TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF HEARING
Uranium Energy Corp.
SOAH Docket No. 582-23-15496
TCEQ Docket No. 2022-1553-WDW
TCEQ Permit Nos. WDW423 and WDW424

APPLICATION.

Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for a permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MASIP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: <https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=db5bac44afbc468bbddd36of816825of&marker=-97.357806%2C28.867167&level=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

CONTESTED CASE HEARING.

Considering directives to protect public health, the State Office of Administrative Hearings (SOAH) will conduct a preliminary hearing via Zoom videoconference. A Zoom meeting is a secure, free meeting held over the internet that allows video, audio, or audio/video conferencing.

10:00 a.m. – May 30, 2023

To join the Zoom meeting via computer:

**Visit the SOAH website for registration at: <http://www.soah.texas.gov/>
or call SOAH at 512-475-4993.**

The purpose of a preliminary hearing is to establish jurisdiction, name the parties, establish a procedural schedule for the remainder of the proceeding, and to address other matters as determined by the judge. The evidentiary hearing phase of the proceeding, which will occur at a later date, will be similar to a civil trial in state district court. The hearing will address the disputed issues of fact identified in the TCEQ order concerning this application issued on December 20, 2022. In addition to these issues, the judge may consider additional issues if certain factors are met.

The hearing will be conducted in accordance with Chapter 2001, Texas Government Code; Chapter 27, Texas Water Code; and the procedural rules of the TCEQ, including 30 Texas Administrative Code Chapters 80, 305, and 331 and SOAH, including 1 TAC Chapter 155. The hearing will be held unless all timely hearing requests have been withdrawn or denied.

To request to be a party, you must attend the hearing and show you would be adversely affected by the application in a way not common to members of the general public. Any person may attend the hearing and request to be a party. Only persons named as parties may participate at the hearing.

In accordance with 1 Tex. Admin. Code § 155.401(a), Notice of Hearing, “Parties that are not represented by an attorney may obtain information regarding contested case hearings on the public website of the State Office of Administrative Hearings at www.soah.texas.gov, or in printed format upon request to SOAH.”

INFORMATION.

If you need more information about the hearing process for this application, please call the Public Education Program, toll free, at 800-687-4040. General information about the TCEQ can be found at our web site at www.tceq.texas.gov.

Further information may also be obtained from Uranium Energy Corp. at the address stated above or by calling Mr. Craig Wall at 361-888-8235.

Persons with disabilities who need special accommodations at the hearing should call the SOAH Docketing Department at 512-475-4993, at least one week prior to the hearing.

Type of Authorization: Renewal

Dear Mr. Wall and Mr. Barrett,

As you know, the Chief Clerk's Office has referred this matter over to the State Office of Administrative Hearings (SOAH) for a contested case hearing on your application.

SOAH will conduct a preliminary hearing via Zoom video conference at:

10:00 a.m. – May 30, 2023

You are now required to publish notice for this hearing. To help you meet the requirements associated with this notice, we have enclosed the following items:

- Notice for Newspaper Publication
- Instructions for Notice of Hearing
- Affidavit of Publication

Please note that it is VERY IMPORTANT that you follow ALL directions in the ENCLOSED INSTRUCTIONS. If you do not, you may be required to republish the notice. One of the most common mistakes we see is the unauthorized changing of notice wording or font. If you have any questions, please contact us before you proceed with publication.

The following items and time limitations are also described in the enclosed instructions. However, due to their importance, we want to highlight them for you.

1. Publish the enclosed notice within at least **30 calendar days** prior to the date of the hearing.
2. Return **acceptable proof of publication** of the complete notice, which shows publication date and newspaper name, to the TCEQ Office of the Chief Clerk within **10 business days** after notice is published in the newspaper.
3. File the original enclosed *Affidavit of Publication* with the TCEQ Office of the Chief Clerk within **30 calendar days** after the notice is published in the newspaper.

If you do not comply with all requirements described in the instructions, further processing of your application may be suspended or the commission may take other actions.

As required by 30 TAC § 80.118(c), the TCEQ Office of the Chief Clerk (OCC) will provide the administrative record to SOAH, and will retain one copy for its files. In addition, one copy of the administrative record will be provided to you by the OCC on CD. Neither SOAH nor TCEQ is responsible for providing additional copies to the parties. However, the OCC can provide copies upon request.

The administrative record is not in evidence until properly offered by motion of a party, and subsequently admitted by the Administrative Law Judge, pursuant to 30 TAC § 80.127(h). The party seeking admission of the administrative record must supply copies to the other parties in the proceeding at the time it is offered, or by agreement of the parties.

If you have any questions regarding publication requirements, or obtaining copies of the administrative record, please contact the SOAH Docket Clerk in the OCC at 512-239-3300. If you have any other questions, please contact Bobby Salehi at 512-239-5930.

Sincerely,

Laurie Gharis
Chief Clerk

NOTICE OF HEARING

A hearing was requested on issues related to your application and the Commission granted this request. The matter has been referred to the State Office of Administrative Hearings. Now you must comply with the following instructions:

Please Review Notice

We have included in the hearing notice all of the information which we believe is necessary. Please read it carefully and notify us immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text of the notice without prior approval from the TCEQ.

Newspaper and Mailed Notice

You must publish the enclosed Notice of Hearing no less than **30** days before the hearing.

- You must publish the notice, at your expense, in a newspaper of general circulation in the county in which the facility is located or proposed to be located. You must also publish notice in a newspaper of general circulation in each county which is adjacent or contiguous to each county in which the facility is located or proposed to be located. This requirement may be satisfied by one publication if the newspaper meets all of these requirements.

Proof of Publication

- For each published notice, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proof of publication is 1) a copy of the published notice or 2) the original newspaper clipping of the published notice. If you choose to submit a copy of the published notice to the Office of the Chief Clerk, the copy must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto

multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain the original newspaper clipping or tear sheet of the notice for your records.

