APPLICATION.

Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for a permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MASIP. The facility is proposed to be located at 14869 NUS Hwy 183, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. Karnes banker recognized for 50 years of service

By Dylan Dozier
Editor

Karnes County National Bank Executive Vice President and Chief Loan Officer Robert Ihrig began his banking career as a bank runner and mail boy at Southern National Bank in Houston. 59 years later, on May 19, 2023, the Texas Banker's Foundation presented Ihrig with the 50-year banker award during the Texas Bankers Association 138th Annual

Robert Ihrig

Convention in San Antonio, Texas.

"I've been fortunate to have worked alongside many good people and coworkers throughout my career and also for great leaders who are honest and decent individuals that appreciate dedication, loyalty and hard work," Ihrig said.

After high school graduation Ihrig decided to attend college in San Marcos. While completing his degree, he worked for

State Bank and Trust. Upon completion of his degree Ihrig moved back home to Houston and took a gig at Houston National Bank. Not long after, Ihrig headed northwest for the First Nichols National Bank in Kenedy. In 1985 he accepted a position at Karnes County National Bank where he currently serves as the EVP and Chief Loan Officer.

Harley's
Wallet tees off
against cancer,
blindness

By Dylan Dozier
Editor

Harley Fetterman was five years old when he was diagnosed with an optic glioma that caused him to be blind but was not an aggressive type of cancer. At age 15, he was diagnosed with MDS. The MDS later turned into AML. After a courageous and graceful battle, Harley passed away at the age of 18 while undergoing a bone marrow transplant.

While going through Harley's belongings, his mother, Beth Freeborn found a wallet with \$240 in it, and with it, started a 501(c)(3) non-profit organization called Harley's Wallet. On July 1 and 2, South Texans are invited to join Harley's Wallet in

their fight against childhood cancer and blindness at the 2023 Harley's Wallet Golf Tournament, Birthday Bash and Casino Night.

"Every kid deserves the chance to learn, to be comforted, to be safe and to live," Freeborn

BISD captures kids' hearts, minds

By **Iain Woessner**
Beeville Editor

Beeville ISD's Hampton-Moreno-Dugat beat out nearly 10,000 other schools to earn a national recognition for the caring, nurturing atmosphere it provides for Beeville's littlest scholars.

Annette Sanchez, principal of HMD, spoke to the Bee-Picayune about the great honor

of being named a Capturing Kids' Hearts National Showcase School, a first for the early childhood campus.

"We were selected out of 10,000 schools," Sanchez said. "The Flippen Group ... visited 10,000 schools throughout the year. Their people came, they were with us all day, they saw how we opened up school,

Fathers find joy and purpose as Watch DOGS

By **Iain Woessner**
Beeville Editor

A watch dog protects and it also nurtures, providing strength and compassion in equal measure – and that is the principle which lies at the core of the Dads of Great Students, the Watch DOGS, a program which brings fathers into the school system to provide assistance and guidance to staff and students alike.

This is a nationwide program, but there are Watch

Nominate Women of Distinction

By **Coastal Bend Staff**

Coastal Bend Publishing is proud to announce the return of the Coastal Bend Women of Distinction program. The Coastal Bend Women of Distinction program will highlight the best and the brightest women throughout the footprint of Coastal Bend Publishing. Coastal Bend Publishing, home to six community newspapers in Bee, Goliad, Karnes, Live Oak, McMullen, Refugio and San Patricio counties, is now accepting nominations for the program. All women from the seven county area are eligible for nomination.

"This distinction is not solely reserved for the CEOs and powerhouse businesswomen, though we will certainly showcase our share of those," said Coastal Bend Publishing Vice President Dennis Wade. "A woman of distinction might well be a CEO, a powerhouse businesswoman, a stay-at-home mother, a working mother, a teacher, a police officer, a school secretary, a church volunteer, a retail sales associate, a waitress, and so on."

A panel of local dignitaries will be tasked with narrowing the field to the inaugural 50 honorees. The first Coastal Bend

Women of Distinction celebration event will be held September 28, at 6 p.m. at Coastal Bend College in the Gertrude Russell Jones Auditorium.

"Distinct is something that is distinguished by the mind or eye as being apart or different from others," Wade said. "The word distinct aptly

U.S. Department of Energy (DOE) Announces Virtual Scoping Meetings on an Environmental Impact Statement (EIS) for the High-Assay Low-Enriched Uranium (HALEU) Availability Program Activities in Support of Commercial Production of HALEU Fuel

DOE is hosting three virtual scoping meetings to share information, gather oral comments on the scope of the draft EIS, and enhance opportunities for public participation.

DOE's proposed action, to be analyzed in the EIS, is to acquire HALEU through procurement from commercial sources and to facilitate the establishment of commercial HALEU fuel production. HALEU is a crucial material required by most U.S. advanced nuclear reactors to achieve smaller designs, longer operating cycles, and increased efficiencies over current nuclear energy technologies. However, HALEU is not currently available at commercial scale from domestic suppliers, which could significantly impact the development and deployment of advanced nuclear reactors.

The virtual scoping meetings are opportunities for the public to comment on the scope of issues that DOE will address in the draft EIS. For anyone unable to attend, the meetings will be recorded and made available via the website.

In addition to oral comments submitted during the virtual scoping meetings, written comments may be submitted at any time during the scoping period, until July 20, 2023, by mail or email at the following addresses:

Mail:
Mr. James Lovejoy

Mail:

Written comments received through the mail must be postmarked by July 1, 2023, to ensure consideration. For more information on the NOI and to register for the virtual scoping meetings, visit <https://www.energy.gov/ne/leu-environmental-impact-statement>.

HER DAD, THE GREEN BERET

Audrey Winstead following father into elite military status with Air Force Academy appointment

By Coy Slavik
Editor

Audrey Winstead is the first female graduate of Goliad High School to receive an appointment to the U.S. Air Force Academy.

