NOTICE OF HEARING

CITY OF WICHITA FALLS
SOAH Docket No. 582-22-2634
TCEQ Docket No. 2022-0125-WR
Water Use Permit No. 13404

APPLICATION.

City of Wichita Falls, 1300 7th Street, Wichita Falls, Texas 76307, has applied to the Texas Commission on Environmental Quality (TCEQ) for a Water Use Permit pursuant to Texas Water Code §§ 11.121, 11.042 and TCEQ Rules Title 30 Texas Administrative Code (TAC) §§ 295.1, *et seq.*

The City of Wichita Falls, Applicant, seeks authorization to construct and maintain a 275,000 acre-foot capacity reservoir, Lake Ringgold, on the Little Wichita River, Red River Basin. Applicant also seeks to divert 65,000 acre-feet of water per year from Lake Ringgold for multiple purposes within its service area. Applicant further seeks to use the bed and banks of the Little Wichita River (Lake Arrowhead) to convey return flows and the 65,000 acre-feet of water for subsequent diversion and use.

Applicant seeks a Water Use Permit to construct and maintain a 275,000 acre-foot capacity reservoir (Lake Ringgold) on the Little Wichita River, tributary of the Red River, Red River Basin with the centerline of the dam being at Latitude 33.8962900°N, Longitude 97.9929801°W, Zip Code 76261, in Clay County.

Applicant also seeks to divert and use not to exceed 65,000 acre-feet of water per year from anywhere along the perimeter of Lake Ringgold, at a maximum diversion rate of 139.79 cfs (62,770 gpm), for municipal, industrial, mining and agricultural purposes within the Applicant's service area in Archer, Clay and Wichita counties.

Lake Arrowhead is authorized under Applicant's Certificate of Adjudication No. 02-5150, as amended.

Applicant also seeks to authorize the use of the bed and banks of the Little Wichita River (Lake Arrowhead), Red River Basin to convey up to 65,000 acre-feet of water per year for subsequent diversion and use for municipal, industrial, mining, and agricultural purposes.

Applicant is authorized to divert surface water-based return flows authorized by TPDES Permit No. WQ0010509001 under Certificate of Adjudication No. 02-5150C.

Applicant further seeks authorization to use the bed and banks of the Little Wichita River (Lake Arrowhead) to convey the return flows generated from the diversion and use of water

originating from Lake Ringgold for subsequent diversion and use pursuant to the authorization to reuse return flows included in Certificate of Adjudication No. 02-5150C.

Applicant indicates water diverted from Lake Ringgold may be delivered via pipeline and discharged, at a maximum discharge rate of 139.79 cfs (62,770 gpm), anywhere along the perimeter of Lake Arrowhead in Archer and Clay counties, Zip Code 76379.

Applicant indicates the water diverted from Lake Ringgold and discharged into Lake Arrowhead will be subsequently diverted, at a maximum diversion rate of 139.79 cfs (62,770 gpm), from anywhere along the perimeter of Lake Arrowhead in Archer and Clay counties and from an existing point on Lake Arrowhead, at a maximum diversion rate of 93 cfs (41,850 gpm), being at Latitude 33.763707°N, Longitude 98.370091°W in Clay County, Zip Code 76379.

Applicant indicates that diversions from Lake Ringgold may overdraft the firm yield of the reservoir as part of a system operation with Applicant's existing water supplies.

The application is subject to the obligations of the State of Texas pursuant to the terms of the Red River Compact.

The application and partial fees were received on June 27, 2017. Additional information and fees were received July 7, July 10, and August 7, 2017. The application was declared administratively complete and filed with the Office of the Chief Clerk on August 10, 2017. Additional information was received on October 13, October 16, 2017, October 23, November 16, 2018 and June 4, 2019.

The Executive Director has prepared a draft permit, which, if granted, would include special conditions including, but not limited to, mitigation, monitoring, and accounting plan requirements. The application and Executive Director's draft permit are available for viewing and copying at the Office of the Chief Clerk, 12100 Park 35 Circle, Building F, Austin, TX 78753.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF PUBLIC MEETING ON AN APPLICATION FOR A WATER USE PERMIT

APPLICATION NO. 13404

The City of Wichita Falls seeks authorization to construct and maintain a 275,000 acre-foot capacity reservoir, Lake Ringgold, on the Little Wichita River, Red River Basin. Applicant also seeks to divert 65,000 acre-feet of water per year from Lake Ringgold for multiple purposes within its service area. Applicant further seeks to use the bed and banks of the Little Wichita River (Lake Arrowhead) to convey return flows and the 65,000 acre-feet of water for subsequent diversion and use. More information on the application and how to participate in the permitting process is given below.

