RE: Amended Notice of Hearing Package
Applicant Name: Valero Refining-Texas, L.P.
Facility Location: Nueces County, Texas
Permit Numbers: 2937 and PSDTX1023M3
Types of Authorizations: Amendment and Renewal

Dear Mr. McDonald and Mr. Payne,

As you know, the Chief Clerk's Office has referred this matter over to the State Office of Administrative Hearings (SOAH) for a contested case hearing on your application.

SOAH will conduct a preliminary hearing via Zoom video conference at:

10:00 a.m. – April 20, 2023

You are now required to publish notice for this hearing. To help you meet the requirements associated with this notice, we have enclosed the following items:

- Notice for Newspaper Publication
- Instructions for Notice of Hearing
- Affidavit of Publication

Please note that it is VERY IMPORTANT that you follow ALL directions in the ENCLOSED INSTRUCTIONS. If you do not, you may be required to republish the notice. One of the most common mistakes we see is the unauthorized changing of notice wording or font. If you have any questions, please contact us before you proceed with publication.

The following items and time limitations are also described in the enclosed instructions. However, due to their importance, we want to highlight them for you.

1. Publish the enclosed notice within at least **30 calendar days** prior to the date of the hearing.
2. Return **acceptable proof of publication** of the complete notice, which shows publication date and newspaper name, to the TCEQ Office of the Chief Clerk within **10 business days** after notice is published in the newspaper.
3. Return the original enclosed *Affidavit of Publication* to the TCEQ Office of the Chief Clerk within **30 calendar days** after the notice is published in the newspaper.

If you do not comply with all requirements described in the instructions, further processing of your application may be suspended or the commission may take other actions.

If you have any questions regarding publication requirements, please contact the SOAH Docket Clerk in the TCEQ Office of the Chief Clerk at 512-239-3300. If you have any other questions, please contact Amanda Kraynok at 512-239-0633.

Sincerely,

Laurie Gharis
Chief Clerk

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

**AMENDED NOTICE OF HEARING
Valero Refining-Texas, L.P.
SOAH Docket No. 582-23-10365
TCEQ Docket No. 2022-1632-AIR
Permit Nos. 2937 and PSDTX1023M3**

APPLICATION.

Valero Refining-Texas, L.P., P.O. Box 9370, Corpus Christi, Texas 78469, has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to and renewal of State Air Quality Permit Number 2937 and modification to Prevention of Significant Deterioration (PSD) Air Quality Permit Number PSDTX1023M3, which would authorize modifications to and continued operation of the Bill Greehey Refinery East Plant at 1300 Cantwell Lane, Corpus Christi, Nueces County, Texas 78407. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide and organic compounds. In addition, the facility will emit the following air contaminants: ammonia, exempt solvents, hazardous air pollutants, hydrogen sulfide, nitrogen oxides, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. The executive director has determined that the emissions of air contaminants from the proposed facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

This application was submitted to the TCEQ on October 31, 2014. The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ Central Office, the TCEQ Corpus Christi Regional Office, and at the Owens R. Hopkins Public Library, 3202 McKenzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

DIRECT REFERRAL.

The Notice of Application and Preliminary Decision was published, in English and Spanish, on March 15, 2022. On December 9, 2022, the Applicant filed a request for direct referral to the State Office of Administrative Hearings (SOAH). Therefore, the

chief clerk has referred this application directly to SOAH for a hearing on whether the application complies with all applicable statutory and regulatory requirements.

CONTESTED CASE HEARING.

Considering directives to protect public health, the State Office of Administrative Hearings (SOAH) will conduct a preliminary hearing via Zoom videoconference. A Zoom meeting is a secure, free meeting held over the internet that allows video, audio, or audio/video conferencing.

10:00 a.m. – April 20, 2023

To join the Zoom meeting via computer:

<https://soah-texas.zoomgov.com/>

Meeting ID: 161 133 6919

Password: TCEQ365

or

To join the Zoom meeting via telephone:

(669) 254-5252 or (646) 828-7666

Meeting ID: 161 133 6919

Password: 5705003

**Visit the SOAH website for registration at: <http://www.soah.texas.gov/>
or call SOAH at 512-475-4993.**

The purpose of a preliminary hearing is to establish jurisdiction, name the parties, establish a procedural schedule for the remainder of the proceeding, and to address other matters as determined by the judge. The evidentiary hearing phase of the proceeding, which will occur at a later date, will be similar to a civil trial in state district court.

The hearing will be conducted in accordance with the Chapter 2001, Texas Government Code; Chapter 382, Texas Health and Safety Code; TCEQ rules including 30 Texas Administrative Code (TAC) Chapter 116, Subchapters A, B and D; and the procedural rules of the TCEQ and SOAH, including 30 TAC Chapter 80 and 1 TAC Chapter 155. The hearing will be held unless all timely hearing requests have been withdrawn or denied.

To request to be a party, you must attend the hearing and show you would be adversely affected by the application in a way not common to members of the general public. Any person may attend the hearing and request to be a party. Only persons named as parties may participate at the hearing.

In accordance with 1 Tex. Admin. Code § 155.401(a), Notice of Hearing, “Parties that are not represented by an attorney may obtain information regarding contested case hearings on the public website of the State Office of Administrative Hearings at <https://www.soah.texas.gov/>, or in printed format upon request to SOAH.”

MAILING LIST.

You may ask to be placed on a mailing list to obtain additional information on this application by sending a request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION.

Public comments and requests must be submitted either electronically at www.tceq.texas.gov/agency/decisions/cc/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. If you communicate with the TCEQ electronically, please be aware that your email address, like your physical mailing address, will become part of the agency's public record. For more information about this permit application, the permitting process, or the contested case hearing process, please call the Public Education Program toll free at 800-687-4040. Si desea información en Español, puede llamar al 800-687-4040. General information regarding the TCEQ may be obtained electronically at www.tceq.texas.gov

INFORMATION.

If you need more information about the hearing process for this application, please call the Public Education Program, toll free, at 800-687-4040. General information regarding the TCEQ can be found at www.tceq.texas.gov.

Persons with disabilities who need special accommodations at the hearing should call the SOAH Docketing Department at 512-475-4993, at least one week prior to the hearing.

Further information may also be obtained from Valero Refining-Texas, L.P. at the address stated above or by calling Ms. Meagan Marquard, Environmental Superintendent at 361-289-6000.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

INSTRUCTIONS FOR PUBLIC NOTICE Air Permits

NOTICE OF HEARING

A hearing was requested on issues related to your application and the Commission granted this request. The matter has been referred to the State Office of Administrative Hearings. Now you must comply with the following instructions:

Please Review Notice

We have included in the notice all of the information which we believe is necessary. Please read it carefully and notify us immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text of the notice or affidavit of publication without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed Notice of Hearing no less than **30** days before the hearing.
- You must publish the enclosed Notice of Hearing (Example A) at your expense, in the public notice section of a newspaper that is of general circulation in the municipality in which the facility is located or proposed to be located or in the municipality nearest to the location or proposed location of the facility.
- Example B must be published in the **same issue** of the newspaper as Example A; however, it must be published in a prominent location (other than the public notice section). Example B notice refers the public to the "public notice" section of the newspaper where Example A provides more information regarding the permit application.

- Example B must be a total of at least **6 column inches (standard advertising units)** with a vertical dimension of at least **3 inches** and a horizontal dimension of **2 column widths**. If the newspaper chosen does not use standard advertising units for measurement, the notice must be at least **12 square inches** with the shortest side of at least **3 inches**.
- Companies that meet the TCEQ's definition of a small business and will not have a significant impact on air quality are not required to publish Example B. Contact the TCEQ permit reviewer to determine if you qualify for this exemption.

Proof of Publication

- For each published notice, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proof of publication is 1) a copy of the published notice or 2) the original newspaper clipping of the published notice. If you choose to submit a copy of the published notice to the Office of the Chief Clerk, the copy must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain the original newspaper clipping or tear sheet of the notice for your records.
- You must submit a **publisher's affidavit** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **You must use the enclosed affidavit form**. The affidavit must clearly identify the applicant's name and permit number.
- You are encouraged to submit the affidavit with the proof of publication described above; however, the affidavit must be submitted no later than **30 calendar days** after publication of notice.

The **original publisher's affidavit** and **proof of publication of the published notices** may be filed with the Chief Clerk electronically at www.tceq.texas.gov/goto/efilings or mailed to:

TCEQ
Office of the Chief Clerk, MC-105
Attn: SOAH Docket Clerk
P.O. Box 13087
Austin, Texas 78711-3087

- Please ensure that the affidavit(s) you send to the Chief Clerk is/are originals and that all blanks on the affidavit are filled in correctly.

- You must furnish a copy of the notices and affidavits to the EPA regional administrator in Dallas, all local air pollution control agencies with jurisdiction in the county in which the construction is to occur; and the air pollution control agency of any nearby state in which air quality may be adversely affected by the emissions from the new or modified facility.

Failure to Publish and Submit Proof of Publication

You must meet all publication requirements. **If you fail to publish the notice or submit proof of publication on time, then** the TCEQ may suspend further processing on your application or take other actions.

General Information

When contacting the Commission regarding this application, please refer to the permit number and the TCEQ Docket number at the top of the Notice of Hearing.

If you have questions or need assistance regarding this notice, please contact the staff attorney listed in the cover letter or the SOAH Docket Clerk in the Office of the Chief Clerk at (512) 239-3300.

RE: Notice of Hearing Package
Applicant Name: Valero Refining-Texas, L.P.
Facility Location: Nueces County, Texas
Permit Numbers: 2937 and PSDTX1023M3
Types of Authorizations: Amendment and Renewal

Dear Mr. McDonald and Mr. Payne,

As you know, the Chief Clerk's Office has referred this matter over to the State Office of Administrative Hearings (SOAH) for a contested case hearing on your application.

SOAH will conduct a preliminary hearing via Zoom video conference at:

10:00 a.m. – April 20, 2023

You are now required to publish notice for this hearing. To help you meet the requirements associated with this notice, we have enclosed the following items:

- Notice for Newspaper Publication
- Instructions for Notice of Hearing
- Affidavit of Publication

Please note that it is VERY IMPORTANT that you follow ALL directions in the ENCLOSED INSTRUCTIONS. If you do not, you may be required to republish the notice. One of the most common mistakes we see is the unauthorized changing of notice wording or font. If you have any questions, please contact us before you proceed with publication.

The following items and time limitations are also described in the enclosed instructions. However, due to their importance, we want to highlight them for you.

1. Publish the enclosed notice within at least **30 calendar days** prior to the date of the hearing.
2. Return **acceptable proof of publication** of the complete notice, which shows publication date and newspaper name, to the TCEQ Office of the Chief Clerk within **10 business days** after notice is published in the newspaper.
3. Return the original enclosed *Affidavit of Publication* to the TCEQ Office of the Chief Clerk within **30 calendar days** after the notice is published in the newspaper.

If you do not comply with all requirements described in the instructions, further processing of your application may be suspended or the commission may take other actions.

If you have any questions regarding publication requirements, please contact the SOAH Docket Clerk in the TCEQ Office of the Chief Clerk at 512-239-3300. If you have any other questions, please contact Amanda Kraynok at 512-239-0633.

Sincerely,

Laurie Gharis
Chief Clerk

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

**NOTICE OF HEARING
Valero Refining-Texas, L.P.
SOAH Docket No. 582-23-10365
TCEQ Docket No. 2022-1632-AIR
Permit Nos. 2937 and PSDTX1023M3**

APPLICATION.

Valero Refining-Texas, L.P., P.O. Box 9370, Corpus Christi, Texas 78469, has applied to the Texas Commission on Environmental Quality (TCEQ) for issuance of Air Quality Permit 2937 and Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX1023M3, which would authorize modification to the Bill Greehey Refinery East Plant at 1300 Cantwell Lane, Corpus Christi, Nueces County, Texas 78407. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide and organic compounds. In addition, the facility will emit the following air contaminants: ammonia, exempt solvents, hazardous air pollutants, hydrogen sulfide, nitrogen oxides, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. The executive director has determined that the emissions of air contaminants from the proposed facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

This application was submitted to the TCEQ on October 31, 2014. The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ Central Office, the TCEQ Corpus Christi Regional Office, and at the Owens R. Hopkins Public Library, 3202 McKenzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

DIRECT REFERRAL.

The Notice of Application and Preliminary Decision was published, in English and Spanish, on March 15, 2022. On December 9, 2022, the Applicant filed a request for direct referral to the State Office of Administrative Hearings (SOAH). Therefore, the

chief clerk has referred this application directly to SOAH for a hearing on whether the application complies with all applicable statutory and regulatory requirements.

CONTESTED CASE HEARING.

Considering directives to protect public health, the State Office of Administrative Hearings (SOAH) will conduct a preliminary hearing via Zoom videoconference. A Zoom meeting is a secure, free meeting held over the internet that allows video, audio, or audio/video conferencing.

10:00 a.m. – April 20, 2023

To join the Zoom meeting via computer:

<https://soah-texas.zoomgov.com/>

Meeting ID: 161 133 6919

Password: TCEQ365

or

To join the Zoom meeting via telephone:

(669) 254-5252 or (646) 828-7666

Meeting ID: 161 133 6919

Password: 5705003

**Visit the SOAH website for registration at: <http://www.soah.texas.gov/>
or call SOAH at 512-475-4993.**

The purpose of a preliminary hearing is to establish jurisdiction, name the parties, establish a procedural schedule for the remainder of the proceeding, and to address other matters as determined by the judge. The evidentiary hearing phase of the proceeding, which will occur at a later date, will be similar to a civil trial in state district court.

The hearing will be conducted in accordance with the Chapter 2001, Texas Government Code; Chapter 382, Texas Health and Safety Code; TCEQ rules including 30 Texas Administrative Code (TAC) Chapter 116, Subchapters A, B and D; and the procedural rules of the TCEQ and SOAH, including 30 TAC Chapter 80 and 1 TAC Chapter 155. The hearing will be held unless all timely hearing requests have been withdrawn or denied.

To request to be a party, you must attend the hearing and show you would be adversely affected by the application in a way not common to members of the general public. Any person may attend the hearing and request to be a party. Only persons named as parties may participate at the hearing.

In accordance with 1 Tex. Admin. Code § 155.401(a), Notice of Hearing, “Parties that are not represented by an attorney may obtain information regarding contested case hearings on the public website of the State Office of Administrative Hearings at <https://www.soah.texas.gov/>, or in printed format upon request to SOAH.”

MAILING LIST.

You may ask to be placed on a mailing list to obtain additional information on this application by sending a request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION.

Public comments and requests must be submitted either electronically at www.tceq.texas.gov/agency/decisions/cc/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. If you communicate with the TCEQ electronically, please be aware that your email address, like your physical mailing address, will become part of the agency's public record. For more information about this permit application, the permitting process, or the contested case hearing process, please call the Public Education Program toll free at 800-687-4040. Si desea información en Español, puede llamar al 800-687-4040. General information regarding the TCEQ may be obtained electronically at www.tceq.texas.gov

INFORMATION.

If you need more information about the hearing process for this application, please call the Public Education Program, toll free, at 800-687-4040. General information regarding the TCEQ can be found at www.tceq.texas.gov.

Persons with disabilities who need special accommodations at the hearing should call the SOAH Docketing Department at 512-475-4993, at least one week prior to the hearing.

Further information may also be obtained from Valero Refining-Texas, L.P. at the address stated above or by calling Mr. Marin Maldonado, Staff Environmental Engineer at 361-289-3282.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

INSTRUCTIONS FOR PUBLIC NOTICE Air Permits

NOTICE OF HEARING

A hearing was requested on issues related to your application and the Commission granted this request. The matter has been referred to the State Office of Administrative Hearings. Now you must comply with the following instructions:

Please Review Notice

We have included in the notice all of the information which we believe is necessary. Please read it carefully and notify us immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text of the notice or affidavit of publication without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed Notice of Hearing no less than **30** days before the hearing.
- You must publish the enclosed Notice of Hearing (Example A) at your expense, in the public notice section of a newspaper that is of general circulation in the municipality in which the facility is located or proposed to be located or in the municipality nearest to the location or proposed location of the facility.
- Example B must be published in the **same issue** of the newspaper as Example A; however, it must be published in a prominent location (other than the public notice section). Example B notice refers the public to the "public notice" section of the newspaper where Example A provides more information regarding the permit application.

- Example B must be a total of at least **6 column inches (standard advertising units)** with a vertical dimension of at least **3 inches** and a horizontal dimension of **2 column widths**. If the newspaper chosen does not use standard advertising units for measurement, the notice must be at least **12 square inches** with the shortest side of at least **3 inches**.
- Companies that meet the TCEQ's definition of a small business and will not have a significant impact on air quality are not required to publish Example B. Contact the TCEQ permit reviewer to determine if you qualify for this exemption.

Proof of Publication

- For each published notice, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proof of publication is 1) a copy of the published notice or 2) the original newspaper clipping of the published notice. If you choose to submit a copy of the published notice to the Office of the Chief Clerk, the copy must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain the original newspaper clipping or tear sheet of the notice for your records.
- You must submit a **publisher's affidavit** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **You must use the enclosed affidavit form**. The affidavit must clearly identify the applicant's name and permit number.
- You are encouraged to submit the affidavit with the proof of publication described above; however, the affidavit must be submitted no later than **30 calendar days** after publication of notice.

The **original publisher's affidavit** and **proof of publication of the published notices** may be filed with the Chief Clerk electronically at www.tceq.texas.gov/goto/efilings or mailed to:

TCEQ
Office of the Chief Clerk, MC-105
Attn: SOAH Docket Clerk
P.O. Box 13087
Austin, Texas 78711-3087

- Please ensure that the affidavit(s) you send to the Chief Clerk is/are originals and that all blanks on the affidavit are filled in correctly.

