Whitesboro, TX 76268

**PHONE:** 9038210447

**FAX:**

**COMMENTS:** My primary residence is 117 Bandana drive, whitesboro,tx or southmayd, tx. This proposed facility would be in my neighborhood about 1/8 of a mile from my house. This will defantly effect my property value. The foul odor would be constant, not to mention health problems from breathing pollutants. I have severe allergies and think this facilitie would cause more health issues to me. We all have septic systems in our neighborhood, so where is all this waste coming from ? I am defantly opposed to this facility so close to my residence.

**COMMENTS:** I Oppose this permit as the waste water will enter a creek through my land. I have a well that provides drinking water and it is a shallow one and running treated waste water down our creek would more than likely contaminate our water source. Why is a small group of houses not using septic systems like the rest of us instead they want to have a waste water treatment that will not affect them but will all of the people down stream. I also do not like the fact this treated water will flow into the lake.

**COMMENTS:** My brother owns property adjacent to the proposed project and has for over thirty years. I am opposed to the proposed wastewater treatment plant for the following reasons: 1. Excess sludge during the process will flow onto adjacent properties and waterways. 2. Air pollution from emissions (pungent smell for miles) creating health risk from sewer gas. 3. Bacteria, viruses, disease causing pathogens polluting waterways, water wells and health risk to surrounding property owners. 4. Water pollution, flooding. 5. Destruction of property values near the facility. 6. Overloading the capacity of the plant. 7. Disruption of the country living in the area opening the door for more development. This property is located outside the city limits. 8. Adverse effects such as diseases on livestock and wildlife in the area. Please do not approve the proposed permit application. Thank you, Patsy Reeves
