- Instructions for Notice of Hearing
- Affidavit of Publication

Please note that it is VERY IMPORTANT that you follow ALL directions in the ENCLOSED INSTRUCTIONS. If you do not, you may be required to republish the notice. One of the most common mistakes we see is the unauthorized changing of notice wording or font. If you have any questions, please contact us before you proceed with publication.

The following items and time limitations are also described in the enclosed instructions. However, due to their importance, we want to highlight them for you.

1. Publish the enclosed notice within at least **30 calendar days** prior to the date of the hearing.

As required by 30 TAC § 80.118(c), the TCEQ Office of the Chief Clerk (OCC) will provide the administrative record to SOAH, and will retain one copy for its files. In addition, one copy of the administrative record will be provided to you by the OCC on CD. Neither SOAH nor TCEQ is responsible for providing additional copies to the parties. However, the OCC can provide copies upon request.

The administrative record is not in evidence until properly offered by motion of a party, and subsequently admitted by the Administrative Law Judge, pursuant to 30 TAC § 80.127(h). The party seeking admission of the administrative record must supply copies to the other parties in the proceeding at the time it is offered, or by agreement of the parties.

APPLICATION.

Blizexas, LLC, 258 Union Avenue, Los Gatos, California 95032, has applied to the Texas Commission on Environmental Quality (TCEQ) for a new permit, TCEQ Permit No. WQ0016111001, to authorize the disposal of treated domestic wastewater at a daily average flow not to exceed 12,000 gallons per day via subsurface drip irrigation system with a minimum area of 2.75 acres of public access land. This permit will not authorize a discharge of pollutants into water in the state.

The wastewater treatment facility and disposal site will be located approximately 0.25 mile east of the intersection of Crumley Ranch Road and Fitzhugh Road, in Hays County, Texas 78737. The wastewater treatment facility and disposal site will be located in the drainage basin of Barton Creek in Segment No. 1430 of the Colorado River Basin. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.

to be the standard in the United States.

Companies that will adopt the charging standard in 2024 include Hyundai, Kia and Mercedes-Benz. Companies that are expected to do the same in 2025 include Genesis, General Motors, Ford, Honda, Nissan, Polestar/Volvo, Jaguar, BMW, Subaru, Toyota, Rivian and Lucid.

Giga Mexico might scale up

The company confirmed it would

build its fifth manufacturing facility in Mexico earlier this year during Tesla Investor Day. The new facility is expected to complement other gigafactories, including Austin's. But on an October call with investors, Musk tempered expectations for the facility, and it's unclear how long it could be before it is up and running.

"In Mexico, we're laying the groundwork to begin construction and doing all the long lead items, but I think we want to just get a sense for what the global economy is like, before we go full tilt on the Mexico factory," Musk said.

Musk's other ventures in Austin

In recent years, Musk has moved or expanded a number of his entities into Central Texas besides Tesla. This includes the Boring Co., which is headquartered in the Austin area, and it recently was joined by a convenience store, the Boring Bodega. Neuralink and SpaceX also both have significant presences in the region.

Musk's newest expansion move in the region could include opening schools and eventually a university in Austin focused on science, technology, engineering and math subjects. It's unclear if or when the school would open, but tax filings show it would start with about 50 students, with plans to scale over time.

AVISO DE REUNIÓN PÚBLICA PARA EL PERMISO TPDES PARA AGUAS RESIDUALES MUNICIPALES

NUEVO

PERMISO N° W00016210001

SOLICITUD. Atlanta WKA Beshop, LLC, 2121 Midway Road, Suite 320, Carrollton, Texas 75006, ha solicitado a la Comisión de Calidad Ambiental de Texas (TCEQ, por sus siglas en inglés) un nuevo Permiso N° W00016210001, autorizar la descarga de aguas residuales domésticas tratadas con un caudal promedio diario que no exceda los 300,000 galones por día. La TCEQ recibió esta solicitud el 29 de agosto del 2022.

La instalación estará ubicada aproximadamente a 826 pies al suroeste de la intersección de Orchard Road y State Highway 71 West, en el Condado de Beshop, Texas 78612. El efuente tratado se descargará en una zanja sinuosa hecha por el hombre, de allí a un afluente sin nombre, de allí a Dry Creek, de allí al Río Colorado debajo del lago Lady Bird en el segmento N° 1428 de la cuenca del Río Colorado. Los usos no clasificados del agua receptora son el uso mínimo de vida acuática para la sinuosa zanja artificial, y el uso limitado de vida acuática para el afluente sin nombre y Dry Creek. Los usos designados para el Segmento N° 1428 son la recreación de contacto, primero, el suministro público de agua y el uso recreacional de la vida acuática. De acuerdo con la Sección 307.5 del Título 30 del Código Administrativo de Texas y los Procedimientos para implementar los Estándares de Calidad del Agua Superficial de Texas (junio del 2010), se realizó una revisión antidegradación de las aguas receptoras. Una revisión antidegradación de Nivel 1 ha determinado preliminarmente que los usos existentes de la calidad del agua no se verán afectados por esta acción de permiso. Se mantendrán los criterios numéricos y descriptivos para proteger los usos existentes. Esta revisión ha determinado preliminarmente que no hay cuerpos de agua con usos excepcionales, altos o intermedios de vida acuática dentro del tramo de trazo evaluado; por lo tanto, no se requiere ninguna determinación de degradación de nivel 2. No se espera una degradación significativa de la calidad del agua en los cuerpos de agua con usos excepcionales, altos o intermedios de la vida acuática aguas abajo, y los usos existentes se mantendrán y protegerán. La determinación preliminar puede ser reasignada y puede ser modificada si se recibe nueva información. NEW

