RE: Notice of Hearing Package
Applicant Name: Valero Refining-Texas, L.P.
Facility Location: Nueces County, Texas
Air Quality Permit Numbers: 38754 and PSDTX324M15
Type of Authorization: Amendment

Dear Mr. McDonald and Ms. Marquard,

As you know, the Chief Clerk's Office has referred this matter over to the State Office of Administrative Hearings (SOAH) for a contested case hearing on your application.

SOAH will conduct a preliminary hearing via Zoom video conference at:

10:00 a.m. – May 22, 2023

You are now required to publish notice for this hearing. To help you meet the requirements associated with this notice, we have enclosed the following items:

- Notice for Newspaper Publication
- Instructions for Notice of Hearing
- Affidavit of Publication

Please note that it is VERY IMPORTANT that you follow ALL directions in the ENCLOSED INSTRUCTIONS. If you do not, you may be required to republish the notice. One of the most common mistakes we see is the unauthorized changing of notice wording or font. If you have any questions, please contact us before you proceed with publication.

The following items and time limitations are also described in the enclosed instructions. However, due to their importance, we want to highlight them for you.

1. Publish the enclosed notice within at least **30 calendar days** prior to the date of the hearing.
2. Return **acceptable proof of publication** of the complete notice, which shows publication date and newspaper name, to the TCEQ Office of the Chief Clerk within **10 business days** after notice is published in the newspaper.
3. File the original enclosed *Affidavit of Publication* with the TCEQ Office of the Chief Clerk within **30 calendar days** after the notice is published in the newspaper.

If you do not comply with all requirements described in the instructions, further processing of your application may be suspended or the commission may take other actions.

As required by 30 TAC § 80.118(c), the TCEQ Office of the Chief Clerk (OCC) will provide the administrative record to SOAH, and will retain one copy for its files. In addition, one copy of the administrative record will be provided to you by the OCC on CD. Neither SOAH nor TCEQ is responsible for providing additional copies to the parties. However, the OCC can provide copies upon request.

The administrative record is not in evidence until properly offered by motion of a party, and subsequently admitted by the Administrative Law Judge, pursuant to 30 TAC § 80.127(h). The party seeking admission of the administrative record must supply copies to the other parties in the proceeding at the time it is offered, or by agreement of the parties.

If you have any questions regarding publication requirements, or obtaining copies of the administrative record, please contact the SOAH Docket Clerk in the OCC at 512-239-3300. If you have any other questions, please contact Amanda Kraynok at 512-239-0633.

Sincerely,

Laurie Gharis
Chief Clerk

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF HEARING
Valero Refining-Texas, L.P.
SOAH Docket No. 582-23-14975
TCEQ Docket No. 2023-0203-AIR
Air Quality Permit Nos. 38754 and PSDTX324M15

APPLICATION.

Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit 38754 and modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, which would authorize modification to the Valero Corpus Christi Refinery West Plant at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. In addition, the facility will emit the following air contaminants: ammonia and hydrogen sulfide.

The degree of PSD increment predicted to be consumed by the existing facility and other increment-consuming sources in the area is as follows:

Sulfur Dioxide

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
24-hour	68	91
Annual	11	20

Nitrogen Dioxide

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
Annual	23	25

PM2.5

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
24-hour	8.9	9
Annual	2.9	4

The executive director has determined that the emissions of air contaminants from the existing facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and “best available control technology” will be used for the control of these contaminants.

This application was submitted to the TCEQ on September 30, 2021. The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director’s preliminary decision, draft permit, and the executive director’s preliminary determination summary and executive director’s air quality analysis, will be available for viewing and copying at the TCEQ Central Office, the TCEQ Corpus Christi Regional Office, and at the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility’s compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

DIRECT REFERRAL.

The Notice of Application and Preliminary Decision was published, in English and Spanish, on June 1, 2022. On January 13, 2023, the Applicant filed a request for direct referral to the State Office of Administrative Hearings (SOAH). Therefore, the chief clerk has referred this application directly to SOAH for a hearing on whether the application complies with all applicable statutory and regulatory requirements.

CONTESTED CASE HEARING.

Considering directives to protect public health, the State Office of Administrative Hearings (SOAH) will conduct a preliminary hearing via Zoom videoconference. A Zoom meeting is a secure, free meeting held over the internet that allows video, audio, or audio/video conferencing.

10:00 a.m. - May 22, 2023

To join the Zoom meeting via computer:

<https://soah-texas.zoomgov.com/>

Meeting ID: 160 460 1328

Password: TCEQ14975

or

To join the Zoom meeting via telephone:

(669) 254-5252 or (646) 828-7666

Meeting ID: 160 460 1328

Password: 404450777

**Visit the SOAH website for registration at: <http://www.soah.texas.gov/>
or call SOAH at 512-475-4993.**

The purpose of a preliminary hearing is to establish jurisdiction, name the parties, establish a procedural schedule for the remainder of the proceeding, and to address other matters as determined by the judge. The evidentiary hearing phase of the proceeding, which will occur at a later date, will be similar to a civil trial in state district court. The hearing will be conducted in accordance with the Chapter 2001, Texas Government Code; Chapter 382, Texas Health and Safety Code; TCEQ rules including 30 Texas Administrative Code (TAC) Chapter 116 Subchapters A and B; and the procedural rules of the TCEQ and SOAH, including 30 TAC Chapter 80 and 1 TAC Chapter 155.

To request to be a party, you must attend the hearing and show you would be affected by the application in a way not common to the general public. Any person may attend the hearing and request to be a party. Only persons named as parties may participate at the hearing.

In accordance with 1 Tex. Admin. Code § 155.401(a), Notice of Hearing, “Parties that are not represented by an attorney may obtain information regarding contested case hearings on the public website of the State Office of Administrative Hearings at www.soah.texas.gov, or in printed format upon request to SOAH.”

MAILING LIST.

You may ask to be placed on a mailing list to obtain additional information on this application by sending a request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION.

Public comments and requests must be submitted either electronically at www.tceq.texas.gov/agency/decisions/cc/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. If you communicate with the TCEQ electronically, please be aware that your email address, like your physical mailing address, will become part of the agency’s public record. For more information about this permit application, the permitting process, or the contested case hearing process, please call the Public Education Program toll free at 800-687-4040. Si desea información en Español, puede llamar al 800-687-4040. General information regarding the TCEQ may be obtained electronically at www.tceq.texas.gov

INFORMATION.

If you need more information about the hearing process for this application, please call the Public Education Program, toll free, at 800-687-4040. General information regarding the TCEQ can be found at www.tceq.texas.gov.

Persons with disabilities who need special accommodations at the hearing should call the SOAH Docketing Department at 512-475-4993, at least one week prior to the hearing.

Further information may also be obtained from Valero Refining-Texas, L.P. at the address stated above or by calling Ms. Meagan Marquard, Environmental Superintendent at 361-289-6000.

Issued: April 7, 2023

A handwritten signature in black ink that reads "Laurie Gharis". The signature is written in a cursive, flowing style.

Publication Elsewhere in the Newspaper:

TO ALL INTERESTED PERSONS AND PARTIES:

Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit Number 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit Number GHGPSDTX211 for emissions of GHGs, which would authorize modification to a Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. Additional information concerning this application is contained in the public notice section of this newspaper.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

INSTRUCTIONS FOR PUBLIC NOTICE Air Permits

NOTICE OF HEARING

A hearing was requested on issues related to your application and the Commission granted this request. The matter has been referred to the State Office of Administrative Hearings. Now you must comply with the following instructions:

Please Review Notice

We have included in the notice all of the information which we believe is necessary. Please read it carefully and notify us immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text of the notice or affidavit of publication without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed Notice of Hearing no less than **30** days before the hearing.
- You must publish the enclosed Notice of Hearing (Example A) at your expense, in the public notice section of a newspaper that is of general circulation in the municipality in which the facility is located or proposed to be located or in the municipality nearest to the location or proposed location of the facility.
- Example B must be published in the **same issue** of the newspaper as Example A; however, it must be published in a prominent location (other than the public notice section). Example B notice refers the public to the "public notice" section of the newspaper where Example A provides more information regarding the permit application.

- Example B must be a total of at least **6 column inches (standard advertising units)** with a vertical dimension of at least **3 inches** and a horizontal dimension of **2 column widths**. If the newspaper chosen does not use standard advertising units for measurement, the notice must be at least **12 square inches** with the shortest side of at least **3 inches**.
- Companies that meet the TCEQ's definition of a small business and will not have a significant impact on air quality are not required to publish Example B. Contact the TCEQ permit reviewer to determine if you qualify for this exemption.

Proof of Publication

- For each published notice, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proof of publication is 1) a copy of the published notice or 2) the original newspaper clipping of the published notice. If you choose to submit a copy of the published notice to the Office of the Chief Clerk, the copy must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain the original newspaper clipping or tear sheet of the notice for your records.
- You must submit a **publisher's affidavit** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **You must use the enclosed affidavit form**. The affidavit must clearly identify the applicant's name and permit number.
- You are encouraged to submit the affidavit with the proof of publication described above; however, the affidavit must be submitted no later than **30 calendar days** after publication of notice.
- The **publisher's affidavit** and **proof of publication of each published notice** may be filed with the Chief Clerk electronically at www.tceq.texas.gov/goto/efilings or mailed to:

TCEQ
Office of the Chief Clerk, MC-105
Attn: SOAH Docket Clerk
P.O. Box 13087
Austin, Texas 78711-3087

- Please ensure that the affidavit(s) you send to the Chief Clerk is/are originals and that all blanks on the affidavit are filled in correctly.

- You must furnish a copy of the notices and affidavits to the EPA regional administrator in Dallas, all local air pollution control agencies with jurisdiction in the county in which the construction is to occur; and the air pollution control agency of any nearby state in which air quality may be adversely affected by the emissions from the new or modified facility.

Failure to Publish and Submit Proof of Publication

You must meet all publication requirements. **If you fail to publish the notice or submit proof of publication on time, then** the TCEQ may suspend further processing on your application or take other actions.

General Information

When contacting the Commission regarding this application, please refer to the permit number and the TCEQ Docket number at the top of the Notice of Hearing.

If you have questions or need assistance regarding this notice, please contact the staff attorney listed in the cover letter or the SOAH Docket Clerk in the Office of the Chief Clerk at (512) 239-3300.

Applicant Name: Valero Refining – Texas, L.P.	
Site or Facility Name: Bill Greehey Refinery – West Plant	CHIEF CLERKS OFFICE
Application Received Date: 9/30/21	
TCEQ Account Number (if applicable): NE-0112-G	Permit Number: 38754, PSDTX324M15, GHGPSDTX211
Regulated Entity Number (RN): 100214386	Customer Number (CN): 600127468
All applicants must complete all applicable portions of this form. Send this completed form to the TCEQ to the attention of the Office of the Chief Clerk within 10 business days after the end of the designated comment period . For more information regarding public notice, refer to the instructions in the public notice package.	
Alternative Language Checklist	
I have contacted the appropriate school district. <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
School District: Corpus Christi Independent School District	Phone Number: (361) 878-2572
Person Contacted: Maria Perez	Date: 03/31/2022
Is a bilingual education program (BEP) required by the Texas Education Code in the district? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
If answer is "NO," skip to first question in verification box on next page. (Note: A BEP is different from "English as a Second Language" (ESL) program; and Elementary/Middle schools that only offer ESL will not trigger notice in an alternative language.)	
Notice in an alternative language is required if a BEP is required in the District, and one of the following conditions is met:	
1. students in the elementary or middle school nearest the facility are enrolled in a program at that school;	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2. students from the elementary or middle school nearest the facility attend a BEP at another location; or	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3. the school district that otherwise would be required to provide a BEP has been granted an exception from the requirements to provide the program, as provided for in 19 Texas Administrative Code 89.1207(a).	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If the answer is "NO" to 1, 2, and 3 above , then alternative language notice is not required .	
The name of the elementary school nearest to the proposed or existing facility is:	
Oak Park Elementary	
The name of the middle school nearest to the proposed or existing facility is:	
Driscoll Middle School	
The following language(s) is/are utilized in the bilingual program:	
Spanish	
If notice in an alternative language is required, then applicants must publish alternative language notice(s) and post alternative language sign(s), as outlined in the <i>Instructions for Public Notice</i> and certify compliance with those requirements on this form.

Public Notice Verification Form
Air Permit**

UD #: 125319

Applicant Name: Valero Refining – Texas, L.P.	
Site or Facility Name: Bill Greehey Refinery – West Plant	
Application Received Date: 9/30/21	
TCEQ Account Number (if applicable): NE-0112-G	Permit Number: 38754, PSDTX324M15, GHGPSDTX211
Regulated Entity Number (RN): 100214386	Customer Number (CN): 600127468
All applicants must complete all applicable portions of this form. Send this completed form to the TCEQ to the attention of the Office of the Chief Clerk within 10 business days after the end of the designated comment period . For more information regarding public notice, refer to the instructions in the public notice package.	
Alternative Language Checklist	
I have contacted the appropriate school district.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
School District: Corpus Christi Independent School District	Phone Number: (361) 878-2572
Person Contacted: Maria Perez	Date: 03/31/2022
Is a bilingual education program (BEP) required by the Texas Education Code in the district?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<p>If answer is "NO," skip to first question in verification box on next page. <i>(Note: A BEP is different from "English as a Second Language" (ESL) program; and Elementary/Middle schools that only offer ESL will not trigger notice in an alternative language.)</i></p>	
Notice in an alternative language is required if a BEP is required in the District, and one of the following conditions is met:	
1. students in the elementary or middle school nearest the facility are enrolled in a program at that school;	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2. students from the elementary or middle school nearest the facility attend a BEP at another location; or	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3. the school district that otherwise would be required to provide a BEP has been granted an exception from the requirements to provide the program, as provided for in 19 Texas Administrative Code 89.1207(a).	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If the answer is "NO" to 1, 2, and 3 above , then alternative language notice is not required .	
The name of the elementary school nearest to the proposed or existing facility is:	
Oak Park Elementary	
The name of the middle school nearest to the proposed or existing facility is:	
Driscoll Middle School	
The following language(s) is/are utilized in the bilingual program:	
Spanish	
If notice in an alternative language is required, then applicants must publish alternative language notice(s) and post alternative language sign(s), as outlined in the <i>Instructions for Public Notice</i> and certify compliance with those requirements on this form.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

EXAMPLE A

REVISED NOTICE OF PUBLIC MEETING FOR AIR QUALITY PERMITS

AIR QUALITY PERMIT NUMBERS 38754, PSDTX324M15, AND GHGPSDTX211

APPLICATION. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit GHGPSDTX211 for emissions of GHGs, which would authorize modification to the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. In addition, the facility will emit the following air contaminants: ammonia and hydrogen sulfide.

The degree of PSD increment predicted to be consumed by the existing facility and other increment-consuming sources in the area is as follows:

Sulfur Dioxide

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
24-hour	68	91
Annual	11	20

Nitrogen Dioxide

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
Annual	23	25

PM_{2.5}

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
24-hour	8.9	9
Annual	2.9	4

This application was submitted to the TCEQ on September 30, 2021. The executive director has determined that the emissions of air contaminants from the existing facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate.

This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.

<http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application, and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. At the conclusion of the comment period, all formal comments will be considered before a decision is reached on the permit application. A written response to all formal comments will be prepared by the executive director and will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

The Public Meeting is to be held:

Monday, July 11, 2022 at 7:00 PM
Corpus Christi Airport Hotel and Conference Center
5549 Leopard Street
Corpus Christi, TX 78408

INFORMATION. Members of the public are encouraged to submit written comments anytime during the public meeting or by mail before the close of the public comment period to the Office of the Chief Clerk, TCEQ, Mail Code MC-105, P.O. Box 13087, Austin, Texas 78711-3087 or electronically at <http://www.tceq.texas.gov/goto/comment>. If you need more information about the permit application or the permitting process, please call the TCEQ Public Education Program, toll free, at 1-800-687-4040. General information can be found at our Web site at www.tceq.texas.gov. *Si desea información en Español, puede llamar al 1-800-687-4040.*

The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas. Further information may also be obtained from Valero Refining-Texas L.P. at the address stated above or by calling Ms. Meagan Marquard, Superintendent Environmental at (361) 299-8913.

Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at 512-239-3300 or 1-800-RELAY-TX (TDD) at least five business days prior to the meeting.

Notice Issuance Date: June 14, 2022

COMISIÓN DE CALIDAD AMBIENTAL DE TEXAS

EJEMPLO A

AVISO DE REUNIÓN PÚBLICA REVISADO PARA PERMISOS DE CALIDAD DEL AIRE

PERMISO DE CALIDAD DEL AIRE PERMISOS 38754, PSDTX324M15 Y GHGPSDTX211

SOLICITUD. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ, por sus siglas en inglés) una enmienda al Permiso Estatal de Calidad del Aire 38754, modificación al Permiso de Prevención de Deterioro Significativo (PSD, por sus siglas en inglés) de Calidad del Aire PSDTX324M15, y emisión de Gases de Efecto Invernadero (GHG, por sus siglas en inglés) PSD Permiso de Calidad del Aire GHGPSDTX211 para emisiones de GHG, que autorizaría la modificación a la Planta Oeste de la Refinería Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. Esta solicitud se procesó de manera expedita, según lo permitido por las reglas de la comisión en 30 Código Administrativo de Texas, Capítulo 101, Subcapítulo J. La instalación existente emitirá los siguientes contaminantes del aire en una cantidad significativa: monóxido de carbono, óxidos de nitrógeno, compuestos orgánicos, material particulado, incluidas las partículas con diámetros de 10 micras o menos y 2.5 micras o menos y dióxido de azufre. Además, la instalación emitirá los siguientes contaminantes atmosféricos: amoníaco y sulfuro de hidrógeno.

El grado de incremento de la División del Sector Privado que se prevé que consumirán las instalaciones existentes y otras fuentes de consumo incremental en la zona es el siguiente:

Dióxido de Azufre

Tiempo Promedio Máximo	Máximo Incremento Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Permissible ($\mu\text{g}/\text{m}^3$)
24 horas	68	91
Anual	11	20

Dióxido de nitrógeno

Tiempo Promedio Máximo	Máximo Incremento Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Permissible ($\mu\text{g}/\text{m}^3$)
Anual	23	25

PM_{2.5}

Tiempo Promedio Máximo	Máximo Incremento Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Permissible ($\mu\text{g}/\text{m}^3$)
24 horas	8.9	9
Anual	2.9	4

Esta solicitud fue presentada a la TCEQ el 30 de septiembre de 2021. El director ejecutivo ha determinado que las emisiones de contaminantes atmosféricos de la instalación existente que están sujetas a la revisión de la DSP no violarán ninguna regulación estatal o federal de calidad del aire y no tendrán ningún impacto adverso significativo en los suelos, la vegetación o la visibilidad. Todos los contaminantes del aire han sido evaluados, y se utilizará la "mejor tecnología de control disponible" para el control de estos contaminantes.

El director ejecutivo ha completado la revisión técnica de la solicitud y ha preparado un proyecto de permiso que, de ser aprobado, establecería las condiciones en las que la instalación debe operar.

Este enlace a un mapa electrónico de la ubicación general del sitio o instalación se proporciona como cortesía pública y no como parte de la solicitud o aviso. Para conocer la ubicación exacta, consulte la solicitud. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

COMENTARIO PÚBLICO/REUNIÓN PÚBLICA. Puede enviar comentarios públicos a la Oficina del Secretario Oficial en la dirección a continuación. La TCEQ considerará todos los comentarios públicos al desarrollar una decisión final sobre la solicitud. Se convocará una reunión pública que constará de dos partes, un Periodo de Discusión Informal y un Periodo de Comentarios Formales. Una reunión pública no es una audiencia de caso impugnado en virtud de la Ley de Procedimiento Administrativo. Durante el Periodo de Discusión Informal, se alentará al público a hacer preguntas al solicitante y al personal de la TCEQ sobre la solicitud de permiso. Los comentarios y preguntas presentadas oralmente durante el Periodo de Discusión Informal no se considerarán antes de que se tome una decisión sobre la solicitud de permiso, y no se dará una respuesta formal. Las respuestas se proporcionarán oralmente durante el Periodo de Discusión informal. Durante el Periodo de Comentarios Formales sobre la solicitud de permiso, los miembros del público pueden declarar sus comentarios formales oralmente en el registro oficial. Al final del periodo de comentarios, todos los comentarios formales se considerarán antes de que se tome una decisión sobre la solicitud de permiso. El director ejecutivo preparará una respuesta por escrito a todos los comentarios formales y se enviará a cada persona que presente un comentario formal o que solicite estar en la lista de correo para esta solicitud de permiso y proporcione una dirección postal. Solo se pueden considerar las cuestiones relevantes y materiales planteadas durante el Periodo de Comentarios Formales si se concede una audiencia de caso impugnado en esta solicitud de permiso.

La Reunión Pública se llevará a cabo:

lunes, 11 de julio de 2022 a las 7:00 PM
Corpus Christi Airport Hotel and Conference Center
5549 Leopard Street
Corpus Christi, TX 78408

INFORMACIÓN. Se alienta a los miembros del público a enviar comentarios por escrito en cualquier momento durante la reunión pública o por correo antes del cierre del periodo de comentarios públicos a la Office of the Chief Clerk, TCEQ, Mail Code MC-105, P.O. Box 13087, Austin, Texas 78711-3087 o electrónicamente a <http://www.tceq.texas.gov/goto/comment>. Si necesita más información sobre la solicitud de permiso o el proceso de permisos, llame al Programa de Educación Pública de la TCEQ, sin cargo, al 1-800-687-4040. Puede encontrar información general en nuestro sitio web en www.tceq.texas.gov. *Si desea información en español, puede llamar al 1-800-687-4040.*

La solicitud de permiso, la decisión preliminar del director ejecutivo, el bosquejo del permiso y el resumen de determinación preliminar del director ejecutivo y el análisis de la calidad del aire del director ejecutivo, estarán disponibles para su visualización y copia en la oficina central de la TCEQ, la oficina regional de TCEQ Corpus Christi y en Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas. El archivo de cumplimiento de la instalación, si existe, está disponible para revisión pública en la Oficina Regional de la TCEQ Corpus Christi, 500 North Shoreline Boulevard, Suite 500,

Corpus Christi, Texas. También se puede obtener más información de Valero Refining-Texas L.P. en la dirección indicada anteriormente o llamando a la Srta. Meagan Marquard, Superintendente Ambiental al (361) 299-8913.

Las personas con discapacidades que necesiten acomodaciones especiales en la reunión deben llamar a la Oficina del Secretario Oficial al 512-239-3300 o al 1-800-RELAY-TX (TDD) al menos cinco días hábiles antes de la reunión.

Good Morning David and Meagan,

I apologize. My email below did not make sense. It was meant for Georgia. Her group is able to make the venue name change on both the Spanish and English notices to help save your group some time. TCEQ will plan to send an updated notice out later this week, if that works for you.

Sincerely,

Laurie

Laurie, does that mean we can keep the same date, or is there a 30-day requirement that would force pushing out the meeting date if we re-noticed?

Thanks,
David

Meagan,

I spoke to legal and the program, if you have time and are willing to update the notice (with correct location name), it could help eliminate potential questions. If this is the approach you choose, you would just need to send OCC the corrected notice as soon as possible, so that we could print and mail out the amended notice.

Sincerely,

Laurie

Good Afternoon Ms. Avalos

We were just made aware today that the Atrium Hotel & Convention Center was recently renamed Corpus Christi Airport Hotel and Conference Center at the end of May. The location is still the same. Are there any issues with this and the public notice that went out? If so, is there a possibility of re-issuing the notice with the correct name? Thank you!

Good morning,

I'm sorry for the delay as I was in travel for a public meeting in El Paso.

The public meeting notice does not require publication in a newspaper (English or Spanish) by the applicant or TCEQ. The public meeting notice requires mailed notice by TCEQ.

I will be back in the office tomorrow and send you the notice for applicant review and approval.

Good Morning Deanna –

I apologize for reaching out again, but wanted to add some context to the question I was asking regarding publishing the meeting notice yesterday.

If you all are in fact publishing,

1. Do you all plan to publish in the Spanish Paper as well?
 - a. If so, the Spanish Paper (Tejano y Gruperio) only publishes on the **1st and 15th of the month** and will need the templates by today/tomorrow in order to provide the proofs and publish by June 1st.
 - i. If we do not publish by June 1st, we will not meet the 30-day deadline to publish prior to the Public Meeting on July 11, 2022

The same would apply if Valero needs to publish. We will need the TCEQ approved template to provide to the Spanish Paper. Can you please get back to us as soon as possible to discuss? Thank you!

Hello Deanna-

Will we or the TCEQ be responsible for the publishing the meeting notice and, if it is us, what the timing is on getting the approved notice language from TCEQ?

It was my understanding it would be you all publishing my, but I would like to verify. I tried calling your office number, but was unable to reach you. Thank you!!

Good day Ms. Marquard,

I will be on travel for a public meeting the next couple of days, but I'll be checking email. Please submit the venue information by COB on Wednesday, May 25, 2022 so we may proceed with the review and issuance of the public meeting notice. For your convenience, the information we need is as follows:

- **Date of meeting:** Monday, July 11, 2022
- **Name of the venue where the meeting is going to be held** - Atrium Hotel & Convention Center
- **Physical address of venue** - 5549 Leopard Street, Corpus Christi, TX 78408
- **Contact name and phone number for the venue** – Darcy Schroeder, Valero – Corpus Christi, **361-299-3595**

Ms. Marquard,

Thank you for your quick response. I have reserved **Monday, July 11, 2022** for the public meeting on this application.

Please submit the following once you have finalized the venue (guidelines attached):

- **Date of meeting:** Monday, July 11, 2022
- **Name of the venue where the meeting is going to be held**
- **Physical address of venue**
- **Contact name and phone number for the venue**

Thank you,
Deanna Avalos

Good day Ms. Marquard,

I am following-up to ask if the applicant has determined their preferred date of the meeting? Please submit the meeting date selection by COB today even if you are still finalizing a venue.

At this time, we need to release the extraneous dates for a scheduling of another meeting within the same week.

Please let me know if you have questions.

Thank you,
Deanna Avalos

RE: Suggested dates for the Meeting: **July 11, 12, 14**

Dear Ms. Marquard:

I am writing to coordinate an in-person meeting regarding Valero Corpus Christi Refinery West Plant; Permit Nos. 38754, et. al..

The applicant is responsible for contracting a venue for the meeting. **Please see the attached guidelines for contracting a venue.** Once you have responded with the required information, TCEQ may proceed with the processing of the notice.

Please let me know if you have any questions.

Thank you,
Deanna Avalos

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY
 Notice of Draft Federal Operating Permit Draft Permit No.: 03869
 Application and Draft Permit. Buckeye Texas Processing LLC, 7209 Up River Rd, Corpus Christi, TX 78409-2817, has applied to the Texas Commission on Environmental Quality (TCEQ) for a renewal of Federal Operating Permit (herein referred to as Permit) No. 03869. Application No. 32049, to authorize operation of Corpus Christi Refining, a Petroleum Refineries facility. The area addressed by the application is located at 7209 Up River Rd in Corpus Christi, Nueces County, Texas 78409-2817. The location of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to the application. You can find an electronic map of the facility at: <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.818611&lng=-97.503888&zoom=13&type=1>. This application was received by the TCEQ on April 6, 2021. The purpose of a federal operating permit is to improve overall compliance with the rules governing air pollution control by clearly listing all applicable requirements, as defined in Title 30 Texas Administrative Code § 122.10 (30 TAC § 122.10). The draft permit, if approved, will codify the conditions under which the area must operate. The permit will not authorize new construction. The executive director has completed the technical review of the application and has made a preliminary decision to prepare a draft permit for public comment and review. The executive director recommends issuance of this draft permit. The permit application, statement of basis, and draft permit will be available for viewing and copying at the TCEQ Central Office, 12100 Park 35 Circle, Building E, First Floor, Austin, Texas 78753; the TCEQ Corpus Christi Regional Office, 500 N. Shoreline Blvd., Suite 500, Corpus Christi, Texas 78401-0318; and the La Retama Central Library, 805 Comanche St., Corpus Christi, Texas 78401-2715, beginning the first day of publication of this notice. The draft permit and statement of basis are available at the TCEQ Website: www.tceq.texas.gov/qaot/av/notice. At the TCEQ central and regional offices, relevant supporting materials for the draft permit, as well as the New Source Review permits which have been incorporated by reference, may be reviewed and copied. Any person with difficulties obtaining these materials due to travel con-

Public Notices

straints may contact the TCEQ central office file room at (512) 239-2900. Public Comment/Notice and Comment Hearing. Any person may submit written comments on the draft permit. Comments relating to the accuracy, completeness, and appropriateness of the permit conditions may result in changes to the draft permit. A person who may be affected by the emission of air pollutants from the permitted area may request a notice and comment hearing. The purpose of the notice and comment hearing is to provide an additional opportunity to submit comments on the draft permit. The permit may be changed based on comments pertaining to whether the permit provides for compliance with 30 TAC Chapter 122 (examples may include that the permit does not contain all applicable requirements or the public notice procedures were not satisfied). The TCEQ may grant a notice and comment hearing on the application if a written hearing request is received within 30 days after publication of the newspaper notice. The hearing request must include the basis for the request, including a description of how the person may be affected by the emission of air pollutants from the application area. The request should also specify the conditions of the draft permit that are inappropriate or specify how the preliminary decision to issue or deny the permit is inappropriate. All reasonably ascertainable issues must be raised and all reasonably available arguments must be submitted by the end of the public comment period. If a notice and comment hearing is granted, all individuals that submitted written comments or a hearing request will receive written notice of the hearing. This notice will identify the date, time, and location for the hearing. Written public comments and/or requests for a notice and comment hearing should be submitted to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087, or electronically at www14.tceq.texas.gov/epic/Comment/ and be received within 30 days after the date of newspaper publication of this notice. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. A notice of proposed final action that includes a response to comments and identification of any changes to the draft permit will be mailed to everyone who submitted public comments, a hearing request,

Public Notices

or requested to be on the mailing list for this application. This mailing will also provide instructions for public petitions to the U.S. Environmental Protection Agency (EPA) to request that the EPA object to the issuance of the proposed permit. After receiving a petition, the EPA may only object to the issuance of a permit which is not in compliance with the applicable requirements or the requirements of 30 TAC Chapter 122. Mailing List. In addition to submitting public comments, a person may ask to be placed on a mailing list for this application by sending a request to the Office of the Chief Clerk at the address above. Those on the mailing list will receive copies of future public notices (if any) mailed by the Chief Clerk for this application. Information for additional information about this permit application or the permitting process, please contact the Texas Commission on Environmental Quality, Public Education Program, MC-108, P.O. Box 13087, Austin, Texas 78711-3087 or toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040. Further information may also be obtained for Buckeye Texas Processing LLC by contacting Mr. Shahana Banoo at (361) 206-5620. Notice Issuance Date: May 12, 2022

THE CORPUS CHRISTI BUILDING STANDARDS BOARD
 met at 1:30 p.m. Thursday, May 26, 2022, in the City Council Chambers at 1201 Leopard Street for the purpose of determining whether a substandard structure exists on the properties listed below.
 The Board found that the properties listed below cannot be repaired because of the refusal of the owner or its intrinsic state of disrepair or both and is dilapidated or substandard, therefore, it shall be demolished within thirty (30) days:
 809 S Alameda St., Corpus Christi, Texas 78404
 813 S Alameda St., Corpus Christi, Texas 78404
 813 S Alameda St., aka 817 Alameda St., Corpus Christi, Texas 78404
 625 Atlantic St., Corpus Christi, Texas 78404
 110 Josephine St., aka 102 Josephine St., Corpus Christi, Texas 78401
 110 Josephine St., aka 106 Josephine St., Corpus Christi, Texas 78401
 11321 Leopard St., Corpus Christi, Texas 78410
 422 Linnet Ct., Corpus Christi, Texas 78418
 437 Military Dr., Corpus Christi, Texas 78418
 1343 Normandy Dr., Corpus Christi, Texas 78415

The Board found that the properties listed below can be repaired therefore, given the property owner thirty (30) days to repair

2849 Tuscarora St., Corpus Christi, Texas 78410

The Board found that the properties listed below can be repaired therefore, given the property owner thirty (30) days to present a plan and timeline securing the property

110 Josephine St., Corpus Christi, Texas 78401

The Board found that the properties listed below can be repaired therefore, given the property owner ninety (90) days to present a plan and timeline

2128 Peabody Ave., Corpus Christi, Texas 78407

The City of Corpus Christi will vacate, secure, re-build or demolish the occupants of the buildings if the actions ordered above are not taken within the allotted time.

In the event there are items of personal property on the premises to be demolished, the owner is ordered to remove personal property from the premises within 30 days. If such items of personal property are not removed from the premises within 30 days, they shall be placed in storage for a period of 90 days. During this period, they may be redeemed by the owner after all costs incurred in placing the items in storage and all accumulated storage fees have been paid. In the event the property is not redeemed within 90 days the City may cause the same to be sold at auction. The proceeds of the sale shall be used to pay for any costs incurred in the storage of the property and any excess amount shall be set off against the cost of demolition to be charged to the owner.