APPLICATION. City of Wichita Falls, 1300 7th Street, Wichita Falls, Texas 76307, Applicant, has applied to the Texas Commission on Environmental Quality (TCEQ) for a Water Use Permit pursuant to Texas Water Code §§ 11.121, 11.042 and TCEQ Rules Title 30 Texas Administrative Code (TAC) §§ 295.1, et seq. Notice is being published and mailed to the water right holders of record in the Red River Basin pursuant to Title 30 TAC § 295.151.

Applicant seeks a Water Use Permit to construct and maintain a 275,000 acre-foot capacity reservoir (Lake Ringgold) on the Little Wichita River, tributary of the Red River, Red River Basin with the centerline of the dam being at Latitude 33.8962900°N, Longitude 97.9929801°W, Zip Code 76261, in Clay County.

Applicant also seeks to divert and use not to exceed 65,000 acre-feet of water per year from anywhere along the perimeter of Lake Ringgold, at a maximum diversion rate of 139.79 cfs (62,770 gpm), for municipal, industrial, mining and agricultural purposes within the Applicant's service area in Archer, Clay and Wichita counties.

Lake Arrowhead is authorized under Applicant's Certificate of Adjudication No. 02-5150, as amended.

Applicant also seeks to authorize the use of the bed and banks of the Little Wichita River (Lake Arrowhead), Red River Basin to convey up to 65,000 acre-feet of water per year for subsequent diversion and use for municipal, industrial, mining, and agricultural purposes.

Applicant is authorized to divert surface water-based return flows authorized by TPDES Permit No. WQ0010509001 under Certificate of Adjudication No. 02-5150C.

Applicant further seeks authorization to use the bed and banks of the Little Wichita River (Lake Arrowhead) to convey the return flows generated from the diversion and use of water originating from Lake Ringgold for subsequent diversion and use pursuant to the authorization to reuse return flows included in Certificate of Adjudication No. 02-5150C.

Applicant indicates water diverted from Lake Ringgold may be delivered via pipeline and discharged, at a maximum discharge rate of 139.79 cfs (62,770 gpm), anywhere along the perimeter of Lake Arrowhead in Archer and Clay counties, Zip Code 76379.

Applicant indicates the water diverted from Lake Ringgold and discharged into Lake Arrowhead will be subsequently diverted, at a maximum diversion rate of 139.79 cfs (62,770 gpm), from anywhere along the perimeter of Lake Arrowhead in Archer and Clay counties and from an existing point on Lake Arrowhead, at a maximum diversion rate of 93 cfs (41,850 gpm), being at Latitude 33.763707°N, Longitude 98.370091°W in Clay County, Zip Code 76379.

Applicant indicates that diversions from Lake Ringgold may overdraft the firm yield of the reservoir as part of a system operation with Applicant's existing water supplies.

The application is subject to the obligations of the State of Texas pursuant to the terms of the Red River Compact.

The application and partial fees were received on June 27, 2017. Additional information and fees were received July 7, July 10, and August 7, 2017. The application was declared administratively complete and filed with the Office of the Chief Clerk on August 10, 2017. Additional information was received on October 13, October 16, 2017, October 23, November 16, 2018 and June 4, 2019.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if granted, would contain special conditions including, but not limited to, mitigation, monitoring, and accounting plan requirements. The application and Executive Director's draft permit are available for viewing and copying at the Office of the Chief Clerk, 12100 Park 35 Circle, Building F., Austin, TX 78753.

Applicant also seeks to divert 65,000 acre-feet of water per year from Lake Ringgold for multiple purposes within its service area. Applicant further seeks to use the bed and banks of the little Wichita River (Lake Arrowhead) to convey return flows and the 65,000 acre-feet of water for subsequent diversion and use. More information on the application and how to participate in the permitting process is given below.

APPLICATION. City of Wichita Falls, 1300 7th Street, Wichita Falls, Texas 76307, Applicant, has applied to the Texas Commission on Environmental Quality (TCEQ) for a Water Use Permit pursuant to Texas Water Code §§ 11.121, 11.042 and TCEQ Rules Title 30 Texas Administrative Code (TAC) §§ 295.1, et seq. Notice is being published and mailed to the water right holders of record in the Red River Basin pursuant to Title 30 TAC § 295.151.

Applicant seeks a Water Use Permit to construct and maintain a 275,000 acre-foot capacity reservoir (Lake Ringgold) on the little Wichita River, tributary of the Red River, Red River Basin with the centerline of the dam being at Latitude 33.8962900°N, Longitude 97.9929801°W, Zip Code 76261, in Clay County.