Each year, over 10,000 potential candidates apply for appointment to the academy in Colorado Springs, Colo., and less than 10% are accepted.

Least surprised about Winstead's appointment is her father.

"It's a testament to

her and the tenacity we've tried to instill in our children," Ty Winstead said. "She's always had it."

Becoming a part of an elite group is becoming a family tradition in the Winstead household.

After the attack on New York City's Twin Towers and the Pentagon in Washington, D.C. on Sept. 11, 2001, Ty decided to enlist in the U.S. Army. After completing basic training, he was chosen to try out to become a member of the U.S. Army Special Force's

APPLICATION BY	§	BEFORE THE STATE OFFICE
URANIUM ENERGY CORP.	§	OF
FOR PERMITS WDW423 & WDW424	§	ADMINISTRATIVE HEARINGS

EXECUTIVE DIRECTOR'S MOTION TO RESCHEDULE PRELIMINARY HEARING

TO THE HONORABLE ADMINISTRATIVE LAW JUDGE:

The Executive Director of the Texas Commission on Environmental Quality (TCEQ) files this Motion to Reschedule Preliminary Hearing on the application by Uranium Energy Corp. for a renewal and amendment of injection well Permits WDW423 and WDW424.

The TCEQ Office of the Chief Clerk (OCC) filed a request to docket the above referenced application with the State Office of Administrative Hearings (SOAH), coordinated with SOAH to determine a time and place for the hearing, and issued public notice of the hearing required by 30 TAC § 39.651(f).¹ SOAH acquired jurisdiction over the above reference application upon OCC filing a request to docket the case.²

The Executive Director was informed that the notice of hearing was defective because it contained a typographical error in the access code for SOAH's Zoom meeting. According to OCC staff, participants would not be able to access the Zoom meeting using this incorrect access code, and no one would be able to participate in the preliminary hearing that is scheduled for May 30 at 10:00 a.m. To cure the notice defect, a revised notice of hearing must be issued and mailed by OCC and published by the applicant. The date of the preliminary hearing must be rescheduled to allow adequate time for the applicant to publish revised notice of hearing, with a working Zoom meeting access code once each week during the three weeks preceding the hearing in compliance with 30 Tex. Admin. Code § 39.651(f)(2)(C). The known parties to this contested case hearing are the TCEQ Office of Public Interest Counsel, the applicant, Uranium Energy Corp., the TCEQ Executive Director, and the Goliad County Groundwater Conservation District.³

¹ Title 30 Tex. Admin. Code § 80.6(b)(1) - (3).

² Title 1 Tex. Admin. Code § 155.51(a).

³ Interim Order in TCEQ Docket No. 2022-1553-WDW, signed December 20, 2022.

The Executive Director requests that SOAH reschedule the preliminary hearing by coordinating a new date and time with OCC and issuing instructions regarding the preliminary hearing Zoom meeting to enable OCC to issue a revised notice of hearing.

The Executive Director requests this relief in the interest of justice and not to prejudice any party to this proceeding.

Respectfully Submitted,

Income up, optimism high for U.S. steel

By Matthew Tamez
Coastal Bend Publishing

Steel Dynamics Inc. closed its first quarter of 2023 with record results, including a new record in steel shipments of 3.3 million tons.

The company announced its first quarter financial results on April 19, noting net sales

of \$4.9 billion and a net income of \$637 million. Excluding the company's newly built Sinton Texas Flat Roll Steel Mill income of \$77 million, the company closed the first quarter with an adjusted net income of \$691 million.

"The team executed well and delivered a strong first quarter per-

formance from all of our operating platforms," said Mark D. Millet, chairman and chief executive officer. "Our first quarter 2023 operating income was \$835 million, with an adjusted earnings before interest, taxes, depreciation and amortization. The

A Beautiful Legacy

Daniel Adamez mourned by community he loved

Daniel Adamez was a devoted father, husband and pillar of his community, whose passion for youth sports, music, art and his kids touched an entire community and countless lives. Submitted photos.

By Iain Woessner
Beeville Editor

Artist, announcer and a devoted family man, Daniel Adamez's life was one well-lived, whose passing was mourned by a community forever grateful for his contribution.

"My husband left a beautiful legacy behind, that I know our future grandkids are

here, it really speaks volumes to the person you were."

Adamez was well known as a radio personality on Kicker106, as well as a dedicated sports announcer for Beeville Trojan sports. His iconic voice was heard across the region and he was recognized in 2020, his last year on the air, as Texas Regional Radio Report's Small Market Radio Personality of 2020.

"Sometimes you can be in a certain business that's not your niche, this was his niche," Alan Pilgrim, owner of Kicker106, told the Bee-Picayune. "He had that radio voice. He had a deal to come on with the background music ... he was called Big Dan, the Texas Superman."

Alongside his talent for radio was Adamez' inexhaustible love for local sports.

"Daniel 'Big Dan' Adamez, my Beeville hometown family friend," Alan Burkett, head softball coach for A.C. Jones High School, said in a statement. "He bled Trojan Orange and White and always wanted to recognize the Lady Trojans every chance he got. When we made the run to state in 2017 and 2018, he hosted interviews with all players on the team before we departed for the State Tourney. He did what was best for our community and sports. Rest well, friend, we love ya."

Woke culture attacked in 88th Legislative Session

By Dylan Dozier
Editor

The Texas Senate successfully passed 26 of Lt. Gov. Dan Patrick's 30 priority bills for the 88th legislative session. Four of the bills, Senate Bills 15, 16, 17 and 18, make-up what Patrick calls "the strongest pushback on woke policies in higher education nationwide."

"The Texas Senate has now passed the strongest pushback

on woke policies in higher education nationwide," Patrick said. "For far too long, academia has been poisoned by woke policies and faculty seeking to indoctrinate our students. Professors did not believe we would push back on their advances, but they were wrong. Students should be taught how to think critically, not what to think."