A complete copy of the Board's order may be obtained in the City Secretary's office.

Public Notices

BUILDING STANDARDS BOARD MEETING
 Pursuant to Chapter 13, Article 11, Section 13-22 of the City of Corpus Christi Code of Ordinances, generally known as The Corpus Christi Property Maintenance Code. There will be a public hearing before the Building Standards Board at 1:30 p.m. Thursday, June 23, 2022, in the City Council Chambers at 1201 Leopard Street for the purpose of determining whether a substandard structure exists on the following properties:
 4442 Abner Dr., Corpus Christi, Texas 78411
 9021 Caroline Rd., Corpus Christi, Texas 78407
 3145 Eisenhower St., Corpus Christi, Texas 78416
 1002 1/2 Francesca St., Corpus Christi, Texas 78405
 1040 Hancock Ave., Corpus Christi, Texas 78404
 2625 Milo St., Corpus Christi, Texas 78415
 925 National Dr., Corpus Christi, Texas 78416
 1220 Palm Dr., Corpus Christi, Texas 78407
 2212 Ruth St., Corpus Christi, Texas 78405
 4025 Santa Elena St., Corpus Christi, Texas 78405
 3016 Westgard Ln., Corpus Christi, Texas 78415
 5407 Wharton St., Corpus Christi, Texas 78415
 5310 Williams Dr., Corpus Christi, Texas 78415

The Board found that the properties listed below can be repaired therefore, given the property owner thirty (30) days to present a plan and timeline securing the property

All persons with an interest in this property are notified that the code official seeks orders from the Building Standards Board to repair, vacate or demolish any substandard structure which are determined to exist thereon. If the premises are to be vacated, the owner or occupant is required to come to the meeting and show cause why the remedy sought by the official should not be granted. The owner may appeal the decision of the Board to the City Council. If the order of the Board is not timely followed, the City may demolish the building and file a lien against the property to recover expenses.

REQUEST FOR QUALIFICATION FACILITY & SITE IMPROVEMENTS

The Port of Corpus Christi Authority (PCCA) is requesting Statements of Intent (SOI) from firms interested in providing Design-Build services for the Port Authority's New Maintenance Facility & Site Improvements Project.

Firms interested in providing design-build services for the above referenced project may obtain the complete Request for Qualifications (RFQ) at the PCCA's procurement website (<https://pcca.procurement.com/home>). Interested firms must register on the Port's procurement website in order to access the RFQ online.

In order to be considered, a SOI must be received by the PCCA, addressed to Port of Corpus Christi Authority, Attn: Lynn Angerstein, Director of Procurement Services, 400 Harbor Drive, Corpus Christi, Texas 78401, no later than 2:00 PM, Thursday, June 16, 2022 (the "Deadline"). SOIs received after the Deadline will not be considered. SOIs may not be faxed or emailed to the PCCA office. The PCCA reserves the right to reject any or all SOIs received.

Proposers must not attempt to contact Staff members, Commissioners, or Agents of the PCCA associated with this RFQ to discuss or ask questions about the contents of the RFQ. Any questions should be submitted in writing via the PCCA's Procurement website.

EU agrees to ban most Russian oil imports

Lorne Cook and Samuel Petrequin, ASSOCIATED PRESS

BRUSSELS - In the most significant effort yet to punish Russia for its war in Ukraine, the European Union agreed to ban the overwhelming majority of Russian oil imports after tense negotiations that tested how far the bloc is willing to go to ostracize Moscow.

From the moment Russia invaded on Feb. 24, the West has sought to make Moscow pay economically for its war. But targeting its lucrative energy sector was seen as a last resort in Europe and has proved hardest, since the bloc relies on Russia for 25% of its oil and 40% of its natural gas. European countries that are even more heavily dependent on Russia have been especially reluctant to act.

In a move unthinkable just months ago, EU leaders agreed late Monday to cut around 90% of all Russian oil imports over the next six months.

Belgian Prime Minister Alexander De Croo called the embargo a "big step forward," and Irish Prime Minister Micheal Martin hailed it as "a watershed moment."

"The sanctions have one clear aim: to prompt Russia to end this war and withdraw its troops and to agree with Ukraine on a sensible and fair peace," German Chancellor Olaf Scholz said.

Ukraine estimated the ban could cost Russia tens of billions of dollars.

"The oil embargo will speed up the countdown to the collapse of the Russian economy and war machine," Foreign Minis-

ter Dmytro Kuleba said. The deputy head of Russia's Security Council said that energy sanctions against the country are intended to hurt ordinary Russians by making it harder for Moscow to fund social programs.

"They hate us all! The basis for these decisions is hatred for Russia, for Russians and for all its inhabitants," Dmitry Medvedev, who is also a former president and prime minister, wrote on the Telegram messaging app.

Mikhail Ulyanov, Russia's permanent representative to international organizations in Vienna, appeared to shrug off the move, though, saying Moscow will find other buyers.

Still, analyst Simone Tagliapietra said Russia will probably have to sell its oil at a substantial discount. Tagliapietra, an energy expert and research fellow at the Brussels-based think tank Bruegel, called the embargo "a major blow."

Matteo Villa, an analyst at the ISPI think tank in Milan, agreed that Russia will take a pretty significant hit now but cau-

tioned that the move could eventually backfire.

"The risk is that the price of oil in general goes up because of the European sanctions. And if the price goes up a lot, the risk is that Russia starts to earn more, and Europe loses the bet," he said.

Russia has also not shied away from withholding its energy supplies, despite the economic damage it could suffer. Russian energy giant Gazprom said it cut off natural gas to Dutch trader GasTerra on Tuesday. It already stopped the flow to Bulgaria, Poland and Finland and is considering doing the same to Denmark.

GasTerra said homes would not be hit, since it bought gas elsewhere in anticipation of a shutdown.

The EU is also urging other countries to avoid placing trade barriers on farm products as Russia's war risks further fueling a global food crisis.

Ukrainian President Volodymyr Zelenskyy has said Russia has prevented the export of 22 million tons of Ukrainian grain, much of it meant

for people across the Middle East and Africa. He accused Moscow of "deliberately creating this problem."

In other developments, Russian forces have seized around half of a key city in eastern Ukraine, according to the mayor. Analysts have painted the battle for Sievierodonetsk as part of a race against time for the Kremlin: The city is key to Russian efforts to complete the capture of the eastern industrial region of the Donbas before more Western arms arrive to bolster Ukraine's defenses.

A court in Ukraine convicted two Russian soldiers of war crimes for the shelling of civilian buildings. It sentenced both to 15 years in prison, concluding the country's second war crimes trial since the Russian invasion.

The EU oil embargo, part of a new package of sanctions that will also target Russia's biggest bank and state media outlets accused of spreading propaganda, covers crude oil and petroleum products but has

Ukrainian tanks move into the Donetsk region of eastern Ukraine on Monday. FRANCISCO SECO/AP

an exception for oil delivered by pipeline.

That exception was demanded by Hungarian Prime minister Viktor Orban. Hungary gets more than 60% of its oil from Russia, much of it through the Soviet-era Druzhba pipeline.

The EU oil ban includes all Russian oil delivered by sea, which accounts for two-thirds of the EU's imports from Russia. Germany and Poland have announced they will stop using oil

from the northern branch of the Druzhba pipeline.

The compromise laid bare the increasing difficulty of reaching consensus among EU leaders when important national interests are in play.

Agreeing on another round of measures is likely to prove much tougher. Next on the agenda is whether to target natural gas, which is much harder to cut off. That's because it represents a larger percentage of Europe's energy mix.

TO ALL INTERESTED PERSONS AND PARTIES:

Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit Number 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit Number GHGPSDTX211 for emissions of GHGs, which would authorize modification to a Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. Additional information concerning this application is contained in the public notice section of this newspaper.

CC-00081154-01

TO ALL INTERESTED PERSONS AND PARTIES:

Equistar Chemicals, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for renewal of Air Quality Permit No. 83864, which would authorize continued operation of a Corpus Christi Complex located at 1501 McKinzie Road, Corpus Christi, Nueces County, Texas 78410. Additional information concerning this application is contained in the public notice section of this newspaper

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR AIR QUALITY PERMITS

AR QUALITY PERMIT NUMBERS 38754, PSDTX324M15, AND GHG6SDTX211

APPLICATION AND PRELIMINARY DECISION: Valero Refining-Texas, Corpus Christi, Texas (38754) has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit GHG6SDTX211, for emissions of GHGs which would otherwise constitute a violation of the Federal Corpus Christi Refinery West Plant located at 5300 Up River Road, Corpus Christi, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules, 30 Texas Administrative Code, Chapter 101, Subchapter J. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. In addition, the facility will emit the following air contaminants: ammonia and hydrogen sulfide.

The degree of PSD increments predicted to be contained by the existing facility and other increment-containing sources in the area is as follows:

Maximum Averaging Time	Maximum Increment Consumed (µg/m ³)	Allowable Increment (µg/m ³)
Annual	11	20

Maximum Averaging Time	Maximum Increment Consumed (µg/m ³)	Allowable Increment (µg/m ³)
Annual	23	25

Maximum Averaging Time	Maximum Increment Consumed (µg/m ³)	Allowable Increment (µg/m ³)
24-hour	8.9	15.0
3-hour	2.9	5.0

This application was submitted for PSD review on September 30, 2021. The executive director has determined that the emissions of air contaminants from the existing facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's final decision analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owen-H. Hopkins Public Library, 3002 McQueen Road, Corpus Christi, Bexar County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

INFORMATION AVAILABLE ONLINE: These documents are accessible through the Commission's Web site at www.tceq.texas.gov/online. If the executive director's preliminary decision which includes the draft permit, the executive director's preliminary determination summary, air quality analysis, and once available, the executive director's response to comments and the final decision on the application. Access the Commission's "Inspected Contaminants (IC)" using the above link and enter the permit number for the application. The public location mentioned above provides public access to the permit. The link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or permit for this location. Refer to application, Inspected Contaminants (IC) online <http://www.tceq.texas.gov/online> (link: www.tceq.texas.gov/online) for more information.

PUBLIC COMMENT/PUBLIC MEETING: You may request public comments or request a public meeting to be held at the Office of the Chief Clerk at the address below. The purpose of a public meeting is to provide the opportunity to submit comments or request a public meeting about the application. The TCEQ will hold a public meeting if the executive director determines there is a significant degree of public interest in the application. If requested by an interested person or if requested by a local legislator. A public meeting is not a contested case hearing. You may submit additional written public comments within 30 days of the date of the executive director's decision on the application. You may also request a public meeting at the address below. **INFORMATION paragraph below.**

After the deadline for public comment, the executive director will consider the comments and prepare a response to all comments and material of significant public concern. The response to comments, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments or to a mailing list for this application. The mailing will also provide instructions for requesting a contested case hearing or reconsideration of the executive director's decision.

OPPORTUNITY FOR A CONTESTED CASE HEARING: You may request a contested case hearing regarding the portions of the application for State Air Quality Permit Number 38754 and GHG PSD Air Quality Permit Number PSDTX324M15. There is no opportunity to request a contested case hearing regarding the portion of the application for GHG PSD Air Quality Permit Number GHG6SDTX211. A contested case hearing is a formal proceeding similar to a civil trial in a state district court. A person who may be affected by emissions of air contaminants from the plant or facility from the facility is entitled to request a hearing. A contested case hearing request must include the following: (1) your name for a hearing officer, (2) a description of how you use the property which may be impacted by the facility, and (3) a list of all disputed issues of fact that you want the hearing officer to resolve. If the request is made by a group or association, one or more members who are standing to request a hearing must be identified by name and physical address. The interest the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following the notice to the Office of the Chief Clerk, at the address provided in the information section below.

A contested case hearing will only be granted based on disputed issues of fact or mixed questions of fact and law that are material to the Commission's decisions on the application. The Commission may only grant a request for a contested case hearing on issues the requester submitted in their timely comments that were not subsequently withdrawn. Issues that are not submitted in public comments may not be considered during a hearing.

EXECUTIVE DIRECTOR ACTION: The executive director may issue final approval of the application for the portion of the application for GHG PSD Air Quality Permit GHG6SDTX211. If a timely contested case hearing request is not received or if a timely contested case hearing request is withdrawn regarding State Air Quality Permit Number 38754 and PSD Air Quality Permit Number PSDTX324M15, the executive director may issue final approval of the application. The response to comments, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments or to a mailing list for this application, and will be posted electronically in the CDD. If any timely hearing requests are received and not withdrawn, the executive director will not issue final approval of the State Air Quality Permit Number 38754 and PSD Air Quality Permit Number PSDTX324M15 and will forward the application and requests to the Commission for their consideration at a scheduled Commission meeting.

MAILING LIST: You may ask to be placed on a mailing list to obtain additional information on this application. Mailing subject to the discretion of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION: Public comments and requests must be submitted either electronically at www.tceq.texas.gov/online, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-0107. Please be sure that any contact information you provide, including your phone, phone number, email address and physical address, will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. If these information are in Spanish, please call 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas L.P. at the address stated above or by calling Mr. Mesgan Marzouq, Superintendent Environmental at (951) 299-8913.

**ES TIEMPO DE LLORAR, DE SUFRIR,
DE REFLEXIONAR!**

Es triste saber que 18 niños inocentes perdieron la vida en TEXAS, ¿Que culpa tenían estos pequeños angelitos? En lo que va del año van más de 20 atentados en colegios de Estados Unidos, sin contar el ataque en el supermercado en Buffalo que dejó 10 muertos.

¿Que está pasando?
¿Que le está pasando a nuestros jóvenes? ¿Por que tanta violencia?
¿Que ven los jóvenes en sus celulares? ¿Donde están los padres?

Padres este mensaje es para ustedes, observen a sus hijos, regulen el uso de celulares, observen sus comportamientos, esta comprobado que los juegos de violencia influyen en el comportamiento de nuestros hijos.

Duele pero esto seguirá ocurriendo mientras no se regule el uso de armas en EEUU, prácticamente cualquier persona puede poseer un arma. SINO HAY AMOR, MAÑANA, LAS CÁRCELES NO SERÁN SUFICIENTES.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Valero Refining-Texas, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso Estatal de Calidad del Aire Número 38754, una modificación al Permiso de Calidad del Aire de Prevención de Deterioro Significativo (PSD) PSDTX324M15, y la emisión de Gases de Efecto Invernadero (GHG) Número de permiso de calidad del aire del PSD GHGPSDTX211 para emisiones de GEI, que autorizaría la modificación de la planta oeste de la refinería de Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud fue procesada de manera expedita, según lo permitido por las reglas de la comisión en el Código Administrativo de Texas 30, Capítulo 101, Subcapítulo J. La sección de avisos públicos de este periódico contiene información adicional sobre esta solicitud.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Corpus Christi Liquefaction, LLC ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso de Calidad de Aire Núm. 105710, que autorizaría una modificación a las operaciones en Corpus Christi Liquefaction ubicada en 622 State Highway 35, Gregory, Condado de San Patricio, Texas 78359. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta solicitud.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Equistar Chemicals, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) para renovación de Permiso Núm. 83864 de Calidad de Aire, el cual autorizaría el funcionamiento continuo de un Complejo en Corpus Christi ubicado en 1501 McKinzie Road, Corpus Christi, Condado de Nueces, Texas 78410. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta solicitud.

COMISIÓN DE CALIDAD AMBIENTAL DE TEXAS

AVISO DE SOLICITUD Y DECISIÓN PRELIMINAR PARA PERMISOS DE CALIDAD DEL AIRE

NÚMEROS DE PERMISO DE CALIDAD DEL AIRE 38754, PSDTX324M15 Y GHGPSDTX211

SOLICITUD Y DECISIÓN PRELIMINAR. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso estatal de calidad del aire 38754, modificación a la Prevención de deterioro significativo (PSD).) Permiso de calidad del aire PSDTX324M15, y emisión del Permiso de calidad del aire de gases de Efecto Inverandero (GEI) PSD GHGPSDTX211 para emisiones de GEI, que autorizaría la modificación de la planta oeste de la refinería Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud se procesó de manera expedita, según lo permiten las reglas de la comisión en el Código Administrativo de Texas 30, Capítulo 101, Subcapítulo J. La instalación existente emitirá los siguientes contaminantes del aire en una cantidad significativa: monóxido de carbono, óxidos de nitrógeno, compuestos orgánicos, partículas, incluidas las partículas con diámetros de 10 micras o menos y 2,5 micras o menos y dióxido de azufre. Además, la instalación emitirá los siguientes contaminantes del aire: amoníaco y sulfuro de hidrógeno.

El grado de incremento de PSD previsto para ser consumido por la instalación existente y otras fuentes de consumo de incremento en el área es el siguiente:

Dióxido de azufre

Tiempo Máximo Promedio	Incremento Máximo Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Admisible ($\mu\text{g}/\text{m}^3$)
24-Horas	68	91
Anual	11	20

Dióxido de Nitrógeno

Tiempo Máximo Promedio	Incremento Máximo Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Admisible ($\mu\text{g}/\text{m}^3$)
Anual	23	25

PM_{2.5}

Tiempo Máximo Promedio	Incremento Máximo Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Admisible ($\mu\text{g}/\text{m}^3$)
24 Horas	8.9	9
Anual	2.9	4

Esta solicitud fue presentada al la TCEQ el 30 de septiembre de 2021. El director ejecutivo ha determinado que las emisiones de contaminantes del aire de la instalación existente que están sujetas a la revisión del PSD no violarán ninguna regulación estatal o federal de calidad del aire y no tendrán ningún significativo impacto adverso en los suelos, la vegetación o la visibilidad. Se han evaluado todos los contaminantes del aire y se utilizará la "mejor tecnología de control disponible" para el control de estos contaminantes.

El director ejecutivo ha completado la revisión técnica de la solicitud y preparó un borrador de permiso que, de aprobarse, establecería las condiciones bajo las cuales debe operar la instalación. La solicitud de permiso, la decisión preliminar del director ejecutivo, el borrador del permiso y el resumen de la determinación preliminar del director ejecutivo y el análisis de la calidad del aire del director ejecutivo estarán disponibles para ver y copiar en la oficina central de la TCEQ, la oficina regional de la TCEQ en Corpus Christi y en la Biblioteca Pública Owen R. Hopkins, 3202 McKinzie Road, Corpus Christi, Condado de Nueces, Texas, comenzando el primer día de publicación de este aviso. El archivo de cumplimiento de la instalación, si existe, está disponible para revisión pública en la Oficina Regional de TCEQ Corpus Christi, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

INFORMACIÓN DISPONIBLE EN LÍNEA. Se puede acceder a estos documentos a través del sitio web de la Comisión en www.tceq.texas.gov/goto/cid: la decisión preliminar del director ejecutivo que incluye el borrador del permiso, el resumen de la determinación preliminar del director ejecutivo, el análisis de la calidad del aire y, una vez que esté disponible, el la respuesta del director ejecutivo a los comentarios y la decisión final sobre esta solicitud. Acceda a la base de datos integrada de comisionados (CID) utilizando el enlace anterior e ingrese el número de permiso para esta aplicación. La ubicación pública mencionada anteriormente proporciona acceso público a Internet. Este enlace a un mapa electrónico de la ubicación general del sitio o instalación se proporciona como una cortesía pública y no como parte de la solicitud o notificación. Para conocer la ubicación exacta, consulte la aplicación. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

COMENTARIO PÚBLICO/REUNIÓN PÚBLICA. Puede enviar comentarios públicos o solicitar una reunión pública a la Oficina del Secretario Oficial en la dirección abajo indicada. El propósito de una reunión pública es proporcionar la oportunidad de presentar comentarios o hacer preguntas sobre la solicitud. El TCEQ celebrará una reunión pública si el director ejecutivo determina que existe un grado significativo de interés público en la solicitud, si lo solicita una persona interesada o si lo solicita un legislador local. Una reunión pública no es una audiencia de caso disputado. Usted puede enviar comentarios públicos adicionales por escrito dentro de los 30 días de la fecha de publicación de este aviso en el periódico de la manera establecida en el párrafo CONTACTOS E INFORMACIÓN de la AGENCIA a continuación.

CONTINUACION EN LA PAGINA #11

CONTINUACION DE LA PAGINA #10

Después de la fecha límite para comentarios públicos, el director ejecutivo considerará los comentarios y preparará una respuesta a todos los comentarios públicos relevantes y materiales o significativos. La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, se enviará por correo a todas las personas que enviaron comentarios públicos o que están en una lista de correo para esta solicitud. El correo también proporcionará instrucciones para solicitar una audiencia de caso impugnado o una reconsideración de la decisión del director ejecutivo.

OPORTUNIDAD PARA UNA AUDIENCIA DE CASO IMPUGNADO. Usted puede solicitar una audiencia de caso impugnado con respecto a las partes de la solicitud de Permiso de Calidad del Aire Estatal Número 38754 y del Permiso de Calidad del Aire PSD Número PSDTX324M15. No existe oportunidad de solicitar una audiencia de caso impugnado con respecto a la parte de la solicitud para el Número de Permiso de Calidad del Aire GHG PSD GHGPSDTX211. Una audiencia de caso impugnado es un procedimiento legal similar a un juicio civil en un tribunal de distrito estatal. Una persona que pueda verse afectada por las emisiones de contaminantes atmosféricos, distintos de los GEI, de la instalación tiene derecho a solicitar una audiencia. Una persona que pueda verse afectada por las emisiones de contaminantes del aire, distintos de los GEI, de la instalación tiene derecho a solicitar una audiencia. Una solicitud de audiencia de caso impugnado debe incluir lo siguiente: (1) su nombre (o para un grupo o asociación, un representante oficial), dirección postal, número de teléfono durante el día; (2) nombre del solicitante y número de permiso; (3) la declaración "Yo/nosotros solicitamos una audiencia de caso impugnado;" (4) una descripción específica de cómo se vería afectado negativamente por la aplicación y las emisiones al aire de la instalación de una manera que no es común para público en general; (5) la ubicación y la distancia de su propiedad con respecto a la instalación; (6) una descripción de cómo utiliza la propiedad que puede verse afectada por la instalación; y (7) una lista de todas las cuestiones de hecho en disputa que presente durante el periodo de comentarios. Si la solicitud es hecha por un grupo o asociación, uno o más miembros que tienen derecho a solicitar una audiencia deberán identificarse con nombre y dirección física. También deben identificarse los intereses que el grupo o asociación pretende proteger. También puede presentar sus ajustes propuestos a la solicitud/ permiso que satisfaga sus preocupaciones. Las solicitudes para una audiencia de caso impugnado deben presentarse por escrito dentro de los 30 días siguientes a este aviso a la Oficina del Secretario Oficial, en la dirección proporcionada en la sección de información a continuación.

Una audiencia de caso impugnado solo se otorgará en base a cuestiones de hecho en disputa o cuestiones mixtas de hecho y derecho que sean relevantes y materiales para las decisiones de la Comisión sobre la solicitud. La Comisión solo puede conceder una solicitud de audiencia de caso impugnado sobre asuntos que el solicitante presentó en sus comentarios oportunos que no fueron retirados posteriormente. Los asuntos que no se presenten en los comentarios públicos no podrán ser considerados durante una audiencia.

ACCIÓN DEL DIRECTOR EJECUTIVO. El director ejecutivo puede emitir la aprobación final de la solicitud para la parte de la solicitud del Permiso de calidad del aire del PSD de GEI GHGPSDTX211. Si no se recibe una solicitud de audiencia de caso impugnado oportunamente o si se retiran todas las solicitudes de audiencia de caso impugnado oportunamente con respecto al Permiso estatal de calidad del aire número 38754 y para el Permiso de calidad del aire del PSD número PSDTX324M15, el director ejecutivo puede emitir la aprobación final de la solicitud. La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, se enviará por correo a todos los que enviaron comentarios públicos o están en una lista de correo para esta solicitud, y se publicarán electrónicamente en el CID. Si se reciben solicitudes de audiencia oportunas y no se retiran, el director ejecutivo no emitirá la aprobación final del permiso estatal de calidad del aire número 38754 y del permiso de calidad del aire del PSD número PSDTX324M15 y enviará la solicitud y las solicitudes a los comisionados para su consideración en una reunión. reunión de la comisión programada.

LISTA DE CORREO. Usted puede solicitar ser colocado en una lista de correo para obtener información adicional sobre esta solicitud enviando una solicitud a la Oficina del Secretario Jefe en la dirección abajo.

CONTACTOS E INFORMACIÓN DE LA AGENCIA. Los comentarios y solicitudes del público deben ser enviados electrónicamente a www14.tceq.texas.gov/epic/eComment/, o por escrito a la Comisión de Calidad Ambiental de Texas, Oficina del Secretario Oficial, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Tenga en cuenta que cualquier información de contacto que proporcione, incluyendo su nombre, número de teléfono, dirección de correo electrónico y dirección física se convertirá en parte del registro público de la agencia. Para obtener más información acerca de esta solicitud de permiso o el proceso de concesión de permisos, por favor llame sin costo al Programa de Educación Pública al 1 800 687 4040. Si desea información en Español, puede llamar al 1-800-687-4040.

También se puede obtener más información de Valero Refining-Texas L.P. en la dirección indicada anteriormente o llamando a la Sra. Meagan Marquard Superintendente Ambiental al (361) 299-8913.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR AIR QUALITY PERMITS

AIR QUALITY PERMIT NUMBERS 38754, PSDTX324M15, AND GHGPSDTX211

APPLICATION AND PRELIMINARY DECISION. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit GHGPSDTX211 for emissions of GHGs, which would authorize modification to the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. In addition, the facility will emit the following air contaminants: ammonia and hydrogen sulfide.

The degree of PSD increment predicted to be consumed by the existing facility and other increment-consuming sources in the area is as follows:

Sulfur Dioxide

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
24-hour	68	91
Annual	11	20

Nitrogen Dioxide

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
Annual	23	25

PM 2.5

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
24-hour	8.9	9
Annual	2.9	4

This application was submitted to the TCEQ on September 30, 2021. The executive director has determined that the emissions of air contaminants from the existing facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

INFORMATION AVAILABLE ONLINE. These documents are accessible through the Commission's Web site at www.tceq.texas.gov/goto/cid: the executive director's preliminary decision which includes the draft permit, the executive director's preliminary determination summary, air quality analysis, and, once available, the executive director's response to comments and the final decision on this application. Access the Commissioners' Integrated Database (CID) using the above link and enter the permit number for this application. The public location mentioned above provides public access to the internet. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application: <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting to the Office of the Chief Clerk at the address below. The purpose of a public meeting is to provide the opportunity to submit comment or to ask questions about the application. The TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing. You may submit additional written public comments within 30 days of the date of newspaper publication of this notice in the manner set forth in the AGENCY CONTACTS AND INFORMATION paragraph below.

After the deadline for public comment, the executive director will consider the comments and prepare a response to all relevant and material or significant public comment. The response to comments, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments or is on a mailing list for this application. The mailing will also provide instructions for requesting a contested case hearing or reconsideration of the executive director's decision.

OPPORTUNITY FOR A CONTESTED CASE HEARING. You may request a contested case hearing regarding the portions of the application for State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15. There is no opportunity to request a contested case hearing regarding the portion of the application for GHG PSD Air Quality Permit Number GHGPSDTX211. A contested case hearing is a legal proceeding similar to a civil trial in a state district court. A person who may be affected by emissions of air contaminants, other than GHGs, from the facility is entitled to request a hearing. A contested case hearing request must include the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number; (2) applicant's name and permit number; (3) the statement "I/we request a contested case hearing;" (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a group or association, one or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk, at the address provided in the information section below.

A contested case hearing will only be granted based on disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decisions on the application. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. Issues that are not submitted in public comments may not be considered during a hearing.

EXECUTIVE DIRECTOR ACTION. The executive director may issue final approval of the application for the portion of the application for GHG PSD Air Quality Permit GHGPSDTX211. If a timely contested case hearing request is not received or if all timely contested case hearing requests are withdrawn regarding State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15, the executive director may issue final approval of the application. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application, and will be posted electronically to the CID. If any timely hearing requests are received and not withdrawn, the executive director will not issue final approval of the State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15 and will forward the application and requests to the Commissioners for their consideration at a scheduled commission meeting.

MAILING LIST. You may ask to be placed on a mailing list to obtain additional information on this application by sending a request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION. Public comments and requests must be submitted either electronically at www14.tceq.texas.gov/epic/eComment/, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas L.P. at the address stated above or by calling Ms. Meagan Marquard, Superintendent Environmental at (361) 299-8913.

Notice Issuance Date: May 19, 2022

TO ALL INTERESTED PERSONS AND PARTIES:

Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit Number 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit Number GHGPSDTX211 for emissions of GHGs, which would authorize modification to a Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. Additional information concerning this application is contained in the public notice section of this newspaper.

Public Notices

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY
 Notice of Draft Federal Operating Permit (herein referred to as Permit) No. 03869, Application and Draft Permit, Buckeye Texas Processing LLC, 7209 Up River Rd., Corpus Christi, TX 78409-2817, has applied to the Texas Commission on Environmental Quality (TCEQ) for a renewal of Federal Operating Permit (herein referred to as Permit) No. 03869, Application No. 32049, to authorize operation of Corpus Christi Refining, a Petroleum Refineries facility. The area addressed by the application is located at 7209 Up River Rd in Corpus Christi, Nueces County, Texas 78409-2817. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to the application. You can find an electronic map of the facility at: <http://www.tceq.texas.gov/assets/public/nb610/index.html?lat=27.818611&lng=-97.503888&zoom=13&type=r>. This application was received by the TCEQ on April 6, 2021. The purpose of a federal operating permit is to improve overall compliance with the rules governing air pollution control by clearly listing all applicable requirements, as defined in Title 30 Texas Administrative Code S 122.10 (30 TAC S 122.10). The draft permit, if approved, will specify the conditions under which the area must operate. The permit will not authorize new construction. The executive director has completed the technical review of the application and has made a preliminary decision to prepare a draft permit for public comment and review. The executive director recommends issuance of this draft permit. The permit application, statement of basis, and draft permit will be available for viewing and copying of the TCEQ Central Office, 12100 Park 35 Circle, Building E, First Floor, Austin, Texas 78753; the TCEQ Corpus Christi Regional Office, 500 N. Shoreline Blvd., Suite 500, Corpus Christi, Texas 78401-0318; and the La Retama Central Library, 805 Comanche St., Corpus Christi, Texas 78401-2715, beginning the first day of publication of this notice. The draft permit and statement of basis are available at the TCEQ Website: www.tceq.texas.gov/aotofv notice. At the TCEQ central and regional offices, relevant supporting materials for the draft permit, as well as the New Source Review permits which have been incorporated by reference, may be reviewed and copied. Any person with difficulties obtaining these materials may contact the TCEQ central office room at (512) 239-2900.

Public Notices

Public Comment/Notice and Comment Hearing. Any person may submit written comments on the draft permit. Comments relating to accuracy, completeness, and appropriateness of the permit conditions may result in changes to the draft permit. A person who may be affected by the emission of air pollutants from the permitted area may request a notice and comment hearing. The purpose of the notice and comment hearing is to provide an additional opportunity to submit comments on the draft permit. The permit may be changed based on comments pertaining to whether the permit provides for compliance with 30 TAC Chapter 122 (examples may include that the permit does not contain all applicable requirements or the public notice procedures were not satisfied). The TCEQ may grant a notice and comment hearing on the application if a written hearing request is received within 30 days after publication of the newspaper notice. The hearing request must include the basis for the request, including a description of how the person may be affected by the emission of air pollutants from the application area. The request should also specify the conditions of the draft permit that are inappropriate or specify how the preliminary decision to issue or deny the permit is inappropriate. All reasonable ascertainable issues must be raised and all reasonably available arguments must be submitted by the end of the public comment period. If a notice and comment hearing is granted, all individuals that submitted written comments or a hearing request will receive written notice of the hearing. This notice will identify the date, time, and location for the hearing. Written public comments and/or requests for a notice and comment hearing should be submitted to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087, or electronically at www.tceq.texas.gov/epic/Comment/ and be received within 30 days after the date of newspaper publication of this notice. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. A notice of proposed final action that includes a response to comments and identification of any changes to the draft permit will be mailed to anyone who submitted public comments, a hearing request,

Public Notices

or requested to be on the mailing list for this application. This mailing will also provide instructions for public petitions to the U.S. Environmental Protection Agency (EPA) to request that the EPA object to the issuance of the proposed permit. After receiving a petition, the EPA may only object to the issuance of a permit which is not in compliance with the applicable requirements or the requirements of 30 TAC - Chapter 122. Mailing List. In addition to submitting public comments, a person may ask to be placed on a mailing list for this application by sending a request to the Office of the Chief Clerk at the address above. Those on the mailing list will receive copies of future public notices (if any) mailed by the Chief Clerk for this application. Information. For additional information about this permit application or the permitting process, please contact the Texas Commission on Environmental Quality, Public Education Program, MC-108, P.O. Box 13087, Austin, Texas 78711-3087 or toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040. Further information may also be obtained for Buckeye Texas Processing LLC by calling Mrs. Shoshana Banoo at (361) 206-5620. Notice Issuance Date: May 12, 2022.

