COMMENTS: I am a concerned about this permit, and request that you deny it. Valero causes a lot of problems for the people who live in the Coastal Bend, and they do not prioritize human rights. We know that the air permit Valero is seeking will increase emissions of benzene and other hydrocarbons which impact the health of residents. I live less than 4 miles away from this plant. I read that the Valero Refinery East and West in Corpus Christi are in the top in the 10 Facilities with the Highest Annual Average of Highest Fence Line Concentrations per Monitoring Period, April 2022 - March 2023* (*source: <https://storymaps.arcgis.com/stories/9cc8aa37cb34444dbb053a097c22ba07>) We, your community members, are counting on TCEQ to fine Valero, instead of continuing to amend the air permit despite public input, and to the detriment of the community's health. I request a public meeting or a contested case hearing.