- You must submit a **publisher's affidavit** to the Office of the Chief Clerk within **30** calendar days after the date of publication. **You must use the enclosed affidavit form.** The affidavit must clearly identify the applicant's name and permit number.
- You are encouraged to submit the affidavit with the proof of publication described above; however, the affidavit must be submitted no later than **30** calendar days after publication of notice.
- The **publisher's affidavit** and **proof of publication of each published notice** may be filed with the Chief Clerk electronically at www.tceq.texas.gov/goto/efilings or mailed to:

TCEQ
Office of the Chief Clerk, MC 105
Attn: SOAH Docket Clerk
P.O. Box 13087
Austin, Texas 78711-3087

- Please ensure that the affidavit(s) you send to the Chief Clerk is/are originals and that all blanks on the affidavit are filled in correctly.

Failure to Publish and Submit Proof of Publication

You must meet all publication requirements. **If you fail to publish the notice or submit proof of publication *on time*, then** the TCEQ may suspend further processing of your application or take other actions.

Early Notice and Public Review of a Proposed Activity in a Wetland

To: All interested Agencies, Groups, and Individuals on 05/04/2022: This is to give notice that the City of Yorktown has determined that the following proposed action under the Community Development Block Grant Program contract CDV21-0217 administered by the Texas Department of Agriculture (TDA) and ERR #CDV21-0217, is located in a wetland. The City of Yorktown will be identifying and evaluating practicable alternatives to locating the action in the wetland and the potential impacts on the wetland from the proposed action, as required by Executive Order 11990, in accordance with HUD regulations at 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management and the Protection of Wetlands. The City of Yorktown proposes a Water/Sewer Improvements project, including Administrative and Engineering fees and services and to install approximately 3,433 linear feet (LF) of six-inch (6") PVC water lines, service reconnections, fire hydrants and all associated appurtenances. Construction will take place on York Street from Main Street to Mertins Street, on Mertins Street from York Street to 4th Street, and on Gaebler Street from Swartz Street to Main Street. The City of Yorktown also proposes to install approximately 1,790 LF of eight-inch (8") sewer line via pipe bursting method, manholes, service reconnections, and all associated appurtenances. Construction will take place on Colonial Drive from 6th Street to Main Street and on Main Street from West Street to 800 LF. According to the USFWS National Wetlands Inventory, the project shall include activities within approximately 0.01 acres of a R4SBC wetland. Wetlands provide many natural and beneficial functions and values such as fish and wildlife habitat, natural water quality improvement, flood storage, shoreline erosion protection, and opportunities for recreation, education, research, and aesthetic appreciation that could be potentially adversely affected by the proposed project activities. However, after construction, the proposed project will have minimal impact on the wetland as all sewer lines will be subsurface and the project area will be restored to pre-project conditions. There are three primary purposes for this notice: (1) People who may be affected by activities in wetlands and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Commenters are encouraged to offer alternative sites outside of the wetland, alternative methods to serve the same project purpose, and methods to minimize and mitigate impacts; (2) An adequate public notice program can be an important public educational tool. The dissemination of information and request for public comment about wetlands can facilitate and enhance Federal efforts to reduce the risks and impacts associated with the occupancy and modification of these special areas; and (3) As a matter of fairness, when the Federal government determines it will participate in actions taking place in wetlands, it must inform those who may be put at greater or continued risk. Written comments must be received on or before 05/20/2022 by Yorktown at P.O. Box 605, Yorktown, TX 78164 or 102 W. Main Street, Yorktown, TX 78164, (361) 564-2611. Attention: Bill B. Baker, Mayor. A full description of the project may also be viewed during regular business hours at 102 W. Main Street, Yorktown, TX 78164. Comments may also be submitted via email to kfacucet.yorktown@hotmail.com CC: GabbyJakubowski@GrantWorks.net.

Notificación Anticipada y Revisión Pública de una Actividad Propuesta en un Humedal

A: Todas las Agencias, Grupos e Individuos interesados en 05/04/2022: Se da aviso de que la Ciudad de Yorktown ha determinado que la siguiente acción propuesta bajo el Programa de Subsidios en Bloque para el Desarrollo Comunitario administrado por el Departamento de Agricultura de Texas (TDA) y ERR #CDV21-0217, está ubicado en un humedal. La Ciudad de Yorktown identificará y evaluará alternativas viables a la localización de la acción en el humedal y los impactos potenciales de la acción propuesta, según lo requerido por la Orden Ejecutiva 11990, de acuerdo con las regulaciones de HUD al 24 CFR 55.20 Subparte C Procedimientos para la Determinación de Manejo de Plántulas y Protección de Humedales. La Ciudad de Yorktown propone un proyecto de mejoras de agua y alcantarillado incluidos los honorarios y servicios administrativos y de ingeniería, para instalar aproximadamente 3,433 pies lineales (LF) de líneas de agua de PVC de seis pulgadas (6"), reconexiones de servicio, bocas de incendio y todos los accesorios asociados. La construcción se llevará a cabo en York Street desde Main Street hasta Mertins Street, en Mertins Street desde York Street hasta 4th Street, y en Gaebler Street desde Swartz Street hasta Main Street. La Ciudad de Yorktown también propone instalar aproximadamente 1,790 LF de línea de alcantarillado de ocho pulgadas (8") a través del método de ruptura de tuberías, pozos de registro, reconexiones de servicio y todos los accesorios asociados. La construcción se llevará a cabo en Colonial Drive desde 6th Street hasta Main Street y en Main Street desde West Street hasta 800 LF. Según el Inventario Nacional de Humedales del USFWS, el proyecto incluirá actividades dentro de aproximadamente 0.01 acres del R4SBC humedal. Los humedales brindan muchos valores naturales y beneficiosos, como hábitat para peces y vida silvestre, mejora de la calidad del agua natural, almacenamiento de inundaciones, protección contra la erosión de la costa y oportunidades para la recreación, la educación, la investigación y la apreciación estética que podrían verse potencialmente afectadas negativamente por las actividades del proyecto propuesto. Sin embargo, después de la construcción, el proyecto propuesto tendrá un impacto mínimo en el

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL AND AMENDMENT

PERMIT NOS. WDW423 and WDW424

APPLICATION AND PRELIMINARY DECISION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MASIP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2022. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: <https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=d85b9c44fbc468b9dd3d66f816f250f8&marker=-97.3578063&C28.857167&level=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL AND AMENDMENT

PERMIT NOS. WDW423 and WDW424

APPLICATION AND PRELIMINARY DECISION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 600N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and the permitted MASIP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Once you have access to the CID using the above link, enter the permit number for this application, which is provided at the top of this notice.

