**Re: Permit 176138 for an Air Quality Standard Permit to authorize concrete batch plant**

Dear Executive Director Keel,

I have received the notice from the Texas Commission on Environmental Quality (TCEQ) on the above mentioned project regarding an Air Quality Standard Permit which would authorize the construction of a concrete batch plant located at 8929 County Road 591, Nevada, Texas in Collin County.

I am thankful that you have approved a public meeting regarding this permit. I hope the TCEQ representatives in attendance carefully take note of the concerns from constituents in the community. This is a residential area and its residents are very concerned regarding the production of particulate matter by this concrete batch plant and its deleterious effects upon their health.

I appreciate your consideration of this matter.

Blessings,

Angela Paxton  
Texas State Senator, District 8