Senate Bills 15, 16, 17 and 18 prohibits men from participating in women's college sports in

Texas, bans the teaching of CRT at Texas universities, bans the establishment or maintenance of DEI offices and hiring practices at Texas universities and prohibits general academic institutions of higher education from granting an employee tenure or any kind of permanent employment status, respectively.

"The Texas Senate has now drawn a line in the sand and stated loud and clear that these

Tejano Outdoors is bringing South Texas to the world

By Dylan Dozier
Editor

Hunting stories pre-date the written word. The world's oldest genre of storytelling has pervaded and endured every medium of communication between cave paintings and Youtube. Nearly 45,000 years after a Pleistocene artist painted images of a warty pig hunt on the walls of an Indonesian cave, four South Texas friends are adding their own narrative to the ever-enduring lineage of hunting stories through their outdoor media company Tejano Outdoors.

Camaraderie

Erich Potthast, Luis Riojas, Fred Chavez and Kalli Escamilla were freshmen at Texas A&M University-Kingsville when their respective paths became intertwined. Riojas and Escamilla had been friends since their grade-school years stomping around Three Rivers, Texas. Riojas met Potthast in the halls of Dotterweich College of Engineering, and Escamilla met Chavez in a business class.

NOTICE OF HEARING
Uranium Energy Corp.
SOAH Docket No. 582-23-15496
TCEQ Docket No. 2022-1553-WDW
TCEQ Permit Nos. WDW423 and WDW424

APPLICATION.

Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for a permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MASIP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: <https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=db5bac44afbc468bbddd360f8168250f&marker=-97.357806%2C28.867167&level=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

The purpose of a preliminary hearing is to establish jurisdiction, name the parties, establish a procedural schedule for the remainder of the proceeding, and to address other matters as determined by the judge. The evidentiary hearing phase of the proceeding, which will occur at a later date, will be similar to a civil trial in state district court. The hearing will address the disputed issues of fact identified in the TCEQ order concerning this application issued on December 20, 2022. In addition to these issues, the judge may consider additional issues if certain factors are met.

The hearing will be conducted in accordance with Chapter 2001, Texas Government Code; Chapter 27, Texas Water Code; and the procedural rules of the TCEQ, including 30 Texas Administrative Code Chapters 80, 305, and 331 and SOAH, including 1 TAC Chapter 155. The hearing will be held unless all timely hearing requests have been withdrawn or denied.

To request to be a party, you must attend the hearing and show you would be adversely affected by the application in a way not common to members of the general public. Any person may attend the hearing and request to be a party. Only persons named as parties may participate at the hearing.

In accordance with 1 Tex. Admin. Code § 155.401(a), Notice of Hearing, “Parties that are not represented by an attorney may obtain information regarding contested case hearings on the public website of the State Office of Administrative Hearings at www.soah.texas.gov, or in printed format upon request to SOAH.”

INFORMATION.

If you need more information about the hearing process for this application, please call the Public Education Program, toll free, at 800-687-4040. General information about the TCEQ can be found at our web site at www.tceq.texas.gov.

Further information may also be obtained from Uranium Energy Corp. at the address stated above or by calling Mr. Craig Wall at 361-888-8235.

Early Notice and Public Review of a Proposed Activity in a Wetland

To: All interested Agencies, Groups, and Individuals on 05/04/2022: This is to give notice that the City of Yorktown has determined that the following proposed action under the Community Development Block Grant Program contract CDV21-0217 administered by the Texas Department of Agriculture (TDA) and ERR #CDV21-0217, is located in a wetland. The City of Yorktown will be identifying and evaluating practicable alternatives to locating the action in the wetland and the potential impacts on the wetland from the proposed action, as required by Executive Order 11990, in accordance with HUD regulations at 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management and the Protection of Wetlands. The City of Yorktown proposes a Water/Sewer Improvements project, including Administrative and Engineering fees and services and to install approximately 3,433 linear feet (LF) of six-inch (6") PVC water lines, service reconstructions, fire hydrants and all associated appurtenances. Construction will take place on York Street from Main Street to Mertins Street, on Mertins Street from York Street to 4th Street, and on Gaebler Street from Swartz Street to Main Street. The City of Yorktown also proposes to install approximately 1,790 LF of eight-inch (8") sewer line via pipe bursting method, manholes, service reconstructions, and all associated appurtenances. Construction will take place on Colonial Drive from 6th Street to Main Street and on Main Street from West Street to 800 LF. According to the USFWS National Wetlands Inventory, the project shall include activities within approximately 0.01 acres of a R4SBC wetland. Wetlands provide many natural and beneficial functions and values such as fish and wildlife habitat, natural water quality improvement, flood storage, shoreline erosion protection, and opportunities for recreation, education, research, and aesthetic appreciation that could be potentially adversely affected by the proposed project activities. However, after construction, the proposed project will have minimal impact on the wetland as all sewer lines will be subsurface and the project area will be restored to pre-project conditions. There are three primary purposes for this notice: (1) People who may be affected by activities in wetlands and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Commenters are encouraged to offer alternative sites outside of the wetland, alternative methods to serve the same project purpose, and methods to minimize and mitigate impacts; (2) An adequate public notice program can be an important public educational tool. The dissemination of information and request for public comment about wetlands can facilitate and enhance Federal efforts to reduce the risks and impacts associated with the occupancy and modification of these special areas; and (3) As a matter of fairness, when the Federal government determines it will participate in actions taking place in wetlands, it must inform those who may be put at greater or continued risk. Written comments must be received on or before 05/20/2022 by Yorktown at P.O. Box 605, Yorktown, TX 78164 or 102 W. Main Street, Yorktown, TX 78164, (361) 564-2611. Attention: Bill B. Baker, Mayor. A full description of the project may also be viewed during regular business hours at 102 W. Main Street, Yorktown, TX 78164. Comments may also be submitted via email to kfacucett.yorktown@hotmail.com CC: GabbyJakubowski@GrantWorks.net.