AGENCY CONTACTS AND INFORMATION. All public comments and requests must be submitted within 30 days from the date of newspaper publication of this notice either electronically at www.tceq.texas.gov/agency/decisions/oc_comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL AND AMENDMENT

PERMIT NOS. WDW423 and WDW424

APPLICATION AND PRELIMINARY DECISION: Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MASIP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: <https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=d5bacc4aafbc468bddd360f8168250&marker=-97.357806&C28.867167&level=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Once you have access to the CID using the above link, enter the permit number for this application, which is provided at the top of this notice.

AGENCY CONTACTS AND INFORMATION. All public comments and requests must be submitted within 30 days from the date of newspaper publication of this notice either electronically at www.tceq.texas.gov/agency/decisions/cc/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the TCEQ Public Education Program, Toll Free, at 1-800-687-4040 or visit their website at www.tceq.texas.gov/goto/pep. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Uranium Energy Corp. at the address stated above or by calling Mr. Craig Wall at (361) 888-8235.

GISD superintendent takes leave of absence

Executive director of academic services to serve in Ackley's place until end of school year

by Coy Slavik
Editor

Goliad ISD Superintendent Stacy Ackley has taken a professional leave of absence.

Ackley's request for the leave was accepted by Goliad ISD trustees at a special meeting on April 23.

Trustees appointed Holly

Lyon, the school district's executive director of academic services, as the interim superintendent.

Goliad ISD issued the following news release:

"On April 25th, 2022, the GISD Board of Trustees met and accepted Superintendent Dr. Stacy Ackley's request for professional leave effective im-

mediately. Holly Lyon will be serving as Interim Superintendent until further notice. Mrs. Lyon has served as GMS Middle School Principal and GISD Executive Director of Academic Services since July 2022.

"As always, GISD is committed to preserving the past and preparing the future. We are focusing on students and staff fin-

ishing strong this school year."

Lyon posted the following message on April 27 on the Goliad ISD website:

"Dear GISD Families, On April 25, 2022, the GISD Board of Trustees accepted Superintendent Dr. Stacy Ackley's request for professional leave.

INNER BEAUTY

Longtime Goliad beautician honored at banquet for faith, inspiration to others

by Coy Slavik

Carmen Flores' ability to bring out the best in people goes deeper than her 56 years as a beautician.

Flores has inspired friends and family for over half a century in Goliad with her faith, personality and service to others.

Flores was recognized for her 56 years as owner and operator of Carmen's Beauty Shop and her service with the Golden Crescent Planning

time spent together," said friend Annette Fee.

Flores, who was nominated for the award by Goliad Dental Care, graduated from the Mims and Strauch Beauty School in San Antonio. She worked as a stylist and consultant at The Style Shop beside the Gunter Hotel near the River Walk.

On Sept. 14, 1964, Flores opened her shop on the square in downtown Goliad. One of her more memorable moments was styling the hair of actress Shelley Duvall as she visited Goliad.

Goliad getting Tractor Supply Company store

by Coy Slavik
Editor

Goliad is expected to have a national retail store open its doors in the city by February 2023.

Tractor Supply Company will break ground for a 24,000-square foot prototype store in July at 1554 N. U.S. Highway 183 in Goliad.

Tractor Supply Company touts itself as the "largest rural lifestyle retailer in the United States." As of March, there were 2,003 Tractor Supply Company stores

in 49 states.

Goliad Mayor Brenda Moses said the company has been looking to open a store in the city for approximately five years.

"This will be the largest of all the TSCs," Goliad Mayor Brenda Moses said. "It's a prototype store. It's like a test store."

The store will include a pet wash area, greenhouse and 25,000 more square feet of an outdoor display area.

"This is a big, big deal," Moses said. "It

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL AND AMENDMENT

PERMIT NOS. WDW423 and WDW424

APPLICATION AND PRELIMINARY DECISION: Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MSWIP. The facility is proposed to be located at 14860 N US Hwy 83, Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public comment and is not part of the application or notice: <https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=d5b1bae24afbc6468bbdd3d6f8168250&marker=-97.3577806&zoom=2¢er=28.867167&level=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "I/We request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "I/we request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Once you have access to the CID using the above link, enter the permit number for this application, which is provided at the top of this notice.

AGENCY CONTACTS AND INFORMATION. All public comments and requests must be submitted within 30 days from the date of newspaper publication of this notice either electronically at www.tceq.texas.gov/agency/decisions/cv/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. Kenedy to elect new mayor

by Jimmy Willden
 Editor

Several cities in Karnes County have races in the upcoming election day, to be held on Saturday, May 7. One of the more hotly contested races is that of the mayorship of Kenedy. Current mayor Joe Baker took his name out of the running to run as county judge, leaving the race wide open and three candidates are vying to take his place.

In an effort to connect the community with the candidates on the ballot, each were asked the same set of questions. These are their responses.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL AND AMENDMENT

PERMIT NOS. WDW423 and WDW424

APPLICATION AND PRELIMINARY DECISION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MASIP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: <https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=d8c4a4a1f8c468bb1dd360f3168250f&marker=-97.3578063&z=28.867167&level=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to the person who submitted public comments and to those persons who are, or may be, adversely affected by the facility. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address; phone number; name and permit number; the location and distance of your business or property relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

Like a Bear to honey

Bear Solutions announces plans to open new plant in Beeville

by Kevin J. Keller
Editor

Bear Solutions has found its new honey hole in the honey of a town known as Beeville.

The Bee Area Partnership, in cooperation with the Bee Development Authority, announced on April 27 that Bear Solutions has agreed to open a plastics recycling and manufacturing plant at the Chase Field Industrial and Airport Complex.

"Some days I feel like I landed right in the middle of the land of opportuni-

ty, and this is one of those days," said Rand Blair, the president of Bear Solutions.

The company will invest approximately \$50 million over the next five years as it builds its first plastics recycling facility.

The first phase of the project will include a mechanical recycling process where the company will take common waste plastic – discarded water bottles, for example – and turn that into other plastic products.

