said. “Every year, we obviously see the flu. This year, I will say, that we’re seeing an abundance of it, as far as the numbers.”

Flu symptoms include fever, cough, sore throat, muscle aches, headaches, and a runny or stuffy nose. Severe symptoms can last up to three days, while less-severe symptoms can hang around for up to two weeks.

**Abbott seeks fed reimbursement for border security**

Gov. Greg Abbott has asked the federal government to reimburse Texas for the \$11.1 billion the state has spent in the past four years in Operation Lone Star.

“Over the past four years, OLS efforts successfully reduced illegal immigration into Texas by 87%, demonstrated the ongoing effectiveness of President Donald Trump’s border measures, and shone a spotlight on a national crisis,” Abbott wrote in a letter to U.S. congressional leadership.

Abbott has long been critical of federal border enforcement efforts under former President Joe Biden, claiming his policies left Texas “defenseless” against infiltration across the border of violent gangs and other criminals.

**Measles cases confirmed in West Texas, Houston**

Two cases of measles have been confirmed in school-aged children in West Texas a few weeks after two cases were reported in a pair of Houston residents, the *Houston Chronicle* reported. The West Texas cases were children living in Gaines County who had not received the measles, mumps, and rubella vaccine, according to DSHS. The children were hospitalized for a time in Lubbock but have since been discharged.

The cases in Houston involved two unvaccinated adults who had recently traveled internationally.

DSHS has warned that additional cases may occur, given the highly contagious nature of measles. The virus is transmitted by contact with infectious droplets that travel airborne when an infected person breathes, coughs or sneezes. The virus can remain infectious in the air for up to two hours.

Measles can cause life-threatening illness to unvaccinated persons.

**More than 20 bills filed to weaken vaccine requirements**

More than 20 bills have been filed for this legislative session that aim to claw back vaccine requirements, *The Tribune* reported. The proposed legislation would make it easier for parents to opt out of vaccinations for their children; give the Legislature final approval on any new vaccinations required by schools; apply more rules for dispensing the COVID-19 vaccination; and demand more transparency regarding possible adverse effects of vaccines.

The founder of Texans for Vaccine Choice, Rebecca Hardy, said her group is not anti-vaccine.

“We’re not here to restrict anybody’s access to vaccines or to dismantle the vaccine program,” she said. “So, we do not take a stance on if children should get all, some or no vaccines.”

Carrie Williams, a spokesperson for the Texas Hospital Association, said vaccines have become politicized and their importance overlooked because of their efficacy.

“Vaccine decisions impact the availability of care, hospital work-force and wait times, and the people around you,” she said. “We’re always going to be on the side of policies that help prevent epidemics.”

**Data centers are booming across Texas**

The Lone Star State is “ground zero” for the boom in data centers to meet growing demand, including a new joint venture between OpenAI, SoftBank and Oracle announced recently by President Trump.

The *Texas Standard* reported 10 data centers are already under construction, with 10 more on the way. Each building will occupy half a million square feet.

“The demand for digital services continues to increase and continues to be necessary to build out our capabilities for the 21st century economy,” said Dan Diorio, senior director of state policy at the Data Center Coalition, an industry trade group. “Texas is uniquely poised to benefit from that.”

The expansion, along with population growth and more frequent extreme weather events, could stretch the capacity of the state’s power grid. Officials with the Electric Reliability Council of Texas (ERCOT) pre-

dict power demand will nearly double by 2030. A growing number of crypto mining facilities is also contributing to the demand for more power.

The state had 279 data centers as of September, according to the state comptroller’s office.

**State’s population now surpasses 31 million**

For the past two years, Texas has gained an average of 1,542 residents each day, according to the Texas Demographic

Center. The U.S. Census Bureau now estimates the state surpassed 31 million residents in 2024, driven largely by international migration.

For example, of those 1,542 new daily residents, 876 were from international migration, the

report showed.

“These figures highlight the state’s position as a key destination for global migrants, as well as its continued appeal to those relocating from other parts of the United States,” according to the report.

**TCEQ Docket No. 2023-1586-AGR**  
**TPDES Permit No. WQ0005387000**

**APPLICATION.**

Peter Henry Schouten, Sr. and Nova Darlene Schouten, 3728 County Road 229, Hico, Texas 76457 have applied to the Texas Commission on Environmental Quality (TCEQ) for a new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0005387000, for a Concentrated Animal Feeding Operation (CAFO), to authorize the applicant to confine 2,000 head of dairy heifers. The location of this proposed operation was previously permitted as a State-only dairy cattle facility with 480 head, all of which were milking cows, under the CAFO individual permit with Permit Number WQ0003656000. The permit was canceled on October 12, 2021. TCEQ received this application on May 12, 2022.

The facility is located on the north side of State Highway 6 on County Road 2495 which is approximately 5.5 miles east of the intersection of State Highway 6 and US Highway 281, in Bosque County, Texas. The facility is located in the drainage area of the North Bosque River in Segment No. 1226 of the Brazos River Basin. This link to an electronic map of the site or facility’s general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

<https://gisweb.tceq.texas.gov/LocationMapper/?marker=-97.949722,31.983055&level=18>

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. This permit is consistent with the requirements of the antidegradation implementation procedures in 30 Texas Administrative Code §307.5 (c)(2)(G) of the Texas Surface Water Quality Standards and no lowering of water quality is anticipated. The TCEQ Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director’s Preliminary Decision, and draft permit are available for viewing and copying at the Bosque County Extension Office, 104 S Fuller Street, Meridian, Texas.