NOTICE OF PUBLIC AUCTION

THE CORPUS CHRISTI BUILDING STANDARDS BOARD
 Met at 1:30 p.m. Thursday, May 26, 2022, in the City Council Chambers at 1201 Leopard Street for the purpose of determining whether a substandard structure exists on the properties listed below.
 The Board found that the properties listed below cannot be repaired because of the refusal of the owner or its intrinsic state of disrepair or both and is dilapidated or substandard, therefore, it shall be demolished within thirty (30) days:
 809 S Alameda St., Corpus Christi, Texas 78404
 813 S Alameda St., Corpus Christi, Texas 78404
 813 S Alameda St., aka 817 S Alameda St., Corpus Christi, Texas 78404
 625 Atlantic St., Corpus Christi, Texas 78404
 2522 Bolivar St., Corpus Christi, Texas 78416
 110 Josephine St., aka 102 Josephine St., Corpus Christi, Texas 78401
 110 Josephine St., aka 106 Josephine St., Corpus Christi, Texas 78401
 11321 Leopard St., Corpus Christi, Texas 78410
 422 Linnett Cts. Corpus Christi, Texas 78418
 437 Military Dr., Corpus Christi, Texas 78418
 1363 Normandy Dr., Corpus Christi, Texas 78415

The Board found that the properties listed below can be repaired therefore, given the property owner thirty (30) days to repair.

2849 Tuscarora St., Corpus Christi, Texas 78410

The Board found that the properties listed below can be repaired therefore, given the property owner thirty (30) days to present a plan and timeline securing the property

110 Josephine St., Corpus Christi, Texas 78401

The Board found that the properties listed below can be repaired therefore, given the property owner ninety (90) days to present a plan and timeline

2128 Peabody Ave., Corpus Christi, Texas 78407

The City of Corpus Christi will vacate, secure, remove, or demolish the building or relocate the occupants of the buildings if the actions ordered above are not taken within the allotted time.

In the event there are items of personal property on the premises to be demolished, the owner is ordered to remove personal property from the premises within 90 days. If such items of personal property are not removed from the

BUILDING STANDARDS BOARD MEETING
 Pursuant to Chapter 13, Article II, Section 13-22 of the City of Corpus Christi Code of Ordinances, generally known as The Corpus Christi Property Maintenance Code. There will be a public hearing before the Building Standards Board at 1:30 p.m. Thursday, June 23, 2022, in the City Council Chambers at 1201 Leopard Street for the purpose of determining whether a substandard structure exists on the following properties:
 4642 Abner Dr., Corpus Christi, Texas 78411
 9021 Caroline Rd., Corpus Christi, Texas 78409
 3145 Eisenhower St., Corpus Christi, Texas 78416
 1002 121 Francesca St., Corpus Christi, Texas 78405
 1006 Hancock Ave., Corpus Christi, Texas 78404
 2625 Milo St., Corpus Christi, Texas 78415
 925 National Dr., Corpus Christi, Texas 78416
 1220 Palm Dr., Corpus Christi, Texas 78407
 2212 Ruth St. Corpus Christi, Texas 78405
 4025 Santa Elena St., Corpus Christi, Texas 78405
 3010 Westgard Ln., Corpus Christi, Texas 78415
 5402 Wharton St., Corpus Christi, Texas 78415
 5310 Williams Dr., Corpus Christi, Texas 78411
 There are reasonable grounds to believe there are violations of the International Property Maintenance Code as adopted in §13-20 of the Corpus Christi Code of Ordinances (IPMC) or any rule or regulation concerning health, safety, or general welfare adopted by the City, with respect to structures on these properties. The structures are unsafe, unsanitary, unfit for human habitation, or do not provide adequate egress, or constitute a fire hazard or are otherwise dangerous to human life, or in relation to the existing use constitute a hazard to safety or health by reason of inadequate maintenance, dilapidation, obsolescence or abandonment.

All persons with an interest in this property are notified that the code official seeks orders from the Building Standards Board to repair, vacate or demolish any substandard structure which are determined to exist thereon. If the premises are to be vacated, the owner or occupant is required to come to the meeting and show cause why the remedy sought by the official should not be granted. The owner may appeal the decision of the Board to the City Council. If the order of the Board is not timely followed the City may demolish the building and file a lien against the property to recover expenses.

REQUEST FOR QUALIFICATIONS FOR NEW MAINTENANCE FACILITY & SITE IMPROVEMENTS

The Port of Corpus Christi Authority ("PCCA") is requesting Statements of Qualifications (SOQ) from firms interested in providing Design-Build services for the Port Authority's New Maintenance Facility & Site Improvements project.

Firms interested in providing design build services for the above referenced project may obtain the complete Request for Qualifications (RFQ) at the PCCA's procurement website (<https://pocca.procurement.com/home/>). Interested firms must register on the Port's procurement website in order to access the RFQ online.

In order to be considered, a SOQ must be received by the PCCA, addressed to Port of Corpus Christi Authority, Attn: Lynn Angerstein, Director of Procurement Services, 400 Harbor Drive, Corpus Christi, Texas 78401, no later than 2:00 P.M. Thursday, June 16, 2022 (the "Deadline"). SOQs received after the Deadline will not be considered. SOQs may not be faxed or emailed to the PCCA office. The PCCA reserves the right to reject any or all SOQs received.

Proposers must not attempt to contact Staff members, Commissioners, or Agents of the PCCA associated with this RFQ to discuss or ask questions about the contents of the RFQ. Any questions should be submitted in writing via the PCCA's Procurement website.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR AIR QUALITY PERMITS

AIR QUALITY PERMIT NUMBERS 38754, PSDTX324M15, AND GHGSDTX211

APPLICATION AND PRELIMINARY DECISION. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit GHGSDTX211 for emissions from the existing facility which will be used to produce ethane and propane at the Valero Refining West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. In addition, the facility will emit the following air contaminants: ammonia and hydrogen sulfide.

The degree of PSD increment predicted to be consumed by the existing facility and other increment-consuming sources in the area is as follows:

Sulfur Dioxide		
Maximum Averaging Time	Maximum Increment Consumed (µg/m ³)	Allowable Increment (µg/m ³)
24-hour	68	91
Annual	11	20
Nitrogen Dioxide		
Maximum Averaging Time	Maximum Increment Consumed (µg/m ³)	Allowable Increment (µg/m ³)
Annual	23	25
PM 2.5		
Maximum Averaging Time	Maximum Increment Consumed (µg/m ³)	Allowable Increment (µg/m ³)
24-hour	8.9	9
Annual	2.9	4

This application was submitted to the TCEQ on September 30, 2021. The executive director has determined that the emissions of air contaminants from the existing facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 North Stratford Boulevard, Suite 500, Corpus Christi, Texas.

INFORMATION AVAILABLE ONLINE. These documents are accessible through the Commission's Web site at www.tceq.texas.gov/opa/cid. The executive director's preliminary decision which includes the draft permit, the executive director's preliminary determination summary, air quality analysis, and the executive director's response to comments and the final decision on this application. Access the Commission's Integrated Database (IDB) using the above link and enter the permit number for this application. The public location mentioned above provides public access to the internet. This link is an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application http://www.tceq.texas.gov/assess/air/cid/06610/index.html?title=27_820555&id=97_488333&zoom=13&order

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting to the Office of the Chief Clerk at the address below. The purpose of a public meeting is to provide the opportunity to submit comment or to ask questions about the application. The TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application. If requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing. You may submit additional written public comments within 30 days of the date of newspaper publication of this notice in the manner set forth in the AGENCY CONTACTS AND INFORMATION paragraph below.

After the deadline for public comment, the executive director will consider the comments and prepare a response to all relevant and material or significant public comment. The response to comments, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments or is on a mailing list for this application. The mailing will also provide instructions for requesting a contested case hearing or reconsideration of the executive director's decision.

OPPORTUNITY FOR A CONTESTED CASE HEARING. You may request a contested case hearing regarding the portions of the application for State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15. There is no opportunity to request a contested case hearing regarding the portion of the application for GHG PSD Air Quality Permit Number GHGSDTX211. A contested case hearing is a legal proceeding similar to a civil trial in a state district court. A person who may be affected by emissions of air contaminants, other than GHGs, from the facility is entitled to request a hearing. A contested case hearing request must include the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number; (2) applicant's name and permit number; (3) the nature of the request; (4) a specific description of how you would be adversely affected by the application and statement "I/we request a contested case hearing"; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a group or association, one or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk, at the address provided in the Information section below.

A contested case hearing will only be granted based on disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decisions on the application. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. Issues that are not submitted in public comments may not be considered during a hearing.

EXECUTIVE DIRECTOR ACTION. The executive director may issue final approval of the application for the portion of the application for GHG PSD Air Quality Permit GHGSDTX211, if a timely contested case hearing request is not received or if all timely contested case hearing requests are withdrawn regarding State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15, the executive director may issue final approval of the application. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application, and it will be posted electronically to the CID. If any timely hearing requests are received and not withdrawn, the executive director will not issue final approval of the State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15 and will forward the application and requests to the Commissioners for their consideration at a scheduled commission meeting.

MAILING LIST. You may ask to be placed on a mailing list to obtain additional information on this application by sending a request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION. Public comments and requests must be submitted either electronically at www.tceq.texas.gov/opa/cid or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas L.P. at the address stated above or by calling Ms. Meagan Marquart, Superintendent Environmental at (361) 299-8913.

Notice Issuance Date: May 19, 2022

they shall be placed in storage for a period of 90 days. During this period, they may be redeemed by the owner after all costs incurred in placing the items in storage and all accumulated storage fees have been paid. In the event the property is not redeemed within 90 days the City may cause the same to be sold at auction. The proceeds of the sale shall be used to pay for any costs incurred in the storage of the property and any excess amount shall be set off against the cost of demolition to be charged to the owner.

A complete copy of the Board's order may be obtained in the City Secretary's office.

EU agrees to ban most Russian oil imports

Lorne Cook and Samuel Petrequin
ASSOCIATED PRESS

BRUSSELS — In the most significant effort yet to punish Russia for its war in Ukraine, the European Union agreed to ban the overwhelming majority of Russian oil imports after tense negotiations that tested how far the bloc is willing to go to ostracize Moscow.

From the moment Russia invaded on Feb. 24, the West has sought to make Moscow pay economically for its war. But targeting its lucrative energy sector was seen as a last resort in Europe and has proved hardest, since the bloc relies on Russia for 25% of its oil and 40% of its natural gas. European countries that are even more heavily dependent on Russia have been especially reluctant to act.

In a move unthinkable just months ago, EU leaders agreed late Monday to cut around 90% of all Russian oil imports over the next six months.

Belgian Prime Minister Alexander De Croo called the embargo a "big step forward," and Irish Prime Minister Micheal Martin hailed it as "a watershed moment."

"The sanctions have one clear aim: to prompt Russia to end this war and withdraw its troops and to agree with Ukraine on a sensible and fair peace," German Chancellor Olaf Scholz said.

Ukraine estimated the ban could cost Russia tens of billions of dollars.

"The oil embargo will speed up the countdown to the collapse of the Russian economy and war machine," Foreign Minis-

ter Dmytro Kuleba said. The deputy head of Russia's Security Council said that energy sanctions against the country are intended to hurt ordinary Russians by making it harder for Moscow to fund social programs.

"They hate us all! The basis for these decisions is hatred for Russia, for Russians and for all its inhabitants," Dmitry Medvedev, who is also a former president and prime minister, wrote on the Telegram messaging app.

Mikhail Ulyanov, Russia's permanent representative to international organizations in Vienna, appeared to shrug off the move, though, saying Moscow will find other buyers.

Still, analyst Simone Tagliapietra said Russia will probably have to sell its oil at a substantial discount. Tagliapietra, an energy expert and research fellow at the Brussels-based think tank Bruegel, called the embargo "a major blow."

Matteo Villa, an analyst at the ISPI think tank in Milan, agreed that Russia will take a pretty significant hit now but cau-

tioned that the move could eventually backfire.

"The risk is that the price of oil in general goes up because of the European sanctions. And if the price goes up a lot, the risk is that Russia starts to earn more, and Europe loses the bet," he said.

Russia has also not shied away from withholding its energy supplies, despite the economic damage it could suffer. Russian energy giant Gazprom said it cut off natural gas to Dutch trader GasTerra on Tuesday. It already stopped the flow to Bulgaria, Poland and Finland and is considering doing the same to Denmark.

GasTerra said homes would not be hit, since it bought gas elsewhere in anticipation of a shutoff.

The EU is also urging other countries to avoid placing trade barriers on farm products as Russia's war risks further fueling a global food crisis.

Ukrainian President Volodymyr Zelenskyy has said Russia has prevented the export of 22 million tons of Ukrainian grain, much of it meant

for people across the Middle East and Africa. He accused Moscow of "deliberately creating this problem."

In other developments, Russian forces have seized around half of a key city in eastern Ukraine, according to the mayor. Analysts have painted the battle for Sievierodonetsk as part of a race against time for the Kremlin: The city is key to Russian efforts to complete the capture of the eastern industrial region of the Donbas before more Western arms arrive to bolster Ukraine's defenses.

A court in Ukraine convicted two Russian soldiers of war crimes for the shelling of civilian buildings. It sentenced both to 11½ years in prison, concluding the country's second war crimes trial since the Russian invasion.

The EU oil embargo, part of a new package of sanctions that will also target Russia's biggest bank and state media outlets accused of spreading propaganda, covers crude oil and petroleum products but has

Ukrainian tanks move into the Donetsk region of eastern Ukraine on Monday. FRANCISCO SECO/JAP

an exception for oil delivered by pipeline.

That exception was demanded by Hungarian Prime Minister Viktor Orban. Hungary gets more than 60% of its oil from Russia, much of it through the Soviet-era Druzhba pipeline.

The EU oil ban includes all Russian oil delivered by sea, which accounts for two-thirds of the EU's imports from Russia. Germany and Poland have announced they will stop using oil

from the northern branch of the Druzhba pipeline.

The compromise laid bare the increasing difficulty of reaching consensus among EU leaders when important national interests are in play.

Agreeing on another round of measures is likely to prove much tougher. Next on the agenda is whether to target natural gas, which is much harder to cut off. That's because it represents a larger percentage of Europe's energy mix.

TO ALL INTERESTED PERSONS AND PARTIES:

Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit Number 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit Number GHGPSDTX211 for emissions of GHGs, which would authorize modification to a Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. Additional information concerning this application is contained in the public notice section of this newspaper.

**ES TIEMPO DE LLORAR, DE SUFRIR,
DE REFLEXIONAR!**

Es triste saber que 18 niños inocentes perdieron la vida en TEXAS, ¿Que culpa tenían estos pequeños angelitos? En lo que va del año van más de 20 atentados en colegios de Estados Unidos, sin contar el ataque en el supermercado en Buffalo que dejó 10 muertos.

¿Que está pasando?
¿Que le está pasando a nuestros jóvenes? ¿Por que tanta violencia?
¿Que ven los jóvenes en sus celulares? ¿Donde están los padres?

Padres este mensaje es para ustedes, observen a sus hijos, regulen el uso de celulares, observen sus comportamientos, esta comprobado que los juegos de violencia influyen en el comportamiento de nuestros hijos.

Duele pero esto seguirá ocurriendo mientras no se regule el uso de armas en EEUU, prácticamente cualquier persona puede poseer un arma. SINO HAY AMOR, MAÑANA, LAS CÁRCELES NO SERÁN SUFICIENTES.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Valero Refining-Texas, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso Estatal de Calidad del Aire Número 38754, una modificación al Permiso de Calidad del Aire de Prevención de Deterioro Significativo (PSD) PSDTX324M15, y la emisión de Gases de Efecto Invernadero (GHG) Número de permiso de calidad del aire del PSD GHGPSDTX211 para emisiones de GEI, que autorizaría la modificación de la planta oeste de la refinería de Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud fue procesada de manera expedita, según lo permitido por las reglas de la comisión en el Código Administrativo de Texas 30, Capítulo 101, Subcapítulo J. La sección de avisos públicos de este periódico contiene información adicional sobre esta solicitud.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Corpus Christi Liquefaction, LLC ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso de Calidad de Aire Núm. 105710, que autorizaría una modificación a las operaciones en Corpus Christi Liquefaction ubicada en 622 State Highway 35, Gregory, Condado de San Patricio, Texas 78359. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta solicitud.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Equistar Chemicals, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) para renovación de Permiso Núm. 83864 de Calidad de Aire, el cual autorizaría el funcionamiento continuo de un Complejo en Corpus Christi ubicado en 1501 McKinzie Road, Corpus Christi, Condado de Nueces, Texas 78410. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta solicitud.

COMISIÓN DE CALIDAD AMBIENTAL DE TEXAS

AVISO DE SOLICITUD Y DECISIÓN PRELIMINAR PARA PERMISOS DE CALIDAD DEL AIRE

NÚMEROS DE PERMISO DE CALIDAD DEL AIRE 38754, PSDTX324M15 Y GHGPSDTX211

SOLICITUD Y DECISIÓN PRELIMINAR. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso estatal de calidad del aire 38754, modificación a la Prevención de deterioro significativo (PSD) de Permiso de calidad del aire PSDTX324M15, y emisión del Permiso de calidad del aire de gases de Efecto Invernadero (GEI) PSD GHGPSDTX211 para emisiones de GEI, que autorizaría la modificación de la planta oeste de la refinería Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud se procesó de manera expedita, según lo permiten las reglas de la comisión en el Código Administrativo de Texas 30, Capítulo 101, Subcapítulo J. La instalación existente emitirá los siguientes contaminantes del aire en una cantidad significativa: monóxido de carbono, óxidos de nitrógeno, compuestos orgánicos, partículas, incluidas las partículas con diámetros de 10 micras o menos y 2,5 micras o menos y dióxido de azufre. Además, la instalación emitirá los siguientes contaminantes del aire: amoníaco y sulfuro de hidrógeno.

El grado de incremento de PSD previsto para ser consumido por la instalación existente y otras fuentes de consumo de incremento en el área es el siguiente:

Dióxido de azufre		
Tiempo Máximo Promedio	Incremento Máximo Consumido (µg/m3)	Incremento Admisible (µg/m3)
24-Horas	68	91
Anual	11	20
Dióxido de Nitrógeno		
Tiempo Máximo Promedio	Incremento Máximo Consumido (µg/m3)	Incremento Admisible (µg/m3)
Anual	23	25
PM2.5		
Tiempo Máximo Promedio	Incremento Máximo Consumido (µg/m3)	Incremento Admisible (µg/m3)
24 Horas	8.9	9
Anual	2.9	4

Esta solicitud fue presentada a la TCEQ el 30 de septiembre de 2021. El director ejecutivo ha determinado que las emisiones de contaminantes del aire de la instalación existente que están sujetas a la revisión del PSD no violarán ninguna regulación estatal o federal de calidad del aire y no tendrán ningún significativo impacto adverso en los suelos, la vegetación o la visibilidad. Se han evaluado todos los contaminantes del aire y se utilizará la "mejor tecnología de control disponible" para el control de estos contaminantes.

El director ejecutivo ha completado la revisión técnica de la solicitud y preparó un borrador de permiso que, de aprobarse, establecería las condiciones bajo las cuales debe operar la instalación. La solicitud de permiso, la decisión preliminar del director ejecutivo, el borrador del permiso y el resumen de la determinación preliminar del director ejecutivo y el análisis de la calidad del aire del director ejecutivo estarán disponibles para ver y copiar en la oficina central de la TCEQ, la oficina regional de la TCEQ en Corpus Christi y en la Biblioteca Pública Owen R. Hopkins, 3202 McKinzie Road, Corpus Christi, Condado de Nueces, Texas, comenzando el primer día de publicación de este aviso. El archivo de cumplimiento de la instalación, si existe, está disponible para revisión pública en la Oficina Regional de TCEQ Corpus Christi, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

INFORMACIÓN DISPONIBLE EN LÍNEA. Se puede acceder a estos documentos a través del sitio web de la Comisión en www.tceq.texas.gov/goto/cid: la decisión preliminar del director ejecutivo que incluye el borrador del permiso, el resumen de la determinación preliminar del director ejecutivo, el análisis de la calidad del aire y, una vez que esté disponible, el la respuesta del director ejecutivo a los comentarios y la decisión final sobre esta solicitud. Acceda a la base de datos integrada de comisionados (CID) utilizando el enlace anterior e ingrese el número de permiso para esta aplicación. La ubicación pública mencionada anteriormente proporciona acceso público a Internet. Este enlace a un mapa electrónico de la ubicación general del sitio o instalación se proporciona como una cortesía pública y no como parte de la solicitud o notificación. Para conocer la ubicación exacta, consulte la aplicación. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

COMENTARIO PÚBLICO/REUNIÓN PÚBLICA. Puede enviar comentarios públicos o solicitar una reunión pública a la Oficina del Secretario Oficial en la dirección abajo indicada. El propósito de una reunión pública es proporcionar la oportunidad de presentar comentarios o hacer preguntas sobre la solicitud. El TCEQ celebrará una reunión pública si el director ejecutivo determina que existe un grado significativo de interés público en la solicitud, si lo solicita una persona interesada o si lo solicita un legislador local. Una reunión pública no es una audiencia de caso distantes. Usted puede enviar comentarios públicos adicionales por escrito dentro de los 30 días de la fecha de publicación de este aviso en el periódico de la manera establecida en el párrafo CONTACTOS E INFORMACIÓN de la AGENCIA a continuación.

CONTINUACION EN LA PAGINA #11

CONTINUACION DE LA PAGINA #10

Después de la fecha límite para comentarios públicos, el director ejecutivo considerará los comentarios y preparará una respuesta a todos los comentarios públicos relevantes y materiales o significativos. La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, se enviará por correo a todas las personas que enviaron comentarios públicos o que están en una lista de correo para esta solicitud. El correo electrónico proporcionará instrucciones para solicitar una audiencia de caso impugnado o una reconsideración de la decisión del director ejecutivo.

OPORTUNIDAD PARA UNA AUDIENCIA DE CASO IMPUGNADO. Usted puede solicitar una audiencia de caso impugnado con respecto a las partes de la solicitud de Permiso de Calidad del Aire Estatal Número 38754 y del Permiso de Calidad del Aire PSD Número PSDTX324M15. No existe oportunidad de solicitar una audiencia de caso impugnado con respecto a la parte de la solicitud para el Número de Permiso de Calidad del Aire GHG PSD GHGPSDTX211. Una audiencia de caso impugnado es un procedimiento legal similar a un juicio civil en un tribunal de distrito estatal. Una persona que pueda verse afectada por las emisiones de contaminantes atmosféricos, distintos de los GEI, de la instalación tiene derecho a solicitar una audiencia. Una persona que pueda verse afectada por las emisiones de contaminantes del aire, distintos de los GEI, de la instalación tiene derecho a solicitar una audiencia. Una solicitud de audiencia de caso impugnado debe incluir lo siguiente: (1) su nombre (o para un grupo o asociación, un representante oficial), dirección postal, número de teléfono durante el día; (2) nombre del solicitante y número de permiso; (3) la declaración "Yo/nosotros solicitamos una audiencia de caso impugnado;" (4) una descripción específica de cómo se vería afectado negativamente por la aplicación y las emisiones al aire de la instalación de una manera que no es común para público en general; (5) la ubicación y la distancia de la propiedad con respecto a la instalación; (6) una descripción de cómo utiliza la propiedad que puede verse afectada por la instalación; y (7) una lista de todas las cuestiones de hecho en disputa que presente durante el período de comentarios. Si la solicitud es hecha por un grupo o asociación, uno o más miembros que tienen derecho a solicitar una audiencia deberán identificarse con nombre y dirección física. También deben identificarse los intereses que el grupo o asociación pretende proteger. También puede presentar sus ajustes propuestos a la solicitud/ permiso que satisfaga sus preocupaciones. Las solicitudes para una audiencia de caso impugnado deben presentarse por escrito dentro de los 30 días siguientes a este aviso a la Oficina del Secretario Oficial, en la dirección proporcionada en la sección de información a continuación.

Una audiencia de caso impugnado solo se otorgará en base a cuestiones de hecho en disputa o cuestiones mixtas de hecho y derecho que sean relevantes y materiales para las decisiones de la Comisión sobre la solicitud. La Comisión solo puede conceder una solicitud de audiencia de caso impugnado sobre asuntos que el solicitante presentó en sus comentarios oportunos que no fueron retirados posteriormente. Los asuntos que no se presenten en los comentarios públicos no podrán ser considerados durante una audiencia.

ACCIÓN DEL DIRECTOR EJECUTIVO. El director ejecutivo puede emitir la aprobación final de la solicitud para la parte de la solicitud del Permiso de calidad del aire del PSD de GEI GHGPSDTX211. Si no se recibe una solicitud de audiencia de caso impugnado oportunamente o si se retiran todas las solicitudes de audiencia de caso impugnado oportunamente con respecto al Permiso estatal de calidad del aire número 38754 y para el Permiso de calidad del aire del PSD número PSDTX324M15, el director ejecutivo puede emitir la aprobación final de la solicitud. La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, se enviará por correo a todos los que enviaron comentarios públicos o están en una lista de correo para esta solicitud, y se publicarán electrónicamente en el CID. Si se reciben solicitudes de audiencia oportunas y no se retiran, el director ejecutivo no emitirá la aprobación final del permiso estatal de calidad del aire número 38754 y del permiso de calidad del aire del PSD número PSDTX324M15 y enviará la solicitud y las solicitudes a los comisionados para su consideración en una reunión. reunión de la comisión programada.

LISTA DE CORREO. Usted puede solicitar ser colocado en una lista de correo para obtener información adicional sobre esta solicitud enviando una solicitud a la Oficina del Secretario Jefe en la dirección abajo.

CONTACTOS E INFORMACIÓN DE LA AGENCIA. Los comentarios y solicitudes del público deben ser enviados electrónicamente a www14.tceq.texas.gov/epic/eComment/, o por escrito a la Comisión de Calidad Ambiental de Texas, Oficina del Secretario Oficial, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Tenga en cuenta que cualquier información de contacto que proporcione, incluyendo su nombre, número de teléfono, dirección y correo electrónico y dirección física se convertirá en parte del registro público de la agencia. Para obtener más información acerca de esta solicitud de permiso o el proceso de concesión de permisos, por favor llame sin costo al Programa de Educación Pública al 1 800 687 4040. Si desea información en español, puede llamar al 1-800-687-4040.

También se puede obtener más información de Valero Refining-Texas L.P. en la dirección indicada anteriormente o llamando a la Sra. Meagan Marquard Superintendente Ambiental al (361) 299-8913.

**ES TIEMPO DE LLORAR, DE SUFRIR,
DE REFLEXIONAR!**

Es triste saber que 18 niños inocentes perdieron la vida en TEXAS. ¿Que culpa tenían estos pequeños angelitos? En lo que va del año van más de 20 atentados en colegios de Estados Unidos, sin contar el ataque en el supermercado en Buffalo que dejó 10 muertos.

¿Que está pasando?
¿Que le está pasando a nuestros jóvenes? ¿Por que tanta violencia?
¿Que ven los jóvenes en sus celulares? ¿Donde están los padres?

Padres este mensaje es para ustedes, observen a sus hijos, regulen el uso de celulares, observen sus comportamientos, esta comprobado que los juegos de violencia influyen en el comportamiento de nuestros hijos. Duele pero esto seguirá ocurriendo mientras no se regule el uso de armas en EEUU, prácticamente cualquier persona puede poseer un arma. SINO HAY AMOR, MAÑANA, LAS CARCELES NO SERÁN SUFICIENTES.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Valero Refining-Texas, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso Estatal de Calidad del Aire Número 38754, una modificación al Permiso de Calidad del Aire de Prevención de Deterioro Significativo (PSD) PSDTX324M15, y la emisión de Gases de Efecto Invernadero (GHG) Número de permiso de calidad del aire del PSD GHGPSDTX211 para emisiones de GEI, que autorizaría la modificación de la planta oeste de la refinería de Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud fue procesada de manera expedita, según lo permitido por las reglas de la comisión en el Código Administrativo de Texas 30, Capítulo 101, Subcapítulo J. La sección de avisos públicos de este periódico contiene información adicional sobre esta solicitud.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Corpus Christi Liquefaction, LLC ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso de Calidad de Aire Núm. 105710, que autorizaría una modificación a las operaciones en Corpus Christi Liquefaction ubicada en 622 State Highway 35, Gregory, Condado de San Patricio, Texas 78359. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta solicitud.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Equistar Chemicals, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) para renovación de Permiso Núm. 83864 de Calidad de Aire, el cual autorizaría el funcionamiento continuo de un Complejo en Corpus Christi ubicado en 1501 McKinzie Road, Corpus Christi, Condado de Nueces, Texas 78410. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta solicitud.

COMISIÓN DE CALIDAD AMBIENTAL DE TEXAS

AVISO DE SOLICITUD Y DECISIÓN PRELIMINAR PARA PERMISOS DE CALIDAD DEL AIRE

NÚMEROS DE PERMISO DE CALIDAD DEL AIRE 38754, PSDTX324M15 Y GHGPSDTX211

SOLICITUD Y DECISIÓN PRELIMINAR. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso estatal de calidad del aire 38754, modificación a la Prevención de deterioro significativo (PSD).) Permiso de calidad del aire PSDTX324M15, y emisión del Permiso de calidad del aire de gases de Efecto Inveradero (GEI) PSD GHGPSDTX211 para emisiones de GEI, que autorizaría la modificación de la planta oeste de la refinería Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud se procesó de manera expedita, según lo permiten las reglas de la comisión en el Código Administrativo de Texas 30, Capítulo 101, Subcapítulo J. La instalación existente emitirá los siguientes contaminantes del aire en una cantidad significativa: monóxido de carbono, óxidos de nitrógeno, compuestos orgánicos, partículas, incluidas las partículas con diámetros de 10 micras o menos y 2.5 micras o menos y dióxido de azufre. Además, la instalación emitirá los siguientes contaminantes del aire: amoníaco y sulfuro de hidrógeno.

El grado de incremento de PSD previsto para ser consumido por la instalación existente y otras fuentes de consumo de incremento en el área es el siguiente:

Dióxido de azufre		
Tiempo Máximo Promedio	Incremento Máximo Consumido (µg/m3)	Incremento Admisible (µg/m3)
24-Horas	68	91
Anual	11	20
Dióxido de Nitrógeno		
Tiempo Máximo Promedio	Incremento Máximo Consumido (µg/m3)	Incremento Admisible (µg/m3)
Anual	23	25
PM2.5		
Tiempo Máximo Promedio	Incremento Máximo Consumido (µg/m3)	Incremento Admisible (µg/m3)
24 Horas	8.9	9
Anual	2.9	4

Esta solicitud fue presentada a la TCEQ el 30 de septiembre de 2021. El director ejecutivo ha determinado que las emisiones de contaminantes del aire de la instalación existente que están sujetas a la revisión del PSD no violarán ninguna regulación estatal o federal de calidad del aire y no tendrán ningún significativo impacto adverso en los suelos, la vegetación o la visibilidad. Se han evaluado todos los contaminantes del aire y se utilizará la "mejor tecnología de control disponible" para el control de estos contaminantes.

El director ejecutivo ha completado la revisión técnica de la solicitud y preparó un borrador de permiso que, de aprobarse, establecería las condiciones bajo las cuales debe operar la instalación. La solicitud de permiso, la decisión preliminar del director ejecutivo, el borrador del permiso y el resumen de la determinación preliminar del director ejecutivo y el análisis de la calidad del aire del director ejecutivo estarán disponibles para ver y copiar en la oficina central de la TCEQ, la oficina regional de la TCEQ en Corpus Christi y en la Biblioteca Pública Owen R. Hopkins, 3202 McKinzie Road, Corpus Christi, Condado de Nueces, Texas, comenzando el primer día de publicación de este aviso. El archivo de cumplimiento de la instalación, si existe, está disponible para revisión pública en la Oficina Regional de TCEQ Corpus Christi, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

INFORMACIÓN DISPONIBLE EN LÍNEA. Se puede acceder a estos documentos a través del sitio web de la Comisión en www.tceq.texas.gov/goto/cid: la decisión preliminar del director ejecutivo que incluye el borrador del permiso, el resumen de la determinación preliminar del director ejecutivo, el análisis de la calidad del aire y, una vez que esté disponible, el la respuesta del director ejecutivo a los comentarios y la decisión final sobre esta solicitud. Acceda a la base de datos integrada de comisionados (CID) utilizando el enlace anterior e ingrese el número de permiso para esta aplicación. La ubicación pública mencionada anteriormente proporciona acceso público a Internet. Este enlace a un mapa electrónico de la ubicación general del sitio o instalación se proporciona como una cortesía pública y no como parte de la solicitud o notificación. Para conocer la ubicación exacta, consulte la aplicación. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

COMENTARIO PÚBLICO/REUNIÓN PÚBLICA. Puede enviar comentarios públicos o solicitar una reunión pública a la Oficina del Secretario Oficial en la dirección abajo indicada. El propósito de una reunión pública es proporcionar la oportunidad de presentar comentarios o hacer preguntas sobre la solicitud. El TCEQ celebrará una reunión pública si el director ejecutivo determina que existe un grado significativo de interés público en la solicitud, si lo solicita una persona interesada o si lo solicita un legislador local. Una reunión pública no es una audiencia de caso disputado. Usted puede enviar comentarios públicos adicionales por escrito dentro de los 30 días de la fecha de publicación de este aviso en el periódico de la manera establecida en el párrafo CONTACTOS E INFORMACIÓN de la AGENCIA a continuación.

