Re: Applicant's Response to Hearing Requests and Requests for Reconsideration; Application by City of Liberty Hill for Renewal of TPDES Permit No. WQ0015000001; TCEQ Docket No. 2025-1452-MWD

Dear Ms. Gharis:

I have enclosed for filing the City of Liberty Hill's Response to Hearing Requests and Requests for Reconsideration in the above-entitled matter. Please let me know if you have any questions.

Yours very truly,

/s/Bobby M. Salehi

Bobby M. Salehi

TCEQ DOCKET NO. 2025-1452-MWD
TPDES PERMIT NO. WQ0015000001

APPLICATION BY	**§**	**BEFORE THE**
CITY OF LIBERTY HILL FOR	**§**	**TEXAS COMMISSION ON**
RENEWAL OF TPDES PERMIT	**§**	**ENVIRONMENTAL QUALITY**
NO. WQ0015000001	**§**	

APPLICANT'S RESPONSE TO REQUESTS FOR CONTESTED CASE HEARING AND REQUESTS FOR RECONSIDERATION

The City of Liberty Hill, Texas (the "Applicant," "City," or "Liberty Hill") files this response to the Requests for Contested Case Hearing ("Hearing Requests") and Requests for Reconsideration (the "Reconsideration Requests") (collectively, the "Requests") and respectfully urges the Texas Commission on Environmental Quality (the "TCEQ" or the "Commission") to deny the Requests and issue the draft permit proposed by the TCEQ Executive Director (the "ED").

These Requests improperly oppose the City's application to renew its existing permit, which is a straightforward renewal that seeks no modification to its existing permit. Following a thorough technical and legal review, the ED determined that the permit application is protective of the environment and public health, meets applicable legal requirements, and proposed to issue a permit to the City ("Draft Permit").

Any requests opposing the renewal should be denied for multiple independent reasons. First, although the permit exists, the treatment plant does not. The City has not constructed the plant, and will only do so and operate in strict compliance with all environmental, health, and safety requirements. Speculative concerns regarding a facility that has not been built yet cannot support a contested case hearing request. Second, there is no right to a contested case for a renewal

under these facts and the applicable case law. Finally, the overwhelming majority of the requests fail to satisfy the Commission's requirements for a hearing request.

Most importantly, the City seeks no changes to its existing permit, one that the Commission has already determined does not adversely impact public health or the environment. Without any proposed changes, there is no legal or factual basis for an evidentiary hearing. Accordingly, all requests should be denied and this permit renewed without a hearing.

I. NO RIGHT TO A HEARING

There is no right to a hearing on this renewal application. On March 23, 2023, the City applied to the TCEQ for renewal of TPDES Permit No. WQ0015000001 (the "Application"). The Application is a straightforward renewal with no amendment, modification, or expansion of the existing permit. Chapter 26 of the Texas Water Code establishes the framework under which certain applications are exempt from the "public hearing" and the Commission is expressly authorized to renew the permit without holding a hearing. An Application that meets the following criteria is not subject to a hearing:

> (1) the applicant is not applying to:
>
> (A) increase significantly the quantity of waste authorized to be discharged; or
> (B) change materially the pattern or place of discharge;
>
> (2) the activities to be authorized by the renewed or amended permit will maintain or improve the quality of waste authorized to be discharged;
>
> (3) for NPDES permits, notice and the opportunity to request a public meeting shall be given in compliance with NPDES program requirements, and the commission shall consider and respond to all timely received and significant public comment; and

(4) the commission determines that an applicant's compliance history under the method for using compliance history developed by the commission under Section 5.754 raises no issues regarding the applicant's ability to comply with a material term of its permit.

Tex. Water Code § 26.028(d)(1-4).

The Application satisfies each of these statutory criteria. The City does not seek to increase or change the quantity of waste authorized to be discharged, nor does it seek to change the pattern or place of discharge. Both elements are remaining exactly the same as authorized under the existing permit previously issued by the Commission on March 21, 2019. Just as the Commission acknowledged in 2019, the activities authorized by this permit renewal will maintain or improve the quality of waste authorized to be discharged.

Moreover, the public has been afforded extensive notice and opportunity to participate. Multiple notices were provided in compliance with NPDES requirements, a three-hour public meeting was held on December 3, 2024, and the Commission has considered and responded to all timely public comment through the ED's Response to Public Comment ("RTC") issued June 12, 2025.