Notificación Anticipada y Revisión Pública de una Actividad Propuesta en un Humedal

A: Todas las Agencias, Grupos e Individuos interesados en 05/04/2022: Se da aviso de que la Ciudad de Yorktown ha determinado que la siguiente acción propuesta bajo el Programa de Subsidios en Bloque para el Desarrollo Comunitario administrado por el Departamento de Agricultura de Texas (TDA) y ERR #CDV21-0217, está ubicada en un humedal. La Ciudad de Yorktown identificará y evaluará alternativas viables a la localización de la acción en el humedal y los impactos potenciales de la acción propuesta, según lo requerido por la Orden Ejecutiva 11990, de acuerdo con las regulaciones de HUD al 24 CFR 55.20 Subparte C Procedimientos para la Determinación de Manejo de Plántulas y Protección de Humedales. La Ciudad de Yorktown propone un proyecto de mejoras de agua y alcantarillado incluidos los honorarios y servicios administrativos y de ingeniería, para instalar aproximadamente 3,433 pies lineales (LF) de líneas de agua de PVC de seis pulgadas (6"), reconexiones de servicio, bocas de incendio y todos los accesorios asociados. La construcción se llevará a cabo en York Street desde Main Street hasta Mertins Street, en Mertins Street desde York Street hasta 4th Street, y en Gaebler Street desde Swartz Street hasta Main Street. La Ciudad de Yorktown también propone instalar aproximadamente 1,790 LF de línea de alcantarillado de ocho pulgadas (8") a través del método de ruptura de tuberías, pozos de registro, reconexiones de servicio y todos los accesorios asociados. La construcción se llevará a cabo en Colonial Drive desde 6th Street hasta Main Street y en Main Street desde West Street hasta 800 LF. Según el inventario Nacional de Humedales del USFWS, el proyecto incluirá actividades dentro de aproximadamente 0.01 acres del R4SBC humedal. Los humedales brindan muchos valores naturales y beneficiosos, como hábitat para peces y vida silvestre, mejora de la calidad del agua natural, almacenamiento de inundaciones, protección contra la erosión de la costa y oportunidades para la recreación, la educación, la investigación y la apreciación estética que podrían verse potencialmente afectadas negativamente por las actividades del proyecto propuesto. Sin embargo, después de la construcción, el proyecto propuesto tendrá un impacto mínimo en el

The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "I/we request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

and all associated appurtenances. Construction will take place on York Street from Main Street to Mertins Street, on Mertins Street from York Street to 4th Street, and on Gaebler Street from Swartz Street to Main Street. The City of Yorktown also proposes to install approximately 1,790 LF of eight-inch (8") sewer line via pipe bursting method, manholes, service reconections, and all associated appurtenances. Construction will take place on Colonial Drive from 6th Street to Main Street and on Main Street from West Street to 800 LF. According to the USFWS National Wetlands Inventory, the project shall include activities within approximately 0.01 acres of a R4SBC wetland. Wetlands provide many natural and beneficial functions and values such as fish and wildlife habitat, natural water quality improvement, flood storage, shoreline erosion protection, and opportunities for recreation, education, research, and aesthetic appreciation that could be potentially adversely affected by the proposed project activities. However, after construction, the proposed project will have minimal impact on the wetland as all sewer lines will be subsurface and the project area will be restored to pre-project conditions. There are three primary purposes for this notice: (1) People who may be affected by activities in wetlands and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Commenters are encouraged to offer alternative sites outside of the wetland, alternative methods to serve the same project purpose, and methods to minimize and mitigate impacts; (2) An adequate public notice program can be an important public educational tool. The dissemination of information and request for public comment about wetlands can facilitate and enhance Federal efforts to reduce the risks and impacts associated with the occupancy and modification of these special areas; and (3) As a matter of fairness, when the Federal government determines it will participate in actions taking place in wetlands, it must inform those who may be put at greater or continued risk. Written comments must be received on or before 05/20/2022 by Yorktown at P.O. Box 605, Yorktown, TX 78164 or 102 W. Main Street, Yorktown, TX 78164, (361) 564-2611. Attention: Bill B. Baker, Mayor. A full description of the project may also be reviewed during regular business hours at 102 W. Main Street, Yorktown, TX 78164. Comments may also be submitted via email to kfaccuccett.yorktown@hotmail.com CC: Gabby.Jakubowski@GrantWorks.net.

Notificación Anticipada y Revisión Pública de una Actividad Propuesta en un Humedal