CONTINUACION EN LA PAGINA #11

CONTINUACION DE LA PAGINA #10

Después de la fecha límite para comentarios públicos, el director ejecutivo considerará los comentarios y preparará una respuesta a todos los comentarios públicos relevantes y materiales o significativos. La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, se enviará por correo a todas las personas que enviaron comentarios públicos o que están en una lista de correo para esta solicitud. El correo también proporcionará instrucciones para solicitar una audiencia de caso impugnado o una reconsideración de la decisión del director ejecutivo.

OPORTUNIDAD PARA UNA AUDIENCIA DE CASO IMPUGNADO. Usted puede solicitar una audiencia de caso impugnado con respecto a las partes de la solicitud de Permiso de Calidad del Aire Estatal Número 38754 y del Permiso de Calidad del Aire PSD Número PSDTX324M15. No existe oportunidad de solicitar una audiencia de caso impugnado con respecto a la parte de la solicitud para el Número de Permiso de Calidad del Aire GHG PSD GHGPSDTX211. Una audiencia de caso impugnado es un procedimiento legal similar a un juicio civil en un tribunal de distrito estatal. Una persona que pueda verse afectada por las emisiones de contaminantes atmosféricos, distintos de los GEI, de la instalación tiene derecho a solicitar una audiencia. Una persona que pueda verse afectada por las emisiones de contaminantes del aire, distintos de los GEI, de la instalación tiene derecho a solicitar una audiencia. Una solicitud de audiencia de caso impugnado debe incluir lo siguiente: (1) su nombre (o para un grupo o asociación, un representante oficial), dirección postal, número de teléfono durante el día; (2) nombre del solicitante y número de permiso; (3) la declaración "Yo/nosotros solicitamos una audiencia de caso impugnado;" (4) una descripción específica de cómo se vería afectado negativamente por la aplicación y las emisiones al aire de la instalación de una manera que no es común para público en general; (5) la ubicación y la distancia de su propiedad con respecto a la instalación; (6) una descripción de cómo utiliza la propiedad que puede verse afectada por la instalación; y (7) una lista de todas las cuestiones de hecho en disputa que presente durante el período de comentarios. Si la solicitud es hecha por un grupo o asociación, uno o más miembros que tienen derecho a solicitar una audiencia deberán identificarse con nombre y dirección física. También deben identificarse los intereses que el grupo o asociación pretende proteger. También puede presentar sus ajustes propuestos a la solicitud/ permiso que satisfaga sus preocupaciones. Las solicitudes para una audiencia de caso impugnado deben presentarse por escrito dentro de los 30 días siguientes a este aviso a la Oficina del Secretario Oficial, en la dirección proporcionada en la sección de información a continuación.

Una audiencia de caso impugnado solo se otorgará en base a cuestiones de hecho en disputa o cuestiones mixtas de hecho y derecho que sean relevantes y materiales para las decisiones de la Comisión sobre la solicitud. La Comisión solo puede conceder una solicitud de audiencia de caso impugnado sobre asuntos que el solicitante presentó en sus comentarios oportunos que no fueron retirados posteriormente. Los asuntos que no se presenten en los comentarios públicos no podrán ser considerados durante una audiencia.

ACCIÓN DEL DIRECTOR EJECUTIVO. El director ejecutivo puede emitir la aprobación final de la solicitud para la parte de la solicitud del Permiso de calidad del aire del PSD de GEI GHGPSDTX211. Si no se recibe una solicitud de audiencia de caso impugnado oportunamente o si se retiran todas las solicitudes de audiencia de caso impugnado oportunamente con respecto al Permiso estatal de calidad del aire número 38754 y para el Permiso de calidad del aire del PSD número PSDTX324M15, el director ejecutivo puede emitir la aprobación final de la solicitud. La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, se enviará por correo a todos los que enviaron comentarios públicos o están en una lista de correo para esta solicitud, y se publicarán electrónicamente en el CID. Si se reciben solicitudes de audiencia oportunas y no se retiran, el director ejecutivo no emitirá la aprobación final del permiso estatal de calidad del aire número 38754 y del permiso de calidad del aire del PSD número PSDTX324M15 y enviará la solicitud y las solicitudes a los comisionados para su consideración en una reunión. reunión de la comisión programada.

LISTA DE CORREO. Usted puede solicitar ser colocado en una lista de correo para obtener información adicional sobre esta solicitud enviando una solicitud a la Oficina del Secretario Jefe en la dirección abajo.

CONTACTOS E INFORMACIÓN DE LA AGENCIA. Los comentarios y solicitudes del público deben ser enviados electrónicamente a www14.tceq.texas.gov/epic/eComment/, o por escrito a la Comisión de Calidad Ambiental de Texas, Oficina del Secretario Oficial, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Tenga en cuenta que cualquier información de contacto que proporcione, incluyendo su nombre, número de teléfono, dirección de correo electrónico y dirección física se convertirá en parte del registro público de la agencia. Para obtener más información acerca de esta solicitud de permiso o el proceso de concesión de permisos, por favor llame sin costo al Programa de Educación Pública al 1 800 687 4040. Si desea información en Español, puede llamar al 1-800-687-4040.

También se puede obtener más información de Valero Refining-Texas L.P. en la dirección indicada anteriormente o llamando a la Sra. Meagan Marquard Superintendente Ambiental al (361) 299-8913.

Subject: PUBLIC MEETING NOTICE - VALERO REFINING-TEXAS, L.P. - PERMIT NOS 38754, PSDTX324M15, AND GHGPSDTX211
Attachments: 38754 ET AL_PUBLIC MEETING.pdf; 38754 ET AL_MAILING LIST.pdf
Importance: High

Good Morning:

Please find attached document for the **NOTICE OF PUBLIC MEETING FOR AIR QUALITY PERMITS - AIR QUALITY PERMIT NUMBERS 38754, PSDTX324M15, AND GHGPSDTX211** for VALERO REFINING-TEXAS, L.P.

Hard copy of the attached document will be mailed to Ms. Meagan Marquard. No publication is required.

The Public Meeting is to be held:

**Monday, July 11, 2022 at 7:00 PM
Atrium Hotel & Convention Center
5549 Leopard Street
Corpus Christi, TX 78408**

Please confirm receipt of this email. Should you have any questions or concerns, please contact me by email.

Thank you for your assistance.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

EXAMPLE A

NOTICE OF PUBLIC MEETING FOR AIR QUALITY PERMITS

AIR QUALITY PERMIT NUMBERS 38754, PSDTX324M15, AND GHGPSDTX211

APPLICATION. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit GHGPSDTX211 for emissions of GHGs, which would authorize modification to the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. In addition, the facility will emit the following air contaminants: ammonia and hydrogen sulfide.

The degree of PSD increment predicted to be consumed by the existing facility and other increment-consuming sources in the area is as follows:

Sulfur Dioxide

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
24-hour	68	91
Annual	11	20

Nitrogen Dioxide

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
Annual	23	25

PM_{2.5}

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
24-hour	8.9	9
Annual	2.9	4

This application was submitted to the TCEQ on September 30, 2021. The executive director has determined that the emissions of air contaminants from the existing facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate.

This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.

<http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application, and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. At the conclusion of the comment period, all formal comments will be considered before a decision is reached on the permit application. A written response to all formal comments will be prepared by the executive director and will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

The Public Meeting is to be held:

**Monday, July 11, 2022 at 7:00 PM
Atrium Hotel & Convention Center
5549 Leopard Street
Corpus Christi, TX 78408**

INFORMATION. Members of the public are encouraged to submit written comments anytime during the public meeting or by mail before the close of the public comment period to the Office of the Chief Clerk, TCEQ, Mail Code MC-105, P.O. Box 13087, Austin, Texas 78711-3087 or electronically at <http://www.tceq.texas.gov/goto/comment>. If you need more information about the permit application or the permitting process, please call the TCEQ Public Education Program, toll free, at 1-800-687-4040. General information can be found at our Web site at www.tceq.texas.gov. *Si desea información en Español, puede llamar al 1-800-687-4040.*

The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas. Further information may also be obtained from Valero Refining-Texas L.P. at the address stated above or by calling Ms. Meagan Marquard, Superintendent Environmental at (361) 299-8913.

Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at 512-239-3300 or 1-800-RELAY-TX (TDD) at least five business days prior to the meeting.

Notice Issuance Date: June 10, 2022

COMISIÓN DE CALIDAD AMBIENTAL DE TEXAS

EJEMPLO A

AVISO DE REUNIÓN PÚBLICA PARA PERMISOS DE CALIDAD DEL AIRE

PERMISO DE CALIDAD DEL AIRE PERMISOS 38754, PSDTX324M15 Y GHGPSDTX211

SOLICITUD. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ, por sus siglas en inglés) una enmienda al Permiso Estatal de Calidad del Aire 38754, modificación al Permiso de Prevención de Deterioro Significativo (PSD, por sus siglas en inglés) de Calidad del Aire PSDTX324M15, y emisión de Gases de Efecto Invernadero (GHG, por sus siglas en inglés) PSD Permiso de Calidad del Aire GHGPSDTX211 para emisiones de GHG, que autorizaría la modificación a la Planta Oeste de la Refinería Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. Esta solicitud se procesó de manera expedita, según lo permitido por las reglas de la comisión en 30 Código Administrativo de Texas, Capítulo 101, Subcapítulo J. La instalación existente emitirá los siguientes contaminantes del aire en una cantidad significativa: monóxido de carbono, óxidos de nitrógeno, compuestos orgánicos, material particulado, incluidas las partículas con diámetros de 10 micras o menos y 2.5 micras o menos y dióxido de azufre. Además, la instalación emitirá los siguientes contaminantes atmosféricos: amoníaco y sulfuro de hidrógeno.

El grado de incremento de la División del Sector Privado que se prevé que consumirán las instalaciones existentes y otras fuentes de consumo incremental en la zona es el siguiente:

Dióxido de Azufre

Tiempo Promedio Máximo	Máximo Incremento Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Permisible ($\mu\text{g}/\text{m}^3$)
24 horas	68	91
Anual	11	20

Dióxido de nitrógeno

Tiempo Promedio Máximo	Máximo Incremento Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Permisible ($\mu\text{g}/\text{m}^3$)
Anual	23	25

PM_{2.5}

Tiempo Promedio Máximo	Máximo Incremento Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Permisible ($\mu\text{g}/\text{m}^3$)
24 horas	8.9	9
Anual	2.9	4

Esta solicitud fue presentada a la TCEQ el 30 de septiembre de 2021. El director ejecutivo ha determinado que las emisiones de contaminantes atmosféricos de la instalación existente que están sujetas a la revisión de la DSP no violarán ninguna regulación estatal o federal de calidad del aire y no tendrán ningún impacto adverso significativo en los suelos, la vegetación o la visibilidad. Todos los contaminantes del aire han sido evaluados, y se utilizará la "mejor tecnología de control disponible" para el control de estos contaminantes.

El director ejecutivo ha completado la revisión técnica de la solicitud y ha preparado un proyecto de permiso que, de ser aprobado, establecería las condiciones en las que la instalación debe operar.

Este enlace a un mapa electrónico de la ubicación general del sitio o instalación se proporciona como cortesía pública y no como parte de la solicitud o aviso. Para conocer la ubicación exacta, consulte la solicitud. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

COMENTARIO PÚBLICO/REUNIÓN PÚBLICA. Puede enviar comentarios públicos a la Oficina del Secretario Oficial en la dirección a continuación. La TCEQ considerará todos los comentarios públicos al desarrollar una decisión final sobre la solicitud. Se convocará una reunión pública que constará de dos partes, un Periodo de Discusión Informal y un Periodo de Comentarios Formales. Una reunión pública no es una audiencia de caso impugnado en virtud de la Ley de Procedimiento Administrativo. Durante el Periodo de Discusión Informal, se alentará al público a hacer preguntas al solicitante y al personal de la TCEQ sobre la solicitud de permiso. Los comentarios y preguntas presentadas oralmente durante el Periodo de Discusión Informal no se considerarán antes de que se tome una decisión sobre la solicitud de permiso, y no se dará una respuesta formal. Las respuestas se proporcionarán oralmente durante el Periodo de Discusión informal. Durante el Periodo de Comentarios Formales sobre la solicitud de permiso, los miembros del público pueden declarar sus comentarios formales oralmente en el registro oficial. Al final del periodo de comentarios, todos los comentarios formales se considerarán antes de que se tome una decisión sobre la solicitud de permiso. El director ejecutivo preparará una respuesta por escrito a todos los comentarios formales y se enviará a cada persona que presente un comentario formal o que solicite estar en la lista de correo para esta solicitud de permiso y proporcione una dirección postal. Solo se pueden considerar las cuestiones relevantes y materiales planteadas durante el Periodo de Comentarios Formales si se concede una audiencia de caso impugnado en esta solicitud de permiso.

La Reunión Pública se llevará a cabo:

**lunes, 11 de julio de 2022 a las 7:00 PM
Atrium Hotel & Convention Center
5549 Leopard Street
Corpus Christi, TX 78408**

INFORMACIÓN. Se alienta a los miembros del público a enviar comentarios por escrito en cualquier momento durante la reunión pública o por correo antes del cierre del periodo de comentarios públicos a la Office of the Chief Clerk, TCEQ, Mail Code MC-105, P.O. Box 13087, Austin, Texas 78711-3087 o electrónicamente a <http://www.tceq.texas.gov/goto/comment>. Si necesita más información sobre la solicitud de permiso o el proceso de permisos, llame al Programa de Educación Pública de la TCEQ, sin cargo, al 1-800-687-4040. Puede encontrar información general en nuestro sitio web en www.tceq.texas.gov. *Si desea información en español, puede llamar al 1-800-687-4040.*

La solicitud de permiso, la decisión preliminar del director ejecutivo, el bosquejo del permiso y el resumen de determinación preliminar del director ejecutivo y el análisis de la calidad del aire del director ejecutivo, estarán disponibles para su visualización y copia en la oficina central de la TCEQ, la oficina regional de TCEQ Corpus Christi y en Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas. El archivo de cumplimiento de la instalación, si existe, está disponible para revisión pública en la Oficina Regional de la TCEQ Corpus Christi, 500 North Shoreline Boulevard, Suite 500,

Corpus Christi, Texas. También se puede obtener más información de Valero Refining-Texas L.P. en la dirección indicada anteriormente o llamando a la Srta. Meagan Marquard, Superintendente Ambiental al (361) 299-8913.

Las personas con discapacidades que necesiten acomodaciones especiales en la reunión deben llamar a la Oficina del Secretario Oficial al 512-239-3300 o al 1-800-RELAY-TX (TDD) al menos cinco días hábiles antes de la reunión.

RE: Request Review of Draft Public Meeting Notice

Good day Ms. Marquard,

Attached is the draft Public Meeting Notice for Valero Corpus Christi Refinery West Plant; Permit Nos. 38754, et. al.. Respond with approval as is or with corrections. Once the notice is complete, the Office of the Chief Clerk will officially issue the notice to the Applicant/Representatives and to persons that have written to TCEQ regarding the permit.

The notice will not be considered complete until I receive an email response from you. **Please respond by COB tomorrow, May 26th if possible.**

Please provide an address for mailed copy of the notice. You will also receive a copy sent by email.

Thank you,
Deanna Avalos

EU agrees to ban most Russian oil imports

Lorne Cook and Samuel Petrequin
ASSOCIATED PRESS

BRUSSELS - In the most significant effort yet to punish Russia for its war in Ukraine, the European Union agreed to ban the overwhelming majority of Russian oil imports after tense negotiations that tested how far the bloc is willing to go to ostracize Moscow.

From the moment Russia invaded on Feb. 24, the West has sought to make Moscow pay economically for its war. But targeting its lucrative energy sector was seen as a last resort in Europe and has proved hardest, since the bloc relies on Russia for 25% of its oil and 40% of its natural gas. European countries that are even more heavily dependent on Russia have been especially reluctant to act.

In a move unthinkable just months ago, EU leaders agreed late Monday to cut around 90% of all Russian oil imports over the next six months.

Belgian Prime Minister Alexander De Croo called the embargo a "big step forward," and Irish Prime Minister Micheal Martin hailed it as "a watershed moment."

"The sanctions have one clear aim: to prompt Russia to end this war and withdraw its troops and to agree with Ukraine on a sensible and fair peace," German Chancellor Olaf Scholz said.

Ukraine estimated the ban could cost Russia tens of billions of dollars.

"The oil embargo will speed up the countdown to the collapse of the Russian economy and war machine," Foreign Minis-

ter Dmytro Kuleba said.

The deputy head of Russia's Security Council said that energy sanctions against the country are intended to hurt ordinary Russians by making it harder for Moscow to fund social programs.

"They hate us all! The basis for these decisions is hatred for Russia, for Russians and for all its inhabitants," Dmitry Medvedev, who is also a former president and prime minister, wrote on the Telegram messaging app.

Mikhail Ulyanov, Russia's permanent representative to international organizations in Vienna, appeared to shrug off the move, though, saying Moscow will find other buyers.

Still, analyst Simone Tagliapietra said Russia will probably have to sell its oil at a substantial discount. Tagliapietra, an energy expert and research fellow at the Brussels-based think tank Bruegel, called the embargo "a major blow."

Matteo Villa, an analyst at the ISPI think tank in Milan, agreed that Russia will take a pretty significant hit now but cau-

tioned that the move could eventually backfire.

"The risk is that the price of oil in general goes up because of the European sanctions. And if the price goes up a lot, the risk is that Russia starts to earn more, and Europe loses the bet," he said.

Russia has also not shied away from withholding its energy supplies, despite the economic damage it could suffer. Russian energy giant Gazprom said it cut off natural gas to Dutch trader GasTerra on Tuesday. It already stopped the flow to Bulgaria, Poland and Finland and is considering doing the same to Denmark.

GasTerra said homes would not be hit, since it bought gas elsewhere in anticipation of a shutoff.

The EU is also urging other countries to avoid placing trade barriers on farm products as Russia's war risks further fueling a global food crisis.

Ukrainian President Volodymyr Zelenskyy has said Russia has prevented the export of 22 million tons of Ukrainian grain, much of it meant

for people across the Middle East and Africa. He accused Moscow of "deliberately creating this problem."

In other developments, Russian forces have seized around half of a key city in eastern Ukraine, according to the mayor. Analysts have painted the battle for Sievierodonetsk as part of a race against time for the Kremlin: The city is key to Russian efforts to complete the capture of the eastern industrial region of the Donbas before more Western arms arrive to bolster Ukraine's defenses.

A court in Ukraine convicted two Russian soldiers of war crimes for the shelling of civilian buildings. It sentenced both to 1½ years in prison, concluding the country's second war crimes trial since the Russian invasion.

The EU oil embargo, part of a new package of sanctions that will also target Russia's biggest bank and state media outlets accused of spreading propaganda, covers crude oil and petroleum products but has

Ukrainian tanks move into the Donetsk region of eastern Ukraine on Monday. FRANCISCO SECO/AP

an exception for oil delivered by pipeline.

That exception was demanded by Hungarian Prime minister Viktor Orban. Hungary gets more than 60% of its oil from Russia, much of it through the Soviet-era Druzhba pipeline.

The EU oil ban includes all Russian oil delivered by sea, which accounts for two-thirds of the EU's imports from Russia. Germany and Poland have announced they will stop using oil

from the northern branch of the Druzhba pipeline.

The compromise laid bare the increasing difficulty of reaching consensus among EU leaders when important national interests are in play.

Agreeing on another round of measures is likely to prove much tougher. Next on the agenda is whether to target natural gas, which is much harder to cut off. That's because it represents a larger percentage of Europe's energy mix.

TO ALL INTERESTED PERSONS AND PARTIES:

Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit Number 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit Number GHGPSDXTX211 for emissions of GHGs, which would authorize modification to a Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. Additional information concerning this application is contained in the public notice section of this newspaper.

CC-00081144-01

TO ALL INTERESTED PERSONS AND PARTIES:

Equistar Chemicals, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for renewal of Air Quality Permit No. 83864, which would authorize continued operation of a Corpus Christi Complex located at 1501 McKinzie Road, Corpus Christi, Nueces County, Texas 78410. Additional information concerning this application is contained in the public notice section of this newspaper

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY
 Notice of Draft Federal Operating Permit
 Draft Permit No.: 03669
 Application and Draft Permit: Buckeye Texas Processing LLC, 7209 UP River Rd., Corpus Christi, TX 78409-2817, has applied to the Texas Commission on Environmental Quality (TCEQ), for a renewal of Federal Operating Permit (herein referred to as Permit) No. 03669, Application No. 32049, to authorize operation of Corpus Christi Refining, a Petroleum Refineres facility. The area addressed by the application is located at 7209 UP River Rd in Corpus Christi, Nueces County, Texas 78409-2817. The link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or the permit. For exact location, refer to the application. You can find an electronic map of the facility at: [http://www.tceq.texas.gov/assets/public/chb610/index.html?121=27.818611&lng=-97.503888&zoom=13&type="](http://www.tceq.texas.gov/assets/public/chb610/index.html?121=27.818611&lng=-97.503888&zoom=13&type=) This application was received by the TCEQ on April 6, 2021. The purpose of a federal operating permit is to improve overall compliance with the rules governing air pollution control by clearly listing all applicable requirements, as defined in Title 30 Texas Administrative Code S.122.10 (30 TAC S.122.10). The draft permit, if approved, will codify the conditions under which the area must operate. The permit will not authorize new construction. The executive director has completed the technical review of the application and has made a preliminary decision to prepare a draft permit for public comment and review. The executive director recommends issuance of this draft permit. The permit application, statement of basis, and draft permit will be available for viewing and copying at the TCEQ Central Office, 12100 Park 35 Circle, Building E, First Floor, Austin, Texas 78753; the TCEQ Corpus Christi Regional Office, 500 N. Shoreline Blvd., Suite 500, Corpus Christi, Texas 78401-0318; and the La Retama Central Library, 805 Comanche St., Corpus Christi, Texas 78401-2715, beginning the first day of publication of this notice. The draft permit and statement of basis are available at the TCEQ Website: www.tceq.texas.gov/ota/otv notice. At the TCEQ central and regional offices, relevant supporting materials for the draft permit, as well as the New Source Review permits which have been incorporated by reference, may be reviewed and copied. Any person with difficulties obtaining these materials, due to travel con-

Public Notices

straints may contact the TCEQ central office file room at (512) 239-2900. Public Comment/Notice and Comment Hearing. Any person may submit written comments on the draft permit. Comments relating to the accuracy, completeness, and appropriateness of the permit conditions may result in changes to the draft permit. A person who may be affected by the emission of air pollutants from the permitted area may request a notice and comment hearing. The purpose of the notice and comment hearing is to provide an additional opportunity to submit comments on the draft permit. The permit may be changed based on comments pertaining to whether the permit provides for compliance with 30 TAC Chapter 122 (examples may include that the permit does not contain all applicable requirements or the public notice procedures were not satisfied). The TCEQ may grant a notice and comment hearing on the application if a written hearing request is received within 30 days after publication of the newspaper notice. The hearing request must include the basis for the request, including a description of how the person may be affected by the emission of air pollutants from the application area. The request should also specify the conditions of the draft permit that are inappropriate or specify how the preliminary decision to issue or deny the permit is inappropriate. All reasonable and relevant issues must be raised and all reasonably available arguments must be submitted by the end of the public comment period. If a notice and comment hearing is granted, all individuals that submitted written comments or a hearing request will receive written notice of the hearing. This notice will identify the date, time, and location for the hearing. Written public comments and/or requests for a notice and comment hearing should be submitted to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087, or electronically at www1.tceq.texas.gov/epic/Comment/ and be received within 30 days after the date of newspaper publication of this notice. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. A notice of proposed final action that includes a response to comments and identification of any changes to the draft permit will be mailed to everyone who submitted public comments; a hearing request,

Public Notices

or requested to be on the mailing list for this application. This mailing will also provide instructions for public petitions to the U.S. Environmental Protection Agency (EPA) to request that the EPA object to the issuance of the proposed permit. After receiving a petition, the EPA may only object to the issuance of a permit which is not in compliance with the applicable requirements or the requirements of 30 TAC, Chapter 122. Mailing List. In addition to submitting public comments, a person may ask to be placed on a mailing list for this application by sending a request to the Office of the Chief Clerk at the address above. Those on the mailing list will receive copies of future public notices (if any) mailed by the Chief Clerk for this application. Information for additional information about this permit application or the permitting process, please contact the Texas Commission on Environmental Quality, Public Education Program, MC-108, P.O. Box 13087, Austin, Texas 78711-3087 or toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040. Further information may also be obtained for Buckeye Texas Processing LLC by contacting: Shatana Banno of (361) 204-5620. Notice Issuance Date: May 12, 2022

THE CORPUS CHRISTI BUILDING STANDARDS BOARD
 Pursuant to Chapter 13, Article 11, Section 13-22 of the City of Corpus Christi Code of Ordinances, generally known as The Corpus Christi Property Maintenance Code. There will be a public hearing before the Building Standards Board at 1:30 p.m. Thursday, June 23, 2022, in the City Council Chambers at 1201 Leopard Street for the purpose of determining whether a substandard structure exists on the properties listed below.
 The Board found that the properties listed below cannot be repaired because of the refusal of the owner or its intrinsic state of disrepair or both and is dilapidated or substandard, therefore, it shall be demolished within thirty (30) days:
 809 S Alameda St., Corpus Christi, Texas 78404
 813 S Alameda St., Corpus Christi, Texas 78404
 813 S Alameda St., aka 817 Alameda St., Corpus Christi, Texas 78404
 625 Atlantic St., Corpus Christi, Texas 78404
 2522 Bolivar St., Corpus Christi, Texas 78418
 110 Josephine St., aka 102 Josephine St., Corpus Christi, Texas 78401
 110 Josephine St., aka 104 Josephine St., Corpus Christi, Texas 78401
 11321 Leopard St., Corpus Christi, Texas 78410
 4023 Santa Elena St., Corpus Christi, Texas 78415
 5310 Williams Dr., Corpus Christi, Texas 78411
 There are no reasonable grounds to believe there are violations of the International Property Maintenance as adopted in §13-22 of the Corpus Christi Code of Ordinances (IPMC) or any rule or regulation concerning health, safety, or general welfare applicable to structures on these properties. The structures are unsafe, unsanitary, unfit for human habitation, or do not provide adequate egress, or constitute a fire hazard or are otherwise dangerous to human life, or in violation of the existing use constitute a hazard to safety or health by reason of inadequate maintenance, dilapidation, obsolescence or abandonment.
 All persons with an interest in this property are notified that the code official seeks orders from the Building Standards Board to repair, vacate or demolish any substandard structure which are determined to exist thereon. If the premises are to be vacated, the owner or occupant is required to come to the meeting and show cause why the remedy sought by the official should not be granted. The owner may appeal the decision of the Board to the City Council. If the order of the Board is not timely followed the City may demolish the building and file a lien against the property to recover expenses.

The Board found that the properties listed below can be repaired therefore, given the property owner thirty (30) days to repair

2849 Tuscarora St., Corpus Christi, Texas 78410

The Board found that the properties listed below can be repaired therefore, given the property owner thirty (30) days to present a plan and timeline securing the property

110 Josephine St., Corpus Christi, Texas 78401

The Board found that the properties listed below can be repaired therefore, given the property owner ninety (90) days to present a plan and timeline

2128 Peabody Ave., Corpus Christi, Texas 78407

The City of Corpus Christi will vacate, secure, remove, or demolish the buildings or relocate the occupants of the buildings if the actions ordered above are not taken within the allotted time.

In the event there are items of personal property in the premises to be demolished, the owner is ordered to remove personal property from the premises within 30 days. If such items of personal property are not removed from the premises within 30 days they shall be placed in storage for a period of 90 days. During this period, they may be redeemed by the owner after all costs incurred in placing the items in storage and all accumulated storage fees have been paid. In the event the property is not redeemed within 90 days the City may cause the same to be sold at auction. The proceeds of the sale shall be used to pay for any costs incurred in the storage of the property and any excess amount shall be set off against the cost of demolition to be charged to the owner.

A complete copy of the Board's order may be obtained in the City Secretary's office.

REQUEST FOR QUALIFICATIONS FOR NEW MAINTENANCE FACILITY & SITE IMPROVEMENTS

The Port of Corpus Christi Authority ("PCCA") is requesting Statements of Intent (SOI) from firms interested in providing Design-Build services for the Port Authority's New Maintenance Facility & Site Improvements Project. Firms interested in providing design-build services for the above referenced project may obtain the complete Request for Qualifications (RFQ) at the PCCA's procurement website (<https://pcca.procurement.com/home>). Interested firms must register on the Port's procurement website in order to access the RFQ online.

In order to be considered, a SOQ must be received by the PCCA, addressed to Port of Corpus Christi Authority, Attn: Lynn Angerstein, Director of Procurement Services, 400 Harbor Drive, Corpus Christi, Texas 78401, no later than 2:00 PM, Thursday, June 16, 2022 (the "Deadline"). SOQs received after the Deadline will not be considered. SOQs may not be faxed or emailed to the PCCA office. The PCCA reserves the right to reject any or all SOQs received.

Proposers must not attempt to contact Staff members, Commissioners, or Agents of the PCCA associated with this RFQ to discuss or ask questions about the contents of the RFQ. Any questions should be submitted in writing via the PCCA's Procurement website.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR AIR QUALITY PERMITS AIR QUALITY PERMIT NUMBERS 38754, PSDTX324M15, AND GHGSDTX211

APPLICATION AND PRELIMINARY DECISION: Valley Refining, Texas L.P., Post Office Box 9370, Corpus Christi, Texas 78409-9370, has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit GHGSDTX211 for emissions of GHG, which would authorize modification to the Valero Corpus Christi Refinery Plant located at 5900 Up River Road, Corpus Christi, Texas, County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide, nitrogen dioxide, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. In addition, the facility will emit the following air contaminants: ammonia and hydrogen fluoride.

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
Annual	11	20

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
Annual	23	25

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
24-hr	8.9	1.0
Annual	2.9	4

This application was submitted to the TCEQ on September 30, 2021. The executive director has determined that the emissions of air contaminants from the existing facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owen H. Hopkins Public Library, 3232 McEuse Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 North Sherman Boulevard, Suite 500, Corpus Christi, Texas.

REGISTRATION AVAILABLE ONLINE: These documents are accessible through the Commission's Web site at www.tceq.texas.gov/online. The executive director's preliminary decision which includes the draft permit, the executive director's preliminary determination summary, air quality analysis, and, as available, the executive director's response to comments and the final decision on the application, are available for public review on the Commission's (CO) using the above link and enter the permit number for this application. The public location mentioned above provides public access to the permit location, refer to application number and final decision number.

PUBLIC COMMENT/HEARING: This may require public comments or request a public hearing to the Office of the Chief Clerk at the address below. The purpose of a public hearing is to provide the opportunity to submit comment or to ask questions about the application. The TCEQ will hold a public hearing if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public hearing is not a contested case hearing. You may submit additional written public comments within 30 days of the date of the newspaper publication of this notice in the manner set forth in the AGENCY CONTACTS AND INFORMATION paragraph below.

After the deadline for public comment, the executive director will consider the comments and prepare a response to all comment and material of significant public concern. The response to comments, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments or is on a mailing list for this application. The mailing will also provide instructions for requesting a contested case hearing or reconsideration of the executive director's decision.

OPPORTUNITY FOR A CONTESTED CASE HEARING: You may request a contested case hearing regarding the portions of the application for State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15. There is no opportunity to request a contested case hearing regarding the portions of the application for GHG PSD Air Quality Permit Number GHGSDTX211. A contested case hearing is a legal proceeding similar to a civil trial in a state district court. A person who may be affected by emissions of air contaminants other than GHG from the facility is entitled to request a hearing. A contested case hearing request must include the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number; (2) applicant's name and permit number; (3) the address where you request a contested case hearing; (4) a specific description of how you would be adversely affected by the application and any emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you state the property might be impacted by the facility; and (7) a list of all disputed issues of fact and law you submit during the hearing period. If the request is made by a group or association, the name and address of the group or association must be identified. You may also submit your proposed amendments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk at the address provided in the information section below.

A contested case hearing will only be granted based on disputed issues of fact and law that are relevant and material to the Commission's decision on the application. The Commission may only grant a request for a contested case hearing on issues the requester submitted in their timely comments that were not subsequently withdrawn. Issues that are not submitted in public comments may not be considered during a hearing.

