COMMENTS: Dear Commission Members: I recently moved to this neighborhood for its potential as a deeply rooted community of its existing members, full of kind and loving people, as well is the possibility that it would one day become an extension of the lovely Heights area, full of first time home owners like myself. What I did not expect is that there was a chance portions of this area would later become facilities that produce massive amounts of industrial waste, noise, pollution, and cause commercial traffic on residential roads. I was disheartened when I was notified of this permit

application, and I kindly but firmly request that this application be denied, and Argos LLC be asked to find land in a less residential and less populous part of Houston that makes sense as a commercial zone. Please consider the residents of this neighborhood first and foremost when making your judgment on this permit number 105998. I also request a public hearing on this matter where you can hear these same sentiments from his many members of the neighborhood as possible. Thank you, James Swanson A Neighbor in Beverly Place

COMMENTS: I am against the permitting of a new concert plant in the residential neighborhood of Lindale park. permit number 105998 needs to be denied for several reasons. Air quality is already an issue due to a recycling pant in the area. The Concert plant would be located right next to a elementary school. Why would the TCEQ endanger the health of elementary students by allowing a plant to pollute the air children breath! Also 18 wheels would be coming in and out of

that plant destroying the roads and placing children in danger of being struck and killed by an 18 wheeler. Another concern is why would you allow a plant that could cause health issues to be built in a mostly Hispanic neighborhood? Are our lives lesser than that of others? Is that why this company would chose to build it Lindale park? Children's health and safety need to be taken into consideration along with the health of the Hispanic population that live in the Lindale park area. A Public hearing and meeting need to be set for the people to voice their thoughts about this oppressive permitting and construction of a concert plant. The TCEQ should do the right thing and protect the environment and lives of the residents in the Lindale Park area, and deny permit 105998. Most sincerely, Rev. Richard Christopher Vara