- You must furnish a copy of the notices and affidavits to the EPA regional administrator in Dallas, all local air pollution control agencies with jurisdiction in the county in which the construction is to occur; and the air pollution control agency of any nearby state in which air quality may be adversely affected by the emissions from the new or modified facility.

Failure to Publish and Submit Proof of Publication

You must meet all publication requirements. **If you fail to publish the notice or submit proof of publication on time, then** the TCEQ may suspend further processing on your application or take other actions.

General Information

When contacting the Commission regarding this application, please refer to the permit number and the TCEQ Docket number at the top of the Notice of Hearing.

If you have questions or need assistance regarding this notice, please contact the staff attorney listed in the cover letter or the SOAH Docket Clerk in the Office of the Chief Clerk at (512) 239-3300.

New Selena Quintanilla album to be released 26 years after her death

shlee Burns
 orpus Christi Caller Times
 SA TODAY NETWORK - TEXAS

Nearly three decades after her death, Selena Quintanilla fans are getting an unexpected new

album. In an interview with Latin Groove News, Selena's father Abraham Quintanilla said a new album will be released with 13 songs, including three previously released

songs with different music arrangements. Abraham Quintanilla said A.B. Quintanilla worked on the album using 10 songs from the company's catalogs and rerecorded them. Some of the

Selena

songs are ballads and cumbia, Quintanilla said. Selena's voice was

done using computers. Quintanilla said Selena's voice in the new songs will sound just as it did before she died. Quintanilla said the album could be available as soon as April 2022, but an

official release date has not been set. *Ashlee Burns covers trending and breaking news in South Texas. See our subscription options and special offers at Caller.com/subscribe*

Attacks

continued from Page 1A

eat and medicine. The latest negotiations, which were held in a video conference, were the fourth round involving higher-level officials from the two countries and the first in a week. The talks ended without a breakthrough after several hours, with a aide to Ukrainian resident Volodymyr Zelenskyy saying the negotiators took "a technical pause" and planned to meet again Tuesday.

The two sides had expressed some optimism in the past few days. Mykhailo Podolyak, the aide to Zelenskyy, tweeted that the negotiators would discuss "peace, ceasefire, immediate withdrawal of troops & security guarantees."

Previous discussions, held in person in Belarus, produced no lasting humanitarian routes or agreements to end the fighting.

In Washington, White House press secretary Jen Psaki said at a briefing Monday that while the Biden administration supports Ukraine's participation in the talks with Russia, Russian resident Vladimir Putin would have to show signs of de-escalating in order to demonstrate good faith.

"And what we're really looking for is evidence of that, and we're not seeing any evidence at this point that President Putin is doing anything to stop the onslaught or de-escalate," she said.

Overall, nearly all of the Russian offensives remained stalled on Monday after making little progress over the weekend, according to a senior U.S. defense official who spoke on condition of anonymity to discuss the Pentagon's assessment. Russian troops were still about 9 miles from the center of Kyiv, the official said.

The official said that Russian President Vladimir Putin's forces have launched more than 900 missiles but that Ukraine's airspace is still untested, with Russia not achieving total air superiority.

Overnight, air raid alerts sounded in cities and towns around the country, from near the Russian border in the east to the Carpathian Mountains in the west, and fighting continued on the outskirts of Kyiv. Ukrainian officials said Rus-

Firefighters evacuate an elderly woman from an apartment building hit by shelling in Kyiv, Ukraine, on Monday. UKRAINIAN STATE EMERGENCY SERVICE VIA AP

Kateryna Lot said she was in her apartment as her child did homework when they heard a loud explosion and ran to take shelter.

"The child became hysterical. Our windows and the balcony were shattered. Part of the floor fell down," she said. "It was very, very scary."

In an area outside Kyiv, Fox News reporter Benjamin Hall was injured while reporting and was hospitalized, the network said.

A town councilor for Brovary, east of Kyiv, was killed in fighting there, officials said. Shells also fell on the Kyiv suburbs of Irpin and Hostomel, where they have seen some of the worst fighting in Russia's stalled attempt to take the capital, local officials said.

Shells were reported across the country, including the southern city of Mykolaiv, and the northern city of Chernihiv, where heat was knocked out to most of the town. Explosions also rang out overnight around the Russian-occupied Black Sea port of Kherson.

Nine people were killed in a rocket attack on a TV tower in the western village of Antopol, according to the region's governor.

In the eastern city of Kharkiv, firefighters doused the smoldering

remains of a four-story residential building. It was unclear whether there were casualties.

In the southern city of Mariupol, where the war has produced some of the greatest suffering, the city council didn't say how many people were in the convoy of cars headed westward for the city of Zaporizhzhia. But it said a cease-fire along the route appeared to be holding.

Previous attempts to evacuate civilians and deliver humanitarian aid to the city of 430,000 were thwarted by continuing fighting.

Robert Mardini, director-general of the International Committee of the Red Cross, said the war has become "nothing short of a nightmare" for those living in besieged cities, and he pleaded for safe corridors for civilians to leave and humanitarian aid to be brought in.

"The situation cannot, cannot continue like this," he said. "History is watching what is happening in Mariupol and other cities."

A pregnant woman who became a symbol of Ukraine's suffering when she was photographed being carried from a bombed maternity hospital in Mariupol has died along with her baby, the Associated Press learned. Mariupol residents including Natalia Koldash

said 20 civilians in the separatist-controlled city of Donetsk in eastern Ukraine were killed by a ballistic missile launched by Ukrainian forces. The claim couldn't be independently verified.

The U.N. has recorded at least 596 civilian deaths since Russia invaded Ukraine on Feb. 24, though it believes the true toll is much higher. Millions more people have fled their homes, with more than 2.3 million crossing into Poland and other neighboring countries in what the U.N. refugee agency has called Europe's biggest refugee crisis since World War II.

"All day crying from the pain of having to part with loved ones, with my husband, my parents," 33-year-old refugee Alexandra Beltuygova said in the Polish border town of Przemysl after fleeing the industrial Ukrainian city of Dnipro.

"I understand that we may not see them. I wish this war would end," she said.

Russia's military is bigger and better equipped than Ukraine's, but its troops have faced stiffer-than-expected resistance, bolstered by arms supplied by the West.

During a meeting in Rome with a senior Chinese diplomat, U.S. national security adviser

Jake Sullivan warned China against helping Russia.

Two administration officials, speaking on condition of anonymity to discuss sensitive information, said China had signaled to Moscow that it would be willing to provide both military support in Ukraine and financial backing to help stave off the effects of Western sanctions.

The Kremlin has denied asking China for military equipment to use in Ukraine.

Kremlin spokesman Dmitry Peskov said that "Russia has its own potential to continue the operation" and that it was "unfolding in accordance with the plan and will be completed on time and in full."

The war expanded Sunday when Russian missiles pounded a military training base in western Ukraine, close to the Polish border, that previously served as a crucial hub for cooperation between Ukraine and NATO.

The attack killed 35 people, Ukrainian officials said, and raised fears that NATO could be drawn into direct conflict with Russia.

The senior U.S. defense official said the base was not being used at the time as a shipment site for U.S. military supplies to Ukraine.

TO ALL INTERESTED PERSONS AND PARTIES:
 Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for issuance of Air Quality Permit Number 2937 and Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX1023M3, which would

after several hours, with an aide to Ukrainian President Volodymyr Zelenskyy saying the negotiators took "a technical pause" and planned to meet again Tuesday.

The two sides had expressed some optimism in the past few days. Mykhailo Podolyak, the aide to Zelenskyy, tweeted that the negotiators would discuss "peace, ceasefire, immediate withdrawal of troops & security guarantees."

Previous discussions, held in person in Belarus, produced no lasting humanitarian routes or agreements to end the fighting.

In Washington, White House press secretary Jen Psaki said at a briefing Monday that while the Biden administration supports Ukraine's participation in the talks with Russia, Russian President Vladimir Putin would have to show signs of de-escalating in order to demonstrate good faith.

"And what we're really looking for is evidence of that, and we're not seeing any evidence at this point that President Putin is doing anything to stop the onslaught or de-escalate," she said.

Overall, nearly all of the Russian offensives remained stalled on Monday after making little progress over the weekend, according to a senior U.S. defense official who spoke on condition of anonymity to discuss the Pentagon's assessment. Russian troops were still about 9 miles from the center of Kyiv, the official said.

The official said that Russian President Vladimir Putin's forces have launched more than 900 missiles but that Ukraine's airspace is still contested, with Russia not achieving total air superiority.

Overnight, air raid alerts sounded in cities and towns around the country, from near the Russian border in the east to the Carpathian Mountains in the west, and fighting continued on the outskirts of Kyiv. Ukrainian officials said Russian forces shelled several suburbs of the capital.

Ukrainian authorities said two people were killed when the Russians struck an airplane factory in Kyiv, sparking a large fire. The Antonov factory is Ukraine's largest aircraft plant and produces many of the world's biggest cargo planes.

Russian artillery fire also hit a nine-story apartment building in the northern Obolonskyi district of the city, killing two more people, authorities said.

And a Russian airstrike near a Ukrainian checkpoint caused extensive damage to a downtown Kyiv neighborhood, killing one person, Ukraine's emergency agency said.

A pregnant woman who became a symbol of Ukraine's suffering when she was photographed being carried from a bombed maternity hospital in Mariupol has died along with her baby, the Associated Press learned.

Mariupol residents including Natalia Koldash

rushed to shelter inside a building Sunday as an unidentified plane passed overhead.

"We have no information at all," Koldash said. "We know nothing. It looks like we are living in a deep forest."

Associated Press video showed debris from a damaged residential building and another building that a young man named Dima described as an elementary school.

"There was no military at this school," he said. "It's unclear why it was hit."

The Russian military

higher millions more people have fled their homes, with more than 2.8 million crossing into Poland and other neighboring countries in what the U.N. refugee agency has called Europe's biggest refugee crisis since World War II.

Additional information concerning this application is contained in the public notice section of this newspaper.

Public Notices

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR AN AIR QUALITY PERMIT

AIR QUALITY PERMIT NUMBERS: 135622 AND PSDTX1023M3

APPLICATION AND PRELIMINARY DECISION. Valero Energy Partners LP, PO Box 9370, Corpus Christi, TX 78469-9370, has applied to the Texas Commission on Environmental Quality (TCEQ) for issuance of Air Quality Permit 135622 and Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX1023M3, which would authorize modification to the Valero Corpus Christi Refinery East Plant at 1300 Cantwell Lane, Corpus Christi, Nueces County, Texas 78407. This application was submitted to the TCEQ on January 20, 2021. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide and organic compounds. In addition, the facility will emit the following air contaminants: ammonia, hazardous air pollutants, hydrogen sulfide, nitrogen oxides, particulate matter including particulate matter with diameter of 10 microns or less and 2.5 microns or less and sulfur dioxide.

The executive director has determined that the emissions of air contaminants from the proposed facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit application, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owens R. Hopkins Public Library, 3202 McKenzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 N. Shoreline Blvd., Suite 500, Corpus Christi, Texas.

INFORMATION AVAILABLE ONLINE. These documents are accessible through the Commission's Web site at www.tceq.texas.gov/gotocid; the executive director's preliminary decision which includes the draft permit, the executive director's preliminary determination summary, the air quality analysis, and the executive director's response to comments and the final decision on this application. Access the Commission's Integrated Database (CID) using the above link and enter the permit number for this application. The public location mentioned above, the Owens R. Hopkins Public Library, provides public access to the internet. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hsb10/index.html?la=27.80722&lng=-97.44611&zoom=13&type=r>.

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comment or to ask questions about the application. The TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing. You may submit additional written public comments within 30 days of the date of newspaper publication of this notice in the manner set forth in the AGENCY CONTACTS AND INFORMATION paragraph below.

After the deadline for public comment, the executive director will consider the comments and prepare a response to all public comment. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application.

OPPORTUNITY FOR A CONTESTED CASE HEARING. A contested case hearing is a legal proceeding similar to a civil trial in a state district court. A person who may be affected by emissions of air contaminants from the facility is entitled to request a hearing. A contested case hearing request must include the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number; (2) applicant's name and permit number; (3) the statement "I/we request a contested case hearing;" (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a group or association, one or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk, at the address provided in the information section below.

A contested case hearing will only be granted based on disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application. The request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. Issues that are not submitted in public comments may not be considered during a hearing.

EXECUTIVE DIRECTOR ACTION. If a timely contested case hearing request is not received or if all timely contested case hearing requests are withdrawn, the executive director may issue final approval of the application. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application, and will be posted electronically to the CID. If any timely hearing requests are received and not withdrawn, the executive director will not issue final approval of the permit and will forward the application and requests to the Commissioners for their consideration at a scheduled commission meeting.

MAILING LIST. You may ask to be placed on a mailing list to obtain additional information on this application by sending a request to the Office of the Chief Clerk at the address below.

Clean Up and Home Maintenance

repeated air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owens R. Hopkins Public Library, 3202 McKenzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 N. Shoreline Blvd., Suite 500, Corpus Christi, Texas.

INFORMATION AVAILABLE ONLINE. These documents are accessible through the Commission's Web site at www.tceq.texas.gov/gotocid; the executive director's preliminary decision which includes the draft permit; the executive director's preliminary determination summary and executive director's air quality analysis; the executive director's response to comments and the final decision on this application. Access the Commission's Integrated Database (CID) using the above link and enter the permit number for this application. The public location mentioned above, the Owens R. Hopkins Public Library, provides public access to the internet. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/01/b010/index.html?ia1=27.807222&lng=-97.446111&zoom=13&type=r>.

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comment or to ask questions about the application. The TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing. You may submit additional written public comments within 30 days of the date of newspaper publication of this notice in the manner set forth in the AGENCY CONTACTS AND INFORMATION paragraph below.

After the deadline for public comment, the executive director will consider the comments and prepare a response to all public comment. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application.

OPPORTUNITY FOR A CONTESTED CASE HEARING. A contested case hearing is a legal proceeding similar to a civil trial in a state district court. A person who may be adversely affected by emissions from the facility is entitled to request a hearing. A contested case hearing request must include the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number, (2) applicant's name and permit number, (3) the statement "I/we request a contested case hearing;" (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a number of persons or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk, at the address provided in the information section below.

A contested case hearing will only be granted based on disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. Issues that are not submitted in public comments may not be considered during a hearing.

EXECUTIVE DIRECTOR ACTION. If a timely contested case hearing request is not received or if all timely contested case hearing requests are withdrawn, the executive director may issue final approval of the application. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application, and will be posted electronically to the CID. If any timely hearing requests are received and not withdrawn, the executive director will not issue final approval of the permit and will forward the application and requests to the Commissioners for their consideration at a scheduled commission meeting.

MAILING LIST. You may ask to be placed on a mailing list to obtain additional information on this application by sending a request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION. Public comments and requests must be submitted either electronically at www14.tceq.texas.gov/epic/Comment/, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address or physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1 800 687 4040. Si desea información en Español, puede llamar al 1 800-687-4040.

Further information may also be obtained from Valero Energy Partners LP at the address stated above or by calling Mr. Marín Maldonado, Staff Environmental Engineer at (361) 289-3282.

2022 Beach to Bay Relay Marathon

Every year since 1976, runners and fun-seekers alike grab their running shoes and converge in Corpus Christi, Texas to take on this beloved six-leg marathon. Our event has become an annual tradition for many of these runners, reuniting them with friends they've made from marathons past.

Beach to Bay has grown into one of the largest relay marathons in the United States. Attracting runners from all over the U.S. as well as Kenya, England and Mexico, Beach to Bay boasts an annual registration rate of over 2,000 teams.

This is a six-leg running event, both in relay and full marathon format for those who prefer to take on a challenge solo, that totals approximately 26.2 miles of the Gulf Coast beach, pavement (including the JFK Causeway!), a little sweat, an occasional tear, and a bunch of smiles. Beginning on the sands of North Padre Island, winding through Naval Air Station Corpus Christi, and ending at McCaughan Park along Corpus Christi's scenic Shoreline Drive, the legs are roughly 4-4 miles each. All ways held on the third Saturday in May, or Armed Forces Day, Beach to Bay honors the men and women serving in our United States Military with sincere pride — a tradition founded by Captain John Butterfield back in the inaugural year of 1976. REGISTER HERE: <https://runsi.gnup.com/.../CorpusC.../BeachtoBayRelayMarathon>

A TODAS LAS PERSONAS Y ENTIDADES INTERESADAS:

Valero Energy Partners LP., se ha registrado con la Comisión de Calidad Ambiental de Texas (TCEQ o Texas Commission on Environmental Quality) para la emisión del Permiso de Calidad de Aire Número 135622 y Prevención del deterioro significativo PSDTX1023M3 para autorizar la modificación de Valero Corpus Christi Refinery East Plant en 1300 Cantwell Lane Up, Corpus Christi, condado de Nueces, Texas 78407. Información adicional concerniente a esta solicitud puede encontrarse en la sección de anuncios públicos de este periódico.

A TODAS LAS PERSONAS Y ENTIDADES INTERESADAS:

Valero Refining-Texas, L.P., se ha registrado con la Comisión de Calidad Ambiental de Texas (TCEQ o Texas Commission on Environmental Quality) para la emisión del Permiso de Calidad de Aire Número 2937 y Prevención del deterioro significativo PSDTX1023M3 para autorizar la modificación de Valero Corpus Christi Refinery East Plant en 1300 Cantwell Lane Up, Corpus Christi, condado de Nueces, Texas 78407. Información adicional concerniente a esta solicitud puede encontrarse en la sección de anuncios públicos de este periódico.