EXECUTIVE DIRECTOR ACTION: The executive director may issue final approval of the application for the portion of the application for GHG PSD Air Quality Permit GHGSDTX211, if a timely contested case hearing request is not received or if a timely contested case hearing request is withdrawn regarding State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15; the executive director may issue final approval of the application. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application, and will be posted electronically to the CO. If any timely hearing requests are received and not withdrawn, the executive director will not issue final approval of the State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15 and will forward the application and requests to the Commissioners for their consideration at a scheduled commission meeting.

MAILING LIST: You may ask to be placed on a mailing list to obtain additional information on this application by sending a request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION: Public comments and requests must be submitted either electronically at www.tceq.texas.gov/online or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13067, Austin, Texas 78711-3067. Please be sure that any contact information you provide, including your name, phone number, email address and physical address, will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4640. If these information in Spanish, please llamar al 1-800-687-4640.

Further information may also be obtained from Valero Refining, Texas L.P. at the address stated above or by calling Ms. Megan Marquardt, Superintendent, Environmental at (951) 298-9913.

**ES TIEMPO DE LLORAR, DE SUFRIR,
DE REFLEXIONAR!**

Es triste saber que 18 niños inocentes perdieron la vida en TEXAS, ¿Que culpa tenían estos pequeños angelitos? En lo que va del año van más de 20 atentados en colegios de Estados Unidos, sin contar el ataque en el supermercado en Buffalo que dejó 10 muertos.

¿Que está pasando?
¿Que le está pasando a nuestros jóvenes? ¿Por que tanta violencia?
¿Que ven los jóvenes en sus celulares? ¿Donde están los padres?

Padres este mensaje es para ustedes, observen a sus hijos, regulen el uso de celulares, observen sus comportamientos, esta comprobado que los juegos de violencia influyen en el comportamiento de nuestros hijos.

Duele pero esto seguirá ocurriendo mientras no se regule el uso de armas en EEUU, prácticamente cualquier persona puede poseer un arma. SINO HAY AMOR, MAÑANA, LAS CÁRCELES NO SERÁN SUFICIENTES.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Valero Refining-Texas, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso Estatal de Calidad del Aire Número 38754, una modificación al Permiso de Calidad del Aire de Prevención de Deterioro Significativo (PSD) PSDTX324M15, y la emisión de Gases de Efecto Invernadero (GHG) Número de permiso de calidad del aire del PSD GHGPSDTX211 para emisiones de GEI, que autorizaría la modificación de la planta oeste de la refinería de Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud fue procesada de manera expedita, según lo permitido por las reglas de la comisión en el Código Administrativo de Texas 30, Capítulo 101, Subcapítulo J. La sección de avisos públicos de este periódico contiene información adicional sobre esta solicitud.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Corpus Christi Liquefaction, LLC ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso de Calidad de Aire Núm. 105710, que autorizaría una modificación a las operaciones en Corpus Christi Liquefaction ubicada en 622 State Highway 35, Gregory, Condado de San Patricio, Texas 78359. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta solicitud.

A TODAS LAS PERSONAS Y PARTES INTERESADAS:

Equistar Chemicals, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) para renovación de Permiso Núm. 83864 de Calidad de Aire, el cual autorizaría el funcionamiento continuo de un Complejo en Corpus Christi ubicado en 1501 McKinzie Road, Corpus Christi, Condado de Nueces, Texas 78410. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta solicitud.

SOLICITUD Y DECISIÓN PRELIMINAR. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso estatal de calidad del aire 38754, modificación a la Prevención de deterioro significativo (PSD).) Permiso de calidad del aire PSDTX324M15, y emisión del Permiso de calidad del aire de gases de Efecto Inverandero (GEI) PSD GHGPSDTX211 para emisiones de GEI, que autorizaría la modificación de la planta oeste de la refinería Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud se procesó de manera expedita, según lo permiten las reglas de la comisión en el Código Administrativo de Texas 30, Capítulo 101, Subcapítulo J. La instalación existente emitirá los siguientes contaminantes del aire en una cantidad significativa: monóxido de carbono, óxidos de nitrógeno, compuestos orgánicos, partículas, incluidas las partículas con diámetros de 10 micras o menos y 2,5 micras o menos y dióxido de azufre. Además, la instalación emitirá los siguientes contaminantes del aire: amoníaco y sulfuro de hidrógeno.

El grado de incremento de PSD previsto para ser consumido por la instalación existente y otras fuentes de consumo de incremento en el área es el siguiente:

Dióxido de azufre

Tiempo Máximo Promedio	Incremento Máximo Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Admisible ($\mu\text{g}/\text{m}^3$)
24-Horas	68	91
Anual	11	20

Dióxido de Nitrógeno

Tiempo Máximo Promedio	Incremento Máximo Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Admisible ($\mu\text{g}/\text{m}^3$)
Anual	23	25

PM_{2.5}

Tiempo Máximo Promedio	Incremento Máximo Consumido ($\mu\text{g}/\text{m}^3$)	Incremento Admisible ($\mu\text{g}/\text{m}^3$)
24 Horas	8.9	9
Anual	2.9	4

Esta solicitud fue presentada al la TCEQ el 30 de septiembre de 2021. El director ejecutivo ha determinado que las emisiones de contaminantes del aire de la instalación existente que están sujetas a la revisión del PSD no violarán ninguna regulación estatal o federal de calidad del aire y no tendrán ningún significativo impacto adverso en los suelos, la vegetación o la visibilidad. Se han evaluado todos los contaminantes del aire y se utilizará la "mejor tecnología de control disponible" para el control de estos contaminantes.

El director ejecutivo ha completado la revisión técnica de la solicitud y preparó un borrador de permiso que, de aprobarse, establecería las condiciones bajo las cuales debe operar la instalación. La solicitud de permiso, la decisión preliminar del director ejecutivo, el borrador del permiso y el resumen de la determinación preliminar del director ejecutivo y el análisis de la calidad del aire del director ejecutivo estarán disponibles para ver y copiar en la oficina central de la TCEQ, la oficina regional de la TCEQ en Corpus Christi y en la Biblioteca Pública Owen R. Hopkins, 3202 McKinzie Road, Corpus Christi, Condado de Nueces, Texas, comenzando el primer día de publicación de este aviso. El archivo de cumplimiento de la instalación, si existe, está disponible para revisión pública en la Oficina Regional de TCEQ Corpus Christi, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

INFORMACIÓN DISPONIBLE EN LÍNEA. Se puede acceder a estos documentos a través del sitio web de la Comisión en www.tceq.texas.gov/goto/cid: la decisión preliminar del director ejecutivo que incluye el borrador del permiso, el resumen de la determinación preliminar del director ejecutivo, el análisis de la calidad del aire y, una vez que esté disponible, el la respuesta del director ejecutivo a los comentarios y la decisión final sobre esta solicitud. Acceda a la base de datos integrada de comisionados (CID) utilizando el enlace anterior e ingrese el número de permiso para esta aplicación. La ubicación pública mencionada anteriormente proporciona acceso público a Internet. Este enlace a un mapa electrónico de la ubicación general del sitio o instalación se proporciona como una cortesía pública y no como parte de la solicitud o notificación. Para conocer la ubicación exacta, consulte la aplicación. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

COMENTARIO PÚBLICO/REUNIÓN PÚBLICA. Puede enviar comentarios públicos o solicitar una reunión pública a la Oficina del Secretario Oficial en la dirección abajo indicada. El propósito de una reunión pública es proporcionar la oportunidad de presentar comentarios o hacer preguntas sobre la solicitud. El TCEQ celebrará una reunión pública si el director ejecutivo determina que existe un grado significativo de interés público en la solicitud, si lo solicita una persona interesada o si lo solicita un legislador local. Una reunión pública no es una audiencia de caso disputado. Usted puede enviar comentarios públicos adicionales por escrito dentro de los 30 días de la fecha de publicación de este aviso en el periódico de la manera establecida en el párrafo CONTACTOS E INFORMACIÓN de la AGENCIA a continuación.

CONTINUACION EN LA PAGINA #11

CONTINUACION DE LA PAGINA #10

Después de la fecha límite para comentarios públicos, el director ejecutivo considerará los comentarios y preparará una respuesta a todos los comentarios públicos relevantes y materiales o significativos. La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, se enviará por correo a todas las personas que enviaron comentarios públicos o que están en una lista de correo para esta solicitud. El correo también proporcionará instrucciones para solicitar una audiencia de caso impugnado o una reconsideración de la decisión del director ejecutivo.

OPORTUNIDAD PARA UNA AUDIENCIA DE CASO IMPUGNADO. Usted puede solicitar una audiencia de caso impugnado con respecto a las partes de la solicitud de Permiso de Calidad del Aire Estatal Número 38754 y del Permiso de Calidad del Aire PSD Número PSDTX324M15. No existe oportunidad de solicitar una audiencia de caso impugnado con respecto a la parte de la solicitud para el Número de Permiso de Calidad del Aire GHG PSD GHGPSDTX211. Una audiencia de caso impugnado es un procedimiento legal similar a un juicio civil en un tribunal de distrito estatal. Una persona que pueda verse afectada por las emisiones de contaminantes atmosféricos, distintos de los GEI, de la instalación tiene derecho a solicitar una audiencia. Una persona que pueda verse afectada por las emisiones de contaminantes del aire, distintos de los GEI, de la instalación tiene derecho a solicitar una audiencia. Una solicitud de audiencia de caso impugnado debe incluir lo siguiente: (1) su nombre (o para un grupo o asociación, un representante oficial), dirección postal, número de teléfono durante el día; (2) nombre del solicitante y número de permiso; (3) la declaración "Yo/nosotros solicitamos una audiencia de caso impugnado;" (4) una descripción específica de cómo se vería afectado negativamente por la aplicación y las emisiones al aire de la instalación de una manera que no es común para público en general; (5) la ubicación y la distancia de su propiedad con respecto a la instalación; (6) una descripción de cómo utiliza la propiedad que puede verse afectada por la instalación; y (7) una lista de todas las cuestiones de hecho en disputa que presente durante el período de comentarios. Si la solicitud es hecha por un grupo o asociación, uno o más miembros que tienen derecho a solicitar una audiencia deberán identificarse con nombre y dirección física. También deben identificarse los intereses que el grupo o asociación pretende proteger. También puede presentar sus ajustes propuestos a la solicitud/ permiso que satisfaga sus preocupaciones. Las solicitudes para una audiencia de caso impugnado deben presentarse por escrito dentro de los 30 días siguientes a este aviso a la Oficina del Secretario Oficial, en la dirección proporcionada en la sección de información a continuación.

Una audiencia de caso impugnado solo se otorgará en base a cuestiones de hecho en disputa o cuestiones mixtas de hecho y derecho que sean relevantes y materiales para las decisiones de la Comisión sobre la solicitud. La Comisión solo puede conceder una solicitud de audiencia de caso impugnado sobre asuntos que el solicitante presentó en sus comentarios oportunos que no fueron retirados posteriormente. Los asuntos que no se presenten en los comentarios públicos no podrán ser considerados durante una audiencia.

ACCIÓN DEL DIRECTOR EJECUTIVO. El director ejecutivo puede emitir la aprobación final de la solicitud para la parte de la solicitud del Permiso de calidad del aire del PSD de GEI GHGPSDTX211. Si no se recibe una solicitud de audiencia de caso impugnado oportunamente o si se retiran todas las solicitudes de audiencia de caso impugnado oportunamente con respecto al Permiso estatal de calidad del aire número 38754 y para el Permiso de calidad del aire del PSD número PSDTX324M15, el director ejecutivo puede emitir la aprobación final de la solicitud. La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, se enviará por correo a todos los que enviaron comentarios públicos o están en una lista de correo para esta solicitud, y se publicarán electrónicamente en el CID. Si se reciben solicitudes de audiencia oportunas y no se retiran, el director ejecutivo no emitirá la aprobación final del permiso estatal de calidad del aire número 38754 y del permiso de calidad del aire del PSD número PSDTX324M15 y enviará la solicitud y las solicitudes a los comisionados para su consideración en una reunión. reunión de la comisión programada.

LISTA DE CORREO. Usted puede solicitar ser colocado en una lista de correo para obtener información adicional sobre esta solicitud enviando una solicitud a la Oficina del Secretario Jefe en la dirección abajo.

CONTACTOS E INFORMACIÓN DE LA AGENCIA. Los comentarios y solicitudes del público deben ser enviados electrónicamente a www.tceq.texas.gov/epic/eComment/, o por escrito a la Comisión de Calidad Ambiental de Texas, Oficina del Secretario Oficial, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Tenga en cuenta que cualquier información de contacto que proporcione, incluyendo su nombre, número de teléfono, dirección de correo electrónico y dirección física se convertirá en parte del registro público de la agencia. Para obtener más información acerca de esta solicitud de permiso o el proceso de concesión de permisos, por favor llame sin costo al Programa de Educación Pública al 1 800 687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

También se puede obtener más información de Valero Refining-Texas L.P. en la dirección indicada anteriormente o llamando a la Sra. Meagan Marquard Superintendente Ambiental al (361) 299-8913.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR AIR QUALITY PERMITS

AIR QUALITY PERMIT NUMBERS 38754, PSDTX324M15, AND GHGPSDTX211

APPLICATION AND PRELIMINARY DECISION. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit GHGPSDTX211 for emissions of GHGs, which would authorize modification to the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. In addition, the facility will emit the following air contaminants: ammonia and hydrogen sulfide.

The degree of PSD increment predicted to be consumed by the existing facility and other increment-consuming sources in the area is as follows:

Sulfur Dioxide

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
24-hour	68	91
Annual	11	20

Nitrogen Dioxide

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
Annual	23	25

PM 2.5

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
24-hour	8.9	9
Annual	2.9	4

This application was submitted to the TCEQ on September 30, 2021. The executive director has determined that the emissions of air contaminants from the existing facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

INFORMATION AVAILABLE ONLINE. These documents are accessible through the Commission's Web site at www.tceq.texas.gov/goto/cid; the executive director's preliminary decision which includes the draft permit, the executive director's preliminary determination summary, air quality analysis, and, once available, the executive director's response to comments and the final decision on this application. Access the Commissioners' Integrated Database (CID) using the above link and enter the permit number for this application. The public location mentioned above provides public access to the Internet. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. http://www.tceq.texas.gov/assets/public/7b610/index.html?al=27_82055&lng=97.488333&zoom=13&type=f.

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting to the Office of the Chief Clerk at the address below. The purpose of a public meeting is to provide the opportunity to submit comment or to ask questions about the application. The TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application, if written by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing. You may submit additional written public comments within 30 days of the date of newspaper publication of this notice in the manner set forth in the AGENCY CONTACTS AND INFORMATION paragraph below.

After the deadline for public comment, the executive director will consider the comments and prepare a response to all relevant and material or significant public comment. The response to comments, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments or is on a mailing list for this application. The mailing will also provide instructions for requesting a contested case hearing or reconsideration of the executive director's decision.

OPPORTUNITY FOR A CONTESTED CASE HEARING. You may request a contested case hearing regarding the portions of the application for State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15. There is no opportunity to request a contested case hearing regarding the portion of the application for GHG PSD Air Quality Permit Number GHGPSDTX211. A contested case hearing is a legal proceeding similar to a civil trial in a state district court. A person who may be affected by emissions of air contaminants, other than GHGs, from the facility is entitled to request a hearing. A contested case hearing request must include the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number; (2) applicant's name and permit number; (3) the statement "I/we request a contested case hearing;" (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a group or association, one or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk, at the address provided in the information section below.

A contested case hearing will only be granted based on disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decisions on the application. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. Issues that are not submitted in public comments may not be considered during a hearing.

EXECUTIVE DIRECTOR ACTION. The executive director may issue final approval of the application for the portion of the application for GHG PSD Air Quality Permit GHGPSDTX211, if a timely contested case hearing request is not received or if all timely contested case hearing requests are withdrawn, regarding State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15, the executive director may issue final approval of the application. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application, and will be posted electronically to the CID. If any timely hearing requests are received and not withdrawn, the executive director will not issue final approval of the State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15 and will forward the application and requests to the Commissioners for their consideration at a scheduled commission meeting.

MAILING LIST. You may ask to be placed on a mailing list to obtain additional information on this application by sending a request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION. Public comments and requests must be submitted either electronically at www14.tceq.texas.gov/epcf (eComment), or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Educator Program toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-600-687-4040.

Further information may also be obtained from Valero Refining-Texas, L.P. at the address stated above or by calling Ms. Morgan Marquand, Superintendent Environmental at (361) 299-8413.

Notice Issuance Date: May 19, 2022

TO ALL INTERESTED PERSONS AND PARTIES:

Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit Number 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit Number GHGPSDTX211 for emissions of GHGs, which would authorize modification to a Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. Additional information concerning this application is contained in the public notice section of this newspaper.

**ES TIEMPO DE LLORAR, DE SUFRIR,
DE REFLEXIONAR!**

Es triste saber que 18 niños inocentes perdieron la vida en TEXAS, ¿Que culpa tenían estos pequeños angelitos? En lo que va del año van más de 20 atentados en colegios de Estados Unidos, sin contar el ataque en el supermercado en Buffalo que dejó 10 muertos.

¿Que está pasando?
¿Que le está pasando a nuestros jóvenes? ¿Por que tanta violencia?
¿Que ven los jóvenes en sus celulares? ¿Donde están los padres?

Padres este mensaje es para ustedes, observen a sus hijos, regulen el uso de celulares, observen sus comportamientos, esta comprobado que los juegos de violencia in-

fluyen en el comportamiento de nuestros hijos.

Duele pero esto seguirá ocurriendo mientras no se regule el uso de armas en EEUU, prácticamente cualquier persona puede poseer un arma. SINO HAY AMOR, MAÑANA, LAS CÁRCELES NO SERÁN SUFICIENTES.

**A TODAS LAS PERSONAS Y
PARTES INTERESADAS:**

Valero Refining-Texas, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso Estatal de Calidad del Aire Número 38754, una modificación al Permiso de Calidad del Aire de Prevención de Deterioro Significativo (PSD) PSDTX324M15, y la emisión de Gases de Efecto Invernadero (GHG) Número de permiso de calidad del aire del PSD GHGPSDTX211 para emisiones de GEI, que autorizaría la modificación de la planta oeste de la refinería de Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud fue procesada de manera expedita, según lo permitido por las reglas de la comisión en el Código Administrativo de Texas 30, Capítulo 101, Subcapítulo J. La sección de avisos públicos de este periódico contiene información adicional sobre esta solicitud.

**A TODAS LAS PERSONAS Y PARTES
INTERESADAS:**

Corpus Christi Liquefaction, LLC ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso de Calidad de Aire Núm. 105710, que autorizaría una modificación a las operaciones en Corpus Christi Liquefaction ubicada en 622 State Highway 35, Gregory, Condado de San Patricio, Texas 78359. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta solicitud.

**A TODAS LAS PERSONAS Y
PARTES INTERESADAS:**

Equistar Chemicals, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) para renovación de Permiso Núm. 83864 de Calidad de Aire, el cual autorizaría el funcionamiento continuo de un Complejo en Corpus Christi ubicado en 1501 McKinzie Road, Corpus Christi, Condado de Nueces, Texas 78410. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta solicitud.

COMISIÓN DE CALIDAD AMBIENTAL DE TEXAS

AVISO DE SOLICITUD Y DECISIÓN PRELIMINAR PARA PERMISOS DE CALIDAD DEL AIRE

NÚMEROS DE PERMISO DE CALIDAD DEL AIRE 38754, PSDTX324M15 Y GHGPSDTX211

SOLICITUD Y DECISIÓN PRELIMINAR. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ) una enmienda al Permiso estatal de calidad del aire 38754, modificación a la Prevención de deterioro significativo (PSD) y Permiso de calidad del aire PSDTX324M15, y emisión del Permiso de calidad del aire de gases de Efecto Inverandero (GEI) PSD GHGPSDTX211 para emisiones de GEI, que autorizaría la modificación de la planta oeste de la refinería Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, condado de Nueces, Texas 78407. Esta solicitud se procesó de manera expedita, según lo permiten las reglas de la comisión en el Código Administrativo de Texas 30, Capítulo 101, Subcapítulo J. La instalación existente emitirá los siguientes contaminantes del aire en una cantidad significativa: monóxido de carbono, óxidos de nitrógeno, compuestos orgánicos, partículas, incluidas las partículas con diámetros de 10 micras o menos y 2,5 micras o menos y dióxido de azufre. Además, la instalación emitirá los siguientes contaminantes del aire: amoníaco y sulfuro de hidrógeno.

El grado de incremento de PSD previsto para ser consumido por la instalación existente y otras fuentes de consumo de incremento en el área es el siguiente:

Dióxido de azufre

Tiempo Máximo Promedio	Incremento Máximo Consumido (µg/m3)	Incremento Admisible (µg/m3)
24-Horas	68	91
Anual	11	20

Dióxido de Nitrógeno

Tiempo Máximo Promedio	Incremento Máximo Consumido (µg/m3)	Incremento Admisible (µg/m3)
Anual	23	25

PM2.5

Tiempo Máximo Promedio	Incremento Máximo Consumido (µg/m3)	Incremento Admisible (µg/m3)
24 Horas	8.9	9
Anual	2.9	4

Esta solicitud fue presentada a la TCEQ el 30 de septiembre de 2021. El director ejecutivo ha determinado que las emisiones de contaminantes del aire de la instalación existente que están sujetas a la revisión del PSD no violarán ninguna regulación estatal o federal de calidad del aire y no tendrán ningún significativo impacto adverso en los suelos, la vegetación o la visibilidad. Se han evaluado todos los contaminantes del aire y se utilizará la "mejor tecnología de control disponible" para el control de estos contaminantes.

El director ejecutivo ha completado la revisión técnica de la solicitud y preparó un borrador de permiso que, de aprobarse, establecería las condiciones bajo las cuales debe operar la instalación. La solicitud de permiso, la decisión preliminar del director ejecutivo, el borrador del permiso y el resumen de la determinación preliminar del director ejecutivo y el análisis de la calidad del aire del director ejecutivo estarán disponibles para ver y copiar en la oficina central de la TCEQ, la oficina regional de la TCEQ en Corpus Christi y en la Biblioteca Pública Owen R. Hopkins, 3202 McKinzie Road, Corpus Christi, Condado de Nueces, Texas, comenzando el primer día de publicación de este aviso. El archivo de cumplimiento de la instalación, si existe, está disponible para revisión pública en la Oficina Regional de TCEQ Corpus Christi, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

INFORMACIÓN DISPONIBLE EN LÍNEA. Se puede acceder a estos documentos a través del sitio web de la Comisión en www.tceq.texas.gov/goto/cid: la decisión preliminar del director ejecutivo que incluye el borrador del permiso, el resumen de la determinación preliminar del director ejecutivo, el análisis de la calidad del aire y, una vez que esté disponible, el la respuesta del director ejecutivo a los comentarios y la decisión final sobre esta solicitud. Acceda a la base de datos integrada de comisionados (CID) utilizando el enlace anterior e ingrese el número de permiso para esta aplicación. La ubicación pública mencionada anteriormente proporciona acceso público a Internet. Este enlace a un mapa electrónico de la ubicación general del sitio o instalación se proporciona como una cortesía pública y no como parte de la solicitud o notificación. Para conocer la ubicación exacta, consulte la aplicación. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

COMENTARIO PÚBLICO/REUNIÓN PÚBLICA. Puede enviar comentarios públicos o solicitar una reunión pública a la Oficina del Secretario Oficial en la dirección abajo indicada. El propósito de una reunión pública es proporcionar la oportunidad de presentar comentarios o hacer preguntas sobre la solicitud. El TCEQ celebrará una reunión pública si el director ejecutivo determina que existe un grado significativo de interés público en la solicitud, si lo solicita una persona interesada o si lo solicita un legislador local. Una reunión pública no es una audiencia de caso disputado. Usted puede enviar comentarios públicos adicionales por escrito dentro de los 30 días de la fecha de publicación de este aviso en el periódico de la manera establecida en el párrafo CONTACTOS E INFORMACIÓN de la AGENCIA a continuación.

CONTINUACION EN LA PAGINA #11

CONTINUACION DE LA PAGINA #10

Después de la fecha límite para comentarios públicos, el director ejecutivo considerará los comentarios y preparará una respuesta a todos los comentarios públicos relevantes y materiales o significativos. La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, se enviará por correo a todas las personas que enviaron comentarios públicos o que están en una lista de correo para esta solicitud. El correo también proporcionará instrucciones para solicitar una audiencia de caso impugnado o una reconsideración de la decisión del director ejecutivo.

OPORTUNIDAD PARA UNA AUDIENCIA DE CASO IMPUGNADO. Usted puede solicitar una audiencia de caso impugnado con respecto a las partes de la solicitud de Permiso de Calidad del Aire Estatal Número 38754 y del Permiso de Calidad del Aire PSD Número PSDTX324M15. No existe oportunidad de solicitar una audiencia de caso impugnado con respecto a la parte de la solicitud para el Número de Permiso de Calidad del Aire GHG PSD GHGPSD TX211. Una audiencia de caso impugnado es un procedimiento legal similar a un juicio civil en un tribunal de distrito estatal. Una persona que pueda verse afectada por las emisiones de contaminantes atmosféricos, distintos de los GEI, de la instalación tiene derecho a solicitar una audiencia. Una persona que pueda verse afectada por las emisiones de contaminantes del aire, distintos de los GEI, de la instalación tiene derecho a solicitar una audiencia. Una solicitud de audiencia de caso impugnado debe incluir lo siguiente: (1) su nombre (o para un grupo o asociación, un representante oficial), dirección postal, número de teléfono durante el día; (2) nombre del solicitante y número de permiso; (3) la declaración "Yo/nosotros solicitamos una audiencia de caso impugnado;" (4) una descripción específica de cómo se vería afectado negativamente por la aplicación y las emisiones al aire de la instalación de una manera que no es común para público en general; (5) la ubicación y la distancia de su propiedad con respecto a la instalación; (6) una descripción de cómo utiliza la propiedad que puede verse afectada por la instalación; y (7) una lista de todas las cuestiones de hecho en disputa que presente durante el período de comentarios. Si la solicitud es hecha por un grupo o asociación, uno o más miembros que tienen derecho a solicitar una audiencia deberán identificarse con nombre y dirección física. También deben identificarse los intereses que el grupo o asociación pretende proteger. También puede presentar sus ajustes propuestos a la solicitud/ permiso que satisfaga sus preocupaciones. Las solicitudes para una audiencia de caso impugnado deben presentarse por escrito dentro de los 30 días siguientes a este aviso a la Oficina del Secretario Oficial, en la dirección proporcionada en la sección de información a continuación.

Una audiencia de caso impugnado solo se otorgará en base a cuestiones de hecho en disputa o cuestiones mixtas de hecho y derecho que sean relevantes y materiales para las decisiones de la Comisión sobre la solicitud. La Comisión solo puede conceder una solicitud de audiencia de caso impugnado sobre asuntos que el solicitante presentó en sus comentarios oportunos que no fueron retirados posteriormente. Los asuntos que no se presenten en los comentarios públicos no podrán ser considerados durante una audiencia.

ACCIÓN DEL DIRECTOR EJECUTIVO. El director ejecutivo puede emitir la aprobación final de la solicitud para la parte de la solicitud del Permiso de calidad del aire del PSD de GEI GHGPSD TX211. Si no se recibe una solicitud de audiencia de caso impugnado oportunamente o si se retiran todas las solicitudes de audiencia de caso impugnado oportunamente con respecto al Permiso estatal de calidad del aire número 38754 y para el Permiso de calidad del aire del PSD número PSDTX324M15, el director ejecutivo puede emitir la aprobación final de la solicitud. La respuesta a los comentarios, junto con la decisión del director ejecutivo sobre la solicitud, se enviará por correo a todos los que enviaron comentarios públicos o están en una lista de correo para esta solicitud, y se publicarán electrónicamente en el CID. Si se reciben solicitudes de audiencia oportunas y no se retiran, el director ejecutivo no emitirá la aprobación final del permiso estatal de calidad del aire número 38754 y del permiso de calidad del aire del PSD número PSDTX324M15 y enviará la solicitud y las solicitudes a los comisionados para su consideración en una reunión, reunión de la comisión programada.

LISTA DE CORREO. Usted puede solicitar ser colocado en una lista de correo para obtener información adicional sobre esta solicitud enviando una solicitud a la Oficina del Secretario Jefe en la dirección abajo.

CONTACTOS E INFORMACIÓN DE LA AGENCIA. Los comentarios y solicitudes del público deben ser enviados electrónicamente a www.tceq.texas.gov/epic/eComment/, o por escrito a la Comisión de Calidad Ambiental de Texas, Oficina del Secretario Oficial, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Tenga en cuenta que cualquier información de contacto que proporcione, incluyendo su nombre, número de teléfono, dirección de correo electrónico y dirección física se convertirá en parte del registro público de la agencia. Para obtener más información acerca de esta solicitud de permiso o el proceso de concesión de permisos, por favor llame sin costo al Programa de Educación Pública al 1 800 687 4040. Si desea información en Español, puede llamar al 1-800-687-4040.

También se puede obtener más información de Valero Refining-Texas L.P. en la dirección indicada anteriormente o llamando a la Sra. Meagan Marquard Superintendente Ambiental al (361) 299-8913.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

May 19, 2022

MR JOE ALMARAZ
DIRECTOR ENVIRONMENTAL SAFETY AFFAIRS
VALERO REFINING-TEXAS LP
PO BOX 9370
CORPUS CHRISTI TEXAS 78469-9370

Re: Prevention of Significant Deterioration Permit
Permit Numbers: 38754, PSDTX324M15, and GHGPSDTX211
Valero Refining-Texas, L.P.
Valero Corpus Christi Refinery West Plant
Corpus Christi, Nueces County
Regulated Entity Number: RN100214386
Customer Reference Number: CN600127468

Dear Mr. Almaraz:

The Texas Commission on Environmental Quality (TCEQ) has completed the technical review of your application and has prepared a preliminary decision and draft permit.

You are now required to publish notice of your proposed activity. To help you meet the regulatory requirements associated with this notice, we have included the following items:

- Notices for Newspaper Publication (Examples A and B)
- Public Notice Checklist
- Instructions for Public Notice
- Affidavit of Publication for Air Permitting (Form TCEQ-20533) and Alternative Language Affidavit of Publication for Air Permitting (Form TCEQ-20534)
- Web link to download Public Notice Verification Form (refer to Public Notice Instructions)
- Notification List
- Draft Permit

Please note that it is **very important** that you follow **all** directions in the enclosed instructions. If you do not, you may be required to republish the notice. A common mistake is the unauthorized changing of notice wording or font. If you have any questions, please contact us before you proceed with publication.

A "Public Notice Checklist" is enclosed which notes the time limitations for each step of the public notice process. **The processing of your application may be delayed if these time limitations are not met (i.e.; submitting proof of publication within 10 business days after publication, affidavits of publication within 30 calendar days after the date of publication, and public notice verification form within 10 business days after the end of the designated comment period).** This checklist should be used as a tool in conjunction with the enclosed, detailed instructions.

If you do not comply with **all** requirements described in the instructions, further processing of your application may be suspended or the agency may take other actions.

Mr. Joe Almaraz

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

EXAMPLE A

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR AIR QUALITY PERMITS

AIR QUALITY PERMIT NUMBERS 38754, PSDTX324M15, AND GHGPSDTX211

APPLICATION AND PRELIMINARY DECISION. Valero Refining-Texas, L.P., Post Office Box 9370, Corpus Christi, Texas 78469-9370, has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit GHGPSDTX211 for emissions of GHGs, which would authorize modification to the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. The existing facility will emit the following air contaminants in a significant amount: carbon monoxide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. In addition, the facility will emit the following air contaminants: ammonia and hydrogen sulfide.

The degree of PSD increment predicted to be consumed by the existing facility and other increment-consuming sources in the area is as follows:

Sulfur Dioxide

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
24-hour	68	91
Annual	11	20

Nitrogen Dioxide

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
Annual	23	25

PM_{2.5}

Maximum Averaging Time	Maximum Increment Consumed ($\mu\text{g}/\text{m}^3$)	Allowable Increment ($\mu\text{g}/\text{m}^3$)
24-hour	8.9	9
Annual	2.9	4

This application was submitted to the TCEQ on September 30, 2021. The executive director has determined that the emissions of air contaminants from the existing facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas.

INFORMATION AVAILABLE ONLINE. These documents are accessible through the Commission's Web site at www.tceq.texas.gov/goto/cid: the executive director's preliminary decision which includes the draft permit, the executive director's preliminary determination summary, air quality analysis, and, once available, the executive director's response to comments and the final decision on this application. Access the Commissioners' Integrated Database (CID) using the above link and enter the permit number for this application. The public location mentioned above provides public access to the internet. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.
<http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting to the Office of the Chief Clerk at the address below. The purpose of a public meeting is to provide the opportunity to submit comment or to ask questions about the application. The TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing. You may submit additional written public comments within 30 days of the date of newspaper publication of this notice in the manner set forth in the AGENCY CONTACTS AND INFORMATION paragraph below.