This level of public participation exceeds that contemplated by Texas law. The public hearing referenced in Chapter 26 has been interpreted to mean a contested case hearing under the Texas Administrative Procedure Act.[1] In *Texas Comm'n of Env't Quality v. Bosque River Coalition*, the Texas Supreme Court recognizes §26.028(d)'s exception to the public hearing requirement that did not itself require a contested case hearing, but could instead allow permit issues to be determined through a "less formal, less expensive, and less time-consuming

[1] 413 S.W.3d 403, 407 (Tex. 2013)("Bosque").

proceeding before the Commission."[2] The statute reflects a deliberate legislative judgment that contested case hearings are unnecessary where the enumerated renewal criteria are satisfied. Here, the commenters and hearing requestors participated in the public comment period, the ED's response, the request for a contested case hearing process, and a public meeting to express their positions with the proposed renewal. This exemption from a contested case hearing does not limit meaningful public participation, as evidenced by the fact that public participation in this case resulted in a change to the Draft Permit to elevate the operator licensing requirements.[3] None of the Requestors provided a reasonable basis for disregarding the Legislature's exemption to a contested case hearing for renewals.

Finally, the City's compliance history further confirms that no hearing is warranted. The City's most recent compliance history rating performed on September 1, 2025 shows an appropriate rating of 6.63, classified as Satisfactory.[4] On a scale where zero represents the best possible score and 55.00 indicates poor performance, Liberty Hill's rating places it well within the stronger range of satisfactory environmental compliance.[5] This rating raises no issues regarding the City's ability to comply with a material term of its permit. In addition, the City has agreed to have a Class B chief operator during interim I and II phases, and a Class A licensed operator in the permit's final phase, ensuring highly qualified management of its facility at all times.

The opposition may attempt to justify a contested case hearing by pointing to alleged compliance issues at a different treatment facility. However, prior compliance matters at an

[3] RTC at 30.
[4] *See* Exhibit 1 attached, Applicant's September 1, 2025 Compliance History.
[5] *See* TCEQ's Compliance History Basics, available at https://www.tceq.texas.gov/compliance/enforcement/compliance-history/about.html (last visited Dec. 29, 2025).

unrelated facility are not determinative of whether a contested case hearing should be allowed for this permit renewal for a plant yet to be constructed. Moreover, as noted above, TCEQ's own records show that compliance is no longer a valid concern given the City's excellent rating.

The Commission should deny the Requests and grant the renewal. Because the Application meets all the requirements of Texas Water Code § 26.028(d), the Commission has clear statutory authority to approve the renewal without a contested case hearing. The Requests therefore lack any legal basis and should be denied.

II. PROCEDURAL BACKGROUND

On March 23, 2023, the City applied to the TCEQ for renewal of TPDES Permit No. WQ0015000001, which authorizes the discharge of treated domestic wastewater at an annual average flow not to exceed 1,400,000 gallons per day. The facility has not been built yet, but will be located approximately 2.5 miles north of the intersection of Ronald Reagan Boulevard and State Highway 29, in Williamson County, Texas, 78628 (the "Facility"). The Application seeks renewal of an existing permit and does not seek an amendment to increase or otherwise change the permit previously issued to the City. The ED reviewed the Application and determined that it is protective of the environment and public health, meets applicable legal requirements, and proposed to issue a permit to the City.

The Application was declared administratively complete on May 10, 2023. The Combined Amended Notice of Public Meeting, Notice of Receipt of Application and Intent to Obtain Water Quality Permit (NORI) and Notice of Application and Preliminary Decision (NAPD) for TPDES permit for municipal wastewater renewal was published on October 30, 2024 in the *Williamson County Sun*. The public comment period ended at the conclusion of the Public Meeting held on

December 3, 2024. The Executive Director's issued a Response to Public Comment ("RTC") on June 12, 2025.

The ED issued her Final Decision on the Application on June 19, 2025. The ED determined that the Application meets the requirements of applicable law. The ED set a deadline for the submission of contested case hearing request or requests for reconsideration as July 21, 2025.

III. APPLICANT'S RESPONSE TO HEARING REQUESTS

Liberty Hill contends that the Commission should dispose of all Requests and grant the renewal because there is no right to a hearing under Section 26.028(d).