COMISIÓN DE CALIDAD AMBIENTAL DE TEXAS

AVISO DE SOLICITUD Y DECISIÓN PRELIMINAR PARA UN PERMISO DE CALIDAD DE AIRE

PERMISO DE CALIDAD DE AIRE NÚM. 2937 Y PSDTX1023M3

SOLICITUD Y DECISIÓN PRELIMINAR. Valero Refining-Texas, L.P., PO Box 9370, Corpus Christi, TX 78469-9370 ha solicitado de la Comisión de Calidad Ambiental de Texas (TCEQ por sus siglas en inglés) para la emisión de Permiso de Calidad de Aire Número 2937 y Prevención del deterioro significativo PSDTX1023M3, para autorizar la modificación de Bill Grechey Refinery Valero East Plant en 1300 Cantwell Lane, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud fue presentada a la TCEQ on el 31 de octubre de 2014. La instalación existente va a emitir los siguientes contaminantes atmosféricos en una cantidad significativa: monóxido de carbono y compuestos orgánicos. Además, la instalación emitirá los siguientes contaminantes del aire: amoníaco, disolventes exentos, contaminantes atmosféricos peligrosos, sulfuro de hidrógeno, óxidos de nitrógeno, partículas, incluidas las partículas con diámetros iguales o inferiores a 10 micras y 2.5 micras o menos y dióxido de azufre.

El director ejecutivo ha determinado que las emisiones de contaminantes atmosféricos de la instalación propuesta que están sujetas a la revisión de la PSD no violarán ninguna regulación estatal o federal de calidad del aire y no tendrán ningún impacto adverso significativo en los suelos, la vegetación o la visibilidad. Todos los contaminantes del aire han sido evaluados, y se utilizará la "mejor tecnología de control disponible" para el control de estos contaminantes.

El director ejecutivo de la TCEQ ha concluido la revisión técnica de la solicitud y ha preparado un permiso preliminar, el cual si es aprobado, establecerá las condiciones debajo de las cuales el sitio deberá operar. La solicitud del permiso, la decisión preliminar del director ejecutivo, el permiso preliminar, y el resumen de la determinación preliminar del director ejecutivo y el análisis de la calidad del aire del director ejecutivo estarán disponibles para ser revisados y copiados en la Oficina central de la TCEQ, la oficina regional de la TCEQ en Corpus Christi y en la Owens R. Hopkins Public Library - Corpus Christi Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas a partir del primer día de la publicación de este aviso. Los archivos del cumplimiento de la ley de la facilidad, si existen, están disponibles para la revisión del público en la Oficina Regional de Corpus Christi de la TCEQ, 500 N. Shoreline Blvd., Suite 500, Corpus Christi, Texas.

DISPONIBILIDAD ELECTRÓNICA DE INFORMACIÓN. Estos documentos son accesibles a través del sitio web de la Comisión en www.tceq.texas.gov/goto/cid; la decisión preliminar del director ejecutivo que incluye el proyecto de permiso, el resumen de la determinación preliminar del director ejecutivo, el análisis de la calidad del aire y, una vez disponible, la respuesta del director ejecutivo a los comentarios y la decisión final sobre esta solicitud. Acceda a la Base de Datos Integrada de Comisionados (CID) utilizando el enlace anterior e ingrese el número de permiso para esta solicitud. La ubicación pública mencionada anteriormente, Owens R. Hopkins Public Library proporciona acceso público a Internet. Este enlace a un mapa electrónico de la ubicación general del sitio o instalación se proporciona como una cortesía pública y no como parte de la solicitud o notificación. Para la ubicación exacta, consulte la solicitud. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=-27.807222&lng=-97.446111&zoom=13&type=r>.

COMENTARIOS PÚBLICOS/REUNIÓN PÚBLICA. Usted puede presentar comentarios públicos o solicitar una reunión pública sobre esta solicitud. El propósito de la reunión pública es el proveer la oportunidad de someter comentarios o hacer preguntas sobre esta solicitud. La TCEQ tendrá una reunión pública si el director ejecutivo determina que hay suficiente interés de parte del público en esta solicitud, si lo solicita una persona interesada, o si es solicitada por un legislador local. Una reunión pública no es una audiencia en controversia. **Puede enviar comentarios públicos adicionales por escrito dentro de los 30 días posteriores a la fecha de publicación en el periódico de este aviso de la manera establecida en el párrafo CONTACTOS E INFORMACIÓN DE LA AGENCIA a continuación.**

Después del plazo final para someter comentarios públicos posteriores el director ejecutivo considerará los comentarios y preparará una respuesta a todos los comentarios públicos. **La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, será entonces enviada por correo a todos aquellos que hallan sometido comentarios públicos o que están en la lista de correo de esta solicitud.**

OPORTUNIDAD PARA UNA AUDIENCIA EN CONTROVERSIAS. Una audiencia en controversia es un proceso legal semejante a un juicio civil en una corte de distrito estatal. Una persona que pueda ser afectada por las emisiones de contaminantes atmosféricos de la instalación tiene el derecho de petitionar una audiencia en controversia. Para solicitar una audiencia en controversia, usted deberá proporcionar lo siguiente: (1) su nombre (o, para un grupo o asociación, un representante oficial), dirección postal, número de teléfono durante el día, y número de fax, si hay; (2) el nombre del solicitante y el número de permiso; (3) la oración en inglés "I/we request a contested case hearing;" (4) una descripción específica de cómo le perjudicaría la solicitud y las emisiones atmosféricas de una manera que es común con los miembros del público en general; (5) la localización y distancia de su propiedad en relación a la instalación; y (6) una descripción de cómo usted usa la propiedad que pudiera ser afectada por la instalación. Si la petición es hecha por un grupo o asociación, el o la miembro o miembros que tienen derecho a pedir una audiencia en controversia y los intereses que el grupo o asociación quieren proteger deberán también ser identificados. También puede presentar los ajustes propuestos a la solicitud / permiso que satisfagan sus inquietudes. Peticiones para una audiencia en controversia deberán someterse por escrito dentro de 30 días después de la publicación de este aviso a la Oficina del Chief Clerk, en la dirección que se encuentra en la sección de información a continuación.

CONTINUACION EN LA PAGINA #11

CONTINUACION DE LA PAGINA #10

Una audiencia en controversia solo se concederá sobre la base de cuestiones de hecho controvertidas que sean pertinentes y pertinentes para las decisiones de la Comisión sobre la solicitud. Además, la Comisión solo concederá una audiencia sobre cuestiones presentadas por usted u otras personas durante el periodo de comentarios públicos que no hayan sido retiradas. Los asuntos que no se presentan en comentarios públicos no pueden ser considerados durante una audiencia.

ACCIÓN DEL DIRECTOR EJECUTIVO. Si no se recibe una audiencia en controversia oportunamente o si se retiran todas las solicitudes de audiencia de caso impugnado oportunamente, el director ejecutivo puede emitir la aprobación final de la solicitud. La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, se enviará por correo a todos los que enviaron comentarios públicos o están en una lista de correo para esta solicitud, y se publicará electrónicamente en el CID. Si se reciben solicitudes de audiencia oportunas y no se retiran, el director ejecutivo no emitirá la aprobación final del permiso y enviará la solicitud y las solicitudes a los Comisionados para su consideración en una reunión programada de la comisión.

LISTA PARA ENVÍO DE CORREO. Puede solicitar que lo incluyan en una lista de correo para obtener información adicional sobre esta solicitud enviando una solicitud a la Oficina del Secretario Principal a la dirección que figura a continuación.

CONTACTOS DE LA AGENCIA Y INFORMACIÓN. Los comentarios públicos se debe presentar a la Oficina del Secretario Oficial, MC -105, TCEQ, P.O. Box 13087, Austin, Texas 78711-3087, o por el Internet al www14.tceq.texas.gov/epic/eComment/, cualquier información de contacto que proporcione, incluyendo su nombre, número de teléfono, dirección de correo electrónico y dirección física, se agregará al registro público de la agencia. Para mayor información sobre esta solicitud para permiso o el proceso para permisos, por favor llame a la TCEQ sin cobro al Programa de Educación Pública de la TCEQ, al 1-800-687-4040.

Más información puede ser obtenida de Valero Refining-Texas, L.P. en la dirección en el primer párrafo o llamando a Señor Marin Maldonado, ingeniero ambiental al 361-289-3282.

Fecha de emisión del aviso: 4 de marzo de 2022

La Hora del Planeta 2022

15ª edición de la Hora del Planeta (2022 Earth Hour), una forma de demostrar globalmente la preocupación por el cambio climático y fomentar un compromiso para encontrar soluciones. ... y otros 12.000 monumentos icónicos. **Significado:** La Hora del Planeta es un llamamiento para que cada persona, negocio, empresa privada, gobierno o comunidad actúe. Es una alerta para asumir responsabilidades e involucramos en el trabajo por un futuro sustentable. Representa una acción simbólica para concienciar a la sociedad sobre las emisiones contaminantes y la necesidad de adoptar medidas contra el cambio climático. Cada uno de nosotros tenemos una gran responsabilidad de lo que sucede actualmente en nuestro planeta. Es

necesario pensar en las nuevas generaciones, tenemos que dejarles un mundo mejor. La Hora del Planeta no solo tiene un mensaje de concienciación, tiene un mensaje de esperanza: todos nosotros podemos hacer algo con pequeños gestos diarios. Hay que ser inteligente y apoyar al planeta todos los días.

«Es la hora de actuar, tenemos que apagar la luz para iluminar la causa»

Acerca de la Hora del Planeta: Esta excelente idea fue realizada por primera vez en 2007 en Sidney, Australia.

Rápidamente se extendió a todo el mundo. Actualmente participan 187 países y se apagan las luces de

miles monumentos icónicos y edificios en las grandes ciudades.

Es una hora para ser conscientes de que el planeta Tierra es nuestro hogar y que solo hay uno. Además las familias pasan un momento muy especial, un momento de reunión en penumbra que es aprovechado para contar anécdotas y vivir como antaño.

COMISIÓN DE CALIDAD AMBIENTAL DE TEXAS

AVISO DE SOLICITUD Y DECISIÓN PRELIMINAR PARA UN PERMISO DE CALIDAD DE AIRE

PERMISO DE CALIDAD DE AIRE NÚM. 135622 y PSDTX1023M3

SOLICITUD Y DECISIÓN PRELIMINAR. Valero Energy Partners LP., PO Box 9370, Corpus Christi, TX 78469-9370 ha solicitado de la Comisión de Calidad Ambiental de Texas (TCEQ por sus siglas en inglés) para la emisión de Permiso de Calidad de Aire Número 135622 y Prevención del deterioro significativo PSDTX1023M3, para autorizar la modificación de Bill Greehey Refinery Valero East Plant en 1300 Cantwell Lane, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud fue presentada a la TCEQ on el 20 de enero de 2016. La instalación existente va a emitir los siguientes contaminantes atmosféricos en una cantidad significativa: monóxido de carbono y compuestos orgánicos. Además, la instalación emitirá los siguientes contaminantes del aire: amoníaco, disolventes exentos, contaminantes atmosféricos peligrosos, sulfuro de hidrógeno, óxidos de nitrógeno, partículas, incluidas las partículas con diámetros iguales o inferiores a 10 micras y 2.5 micras o menos y dióxido de azufre.

El director ejecutivo ha determinado que las emisiones de contaminantes atmosféricos de la instalación propuesta que están sujetas a la revisión de la PSD no violarán ninguna regulación estatal o federal de calidad del aire y no tendrán ningún impacto adverso significativo en los suelos, la vegetación o la visibilidad. Todos los contaminantes del aire han sido evaluados, y se utilizará la "mejor tecnología de control disponible" para el control de estos contaminantes.

El director ejecutivo de la TCEQ ha concluido la revisión técnica de la solicitud y ha preparado un permiso preliminar, el cual si es aprobado, establecerá las condiciones debajo de las cuales el sitio deberá operar. La solicitud del permiso, la decisión preliminar del director ejecutivo, el permiso preliminar, y el resumen de la determinación preliminar del director ejecutivo y el análisis de la calidad del aire del director ejecutivo estarán disponibles para ser revisados y copiados en la Oficina central de la TCEQ, la oficina regional de la TCEQ en Corpus Christi y en la Owens R. Hopkins Public Library - Corpus Christi Public Library, 3202 McKinzie Road, Corpus Christi, Texas a partir del primer día de la publicación de este aviso. Los archivos del cumplimiento de la leyes de la facilidad, si existen, están disponibles para la revisión del público en la Oficina Regional de Corpus Christi de la TCEQ, 500 N. Shoreline Blvd., Suite 500, Corpus Christi, Texas.

DISPONIBILIDAD ELECTRÓNICA DE INFORMACIÓN. Estos documentos son accesibles a través del sitio web de la Comisión en www.tceq.texas.gov/goto/cid; la decisión preliminar del director ejecutivo que incluye el proyecto de permiso, el resumen de la determinación preliminar del director ejecutivo, el análisis de la calidad del aire y, una vez disponible, la respuesta del director ejecutivo a los comentarios y la decisión final sobre esta solicitud. Acceda a la Base de Datos Integrada de Comisionados (CID) utilizando el enlace anterior e ingrese el número de permiso para esta solicitud. La ubicación pública mencionada anteriormente, Owens R. Hopkins Public Library proporciona acceso público a Internet. Este enlace a un mapa electrónico de la ubicación general del sitio o instalación se proporciona como una cortésia pública y no como parte de la solicitud o notificación. Para la ubicación exacta, consulte la solicitud.

<http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.807222&lng=-97.446111&zoom=13&type=i>.

COMENTARIOS PÚBLICOS/REUNIÓN PÚBLICA. Usted puede presentar comentarios públicos o solicitar una reunión pública sobre esta solicitud. El propósito de la reunión pública es el proveer la oportunidad de someter comentarios o hacer preguntas sobre esta solicitud. La TCEQ tendrá una reunión pública si el director ejecutivo determina que hay suficiente interés de parte del público en esta solicitud, si lo solicita una persona interesada, o si es solicitada por un legislador local. Una reunión pública no es una audiencia en controversia. **Puede enviar comentarios públicos adicionales por escrito dentro de los 30 días posteriores a la fecha de publicación en el periódico de este aviso de la manera establecida en el párrafo CONTACTOS E INFORMACIÓN DE LA AGENCIA a continuación.**

Después del plazo final para someter comentarios públicos posteriores el director ejecutivo considerará los comentarios y preparará una respuesta a todos los comentarios públicos. **La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, será entonces enviada por correo a todos aquellos que hallan sometido comentarios públicos o que están en la lista de correo de esta solicitud.**

OPORTUNIDAD PARA UNA AUDIENCIA EN CONTROVERSIA Una audiencia en controversia es un proceso legal semejante a un juicio civil en una corte de distrito estatal. **Una persona que pueda ser afectada por las emisiones de contaminantes atmosféricos de la instalación tiene el derecho de peticionar una audiencia en controversia. Para solicitar una audiencia en controversia, usted deberá proporcionar lo siguiente: (1) su nombre (o, para un grupo o asociación, un representante oficial), dirección postal, número de teléfono durante el día, y número de fax, si hay; (2) el nombre del solicitante y el número de permiso; (3) la oración en inglés "I/we request a contested case hearing;" (4) una descripción específica de cómo le perjudicaría la solicitud y las emisiones atmosféricas de una manera que no es común con los miembros del público en general; (5) la localización y distancia de su propiedad en relación a la instalación; y (6) una descripción de cómo usted usa la propiedad que pudiera ser afectada por la instalación. Si la petición es hecha por un grupo o asociación, el o la miembro o miembros que tienen derecho a pedir una audiencia en controversia y los intereses que el grupo o asociación quieren proteger deberán también ser identificados. También puede presentar los ajustes propuestos a la solicitud / permiso que satisfagan sus inquietudes. Peticiones para una audiencia en controversia deberán someterse por escrito dentro de 30 días después de la publicación de este aviso a la Oficina del Chief Clerk, en la dirección que se encuentra en la sección de información a continuación.**

**TEXAS COMMISSION ON
ENVIRONMENTAL QUALITY**

**NOTICE OF APPLICATION AND
PRELIMINARY DECISION**

FOR AN AIR QUALITY PERMIT

**AIR QUALITY PERMIT NUMBERS: 2937 AND
PSDTX1023M3**

APPLICATION AND PRELIMINARY DECISION.

Valero Refining-Texas, L.P., PO Box 9370, Corpus Christi, TX 78469-9370, has applied to the Texas Commission on Environmental Quality (TCEQ) for issuance of Air Quality Permit 2937 and Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX1023M3, which would authorize modification to the Bill Greehey Refinery East Plant at 1300 Cantwell Lane, Corpus Christi, Nueces County, Texas 78407. This application was submitted to the TCEQ on October 31, 2014. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide and organic compounds. In addition, the facility will emit the following air contaminants: ammonia, exempt solvents, hazardous air pollutants, hydrogen sulfide, nitrogen oxides, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide.

The executive director has determined that the emissions of air contaminants from the proposed facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owens R. Hopkins Public Library, 3202 McKenzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 N. Shoreline Blvd., Suite 500, Corpus Christi, Texas.

INFORMATION AVAILABLE ONLINE. These documents are accessible through the Commission's Web site at www.tceq.texas.gov/goto/cid: the executive director's preliminary decision which includes the draft permit, the executive director's preliminary determination summary, the air quality analysis, and, once available, the executive director's response to comments and the final decision on this application. Access the Commissioners' Integrated Database (CID) using the above link and enter the permit number for this application. The public location mentioned above, Owens R. Hopkins Public Library provides public access to the internet. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://>

www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.807222&lng=-97.446111&zoom=13&type=r

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comment or to ask questions about the application. The TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing. **You may submit additional written public comments within 30 days of the date of newspaper publication of this notice in the manner set forth in the AGENCY CONTACTS AND INFORMATION paragraph below.**

After the deadline for public comment, the executive director will consider the comments and prepare a response to all public comment. **The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application.**

OPPORTUNITY FOR A CONTESTED CASE HEARING.