A: Todas las Agencias, Grupos e Individuos interesados en 05/04/2022: Se da aviso de que la Ciudad de Yorktown ha determinado que la siguiente acción propuesta bajo el Programa de Subsidios en Bloque para el Desarrollo Comunitario administrado por el Departamento de Agricultura de Texas (TDA) y ERR #CDV21-0217, está ubicado en un humedal. La Ciudad de Yorktown identificará y evaluará alternativas viables a la localización de la acción en el humedal y los impactos potenciales de la acción propuesta, según lo requerido por la Orden Ejecutiva 11990, de acuerdo con las regulaciones de HUD al 24 CFR 55.20 Subparte C Procedimientos para la Determinación de Manejo de Plántulas y Protección de Humedales. La Ciudad de Yorktown propone un proyecto de mejoras de agua y alcantarillado incluidos los honorarios y servicios administrativos y de ingeniería, para instalar aproximadamente 3,433 pies lineales (LF) de líneas de agua de PVC de seis pulgadas (6"), reconexiones de servicio, bocas de incendio y todos los accesorios asociados. La construcción se llevará a cabo en York Street desde Main Street hasta Mertins Street, en Mertins Street desde York Street hasta 4th Street, y en Gaebler Street desde Swartz Street hasta Main Street. La Ciudad de Yorktown también propone instalar aproximadamente 1,790 LF de línea de alcantarillado de ocho pulgadas (8") a través del método de ruptura de tuberías, pozos de registro, reconexiones de servicio y todos los accesorios asociados. La construcción se llevará a cabo en Colonial Drive desde 6th Street hasta Main Street y en Main Street desde West Street hasta 800 LF. Según el Inventario Nacional de Humedales del USFWS, el proyecto incluirá actividades dentro de aproximadamente 0.01 acres del R4SBC humedal. Los humedales brindan muchos valores naturales y beneficiosos, como hábitat para peces y vida silvestre, mejora de la calidad del agua natural, almacenamiento de inundaciones, protección contra la erosión de la costa y oportunidades para la recreación, la educación, la investigación y la apreciación estética que podrían verse potencialmente afectadas negativamente por las actividades del proyecto propuesto. Sin embargo, después de la construcción, el proyecto propuesto tendrá un impacto mínimo en el humedal, ya que ya que todas las líneas de aguas residuales serán subterráneas y el área del proyecto se restaurará a las condiciones previas al proyecto. Hay tres propósitos principales para esta notificación: (1) Las personas que pueden verse afectadas por actividades en humedales y aquellos que tienen interés en la protección del medio ambiente natural deben tener la oportunidad de expresar sus preocupaciones y proporcionar información sobre estas áreas. Se recomienda a los autores que ofrezcan sitios alternativos fuera del humedal, métodos alternativos que sirvan el mismo propósito del proyecto y métodos para minimizar y mitigar los impactos; (2) Un programa de aviso público adecuado puede ser una herramienta educativa pública importante. La difusión de información y la solicitud de comentarios públicos sobre los humedales pueden facilitar y mejorar los esfuerzos federales para reducir los riesgos e impactos asociados con la ocupación y modificación de estas áreas especiales; y (3) Como cuestión de equidad, cuando el gobierno federal determine que participará en acciones llevadas a cabo en los humedales, debe informar a aquellos que pudieran ser expuestos a un riesgo mayor o continuo. Los comentarios por escrito deben ser recibidos a más tardar el 05/20/2022 por la Ciudad de Yorktown en P.O. Box 605, Yorktown, TX 78164 o 102 W. Main Street, Yorktown, TX 78164, (361) 564-2611. Atención: Bill B. Baker, Mayor. Una descripción completa del proyecto también se puede revisar durante las horas hábiles regulares en 102 W. Main Street, Yorktown, TX 78164. Los comentarios también pueden ser enviados por correo electrónico a kfaccuccett.yorktown@hotmail.com CC: Gabby.Jakubowski@GrantWorks.net.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "I/we request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address; phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "I/we request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

Longtime Goliad beautician honored at banquet for faith, inspiration to others

by Coy Slavik

Carmen Flores' ability to bring out the best in people goes deeper than her 56 years as a beautician.

Flores has inspired friends and family for over half a century in Goliad with her faith, personality and service to others.

Flores was recognized for her 56 years as owner and operator of Carmen's Beauty Shop and her service with the Golden Crescent Planning

time spent together," said friend Annette Fee.

Flores, who was nominated for the award by Goliad Dental Care, graduated from the Mims and Strauch Beauty School in San Antonio. She worked as a stylist and consultant at The Style Shop beside the Gunter Hotel near the River Walk.

On Sept. 14, 1964, Flores opened her shop on the square in downtown Goliad. One of her more memorable moments was styling the hair of actress Shelley Duvall as she visited Goliad.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. Unless the application is directly relevant for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "I/we request a contested case hearing." OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "I/we request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL AND AMENDMENT

PERMIT NOS. WDW423 and WDW424

APPLICATION AND PRELIMINARY DECISION: Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MASIP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: <https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=d85baca4a9fbc468bbdd36f8168250f8&marker=-97.3578063&zC28.867167&level=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments and the Executive Director's decision on the application, will be mailed to persons who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address; phone; application name and permit number; the location and distance of your property, activity relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL AND AMENDMENT
PERMIT NOS. WDW423 and WDW424

APPLICATION AND PRELIMINARY DECISION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MASIP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: <https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=dbsbuc44afbc46bbbd4d366f8168250f&marker=-97.35780632&zoom=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to each person who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address; phone number; name and permit number; the location and distance from the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Once you have access to the CID using the above link, enter the permit number for this application, which is provided at the top of this notice.

Like a Bear to honey

Bear Solutions announces plans to open new plant in Beeville

by Kevin J. Keller
Editor

Bear Solutions has found its new honey hole in the honey of a town known as Beeville.

The Bee Area Partnership, in cooperation with the Bee Development Authority, announced on April 27 that Bear Solutions has agreed to terms on a lease to open a plastics recycling and manufacturing plant at the Chase Field Industrial and Airport Complex.

"Some days I feel like I landed right in the middle of the land of opportuni-

ty, and this is one of those days," said Rand Blair, the president of Bear Solutions.

The company will invest approximately \$50 million over the next five years as it builds its first plastics recycling facility.

The first phase of the project will include a mechanical recycling process where the company will take common waste plastic – discarded water bottles, for example – and turn that into other plastic products.

The first product the company will produce,

Beeville ISD brought differently-abled students together during its sixth annual Differently Abled Student Heroes (DASH) field day event on April 29.

DASH initially started in 2017 when 16-year-old Makayla Aguirre heard that some of the life skills students she would visit with went to a field day in George West.

Aguirre decided to create a field day for Beeville and the surrounding districts.

County extends burn ban 30 days

by Coy Slavik
Editor

Refugio County commissioners voted unanimously to extend the burn ban 30 more days during their April 26 meeting.

Refugio County Emergency Management/Safety Coordinator Sheldon Wiginton said rain-fall on April 15 was not enough to improve drought conditions

in the county and discontinue the burn ban.