The first product the company will produce,

Celebration of student heroes

Matthew Tamez
Managing Editor

Beeville ISD brought differently-abled students together during its sixth annual Differently Abled Student Heroes (DASH) field day event on April 29.

DASH initially started in 2017 when 16-year-old Makayla Aguirre heard that some of the life skills students she would visit with went to a field day in George West.

Aguirre decided to create a field day for Beeville and the surrounding districts.

BISD dodges funding shortage

Matthew Tamez
Managing Editor

Beeville ISD faced a period of uncertainty regarding its state funding when the Texas State Comptroller's property assessments showed that Bee County's property appraisals were out of compliance.

However, after months of publicly discussing and working on the issue during the Beeville ISD school board meetings, the district managed to protest the comptroller's

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL AND AMENDMENT

PERMIT NOS. WDW423 and WDW424

APPLICATION AND PRELIMINARY DECISION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MASTIP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78646 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: <https://tceq.maps.arcgis.com/apps/webmapviewer/index.html?id=4b5b4c44f6c468bd4d360f8168250f&markers=-97.357806&2&C.R.867167&level=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number, and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Once you have access to the CID using the above link, enter the permit number for this application, which is provided at the top of this notice.

AGENCY CONTACTS AND INFORMATION. All public comments and requests must be submitted within 30 days from the date of newspaper publication of this notice either electronically at www.tceq.texas.gov/agency/decisions/cc/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the TCEQ Public Education Program, Toll Free, at 1-800-687-4040 or visit their website at www.tceq.texas.gov/goto/pep. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Uranium Energy Corp. at the address stated above or by calling Mr. Craig Wall at (361) 888-8235.

County extends burn ban 30 days

by Coy Slavik
Editor

Refugio County commissioners voted unanimously to extend the burn ban 30 more days during their April 26 meeting.

Refugio County Emergency Management/Safety Coordinator Sheldon Wiginton said rain-fall on April 15 was not enough to improve drought conditions

in the county and discontinue the burn ban.

"The rains unfortunately bypassed much of Refugio County and did little or nothing to help us," Wiginton said. "I spoke with all the fire chiefs this morning and it is their recommendation that we continue the burn ban for another 30 days or until Mother Nature helps us out in between."

Refugio County Judge Rob-

ert Blaschke asked the commissioners if they wanted to refuse burning of brush piles even under the supervision of burn managers.

"If somebody sees smoke and they want to burn, all of a sudden they get the belief that they can light a match too," Blaschke said. "We just want everybody to stay at bay for a while and be patient. Let's get some rain and get this fire risk under control

over the next coming months."

In other action during the meeting:

- Commissioners approved a change order for flooring repairs for the Refugio County Elections Administration Office, Williamson Senior Center and Refugio County Extension Office.

- Commissioners approved a

Four polling locations in county for May 7 elections

by Coy Slavik
Editor

There will be four polling places in Refugio County for the May 7 general election, which includes races for two Bayside councilmember spots and three seats on the Refugio County Memorial Hospital board of directors.

Also on the ballot for Woodsboro residents is a proposition to increase the Town of Woodsboro local sales and use tax.

Two Texas constitutional amendment propositions are also on the ballot.

Incumbents Charmaine Briseno and Ken Dahl are facing opposition for their Bayside city council seats. Donna Easton is challenging Briseno for the Place 2 seat, while Dahl is being challenged by Jimmy Simmons for his Place 3 seat.

JOAN RITZ

SHINER — Joan Ritz peacefully passed away at Mustang Creek Farm, Sunday, April 24, 2022, at the age of 93. She was born on February 5, 1929, in Gonzales, Texas, the 8th of 12 children to Edward and Mamie Davis Crow.

Joan met John, the love of her life, when he was driving his car with blue-spoked wheels in Gonzales, shortly after he was discharged from the Marines. After their marriage they moved to Houston where Joan was active in Westheimer Baptist Church, Boy Scouts and Girl Scouts. They moved to El Campo in 1966 to start Ritz Food Mart stores. They raised four children and instilled the importance of faith, love, family, and hard work which was passed on to their eight grandchildren. They realized their dream to have a farm and retired to Shiner where they raised registered Beefmaster cattle.

Joan enjoyed cooking and was famous for her sweet tea. She was happiest when she was feeding family, friends, dogs, cats, cows and horses. Joan was always ready for a road trip with her siblings, children or grandchildren. She was available with advice or a helping hand, even if she had to paint a house.

Joan is survived by her daughters Linda Janecek (Pat) of Inez, Debbie Humphreys (Joe) of Victoria, Renee Wheeler (Bruce) of Goliad; brother Don Crow (Connie) of Yoakum; grandchildren Shannon Ritz, Blake Ritz (Brandi), Jake Humphreys, Jenny Davis (Cory), Amanda Humphreys, Joshua Janecek, Stacy Fisher, Daniel Janecek, and Meredith Wheeler Platt, great-grandchildren Kennedy, Conner, Camille, Ainsley, Blaise, Piper, and Fisher.

Joan is preceded in death by her parents; husband John Ritz; son Bryan Ritz; sisters Mabel, Marcie, Nellie, Mary Agnes, and Rene; brothers Preston, Edward, Robert, John Paul, and Richard.

Visitation Saturday, April 30, 2022 at 1 pm followed by Funeral Service at 2 pm at Thiele-Cooper Funeral Home with Reverend Rick DuBroc officiating. Burial at Yoakum Restland Cemetery. Pallbearers are Shannon Ritz, Blake Ritz, Jake Humphreys, Cory Davis, Joshua Janecek, and Daniel Janecek.

Memorial contributions may be given to Adopt-A-Pet of Victoria, First Baptist Church of El Campo or donor's choice.

On-line guest book may be signed at www.thielecooper.com

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL AND AMENDMENT

PERMIT NOS. WDW423 and WDW424

APPLICATION AND PRELIMINARY DECISION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject nonhazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MAS IP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: <https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=db5bae44afbc468bbddd36of816825of&marker=-97.357806%2C28.867167&level=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT/ PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing. 11" If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on:

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL AND AMENDMENT

PERMIT NOS. WDW423 and WDW424

APPLICATION AND PRELIMINARY DECISION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MASIP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice:
<https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=db5bac44afbc468bbddd36of816825of&marker=-97.357806%2C28.867167&level=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision.** A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Once you have access to the CID using the above link, enter the permit number for this application, which is provided at the top of this notice.

