainment deadline of 2027. With an air quality plan currently being developed by your organization to assist in addressing these non-attainment issues, I believe it would benefit the public to have further discussions about this proposed concrete batch plant and its potential impact on public health and air quality.

I appreciate your consideration of my written request for a public meeting and would be happy to answer any questions or provide clarification if needed.

Sincerely,

Clay Lewis Jenkins
Dallas County Judge