"The rains unfortunately bypassed much of Refugio County and did little or nothing to help us," Wiginton said. "I spoke with all the fire chiefs this morning and it is their recommendation that we continue the burn ban for another 30 days or until Mother Nature helps us out in between."

Refugio County Judge Robert

Blaschke asked the commissioners if they wanted to refuse burning of brush piles even under the supervision of burn managers.

"If somebody sees smoke and they want to burn, all of a sudden they get the belief that they can light a match too," Blaschke said. "We just want everybody to stay at bay for a while and be patient. Let's get some rain and get this fire risk under control

over the next coming months."

In other action during the meeting:

- Commissioners approved a change order for flooring repairs for the Refugio County Elections Administration Office, Williamson Senior Center and Refugio County Extension Office.

- Commissioners approved a

APPLICATION AND PRELIMINARY DECISION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject nonhazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MAS IP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: <https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=db5bae44afbc468bbdd36of8168250f&marker=-97.357806%2C28.867167&level=12>. PUBLIC COMMENT/ PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing. 11" If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on:

If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing. 11" If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Once you have access to the CID using the above link, enter the permit number for this application, which is provided at the top of this notice.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL AND AMENDMENT

PERMIT NOS. WDW423 and WDW424

APPLICATION AND PRELIMINARY DECISION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining company has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewal and amendments to authorize the construction and operation of disposal wells to inject non-hazardous wastewater generated from the mining of uranium and groundwater restoration and reduce the permitted MASIP. The facility is proposed to be located at 14869 N US Hwy 183 Yorktown, 78164 in Goliad County, Texas. The TCEQ received this application on January 23, 2020. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice:
<https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=db5bac44afbc468bbddd36of816825of&marker=-97.357806%2C28.867167&level=12>. For exact locations, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared draft permits. The draft permits, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that these permits, if issued, meet all statutory and regulatory requirements. The application, Executive Director's preliminary decision, and draft permits are available for viewing and copying at Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application.** If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permits and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Once you have access to the CID using the above link, enter the permit number for this application, which is provided at the top of this notice.

AGENCY CONTACTS AND INFORMATION. All public comments and requests must be submitted within 30 days from the date of newspaper publication of this notice either electronically at www.tceq.texas.gov/agency/decisions/cc/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. INSTRUCTIONS FOR PUBLIC NOTICE For Underground Injection Control Permits or Production Area Authorizations

NOTICE OF APPLICATION AND PRELIMINARY DECISION

The executive director has completed the technical review of your application and issued a preliminary decision. You must comply with the following instructions:

Please Review Notice

We have included in the notice all of the information that we believe is necessary. Please read it carefully and notify us immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text or formatting of the notice or affidavit of publication without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed Notice of Application and Preliminary Decision within **30 calendar days** after the date this information was mailed to you (see date of cover letter).
- You must publish the enclosed Notice of Application and Preliminary Decision at your expense, in a newspaper(s) that meets the following requirements:
 - First. You must publish notice either 1) in the newspaper of largest general circulation *that is published in the county* in which the facility is located or is proposed to be located, or 2) if a newspaper is not published in the county, the notice must be published in any newspaper of general circulation in the county;
 - Second. You must publish the enclosed Notice of Application and Preliminary Decision at least once in the same newspaper as the Notice of Receipt of Application and Intent to Obtain Permit; and
 - Third. For injection well permits only: You must publish in a newspaper of general circulation in each county which is adjacent or contiguous to each county in which the facility is located or proposed to be located.
- These requirements may be satisfied by one publication if the newspaper meets **all** of these requirements.
- For Class I injection wells, the published notice must be at least 15 square inches (96.8 square centimeters) with a shortest dimension of at least 3 inches (7.6 centimeters) and the notice shall appear in the section of the newspaper containing state or local news items.

- The bold text of the enclosed notice must be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., **bold**, *italics*). **Failure to do so may require re-notice.**

Radio Broadcast

For hazardous waste applications other than Class 3 Modifications, you must broadcast the enclosed Radio Broadcast for Notice of Application and Preliminary Decision on one or more local radio stations that broadcast to an area that includes all of the county where the facility is located or proposed to be located. You must fill out the Radio Broadcast Verification section of the Public Notice Verification Form and submit it to the Office of the Chief Clerk when you submit the Public Notice Verification Form.

Alternative Language Notice

If your application was received on or after November 30, 2005, you must publish notice in an alternative language if the following criteria are met.

- You must publish the public notice in an alternative language if either the elementary or middle school nearest to the facility or proposed facility is required to provide a bilingual education program as required by TEX. EDUC. CODE, Chapter 29, Subchapter B, and 19 TEX. ADMIN. CODE § 89.1205(a) and one of the following conditions is met:
 - students are enrolled in a program at that school;
 - students from that school attend a bilingual education program at another location; or
 - the school that otherwise would be required to provide a bilingual education program waives out of this requirement under 19 TEX. ADMIN. CODE § 89.1205(g).
- If triggered, you must publish the notice in the alternative language taught in the bilingual education program. You must publish this notice in a newspaper or publication primarily published in that alternative language. The newspaper or publication must be of general circulation in the county in which the facility is located or proposed to be located. If the facility is located or proposed to be located in a municipality, and there exists a newspaper or publication of general circulation in the municipality, you must publish the notice only in the newspaper or publication in the municipality.
- You must demonstrate a good faith effort to identify a newspaper or publication in the required language. If there is no general circulation newspaper or publication printed in such language, then publishing in that language is not required. Publication in an alternative language section or insert within a large publication which is not printed primarily in that alternative language does not satisfy these requirements.
- You have the burden to demonstrate compliance with these requirements. To assist you in meeting these requirements, the TCEQ has provided a Public Notice Verification Form (enclosed). You must fill out the attached Public Notice Verification Form indicating your compliance with the requirements regarding publication in an alternative language.
- If you are required to publish notice in Spanish, you must translate the site-specific information in the notice that is specific to your application, at your own expense. You may then insert the Spanish translation of your site-specific information into a Spanish

template developed by the TCEQ. You may obtain the electronic version of the Spanish template from the TCEQ website at
https://www.tceq.texas.gov/permitting/radmat/uic_permits/uic_and_page.html

- If you are required to publish notice in a language other than Spanish, you must translate the entire public notice, at your own expense.