AGENCY CONTACTS AND INFORMATION. All public comments and requests must be submitted within 30 days from the date of newspaper publication of this notice either electronically at www.tceq.texas.gov/agency/decisions/cc/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the TCEQ Public Education Program,

Toll Free, at 1-800-687-4040 or visit their website at www.tceq.texas.gov/goto/pep. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Uranium Energy Corp. at the address stated above or by calling Mr. Craig Wall at (361) 888-8235.

Re: Applicant Name: Uranium Energy Corp.
 Facility Location: Yorktown, Goliad County, 78164
 Permit Numbers: WDW423 and WDW424
 Customer Reference Number: CN603228461
 Regulated Entity Number: RN105304802
 Type of Authorization: Renewal and Amendment

Dear Mr. Wall:

The executive director has completed the technical review of the above referenced application and has prepared a preliminary decision, draft permits, and a summary of your compliance history.

You are now required to publish another notice of your proposed activity. To help you meet the requirements associated with this notice, we have included the following items:

- Instructions for Public Notice
- Notice for Newspaper Publication
- Publisher's Affidavits
- Public Notice Verification Form
- Draft Permit
- Executive Director's Preliminary Decision
- Compliance History Summary

You must follow all the directions in the enclosed instructions. The most common mistakes are the unauthorized changing of notice, wording, or font. If you fail to follow these instructions, you may be required to republish the notices.

The following requirements are also described in the enclosed instructions. However, due to their importance, they are highlighted here as well.

1. Publish the enclosed notice within **30 calendar days** after the date of this cover letter. **You may be required to publish the notice in more than one newspaper, including a newspaper published in an alternative language, to satisfy all of the notice requirements.**

2. On or before the date you publish notice, you must place the following items in a public place in the county where the facility is or will be located: (a) a copy of your permit application, including any subsequent revisions; (b) the executive director's preliminary decision as contained in the technical summary and fact sheet; and (c) the draft permits, including any subsequent revisions. These items must be accessible to the public for review and copying, must be updated to reflect changes to the application, and must remain in place until the commission has taken action on the application or the commission refers issues to the State Office of Administrative Hearings.
3. For each publication, return proof of publication of the notice that shows the publication date and newspaper name to the Office of the Chief Clerk within **10 business days** after notice is published in the newspaper.
4. Return the original enclosed Public Notice Verification and the Publisher's Affidavits to the Office of the Chief Clerk within **30 calendar days** after the notice is published in the newspaper.

If you do not comply with **all** the requirements described in the instructions, further processing of your application may be suspended or the agency may take other actions.

If you have any questions regarding publication requirements, please contact the Office of the Chief Clerk at 512-239-3300. If you have any questions regarding the content of the notice, please contact the individual in the permitting area assigned to your application.

Sincerely,

Laurie Gharis
Chief Clerk

INSTRUCTIONS FOR PUBLIC NOTICE For Underground Injection Control Permits or Production Area Authorizations

NOTICE OF APPLICATION AND PRELIMINARY DECISION

The executive director has completed the technical review of your application and issued a preliminary decision. You must comply with the following instructions:

Please Review Notice

We have included in the notice all of the information that we believe is necessary. Please read it carefully and notify us immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text or formatting of the notice or affidavit of publication without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed Notice of Application and Preliminary Decision within **30 calendar days** after the date this information was mailed to you (see date of cover letter).
- You must publish the enclosed Notice of Application and Preliminary Decision at your expense, in a newspaper(s) that meets the following requirements:
 - First. You must publish notice either 1) in the newspaper of largest general circulation *that is published in the county* in which the facility is located or is proposed to be located, or 2) if a newspaper is not published in the county, the notice must be published in any newspaper of general circulation in the county;
 - Second. You must publish the enclosed Notice of Application and Preliminary Decision at least once in the same newspaper as the Notice of Receipt of Application and Intent to Obtain Permit; and
 - Third. For injection well permits only: You must publish in a newspaper of general circulation in each county which is adjacent or contiguous to each county in which the facility is located or proposed to be located.
- These requirements may be satisfied by one publication if the newspaper meets **all** of these requirements.
- For Class I injection wells, the published notice must be at least 15 square inches (96.8 square centimeters) with a shortest dimension of at least 3 inches (7.6 centimeters) and the notice shall appear in the section of the newspaper containing state or local news items.

- The bold text of the enclosed notice must be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., **bold, italics**). **Failure to do so may require re-notice.**

Radio Broadcast

For hazardous waste applications other than Class 3 Modifications, you must broadcast the enclosed Radio Broadcast for Notice of Application and Preliminary Decision on one or more local radio stations that broadcast to an area that includes all of the county where the facility is located or proposed to be located. You must fill out the Radio Broadcast Verification section of the Public Notice Verification Form and submit it to the Office of the Chief Clerk when you submit the Public Notice Verification Form.

Alternative Language Notice

If your application was received on or after November 30, 2005, you must publish notice in an alternative language if the following criteria are met.

- You must publish the public notice in an alternative language if either the elementary or middle school nearest to the facility or proposed facility is required to provide a bilingual education program as required by TEX. EDUC. CODE, Chapter 29, Subchapter B, and 19 TEX. ADMIN. CODE § 89.1205(a) and one of the following conditions is met:
 - students are enrolled in a program at that school;
 - students from that school attend a bilingual education program at another location; or
 - the school that otherwise would be required to provide a bilingual education program waives out of this requirement under 19 TEX. ADMIN. CODE § 89.1205(g).
- If triggered, you must publish the notice in the alternative language taught in the bilingual education program. You must publish this notice in a newspaper or publication primarily published in that alternative language. The newspaper or publication must be of general circulation in the county in which the facility is located or proposed to be located. If the facility is located or proposed to be located in a municipality, and there exists a newspaper or publication of general circulation in the municipality, you must publish the notice only in the newspaper or publication in the municipality.
- You must demonstrate a good faith effort to identify a newspaper or publication in the required language. If there is no general circulation newspaper or publication printed in such language, then publishing in that language is not required. Publication in an alternative language section or insert within a large publication which is not printed primarily in that alternative language does not satisfy these requirements.
- You have the burden to demonstrate compliance with these requirements. To assist you in meeting these requirements, the TCEQ has provided a Public Notice Verification Form (enclosed). You must fill out the attached Public Notice Verification Form indicating your compliance with the requirements regarding publication in an alternative language.
- If you are required to publish notice in Spanish, you must translate the site-specific information in the notice that is specific to your application, at your own expense. You may then insert the Spanish translation of your site-specific information into a Spanish

template developed by the TCEQ. You may obtain the electronic version of the Spanish template from the TCEQ website at https://www.tceq.texas.gov/permitting/radmat/uic_permits/uic_anl_page.html

- If you are required to publish notice in a language other than Spanish, you must translate the entire public notice, at your own expense.

