**COMMENTS:** I am writing to advocate on behalf of my mother-in-law who a two lots to the west of this plant. She is on oxygen 24/7 and the dust from this plant has had very ill effects on her. Also, it is my understanding that the original temporary permit was that the plant be placed where the now trailer house is, if this is the case why aren't they being made to move back to the original location away from all the residents around them? So on behalf of my mother-in-law Gwen Patterson I would like the plant either moved back to where it should have been or not permitted again. Thank you!