Applicant also seeks to divert and use not to exceed 65,000 acre-feet of water per year from anywhere along the perimeter of Lake Ringgold, at a maximum diversion rate of 139.79 cfs (62,770 gpm), for municipal, industrial, mining and agricultural purposes within the Applicant's service area in Archer, Clay and Wichita counties.

Lake Arrowhead is authorized under Applicant's Certificate of Adjudication No. 02-5150, as amended.

NOTICE OF AN APPLICATION FOR A WATER USE PERMIT

APPLICATION NO. 13404

The City of Wichita Falls seeks authorization to construct and maintain a 275,000 acre-foot capacity reservoir, Lake Ringgold, on the Little Wichita River, Red River Basin. Applicant also seeks to divert 65,000 acre-feet of water per year from Lake Ringgold for multiple purposes within its service area. Applicant further seeks to use the bed and banks of the Little Wichita River (Lake Arrowhead) to convey return flows and the 65,000 acre-feet of water for subsequent diversion and use. More information on the application and how to participate in the permitting process is given below.

APPLICATION. City of Wichita Falls, 1300 7th Street, Wichita Falls, Texas 76307, Applicant, has applied to the Texas Commission on Environmental Quality (TCEQ) for a Water Use Permit pursuant to Texas Water Code §§ 11.121, 11.042 and TCEQ Rules Title 30 Texas Administrative Code (TAC) §§ 295.1, et seq. Notice is being published and mailed to the water right holders of record in the Red River Basin pursuant to Title 30 TAC § 295.151.

Applicant seeks a Water Use Permit to construct and maintain a 275,000 acre-foot capacity reservoir (Lake Ringgold) on the Little Wichita River, tributary of the Red River, Red River Basin with the centerline of the dam being at Latitude 33.8962900°N, Longitude 97.9929801°W, Zip Code 76261, in Clay County.

Applicant also seeks to divert and use not to exceed 65,000 acre-feet of water per year from anywhere along the perimeter of Lake Ringgold, at a maximum diversion rate of 139.79 cfs (62,770 gpm), for municipal, industrial, mining and agricultural purposes within the Applicant's service area in Archer, Clay and Wichita counties.

Lake Arrowhead is authorized under Applicant's Certificate of Adjudication No. 02-5150, as amended.

Applicant also seeks to authorize the use of the bed and banks of the Little Wichita River (Lake Arrowhead), Red River Basin to convey up to 65,000 acre-feet of water per year for subsequent diversion and use for municipal, industrial, mining, and agricultural purposes.

Applicant is authorized to divert surface water-based return flows authorized by TPDES Permit No. WQ0010509001 under Certificate of Adjudication No. 02-5150C.

Applicant further seeks authorization to use the bed and banks of the Little Wichita River (Lake Arrowhead) to convey the return flows generated from the diversion and use of water originating from Lake Ringgold for subsequent diversion and use pursuant to the authorization to reuse return flows included in Certificate of Adjudication No. 02-5150C.

Applicant indicates water diverted from Lake Ringgold may be delivered via pipeline and discharged, at a maximum discharge rate of 139.79 cfs (62,770 gpm), anywhere along the perimeter of Lake Arrowhead in Archer and Clay counties, Zip Code 76379.

Applicant indicates the water diverted from Lake Ringgold and discharged into Lake Arrowhead will be subsequently diverted, at a maximum diversion rate of 139.79 cfs (62,770 gpm), from anywhere along the perimeter of Lake Arrowhead in Archer and Clay counties and from an existing point on Lake Arrowhead, at a maximum diversion rate of 93 cfs (41,850 gpm), being at Latitude 33.763707°N, Longitude 98.370091°W in Clay County, Zip Code 76379.

Applicant indicates that diversions from Lake Ringgold may overdraft the firm yield of the reservoir as part of a system operation with Applicant's existing water supplies.

The application is subject to the obligations of the State of Texas pursuant to the terms of the Red River Compact.

The application and partial fees were received on June 27, 2017. Additional information and fees were received July 7, July 10, and August 7, 2017. The application was declared administratively complete and filed with the Office of the Chief Clerk on August 10, 2017. Additional information was received on October 13, October 16, 2017, October 23, November 16, 2018 and June 4, 2019.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if granted, would contain special conditions including, but not limited to, mitigation, monitoring, and accounting plan requirements. The application and Executive Director's draft permit are available for viewing and copying at the Office of the Chief Clerk, 12100 Park 35 Circle, Building F., Austin, TX 78753.

To request a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number, and fax number, if any; (2) applicant's name and permit number; (3) the statement "[I/we] request a contested case hearing;" (4) a brief and specific description of how you would be affected by the application in a way not common to the general public; and (5) the location and distance of your property relative to the proposed activity. You may also submit proposed conditions for the requested permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing to the Office of the Chief Clerk at the address provided in the information section below.