Proof of Publication

- Check each publication to ensure that the notices were accurately published. If a notice was not published correctly you may have to republish.
- For each newspaper in which you published, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proof of publication is 1) a copy of the published notice or 2) the original newspaper clippings of the published notice. If you choose to submit a copy of the published notice to the Office of the Chief Clerk, the copy must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain the original newspaper clipping or tear sheet of the notice for your records.
- For each newspaper notice, you must submit an **original publisher's affidavit** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **For each required published notice, you must use the appropriate Publisher's Affidavit form that is enclosed with these instructions.** The affidavit must clearly identify the applicant's name and permit number. **If you are using one newspaper to satisfy all publication requirements, you must still fill out all affidavits, checking the relevant boxes for the criteria that the newspaper satisfies. However, for Production Area Authorizations, you do not have to fill out or submit Affidavit #2.**
- You are encouraged to submit the Publisher's Affidavits with the proof of publication described above. However, the affidavits must be submitted no later than **30 calendar days** after publication of the notice.
- You must fill out the attached Public Notice Verification form. On this Form, you must verify that you submitted proof of publication and the Publisher's Affidavits as required by the TCEQ's regulations and instructions. This form must be submitted with the Publisher's Affidavit within **30 calendar days** after publication of the notice.
- The **original Publisher's Affidavits, the Public Notice Verification Form, and proof of publication of the published notices** must be scanned and emailed to PROOFS@tceq.texas.gov using the attached email guidance **OR** must be mailed to:

TCEQ
Office of the Chief Clerk, MC 105
Attn: Notice Team
P.O. Box 13087
Austin, Texas 78711-3087

- Please ensure that the Publisher's Affidavit(s) you send to the Office of the Chief Clerk is/are originals and that all blanks on the affidavits are filled in correctly. Photocopies of affidavits will not be accepted.

Failure to Publish and Submit Proof of Publication

If you fail to publish the notice or submit proof of publication by the deadlines set forth above, then the TCEQ may suspend further processing on your application or take other actions.

Application in a Public Place

- You must put a copy of the complete application, the executive director's preliminary decision as contained in the technical summary and fact sheet, the draft permit or authorization, and any subsequent revisions to these documents, in a public place for review and copying by the public. This public place must be located in the county where the facility is located or proposed to be located.
- A public place is one that is publicly owned or operated (ex: libraries, county courthouses, or city halls).
- This copy must be accessible to the public for review and copying beginning on the first day of newspaper publication and remain in place until the commission has taken action on the application or the commission refers issues to the State Office of Administrative Hearings.
- If the application is submitted to the TCEQ with information marked as confidential, you are required to indicate which specific portions of the application are not being made available to the public. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the TCEQ Public Information Coordinator, MC 197, P.O. Box 13087, Austin, Texas 78711-3087."
- You must fill out the attached Public Notice Verification form. On this Form, you must verify that a complete application and all subsequent revisions are available for review and copying in a public place as required by the TCEQ's regulations and instructions. This Form must be submitted with the Publisher's Affidavit within **30 calendar days** after publication of the notice.

General Information

When contacting the Commission regarding this application, please refer to the permit number at the top of the Notice of Application and Preliminary Decision.

If you have any questions regarding publication requirements, please contact the Office of the Chief Clerk at 512-239-3300. If you have any questions regarding the content of the notice, please contact the individual in the permitting area assigned to your application.

OFFICE OF THE CHIEF CLERK PROOFS EMAIL GUIDANCE

PROOFS@tceq.texas.gov

Before emailing your proofs to the Office of the Chief Clerk (OCC), please review your email and proofs for the following:

1. Make sure the proofs are all legible. For instance, if the proofs you are emailing has been scanned, make sure the scan is clear and centered on the paper. Tearsheets must have the name of the newspaper and the date published, along with the full notice visible on the page.
2. Check to make sure the applicant name and permit number are correct on any document where they appear.
3. Check to make sure the correct documents (Affidavits, Public Notice Verification Forms) have been used - the documents provided to the applicant contact in the notice packet. Check for signatures, notary stamp/signature, publish dates, the full document completed.
4. In the subject line of the email, please include the following information: Applicant Name, Permit Number, and Notice Type or Program (e.g. NORI, NAPD, WQ, NSR, FOP, MSW, IHW, DIST, etc.).
5. Please email proofs for one permit at a time. Please do not attach several different permit proofs on one email.
6. Please only send the email to the PROOFS email box, no need to copy other OCC staff. A return receipt will be sent to you immediately from the PROOFS email box, confirming receipt of your email and proofs. If more information is needed, you will be contacted.
7. Please hold the original hardcopies for your files, no need to mail the hardcopies to the OCC. However, if you have already mailed the hardcopies to OCC, no need to email to the PROOFS email box as well unless requested by OCC staff.

NOTE: If there are any questions regarding proofs, please contact the Notice Team Work Leader, Georgia Carroll-Warren, 512-239-3314, or georgia.carroll-warren@tceq.texas.gov.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL

PERMIT NOS. WDW423 and WDW424

APPLICATION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining business, has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewals to authorize injection of non-hazardous wastewater generated from the processing of ion exchange resin from in-situ uranium mining. The facility is located at 14869 North United States Highway 183, Yorktown, Texas 78164 in Goliad County, Texas. TCEQ received the application on January 23, 2020. The permit application is available for viewing and copying by appointment at the Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: Goliad Project Map. For exact location, refer to application.

