## CHRISTIAN MANUEL

TEXAS STATE REPRESENTATIVE • DISTRICT 22

June 1, 2025

Texas Commission on Environmental Quality  
Executive Director Kelly Keel  
MC 172  
P.O. Box 13087  
Austin, TX 78711-3087

I am writing this letter in support of Golden Triangle Polymers Company, LLC and its wastewater permit application WQ0005432000.

Golden Triangle Polymers is building a world-scale petrochemical facility in Orange County, Texas. The \$8.5 billion investment is currently the third-largest private investment happening in the state of Texas and is a much-needed economic driver for Orange County and the entire southeast Texas region.

Golden Triangle Polymers, a joint venture between Chevron Phillips Chemical and QatarEnergy, has invested \$415 million in local small businesses and hired over 2,700 community members since construction began in November 2022. Once complete, the project will have created a total of 500 permanent jobs and 4,500 construction jobs, generating an estimated \$50 billion in residual economic impacts for the local community over the next 20 years.

I am confident Golden Triangle Polymers will meet the requirements and maintain the specific standards and conditions of this permit. Please do not hesitate to contact me if you have any questions.

Sincerely,

Vice Chair Christian Manuel  
State Representative