A contested case hearing is a legal proceeding similar to a civil trial in a state district court. **A person who may be affected by emissions of air contaminants from the facility is entitled to request a hearing. A contested case hearing request must include the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number; (2) applicant's name and permit number; (3) the statement "I/we request a contested case hearing;" (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; and (6) a description of how you use the property which may be impacted by the facility. If the request is made by a group or association, one or more members who have standing to request a hearing and the interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk, at the address provided in the information section below.**

A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decisions on the application. Further, the Commission will only grant a hearing on issues submitted by you or others during the public comment period that have not been withdrawn. Issues that are not submitted in public comments may not be considered during a hearing.

EXECUTIVE DIRECTOR ACTION. If a timely contested case hearing request is not received or if all timely contested case hearing requests are withdrawn, the executive director may issue final approval of the application. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application, and will be posted electronically to the CID. If any timely hearing requests are received and not withdrawn, the executive director will not issue final approval of the permit and will forward the application and requests to the Commissioners for their consideration at a scheduled commission meeting.

MAILING LIST. You may ask to be placed on a mailing list to obtain additional information on this application by

sending a request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION. Public comments and requests must be submitted either electronically at www14.tceq.texas.gov/epic/eComment/, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1 800 687 4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas, L.P. at the address stated above or by calling Mr. Marin Maldonado, Staff Environmental Engineer at (361) 289-3282.

Notice Issuance Date: March 4, 2022

TO ALL INTERESTED PERSONS AND PARTIES:

Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for issuance of Air Quality Permit Number 2937 and Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX1023M3, which would authorize modification to Bill Greehey Refinery East Plant at 1300 Cantwell Lane, Corpus Christi, Nueces County, Texas 78407. Additional information concerning this application is contained in the public notice section of this newspaper.

To Whom It May Concern,

Please find the attached original newspaper clippings from the “Corpus Christi Caller Times” newspaper in which public notice appeared on March 15, 2022 regarding the subject matter permit. Two original newspaper clippings are included, one which appeared in a “Prominent Location” in the newspaper, and one which appeared in the “Public Notice” section of the newspaper. Also attached, please find the signed and notarized “Affidavit of Publication for Air Permitting” form for this publication.

Also, please find the attached original newspaper clippings from the “Tejano y Gruperio News” newspaper in which alternate language (Spanish) public notice appeared on March 15, 2022 regarding the subject matter permit. Two original newspaper clippings are included, one which appeared in a “Prominent Location” in the newspaper, and one which appeared in the “Public Notice” section of the newspaper. Also attached, please find the signed and notarized “Affidavit of Publication for Air Permitting” form for this publication.

If you have any questions regarding this submittal, please do not hesitate to contact me by email at meagan.marquard@valero.com or by phone at (361) 299-8913.

Sincerely,

Meagan Marquard

Re: Prevention of Significant Deterioration Permit
Permit Numbers: 2937 and PSDTX1023M3
Valero Refining-Texas, L.P.
Bill Greehey Refinery East Plant
Corpus Christi, Nueces County
Regulated Entity Number: RN100211663
Customer Reference Number: CN600127468

Dear Mr. Almaraz:

The Texas Commission on Environmental Quality (TCEQ) has completed the technical review of your application and has prepared a preliminary decision and draft permit.

You are now required to publish notice of your proposed activity. To help you meet the regulatory requirements associated with this notice, we have included the following items:

- Notices for Newspaper Publication (Examples A and B)
- Public Notice Checklist
- Instructions for Public Notice
- Affidavit of Publication for Air Permitting (Form TCEQ-20533) and Alternative Language Affidavit of Publication for Air Permitting (Form TCEQ-20534)
- Web link to download Public Notice Verification Form (refer to Public Notice Instructions)
- Notification List
- Draft Permit

Please note that it is **very important** that you follow **all** directions in the enclosed instructions. If you do not, you may be required to republish the notice. A common mistake is the unauthorized changing of notice wording or font. If you have any questions, please contact us before you proceed with publication.

A "Public Notice Checklist" is enclosed which notes the time limitations for each step of the public notice process. **The processing of your application may be delayed if these time limitations are not met (i.e.; submitting proof of publication within 10 business days after publication, affidavits of publication within 30 calendar days after the date of publication, and public notice verification form within 10 business days after the end of the designated comment period).** This checklist should be used as a tool in conjunction with the enclosed, detailed instructions.

If you do not comply with **all** requirements described in the instructions, further processing of your application may be suspended or the agency may take other actions.

Mr. Joe Almaraz

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

EXAMPLE A

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR AN AIR QUALITY PERMIT

AIR QUALITY PERMIT NUMBERS: 2937 AND PSDTX1023M3

APPLICATION AND PRELIMINARY DECISION. Valero Refining-Texas, L.P., PO Box 9370, Corpus Christi, TX 78469-9370, has applied to the Texas Commission on Environmental Quality (TCEQ) for issuance of Air Quality Permit 2937 and Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX1023M3, which would authorize modification to the Bill Greehey Refinery East Plant at 1300 Cantwell Lane, Corpus Christi, Nueces County, Texas 78407. This application was submitted to the TCEQ on October 31, 2014. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide and organic compounds. In addition, the facility will emit the following air contaminants: ammonia, exempt solvents, hazardous air pollutants, hydrogen sulfide, nitrogen oxides, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide.

The executive director has determined that the emissions of air contaminants from the proposed facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owens R. Hopkins Public Library, 3202 McKenzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 N. Shoreline Blvd., Suite 500, Corpus Christi, Texas.

INFORMATION AVAILABLE ONLINE. These documents are accessible through the Commission's Web site at www.tceq.texas.gov/goto/cid: the executive director's preliminary decision which includes the draft permit, the executive director's preliminary determination summary, the air quality analysis, and, once available, the executive director's response to comments and the final decision on this application. Access the Commissioners' Integrated Database (CID) using the above link and enter the permit number for this application. The public location mentioned above, Owens R. Hopkins Public Library provides public access to the internet. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.807222&lng=-97.446111&zoom=13&type=r>.

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comment or to ask questions about the application. The TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing. **You may submit additional written public comments within 30 days of the date of newspaper publication of this notice in the manner set forth in the AGENCY CONTACTS AND INFORMATION paragraph below.**

After the deadline for public comment, the executive director will consider the comments and prepare a response to all public comment. **The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application.**

OPPORTUNITY FOR A CONTESTED CASE HEARING. A contested case hearing is a legal proceeding similar to a civil trial in a state district court. **A person who may be affected by emissions of air contaminants from the facility is entitled to request a hearing. A contested case hearing request must include the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number; (2) applicant's name and permit number; (3) the statement "I/we request a contested case hearing;" (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; and (6) a description of how you use the property which may be impacted by the facility. If the request is made by a group or association, one or more members who have standing to request a hearing and the interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk, at the address provided in the information section below.**

A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decisions on the application. Further, the Commission will only grant a hearing on issues submitted by you or others during the public comment period that have not been withdrawn. Issues that are not submitted in public comments may not be considered during a hearing.

EXECUTIVE DIRECTOR ACTION. If a timely contested case hearing request is not received or if all timely contested case hearing requests are withdrawn, the executive director may issue final approval of the application. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application, and will be posted electronically to the CID. If any timely hearing requests are received and not withdrawn, the executive director will not issue final approval of the permit and will forward the application and requests to the Commissioners for their consideration at a scheduled commission meeting.

MAILING LIST. You may ask to be placed on a mailing list to obtain additional information on this application by sending a request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION. Public comments and requests must be submitted either electronically at www14.tceq.texas.gov/epic/eComment/, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas, L.P. at the address stated above or by calling Mr. Marin Maldonado, Staff Environmental Engineer at (361) 289-3282.

Notice Issuance Date: March 4, 2022

Publication Elsewhere in the Newspaper:

TO ALL INTERESTED PERSONS AND PARTIES:

Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for issuance of Air Quality Permit Number 2937 and Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX1023M3, which would authorize modification to a Bill Greehey Refinery East Plant at 1300 Cantwell Lane, Corpus Christi, Nueces County, Texas 78407. Additional information concerning this application is contained in the public notice section of this newspaper.

Public Notice Checklist
Notice of Application and Preliminary Decision for an Air Quality Permit
(2nd Notice)

The following tasks must be completed for public notice. If publication in an alternative language is required, please complete the tasks for both the English and alternative language publications. Detailed instructions are included in the "Instructions for Public Notice" section of this package.

| |
|---|
| Within 33 calendar days after date of this letter |
| <p>Publish <i>Notice of Application and Preliminary Decision for an Air Quality Permit</i> in the same newspaper(s) in which you published <i>Notice of Receipt of Intent to Obtain Permit</i> for this application.</p> <ul style="list-style-type: none"> - Example A must be published in "public notice" section of newspaper. Review for accuracy prior to publishing. - Example B (if applicable) must be published in prominent location (other than "public notice") in same issue of newspaper <p>Provide copy of the complete application, the executive director's preliminary decision (including the draft permit), and the executive director's preliminary determination summary and executive director's air quality analysis, including any revisions, at a public place for review and copying. Keep them there for duration of the designated comment period. The public place should provide public access to the internet.</p> |
| First day of newspaper publication |
| <p>Review published newspaper notice for accuracy. If errors, contact Air Permits Division. Ensure copy of the complete application (including any subsequent revisions) and the executive director's preliminary decision (including the draft permit) are at the public place. It is recommended that the signs from the first notice be in place and the lettering must remain legible and visible until 30 days after publication of the <i>Notice of Application and Preliminary Decision</i> (either English or alternative language notice, whichever is later).</p> |
| Within 10 business days after date of publication |
| <p>Proof of publication showing publication date and newspaper name should be emailed to PROOFS@tceq.texas.gov or mailed to:</p> <p style="padding-left: 40px;">Texas Commission on Environmental Quality Office of the Chief Clerk, MC-105 Attn: Notice Team P.O. Box 13087 Austin, Texas 78711-3087</p> <p>Mail or email, as instructed, photocopies of newspaper clippings showing publication date and newspaper name to persons listed on <i>Notification List</i>.</p> |
| Within 30 calendar days after date of publication |
| <p>Affidavit of publication for air permitting and alternative language affidavit of publication for air permitting (if applicable) should be emailed to PROOFS@tceq.texas.gov or mailed to:</p> <p style="padding-left: 40px;">Texas Commission on Environmental Quality Office of the Chief Clerk, MC-105 Attn: Notice Team P.O. Box 13087 Austin, Texas 78711-3087</p> <p>Mail or email, as instructed, photocopies of affidavits to persons listed on <i>Notification List</i>.</p> |
| Within 10 business days after end of the designated comment period |
| <p>Public Notice Verification Form should be emailed to PROOFS@tceq.texas.gov or mailed to:</p> <p style="padding-left: 40px;">Texas Commission on Environmental Quality Office of the Chief Clerk, MC-105 Attn: Notice Team P.O. Box 13087 Austin, Texas 78711-3087</p> <p>Mail or email, as instructed, photocopies of Public Notice Verification Form to persons listed on <i>Notification List</i>.</p> |

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Instructions for Public Notice For New Source Review & Prevention of Significant Deterioration Air Permit

Notice of Application and Preliminary Decision

We have completed the technical review of your application and issued a preliminary decision. You must comply with the following instructions:

Review Notice

Included in the notice is all of the information which the commission believes is necessary to effectuate compliance with applicable public notice requirements. Please read it carefully and notify the Texas Commission on Environmental Quality (TCEQ) immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text of the notice without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed *Notice of Application and Preliminary Decision for an Air Quality Permit* within **33 calendar days** after the date this information was mailed to you (see date of letter).
- You must publish the enclosed *Notice of Application and Preliminary Decision for an Air Quality Permit* at your expense, in the same newspaper(s) in which you published the *Notice of Receipt and Intent to Obtain Permit* for this application. The newspaper must be a newspaper that is of general circulation in the municipality where the facility is or will be located. If the facility is not located within a municipality, the newspaper must be of general circulation in the municipality nearest the location.
- You must publish this notice in one issue of any applicable newspaper.
- You will find two example notices enclosed in this package. *Example A* must be published in the "public notice" section of the newspaper. The phrase "Example A" is not required to be published. *Example B* must be published in the **same issue** of the newspaper as *Example A*; however, it must be published in a prominent location (other than the public notice section). *Example B* refers the public to the "public notice" section of the newspaper where *Example A* provides more information regarding the permit application.
- *Example B* must be a total of at least **6 column inches (standard advertising units)** with a height of at least **3 inches** and a horizontal dimension of **2 column widths**. If the newspaper chosen does not use standard advertising units for measurement, the notice must be at least **12 square inches** with the shortest side of at least **3 inches**.
- The bold text of the enclosed notice **must** be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., **bold**, *italics*). **Failure to do so may require re-notice.**

Alternative Language Notice

In certain circumstances, applicants for air permits must complete notice in alternative languages.

- Public notice rules require the applicant to determine whether a bilingual program is required at either the elementary or middle school nearest to the facility or proposed facility location. Bilingual education programs are determined on a district-wide basis. When students who are required to attend either school are eligible to be enrolled in a bilingual education program, some alternative language notice is required (newspaper notice).
- Since the school district, and not the schools, must provide the bilingual education program, these programs do not have to be located at the elementary or middle school nearest to the facility or proposed facility to trigger the alternative language notice requirement. If there are students who would normally attend the nearest schools eligible to be taught in a bilingual education program at a different location, alternative language notice is required.
- If triggered, publications of alternative language notices must be made in a newspaper or publication printed primarily in each language taught in the bilingual education program. The same newspaper(s) used for *Notice of Receipt and Intent to Obtain Permit* must be used for publication of the *Notice of Application and Preliminary Decision for an Air Quality Permit*. This notice is required if such a newspaper or publication exists in the municipality or the county where the facility is or will be located.
- The applicant must demonstrate a good faith effort to identify a newspaper or publication in the required language. If a newspaper or publication of general circulation published at least once a month in such language cannot be found, publishing in that language is not required, but signs must remain posted in the same location(s) utilized during the *Notice of Receipt of Intent to Obtain Permit (1st public notice)*.
- Publication in an alternative language section or insertion within an English language newspaper does not satisfy these requirements.
- The applicant has the burden to demonstrate compliance with these requirements. You must fill out the ***Public Notice Verification Form (Form TCEQ-20244)*** indicating your compliance with the requirements regarding publication in an alternative language. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**
- It is suggested the applicant work with the local school district to do the following:
 - (a) determine if a bilingual program is required in the district;
 - (b) determine which language is required by the bilingual program;
 - (c) locate the nearest elementary and middle schools; and
 - (d) determine if any students attending either school are entitled to be enrolled in a bilingual educational program.
- **If you determine that you must meet the alternative language notice requirements, you are responsible for ensuring that the publication in the alternative language is complete and accurate in that language.** Since the most common bilingual programs are in Spanish, the TCEQ has provided example Spanish notice templates for your use. All italic notes should be replaced with the corresponding Spanish translations for the specific application and published in the alternative language publication. Electronic versions of the Spanish templates are available through the Air Permits Division Web site at www.tceq.texas.gov/goto/air/publicnotice.
- If you are required to publish notice in a language other than Spanish, you must translate the entire public notice at your own expense.

Public Comment Period

- The public comment period will last at least **30 calendar days after publication of the last notice**.
- The comment period will be longer if the last day of the public comment period ends on a weekend or a holiday. In this case, the comment period will end on the next business day.
- The comment period for the permit may lengthen depending on whether a public meeting is held. If a public meeting is held, the comment period will be extended to the later of either the date of the public meeting or the end of the second notice period.

Proof of Publication

- Check each publication to ensure that the articles were accurately published. If a notice was not published correctly you may be required to republish.
- For each newspaper in which you published, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proofs of publication are 1) copies of the published notice or 2) the newspaper clippings of the published notice. If you choose to submit copies of the published notice to the Office of the Chief Clerk, copies must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain newspaper clippings or tear sheets of the notice for your records.
- You must submit an **affidavit of publication for air permitting and alternate language affidavit of publication for air permitting (if applicable)** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **You must use the enclosed affidavits of publication.** The affidavits must clearly identify the applicant's name and permit number. You are encouraged to submit the affidavit with the proof of publication described above.
- You must submit the **Public Notice Verification Form (Form TCEQ-20244)** to the Office of the Chief Clerk within **10 business days** of the end of this public comment period. You must use this form to certify that you have met bilingual notice requirements. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**
- The **affidavits of publication, Public Notice Verification Form, and acceptable proof of publication of the published notices** should be emailed to PROOFS@tceq.texas.gov or mailed to:

Texas Commission on Environmental Quality
Office of the Chief Clerk, MC-105
Attn: Notice Team
P.O. Box 13087
Austin, Texas 78711-3087

- Please ensure that the affidavit(s) you send to the Chief Clerk have all blanks filled in correctly.
- Photocopies of newspaper clippings, affidavits, and verifications must also be sent to those listed on the enclosed *Notification List* within the deadlines specified above.

Failure to Publish and Submit Proof of Publication

You must meet all publication requirements. **If you fail to publish the notice or submit proof of publication on time**, the TCEQ may suspend further processing on your application or take other actions.

Sign Posting

It is recommended that the signs that were put in place prior to publication of the first notice remain in place and be legible and visible until 30 days after publication of the *Notice of Application and Preliminary Decision* (either English or alternative language notice, whichever is later).