ADDITIONAL NOTICE. TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare draft permits and will issue a preliminary decision on the application. **Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.**

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comment, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and, the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Once you have access to the CID using the above link, enter the permit number for this application, which is provided at the top of this notice.

AGENCY CONTACTS AND INFORMATION. All public comments and requests must be submitted either electronically at www.tceq.texas.gov/agency/decisions/cc/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the TCEQ's Public Education Program, Toll Free, at 1-800-687-4040 or visit their website at www.tceq.texas.gov/goto/pep. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Uranium Energy Corp. at the address stated above or by calling Craig Wall at (361) 888-8235.

Spotlight on soup

TV crew featuring
Blue Quail Deli

by Jason Collins
Editor

GOLIAD – Blue Quail and manger Patti Russo McCraney are back in the limelight, this time with a television crew who heard about the restaurant's soup.

But even they won't be getting that secret recipe. The two-man crew from Texas Bucket List, which airs on three San Antonio stations of WOAI, KABB and CW, were in Goliad Wednesday morning thanks to a bit of advice from Scott McMahon, director of Presidio La Bahia.

At year end

Above, Brooklyn Odem takes a bite of ice that fell from her sno cone Tuesday afternoon, May 3. Kona Ice was at the elementary selling the treats as part of a benefit for the school. This was one of the first events held as school came to a close in Goliad. On left, Taylor Williams, 6, smiles as she eats her sno cone this hot afternoon. This wasn't the only event, though. Elementary students had a parade in front of their school, complete with decorated cars and cheering teachers wishing all a fun summer. Shown below is Faith Korzeva, 7, who holds balloons as she rides with Nancy and J.B. Korzeva. A similar parade was held Thursday for the middle school students and on Friday for the high schoolers. Fire chief eyes school property for new station

by Jason Collins
Editor

GOLIAD – The Goliad Volunteer Fire Department is hoping that the school board will offer up a couple of acres by the tennis courts for their use as a fire station.

"We are just looking for locations," said Fire Chief Alonzo Morales. "We are looking at a couple of spots the school district owns."

While several areas were discussed, including property near the middle school, this area was the only property available.

"We are just looking for a facility," Morales told trustees during their meeting earlier this month. "We are just

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL

PERMIT NOS. WDW423 and WDW424

APPLICATION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining business, has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewals to authorize injection of non-hazardous wastewater generated from the processing of ion exchange resin from in-situ uranium mining. The facility is located at 14869 North United States Highway 183, Yorktown, Texas 78164 in Goliad County, Texas. TCEQ received the application on January 23, 2020. The permit application is available for viewing and copying by appointment at the Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: [Goliad Project Map](#). For exact location, refer to application.

ADDITIONAL NOTICE. TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare draft permits and will issue a preliminary decision on the application. **Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.**

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing.** A contested case hearing is a legal proceeding similar to a civil trial in state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and, the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Once you have access to the CID using the above link, enter the permit number for this application, which is provided at the top of this notice.

AGENCY CONTACTS AND INFORMATION. All public comments and requests must be submitted either electronically at www.tceq.texas.gov/agency/decisions/cc/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the TCEQ's Public Education Program, Toll Free, at 1-800-687-4040 or visit their website at www.tceq.texas.gov/goto/pep. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Uranium Energy Corp. at the address stated above or by calling Craig Wall at (361) 888-8235.

Applicant Name: Uranium Energy Corp.
Facility Location: Goliad, Goliad County, 77963
Permit Numbers: WDW423 and WDW424
Customer Reference Number: CN603228461
Regulated Entity Number: RN105304802
Type of Authorization: Renewal

Dear Mr. Wall:

The executive director has declared the above referenced application, received on January 23, 2020 administratively complete on April 27, 2020.

You are now required to publish notice of your proposed activity and make a copy of the application available for public review. The following items are included to help you meet the regulatory requirements associated with this notice:

- Notice for Newspaper Publication
- Instructions for Public Notice
- Public Notice Verification Form
- Publisher's Affidavits

You must follow all the directions in the enclosed instructions. The most common mistakes are the unauthorized changing of notice, wording, or font. If you fail to follow these instructions, you may be required to republish the notices.

The following requirements are also described in the enclosed instructions. However, due to their importance, they are highlighted here as well.

1. Publish the enclosed notice within **30 calendar days** after your application is declared administratively complete. (See this letter's first paragraph for the declaration date.) **You may be required to publish the notice in more than one newspaper, including a newspaper published in an alternative language, to satisfy all of the notice requirements.**

Mr. Craig Wall
Page 2
April 27, 2020

2. On or before the date you publish notice, place a copy of your permit application in a public place in the county where the facility is or will be located. This copy must be accessible to the public for review and copying, must be updated to reflect changes to the application, and must remain in place throughout the comment period.
3. For each publication, return proof of publication of the notice that shows the publication date and newspaper name to the Office of the Chief Clerk within **10 business days** after notice is published in the newspaper.
4. Return the original enclosed Public Notice Verification and the Publisher's Affidavits to the Office of the Chief Clerk within **30 calendar days** after the notice is published in the newspaper.

If you do not comply with all the requirements described in the instructions, further processing of your application may be suspended or the agency may take other actions.

If you have any questions regarding publication requirements, please contact the Office of the Chief Clerk at 512-239-3300. If you have any questions regarding the content of the notice, please contact Farhaud Abbaszadeh at farhaud.abbaszadeh@tceq.texas.gov or (512) 239-0779.