After the deadline for public comment, the executive director will consider the comments and prepare a response to all relevant and material or significant public comment. The response to comments, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments or is on a mailing list for this application. The mailing will also provide instructions for requesting a contested case hearing or reconsideration of the executive director's decision.

OPPORTUNITY FOR A CONTESTED CASE HEARING. You may request a contested case hearing regarding the portions of the application for State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15. There is no opportunity to request a contested case hearing regarding the portion of the application for GHG PSD Air Quality Permit Number GHGPSDTX211. A contested case hearing is a legal proceeding similar to a civil trial in a state district court. A person who may be affected by emissions of air contaminants, other than GHGs, from the facility is entitled to request a hearing. A contested case hearing request must include the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number; (2) applicant's name and permit number; (3) the statement "I/we request a contested case hearing;" (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a group or association, one or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk, at the address provided in the information section below.

A contested case hearing will only be granted based on disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decisions on the application. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. Issues that are not submitted in public comments may not be considered during a hearing.

EXECUTIVE DIRECTOR ACTION. The executive director may issue final approval of the application for the portion of the application for GHG PSD Air Quality Permit GHGPSDTX211. If a timely contested case hearing request is not received or if all timely contested case hearing requests are withdrawn regarding State Air Quality Permit Number 38754

and for PSD Air Quality Permit Number PSDTX324M15, the executive director may issue final approval of the application. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application, and will be posted electronically to the CID. If any timely hearing requests are received and not withdrawn, the executive director will not issue final approval of the State Air Quality Permit Number 38754 and for PSD Air Quality Permit Number PSDTX324M15 and will forward the application and requests to the Commissioners for their consideration at a scheduled commission meeting.

MAILING LIST. You may ask to be placed on a mailing list to obtain additional information on this application by sending a request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION. Public comments and requests must be submitted either electronically at www14.tceq.texas.gov/epic/eComment/, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas L.P. at the address stated above or by calling Ms. Meagan Marquard, Superintendent Environmental at (361) 299-8913.

Notice Issuance Date: May 19, 2022

Example B

Publication Elsewhere in the Newspaper:

TO ALL INTERESTED PERSONS AND PARTIES:

Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit Number 38754, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX324M15, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit Number GHGPSDTX211 for emissions of GHGs, which would authorize modification to a Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. Additional information concerning this application is contained in the public notice section of this newspaper.

Public Notice Checklist
Notice of Application and Preliminary Decision for an Air Quality Permit
(2nd Notice)

The following tasks must be completed for public notice. If publication in an alternative language is required, please complete the tasks for both the English and alternative language publications. Detailed instructions are included in the "Instructions for Public Notice" section of this package.

Within 33 calendar days after date of this letter
<p>Publish <i>Notice of Application and Preliminary Decision for an Air Quality Permit</i> in the same newspaper(s) in which you published <i>Notice of Receipt of Intent to Obtain Permit</i> for this application.</p> <ul style="list-style-type: none"> - Example A must be published in "public notice" section of newspaper. Review for accuracy prior to publishing. - Example B (if applicable) must be published in prominent location (other than "public notice") in same issue of newspaper - As part of the expedited permitting process, it is recommended that you publish immediately. <p>Provide copy of the complete application, the executive director's preliminary decision (including the draft permit), and the executive director's preliminary determination summary and executive director's air quality analysis, including any revisions, at a public place for review and copying. Keep them there for duration of the designated comment period. The public place should provide public access to the internet.</p>
First day of newspaper publication
<p>Review published newspaper notice for accuracy. If errors, contact Air Permits Division.</p> <p>Ensure copy of the complete application (including any subsequent revisions) and the executive director's preliminary decision (including the draft permit) are at the public place.</p> <p>It is recommended that the signs from the first notice be in place and the lettering must remain legible and visible until 30 days after publication of the <i>Notice of Application and Preliminary Decision</i> (either English or alternative language notice, whichever is later).</p>
Within 10 business days after date of publication
<p>Proof of publication showing publication date and newspaper name should be emailed to PROOFS@tceq.texas.gov or mailed to:</p> <p style="padding-left: 40px;">Texas Commission on Environmental Quality Office of the Chief Clerk, MC-105 Attn: Notice Team / AIR Expedited Permitting P.O. Box 13087 Austin, Texas 78711-3087</p> <p>Mail or email, as instructed, photocopies of newspaper clippings showing publication date and newspaper name to persons listed on <i>Notification List</i>.</p>
Within 30 calendar days after date of publication
<p>Affidavit of publication for air permitting and alternative language affidavit of publication for air permitting (if applicable) should be emailed to PROOFS@tceq.texas.gov or mailed to:</p> <p style="padding-left: 40px;">Texas Commission on Environmental Quality Office of the Chief Clerk, MC-105 Attn: Notice Team / AIR Expedited Permitting P.O. Box 13087 Austin, Texas 78711-3087</p> <p>Mail or email, as instructed, photocopies of affidavits to persons listed on <i>Notification List</i>.</p>
Within 10 business days after end of the designated comment period
<p>Public Notice Verification Form should be emailed to PROOFS@tceq.texas.gov or mailed to:</p> <p style="padding-left: 40px;">Texas Commission on Environmental Quality Office of the Chief Clerk, MC-105 Attn: Notice Team / AIR Expedited Permitting P.O. Box 13087 Austin, Texas 78711-3087</p> <p>Mail or email, as instructed, photocopies of Public Notice Verification Form to persons listed on <i>Notification List</i>.</p>

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Instructions for Public Notice For New Source Review & Prevention of Significant Deterioration Air Permit

Notice of Application and Preliminary Decision

We have completed the technical review of your application and issued a preliminary decision. You must comply with the following instructions:

Review Notice

Included in the notice is all of the information which the commission believes is necessary to effectuate compliance with applicable public notice requirements. Please read it carefully and notify the Texas Commission on Environmental Quality (TCEQ) immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text of the notice without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed *Notice of Application and Preliminary Decision for an Air Quality Permit* within **33 calendar days** after the date this information was mailed to you (see date of letter). As part of the expedited permitting process, it is recommended that you publish immediately.
- You must publish the enclosed *Notice of Application and Preliminary Decision for an Air Quality Permit* at your expense, in the same newspaper(s) in which you published the *Notice of Receipt and Intent to Obtain Permit* for this application. The newspaper must be a newspaper that is of general circulation in the municipality where the facility is or will be located. If the facility is not located within a municipality, the newspaper must be of general circulation in the municipality nearest the location.
- You must publish this notice in one issue of any applicable newspaper.
- You will find two example notices enclosed in this package. *Example A* must be published in the "public notice" section of the newspaper. The phrase "Example A" is not required to be published. *Example B* must be published in the **same issue** of the newspaper as *Example A*; however, it must be published in a prominent location (other than the public notice section). *Example B* refers the public to the "public notice" section of the newspaper where *Example A* provides more information regarding the permit application.
- *Example B* must be a total of at least **6 column inches (standard advertising units)** with a height of at least **3 inches** and a horizontal dimension of **2 column widths**. If the newspaper chosen does not use standard advertising units for measurement, the notice must be at least **12 square inches** with the shortest side of at least **3 inches**.
- The bold text of the enclosed notice **must** be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., **bold**, *italics*). **Failure to do so may require re-notice.**

Alternative Language Notice

In certain circumstances, applicants for air permits must complete notice in alternative languages.

- Public notice rules require the applicant to determine whether a bilingual program is required at either the elementary or middle school nearest to the facility or proposed facility location. Bilingual education programs are determined on a district-wide basis. When students who are required to attend either school are eligible to be enrolled in a bilingual education program, some alternative language notice is required (newspaper notice).
- Since the school district, and not the schools, must provide the bilingual education program, these programs do not have to be located at the elementary or middle school nearest to the facility or proposed facility to trigger the alternative language notice requirement. If there are students who would normally attend the nearest schools eligible to be taught in a bilingual education program at a different location, alternative language notice is required.
- If triggered, publications of alternative language notices must be made in a newspaper or publication printed primarily in each language taught in the bilingual education program. The same newspaper(s) used for *Notice of Receipt and Intent to Obtain Permit* must be used for publication of the *Notice of Application and Preliminary Decision for an Air Quality Permit*. This notice is required if such a newspaper or publication exists in the municipality or the county where the facility is or will be located.
- The applicant must demonstrate a good faith effort to identify a newspaper or publication in the required language. If a newspaper or publication of general circulation published at least once a month in such language cannot be found, publishing in that language is not required, but signs must remain posted in the same location(s) utilized during the *Notice of Receipt of Intent to Obtain Permit (1st public notice)*.
- Publication in an alternative language section or insertion within an English language newspaper does not satisfy these requirements.
- The applicant has the burden to demonstrate compliance with these requirements. You must fill out the ***Public Notice Verification Form (Form TCEQ-20244)*** indicating your compliance with the requirements regarding publication in an alternative language. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**
- It is suggested the applicant work with the local school district to do the following:
 - (a) determine if a bilingual program is required in the district;
 - (b) determine which language is required by the bilingual program;
 - (c) locate the nearest elementary and middle schools; and
 - (d) determine if any students attending either school are entitled to be enrolled in a bilingual educational program.
- **If you determine that you must meet the alternative language notice requirements after receipt of the full public notice package, you are responsible for ensuring that the publication in the alternative language is complete and accurate in that language. Spanish notice templates are available through the Air Permits Division Web site at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html. All italic notes should be replaced with the corresponding Spanish translations for the specific application and published in the alternative language publication. Email a copy to Air Permits Division staff.**
- If you are required to publish notice in a language other than Spanish, you must translate the entire public notice at your own expense.

Public Comment Period

- The public comment period will last at least **30 calendar days after publication of the last notice**.
- The comment period will be longer if the last day of the public comment period ends on a weekend or a holiday. In this case, the comment period will end on the next business day.
- The comment period for the permit may lengthen depending on whether a public meeting is held. If a public meeting is held, the comment period will be extended to the later of either the date of the public meeting or the end of the second notice period.

Proof of Publication

- Check each publication to ensure that the articles were accurately published. If a notice was not published correctly you may be required to republish.
- For each newspaper in which you published, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proofs of publication are 1) copies of the published notice or 2) the newspaper clippings of the published notice. If you choose to submit copies of the published notice to the Office of the Chief Clerk, copies must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain newspaper clippings or tear sheets of the notice for your records.
- You must submit an **affidavit of publication for air permitting and alternate language affidavit of publication for air permitting (if applicable)** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **You must use the enclosed affidavits of publication.** The affidavits must clearly identify the applicant's name and permit number. You are encouraged to submit the affidavit with the proof of publication described above.
- You must submit the **Public Notice Verification Form (Form TCEQ-20244)** to the Office of the Chief Clerk within **10 business days** of the end of this public comment period. You must use this form to certify that you have met bilingual notice requirements. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**
- The **affidavits of publication, Public Notice Verification Form, and acceptable proof of publication of the published notices** should be emailed to PROOFS@tceq.texas.gov or mailed to:

Texas Commission on Environmental Quality
Office of the Chief Clerk, MC-105
Attn: Notice Team / AIR Expedited Permitting
P.O. Box 13087
Austin, Texas 78711-3087

- Please ensure that the affidavit(s) you send to the Chief Clerk have all blanks filled in correctly.
- Photocopies of newspaper clippings, affidavits, and verifications must also be sent to those listed on the enclosed *Notification List* within the deadlines specified above.

Failure to Publish and Submit Proof of Publication

You must meet all publication requirements. **If you fail to publish the notice or submit proof of publication on time**, the TCEQ may suspend further processing on your application or take other actions.

Sign Posting

It is recommended that the signs that were put in place prior to publication of the first notice remain in place and the lettering must be legible and visible until 30 days after publication of the *Notice of Application and Preliminary Decision* (either English or alternative language notice, whichever is later).

Application in a Public Place

- You must provide a copy of the complete application, the executive director's preliminary decision (including the draft permit), the executive director's preliminary determination summary and the executive director's air quality analysis, (including any subsequent revisions), at a public place for review and copying by the public. This place must be in the county in which the facility is located or proposed to be located.
- A public place is one that is publicly owned or operated (ex: libraries, county courthouses, or city halls). Location selected must provide public access to the internet.
- This copy must be accessible to the public for review and copying. The copy must be available beginning on the first day of newspaper publication and remain in place until the commission has taken action on the application or the commission refers issues to the State Office of Administrative Hearings.
- If the application is submitted to the TCEQ with information marked as "CONFIDENTIAL," you are required to indicate which specific portions of the application are not being made available to the public. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the Texas Commission on Environmental Quality, Public Information Coordinator, MC-197, P.O. Box 13087, Austin, Texas 78711-3087."
- You must submit verification of file availability using the ***Public Notice Verification Form (Form TCEQ-20244)*** within **10 business days** after end of the publications' designated comment period. Do not submit the form verifying that the application was in a public place until after the comment period is complete. If a public meeting is held or second notice is required causing the public comment period to be extended, at a later date you will be required to verify that the application was in a public place during the entire public comment period. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**

General Information

When contacting the Commission regarding this application, please refer to the permit number at the top of the *Notice of Application and Preliminary Decision*.

If you have questions or need assistance regarding publication requirements, please contact the Office of the Chief Clerk at (512) 239-3300 or the project reviewer listed in the cover letter.

Dear Mr. Almaraz:

The Texas Commission on Environmental Quality (TCEQ) has made a preliminary decision on the above-referenced application. In accordance with Title 30 Texas Administrative Code § 39.419(b), you are now required to publish Notice of Application and Preliminary Decision. You must provide a copy of this preliminary decision letter with the draft permit at the public place referenced in the public notice.

If you have any questions, please call Ms. Cara Hill at (512) 239-5123, or write to the Texas Commission on Environmental Quality, Office of Air, Air Permits Division, MC-163, P.O. Box 13087, Austin, Texas 78711-3087.

Sincerely,

Enclosure

125319

Senate Bill 709 (84th Texas Legislative Session, 2015) amended the Texas Water Code by adding new Section 5.5553, which requires the Texas Commission on Environmental Quality (TCEQ) to provide written notice to you at least thirty (30) days prior to the TCEQ's issuance of draft permits for applications that are located in your district.

Valero Refining-Texas, L.P. has applied to the TCEQ for air quality permitting actions regarding a Valero Corpus Christi Refinery West Plant.

Application Received Date: September 30, 2021

Location: 5900 Up River Road, Corpus Christi, Nueces County, Texas, 78407

This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice:

<http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>

Air Quality Permits affected:

- *Air Quality Permit 38754*
- *Prevention of Significant Deterioration PSDTX324M15*
- *Greenhouse Gas Prevention of Significant Deterioration GHGPSDTX211*

You were previously sent notification for this application, but the draft permit was delayed.

TCEQ is preparing the initial draft permit for applicant review. At the time the draft permit is issued, the applicant will be required to publish notice in a newspaper of general circulation, and the TCEQ will provide a copy of the notice of draft permit to persons who have requested to be on a mailing list.

Questions regarding this email may be directed to Bonnie Evridge by calling 512-239-5222.

Issued: May 09, 2022

CID #: 125319

Senate Bill 709 (84th Texas Legislative Session, 2015) amended the Texas Water Code by adding new Section 5.5553, which requires the Texas Commission on Environmental Quality (TCEQ) to provide written notice to you at least thirty (30) days prior to the TCEQ's issuance of draft permits for applications that are located in your district.

Valero Refining-Texas, L.P. has applied to the TCEQ for air quality permitting actions regarding a Valero Corpus Christi Refinery West Plant.

Application Received Date: September 30, 2021

Location: 5900 Up River Road, Corpus Christi, Nueces County, Texas, 78407

This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice:

<http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

Air Quality Permits affected:

- *Air Quality Permit 38754*
- *Prevention of Significant Deterioration PSDTX324M15*
- *Greenhouse Gas Prevention of Significant Deterioration GHGPSDTX211*

TCEQ is preparing the initial draft permit for applicant review. At the time the draft permit is issued, the applicant will be required to publish notice in a newspaper of general circulation, and the TCEQ will provide a copy of the notice of draft permit to persons who have requested to be on a mailing list.

Texas Commission on Environmental Quality
Public Notice Verification Form
Air Permit

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

2021 NOV 19 AM 10:02

Applicant Name: Valero Refining – Texas, L.P.	
Site or Facility Name: Bill Greehey Refinery – West Plant	
Application Received Date: 9/30/21	
TCEQ Account Number (if applicable): NE-0112-G	Permit Number: 38754, PSDTX324M15, GHGPSDTX211
Regulated Entity Number (RN): 100214386	Customer Number (CN): 600127468
All applicants must complete all applicable portions of this form. Send this completed form to the TCEQ to the attention of the Office of the Chief Clerk within 10 business days after the end of the designated comment period . For more information regarding public notice, refer to the instructions in the public notice package.	
Alternative Language Checklist	
I have contacted the appropriate school district.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
School District: Corpus Christi Independent School District	Phone Number: (361) 695-7200
Person Contacted: Eloisa Dowiat	Date: 11/15/21
Is a bilingual education program (BEP) required by the Texas Education Code in the district?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
If answer is "NO," skip to first question in verification box on next page. (Note: A BEP is different from "English as a Second Language" (ESL) program; and Elementary/Middle schools that only offer ESL will not trigger notice in an alternative language.)	
Notice in an alternative language is required if a BEP is required in the District, and one of the following conditions is met:	
1. students in the elementary or middle school nearest the facility are enrolled in a program at that school;	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2. students from the elementary or middle school nearest the facility attend a BEP at another location; or	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3. the school district that otherwise would be required to provide a BEP has been granted an exception from the requirements to provide the program, as provided for in 19 Texas Administrative Code 89.1207(a).	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If the answer is "NO" to 1, 2, and 3 above, then alternative language notice is not required.	
The name of the elementary school nearest to the proposed or existing facility is:	
Oak Park Elementary	
The name of the middle school nearest to the proposed or existing facility is:	
Driscoll Middle School	
The following language(s) is/are utilized in the bilingual program:	
Spanish	
If notice in an alternative language is required, then applicants must publish alternative language notice(s) and post alternative language sign(s), as outlined in the Instructions for Public Notice and certify compliance with those requirements on this form.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY
 NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN AIR PERMIT
 PROPOSED AIR QUALITY PERMIT NUMBER 38754, PSDTX324M15, AND
 GHGSPDXT211
 APPLICATION Valero Refining-Texas, L.P., has applied to the Texas Commission on

Environmental Quality (TCEQ) for:
 Amendment of Permit 38754
 Amendment of Prevention of Significant Deterioration (PSD) Permit PSDTX324M15
 Issuance of Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD)
 Permit GHGPSDTX211

This application would authorize modification of the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application is being processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>. The amendment will authorize an increase in emissions of the following air contaminants: ammonia, carbon monoxide, hydrogen sulfide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. The proposed facility will also emit greenhouse gases.

This application was submitted to the TCEQ on September 30, 2021. The application will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review in the Corpus Christi regional office of the TCEQ.

The executive director has determined the application is administratively complete and will conduct a technical review of the application.

PUBLIC COMMENT/PUBLIC MEETING You may submit public comments, or request a public meeting or a contested case hearing to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. After the deadline for public comments, the executive director will prepare a response to all public comments.

The purpose of a public meeting is to provide the opportunity to submit comments or ask questions about the application. A public meeting about the application will be held if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing.

After technical review of the application is complete, the executive director may prepare a draft permit and will issue a preliminary decision on the application. Notice of Application and Preliminary Decision for an Air Quality Permit will then be published and mailed to those who made comments, submitted hearing requests or are on the mailing list for this application. That notice will contain the final deadline for submitting public comments.

OPPORTUNITY FOR A CONTESTED CASE HEARING You may request a contested case hearing regarding the portions of the application for Air Permit Number 38754 and PSD Air Quality Permit Number PSDTX324M15. There is no opportunity to request a contested case hearing regarding the portion of the application for GHGPSD Air Quality Permit Number GHGPSDTX211. A contested case hearing is a legal proceeding similar to a civil trial in state district court. A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the portions of the application for Air Quality Permit Number 38754 and PSD Air Quality Permit Number PSDTX324M15. Further, the Commission will only grant a hearing on those issues submitted during the public comment period and not withdrawn. A contested case hearing may be requested until 30 days after the mailing of the response to comments.

A person who may be affected by emissions of air contaminants, other than GHGs, from the facility is entitled to request a hearing. If requesting a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, and daytime phone number; (2) applicant's name and permit number; (3) the statement "[I/we] request a contested case hearing"; (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a group or an association, one or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns.

If a hearing request is timely filed, following the close of all applicable comment and request periods, the Executive Director will forward the applicable portion of the application and any requests for contested case hearing to the Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material air quality concerns submitted during the comment period. Issues such as property values, noise, traffic safety, and zoning are outside of the Commission's jurisdiction to address in this proceeding.

MAILING LIST In addition to submitting public comments, you may ask to be placed on a mailing list to receive future public notices for this specific application by sending a written request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION Public comments and requests must be submitted either electronically at www14.tceq.texas.gov/epic/eComment/, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. Si desea informacion en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas, L.P., P.O. Box 9370, Corpus Christi, Texas 78469-9370 or by calling Ms. Megan Marquard, Superintendent Environmental, at (361) 299-8913.

Texas House OKs new map, solidifies GOP control

Madlin Mekelburg
Austin American-Statesman
USA TODAY NETWORK

The Texas House early Wednesday approved a map for new political districts that would solidify Republican control of the chamber, protect incumbent lawmakers from both parties and reduce the number of competitive districts across the state.

Democrats criticized the map for failing to reflect the rapid growth of the Hispanic and Asian population over the past decade. They contended that the proposed maps would reduce the number of districts where non-white people comprise the majority of eligible voters.

But Republican Rep. Todd Hunter of Corpus Christi, author of the new House map, pushed back against the criticism. He has maintained that his plan creates two new districts where Hispanic residents make up the majority of the population and one new district with Black residents in the majority.

The issue was at the center of the 16-hour debate over the proposal in the House on Tuesday which stretched into Wednesday, culminating in an 83-63 vote along party lines to adopt the map.

"We believe we've complied with the law and met the obligations to our citizens and constituents," Hunter said when he presented the bill. "I appreciate everybody trying. I know that in any redistricting, some have issues and some don't — that's the nature of redistricting."

Amendments focused on race

session, instead of during the regular session earlier this year.

During Tuesday's debate, Democrats proposed numerous amendments to address concerns that the map dilutes the voting power of Texans of color, who accounted for 95% of the state's population growth over the past decade, according to the 2020 U.S. census.

The state's population jumped from 25.1 million in 2010 to roughly 29.1 million. The new ideal population size for House districts is 194,303, up from 167,367 in 2010 during the last redistricting process.

"When communities of color account for 95% of all the growth and you actually reduce the numbers of communities of color that can elect people of their choice in districts and then increase the number of Anglo districts — I think that is a substantive failure," said Rep. Rafael Anchia, D-Dallas, while presenting an amendment that would have killed the entire bill.

Anchia also proposed an amendment that would have redrawn the map to create more districts with Hispanic-majority populations. Rep. Nicole Collier, D-Fort Worth, also proposed a new map that would have added additional Black-majority districts. Neither were adopted.

Rep. Gene Wu, D-Houston, offered an amendment early in the debate that would have required the Texas secretary of state to conduct a racial impact study of the proposed districts, using population estimates that account for citizenship as the basis of the analysis. The amendment was not adopted.

Dallas counties.

One successful amendment from Anchia would create two more districts in North Texas with a majority Black population and one more district with a majority Hispanic population.

In Austin, Rep. Eddie Rodriguez, D-Austin, made some small tweaks to the districts near downtown, slightly adjusting the borders of the district he represents and those adjoining areas. The amendment was adopted.

The House also approved an amendment from Rep. Erin Zwiener, D-Driftwood, that would redraw her residence back into the district she represents. Hunter's original draft of the map would have moved Zwiener from House District 45 into the neighboring House District 73, a more Republican area.

Zwiener's amendment also keeps Wimberley in the same district, instead of dividing it between HD 45 and HD 73.

The debate was mostly cordial, but one amendment sparked intense exchanges between lawmakers. Rep. J.M. Lozano, R-Kingsville, proposed a change to districts in the Rio Grande Valley that would make House District 37 more competitive for his party.

Rep. Alex Dominguez, the Democrat who represents HD 37, spoke in opposition to the proposal and said Lozano did not run the change by members of the Rio Grande Valley delegation before offering the amendment.

Rep. Eddie Lucio III, D-Brownsville, also spoke against the proposed change, telling members in the chamber that his remarks likely would be the last time he ever ad-

Talarico to relocate

Rep. James Talarico, D-Round Rock, was not drawn out of the district he represents in the final version of the bill, but said the new boundaries approved by members changed House District 52 from a competitive district into a Republican stronghold.

The new lines expand the district to include rural areas north of Georgetown.

Talarico said Wednesday that he plans to move to Austin and run for House District 50. That district is represented by Rep. Celia Israel, D-Austin, who is considering running for mayor of Austin and is not seeking reelection.

"Texas Republicans are attempting to eliminate me by using racist gerrymandering to divide our community. If they think they can keep me out of the House, they better think again," Talarico said. "I'm grateful to everyone who's urged me to move back to North Austin — where I grew up — to run for the seat being vacated by my friend Celia Israel."

Under the new district map, House District 50 would cover portions of

North Austin

El Paso lawmakers paired

In drawing the map, Hunter said his priority was to avoid splitting precincts between districts and keeping each district as compact as possible. He said he also worked to avoid "pairing" lawmakers, or drawing more than one lawmaker into the same district.

At least one pairing remained in the final map: Democratic Reps. Lina Ortega and Claudia Ordaz Perez of El Paso were drawn into the same district covering parts of downtown El Paso. Ordaz Perez spoke against the bill and said it disenfranchised people from the district she represents.

"The proposed map not only dilutes minority representation in Texas, it erodes the gains of women representatives, who were elected in record numbers by Texas voters in the last election cycle," she said. "To any judges who would review these proceedings I ask: How many more decades of minority population growth is needed before this body will actually look like the people it represents? How lopsided must the minority population of this state be be-

fore people of color are adequately represented?"

The final version of the legislative maps is expected to be challenged in court. Unlike past redistricting efforts, lawmakers in Texas this year can adopt new political boundaries without first getting federal approval through a preclearance process, a requirement adopted for states like Texas with a history of discriminating against nonwhite voters.

Rep. Toni Rose, D-Dallas, offered an amendment that would have required a federal district court to first approve the state's new political boundaries before they could be enacted, but it did not pass.

The final version of the map must be approved by the Senate. The House still has three other redistricting duties to tackle: approving new maps for the Texas Senate, the state's U.S. House districts and districts for the State Board of Education. The Senate approved those maps earlier this month.

The 30-day special session is scheduled to end Tuesday, but Gov. Greg Abbott could order another special session.

The Legislature must redraw the boundaries of political districts every decade, after the release of the decennial census. This year's census data was delayed by the pandemic, prompting lawmakers to undertake the redistricting process during a special legislative

Small changes adopted

Lawmakers did approve numerous changes to the proposed map, including small tweaks to districts across the state. The largest changes occurred in Harris and

Lucio is not running for reelection in 2022.

"Please, let our delegation speak its mind and vote no on this amendment," he said.

The amendment was adopted 72-70.

Army IDs Fort Hood soldier found dead on post; cause of death pending

Heather Osbourne
Austin American-Statesman
USA TODAY NETWORK

The U.S. Army identified a soldier found dead behind his company barracks at

Hockin

Fort Hood last week as a 26-year-old Spc. Maxwell Hockin, the Central Texas post

announced Wednesday. Fort Hood leaders said Hockin died Saturday, but did not release his identity until Wednesday.

The incident is still under investigation by the U.S. Army Criminal Investigation Command. Fort Hood leaders say no information on the cause of death will be released at this time, citing the ongoing investigation.

"The entire Saber family is devastated by the loss of our true teammate and friend, Spc. Maxwell Hockin," Lt. Col. Patrick Sullivan, commander, 91st Engineer Battalion,

Como puedo conseguir una nueva tarjeta de vacunación contra el COVID-19?

Los departamentos de salud estatales y locales dan las tarjetas de vacunación contra el COVID-19 a los proveedores de vacunación, quienes a su vez se las dan a las personas cuando se vacunan. Si necesitas una nueva tarjeta, habla con tu proveedor de vacunación, no con los CDC. Los CDC no tienen tus registros de vacunación.

En el lugar donde te pusieron la vacuna contra el COVID-19 ya no está funcionando, comunícate con la oficina de vacunación de tu departamento de salud local o estatal para obtener ayuda. CDC

¿Cómo puedo conseguir una nueva tarjeta de vacunación contra el COVID-19?

A TODAS LAS PERSONAS Y ENTIDADES INTERESADAS:

Valero Refining-Texas, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ, por sus siglas en inglés) para:

Enmendar el Permiso 38754

Enmendar el Permiso Para La Prevención del Deterioro Significativo (PSD, por sus siglas en inglés)

PSDTX324M15

La Autorización del Permiso Para Gas de Efecto Invernadero (GHG, por sus siglas en inglés) Prevención del Deterioro Significativo (PSD) GHGPSDTX211

Esta solicitud es para autorizar la modificación de la Refinería de Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, Condado de Nueces, Texas 78407. Esta solicitud se está procesando de manera acelerada, según lo permitido por las reglas de la comisión en el Título 30, Capítulo 101, Subcapítulo J, Código Administrativo de Texas. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta aplicación.

Tejano y Grupero News

COMISIÓN DE CALIDAD AMBIENTAL DE TEXAS

AVISO DE RECIBO DE SOLICITUD E INTENCIÓN DE OBTENER PERMISO DE AIRE
 PROPUESTA DE PERMISO DE CALIDAD DE AIRE NÚMERO 38754, PSDTX324M15, Y GHGSPSDTX211

SOLICITUD Valero Refining-Texas, L.P. ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ, por sus siglas en inglés) para:

Enmendar el Permiso 38754

Enmendar el Permiso Para La Prevención del Deterioro Significativo (PSD, por sus siglas en inglés) PSDTX324M15

La Autorización del Permiso Para Gas de Efecto Invernadero (GHG, por sus siglas en inglés) Prevención del Deterioro Significativo (PSD) GHGSPSDTX211

Esta solicitud es para autorizar la modificación de la Refinería de Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, Condado de Nueces, Texas 78407. Esta solicitud se está procesando de manera acelerada, según lo permitido por las reglas de la comisión en el Título 30, Capítulo 101, Subcapítulo J, Código Administrativo de Texas. Este enlace a un mapa electrónico del sitio o ubicación general de la planta se facilita como cortesía al público, y no es parte de la solicitud o aviso. Para ver la ubicación exacta, consultar la solicitud. <http://www.tceq.texas.gov/assets/public/hib610/index.html?lat=27.820555&lng=-97.483333&zoom=13&type=r>. La enmienda autorizará un aumento de las emisiones de los siguientes contaminantes: amoníaco, monóxido de carbono, sulfuro de hidrógeno, óxidos de nitrógeno, compuestos orgánicos volátiles, material particulado incluyendo material particulado con diámetros de 10 micras o menos, y de 2.5 micras o menos, y dióxido de azufre. La instalación propuesta también emitirá gases de efecto invernadero.

La solicitud fue remitida a la TCEQ el 30 de septiembre del 2021. La solicitud estará disponible para ser revisada y copiada en la oficina central de la TCEQ, la oficina regional de Corpus Christi de la TCEQ, y en la Owen R. Hopkins Biblioteca Pública, ubicada en 3202 McKinzie Road, Corpus Christi, Condado de Nueces, Texas, a partir del primer día de publicación de este aviso. Los archivos del cumplimiento de las leyes de la planta, si existen, están disponibles para la revisión del público en la oficina regional de Corpus Christi de la TCEQ.

El director ejecutivo de la TCEQ ha determinado que la solicitud está completa administrativamente y llevará a cabo un examen técnica de la solicitud.

COMENTARIO PÚBLICO/REUNIÓN PÚBLICA Usted puede presentar comentarios públicos, o bien una audiencia de caso impugnado a la Oficina del Secretario Oficial en la dirección a continuación. La TCEQ considerará todos los comentarios públicos al desarrollar una decisión final acerca de la solicitud. Posterior al plazo final para presentar comentarios públicos, el director ejecutivo preparará una respuesta a todos los comentarios públicos.

El propósito de la reunión pública es el proveer la oportunidad de presentar comentarios, o bien hacer preguntas acerca de la solicitud. Se llevará a cabo una junta pública acerca de la solicitud si el director ejecutivo determina que hay suficiente interés de parte del público en esta solicitud, si lo solicita una persona interesada, o si lo solicita un legislador local. Una junta pública no equivale a una audiencia de caso impugnado.

Una vez completada la revisión técnica de la solicitud, el director ejecutivo puede preparar un permiso preliminar, y emitirá una decisión preliminar acerca de la solicitud. Un Aviso de Solicitud y Decisión Preliminar para un Permiso de Calidad de Aire será posteriormente publicado y enviado por medio de correo a quienes hicieron comentarios, presentaron solicitudes de audiencia, o están en la lista de correo para esta solicitud. El aviso incluirá el plazo final para presentar comentarios públicos.