Application in a Public Place

- You must provide a copy of the complete application, the executive director's preliminary decision (including the draft permit), the executive director's preliminary determination summary and the executive director's air quality analysis, (including any subsequent revisions), at a public place for review and copying by the public. This place must be in the county in which the facility is located or proposed to be located.
- A public place is one that is publicly owned or operated (ex: libraries, county courthouses, or city halls). Location selected must provide public access to the internet.
- This copy must be accessible to the public for review and copying. The copy must be available beginning on the first day of newspaper publication and remain in place until the commission has taken action on the application or the commission refers issues to the State Office of Administrative Hearings.
- If the application is submitted to the TCEQ with information marked as "CONFIDENTIAL," you are required to indicate which specific portions of the application are not being made available to the public. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the Texas Commission on Environmental Quality, Public Information Coordinator, MC-197, P.O. Box 13087, Austin, Texas 78711-3087."
- You must submit verification of file availability using the ***Public Notice Verification Form (Form TCEQ-20244)*** within **10 business days** after end of the publications' designated comment period. Do not submit the form verifying that the application was in a public place until after the comment period is complete. If a public meeting is held or second notice is required causing the public comment period to be extended, at a later date you will be required to verify that the application was in a public place during the entire public comment period. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**

General Information

When contacting the Commission regarding this application, please refer to the permit number at the top of the *Notice of Application and Preliminary Decision*.

If you have questions or need assistance regarding publication requirements, please contact the Office of the Chief Clerk at (512) 239-3300 or the project reviewer listed in the cover letter.

Notification List

It is the responsibility of the applicant to furnish the following offices with copies of the notices published, the *Affidavit of Publication for Air Permitting*, the *Alternative Language Affidavit of Publication for Air Permitting (if applicable)*, and a completed copy of the *Public Notice Verification Form (Form TCEQ-20244)*. Acceptable proof of publication and any affidavits and Form TCEQ-20244 should be emailed to PROOFS@tceq.texas.gov or mailed to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087.

Electronic copies should be submitted via email to the U.S. Environmental Protection Agency (EPA), **Region 6** at R6AirPermitsTX@EPA.gov. Please contact Ms. Aimee Wilson (wilson.aimee@epa.gov) at (214) 665-7596 if you have any questions pertaining to electronic submittals to the EPA.

Email copies to Ms. Laura Gibson, P.E. at Laura.Gibson@tceq.texas.gov

Hard copies should be sent to the following:

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

March 4, 2022

MR JOE ALMARAZ
DIRECTOR ENVIRONMENTAL SAFETY AFFAIRS
VALERO REFINING-TEXAS LP
PO BOX 9370
CORPUS CHRISTI TX 78469-9370

Re: Prevention of Significant Deterioration Permit
Permit Numbers: 2937 and PSDTX1023M3
Valero Refining-Texas, L.P.
Bill Greehey Refinery East Plant
Corpus Christi, Nueces County
Regulated Entity Numbers: RN100211663, RN109734897
Customer Reference Number: CN600127468

Dear Mr. Almaraz:

The Texas Commission on Environmental Quality (TCEQ) has made a preliminary decision on the above-referenced application. In accordance with Title 30 Texas Administrative Code § 39.419(b), you are now required to publish Notice of Application and Preliminary Decision. You must provide a copy of this preliminary decision letter with the draft permit at the public place referenced in the public notice.

If you have any questions, please call Ms. Laura Gibson, P.E. at (512) 239-2175, or write to the TCEQ, Office of Air, Air Permits Division, MC-163, P.O. Box 13087, Austin, Texas 78711-3087.

Sincerely,

A handwritten signature in black ink, appearing to read "Samuel Short", followed by a long horizontal line extending to the right.

Samuel Short, Deputy Director
Air Permits Division
Office of Air

Enclosure

cc: Joe Kupper, P.E., Trinity Consultants, Austin

Preliminary Determination Summary

Valero Refining-Texas, L.P.
Permit Numbers 2937 and PSDTX1023M3

I. Applicant

Valero Refining-Texas LP
PO Box 9370
Corpus Christi, TX 78469-9370

II. Project Location

Bill Greehey Refinery East Plant
1300 Cantwell Lane
Nueces County
Corpus Christi, Texas 78407

III. Project Description

The main process at this site is refining of crude oil into various fuel products and sending those products out to market. Sources currently authorized include storage tanks, boilers and heaters, cooling towers, marine and truck loading, thermal oxidizers at loading points, flares, sulfur recovery units, coke handling, process vents, recovery wells, and wastewater treatment and carbon adsorption canisters.

The current project is a renewal and amendment of the air quality permit for these sources. Below is a summary of the proposed changes to the permit:

- 1) Removal of all emission caps for routine refinery operations – Since the sum of the annual allowables for all Emission Point Numbers (EPNs) for routine refinery operations was less than the permit caps, the caps have been removed.
- 2) Reduce nitrogen oxide (NOx) factor on selected heaters: EPNs Q10-H-1, QL-10 as required by (previously numbered) Special Condition No. 11 and Consent Decree.
- 3) Increase hourly and annual emissions on Heater - C6B HCU Rx Chrg. EPN Q11-H-301 to design capacity.
- 4) Authorize Ammonia emissions from all boilers and heaters. These emissions have always been present but were detected in testing at the refinery, so are being quantified with this action.
- 5) Authorize carbon adsorption system (CAS) to control select wastewater treatment plant (WWTP) sources to comply with National Emission Standards for Hazardous Air Pollutants (NESHAP) for benzene waste (EPN WW-CAS)
- 6) Authorize emissions from previously authorized benzene wastewater stripper that were omitted during deflex (EPN WP-FLARE1)
- 7) Authorize the use of the #2 Reformer Flare as an alternate means of control for Volatile Organic Compounds (VOC) – Currently VOC emissions from the #2 Reformer and the #4 Platformer are routed to process heaters. The flare will be used as an alternate means of control. (EPNs QL-10, Q3-H-4A/B, REF-FL2)
- 8) Authorize Heater 130-H-01 as a secondary control device (EPN SMR2) for the existing Steam Methane Reformer (SMR)
- 9) Authorize emissions from Coker drums associated with the existing delayed coker unit (EPNs CSV1 and CSV2)
- 10) Update emissions from the following flares – EPNs WP-FLARE1, EP-FLARE1, HCU-FL1, and REF-FL2) – Applicant has requested to update flare emissions based on recently measured flow and composition data.
- 11) Update particulate matter (PM), including PM 10 microns or less and PM 2.5 microns or less (PM₁₀/PM_{2.5}) emissions from Sulfur Recovery Unit (SRU) Incinerators (EPNs SRU1-INCIN, SRU2-INCIN)
- 12) Increase amount of gas oil loaded into barges at Dock 6 (EPN PD-6)

- 13) Increase emissions from loading of asphalt (EPN PMA-LOAD)
- 14) Change basis of Cooling Tower emissions to maximum total dissolved solids (TDS) and VOC content – This will affect five cooling towers (EPNs 83-CT1, Q-CT4, Q-CT5, 88-CT7, Q-CT8)
- 15) Update fugitive emission rates because of full incorporation of thirteen Permits by Rule (PBRs) (EPN REFUG)
- 16) Authorize Maintenance, Startup, and Shutdown (MSS) for the Complex 8 Corrugated Plate Interceptor (within MSS Subcap)
- 17) Authorize MSS heater pigging and decoking activities (within MSS Subcap)
- 18) Authorize MSS activities – meter maintenance and purging at a neighboring industrial facility (within MSS Subcap)
- 19) Authorize increased annual abrasive blasting (within MSS Subcap)
- 20) Remove EPNs that have been permanently shut down: 39-H-3A, 39-H-3B, 39-H-3C, 39-H-7,
- 21) Remove EPNs that have been renamed ASPH-RCLDG, ASPH-TLDG, LATEX-TLDG, RC-RACK1, SULF-RCLDG, SULF-TLDG, 4REGENVENT
- 22) Move EPNs from individual emission rates on Maximum Allowable Emission Rate Table (MAERT) to Wastewater Treatment Plant (EPN WWTP), which controls emissions from wastewater sources. Some were renamed due to addition of covers, etc., others were incorporated by consolidation from previous PBR authorization.
- 21) Remove tank heater EPNs that are authorized by NSR Permit 135622: H-TK-54, H-TK-70

Heaters and boilers had slight corrections to emission rates with respect to incorrect representations when amending the permit from a flexible permit to an NSR non flexible permit (previous deflex permit action, Project 159115). At the time of that action, individual emission rates were mistakenly not represented as maximum potential to emit based on maximum firing rate, short term emission rate factors, and short term sulfur limits in the fuel. Also with this renewal, ammonia emissions of 0.00032 lb/MMBtu that have always been emitted from these sources but not previously quantified are now being quantified on the MAERT, per TNRCC Victoria Hsu Memo, March 10, 1997. These adjustments are not modifications to these units.

The Special Conditions and MAERT were reviewed and edited to ensure they accurately described the current process at the site along with required monitoring. Month/year references within the Special Conditions are left based on applicant request.

IV. Emissions

| Air Contaminant | Proposed Allowable Emission Rates (tpy) |
|--|---|
| VOC | 717.48 |
| NO _x | 659.27 |
| SO ₂ | 479.97 |
| CO | 844.57 |
| PM/PM ₁₀ /PM _{2.5} | 163.78 / 132.78 / 117.55 |
| H ₂ S | 11.45 |
| NH ₃ | 10.73 |

See below for discussion of federal applicability.

With regard to PM10 and PM2.5, condensable particulate was included in the review along with filterable particulate in order to have proper values addressed in the NAAQS analysis.

MSS is authorized within this permit within the MSS Subcap category on the MAERT and per the MSS Special Conditions. Changes are as discussed above. Short term limits are maximum expected and annual limits are average annual from all MSS sources.

V. Federal Applicability

Nonattainment review is not applicable because this county is in attainment or unclassified for all NAAQS. The applicant investigated federal applicability for potential PSD review. The site is currently a major PSD named source. This project is aggregated with Permit 135622, Project 247318 since sources on that permit were on NSR Permit 2937 at the time renewal was due. The table below includes EPNs from both permits / projects.

| Pollutant | Project Increase (tpy) ¹ | PSD Netting Trigger (tpy) | Netting Required Y/N | Net Emission Change (tpy) ² | Major Mod Trigger (tpy) | PSD Triggered Y/N |
|--------------------------------|-------------------------------------|---------------------------|----------------------|--|-------------------------|-------------------|
| VOC ³ | 194.2 | 40 | Y | 271.4 | 40 | Y |
| NOx ^{3,4} | 31.6 | 40 | N | NA | 40 | N |
| SO ₂ ⁴ | 7.8 | 40 | N | NA | 40 | N |
| CO | 172.4 | 100 | Y | 178.9 | 100 | Y |
| PM | 9.8 | 25 | N | NA | 25 | N |
| PM ₁₀ | 9.8 | 15 | N | NA | 15 | N |
| PM _{2.5} ⁵ | 9.6 | 10 | N | NA | 10 | N |
| H ₂ S | 3.5 | 7 | N | NA | 7 | N |

- ¹ Project Increases: Comparison of Baseline Actual to Potential to Emit (PTE) Increases only
- ² Net Emissions: Baseline Actual to PTE for the project currently under review, Baseline Actual to PTE for all other increases and decreases within netting window.
- ³ Ozone precursor. Either pollutant precursor can trigger BACT and impacts analysis, as applicable.
- ⁴ PM_{2.5} precursor. Not used to trigger PM_{2.5} BACT or impacts analysis at this time.
- ⁵ Use PM₁₀ emissions only if PM_{2.5} emissions cannot be quantified or estimated. (PM_{2.5} Implementation Plan).

Pollutants that did not trigger PSD review still underwent minor NSR review and health effects review.

VI. Control Technology Review

As part of the BACT review process, the Texas Commission on Environmental Quality (TCEQ) evaluates information from the EPA's RACT/BACT/LAER Clearinghouse (RBLC), on-going permitting in Texas and other states, and the TCEQ's continuing review of emissions control developments for pollutants triggering a PSD review. PSD review is triggered for CO and VOC, and state level review is triggered for all other regulated pollutants.

In addition to a review of control technology for steady state operations, the Best Available Control Technology (BACT) analysis includes startup and shutdown emissions and the numerical emission limits in the draft permit reflect this analysis. BACT for each pollutant is reflected in the numerical limits in the MAERT.

For a renewal of an existing air permit, the commission may not impose conditions more stringent than the existing permit unless more stringent conditions are necessary to avoid a condition of air pollution or to ensure compliance with other state and federal air quality control requirements. BACT is addressed below for modified units only.

Refinery Fugitives (PSD for VOC) 28VHP or 28AVO Leak Detection and Repair (LDAR) program as applicable. This is the commonly applied control within the RBLC. BACT is met.

Tanks Subcap (PSD for VOC) Internal floating roof tanks with mechanical shoe primary seal, painted white. External floating roof tank, painted white with primary mechanical shoe seal and a secondary rim-mounted seal. Vertical fixed roof tanks storing low vp products (vp < 0.5 psia) with submerged fill, painted white. These are the commonly applied controls within the RBLC. BACT is met.

Marine Loading and Thermal Oxidizer (SO₂, NO_x, PM/PM₁₀/PM_{2.5}; PSD for VOC and CO) Materials with vp > 0.5 psia are collected with an efficiency of 95% and are routed to thermal oxidizer. Ships loaded with crude or condensate pass an annual vapor tightness test. These are the commonly applied controls within the RBLC. BACT is met.

Asphalt Loading (PSD for VOC) The RBLC only had one site with any controls (which was a regenerative thermal oxidizer) for this type of source. That source even with controls was > 15 lb/hr VOC. Materials w/ vp < 0.5 psia typically require submerged loading. Applicant stated that submerged fill is not technically feasible for polymer-modified asphalt because it is thixotropic (shear thinning). Splash filling of asphalt is avoided to the extent practicable. Even under shear, it has limited ability to form suspended droplets in a vessel's vapor space. Using the splash loading factor will overstate emissions but this will also be included within the AQA / health effects to ensure acceptable impacts. The asphalt has ultra-low vapor pressure (maximum of 0.018 psia) and high viscosity, with an average of 2500 centipoise (cP) and a minimum of 890 cP. Due to these physical properties, these ultra-low vapor pressure materials will be splash loaded. This meets BACT for this source with 1.02 lb/hr VOC.

Truck loading and thermal oxidizer (SO₂, NO_x, PM/PM₁₀/PM_{2.5}; PSD for VOC and CO) Materials with vp > 0.5 psia are collected with an efficiency of 95% and are routed to thermal oxidizer or flare (EPNs TO-2 or WP- FLARE1). Materials w/ vp < 0.5 psia use submerged loading. Gasoline tank trucks pass a leak-tight test annually. Throughput limits were the only controls found in RBLC, which are present for these sources. BACT is met.

Thermal oxidizer (SO₂, NO_x, PM/PM₁₀/PM_{2.5}; PSD for VOC and CO) Tank EPNs T-102, T-108, T-138, T-201, and recovery wells are routed to this oxidizer, that must meet MACT CC (40 CFR 63.670, 671) requirements. This is consistent with RBLC results. BACT is met.

Flares subcap (SO₂, NO_x; PSD for VOC and CO) 98% VOC DRE represented. Flares meet MACT CC requirements in 40 CFR 63.670/671 which suffice to meet BACT as defined in 40 CFR 60.18. This is consistent with RBLC results. BACT is met.

SRUs Subcap (SO₂, NO_x, PM/PM₁₀/PM_{2.5}; PSD for VOC and CO) PM being quantified and added to MAERT with this action, other pollutants unchanged. Proposed collateral increase from this control device is due to combustion of waste gas in incinerators that was not previously accounted for. Sulfur > 10 LTPD, SRU and Tail Gas Incinerators. 99.8% sulfur recovery. SO₂

CEMS for incinerators. RBLC search has no VOC or CO limits mentioned, only mention of 99.8% sulfur recovery. BACT of good combustion practices and use of gaseous fuel is acceptable for this source and permitting action.

Wastewater Treatment Unit Subcap (PSD for VOC) Uncontrolled site-wide wastewater emissions > 5 tpy VOC: stripped gases from pretreatment routed to a control device, collection system hard piped/covered conveyance to biological treatment unit vented to a control device, wastewater treatment system must be at least 90 percent efficient. Benzene wastewater stripper emissions routed to Complex 7 Flare (EPN WP-FLARE1) Gas Recovery unit, which removes H₂S via amine treatment and recovers gas to the fuel gas system. This is consistent with RBLC results. BACT is met.

Wastewater Carbon Adsorption Canisters: Disposable (non-regenerative) (PSD for VOC) Minimum of two carbon canisters in series; periodic monitoring before the last canister which is acceptable for these low use rate systems. Breakthrough concentration 20-100 ppm based on vendor representations for specific compounds. Monitoring frequency every 2 weeks. Breakthrough concentration is 100 ppmv for VOC. This is consistent with RBLC results. BACT is met.

MSS: Process Units and Tanks Shutdown / Depressurize / Drain / Startup (PSD for VOC) Process vessel purge gases routed to flares. Process vessels containing liquids with vp > 0.5 psia purged until one of the following (or similar) is met: VOC pp < 0.5 psia, 34,000 ppmv or less, measured as methane, 50% or less of lower explosive limit, and/or 3x the volume of the vessel has been nitrogen or steam purged. Remaining process fluid reduced through process fluid recovery and flaring, followed by testing with a gas sensor. This is consistent with RBLC results. BACT is met.

MSS: SRU Maintenance Shutdown (SO₂; PSD for VOC) RBLC search did not result in controls for SRU maintenance. Sweep natural gas through SRU to carry residual sulfur compounds to SRU incinerator, which has DRE of sulfur compounds of 99.9%. BACT is met.

