COMMENTS: My name is Mizden Gonzalez'. I live at 21022 Lamm rd and only 0.4 miles away from southwaste disposal. I have lived with my family for sixteen years. During our time, we walk outside to smell the most vile and disgusting the smell coming from the factory. This smell affects us because we are very close, but the smell does not stop here. You can smell it from miles away. Freedom Elemenatry is only 0.9 miles away from the factory and the smell reaches the campus ground. Sandy Oaks a community with over 5,000 people are also affected by this. However, smell is not the only concern. The concern goes even deeper when this is worsening the air quality around thousands of people daily in their own homes or in the schools they attend or work at. It doesn't stop there. The smell affects the surrounding businesses,

people with respiratory conditions, people's will to spend time outside, and children having to evacuate their school due to concerns of gas leaks. This affects the people of the community, and we must stop it.

COMMENTS: I've contacted the city regarding this issue. This issue has persisted for over a year since I purchased my home in this area. The smell permeates indoors into my home making it unpleasant to be within miles of my home for hours at a time. The smell maybe begin in the middle of the night or the middle of the day. It is highly unpleasant and unfair to residents in the area.

COMMENTS: The smell coming from this facility is affecting our new community Lonesome Dove that's located about a mile away. We have already filed complaints about the smell and believe this facility shouldn't expand in our area. We are a growing community with more homes being built and the disgusting smell is unacceptable! Personally, the stench comes into my home and stinks up my master bedroom and kitchen while all the windows and doors are closed. I am pregnant and the stench wakes me up, makes me nauseous and vomit. It's unacceptable!

COMMENTS: I have a major concern with the expansion on the plant. the smell, run off and the drinking water well I have less the 3000 ft is big concert. They were running cattle next to this property but have since removed due it illness and death of animals. The condition of the street has gone to crap after the city send containers of kitchen grease and raw waste and they do not even have a shacker to keep debrie off the public street causing accidents when it rains we split and slide on the road. It is also affecting my kids recess at the school across the highway causing thousands of children with asthem to be kept indoors due to the smell.