OPORTUNIDAD PARA UNA AUDIENCIA DE CASO IMPUGNADO Usted puede solicitar una audiencia de caso impugnado con respecto a las partes de la solicitud de Permiso de Aire Número 38754 y PSD Número de Permiso de Calidad de Aire PSDTX324M15. No existe oportunidad de solicitar una audiencia de caso impugnado con respecto a la parte de la solicitud de GHGSPSD Número de Permiso de Calidad de Aire GHGSPSDTX211. Una audiencia de caso impugnado es un procedimiento legal similar a un juicio civil en un tribunal de distrito del estado. Una audiencia de caso impugnado solo se concederá con base a cuestiones debatibles de hechos que son pertinentes y materiales para las decisiones de la Comisión con respecto a las partes de la solicitud del Número de Permiso de Calidad de Aire 38754 y el Número de Permiso de Calidad de Aire PSD PSDTX324M15. Además, la Comisión solo concederá una audiencia sobre cuestiones que se presenten durante el período de comentarios públicos y no se retiren. Se puede solicitar una audiencia de caso impugnado hasta los 30 días posteriores al envío de la respuesta a los comentarios.

Una persona que puede estar afectada por contaminantes de emisiones atmosféricas, que no sean GHGs, de una planta tiene derecho a solicitar una audiencia. Si se solicita una audiencia de caso impugnado, usted debe presentar lo siguiente: (1) su nombre (o para un grupo o asociación, un representante oficial), dirección, y número de teléfono durante el día; (2) el nombre del solicitante y número de permiso; (3) la declaración "[yo/nosotros] solicitó una audiencia de un caso impugnado"; (4) una descripción específica de cómo usted se vería adversamente afectado por la solicitud y emisiones atmosféricas de la planta de manera que no es común para el público en general; (5) la ubicación y distancia de su propiedad con relación a la planta; (6) una descripción de cómo emplea la propiedad la cual puede ser impactada por la planta; y (7) una lista de todas las cuestiones de hecho en disputa que usted presente durante el período de comentarios. Si la petición la hace un grupo o asociación, uno o más miembros que tienen derecho a solicitar una audiencia deben ser identificados por su nombre y dirección física. Los intereses que el grupo o la asociación busca proteger también se deben identificar. Usted también puede presentar sus modificaciones propuestas a la solicitud / al permiso que satisfarían sus inquietudes.

Si se registra oportunamente una petición de audiencia, posterior al cierre de todos los períodos de comentarios y solicitudes aplicables, el Director Ejecutivo enviará la parte correspondiente de la solicitud y cualquier solicitud de audiencia de caso impugnado a los Comisionados para su consideración en una reunión programada de la Comisión. La Comisión sólo puede conceder una audiencia de caso impugnado sobre los temas que el solicitante haya presentado en sus comentarios oportunos que no fueron retirados posteriormente. Si se concede una audiencia, el tema de la audiencia estará limitado a cuestiones de hecho en disputa o cuestiones mixtas de hecho y de derecho relacionadas a intereses pertinentes y materiales de calidad atmosférica que se hayan presentado durante el período de comentarios. Cuestiones tales como valor de propiedad, ruido, seguridad de tráfico y zonificación no están dentro de la jurisdicción de la Comisión para abordarse en este proceso legal.

LISTA DE CORREO Además de presentar comentarios públicos, usted puede solicitar ser incluido en una lista de correo para recibir información futura con respecto a esta solicitud al enviar su petición por escrito a la Oficina del Secretario Oficial a la dirección que se encuentra a continuación.

CONTACTOS E INFORMACIÓN DE LA AGENCIA Los comentarios públicos y las solicitudes deben presentarse electrónicamente a www14.tceq.texas.gov/epic/eComment/, o por escrito a la Comisión de Calidad Ambiental de Texas, Oficina del Funcionario Jefe, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Por favor tenga en cuenta que cualquier información de contacto que usted proporcione, incluyendo su nombre, número de teléfono, dirección de correo electrónico y dirección física, pasará a formar parte del registro público de la agencia. Para mayor información acerca de esta solicitud para permiso o el proceso para permisos, por favor llame a la línea sin cargos del Programa de Educación Pública al 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Se puede obtener información adicional también de Valero Refining-Texas, L.P., P.O. Box 9370, Corpus Christi, Texas 78469-9370, o al llamar a Señora. Meagan Marquard, Superintendente Ambiental del Personal, al número (361) 299-8913.

RE: Public Notice – Proof of Publication & Original Affidavit of Publication
Valero Refining – Texas, L.P. (Valero)
Bill Greehey Refinery - West Plant
Permit No. 38754, PSDTX324M15, and GHGPSDTX211
Regulated Entity Number: 100214386
Customer Reference Number: 600127468

To Whom It May Concern,

Please find the attached original newspaper clippings from the “Corpus Christi Caller Times” newspaper in which public notice appeared on October 14, 2021 regarding the subject matter permit. Two original newspaper clippings are included, one which appeared in a “Prominent Location” in the newspaper, and one which appeared in the “Public Notice” section of the newspaper. Also attached, please find the original signed and notarized “Affidavit of Publication for Air Permitting” form for this publication.

Also, please find the attached original newspaper clippings from the “Tejano y Gruperio News” newspaper in which alternate language (Spanish) public notice appeared on October 15, 2021 regarding the subject matter permit. Two original newspaper clippings are included, one which appeared in a “Prominent Location” in the newspaper, and one which appeared in the “Public Notice” section of the newspaper. Also attached, please find the original signed and notarized “Affidavit of Publication for Air Permitting” form for this publication.

A previous submittal was sent on October 21, 2021 containing **copies** of the enclosed documents to the following recipients: Office of the Chief Clerk, EPA Region 6, TCEQ – Air Section Manager, TCEQ – Cara Hill, TGLO – Upland Leasing Team Leader, County Judge – The Honorable Barbara Canales, and The Mayor of Corpus Christi – The Honorable Paulette Guajardo.

If you have any questions regarding this submittal, please do not hesitate to contact me by email at meagan.marquard@valero.com or by phone at (361) 299-8913.

Sincerely,

Meagan Marquard
Environmental Superintendent
Valero Refining – Texas, L.P.

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN AIR PERMIT

PROPOSED AIR QUALITY PERMIT NUMBER 38754, PSDTX324M15, AND
GHGPSDTX211

APPLICATION Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for:
Amendment of Permit 38754
Amendment of Prevention of Significant Deterioration (PSD) Permit PSDTX324M15
Issuance of Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) Permit GHGPSDTX211

This application would authorize modification of the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application is being processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>. The amendment will authorize an increase in emissions of the following air contaminants: ammonia, carbon monoxide, hydrogen sulfide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. The proposed facility will also emit greenhouse gases.

This application was submitted to the TCEQ on September 30, 2021. The application will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review in the Corpus Christi regional office of the TCEQ.

The executive director has determined the application is administratively complete and will conduct a technical review of the application.

PUBLIC COMMENT/PUBLIC MEETING You may submit public comments, or request a public meeting or a contested case hearing to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. After the deadline for public comments, the executive director will prepare a response to all public comments.

The purpose of a public meeting is to provide the opportunity to submit comments or ask questions about the application. A public meeting about the application will be held if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing.

After technical review of the application is complete, the executive director may prepare a draft permit and will issue a preliminary decision on the application. Notice of Application and Preliminary Decision for an Air Quality Permit will then be published and mailed to those who made comments, submitted hearing requests or are on the mailing list for this application. That notice will contain the final deadline for submitting public comments.

OPPORTUNITY FOR A CONTESTED CASE HEARING You may request a contested case hearing regarding the portions of the application for Air Permit Number 38754 and PSD Air Quality Permit Number PSDTX324M15. There is no opportunity to request a contested case hearing regarding the portion of the application for GHGPSD Air Quality Permit Number GHGPSDTX211. A contested case hearing is a legal proceeding similar to a civil trial in state district court. A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the portions of the application for Air Quality Permit Number 38754 and PSD Air Quality Permit Number PSDTX324M15. Further, the Commission will only grant a hearing on those issues submitted during the public comment period and not withdrawn. A contested case hearing may be requested until 30 days after the mailing of the response to comments.

A person who may be affected by emissions of air contaminants, other than GHGs, from the facility is entitled to request a hearing. If requesting a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, and daytime phone number; (2) applicant's name and permit number; (3) the statement "[I/we] request a contested case hearing"; (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a group or an association, one or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns.

If a hearing request is timely filed, following the close of all applicable comment and request periods, the Executive Director will forward the applicable portion of the application and any requests for contested case hearing to the Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material air quality concerns submitted during the comment period. Issues such as property values, noise, traffic safety, and zoning are outside of the Commission's jurisdiction to address in this proceeding.

MAILING LIST In addition to submitting public comments, you may ask to be placed on a mailing list to receive future public notices for this specific application by sending a written request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION Public comments and requests must be submitted either electronically at www14.tceq.texas.gov/epic/eComment/, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas, L.P., P.O. Box 9370, Corpus Christi, Texas 78469-9370 or by calling Ms. Meagan Marquard, Superintendent Environmental, at (361) 299-8913.

Texas House OKs new map, solidifies GOP control

Madlin Mekelburg
Austin American-Statesman
USA TODAY NETWORK

The Texas House early Wednesday approved a map for new political districts that would solidify Republican control of the chamber, protect incumbent lawmakers from both parties and reduce the number of competitive districts across the state.

Democrats criticized the map for failing to reflect the rapid growth of the Hispanic and Asian population over the past decade. They contended that the proposed maps would reduce the number of districts where non-white people comprise the majority of eligible voters.

But Republican Rep. Todd Hunter of Corpus Christi, author of the new House map, pushed back against the criticism. He has maintained that his plan creates two new districts where Hispanic residents make up the majority of the population and one new district with Black residents in the majority.

session, instead of during the regular session earlier this year.

During Tuesday's debate, Democrats proposed numerous amendments to address concerns that the map dilutes the voting power of Texans of color, who accounted for 95% of the state's population growth over the past decade, according to the 2020 U.S. census.

The state's population jumped from 25.1 million in 2010 to roughly 29.1 million. The new ideal population size for House districts is 194,303, up from 167,367 in 2010 during the last redistricting process.

"When communities of color account for 95% of all the growth and you actually reduce the numbers of communities of color that can elect people of their choice in districts and then increase the number of Anglo districts — I think that is a substantive failure," said Rep. Rafael Anchia, D-Dallas, while presenting an amendment that would have killed the entire bill.

Dallas counties. One amendment from Anchia would create two more districts in North Texas with a majority Black population and one more district with a majority Hispanic population.

In Austin, Rep. Eddie Rodriguez, D-Austin, made some small tweaks to the districts near downtown, slightly adjusting the borders of the district he represents and those adjoining areas. The amendment was adopted.

The House also approved an amendment from Rep. Erin Zwiener, D-Driftwood, that would redraw her residence back into the district she represents. Hunter's original draft of the map would have moved Zwiener from House District 45 into the neighboring House District 73, a more Republican area.

Zwiener's amendment also keeps Wimberley in the same district, instead of dividing it between HD 45 and HD 73.

The debate was mostly cordial, but one amendment sparked intense ex-

Talarico to relocate

Rep. James Talarico, D-Round Rock, was not drawn out of the district he represents in the final version of the bill, but said the new boundaries approved by members changed House District 52 from a competitive district into a Republican stronghold.

The new lines expand the district to include rural areas north of Georgetown.

Talarico said Wednesday that he plans to move to Austin and run for House District 50. That district is represented by Rep. Celja Israel, D-Austin, who is considering running for mayor of Austin and is not seeking reelection.

Texas Republicans are attempting to eliminate me by using racist gerrymandering to divide our community. If they think they can keep me out of the House, they better think again," Talarico said. "I'm grateful to everyone who's urged me to move back to North Austin -- where I grew up -- to run for the seat

North Austin paired

El Paso lawmakers in drawing the map, Hunter said his priority was to avoid splitting precincts between districts and keeping each district as compact as possible. He said he also worked to avoid "pairing" lawmakers, or drawing more than one lawmaker into the same district.

At least one pairing remained in the final map: Democratic Reps. Lina Ortega and Claudia Ordaz Perez of El Paso were drawn into the same district covering parts of downtown El Paso. Ordaz Perez spoke against the bill and said it disenfranchised people from the district she represents.

"The proposed map not only dilutes minority representation in Texas, it erodes the gains of women representatives, who were elected in record numbers by Texas voters in the last election cycle," she said. "To any judges who would review these proceedings I ask: How many more decades of minority population growth is needed before

fore people of color are adequately represented?"

The final version of the legislative maps is expected to be challenged in court. Unlike past redistricting efforts, lawmakers in Texas this year can adopt new political boundaries without first getting federal approval through a preclearance process, a requirement adopted for states like Texas with a history of discriminating against nonwhite voters.

Rep. Toni Rose, D-Dallas, offered an amendment that would have required a federal district court to first approve the state's new political boundaries before they could be enacted, but it did not pass.

The final version of the map must be approved by the Senate. The House still has three other redistricting duties to tackle: approving new maps for the Texas Senate, the state's U.S. House districts and districts for the State Board of Education. The Senate approved those maps earlier this month.

being vacated by my friend Celia Israel." Under the new district map, House District 50 would cover portions of this body will actually look like the people it represents? How lopsided must the minority population of this state be before another special session is scheduled to end Tuesday, but Gov. Greg Abbott could order another special session.

changes between lawmakers. Rep. J.M. Lozano, R-Kingsville, proposed a change to districts in the Rio Grande Valley that would make House District 37 more competitive for his party.

Anchia also proposed an amendment that would have redrawn the map to create more districts with Hispanic-majority populations. Rep. Nicole Collier, D-Fort Worth, also proposed a new map that would have added additional Black-majority districts. Neither were adopted.

The issue was at the center of the 16-hour debate over the proposal in the House on Tuesday which stretched into Wednesday, culminating in an 83-63 vote along party lines to adopt the map.

Rep. Alex Dominguez, the Democrat who represents HD 37, spoke in opposition to the proposal and said Lozano did not run the change by members of the Rio Grande Valley delegation before offering the amendment. Rep. Eddie Lucio III, D-Brownsville, also spoke against the proposed change, telling members in the chamber that his remarks likely would be the last time he ever addressed the House during a debate. Lucio is not running for reelection in 2022.

"We believe we've complied with the law and met the obligations to our citizens and constituents," Hunter said when he presented the bill. "I appreciate everybody trying. I know that in any redistricting, some have issues and some don't — that's the nature of redistricting."

Small changes adopted

Amendments focused on race

Lawmakers did approve numerous changes to the proposed map, including small tweaks to districts across the state. The largest changes occurred in Harris and

The Legislature must redraw the boundaries of political districts every decade, after the release of the decennial census. This year's census data was delayed by the pandemic, prompting lawmakers to undertake the redistricting process during a special legislative

Army IDs Fort Hood soldier found dead on post; cause of death pending

Heather Osbourne
Austin American-Statesman
USA TODAY NETWORK

The U.S. Army identified a soldier found dead behind his company barracks at Fort Hood last week as a 26-year-old Spc. Maxwell Hockin, the Central Texas post announced Wednesday.

Fort Hood leaders said Hockin died Saturday, but did not release his identity until Wednesday. The incident is still under investigation by the U.S. Army Criminal Investigation Command. Fort Hood leaders say no information on the cause of death will be released at this time, citing the ongoing investigation.

"The entire Saber family is devastated by the loss of our true teammate and friend, Spc. Maxwell Hockin," Lt. Col. Patrick Sullivan, commander, 91st Engineer Battalion,

Como puedo conseguir una nueva tarjeta de vacunación contra el COVID-19?

Los departamentos de salud estatales y locales dan las tarjetas de vacunación contra el COVID-19 a los proveedores de vacunación, quienes a su vez se las dan a las personas cuando se vacunan. Si necesitas una nueva tarjeta, habla

con tu proveedor de vacunación, no con los CDC. Los CDC no tienen tus registros de vacunación.

Si el lugar donde te pusieron la vacuna contra el

COVID-19 ya no está funcionando, comunícate con la oficina de vacunación de tu departamento de salud local o estatal para obtener ayuda. CDC

¿Cómo puedo conseguir una nueva tarjeta de vacunación contra el COVID-19?

[cdc.gov/coronavirus-cv](https://www.cdc.gov/coronavirus-cv)

A TODAS LAS PERSONAS Y ENTIDADES INTERESADAS:

Valero Refining-Texas, L.P., ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ, por sus siglas en inglés) para:

Enmendar el Permiso 38754

Enmendar el Permiso Para La Prevención del Deterioro Significativo (PSD, por sus siglas en inglés) PSDTX324M15

La Autorización del Permiso Para Gas de Efecto Invernadero (GHG, por sus siglas en inglés) Prevención del Deterioro Significativo (PSD) GHGSPDIX211

Esta solicitud es para autorizar la modificación de la Refinería de Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, Condado de Nueces, Texas 78407. Esta solicitud se está procesando de manera acelerada, según lo permitido por las reglas de la comisión en el Título 30, Capítulo 101, Subcapítulo J, Código Administrativo de Texas. En la sección de avisos públicos de este periódico se encuentra información adicional sobre esta aplicación.

TEJANO Y GRUPERO NEWS

Public Notice Section

COMISION DE CALIDAD AMBIENTAL DE TEXAS

AVISO DE RECIBO DE SOLICITUD E INTENCION DE OBTENER PERMISO DE AIRE PROPUESTA DE PERMISO DE CALIDAD DE AIRE NUMERO 38754, PSDTX324M15, Y GHGSPD1X211

SOLICITUD Valero Refining-Texas, L.P. ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ, por sus siglas en inglés) para: Enmendar el Permiso 38754

La Autorización del Permiso Para Gas de Efecto Invernadero (GHG, por sus siglas en inglés) Prevención del Deterioro Significativo (PSD) GHGSPD1X211. Esta solicitud es para autorizar la modificación de la Refinería de Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, Condado de Nueces, Texas 78407. Este enlace a un mapa electrónico del sitio o ubicación general de la planta se facilita como cortesia al público, y no es parte de la solicitud o aviso. Para ver la ubicación exacta, consultar la solicitud <http://www.tceq.texas.gov/assets/public/ahb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=1>. La enmienda autorizará un aumento de incluyendo material particulado con diámetros de 10 micras o menos, y de 2.5 micras o menos, y dióxido de azufre. La instalador propuesta también emitirá gases de efecto invernadero.

La solicitud fue remitida a la TCEQ el 30 de septiembre del 2021. La solicitud estará disponible para ser revisada y copiada en la oficina central de la TCEQ, la oficina regional de Corpus Christi de la TCEQ, y en la Owen R. Hopkins Biblioteca Pública, ubicada en 3202 McKinzie Road, Corpus Christi, Condado de Nueces, Texas, a partir del primer día de publicación de este aviso. Los archivos del cumplimiento de las leyes de la planta, si existen, están disponibles para la revisión del público en la oficina regional de Corpus Christi de la TCEQ.

El director ejecutivo de la TCEQ ha determinado que la solicitud está completa administrativamente y llevará a cabo un examen técnico de la solicitud.

COMENTARIO PÚBLICO/REUNIÓN PÚBLICA Usted puede presentar comentarios públicos, o bien una audiencia de caso impugnado a la Oficina del Secretario Oficial en la dirección a continuación. La TCEQ considerará todos los comentarios públicos al desarrollar una decisión final acerca de la solicitud. Posterior al plazo final para presentar comentarios públicos, el director ejecutivo preparará una respuesta a todos los comentarios públicos.

El propósito de la reunión pública es el proveer la oportunidad de presentar comentarios, o bien hacer preguntas acerca de la solicitud. Se llevará a cabo una junta pública acerca de la solicitud si el director ejecutivo determina que hay suficiente interés de parte del público en esta solicitud, si lo solicita una persona interesada, o si lo solicita un legislador local. Una junta pública no es igual a una audiencia de caso impugnado.

Una vez completada la revisión técnica de la solicitud, el director ejecutivo puede preparar un permiso preliminar, y emitirá una decisión preliminar acerca de la solicitud. Un Aviso de Solicitud y Decisión Preliminar para un Permiso de Calidad de Aire será posteriormente publicado y enviado por medio de correo a quienes hicieron comentarios, presentaron solicitudes de audiencia, o están en la lista de correo para esta solicitud. El aviso incluirá el plazo final para presentar comentarios públicos.

OPORTUNIDAD PARA UNA AUDIENCIA DE CASO IMPUGNADO Usted puede solicitar una audiencia de caso impugnado con respecto a las partes de la solicitud de Permiso de Aire Número 38754 y PSD Número de Permiso de Calidad de Aire PSDTX324M15. No existe oportunidad de solicitar una audiencia de caso impugnado con respecto a la parte de la solicitud de GHGSPD Número de Permiso de Calidad de Aire GHGSPD1X211. Una audiencia de caso impugnado es un procedimiento legal similar a un juicio civil en un tribunal de distrito del estado. Una audiencia de caso impugnado solo se concederá con base a cuestiones debatibles de hechos que son pertinentes y materiales para las decisiones de la Comisión con respecto a las partes de la solicitud del Número de Permiso de Calidad de Aire 38754 y el Número de Permiso de Calidad de Aire PSD PSDTX324M15. Además, la Comisión solo concederá una audiencia sobre cuestiones que se presenten durante el periodo de comentarios públicos y no se retiren. Se puede solicitar una audiencia de caso impugnado hasta los 30 días posteriores al envío de la respuesta a los comentarios.

Una persona que puede estar afectada por contaminantes de emisiones atmosféricas, que no sean GHGs, de una planta tiene derecho a solicitar una audiencia. Si se solicita una audiencia de caso impugnado, usted debe presentar lo siguiente: (1) su nombre (o para un grupo o asociación, un representante oficial), dirección, y número de teléfono durante el día; (2) el nombre del solicitante y número de permiso; (3) la declaración "[yo/ nosotros] solicito una audiencia de un caso impugnado"; (4) una descripción específica de cómo usted se vería adversamente afectado por la solicitud y emisiones atmosféricas de la planta de manera que no es común para el público en general; (5) la ubicación y distancia de su propiedad con relación a la planta; (6) una descripción de cómo emplea la propiedad la cual puede ser impactada por la planta; y (7) una lista de todas las cuestiones de hecho en disputa que usted presente durante el periodo de comentarios. Si la petición la hace un grupo o asociación, uno o más miembros que tienen derecho a solicitar una audiencia deben ser identificados por su nombre y dirección física. Los intereses que el grupo o la asociación busca proteger también se deben identificar. Usted también puede presentar sus modificaciones propuestas a la solicitud / al permiso que satisfarían sus inquietudes.

Si se registra oportunamente una petición de audiencia, posterior al cierre de todos los periodos de comentarios y solicitudes aplicables, el Director Ejecutivo enviará la parte correspondiente de la solicitud y cualquier solicitud de audiencia de caso impugnado a los Comisionados para su consideración en una reunión programada de la Comisión. La Comisión sólo puede conceder una solicitud de una audiencia de caso impugnado sobre los temas que el solicitante haya presentado en sus comentarios oportunos que no fueron retirados posteriormente. Si se concede una audiencia, el tema de la audiencia estará limitado a cuestiones de hecho en disputa o cuestiones mixtas de hecho y de derecho relacionadas a intereses pertinentes y materiales de calidad atmosférica que se hayan presentado durante el periodo de comentarios. Cuestiones tales como valor de propiedad, ruido, seguridad de tráfico y zonificación no están dentro de la jurisdicción de la Comisión para abordarse en este proceso legal.

LISTA DE CORREO. Además de presentar comentarios públicos, usted puede solicitar ser incluido en una lista de correo para recibir información futura con respecto a esta solicitud al enviar su petición por escrito a la Oficina del Secretario Oficial a la dirección que se encuentra a continuación.

CONTACTOS E INFORMACIÓN DE LA AGENCIA. Los comentarios públicos y las solicitudes deben presentarse electrónicamente a www.t14.tceq.texas.gov/epic/eComment/, o por escrito a la Comisión de Calidad Ambiental de Texas, Oficina del Funcionario Jefe, MC-105, P.O. Box 13087, Austin, Texas 78771-3087. Por favor tenga en cuenta que cualquier información de contacto que usted proporcione, incluyendo su nombre, número de teléfono, dirección de correo electrónico y dirección física, pasará a formar parte del registro público de la agencia. Para mayor información acerca de esta solicitud para permiso o el proceso para permisos, por favor llame a la línea sin cargos del Programa de Educación Pública al 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Se puede obtener información adicional también de Valero Refining-Texas, L.P., P.O. Box 9370, Corpus Christi, Texas 78469-9370, o al llamar a Señora Meegan Marquardt, Superintendente Ambiental del Personal, al número (361) 299-8913.

CID #, 125319

Senate Bill 709 (84th Texas Legislative Session, 2015) amended the Texas Water Code by adding new Section 5.5553, which requires the Texas Commission on Environmental Quality (TCEQ) to provide written notice to you at least thirty (30) days prior to the TCEQ's issuance of draft permits for applications that are located in your district.

Valero Refining-Texas, L.P. has applied to the TCEQ for air quality permitting actions regarding a Valero Corpus Christi Refinery West Plant.

Application Received Date: September 30, 2021

Location: 5900 Up River Road, Corpus Christi, Nueces County, Texas, 78407

This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice:

<http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>.

Air Quality Permits affected:

- *Air Quality Permit 38754*
- *Prevention of Significant Deterioration PSDTX324M15*
- *Greenhouse Gas Prevention of Significant Deterioration GHGPSDTX211*

TCEQ is preparing the initial draft permit for applicant review. At the time the draft permit is issued, the applicant will be required to publish notice in a newspaper of general circulation, and the TCEQ will provide a copy of the notice of draft permit to persons who have requested to be on a mailing list.

Questions regarding this email may be directed to Bonnie Evridge by calling 512-239-5222.

Issued: October 22, 2021

AVISO DE RECIBO DE SOLICITUD E INTENCIÓN DE OBTENER PERMISO DE AIRE

PROPUESTA DE PERMISO DE CALIDAD DE AIRE NÚMERO 38754, PSDTX324M45, Y GHGPSDTX211

SOLICITUD Valero Refining-Texas, L.P. ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ, por sus siglas en inglés) para: Enmendar el Permiso 38754

Enmendar el Permiso Para La Prevención del Deterioro Significativo (PSD, por sus siglas en inglés) PSDTX324M15

La Autorización del Permiso Para Gas de Efecto Invernadero (GHG, por sus siglas en inglés) Prevención del Deterioro Significativo (PSD) GHGPSDTX211

Esta solicitud es para autorizar la modificación de la Refinería de Valero Corpus Christi ubicada en 5900 Up River Road, Corpus Christi, Condado de Nueces, Texas 78407. Esta solicitud se está procesando de manera acelerada, según lo permitido por las reglas de la comisión en el Título 30, Capítulo 101, Subcapítulo J, Código Administrativo de Texas. Este enlace a un mapa electrónico del sitio o ubicación general de la planta se facilita como cortésia al público, y no es parte de la solicitud o aviso. Para ver la ubicación exacta, consultar la solicitud. <http://www.tceq.texas.gov/assets/public/ffb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=1>. La enmienda autorizará un aumento de las emisiones de los siguientes contaminantes: amoníaco, monóxido de carbono, sulfuro de hidrógeno, óxidos de nitrógeno, compuestos orgánicos volátiles, material particulado incluyendo material particulado con diámetros de 10 micras o menos, y de 2.5 micras o menos, y dióxido de azufre. La instalación propuesta también emitirá gases de efecto invernadero.

La solicitud fue remitida a la TCEQ el 30 de septiembre del 2021. La solicitud estará disponible para ser revisada y copiada en la oficina central de la TCEQ, la oficina regional de Corpus Christi de la TCEQ, y en la Owen R. Hopkins Biblioteca Pública, ubicada en 3202 McKinzie Road, Corpus Christi, Condado de Nueces, Texas, a partir del primer día de publicación de este aviso. Los archivos del cumplimiento de las leyes de la planta, si existen, están disponibles para la revisión del público en la oficina regional de Corpus Christi de la TCEQ.

El director ejecutivo de la TCEQ ha determinado que la solicitud está completa administrativamente y llevará a cabo un examen técnica de la solicitud.

COMENTARIO PÚBLICO/REUNIÓN PÚBLICA Usted puede presentar comentarios públicos, o bien una audiencia de caso impugnado a la Oficina del Secretario Oficial en la dirección a continuación. La TCEQ considerará todos los comentarios públicos al desarrollar una decisión final acerca de la solicitud. Posterior al plazo final para presentar comentarios públicos, el director ejecutivo preparará una respuesta a todos los comentarios públicos.

El propósito de la reunión pública es el proveer la oportunidad de presentar comentarios, o bien hacer preguntas acerca de la solicitud. Se llevará a cabo una junta pública acerca de la solicitud si el director ejecutivo determina que hay suficientes intereses de parte del público en esta solicitud, si lo solicita una persona interesada, o si lo solicita un legislador local. Una junta pública no equivale a una audiencia de caso impugnado.

Una vez completada la revisión técnica de la solicitud, el director ejecutivo puede preparar un permiso preliminar, y emitirá una decisión preliminar acerca de la solicitud. Un Aviso de Solicitud y Decisión Preliminar para un Permiso de Calidad de Aire será posteriormente publicado y enviado por medio de correo a quienes hicieron comentarios, presentaron solicitudes de audiencia, o están en la lista de correo para esta solicitud. El aviso incluirá el plazo final para presentar comentarios públicos.

OPORTUNIDAD PARA UNA AUDIENCIA DE CASO IMPUGNADO Usted puede solicitar una audiencia de caso impugnado con respecto a las partes de la solicitud de Permiso de Aire Número 38754 y PSD Número de Permiso Calidad de Aire PSDTX324M15. No existe oportunidad de solicitar una audiencia de caso impugnado con respecto a la parte de la solicitud de GHGPSD Número de Permiso de Calidad de Aire GHGPSDTX211. Una audiencia de caso impugnado es un procedimiento legal similar a un juicio civil en un tribunal de distrito del estado. Una audiencia de caso impugnado solo se concederá con base a cuestiones debatibles de hechos que son pertinentes y materiales para las decisiones de la Comisión con respecto a las partes de la solicitud del Número de Permiso de Calidad de Aire 38754 y el Número de Permiso de Calidad de Aire PSD PSDTX324M15. Además, la Comisión solo concederá una audiencia sobre cuestiones que se presenten durante el período de comentarios públicos y no se retren. Se puede solicitar una audiencia de caso impugnado hasta los 30 días posteriores al envío de la respuesta a los comentarios.

Una persona que puede estar afectada por contaminantes de emisiones atmosféricas, que no sean GHGs, de una planta tiene derecho a solicitar una audiencia. Si se solicita una audiencia de caso impugnado, usted debe presentar lo siguiente: (1) su nombre (o para un grupo o asociación, un representante oficial), dirección, y número de teléfono durante el día; (2) el nombre del solicitante y número de permiso; (3) la declaración "Yo/nosotros/solicitó una audiencia de un caso impugnado"; (4) una descripción específica de cómo usted se vería adversamente afectado por la solicitud y emisiones atmosféricas de la planta de manera que no es común para el público en general; (5) la ubicación y distancia de su propiedad con relación a la planta; (6) una descripción de cómo emplea la propiedad la cual puede ser impactada por la planta; y (7) una lista de todas las cuestiones de hecho en disputa que usted presente durante el período de comentarios. Si la petición la hace un grupo o asociación, uno o más miembros que tienen derecho a solicitar una audiencia deben ser identificados por su nombre y dirección física. Los intereses que el grupo o la asociación busca proteger también se deben identificar. Usted también puede presentar sus modificaciones propuestas a la solicitud / al permiso que satisfarían sus inquietudes.

Si se registra oportunamente una petición de audiencia, posterior al cierre de todos los períodos de comentarios y solicitudes aplicables, el Director Ejecutivo enviará la parte correspondiente de la solicitud y cualquier solicitud de audiencia de caso impugnado a los Comisionados para su consideración en una reunión programada de la Comisión. La Comisión sólo puede conceder una audiencia de caso impugnado sobre los temas que el solicitante haya presentado en sus comentarios oportunos que no fueron retirados posteriormente. Si se concede una audiencia, el tema de la audiencia estará limitado a cuestiones de hecho en disputa o cuestiones mixtas de hecho y de derecho relacionadas a intereses pertinentes y materiales de calidad atmosférica que se hayan presentado durante el período de comentarios. Cuestiones tales como valor de propiedad, ruido, seguridad de tráfico y zonificación no están dentro de la jurisdicción de la Comisión para abordarse en este proceso legal.

LISTA DE CORREO Además de presentar comentarios públicos, usted puede solicitar ser incluido en una lista de correo para recibir información futura con respecto a esta solicitud al enviar su petición por escrito a la Oficina del Secretario Oficial a la dirección que se encuentra a continuación.