Proof of Publication

- Check each publication to ensure that the notices were accurately published. If a notice was not published correctly you may have to republish.
- For each newspaper in which you published, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proof of publication is 1) a copy of the published notice or 2) the original newspaper clippings of the published notice. If you choose to submit a copy of the published notice to the Office of the Chief Clerk, the copy must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain the original newspaper clipping or tear sheet of the notice for your records.
- For each newspaper notice, you must submit an **original publisher's affidavit** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **For each required published notice, you must use the appropriate Publisher's Affidavit form that is enclosed with these instructions.** The affidavit must clearly identify the applicant's name and permit number. **If you are using one newspaper to satisfy all publication requirements, you must still fill out all affidavits, checking the relevant boxes for the criteria that the newspaper satisfies. However, for Production Area Authorizations, you do not have to fill out or submit Affidavit #2.**
- You are encouraged to submit the Publisher's Affidavits with the proof of publication described above. However, the affidavits must be submitted no later than **30 calendar days** after publication of the notice.
- You must fill out the attached Public Notice Verification form. On this Form, you must verify that you submitted proof of publication and the Publisher's Affidavits as required by the TCEQ's regulations and instructions. TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL

PERMIT NOS. WDW423 and WDW424

APPLICATION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining business, has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewals to authorize injection of non-hazardous wastewater generated from the processing of ion exchange resin from in-situ uranium mining. The facility is located at 14869 North United States Highway 183, Yorktown, Texas 78164 in Goliad County, Texas. TCEQ received the application on January 23, 2020. The permit application is available for viewing and copying by appointment at the Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: [Goliad Project Map](#). For exact location, refer to application.

ADDITIONAL NOTICE. TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare draft permits and will issue a preliminary decision on the application. **Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.**

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the

Spotlight on soup

TV crew featuring
Blue Quail Deli

GOLIAD – Blue Quail and manger Patti Russo McCraney are back in the limelight, this time with a television crew who heard about the restaurant's soup.

But even they won't be getting that secret recipe. The two-man crew from Texas Bucket List, which airs on three San Antonio stations of WOAI, KABB and CW, were in Goliad Wednesday morning thanks to a bit of advice from Scott McMahon, director of Presidio La Bahia.

Above, Brooklyn Odem takes a bite of ice that fell from her sno cone Tuesday afternoon, May 3. Kona Ice was at the elementary selling the treats as part of a benefit for the school. It was one of the first events held as school came to a close in Goliad. On left, Taylor Williams, 6, smiles as she eats her sno cone the hot afternoon. This wasn't the only event, though. Elementary students had a parade in front of their school, complete with decorated cars and cheering teachers wishing all "fun summer." Shown below is Faith Korzeva, 7, who holds balloons as she rides with Nancy and J.B. Korzeva. A similar parade was held Thursday for the middle school students and on Friday for the high schoolers. Fire chief eyes school property for new station

by Jason Collins

GOLIAD – The Goliad Volunteer Fire Department is hoping that the school board will offer up a couple of acres by the tennis courts for their use as a fire station.

"We are just looking for locations," said Fire Chief Alonzo Morales. "We are looking at a couple of spots the school district owns."

While several areas were discussed, including property near the middle school, this area was the only property available.

"We are just looking for a facility," Morales told trustees during their meeting earlier this month. "We are just

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN NONHAZARDOUS WASTE UNDERGROUND INJECTION CONTROL PERMIT RENEWAL

PERMIT NOS. WDW423 and WDW424

APPLICATION. Uranium Energy Corp., 500 North Shoreline Boulevard, Suite 800N, Corpus Christi, Texas, an in-situ uranium mining business, has applied to the Texas Commission on Environmental Quality (TCEQ) for permit renewals to authorize injection of non-hazardous wastewater generated from the processing of ion exchange resin from in-situ uranium mining. The facility is located at 14869 North United States Highway 183, Yorktown, Texas 78164 in Goliad County, Texas. TCEQ received the application on January 23, 2020. The permit application is available for viewing and copying by appointment at the Goliad County Courthouse, 127 North Courthouse Square, Goliad, Texas 77963. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: [Goliad Project Map](#). For exact location, refer to application.

ADDITIONAL NOTICE. TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare draft permits and will issue a preliminary decision on the application. **Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.**

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing.** A contested case hearing is a legal proceeding similar to a civil trial in state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and, the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. You must follow all the directions in the enclosed instructions. The most common mistakes are the unauthorized changing of notice, wording, or font. If you fail to follow these instructions, you may be required to republish the notices.

The following requirements are also described in the enclosed instructions. However, due to their importance, they are highlighted here as well.

