Senate Bill 709 (84th Legislative Session, 2015) amended the Texas Water Code by adding new Section 5.5553, which requires the Texas Commission on Environmental Quality (TCEQ) to provide written notice to you at least thirty (30) days prior to the TCEQ's issuance of draft permits for applications that are located in your district.

GRBK Edgewood LLC and Rummel & Rohde Farms LTD, 5501 Headquarters Drive, Suite 300W, Plano, Texas 75024, has applied to the TCEQ for proposed Texas Pollutant Discharge Elimination System Permit No. WQ0016601001 (EPA I.D. No. TX0146498) to authorize the discharge of treated wastewater at a volume not to exceed a daily average flow of 660,000 gallons per day. The domestic wastewater treatment facility will be located at 1051 County Road 369, in the city of Taylor, in Williamson County, Texas 76574. The discharge route will be from the plant site to North Fork Mustang Creek, thence to Mustang Creek, thence to Brushy Creek in Segment No. 1244 of the Brazos River Basin. TCEQ received this application on August 19, 2024. The permit application will be available for viewing and copying at Taylor Public Library, reference area, 801 Vance Street, Taylor, Texas. The application, including any updates, and associated notices are available electronically at the following webpage: https://www.tceq.texas.gov/permitting/wastewater/pending-permits/tpdes-applications.