MSS: Atmospheric Tank Cleaning and Refilling (PSD for VOC) Drain and degas landed volume for floating roof tanks taken out of service. No more than six floating roof tanks taken out of service and drained and degassed per year. For change of service, land roof, drain tank, and begin refill within 24 hours. Only 3 gasoline tanks in service at any one time. Two roof landings per season (March and September) per tank. Maintain fixed roof tanks only when warranted by inspection. This is consistent with RBLC results. BACT is met.

MSS: Heater decoking (PM/PM₁₀/PM_{2.5}) Limiting the frequency and duration of activities. Water spray to minimize decoking emissions. This is consistent with RBLC results. BACT is met.

MSS: Abrasive blasting (PM/PM₁₀/PM_{2.5}) Collection and removal of spent or waste abrasive blast media in such a manner to minimize emissions and placing the waste in covered containers prior to removal from the site. Use of low dusting abrasives with a free silica content < 1%. No visible emissions crossing property line. This meets BACT for this source.

MSS: Complex 8 Corrugated Plate Interceptor (CPI) (PSD for VOC) These are MSS operations for a process unit. Degassing to the atmosphere will be limited to MACT CC levels (72 lb VOC, which will require adjustment of the 50 lb VOC limit in the MSS Special Conditions). Vacuum truck operations will otherwise be used as control, subject to appropriate MSS special conditions for these operations already within the permit. This is consistent with RBLC results. BACT is met.

MSS: Meter maintenance and purging at a neighboring industrial facility (Enterprise) (PSD for VOC) Emissions from truck venting, propane loading line clearing and meter maintenance

purging performed at the neighboring Enterprise facility will be vented to a flare. Venting to a flare with 98% control efficiency is considered BACT for these MSS activities. This is consistent with RBLC results. BACT is met.

C8 No. 6 Boiler, EP-B-6, (SO₂, NO_x, PM/PM₁₀/PM_{2.5}; PSD for VOC and CO) 334 MMBtu/hr, Boiler authorized by Standard Permit being consolidated. Low NO_x burners and SCR are present resulting in NO_x emissions of 0.015 lb/MMBtu and 50 ppm CO at 3% O₂. CO 100 ppm max, 50 ppm average annual. Natural or refinery fuel gas ≤ 60 ppmvd H₂S average annual (162 ppmvd H₂S maximum). The use of gaseous fuels limits PM emissions to values consistent with the AP-42 value for natural gas of 7.6 lb/MMscf. The NH₃ level of 0.00032 lb/MMBtu is low enough that further controls (for this pollutant) are impractical. NO_x and CO CEMS are present. This is consistent with RBLC results and meets TCEQ Tier I BACT for refinery gas fired boilers. BACT is met.

Heater – C7 Kero HDS, 37-H-3 (SO₂, NO_x, PM/PM₁₀/PM_{2.5}; PSD for VOC and CO) 34 MMBtu/hr, Consolidation of unregistered PBR 106.183, replacement heater for previous EPN 37-H-2. Increases are not being requested with respect to the PBR previously claimed. NO_x 0.1 lb NO_x/MMBtu, CO 100 ppm max, 50 ppm average annual. Low NO_x burners, good combustion practices, natural or refinery fuel gas ≤ 60 ppmvd H₂S average annual. Ammonia emissions of 0.00032 lb/MMBtu (as detected in stack testing) are being added. This NH₃ level is low enough that further controls are impractical. For unit of this size being consolidated, this level of control is reasonable. This is consistent with RBLC results for heaters of this size. BACT is met.

The project also included emission rate corrections for physically unmodified heaters and boilers. As specified in the TCEQ's BACT guidance document, APDG 6110v2 dated January 2011, "*Applications for projects subject to air pollution control evaluations are those with new and modified facilities or sources of emissions of air contaminants.*" These facilities are not new and are not being physically modified with this project. However, these sources are proposed to have allowable emission rates increases to correct representations in the permit. Therefore, the previous BACT evaluations were reviewed to ensure that the original BACT determinations would not have been different if the correct emission rates had been known at the time that they were originally evaluated for BACT. None of the allowable emission rate changes would have changed the BACT determinations.

VII. Air Quality Analysis

The applicant demonstrated that the proposed project's emissions will not adversely affect public health and welfare, which includes the National Ambient Air Quality Standards (NAAQS), PSD de minimis and significance, additional impacts, minor new source review of regulated pollutants without a NAAQS, and air toxics review.

The air quality analysis (AQA) is acceptable for all review types and pollutants. The results are summarized below.

A. De Minimis Analysis

For pollutants that triggered federal review (CO and VOC), all pollutants, averaging times, project GLCs, de minimis and monitoring significance levels were included. Ozone PSD de minimis was also investigated.

A De Minimis analysis was initially conducted to determine if a full impacts analysis would be required. The De Minimis analysis modeling results for 1-hr and 8-hr CO indicate that the project is below the respective de minimis concentrations and no further analysis is required.

Table 1. Modeling Results for PSD De Minimis Analysis in Micrograms Per Cubic Meter ($\mu\text{g}/\text{m}^3$)

| Pollutant | Averaging Time | GLCmax ($\mu\text{g}/\text{m}^3$) | De Minimis ($\mu\text{g}/\text{m}^3$) |
|-----------|----------------|-------------------------------------|---|
| CO | 1-hr | 240 | 2000 |
| CO | 8-hr | 221 | 500 |

The GLCmax represent the maximum predicted concentrations over five years of meteorological data.

Table 2. Modeling Results for Ozone PSD De Minimis Analysis in Parts per Billion (ppb)

| Pollutant | Averaging Time | GLCmax (ppb) | De Minimis (ppb) |
|----------------|----------------|--------------|------------------|
| O ₃ | 8-hr | 0.18 | 1 |

The applicant performed an O₃ analysis as part of the PSD AQA. The applicant evaluated project emissions of O₃ precursor emissions (NO_x and VOC). For the project NO_x and VOC emissions, the applicant provided an analysis based on a Tier 1 demonstration approach consistent with the EPA's Guideline on Air Quality Models (GAQM). Specifically, the applicant used a Tier 1 demonstration tool developed by the EPA referred to as Modeled Emission Rates for Precursors (MERPs). The basic idea behind the MERPs is to use technically credible air quality modeling to relate precursor emissions and peak secondary pollutants impacts from a source. Using data associated with the worst-case Texas source, the applicant estimated an 8-hr O₃ concentration of 0.18 ppb. When the estimate of ozone concentrations from the project emissions are added together, the results are less than the De Minimis level.

B. Air Quality Monitoring

The De Minimis analysis modeling results indicate that 8-hr CO is below its monitoring significance level.

Table 3. Modeling Results for PSD Monitoring Significance Levels

| Pollutant | Averaging Time | GLCmax ($\mu\text{g}/\text{m}^3$) | Significance ($\mu\text{g}/\text{m}^3$) |
|-----------|----------------|-------------------------------------|---|
| CO | 8-hr | 221 | 575 |

The GLCmax represents the maximum predicted concentration over five years of meteorological data.

Since the project has a net emissions increase of 100 tons per year (tpy) or more of volatile organic compounds or nitrogen oxides, the applicant evaluated ambient O₃ monitoring data to satisfy requirements in 40 CFR 52.21(i)(5)(i)(f).

A background concentration for O₃ was obtained from the EPA AIRS monitor 483550025 located at 902 Airport Blvd, Corpus Christi, Nueces County. A three-year average (2017-

2019) of the annual fourth highest daily maximum 8-hr concentrations (61 ppb) was used in the analysis. The applicant did not consider monitoring data from most recent year (2020). The ADMT reviewed monitoring data from 2018-2020 and determined that the overall modeling result will not be affected. The use of this monitor for a background concentration of ozone is reasonable based on its proximity (<5 kilometers [km]) to the project site.

C. Additional Impacts Analysis

The applicant performed an Additional Impacts Analysis as part of the PSD AQA. The applicant conducted a growth analysis and determined that population will not significantly increase as a result of the proposed project. The applicant conducted a soils and vegetation analysis and determined that all evaluated criteria pollutant concentrations are below their respective secondary NAAQS. The applicant meets the Class II visibility analysis requirement by complying with the opacity requirements of 30 TAC Chapter 111. The Additional Impacts Analyses are reasonable and possible adverse impacts from this project are not expected.

The ADMT evaluated predicted concentrations from the proposed project to determine if emissions could adversely affect a Class I area. The nearest Class I area, Big Bend National Park, is located approximately 553 km from the proposed site.

The predicted concentrations of PM₁₀, PM_{2.5}, NO₂, and SO₂ for all averaging times, are all less than de minimis levels at a distance of 0.3 km from the proposed sources in the direction of the Big Bend National Park Class I area. The Big Bend National Park Class I area is an additional 552.7 km from the location where the predicted concentrations of PM₁₀, PM_{2.5}, NO₂, and SO₂ for all averaging times are less than de minimis. Therefore, emissions from the proposed project are not expected to adversely affect the Big Bend National Park Class I area.

D. Minor Source NSR and Air Toxics Review

All federally regulated pollutants are subject to impacts analysis, even if a minor source. Sulfur compounds are also subject to Texas State Property Line standards.

Table 4. Site-wide Modeling Results for State Property Line

| Pollutant | Averaging Time | GLCmax (µg/m ³) | Standard (µg/m ³) |
|------------------|----------------|-----------------------------|-------------------------------|
| SO ₂ | 1-hr | 289 | 715 |
| H ₂ S | 1-hr | 30 | 108 |

Table 5. Modeling Results for Minor NSR De Minimis

| Pollutant | Averaging Time | GLCmax (µg/m ³) | De Minimis (µg/m ³) |
|------------------|----------------|-----------------------------|---------------------------------|
| SO ₂ | 1-hr | 17 | 7.8 |
| SO ₂ | 3-hr | 246 | 25 |
| PM ₁₀ | 24-hr | 5.4 | 5 |

| Pollutant | Averaging Time | GLCmax ($\mu\text{g}/\text{m}^3$) | De Minimis ($\mu\text{g}/\text{m}^3$) |
|-------------------|----------------|-------------------------------------|---|
| PM _{2.5} | 24-hr | 3.1 | 1.2 |
| PM _{2.5} | Annual | 0.6 | 0.2 |
| NO ₂ | 1-hr | 18 | 7.5 |
| NO ₂ | Annual | 4.5 | 1 |

The 1-hr NO₂, 1-hr SO₂, and 24-hr and annual PM_{2.5} GLCmax are based on the highest five-year average of the maximum predicted concentrations determined for each receptor.

For all other pollutants and averaging times, the GLCmax are the maximum predicted concentrations associated with five years of meteorological data.

The primary NAAQS for 24-hr and annual SO₂ have been revoked for Nueces County and are not reported above.

The justification for selecting the EPA's interim 1-hr NO₂ and 1-hr SO₂ De Minimis levels was based on the assumptions underlying EPA's development of the 1-hr NO₂ and 1-hr SO₂ De Minimis levels. As explained in EPA guidance memoranda^{1,2}, the EPA believes it is reasonable as an interim approach to use a De Minimis level that represents 4% of the 1-hr NO₂ and 1-hr SO₂ NAAQS.

Intermittent guidance was relied on for the 1-hr SO₂ and 1-hr NO₂ minor NSR De Minimis analyses.

The PM_{2.5} De Minimis levels are the EPA recommended De Minimis levels. The use of the EPA recommended De Minimis levels is sufficient to conclude that a proposed source will not cause or contribute to a violation of a PM_{2.5} NAAQS based on the analyses documented in EPA guidance and policy memoranda³.

To evaluate secondary PM_{2.5} impacts, the applicant provided an analysis based on a Tier 1 demonstration approach consistent with the EPA's GAQM. Specifically, the applicant used a Tier 1 demonstration tool developed by the EPA referred to as MERPs. The basic idea behind the MERPs is to use technically credible air quality modeling to relate precursor emissions and peak secondary pollutants impacts from a source. Using data associated with the worst-case Texas source, the applicant estimated 24-hr and annual secondary PM_{2.5} concentrations of 0.04 $\mu\text{g}/\text{m}^3$ and 0.001 $\mu\text{g}/\text{m}^3$, respectively. Since the combined direct and secondary 24-hr and annual PM_{2.5} impacts are above the De minimis levels, a full impacts analysis is required.

³ www.tceq.texas.gov/permitting/air/modeling/epa-mod-guidance.html

Table 6. Total Concentrations for Minor NSR NAAQS (Concentrations > De Minimis)

| Pollutant | Averaging Time | GLCmax (µg/m³) | Background (µg/m³) | Total Conc. = [Background + GLCmax] (µg/m³) | Standard (µg/m³) |
|-------------------|-----------------------|----------------------------------|--------------------------------------|---|------------------------------------|
| SO ₂ | 1-hr | 127 | 15 | 142 | 196 |
| SO ₂ | 3-hr | 264 | 25 | 289 | 1300 |
| PM ₁₀ | 24-hr | 8 | 79 | 87 | 150 |
| PM _{2.5} | 24-hr | 11.3 | 23 | 34.3 | 35 |
| PM _{2.5} | Annual | 1 | 8 | 9 | 12 |
| NO ₂ | 1-hr | 63 | 57 | 120 | 188 |
| NO ₂ | Annual | 6 | 8 | 14 | 100 |

The 1-hr SO₂ GLCmax is the highest five-year average of the 99th percentile of the annual distribution of predicted daily maximum 1-hr concentrations determined for each receptor. The 3-hr SO₂ GLCmax is the high second-high predicted concentration associated with five years of meteorological data. The 24-hr PM₁₀ GLCmax is the high sixth-high predicted concentration associated with five years of meteorological data. The 24-hr PM_{2.5} GLCmax is the highest five-year average of the 98th percentile of the annual distribution of the predicted 24-hr concentrations determined for each receptor. The 1-hr NO₂ GLCmax is the highest five-year average of the 98th percentile of the annual distribution of the predicted daily maximum 1-hr concentrations determined for each receptor. The annual PM_{2.5} GLCmax is the highest five-year average of the annual predicted concentrations determined for each receptor. The annual NO₂ GLCmax is the maximum predicted concentration associated with five years of meteorological data.

The primary NAAQS for 24-hr and annual SO₂ have been revoked for Nueces County and are not reported above.

Background concentrations for SO₂ were obtained from the EPA AIRS monitor 483550025 at 902 Airport Blvd, Corpus Christi, Nueces County. The three-year (2017-2019) average of the 99th percentile of the annual distribution of daily maximum 1-hr concentrations was used for the 1-hr value. The second highest 3-hr average concentration from the most recent year (2019) was used for the 3-hr value. The applicant did not consider monitoring data from most recent year (2020). The ADMT reviewed monitoring data from 2018-2020 and determined that the overall modeling result will not be affected. Use of this monitor is reasonable based on its proximity to the project site and the applicant's comparison of emissions within 10 km of the monitor and project site and surrounding land use.

A background concentration for PM₁₀ was obtained from the EPA AIRS monitor 483550034 at 5707 Up River Rd., Corpus Christi, Nueces County. The high second-high concentration from the most recent three years of monitoring data (2017-2019) was used for the 24-hr value. The applicant did not consider monitoring data from most recent year (2020). The ADMT reviewed monitoring data from 2018-2020 and determined that the overall modeling result will not be affected. Use of this monitor is reasonable based on its proximity to the

project site and the applicant's comparison of emissions within 10 km of the monitor and project site and surrounding land use.

Background concentrations for PM_{2.5} were obtained from the EPA AIRS monitor 483550034 at 5707 Up River Rd., Corpus Christi, Nueces County. The three-year (2017-2019) average of the 98th percentile of the annual distribution of 24-hr concentrations was used for the 24-hr value. The 3-year (2017-2019) average of the annual average concentrations was used for the annual value. The applicant did not consider monitoring data from most recent year (2020). The ADMT reviewed monitoring data from 2018-2020 and determined that the overall modeling result will not be affected. The first and third quarters of 2018 monitoring data were incomplete as well as the fourth quarter of 2020 monitoring data. The third quarter of 2018 and the fourth quarter of 2020 are less than 50% complete and the ADMT substituted each quarter with the corresponding data from EPA AIRS monitor 483550032 located at 3810 Huisache St., Corpus Christi, Nueces County and verified the overall modeling result will not be affected. Using data from the nearby monitor is reasonable since the distance between the two monitors is approximately three kilometers. For the first quarter, the ADMT performed the substitution test as outlined in Appendix N to 40 CFR Part 50 and verified the validity of using 2018 monitoring data. Use of this monitor is reasonable based on the applicant's comparison of emissions within 10km of the monitor and project site, surrounding land use, and a review of the surrounding industries. In addition, the applicant explicitly modeled nearby off-property sources of PM_{2.5}.

Background concentrations for NO₂ were obtained from the EPA AIRS monitor 482011050 at 4522 Park Rd, Seabrook, Harris County. The three-year (2017-2019) average of the 98th percentile of the annual distribution of daily maximum 1-hr concentrations was used for the 1-hr value. The annual average concentration from the most recent year (2019) was used for the annual value. The applicant did not consider monitoring data from most recent year (2020). The ADMT reviewed monitoring data from 2018-2020 and determined that the overall modeling result will not be affected. Use of this monitor is reasonable based on the applicant's comparison of emissions within 10km of the monitor and project site, surrounding land use, county population and emissions comparison and a review of the surrounding industries. In addition, the applicant explicitly modeled nearby off-property sources of NO₂.