However, if the Commission does not invoke 26.028(d), it is still justified in rejecting the Requests for lack of standing under the rules. Many of the Requests are either untimely, fail to identify a personal justiciable interest, fail to raise issues within the jurisdiction of the Commission, are not based on previously submitted timely comment, or otherwise fail to meet the clear requirements for contested case hearing request to comply with Commission requirements.

A contested case hearing must substantially comply with the following:

> (1) give the name, address, daytime telephone number of the person who files the request;
>
> (2) identify the person's personal justiciable interest affected by the application, including a brief, but specific, written statement explaining in plain language the requestor's location and distance relative to the proposed facility;
>
> (3) request a contested case hearing;
>
> (4)(B) list all relevant and material disputed issues of fact that were raised by the requestor during the public comment period and that are the basis of the hearing request; and

(5) provide any other information specified in the public notice of application.[6]

Importantly, a requestor for a contested case hearing must also be an "affected person" to be granted standing for a contested case hearing. An "affected person" is "one who has a personal justiciable interest related to a legal right, duty, privilege, power, or economic interest affected by the application. An interest common to members of the general public does not qualify as a personal justiciable interest."[7] In determining whether a person is an affected person, the Commission must consider the following factors:

(1) whether the interest claimed is one protected by the law under which the application will be considered;

(2) distance restrictions or other limitations imposed by law on the affected interest;

(3) whether a reasonable relationship exists between the interest claimed and the activity regulated;

(4) likely impact of the regulated activity on the health and safety of the person, and on the use of property of the person;

(5) likely impact of the regulated activity on use of the impacted natural resource by the person;

(6) whether the requestor timely submitted comments on the application that were not withdrawn; and

(7) for governmental entities, their statutory authority over or interest in the issues relevant to the application.[8]

In addition, for this Application, filed after September 1, 2015, the Commission may consider additional factors in determining affected person status: (1) the merits of the application;

[6] 30 Tex. Admin. Code § 55.201(d).
[7] 30 Tex. Admin. Code § 55.203(a).
[8] *Id.* § 55.203(c).

(2) the analysis and opinions of the ED; and (3) any other expert reports, affidavits, opinions, or data submitted by the ED, the applicant, or hearing requestor.[9]

A hearing request must identify all relevant all material disputed issues of fact or mixed questions of law that form the basis of the request. The Commission may not refer an issue to SOAH unless the Commission determines that the issue: (1) involves a disputed question of fact or a mixed question of law and fact; (2) was raised during the public comment period, and, for applications filed on or after September 1, 2015, was raised in a comment made by an affected person whose request is granted; and (3) is relevant and material to the decision on the application.[10]

A. Hearing requestors failed to submit timely comments during the public comment period.

A hearing requestor who did not submit timely public comments cannot support a contested case. Commission rules require that a hearing request be based on issues the same requestor timely raised during the public comment period. Any hearing request that fails to do so must be denied.

The following list of individuals failed to submit timely comments during the public comment period:

1. Usha Muthu Krishna Pillai
2. Praveen Chaudhary
3. Richard Deprospo
4. Paul Mcpheeters
5. Kathy & Keith Dorsa
6. Nick Mihnovets
7. Catherine Anderson

[9] *Id*. § 55.203(d); *see also* Tex. Water Code § 5.115(a-1)(1).
[10] Tex. Water Code § 5.556(d); 30 Tex. Admin. Code § 50.115(c).

8. Cecile Clause De Ramirez
9. Miguel Corazao
10. Martin Joseph
11. Will Hutchison
12. Alex Rancel
13. Ryan Batista
14. Brian Peterson
15. Eric Thomas
16. Lizbeth Gutierrez
17. Garrett Blanton
18. Baleigh Dua
19. Meghan De La Torre
20. Teresa Garza
21. Gautham Goalla
22. Moez Khalfan
23. Fernando Matias
24. Tia Sanders
25. Gowri Shankhar Mathur Chandrasekaran
26. K Skinner
27. Nirali Saliya
28. Angie Bokelmann
29. Jana Shen
30. Anders Roedland
31. Bronson Buell
32. Srinivas Kandula

These requestors who failed to file comments or file late ones lack standing to request a contested case hearing, and therefore their requests must be denied.

