RE: Initial Application for Backflow Prevention Assembly Tester License - First Notice

Dear Mr. Brown:

The Executive Director (ED) of the Texas Commission on Environmental Quality (TCEQ) received your Backflow Prevention Assembly Tester license application in September 2023. As part of the application review process, the ED is required to review an applicant's criminal history. The review was conducted in accordance with guidelines established by 30 Texas Administrative Code (TAC) Section (§) 30.35. The review of your application revealed that you received a Class-B Misdemeanor in 2002, three Class-A Misdemeanors in 2004, a State Jail Felony in 2005, a Class-A Misdemeanor and a State Jail Felony in 2006, a Third-Degree Felony in 2011, and deferred adjudication for a Class-A Misdemeanor in 2022.

The ED intends to deny your Backflow Prevention Assembly Tester license application because you have been convicted of and she considers you to have been convicted of offenses that directly relate to the license as referenced in Texas Occupations Code (TOC) § 53.021(a)(1). The ED also considered the factors in TOC §§ 53.022 and 53.023 and this decision was based on the nature and seriousness of the crimes, the relationship of the crimes to the purposes for requiring a license to engage in the occupation, the opportunity the license may offer to engage in further criminal activity of the same type as that in which you were previously involved, the extent and nature of your past criminal activity, your age when the crimes were committed, the amount of time that has elapsed since your last criminal activity, and the fact that you have not completed supervision and are scheduled to complete court supervision in October 2023.

It is the applicant's responsibility to provide to TCEQ evidence regarding the factors listed in TOC § 53.023(a):

- The context (extent and nature) behind the events that led to the convictions listed in your criminal history record;
- Your conduct and work activity before and after the criminal activity;
- Evidence of your rehabilitation or rehabilitative effort while incarcerated or after release;

TCEQ must consider any correlation between the elements of the crime and the specific duties of the licensed occupation to determine whether a conviction directly relates to the license. In determining whether your criminal conviction directly relates to the duties and responsibilities of the licensed occupation, the ED considered the following factors:

- the nature and seriousness of the crime;
- the relationship of the crime to the purposes for requiring a license to engage in the occupation;
- the extent to which a license might offer an opportunity to engage in further criminal activity of the same type as that in which the person previously had been involved;
- the relationship of the crime to the ability, capacity required to perform the duties and discharge the responsibilities of the licensed occupation;
- any correlation between the elements of the crime and the duties and responsibilities of the licensed occupation

You may submit additional relevant information for the ED to consider to the address below, within 30 days of this letter, including but not limited to any evidence relating to any rehabilitation efforts you may have undergone while incarcerated, or after release, and any evidence of compliance with conditions of community supervision, parole, or mandatory supervision, in accordance with TOC § 53.023.