As stated above, to evaluate secondary PM_{2.5} impacts, the applicant provided an analysis based on a Tier 1 demonstration approach consistent with the EPA's GAQM. Specifically, the applicant used a Tier 1 demonstration tool developed by the EPA referred to as MERPs. Using data associated with the worst-case Texas source, the applicant estimated 24-hr and annual secondary PM_{2.5} concentrations of 0.04 µg/m³ and 0.001 µg/m³, respectively. When these estimates are added to the GLCmax listed in Table 6 above, the results are less than the NAAQS.

The applicant provided a health effects review as specified in the TCEQ's March 2018 Modeling and Effects Review Applicability (MERA) guidance for project emission increases of non-criteria pollutants. A summary of the review for the pollutants with allowable emissions increases is included below in Table 7 below.

Table 7. Health Effects Review - Minor NSR Project-Related Modeling Results

| Pollutant & CAS# | Averag- ing Time | GLCmax (µg/m³) | ESL (µg/m³) | Modeling and Effects Review Applicability (MERA) Step in Which Pollutant Screened Out |
|-------------------------------------|---------------------------------|---------------------------|------------------------|--|
| Ammonia 7664-41- 7 | 1-hr | 3 | 180 | Step 4 – Production project-related results since most recent site-wide modeling GLCmax ≤ 25% of ESL, and Production Project GLCmax ≤ 10% of ESL |
| | Annual | N/A | 92 | Step 0 – long-term ESL ≥ 10% of short-term ESL |
| Refinery light 8006-61- 9 | 1-hr | 108 | 3500 | Step 4 – Production project-related results since most recent site-wide modeling GLCmax ≤ 25% of ESL, and Project Production GLCmax ≤ 10% of ESL |
| | | 704 (MSS) | | Step 4 - GLCmax ≤ 50% ESL site-wide MSS modelling, GLCmax ≤ 25% ESL project MSS only |
| | Annual | NA | 350 | Step 0 – long-term ESL ≥ 10% of short-term ESL |
| Refinery heavy 64741- 88-4 | 1-hr | 100 | 1000 | Step 4 – Production project-related results since most recent site-wide modeling GLCmax ≤ 25% of ESL, and Project Production GLCmax ≤ 10% of ESL |
| | | 108 (MSS) | | Step 4 - GLCmax ≤ 50% ESL site-wide MSS modelling, GLCmax ≤ 25% ESL project MSS only |
| | Annual | NA | 100 | Step 0 – long-term ESL ≥ 10% of short-term ESL |

Thus, the applicant has demonstrated that the proposed project's emissions will not adversely affect public health and welfare, which includes the NAAQS, additional impacts, minor new source review of regulated pollutants without a NAAQS, and air toxics review. Therefore, the proposed increases in health effects pollutants will not cause or contribute to any federal or state exceedances. Therefore, emissions from the facility are not expected to have an adverse impact on public health or the environment.

VIII. Conclusion

The applicant has demonstrated the project meets all applicable rules, regulations, and requirements of the Texas and Federal Clean Air Acts. The proposed facilities and controls represent BACT for the proposed facility. Modeling analyses indicate that the proposed project will not violate the NAAQS or any PSD increment, nor have any adverse impacts on the public health, soils, vegetation, or Class I areas.

The Executive Director makes a preliminary recommendation to issue Permit Nos. 2937 and PSDTX1023M3.

Emission Sources - Maximum Allowable Emission Rates

Permit Numbers 2937 and PSDTX1023M3

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities, sources, and related activities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

Air Contaminants Data

| Emission Point No. (1) | Source Name (2) | Air Contaminant Name (3) | Emission Rates | |
|---|--|--------------------------|----------------|---------|
| | | | lbs/hour | TPY (4) |
| REFFUG | Refinery Fugitives Subcap (5) | VOC | 63.25 | 277.00 |
| | | NH ₃ | 0.04 | 0.15 |
| | | H ₂ S | 1.41 | 6.19 |
| Various | Tanks Subcap | VOC | 198.61 | 42.15 |
| | | H ₂ S | 0.03 | 0.04 |
| EP-FLARE-1, HCU-FL1, REF2-FL1, WP-FLARE1, SRU1-FLARE, SRU2-FLARE, SWS-FLARE | Flares Subcap | NO _x | 25.99 | 33.52 |
| | | CO | 187.87 | 172.78 |

| | | H ₂ S | --- | 1.98 |
| SMR2-DG V1 | DG Vent Condenser | VOC | 0.01 | 0.03 |
| | | CO | 0.56 | 2.45 |
| | | NH ₃ | 0.01 | 0.04 |

(1) Emission point identification - either specific equipment designation or emission point number from plot plan.

(2) Specific point source name. For fugitive sources, use area name or fugitive source name.

(3) VOC - volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1

NO_x - total oxides of nitrogen

SO₂ - sulfur dioxide

PM - total particulate matter, suspended in the atmosphere, including PM₁₀ and PM_{2.5}, as represented

Emission Sources - Maximum Allowable Emission Rates

- PM₁₀ - total particulate matter equal to or less than 10 microns in diameter, including PM_{2.5}, as represented
- PM_{2.5} - particulate matter equal to or less than 2.5 microns in diameter
- CO - carbon monoxide
- H₂S - hydrogen sulfide
- NH₃ - ammonia

- (4) Compliance with annual emission limits (tons per year) is based on a 12 month rolling period.
- (5) Emission rate is an estimate and is enforceable through compliance with the applicable special condition(s) and permit application representations.
- (6) The maintenance, startup, and shutdown (MSS) emission caps are independent of the routine operating emission limits. The emission points and activities authorized under the MSS emission caps are identified in Attachment 4 to this permit.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

March 4, 2022

THE HONORABLE BARBARA CANALES
COUNTY JUDGE
COUNTY COURTHOUSE
901 LEOPARD STREET
CORPUS CHRISTI TX 78401

Re: Prevention of Significant Deterioration Permit
Permit Numbers: 2937 and PSDTX1023M3
Valero Refining-Texas, L.P.
Bill Greehey Refinery East Plant
Corpus Christi, Nueces County
Regulated Entity Number: RN100211663
Customer Reference Number: CN600127468

Dear Judge Canales:

This letter serves as notification that the Texas Commission on Environmental Quality (TCEQ) has completed the technical review of the above application and has prepared a preliminary decision and draft permit. Valero Refining-Texas, L.P. is now required to publish notice which would authorize modification to the Bill Greehey Refinery East Plant at 1300 Cantwell Ln, Corpus Christi, Nueces County, Texas 78407. You may view the following documents through the Texas Commission on Environmental Quality Web site at www.tceq.texas.gov/goto/cid: the TCEQ's preliminary decision which includes the draft permit, the TCEQ's preliminary determination summary, the air quality analysis, and, once available, the TCEQ's response to comments and the final decision on this application. Access the Commissioners' Integrated Database (CID) using the above link and enter the permit number for this application. We will accept comments concerning the proposed project for a period of 30 days following publication of the public notice.

Sincerely,

A handwritten signature in black ink, appearing to read "Samuel Short", with a long horizontal line extending to the right.

95067

TEXAS
COMMISSION ON ENVIRONMENTAL QUALITY
CHIEF CLERK'S OFFICE
905 AUG 25 PM 2:50

| | |
|--|-----------------------------------|
| Applicant Name: Valero Refining – Texas, L.P. | |
| Site or Facility Name: Bill Greehy Refinery – East Plant | |
| TCEQ Account Number (if applicable): NE-0043-A | Permit Number: 2937 PSD-TX-1023M3 |
| Regulated Entity Number (RN): 100211663 | Customer Number (CN): 600127468 |

All applicants must **complete all applicable** portions of this form. Send this completed form to the TCEQ to the attention of the Office of the Chief Clerk **within 10 business days after the end of the designated comment period**. For more information regarding public notice, refer to the instructions in the public notice package.

Alternative Language Checklist

| | |
|--|---|
| I have contacted the appropriate school district. | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| School District: Corpus Christi Independent School District | Phone Number: (361) 878-2572 |
| Person Contacted: Elizabeth Hanna | Date: 8/20/2015 |
| Is a bilingual education program (BEP) required by the Texas Education Code in the district? | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |

If answer is "NO," skip to first question in verification box on next page.
(Note: A BEP is different from "English as a Second Language" (ESL) program; and Elementary/Middle schools that only offer ESL will not trigger notice in an alternative language.)

Notice in an alternative language is required if a BEP **is required** in the District, and **one** of the following conditions is met:

| | |
|--|---|
| 1. students in the elementary or middle school nearest the facility are enrolled in a program at that school; | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 2. students from the elementary or middle school nearest the facility attend a BEP at another location; or | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 3. the school district that otherwise would be required to provide a BEP has been granted an exception from the requirements to provide the program, as provided for in 19 Texas Administrative Code 89.1207(a). | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |

If the answer is "NO" to **1, 2, and 3 above**, then alternative language notice **is not required**.

The name of the elementary school nearest to the proposed or existing facility is:

Oak Park Elementry

The name of the middle school nearest to the proposed or existing facility is:

Driscoll Middle School

The following language(s) is/are utilized in the bilingual program:

Spanish

If notice in an alternative language is required, then applicants must publish alternative language notice(s) and post alternative language sign(s), as outlined in the Instructions for Public Notice and certify compliance with those requirements on this form.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF RECEIPT OF APPLICATIONS AND INTENT TO OBTAIN AIR PERMIT AMENDMENT AND RENEWAL

STATE AIR QUALITY PERMIT NUMBER 2937 AND PSD PERMIT NUMBER PSDTX1023M3

APPLICATION Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment and renewal of State Air Quality Permit Number 2937 and modification to Prevention of Significant Deterioration (PSD) Air Quality Permit Number PSDTX1023M3, which would authorize modifications to and continued operation of the Bill Greehey

Refinery East Plant located at 1300 Cantwell Lane, Corpus Christi, Nueces County, Texas 78407. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.807222&lng=-97.446111&zoom=13&type=r>. The facility will emit the following air contaminants: organic compounds, nitrogen oxides, sulfur dioxide, carbon monoxide, particulate matter including diameters of 10 microns or less and 2.5 microns or less, hydrogen sulfide and hazardous air pollutants.

The applications were submitted to the TCEQ on October 31, 2014. The permit renewal will be issued in conjunction with the amendment and the PSD modification. This permitting action also includes the incorporation of the following previous authorizations or changes to authorized facilities related to this permit: amendments, alterations, permits by rule, standard permits and changes to emission factors. The reasons for any changes or incorporations, to the extent they are included in the renewed permit, may include the enhancement of operational control at the plant or enforceability of the permit. The applications will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and the Owens R. Hopkins Public Library, 3202 McKenzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review in the Corpus Christi regional office of the TCEQ.

The executive director has determined the applications are administratively complete and will conduct a technical review of the applications.

PUBLIC COMMENT/PUBLIC MEETING You may submit public comments, a request for a public meeting or, request a contested case hearing to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. After the deadline for public comments, the executive director will prepare a response to all public comments.

The purpose of a public meeting is to provide the opportunity to submit comments or ask questions about the application. A public meeting will be held if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing.

After technical review of the application is complete, the executive director may prepare a draft permit and will issue a preliminary decision on the application. Notice of Application and Preliminary Decision for an Air Quality Permit will then be published and mailed to those who made comments, submitted hearing requests or are on the mailing list for this application. That notice will contain the final deadline for submitting public comments.

OPPORTUNITY FOR A CONTESTED CASE HEARING You may request a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in state district court. **Unless a written request for a contested case hearing is filed within 30 days from this notice, the executive director may approve the application.** A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on those issues raised during the public comment period and not withdrawn.

A person who may be affected by emissions of air contaminants from the facility is entitled to request a hearing. If requesting a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official

representative), mailing address, daytime phone number, and fax number, if any; (2) applicant's name and permit number; (3) the statement "[I/we] request a contested case hearing"; (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; and (6) a description of how you use the property which may be impacted by the facility. If the request is made by a group or an association, the one or more members who have standing to request a hearing and the interests which the group or association seeks to protect, must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns.

Additional notice will be provided. If a hearing request is timely filed, following the close of all applicable comment and request periods, the executive director will forward the application and any requests for contested case hearing to the Commissioners for their consideration at a scheduled Commission meeting. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact relating to relevant and material air quality concerns raised during the comment period.** Issues such as property values, noise, traffic safety, and zoning are outside of the Commission's jurisdiction to address in this proceeding.

MAILING LIST In addition to submitting public comments, you may ask to be placed on a mailing list to receive future public notices for this specific application mailed by the Office of the Chief Clerk by sending a written request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION

Public comments and requests must be submitted either electronically at www.tceq.texas.gov/about/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. If you communicate with the TCEQ electronically, please be aware that your email address, like your physical mailing address, will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1 800 687 4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas, L.P., P.O. Box 9370, Corpus Christi, Texas 78469-9370 or by calling Ms. Kelli Coates, Senior Environmental Engineer at (361) 289-3258.

Notice Issuance Date: November 6, 2014

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

November 6, 2014

MR DENNIS PAYNE
VICE PRESIDENT AND GENERAL MANAGER
VALERO REFINING-TEXAS LP
PO BOX 9370
CORPUS CHRISTI TX 78469-9370

Re: Declaration of Administrative Completeness
State Permit Amendment and Renewal and Prevention of Significant
Deterioration (PSD) Modification Applications
State Air Quality Permit Number 2937 and
PSD Air Quality Permit Number PSDTX1023M3
Bill Greehey Refinery East Plant
Corpus Christi, Nueces County
Customer Reference Number: CN600127468
Regulated Entity Number: RN100211663

Dear Mr. Payne:

The executive director has declared the above-referenced applications, received on October 31, 2014, administratively complete on November 6, 2014.

You are now required to publish notice of your proposed activity. To help you meet the regulatory requirements associated with this notice, we have included the following items:

- Notices for Newspaper Publication (Examples A and B)
- Sign Posting Example (Example C)
- Public Notice Checklist
- Instructions for Public Notice
- Affidavit of Publication for Air Permitting (Form TCEQ-20533) and
- Alternative Language Affidavit of Publication for Air Permitting (Form TCEQ-20534)
- Web link to download Public Notice Verification Form (refer to Public Notice Instructions)
- Notification List

Please note that it is very important that you follow all directions in the enclosed instructions. If you do not, you may be required to republish the notice. Some common errors are the unauthorized changing of notice wording or font, omission of air contaminants, and inaccurate plant site location information represented in the application. Additional information can be found at www.tceq.texas.gov/permitting/air/bilingual/how1_2_pn.html or **if you have any questions, please contact us before you proceed with publication.**

Mr. Dennis Payne

Re: State Air Quality Permit Number 2937 and
PSD Air Quality Permit Number PSDTX1023M3

A "Public Notice Checklist" is enclosed which notes the time limitations for each step of the public notice process. **The processing of your application may be delayed if these time limitations are not met (i.e.; submitting proof of publication of the notice within 10 business days after publication, affidavits of publication within 30 calendar days after the date of publication, and public notice verification form within 10 business days after the end of the designated comment period).** This checklist should be used as a tool in conjunction with the enclosed, detailed instructions.

If you do not comply with **all** requirements described in the instructions, further processing of your application may be suspended or the agency may take other actions. Please note that as your application undergoes the technical review, we may request additional information.

If you have any questions regarding publication requirements, please contact the Office of the Chief Clerk at (512) 239-3300. If you have any other questions, please contact Ms. Toni Oyler at (512) 239-1311.

Sincerely,

Johnny D. Bowers, Team Leader
Air Permits Initial Review Team
Air Permits Division
Texas Commission on Environmental Quality

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

EXAMPLE A

NOTICE OF RECEIPT OF APPLICATIONS AND INTENT TO OBTAIN AIR PERMIT AMENDMENT AND RENEWAL

STATE AIR QUALITY PERMIT NUMBER 2937 AND
PSD PERMIT NUMBER PSDTX1023M3

APPLICATION Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to and renewal of State Air Quality Permit Number 2937 and modification to Prevention of Significant Deterioration (PSD) Air Quality Permit Number PSDTX1023M3, which would authorize modifications to and continued operation of the Bill Greehey Refinery East Plant located at 1300 Cantwell Lane, Corpus Christi, Nueces County, Texas 78407. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.

<http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.807222&lng=-97.446111&zoom=13&type=r>. The facility will emit the following air contaminants: organic compounds, nitrogen oxides, sulfur dioxide, carbon monoxide, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less, hydrogen sulfide and hazardous air pollutants.

The applications were submitted to the TCEQ on October 31, 2014. The permit renewal will be issued in conjunction with the amendment and the PSD modification. This permitting action also includes the incorporation of the following previous authorizations or changes to authorized facilities related to this permit: amendments, alterations, permits by rule, standard permits and changes to emission factors. The reasons for any changes or incorporations, to the extent they are included in the renewed permit, may include the enhancement of operational control at the plant or enforceability of the permit. The applications will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and the Owens R. Hopkins Public Library, 3202 McKenzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review in the Corpus Christi regional office of the TCEQ.

The executive director has determined the applications are administratively complete and will conduct a technical review of the applications.

PUBLIC COMMENT/PUBLIC MEETING You may submit public comments, a request for a public meeting or, request a contested case hearing to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. After the deadline for public comments, the executive director will prepare a response to all public comments.

The purpose of a public meeting is to provide the opportunity to submit comments or ask questions about the application. A public meeting about the application will be held if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing.

After technical review of the application is complete, the executive director may prepare a draft permit and will issue a preliminary decision on the application. Notice of Application and Preliminary Decision for an Air

Quality Permit will then be published and mailed to those who made comments, submitted hearing requests or are on the mailing list for this application. That notice will contain the final deadline for submitting public comments.

OPPORTUNITY FOR A CONTESTED CASE HEARING You may request a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in state district court. **Unless a written request for a contested case hearing is filed within 30 days from this notice, the executive director may approve the application.** A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on those issues raised during the public comment period and not withdrawn.