B. Several requestors fail to raise relevant and material disputed issues of fact.

The following requests did not "list all relevant and material disputed issues of fact that were raised by the requestor during the public comment period and *that are the basis for the hearing request.*"[11] A hearing request must point back to a timely submitted public comment that raised relevant and referrable issues, for a requestor to have standing. The following requestors failed to meet this requirement:

1. Vamsi Krisham Raju Sagi
2. Sridhar Ramavarapu
3. Landon Smith
4. Melissa Hill
5. Srikanth Kodali
6. Bentzi Kelton
7. Vaidehi Yerravali
8. Beth Carls
9. Krishna Medavarapu
10. Carlos Herrera
11. Pradeep Ramanna
12. Dylan Walker
13. Michelle Cox
14. Sree Harsha Ravilla

These requestors lack standing to request a contested case hearing, and therefore their requests must be denied.

[11] 30 TAC §55.201(d)(4)(B) (emphasis added).

C. Several requestors failed to raise a personal justiciable interest in their hearing request.

For a hearing request to be granted, a requestor must show that they are an affected person with an interest related to a legal right, duty, privilege, power, or economic interest affected in a way not common to the general public.[12] This right must be clearly illustrated and explained in a proper hearing request.

Here, many of the requestors only assert that the proposed plant would be "bad" for their neighborhood or community. Such generalized opposition does not identify any specific personal interest, concrete harm, or particularized grievance for a contested case to resolve. Because the alleged concerns are indistinguishable from those shared by the public at large, they fail as a matter of law to establish affected person status. Contested case proceedings are not available to address generalized community objections of this nature.

The following requestors failed to illustrate a personal justiciable interest in their hearing request:

1. Susan Smith
2. David Boyer
3. Beth Carls
4. Caroline Walker
5. Danielle Alva
6. Jesus Alva
7. Bhanu Tanneru
8. Christine Martinez
9. Matthew Lamkin
10. Venkata Illendula

[12] 30 TAC §55.203(a).

11. Trina Ghosh
12. Sagnik Ghosh
13. Arjun Sridhar
14. David Smith
15. Preethi Malla
16. Rahul Gonuru
17. Casi Stuchell
18. Gautham Goalla
19. Stephanie Morris

These requestors lack standing to request a contested case hearing, and therefore their requests must be denied.

IV. RESPONSE TO REQUESTS FOR RECONSIDERATION

Regarding requests for reconsideration, TCEQ rules provide that any person may file a request for reconsideration of the ED's decision.[13] The requests for reconsideration must expressly state that the person is requesting reconsideration of the ED's decision and must give reasons why the decision should be reconsidered.[14] If the Commission finds no new issues beyond those already evaluated by the ED, it may deny the request. All requests for reconsideration filed in this matter fail to include any new issues that have not already been considered and are thoroughly evaluated by the ED and Applicant. Therefore, all the requests for reconsideration should be denied.

V. CONCLUSION

Pursuant to 30 TAC § 55.209, the City summarizes its response as follows:

(1) No one is entitled to a hearing: All criteria for a no-hearing straightforward renewal permit application for a facility that has not been constructed were satisfied here. The benefit from issuing the permit heavily outweighs the unnecessary delay and expense the granting

[13] 30 TAC § 55.201(e).
[14] *Id.*

of a hearing would entail. The Commission should grant the permit renewal application and deny all hearing requests.

(2) Affected persons: None of the Requestors qualify as affected persons because of the exemption from public hearings under Water Code Section 26.028(d). However, if the Commission does not strictly apply 26.028(d) and finds some requestors are "affected persons," then the Commission is urged to also find that none of those requestors properly raised disputed issues warranting referral to SOAH.

(3) All Issues Addressed: There are no changes to this permit proposed since the Commission last found that this permit satisfied all environmental, health, and safety requirements. As such, Applicant further urges the Commission to find that all issues raised by Requestors have been thoroughly addressed by the Executive Director in the RTC and Draft Permit eliminating the need for a contested case hearing.

(4) Dispute Involving Questions of Fact of Law: None were properly raised. Additionally, regarding compliance history, the City has a stellar compliance history rating of 6.63. The Commission has no basis to refer this renewal to SOAH and delay issuance if the application demonstrates that all applicable statutes, rules, and regulations will be met. The City has fulfilled this required threshold.

For the foregoing reasons, the City respectfully requests that the Commission deny the hearing requests and requests for reconsideration in this matter and issue the Draft Permit to the City. The City further requests any other relief to which it may be justly entitled.

Respectfully submitted,