1. Publish the enclosed notice within **30 calendar days** after your application is declared administratively complete. (See this letter's first paragraph for the declaration date.) INSTRUCTIONS FOR PUBLIC NOTICE For Underground Injection Control Permits or Production Area Authorizations

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN PERMIT

Your application has been declared administratively complete and now you must comply with the following instructions:

Please Review Notice

Included in the notice is all of the necessary information. Please read it carefully and notify Farhaud Abbaszadeh at farhaud.abbaszadeh@tceq.texas.gov or (512) 239-0779 immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text or formatting of the notice without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed Notice of Receipt of Application and Intent to Obtain Permit within **30 calendar days** after the date of administrative completeness. Refer to the cover letter for the date of administrative completeness.
- You must publish the enclosed Notice of Receipt of Application and Intent to Obtain Permit at your expense, at least once in a newspaper(s) meeting the following requirements:
 - First. You must publish notice either 1) in the newspaper of largest circulation in the county where the facility is or is proposed to be located or, 2) if the facility is located or is proposed to be located in a municipality, in any newspaper of general circulation in the municipality, and
 - Second. You must publish notice either 1) in the newspaper of largest general circulation that is published in the county in which the facility is located or is proposed to be located, or 2) if a newspaper is not published in the county, the notice must be published in any newspaper of general circulation in the county.
- These requirements may be satisfied by one publication if the newspaper meets all of these requirements.
- For Class I injection wells, the published notice must be at least 15 square inches (96.8 square centimeters) with a shortest dimension of at least 3 inches (7.6 centimeters) and

the notice shall appear in the section of the newspaper containing state or local news items.

- The bold text of the enclosed notice must be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., **bold font**, *italics*). **Failure to do so may require re-notice.**

Alternative Language Notice

You must publish notice in an alternative language if the following criteria are met.

- You must publish the public notice in an alternative language if either the elementary or middle school nearest to the facility or proposed facility is required to provide a bilingual education program as required by TEX. EDUC. CODE, Chapter 29, Subchapter B, and 19 TEX. ADMIN. CODE § 89.1205(a) and one of the following conditions is met:
 - students are enrolled in a program at that school;
 - students from that school attend a bilingual education program at another location; or
 - the school that otherwise would be required to provide a bilingual education program waives out of this requirement under 19 TEX. ADMIN. CODE § 89.1205(g).
- If triggered, you must publish the notice in the alternative language taught in the bilingual education program. You must publish this notice in a newspaper or publication primarily published in that alternative language. The newspaper or publication must be of general circulation in the county in which the facility is located or proposed to be located. If the facility is located or proposed to be located in a municipality, and there exists a newspaper or publication of general circulation in the municipality, you must publish the notice only in the newspaper or publication in the municipality.
- You must demonstrate a good faith effort to identify a newspaper or publication in the required language. If there is no general circulation newspaper or publication printed in such language, then publishing in that language is not required. Publication in an alternative language section or insert within a large publication which is not printed primarily in that alternative language does not satisfy these requirements.
- You have the burden to demonstrate compliance with these requirements. To assist you in meeting these requirements, the TCEQ has provided a Public Notice Verification Form (enclosed). You must fill out the attached Public Notice Verification Form indicating your compliance with the requirements regarding publication in an alternative language.
- If you are required to publish notice in Spanish, you must translate the site-specific information in the notice that is specific to your application, at your own expense. You may then insert the Spanish translation of your site-specific information into a Spanish template developed by the TCEQ. You may obtain the electronic version of the Spanish template from the TCEQ website at www.tceq.texas.gov/permitting/waste_permits/uic_permits/uic_and_page.html.

- If you are required to publish notice in a language other than Spanish, you must translate the entire public notice, at your own expense.

Proof of Publication

- Check each publication to ensure that the notices were accurately published. If a notice was not published correctly you may have to republish.
- For each newspaper in which you published, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proof of publication is 1) a copy of the published notice or 2) the original newspaper clipping of the published notice. If you choose to submit a copy of the published notice to the Office of the Chief Clerk, the copy must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain the original newspaper clipping or tear sheet of the notice for your records.
- For each newspaper notice, you must submit an original **Publisher's Affidavit** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **For each required published notice, you must use the appropriate Publisher's Affidavit form that is enclosed with these instructions.** The affidavit must clearly identify the applicant's name and permit number. **If you are using one newspaper to satisfy all publication requirements, you must still fill out affidavits #1 and 2, checking the relevant boxes for the criteria that the newspaper satisfies.**
- You are encouraged to submit the affidavits with the proof of publication described above. However, the affidavits must be submitted no later than **30 calendar days** after publication of notice.
- You must fill out the attached Public Notice Verification form. On this Form, you must verify that you submitted proof of publication and the Publisher's Affidavits as required by the TCEQ's regulations and instructions. This form must be submitted with the Publisher's Affidavits within **30 calendar days** after publication of the notice.
- The **original Publisher's Affidavits, the Public Notice Verification form, and acceptable proof of publication of the published notice** must be mailed to:

TCEQ
Office of the Chief Clerk, MC 105
Attn: Notice Team
P.O. Box 13087
Austin, Texas 78711-3087

- Please ensure that the affidavit(s) you send to the Office of the Chief Clerk is/are originals and that all blanks on the affidavits are filled in correctly. Photocopies of affidavits will not be accepted.

Failure to Publish and Submit Proof of Publication

If you fail to publish the notice or submit proof of publication by the deadlines set forth above, the TCEQ may suspend further processing of your application or take other action.

Application in a Public Place

- You must put a copy of the administratively complete application in a public place for review and copying by the public. This public place must be located in the county where the facility is or proposed to be located.
- A public place is one that is publicly owned or operated (ex: libraries, county courthouses, or city halls).
- The administratively complete application must be available **beginning on the first day of newspaper publication and must remain in place until the end of the comment period.**
- During the technical review, you must update the publicly available application so that it includes all application revisions within **10 business days** from the date the revision is transmitted to the TCEQ.
- If the application was submitted to the TCEQ with information marked as confidential, you must indicate in the public copy of the application that there is additional information in a confidential file. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the TCEQ Public Information Coordinator, MC 197, P.O. Box 13087, Austin, Texas 78711-3087."
- You must fill out the attached Public Notice Verification form. On this Form, you must verify that a complete application and all subsequent revisions are available for review and copying in a public place as required by the TCEQ's regulations and instructions. This Form must be submitted with the Publisher's Affidavit within **30 calendar days** after publication of the notice.