INSTRUCTIONS FOR PUBLIC NOTICE For Underground Injection Control Permits or Production Area Authorizations

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN PERMIT

Your application has been declared administratively complete and now you must comply with the following instructions:

Please Review Notice

Included in the notice is all of the necessary information. Please read it carefully and notify Farhaud Abbaszadeh at farhaud.abbaszadeh@tceq.texas.gov or (512) 239-0779 immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text or formatting of the notice without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed Notice of Receipt of Application and Intent to Obtain Permit within **30 calendar days** after the date of administrative completeness. Refer to the cover letter for the date of administrative completeness.
- You must publish the enclosed Notice of Receipt of Application and Intent to Obtain Permit at your expense, at least once in a newspaper(s) meeting the following requirements:
 - First. You must publish notice either 1) in the newspaper of largest circulation in the county where the facility is or is proposed to be located or, 2) if the facility is located or is proposed to be located in a municipality, in any newspaper of general circulation in the municipality, and
 - Second. You must publish notice either 1) in the newspaper of largest general circulation that is published in the county in which the facility is located or is proposed to be located, or 2) if a newspaper is not published in the county, the notice must be published in any newspaper of general circulation in the county.
- These requirements may be satisfied by one publication if the newspaper meets all of these requirements.
- For Class I injection wells, the published notice must be at least 15 square inches (96.8 square centimeters) with a shortest dimension of at least 3 inches (7.6 centimeters) and

the notice shall appear in the section of the newspaper containing state or local news items.

- The bold text of the enclosed notice must be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., **bold font**, *italics*). **Failure to do so may require re-notice.**

Alternative Language Notice

You must publish notice in an alternative language if the following criteria are met.

- You must publish the public notice in an alternative language if either the elementary or middle school nearest to the facility or proposed facility is required to provide a bilingual education program as required by TEX. EDUC. CODE, Chapter 29, Subchapter B, and 19 TEX. ADMIN. CODE § 89.1205(a) and one of the following conditions is met:
 - students are enrolled in a program at that school;
 - students from that school attend a bilingual education program at another location; or
 - the school that otherwise would be required to provide a bilingual education program waives out of this requirement under 19 TEX. ADMIN. CODE § 89.1205(g).
- If triggered, you must publish the notice in the alternative language taught in the bilingual education program. You must publish this notice in a newspaper or publication primarily published in that alternative language. The newspaper or publication must be of general circulation in the county in which the facility is located or proposed to be located. If the facility is located or proposed to be located in a municipality, and there exists a newspaper or publication of general circulation in the municipality, you must publish the notice only in the newspaper or publication in the municipality.
- You must demonstrate a good faith effort to identify a newspaper or publication in the required language. If there is no general circulation newspaper or publication printed in such language, then publishing in that language is not required. Publication in an alternative language section or insert within a large publication which is not printed primarily in that alternative language does not satisfy these requirements.
- You have the burden to demonstrate compliance with these requirements. To assist you in meeting these requirements, the TCEQ has provided a Public Notice Verification Form (enclosed). You must fill out the attached Public Notice Verification Form indicating your compliance with the requirements regarding publication in an alternative language.
- If you are required to publish notice in Spanish, you must translate the site-specific information in the notice that is specific to your application, at your own expense. You may then insert the Spanish translation of your site-specific information into a Spanish template developed by the TCEQ. You may obtain the electronic version of the Spanish template from the TCEQ website at www.tceq.texas.gov/permitting/waste_permits/uic_permits/uic_anl_page.html.

- If you are required to publish notice in a language other than Spanish, you must translate the entire public notice, at your own expense.

Proof of Publication

- Check each publication to ensure that the notices were accurately published. If a notice was not published correctly you may have to republish.
- For each newspaper in which you published, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proof of publication is 1) a copy of the published notice or 2) the original newspaper clipping of the published notice. If you choose to submit a copy of the published notice to the Office of the Chief Clerk, the copy must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain the original newspaper clipping or tear sheet of the notice for your records.
- For each newspaper notice, you must submit an original **Publisher's Affidavit** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **For each required published notice, you must use the appropriate Publisher's Affidavit form that is enclosed with these instructions.** The affidavit must clearly identify the applicant's name and permit number. **If you are using one newspaper to satisfy all publication requirements, you must still fill out affidavits #1 and 2, checking the relevant boxes for the criteria that the newspaper satisfies.**
- You are encouraged to submit the affidavits with the proof of publication described above. However, the affidavits must be submitted no later than **30 calendar days** after publication of notice.
- You must fill out the attached Public Notice Verification form. On this Form, you must verify that you submitted proof of publication and the Publisher's Affidavits as required by the TCEQ's regulations and instructions. This form must be submitted with the Publisher's Affidavits within **30 calendar days** after publication of the notice.
- The **original Publisher's Affidavits, the Public Notice Verification form, and acceptable proof of publication of the published notice** must be mailed to:
 - TCEQ
Office of the Chief Clerk, MC 105
Attn: Notice Team
P.O. Box 13087
Austin, Texas 78711-3087
- Please ensure that the affidavit(s) you send to the Office of the Chief Clerk is/are originals and that all blanks on the affidavits are filled in correctly. Photocopies of affidavits will not be accepted.

Failure to Publish and Submit Proof of Publication

If you fail to publish the notice or submit proof of publication by the deadlines set forth above, the TCEQ may suspend further processing of your application or take other action.

Application in a Public Place

- You must put a copy of the administratively complete application in a public place for review and copying by the public. This public place must be located in the county where the facility is or proposed to be located.
- A public place is one that is publicly owned or operated (ex: libraries, county courthouses, or city halls).
- The administratively complete application must be available **beginning on the first day of newspaper publication and must remain in place until the end of the comment period.**
- During the technical review, you must update the publicly available application so that it includes all application revisions within **10 business days** from the date the revision is transmitted to the TCEQ.
- If the application was submitted to the TCEQ with information marked as confidential, you must indicate in the public copy of the application that there is additional information in a confidential file. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the TCEQ Public Information Coordinator, MC 197, P.O. Box 13087, Austin, Texas 78711-3087."
- You must fill out the attached Public Notice Verification form. On this Form, you must verify that a complete application and all subsequent revisions are available for review and copying in a public place as required by the TCEQ's regulations and instructions. This Form must be submitted with the Publisher's Affidavit within **30 calendar days** after publication of the notice.

General Information

When contacting the Commission regarding this application, please refer to the permit number at the top of the Notice of Receipt and Intent to Obtain Permit.

If you have any questions regarding publication requirements, please contact the Office of the Chief Clerk at 512-239-3300. If you have any questions regarding the content of the notice, please contact Farhaud Abbaszadeh at farhaud.abbaszadeh@tceq.texas.gov or (512) 239-0779.