A person who may be affected by emissions of air contaminants from the facility is entitled to request a hearing. If requesting a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number, and fax number, if any; (2) applicant's name and permit number; (3) the statement "[I/we] request a contested case hearing"; (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; and (6) a description of how you use the property which may be impacted by the facility. If the request is made by a group or an association, the one or more members who have standing to request a hearing and the interests which the group or association seeks to protect, must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns.

Additional notice will be provided. If a hearing request is timely filed, following the close of all applicable comment and request periods, the executive director will forward the application and any requests for contested case hearing to the Commissioners for their consideration at a scheduled Commission meeting. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact relating to relevant and material air quality concerns raised during the comment period.** Issues such as property values, noise, traffic safety, and zoning are outside of the Commission's jurisdiction to address in this proceeding.

MAILING LIST In addition to submitting public comments, you may ask to be placed on a mailing list to receive future public notices for this specific application mailed by the Office of the Chief Clerk by sending a written request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION Public comments and requests must be submitted either electronically at www.tceq.texas.gov/about/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. If you communicate with the TCEQ electronically, please be aware that your email address, like your physical mailing address, will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas, L.P., P.O. Box 9370, Corpus Christi, Texas 78469-9370 or by calling Ms. Kelli Coates, Senior Environmental Engineer at (361) 289-3258.

Notice Issuance Date: November 6, 2014

Example B

Publication Elsewhere in the Newspaper:

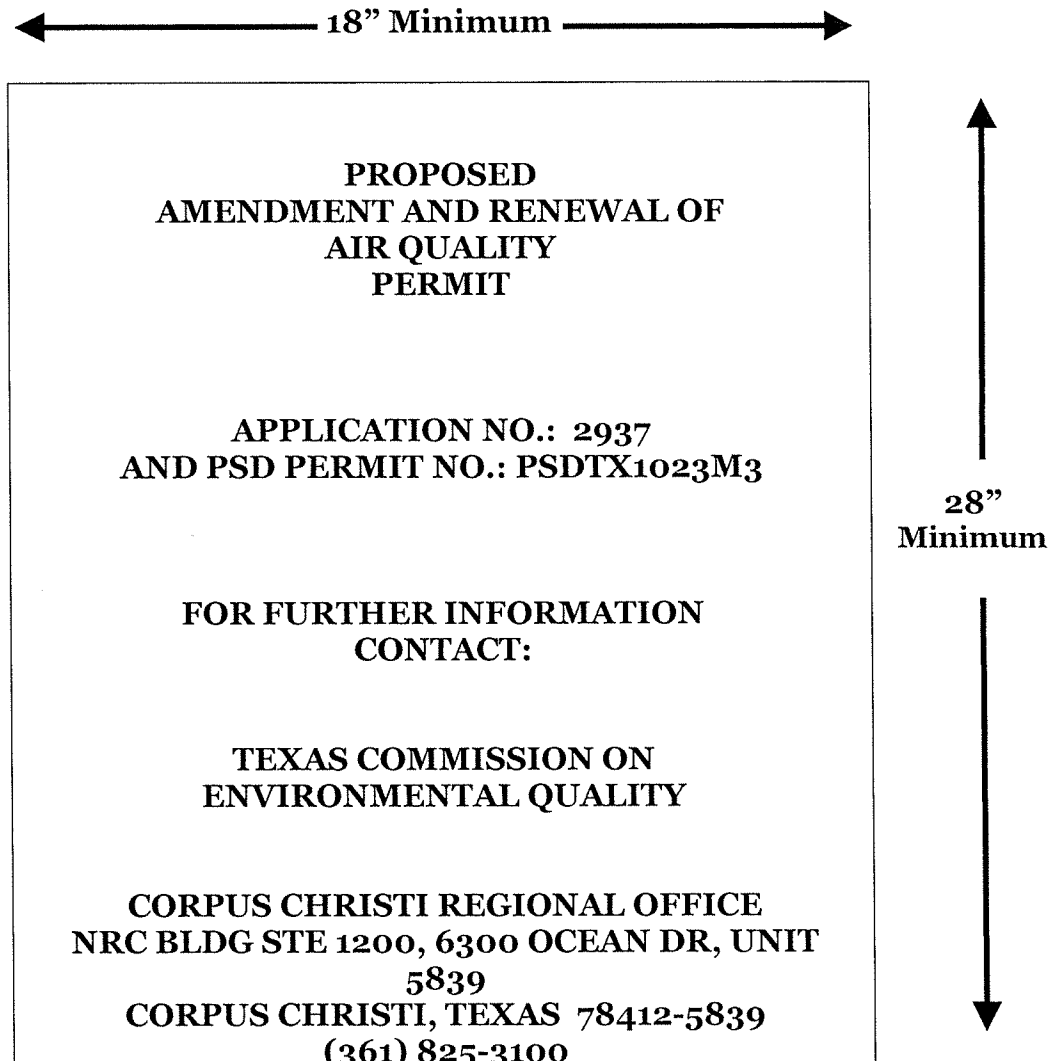

TO ALL INTERESTED PERSONS AND PARTIES:

Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to and renewal of State Air Quality Permit Number 2937 and modification to Prevention of Significant Deterioration (PSD) Air Quality Permit Number PSDTX1023M3, which would authorize modifications to and continued operation of the Bill Greehey Refinery East Plant located at 1300 Cantwell Lane, Corpus Christi, Nueces County, Texas 78407. Additional information concerning this application is contained in the public notice section of this newspaper.

Example C
Sign Posting

Sign(s) must be in place on day of publication of first newspaper notice **and must remain in place and the lettering must be legible during that designated comment period (30 days)**. It is recommended that the signs remain in place until 30 days after the last newspaper publication of the second notice (either English or alternate language notice, whichever is later). Note - The information shown is an example only. It is your responsibility to verify that the appropriate information pertaining to your application is accurate. Each sign placed at the site must be located within 10 feet of each (every) property line paralleling a public highway, street or road. Signs must be visible from the street and spaced at not more than 1,500-foot intervals. A minimum of one sign, but not more than three signs shall be required along any property line paralleling a public highway, street, or road.

Sign(s) must be placed at whatever height above the ground is necessary for sign(s) to be 100% visible from the street.

WHITE BACKGROUND WITH BLACK LETTERS

All lettering must be no less than 1-1/2 inch block printed capitals.

EXAMPLE F
SIGN POSTING

Sign(s) must be in place on day of publication of first newspaper notice and must remain in place and be legible during that designated comment period (30 days). These signs must remain in place until 30 days after the last newspaper publication of the second notice (either English or alternate language notice, whichever is later). Note - The information shown is an example only. It is your responsibility to verify that the appropriate information pertaining to your application is accurate. Each sign placed at the site must be located within 10 feet of each (every) property line paralleling a public highway, street or road. Signs must be visible from the street and spaced at not more than 1,500-foot intervals. A minimum of one sign, but not more than three signs shall be required along any property line paralleling a public highway, street, or road.

Public Notice Checklist
***Notice of Receipt of Application and Intent to Obtain Permit
(1st Notice)***

The following tasks must be completed for public notice. If publication in an alternative language is required, please complete the tasks for both the English and alternative language publications. Detailed instructions are included in the "Instructions for Public Notice" section of this package.

Within 30 calendar days after date of administrative completeness letter

Publish *Notice of Receipt of Application and Intent to Obtain Permit*

- Example A must be published in "public notice" section of newspaper. Review for accuracy prior to publishing.
- Example B must be published in prominent location (other than "public notice") in same issue of newspaper.

Provide copy of application at a public place for review and copying. Location selected must provide public access to the internet. Keep it there until end of the designated comment period.

Prepare signs.

First day of newspaper publication

Review published newspaper notice for accuracy. If errors, contact Air Permits Division.

Post signs and keep them up for duration of the designated comment period (see Example C).

Ensure copy of application is at the public place.

Within 10 business days after date of publication

Mail proof of publication showing publication date and newspaper name to:

Texas Commission on Environmental Quality
Office of the Chief Clerk, MC-105
Attn: Notice Team
P.O. Box 13087
Austin, Texas 78711-3087

Mail photocopies of newspaper clippings showing publication date and newspaper name to persons listed on *Notification List*

Within 30 calendar days after date of publication

Mail original affidavit of publication for air permitting and alternative language affidavit of publication for air permitting (if applicable) to:

Texas Commission on Environmental Quality
Office of the Chief Clerk, MC-105
Attn: Notice Team
P.O. Box 13087
Austin, Texas 78711-3087

Mail photocopies of affidavits to persons listed on *Notification List*

Within 10 business days after end of the designated comment period

Mail Public Notice Verification Form to:

Texas Commission on Environmental Quality
Office of the Chief Clerk, MC-105
Attn: Notice Team
P.O. Box 13087
Austin, Texas 78711-3087

Mail photocopies of Public Notice Verification Form to persons listed on *Notification List*

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Instructions for Public Notice For New Source Review Prevention of Significant Deterioration Air Permit

Notice of Receipt of Application and Intent to Obtain Permit

Your application has been declared administratively complete and now you must comply with the following instructions:

Review Notice

Included in the notice is all of the information which the commission believes is necessary to effectuate compliance with applicable public notice requirements. Please read it carefully and notify the Texas Commission on Environmental Quality (TCEQ) immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text of the notice without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed *Notice of Receipt of Application and Intent to Obtain Permit* within **30 calendar days** after the date of administrative completeness. Refer to the cover letter for the date of administrative completeness.
- You must publish the enclosed *Notice of Receipt of Application and Intent to Obtain Permit* at your expense, in a newspaper that is of general circulation in the municipality where the facility is or will be located. If the facility is not located within a municipality, the newspaper should be of general circulation in the municipality nearest to the location or proposed location.
- You must publish this notice in one issue of any applicable newspaper.
- You will find two example notices enclosed in this package. *Example A* must be published in the "public notice" section of the newspaper. The phrase "Example A" is not required to be published. *Example B* must be published in the **same issue** of the newspaper as *Example A*; however, it must be published in a prominent location (other than the public notice section). *Example B* refers the public to the "public notice" section of the newspaper where *Example A* provides more information regarding the permit application.
- *Example B* must be a total of at least **6 column inches (standard advertising units)** with a height of at least **3 inches** and a horizontal dimension of **2 column widths**. If the newspaper chosen does not use standard advertising units for measurement, the notice must be at least **12 square inches** with the shortest side at least 3 inches.

- The bold text of the enclosed notice **must** be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., **bold, italics**). **Failure to do so may require re-notice.**

Alternative Language Notice

In certain circumstances, applicants for air permits must complete notice in alternative languages.

- Public notice rules require the applicant to determine whether a bilingual program is required at either the elementary or middle school nearest to the facility or proposed facility location. Bilingual education programs are determined on a district-wide basis. When students who are required to attend either school are eligible to be enrolled in a bilingual education program, some alternative language notice is required (signs, or signs and newspaper notice).
- Since the school district, and not the schools, must provide the bilingual education program, these programs do not have to be located at the elementary or middle school nearest to the facility or proposed facility to trigger the alternative language notice requirement. If there are students who would normally attend the nearest schools eligible to be taught in a bilingual education program at a different location, alternative language notice is required.
- If triggered, publication of alternative language notices must be made in a newspaper or publication primarily printed in each language taught in the bilingual education program. This notice is required if such a newspaper or publication exists in the municipality or the county where the facility is or will be located.
- The applicant must demonstrate a good faith effort to identify a newspaper or publication in the required language. If a newspaper or publication of general circulation published at least once a month in such language cannot be found, publishing in that language is not required, but signs must still be posted adjacent to each English language sign.
- Publication in an alternative language section or insertion within an English language newspaper does not satisfy these requirements.
- The applicant has the burden to demonstrate compliance with these requirements. You must fill out the **Public Notice Verification Form (Form TCEQ-20244)** indicating your compliance with the requirements regarding publication in an alternative language. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**
- It is suggested the applicant work with the local school district to do the following:
 - (a) determine if a bilingual program is required in the district;
 - (b) determine which language is required by the bilingual program;
 - (c) locate the nearest elementary and middle schools; and
 - (d) determine if any students attending either school are eligible to be enrolled in a bilingual educational program.

- **If you determine that you must meet the alternative language notice requirements, you are responsible for ensuring that the publication in the alternative language is complete and accurate in that language. Spanish notice templates are available through the Air Permits Division Web site at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html. All italic notes should be replaced with the corresponding Spanish translations for the specific application and published in the alternative language publication.**
- If you are required to publish notice in a language other than Spanish, you must translate the entire public notice at your own expense.

Public Comment Period

- The public comment period should last at least **30 calendar days**. With the exception of renewals whose comment period should last at least **15 calendar days**.
- The comment period will be longer if the last day of the public comment period ends on a weekend or a holiday. In this case, the comment period will end on the next business day.
- The comment period for the permit may lengthen depending on whether a public meeting is held. If a public meeting is held, the comment period will be extended to the later of either the date of the public meeting or the end of the second notice period.

Proof of Publication

- Check each publication to ensure that the articles were accurately published. If a notice was not published correctly you may be required to republish.
- For each newspaper in which you published, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proofs of publication are 1) copies of the published notice or 2) the original newspaper clippings of the published notice. If you choose to submit copies of the published notice to the Office of the Chief Clerk, copies must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain original newspaper clippings or tear sheets of the notice for your records.
- You must submit an **original affidavit of publication for air permitting and alternate language affidavit of publication for air permitting (if applicable)** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **You must use the enclosed affidavits of publication.** The affidavits must clearly identify the applicant's name and permit number. You are encouraged to submit the affidavit with the proof of publication described above.
- You must submit the **Public Notice Verification Form (Form TCEQ-20244)** to the Office of the Chief Clerk within **10 business days** of the end of this public comment

period. You must use this form to certify that you have met bilingual notice requirements. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**

- The **original affidavits of publication, *Public Notice Verification Form*, and acceptable proof of publication of the published notices** must be mailed to:

Texas Commission on Environmental Quality
Office of the Chief Clerk, MC-105
Attn: Notice Team
P.O. Box 13087
Austin, Texas 78711-3087

- Please ensure that the affidavit(s) you send to the Chief Clerk is/are originals and that all blanks on the affidavit are filled in correctly. Photocopies of affidavits will not be accepted.
- Photocopies of newspaper clippings, affidavits, and verifications must also be sent to those listed on the enclosed *Notification List* within the deadlines specified above.

Failure to Publish and Submit Proof of Publication

You must meet all publication requirements. **If you fail to publish the notice or submit proof of publication on time, then** the TCEQ may suspend further processing on your application or take other actions.

Sign Posting

Applicants for air quality permits must also post signs.

- You must post at least one sign in English and as applicable, in each alternative language.
- Signs must be in place on the first day of publication in a newspaper and must remain in place and be legible and be visible from the street for the entire duration of the publications' designated comment period (see Example C).
- The sign template enclosed (*Example C*) is an example only. Read the sign template carefully and notify the TCEQ if it has an error or omissions. It is your responsibility to verify that the appropriate information pertaining to your application is accurate. Any changes to the text prepared by the TCEQ must be approved by the agency.
- Signs placed at the site must be located within 10 feet of each (every) property line paralleling a public street, road, or highway. Signs must be spaced at not more than 1,500-foot intervals. A minimum of one sign, but not more than three signs are required along any property line paralleling a public street, road, or highway. Sign(s) must be placed at a sufficient height above the ground that is necessary for sign(s) to be 100 percent visible from the street.
- All lettering on the sign must be no less than **1½"** in height with block printed capital lettering. The sign must be at least **18"** wide and **28"** tall, and consist of black lettering on a white background.

- Alternative language signs are required if alternative notice is required, even if no newspaper can be found.
- Inspect each posted sign daily to ensure it is present and visible throughout the entire comment period.
- You must submit verification of sign posting using the ***Public Notice Verification Form (Form TCEQ-20244)*** within **10 business days** after end of the publications' designated comment period. Do not submit the *Public Notice Verification Form* verifying sign posting until after the comment period is over. You cannot certify that the sign posting is in compliance until after the comment period is over. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**

Application in a Public Place

- You must provide a copy of the administratively complete application at a public place for review and copying by the public. This place must be in the county in which the facility is located or proposed to be located. The location must also provide public access to the internet.
- A public place is one that is publicly owned or operated. For example, libraries, county courthouses, or city halls.
- The administratively complete application must be available beginning on the first day of newspaper publication and remain available during the entire public comment period.
- If the application is submitted to the TCEQ with information marked as confidential, you are required to indicate which specific portions of the application are not being made available to the public. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the Texas Commission on Environmental Quality, Public Information Coordinator, MC-197, P.O. Box 13087, Austin, Texas 78711-3087."
- You must submit verification of file availability using the ***Public Notice Verification Form (Form TCEQ-20244)*** within **10 business days** after end of the publications' designated comment period. Do not submit the form verifying that the application was in a public place until after the comment period is complete. If a public meeting is held or second notice is required causing the public comment period to be extended, at a later date you will be required to verify that the application was in a public place during the entire public comment period. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**

General Information

When contacting the Commission regarding this application, please refer to the permit number at the top of the *Notice of Application and Intent to Obtain Permit*.

If you wish to obtain an electronic copy, please contact the initial reviewer who assisted in the preparation of this public notice package. The electronic version is available in Microsoft Word format only and can be requested once your application has been declared administratively complete. Please ensure that the electronic version is correct and consistent with the hard copies that were provided. Any revisions made may not be accepted. **You may download copies of the Public Notice Verification Form and Affidavits of publication by visiting our agency Web site at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**

If you have questions or need assistance regarding publication requirements, please contact the Office of the Chief Clerk at (512) 239-3300 or the administrative reviewer listed in the cover letter.