CONTACTOS E INFORMACIÓN DE LA AGENCIA Los comentarios públicos y las solicitudes deben presentarse electrónicamente a www14.tceq.texas.gov/epic/eComment/, o por escrito a la Comisión de Calidad Ambiental de Texas, Oficina del Funcionario Jefe, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Por favor tenga en cuenta que cualquier información de contacto que usted proporcione, incluyendo su nombre, número de teléfono, dirección de correo electrónico y dirección física, pasará a formar parte del registro público de la agencia. Para mayor información acerca de esta solicitud para permiso o el proceso para permisos, por favor llame a la línea sin cargos del Programa de Educación Pública al 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

RE: Public Notice – Proof of Publication & Affidavit of Publication
Valero Refining – Texas, L.P. (Valero)
Bill Greehey Refinery - West Plant
Permit No. 38754, PSDTX324M15, and GHGPSDTX211
Regulated Entity Number: 100214386
Customer Reference Number: 600127468

To Whom It May Concern,

Please find copies of the newspaper clippings from the “Corpus Christi Caller Times” newspaper in which public notice appeared on October 14, 2021 regarding the subject matter permit. Two copies of newspaper clippings are included, one which appeared in a “Prominent Location” in the newspaper, and one which appeared in the “Public Notice” section of the newspaper. Also attached, please find a copy of the signed and notarized “Affidavit of Publication for Air Permitting” form for this publication.

Also, please find copies of newspaper clippings from the “Tejano y Gruperio News” newspaper in which alternate language (Spanish) public notice appeared on October 15, 2021 regarding the subject matter permit. Two copies of newspaper clippings are included, one which appeared in a “Prominent Location” in the newspaper, and one which appeared in the “Public Notice” section of the newspaper. Also attached, please find a copy of the signed and notarized “Affidavit of Publication for Air Permitting” form for this publication.

Upon obtaining the signed original Affidavits for each respective newspaper, a separate Affidavit of Publication as required will be submitted.

If you have any questions regarding this submittal, please do not hesitate to contact me by email at meagan.marquard@valero.com or by phone at (361) 299-8913.

Sincerely,

Meagan Marquard
Environmental Superintendent

Texas House OKs new map, solidifies GOP control

Madlin Mekelburg
Austin American-Statesman
USA TODAY NETWORK

The Texas House early Wednesday approved a map for new political districts that would solidify Republican control of the chamber, protect incumbent lawmakers from both parties and reduce the number of competitive districts across the state.

Democrats criticized the map for failing to reflect the rapid growth of the Hispanic and Asian population over the past decade. They contended that the proposed maps would reduce the number of districts where non-white people comprise the majority of eligible voters.

But Republican Rep. Todd Hunter of Corpus Christi, author of the new House map, pushed back against the criticism. He has maintained that his plan creates two new districts where Hispanic residents make up the majority of the population and one new district with Black residents in the majority.

session, instead of during the regular session earlier this year.

During Tuesday's debate, Democrats proposed numerous amendments to address concerns that the map dilutes the voting power of Texans of color, who accounted for 95% of the state's population growth over the past decade, according to the 2020 U.S. census.

The state's population jumped from 25.1 million in 2010 to roughly 29.1 million. The new ideal population size for House districts is 194,303, up from 167,367 in 2010 during the last redistricting process.

"When communities of color account for 95% of all the growth and you actually reduce the numbers of communities of color that can elect people of their choice in districts and then increase the number of Anglo districts — I think that is a substantive failure," said Rep. Rafael Anchia, D-Dallas, while presenting an amendment that would have killed the entire bill.

Dallas counties.

One amendment from Anchita would create two more districts in North Texas with a majority Black population and one more district with a majority Hispanic population.

In Austin, Rep. Eddie Rodriguez, D-Austin, made some small tweaks to the districts near downtown, slightly adjusting the borders of the district he represents and those adjoining areas. The amendment was adopted.

The House also approved an amendment from Rep. Erin Zwiener, D-Driftwood, that would redraw her residence back into the district she represents. Hunter's original draft of the map would have moved Zwiener from House District 45 into the neighboring House District 73, a more Republican area.

Zwiener's amendment also keeps Wimberley in the same district, instead of dividing it between HD 45 and HD 73.

The debate was mostly cordial, but one amendment sparked intense ex-

Talarico to relocate

Rep. James Talarico, D-Round Rock, was not drawn out of the district he represents in the final version of the bill, but said the new boundaries approved by members changed House District 52 from a competitive district into a Republican stronghold.

The new lines expand the district to include rural areas north of Georgetown.

Talarico said Wednesday that he plans to move to Austin and run for House District 50. That district is represented by Rep. Celia Israel, D-Austin, who is considering running for mayor of Austin and is not seeking reelection.

"Texas Republicans are attempting to eliminate me by using racist gerrymandering to divide our community. If they think they can keep me out of the House, they better think again," Talarico said. "I'm grateful to everyone who's urged me to move back to North Austin — where I grew up — to run for the seat

North Austin

El Paso lawmakers paired

In drawing the map, Hunter said his priority was to avoid splitting precincts between districts and keeping each district as compact as possible. He said he also worked to avoid "pairing" lawmakers, or drawing more than one lawmaker into the same district.

At least one pairing remained in the final map: Democratic Reps. Lina Ortega and Claudia Ordaz Perez of El Paso were drawn into the same district covering parts of downtown El Paso. Ordaz Perez spoke against the bill and said it disenfranchised people from the district she represents.

"The proposed map not only dilutes minority representation in Texas, it erodes the gains of women representatives, who were elected in record numbers by Texas voters in the last election cycle," she said. "To any judges who would review these proceedings I ask: How many more decades of minority population growth is needed before

fore people of color are adequately represented?"

The final version of the legislative maps is expected to be challenged in court. Unlike past redistricting efforts, lawmakers in Texas this year can adopt new political boundaries without first getting federal approval through a preclearance process, a requirement adopted for states like Texas with a history of discriminating against nonwhite voters.

Rep. Toni Rose, D-Dallas, offered an amendment that would have required a federal district court to first approve the state's new political boundaries before they could be enacted, but it did not pass.

The final version of the map must be approved by the Senate. The House still has three other redistricting duties to tackle: approving new maps for the Texas Senate, the state's U.S. House districts and districts for the State Board of Education. The Senate approved those maps earlier this month.

The issue was at the center of the 16-hour debate over the proposal in the House on Tuesday which stretched into Wednesday, culminating in an 83-63 vote along party lines to adopt the map.

"We believe we've complied with the law and met the obligations to our citizens and constituents," Hunter said when he presented the bill. "I appreciate everybody trying. I know that in any redistricting, some have issues and some don't — that's the nature of redistricting."

Amendments focused on race

The Legislature must redraw the boundaries of political districts every decade, after the release of the decennial census. This year's census data was delayed by the pandemic, prompting lawmakers to undertake the redistricting process during a special legislative

session. Anchia also proposed an amendment that would have redrawn the map to create more districts with Hispanic-majority populations. Rep. Nicole Collier, D-Fort Worth, also proposed a new map that would have added additional Black-majority districts. Neither were adopted.

Rep. Gene Wu, D-Houston, offered an amendment early in the debate that would have required the Texas secretary of state to conduct a racial impact study of the proposed districts, using population estimates that account for citizenship as the basis of the analysis. The amendment was not adopted.

Small changes adopted

Lawmakers did approve numerous changes to the proposed map, including small tweaks to districts across the state. The largest changes occurred in Harris and

changes between lawmakers. Rep. J.M. Lozano, R-Kingsville, proposed a change to districts in the Rio Grande Valley that would make House District 37 more competitive for his party.

Rep. Alex Dominguez, the Democrat who represents HD 37, spoke in opposition to the proposal and said Lozano did not run the change by members of the Rio Grande Valley delegation before offering the amendment.

Rep. Eddie Lucio III, D-Brownsville, also spoke against the proposed change, telling members in the chamber that his remarks likely would be the last time he ever addressed the House during a debate. Lucio is not running for reelection in 2022.

"Please, let our delegation speak its mind and vote no on this amendment," he said.

The amendment was adopted 72-70.

being vacated by my friend Celia Israel." Under the new district map, House District 50 would cover portions of this body will actually look like the people it represents? How lopsided must the minority population of this state be before another special session.

The 30-day special session is scheduled to end Tuesday, but Gov. Greg Abbott could order another special session.

Army IDs Fort Hood soldier found dead on post; cause of death pending

Heather Osborne
Austin American-Statesman
USA TODAY NETWORK

The U.S. Army identified a soldier found dead behind his company barracks at Fort Hood last week as a 26-year-old Spc. Maxwell Hockin, the Central Texas post announced Wednesday.

Hockin

Fort Hood leaders said Hockin died Saturday, but did not release his identity until Wednesday. The incident is still under investigation by the U.S. Army Criminal Investigation Command. Fort Hood leaders say no information on the cause of death will be released at this time, citing the ongoing investigation.

"The entire Saber family is devastated by the loss of our true teammate and friend, Spc. Maxwell Hockin," Lt. Col. Patrick Sullivan, commander, 91st Engineer Battalion,

TO ALL INTERESTED PERSONS AND PARTIES:
Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for: Amendment of Permit 38754

Amendment of Prevention of Significant Deterioration (PSD) Permit PSDTX324M15

Issuance of Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) Permit GHGPSDTX211
This application would authorize modification of the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application is being processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. Additional information concerning this application is contained in the public notice section of this newspaper.

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN AIR PERMIT

PROPOSED AIR QUALITY PERMIT NUMBER 38754, PSDTX324M15, AND GHGPSDTX211

APPLICATION Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for:
 Amendment of Permit 38754
 Amendment of Prevention of Significant Deterioration (PSD) Permit PSDTX324M15
 Issuance of Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) Permit GHGPSDTX211

This application would authorize modification of the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application is being processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>. The amendment will authorize an increase in emissions of the following air contaminants: ammonia, carbon monoxide, hydrogen sulfide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. The proposed facility will also emit greenhouse gases.

This application was submitted to the TCEQ on September 30, 2021. The application will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review in the Corpus Christi regional office of the TCEQ.

The executive director has determined the application is administratively complete and will conduct a technical review of the application.

PUBLIC COMMENT/PUBLIC MEETING You may submit public comments, or request a public meeting or a contested case hearing to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. After the deadline for public comments, the executive director will prepare a response to all public comments.

The purpose of a public meeting is to provide the opportunity to submit comments or ask questions about the application. A public meeting about the application will be held if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing.

After technical review of the application is complete, the executive director may prepare a draft permit and will issue a preliminary decision on the application. Notice of Application and Preliminary Decision for an Air Quality Permit will then be published and mailed to those who made comments, submitted hearing requests or are on the mailing list for this application. That notice will contain the final deadline for submitting public comments.

OPPORTUNITY FOR A CONTESTED CASE HEARING You may request a contested case hearing regarding the portions of the application for Air Permit Number 38754 and PSD Air Quality Permit Number PSDTX324M15. There is no opportunity to request a contested case hearing regarding the portion of the application for GHGPSD Air Quality Permit Number GHGPSDTX211. A contested case hearing is a legal proceeding similar to a civil trial in state district court. A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the portions of the application for Air Quality Permit Number 38754 and PSD Air Quality Permit Number PSDTX324M15. Further, the Commission will only grant a hearing on those issues submitted during the public comment period and not withdrawn. A contested case hearing may be requested until 30 days after the mailing of the response to comments.

A person who may be affected by emissions of air contaminants, other than GHGs, from the facility is entitled to request a hearing. If requesting a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, and daytime phone number; (2) applicant's name and permit number; (3) the statement "[I/we] request a contested case hearing"; (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a group or an association, one or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns.

If a hearing request is timely filed, following the close of all applicable comment and request periods, the Executive Director will forward the applicable portion of the application and any requests for contested case hearing to the Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material air quality concerns submitted during the comment period. Issues such as property values, noise, traffic safety, and zoning are outside of the Commission's jurisdiction to address in this proceeding.

MAILING LIST In addition to submitting public comments, you may ask to be placed on a mailing list to receive future public notices for this specific application by sending a written request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION Public comments and requests must be submitted either electronically at www14.tceq.texas.gov/epic/eComment/, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. Subject: Public Notice – Proof of Publication & Affidavit of Publication (Permit Nos. 38754, PSDTX324M15, and GHGPSDTX211) - Email 1 of 2
Attachments: Valero Refining - Permit 38754 - Proof of Publication - Signed - Final (pg 1 of 2).pdf

Good Afternoon Ms. Hill –

Attached, please find the Proof of Publication & Affidavit of Publication for Valero Refining – Texas, L.P.(Valero) for Permit Nos. 38754, PSDTX324M15, and GHGPSDTX211. As the document is large to mail, two separate emails will be sent.

In the attachment you will find copies of the newspaper clippings from the “Corpus Christi Caller Times” newspaper in which public notice appeared on October 14, 2021 regarding the subject matter permit. Two copies of newspaper clippings are included, one which appeared in a “Prominent Location” in the newspaper, and one which appeared in the “Public Notice” section of the newspaper. Also attached, please find a copy of the signed and notarized “Affidavit of Publication for Air Permitting” form for this publication.

Also, please find copies of newspaper clippings from the “Tejano y Grupero News” newspaper in which alternate language (Spanish) public notice appeared on October 15, 2021 regarding the subject matter permit. Two copies of newspaper clippings are included, one which appeared in a “Prominent Location” in the newspaper, and one which appeared in the “Public Notice” section of the newspaper. Also attached, please find a copy of the signed and notarized “Affidavit of Publication for Air Permitting” form for this publication.

Upon obtaining the signed original Affidavits for each respective newspaper, a separate Affidavit of Publication as required will be submitted.

If you have any questions regarding this submittal, please do not hesitate to contact me. Thank you!

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

EXAMPLE A

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN AIR PERMIT

PROPOSED AIR QUALITY PERMIT NUMBER 38754,
PSDTX324M15, AND GHGPSDTX211

APPLICATION Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for:
Amendment of Permit 38754
Amendment of Prevention of Significant Deterioration (PSD) Permit PSDTX324M15
Issuance of Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) Permit
GHGPSDTX211

This application would authorize modification of the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application is being processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>. The amendment will authorize an increase in emissions of the following air contaminants: ammonia, carbon monoxide, hydrogen sulfide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. The proposed facility will also emit greenhouse gases.

This application was submitted to the TCEQ on September 30, 2021. The application will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review in the Corpus Christi regional office of the TCEQ.

The executive director has determined the application is administratively complete and will conduct a technical review of the application.

PUBLIC COMMENT/PUBLIC MEETING You may submit public comments, or request a public meeting or a contested case hearing to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. After the deadline for public comments, the executive director will prepare a response to all public comments.

The purpose of a public meeting is to provide the opportunity to submit comments or ask questions about the application. A public meeting about the application will be held if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing.

After technical review of the application is complete, the executive director may prepare a draft permit and will issue a preliminary decision on the application. Notice of Application and Preliminary Decision for an Air Quality Permit will then be published and mailed to those who made comments, submitted hearing requests or are on the mailing list for this application. That notice will contain the final deadline for submitting public comments.

OPPORTUNITY FOR A CONTESTED CASE HEARING You may request a contested case hearing regarding the portions of the application for Air Permit Number 38754 and PSD Air Quality Permit

Number PSDTX324M15. There is no opportunity to request a contested case hearing regarding the portion of the application for GHG PSD Air Quality Permit Number GHG PSDTX211. A contested case hearing is a legal proceeding similar to a civil trial in state district court. A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the portions of the application for Air Quality Permit Number 38754 and PSD Air Quality Permit Number PSDTX324M15. Further, the Commission will only grant a hearing on those issues submitted during the public comment period and not withdrawn. **A contested case hearing may be requested until 30 days after the mailing of the response to comments.**

A person who may be affected by emissions of air contaminants, other than GHGs, from the facility is entitled to request a hearing. If requesting a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, and daytime phone number; (2) applicant's name and permit number; (3) the statement "[I/we] request a contested case hearing"; (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a group or an association, one or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns.

If a hearing request is timely filed, following the close of all applicable comment and request periods, the Executive Director will forward the applicable portion of the application and any requests for contested case hearing to the Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material air quality concerns submitted during the comment period.** Issues such as property values, noise, traffic safety, and zoning are outside of the Commission's jurisdiction to address in this proceeding.

MAILING LIST In addition to submitting public comments, you may ask to be placed on a mailing list to receive future public notices for this specific application by sending a written request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION Public comments and requests must be submitted either electronically at www14.tceq.texas.gov/epic/eComment/, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas, L.P., P.O. Box 9370, Corpus Christi, Texas 78469-9370 or by calling Ms. Meagan Marquard, Superintendent Environmental, at (361) 299-8913.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

October 5, 2021

MR JOE ALMARAZ
DIRECTOR ENVIRONMENTAL SAFETY AFFAIRS
VALERO REFINING-TEXAS LP
PO BOX 9370
CORPUS CHRISTI TX 78469-9370

Re: Declaration of Administrative Completeness
Permit, Prevention of Significant Deterioration (PSD), Greenhouse Gas (GHG) Prevention of
Significant Deterioration (PSD) Permit Amendment Application
Permit Numbers: 38754, PSDTX324M15, and GHGPSDTX211
Valero Refining-Texas, L.P.
Valero Corpus Christi Refinery West Plant
Corpus Christi, Nueces County
Customer Reference Number: CN600127468
Regulated Entity Number: RN100214386

Dear Mr. Almaraz:

The Texas Commission on Environmental Quality (TCEQ) has declared the above-referenced application, received on September 30, 2021, administratively complete on October 5, 2021.

You are now required to publish notice of your proposed activity. To help you meet the regulatory requirements associated with this notice, we have included the following items:

- Notices for Newspaper Publication (Examples A and B)
- Sign Posting Example (Example C)
- Public Notice Checklist
- Instructions for Public Notice
- Affidavit of Publication for Air Permitting (Form TCEQ-20533) and
- Alternative Language Affidavit of Publication for Air Permitting (Form TCEQ-20534)
- Web link to download Public Notice Verification Form (refer to Public Notice Instructions)
- Notification List

Please note that it is very important that you follow all directions in the enclosed instructions. If you do not, you may be required to republish the notice. Some common errors are the unauthorized changing of notice wording or font, omission of air contaminants, and inaccurate plant site location information represented in the application. Additional information can be found at www.tceq.texas.gov/permitting/air/bilingual/how1_2_pn.html or **if you have any questions, please contact us before you proceed with publication.**

A "Public Notice Checklist" is enclosed which notes the time limitations for each step of the public notice process. **The processing of your application may be delayed if these time limitations are not met (i.e.; submitting proof of publication of the notice within 10 business days after publication, affidavits of publication within 30 calendar days after the date of publication, and public notice**

Mr. Joe Almaraz
Page 2
October 5, 2021

Re: Permits: 38754, PSDTX324M15, and GHGPSDTX211

verification form within 10 business days after the end of the designated comment period). This checklist should be used as a tool in conjunction with the enclosed, detailed instructions.

If you do not comply with **all** requirements described in the instructions, the TCEQ cannot continue processing the application and may take other actions. Please note that as your application undergoes the technical review, we may request additional information.

If you have any questions regarding publication requirements, please contact the Office of the Chief Clerk at (512) 239-3300. If you have any other questions, please contact Ms. Stephanie Ross at (512) 239-1215.

Sincerely,

Johnny D. Bowers, Team Leader
Air Permits Initial Review Team
Air Permits Division
Texas Commission on Environmental Quality

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

EXAMPLE A

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN AIR PERMIT

PROPOSED AIR QUALITY PERMIT NUMBER 38754, PSDTX324M15,
AND GHGPSDTX211

APPLICATION Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for: Amendment of Permit 38754
Amendment of Prevention of Significant Deterioration (PSD) Permit PSDTX324M15
Issuance of Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) Permit GHGPSDTX211

This application would authorize modification of the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application is being processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=27.820555&lng=-97.488333&zoom=13&type=r>. The amendment will authorize an increase in emissions of the following air contaminants: ammonia, carbon monoxide, hydrogen sulfide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. The proposed facility will also emit greenhouse gases.

This application was submitted to the TCEQ on September 30, 2021. The application will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and the Owen R. Hopkins Public Library, 3202 McKinzie Road, Corpus Christi, Nueces County, Texas beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review in the Corpus Christi regional office of the TCEQ.

The executive director has determined the application is administratively complete and will conduct a technical review of the application.

PUBLIC COMMENT/PUBLIC MEETING You may submit public comments, or request a public meeting or a contested case hearing to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. After the deadline for public comments, the executive director will prepare a response to all public comments.

The purpose of a public meeting is to provide the opportunity to submit comments or ask questions about the application. A public meeting about the application will be held if the executive director determines that there is a significant degree of public interest in the application, if requested by an interested person, or if requested by a local legislator. A public meeting is not a contested case hearing.

After technical review of the application is complete, the executive director may prepare a draft permit and will issue a preliminary decision on the application. Notice of Application and Preliminary Decision for an Air Quality Permit will then be published and mailed to those who made comments, submitted hearing requests or are on the mailing list for this application. That notice will contain the final deadline for submitting public comments.

OPPORTUNITY FOR A CONTESTED CASE HEARING You may request a contested case hearing regarding the portions of the application for Air Permit Number 38754 and PSD Air Quality Permit Number PSDTX324M15. There is no opportunity to request a contested case hearing regarding the portion of the application for GHGPSD Air Quality Permit Number GHGPSDTX211. A contested case hearing is a legal proceeding similar to a civil trial in state district court. A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the portions of the application for Air Quality Permit Number 38754 and PSD Air

Quality Permit Number PSDTX324M15. Further, the Commission will only grant a hearing on those issues submitted during the public comment period and not withdrawn. **A contested case hearing may be requested until 30 days after the mailing of the response to comments.**

A person who may be affected by emissions of air contaminants, other than GHGs, from the facility is entitled to request a hearing. If requesting a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, and daytime phone number; (2) applicant's name and permit number; (3) the statement "[I/we] request a contested case hearing"; (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a group or an association, one or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns.

If a hearing request is timely filed, following the close of all applicable comment and request periods, the Executive Director will forward the applicable portion of the application and any requests for contested case hearing to the Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material air quality concerns submitted during the comment period.** Issues such as property values, noise, traffic safety, and zoning are outside of the Commission's jurisdiction to address in this proceeding.

MAILING LIST In addition to submitting public comments, you may ask to be placed on a mailing list to receive future public notices for this specific application by sending a written request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION Public comments and requests must be submitted either electronically at www14.tceq.texas.gov/epic/eComment/, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Valero Refining-Texas, L.P., P.O. Box 9370, Corpus Christi, Texas 78469-9370 or by calling Ms. Meagan Marquard, Superintendent Environmental, at (361) 299-8913.

Notice Issuance Date: October 5, 2021

Example B

Publication Elsewhere in the Newspaper:

TO ALL INTERESTED PERSONS AND PARTIES:

Valero Refining-Texas, L.P., has applied to the Texas Commission on Environmental Quality (TCEQ) for:
Amendment of Permit 38754
Amendment of Prevention of Significant Deterioration (PSD) Permit PSDTX324M15
Issuance of Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) Permit GHGPSDTX211

This application would authorize modification of the Valero Corpus Christi Refinery West Plant located at 5900 Up River Road, Corpus Christi, Nueces County, Texas 78407. This application is being processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. Additional information concerning this application is contained in the public notice section of this newspaper.

Example C

Sign Posting

Sign(s) must be in place on day of publication of first newspaper notice **and must remain in place and the lettering must be legible during that designated comment period (30 days)**. It is recommended that the signs remain in place until 30 days after the last newspaper publication of the second notice (either English or alternate language notice, whichever is later). Note - The information shown is an example only. It is your responsibility to verify that the appropriate information pertaining to your application is accurate. Each sign placed at the site must be located within 10 feet of each (every) property line paralleling a public highway, street or road. Signs must be visible from the street and spaced at not more than 1,500-foot intervals. A minimum of one sign, but not more than three signs shall be required along any property line paralleling a public highway, street, or road.

Sign(s) must be placed at whatever height above the ground is necessary for sign(s) to be 100% visible from the street.

WHITE BACKGROUND WITH BLACK LETTERS

All lettering must be no less than 1-1/2 inch block printed capitals.

EXAMPLE F

SIGN POSTING

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Instructions for Public Notice For New Source Review Federal Air Permit

Notice of Receipt of Application and Intent to Obtain Permit

Your application has been declared administratively complete and now you must comply with the following instructions:

Review Notice

Included in the notice is all of the information which the commission believes is necessary to effectuate compliance with applicable public notice requirements. Please read it carefully and notify the Texas Commission on Environmental Quality (TCEQ) immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text of the notice without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed *Notice of Receipt of Application and Intent to Obtain Permit* within **30 calendar days** after the date of administrative completeness. As part of the expedited permitting process, it is recommended that you publish immediately. Refer to the cover letter for the date of administrative completeness.
- You must publish the enclosed *Notice of Receipt of Application and Intent to Obtain Permit* at your expense, in a newspaper that is of general circulation in the municipality where the facility is or will be located. If the facility is not located within a municipality, the newspaper should be of general circulation in the municipality nearest to the location or proposed location.
- You must publish this notice in one issue of any applicable newspaper.
- You will find two example notices enclosed in this package. *Example A* must be published in the "public notice" section of the newspaper. The phrase "Example A" is not required to be published. *Example B* must be published in the **same issue** of the newspaper as *Example A*; however, it must be published in a prominent location (other than the public notice section). *Example B* refers the public to the "public notice" section of the newspaper where *Example A* provides more information regarding the permit application.
- *Example B* must be a total of at least **6 column inches (standard advertising units)** with a height of at least **3 inches** and a horizontal dimension of **2 column widths**. If the newspaper chosen does not use standard advertising units for measurement, the notice must be at least **12 square inches** with the shortest side at least 3 inches.
- The bold text of the enclosed notice **must** be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., **bold**, *italics*). **Failure to do so may require re-notice.**

Alternative Language Notice

In certain circumstances, applicants for air permits must complete notice in alternative languages.

- Public notice rules require the applicant to determine whether a bilingual program is required at either the elementary or middle school nearest to the facility or proposed facility location. Bilingual education programs are determined on a district-wide basis. When students who are required to attend either school are eligible to be enrolled in a bilingual education program, some alternative language notice is required (signs, or signs and newspaper notice).
- Since the school district, and not the schools, must provide the bilingual education program, these programs do not have to be located at the elementary or middle school nearest to the facility or proposed facility to trigger the alternative language notice requirement. If there are students who would normally attend the nearest schools eligible to be taught in a bilingual education program at a different location, alternative language notice is required.
- If triggered, publication of alternative language notices must be made in a newspaper or publication primarily printed in each language taught in the bilingual education program. This notice is required if such a newspaper or publication exists in the municipality or the county where the facility is or will be located.
- The applicant must demonstrate a good faith effort to identify a newspaper or publication in the required language. If a newspaper or publication of general circulation published at least once a month in such language cannot be found, publishing in that language is not required, but signs must still be posted adjacent to each English language sign.
- Publication in an alternative language section or insertion within an English language newspaper does not satisfy these requirements.
- The applicant has the burden to demonstrate compliance with these requirements. You must fill out the ***Public Notice Verification Form (Form TCEQ-20244)*** indicating your compliance with the requirements regarding publication in an alternative language. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**
- It is suggested the applicant work with the local school district to do the following:
 - (a) determine if a bilingual program is required in the district;
 - (b) determine which language is required by the bilingual program;
 - (c) locate the nearest elementary and middle schools; and
 - (d) determine if any students attending either school are eligible to be enrolled in a bilingual educational program.
- **If you determine that you must meet the alternative language notice requirements, you are responsible for ensuring that the publication in the alternative language is complete and accurate in that language. Spanish notice templates are available through the Air Permits Division Web site at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.** All italic notes should be replaced with the corresponding Spanish translations for the specific application and published in the alternative language publication.
- If you are required to publish notice in a language other than Spanish, you must translate the entire public notice at your own expense.

Public Comment Period

- The public comment period should last at least **30 calendar days**.

- The comment period will be longer if the last day of the public comment period ends on a weekend or a holiday. In this case, the comment period will end on the next business day.
- The comment period for the permit may lengthen depending on whether a public meeting is held. If a public meeting is held, the comment period will be extended to the later of either the date of the public meeting or the end of the second notice period.

Proof of Publication

- Check each publication to ensure that the articles were accurately published. If a notice was not published correctly you may be required to republish.
- For each newspaper in which you published, you must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proofs of publication are 1) copies of the published notice or 2) the newspaper clippings of the published notice. If you choose to submit copies of the published notice to the Office of the Chief Clerk, copies must be on standard-size 8½" x 11" paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11" must be copied onto multiple 8½" x 11" pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain newspaper clippings or tear sheets of the notice for your records.
- You must submit an **affidavit of publication for air permitting and alternate language affidavit of publication for air permitting (if applicable)** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **You must use the enclosed affidavit forms.** The affidavits must clearly identify the applicant's name and permit number. You are encouraged to submit the affidavit with the proof of publication described above.
- You must submit the **Public Notice Verification Form (Form TCEQ-20244)** to the Office of the Chief Clerk within **10 business days** of the end of this public comment period. You must use this form to certify that you have met bilingual notice requirements. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**
- The **affidavits of publication, Public Notice Verification Form, and acceptable proof of publication of the published notices** should be emailed to PROOFS@tceq.texas.gov or mailed to:

Texas Commission on Environmental Quality
Office of the Chief Clerk, MC-105
Attn: Notice Team / AIR Expedited Permitting
P.O. Box 13087
Austin, Texas 78711-3087

- Please ensure that the affidavit(s) you send to the Chief Clerk have all blanks on the affidavit filled in correctly.
- Photocopies of newspaper clippings, affidavits, and verifications must also be sent to those listed on the enclosed *Notification List* within the deadlines specified above.

Failure to Publish and Submit Proof of Publication

You must meet all publication requirements. **If you fail to publish the notice or submit proof of publication on time, then** the TCEQ may suspend further processing on your application or take other actions.

Sign Posting

Applicants for air quality permits must also post signs.

- You must post at least one sign in English and as applicable, in each alternative language.
- Signs must be in place on the first day of publication in a newspaper and must remain in place and be legible and be visible from the street for the entire duration of the publications' designated comment period (see Example C).
- The sign template enclosed (*Example C*) is an example only. Read the sign template carefully and notify the TCEQ if it has an error or omissions. It is your responsibility to verify that the appropriate information pertaining to your application is accurate. Any changes to the text prepared by the TCEQ must be approved by the agency.
- Signs placed at the site must be located within 10 feet of each (every) property line paralleling a public street, road, or highway. Signs must be spaced at not more than 1,500-foot intervals. A minimum of one sign, but not more than three signs are required along any property line paralleling a public street, road, or highway. Sign(s) must be placed at a sufficient height above the ground that is necessary for sign(s) to be 100 percent visible from the street.
- All lettering on the sign must be no less than 1½" in height with block printed capital lettering. The sign must be at least 18" wide and 28" tall, and consist of black lettering on a white background.
- Alternative language signs are required if alternative notice is required, even if no newspaper can be found.
- Inspect each posted sign daily to ensure it is present and visible throughout the entire comment period.
- You must submit verification of sign posting using the **Public Notice Verification Form (Form TCEQ-20244)** within **10 business days** after end of the publications' designated comment period. Do not submit the *Public Notice Verification Form* verifying sign posting until after the comment period is over. You cannot certify that the sign posting is in compliance until after the comment period is over. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**

Application in a Public Place

- You must provide a copy of the administratively complete application at a public place for review and copying by the public. This place must be in the county in which the facility is located or proposed to be located. The location must also provide public access to the internet.
- A public place is one that is publicly owned or operated. For example, libraries, county courthouses, or city halls.
- The administratively complete application must be available beginning on the first day of newspaper publication and remain available during the entire public comment period.
- If the application is submitted to the TCEQ with information marked as confidential, you are required to indicate which specific portions of the application are not being made available to the public. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the Texas Commission on Environmental Quality, Public Information Coordinator, MC-197, P.O. Box 13087, Austin, Texas 78711-3087."

- You must submit verification of file availability using the ***Public Notice Verification Form (Form TCEQ-20244)*** within **10 business days** after end of the publications' designated comment period. Do not submit the form verifying that the application was in a public place until after the comment period is complete. If a public meeting is held or second notice is required causing the public comment period to be extended, at a later date you will be required to verify that the application was in a public place during the entire public comment period. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**

General Information

When contacting the Commission regarding this application, please refer to the permit number at the top of the *Notice of Application and Intent to Obtain Permit*.

If you wish to obtain an electronic copy, please contact the initial reviewer who assisted in the preparation of this public notice package. The electronic version is available in Microsoft Word format only and can be requested once your application has been declared administratively complete. Please ensure that the electronic version is correct and consistent with the hard copies that were provided. Any revisions made may not be accepted. **You may download copies of the Public Notice Verification Form and Affidavits of publication by visiting our agency Web site at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**

If you have questions or need assistance regarding publication requirements, please contact the Office of the Chief Clerk at (512) 239-3300 or the administrative reviewer listed in the cover letter.