PROPOSED PERMIT NO. WQ0016111001

APPLICATION. Blizexas, LLC, 258 Union Avenue, Los Gatos, California 95032, has applied to the Texas Commission on Environmental Quality (TCEQ) for a new permit, proposed TCEQ Permit No. WQ0016111001, to authorize the disposal of treated domestic wastewater at a daily average flow not to exceed 12,000 gallons per day via subsurface drip irrigation system with a minimum area of 2.75 acres of public access land. This permit will not authorize a discharge of pollutants into water in the state. TCEQ received this application on February 17, 2022.

The wastewater treatment facility and disposal site will be located approximately 0.25 mile east of the intersection of Crumley Ranch Road and Fitzhugh Road, in Hays County, Texas 78737. The wastewater treatment facility and disposal site will be located in the drainage basin of Barton Creek in Segment No. 1430 of the Colorado River Basin. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements.

PUBLIC COMMENT / PUBLIC MEETING. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application,

members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

The Public Meeting is to be held:

The Executive Director has determined that a public meeting should be held for your permit application. The Chief Clerk has issued mailed notice, and now you must publish notice of the meeting in a newspaper.

Newspaper Notice

Please publish the enclosed notice of public meeting, at your expense, in a newspaper that is regularly published or circulated within each county where the proposed facility is located and in each county affected by the discharge. **The entire notice must be published once, including all text from 'NOTICE OF PUBLIC MEETING . . . ' through the issued date. While it is not required, we recommend that the notice be at least 15 square inches (96.8 square centimeters), with the shortest dimension at least three inches (7.6 centimeters) in size.** Also, if feasible, we recommend that the notice be published in a regular section of the paper, rather than in the classified advertising section. Please publish the notice as soon as possible, but not later than 30 calendar days prior to the date of the public meeting.

Proof of Publication

Please submit an **original newspaper clipping** of the published notice, and a sworn affidavit completed by the newspaper giving the date on which the notice was published and listing the pertinent counties of newspaper circulation. The enclosed affidavit includes all the information needed. Therefore, please ask the newspaper to use this form. Please file the newspaper clipping and affidavit of publication with the Office of the Chief Clerk within 10 days after the notice is published.

Submission Requirements

The newspaper clipping and affidavit should be emailed to PROOFS@tceq.texas.gov or mailed to:

TCEQ
Office of the Chief Clerk, MC 105
P.O. Box 13087

Please send an original newspaper clipping, rather than photocopies. Also, please be sure the affidavit of publication is completely filled out and is properly executed.

Failure to Publish and Submit Proof of Publication

Proper notice of the public meeting must be given before the public meeting can be held. If you fail to publish the notice or submit the affidavit, we may have to postpone the public meeting, and delay issuance of your permit. Ultimately, your application could be returned. If your application is returned, and you wish to continue with your project, you will need to submit a new application.

If you are unable publish the notice according to the instructions above, please notify us immediately so that we may reschedule the public meeting.

Please Review the Notice

We have included in the notice all the information which we believe is necessary. Please read it carefully and notify us immediately if it contains any errors or omissions.

Please Attend the Public Meeting

PROPOSED PERMIT NO. WQ0016111001

APPLICATION AND PRELIMINARY DECISION. Blizexas, LLC, 258 Union Avenue, Los Gatos, California 95032, has applied to the Texas Commission on Environmental Quality (TCEQ) for a new permit, proposed TCEQ Permit No. WQ0016111001, to authorize the disposal of treated domestic wastewater at a daily average flow not to exceed 12,000 gallons per day via subsurface drip irrigation system with a minimum area of 2.75 acres of public access land. This permit will not authorize a discharge of pollutants into water in the state. TCEQ received this application on February 17, 2022.

This combined notice is being issued because the notices for this application were not originally issued in an alternative language.

The wastewater treatment facility and disposal site will be located approximately 0.25 mile east of the intersection of Crumley Ranch Road and Fitzhugh Road, in Hays County, Texas 78737. The wastewater treatment facility and disposal site will be located in the drainage basin of Barton Creek in Segment No. 1430 of the Colorado River Basin. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Dripping Springs Community Library, 501 Sportsplex Drive, Dripping Springs, Texas.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision.** A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

All written public comments and public meeting requests must be submitted to the Office of the Chief Clerk, MC 105, Texas Commission on Environmental Quality, P.O. Box 13087, Austin, TX 78711-3087 or electronically at www.tceq.texas.gov/goto/comment within 30 days from the date of newspaper publication of this notice.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Search the database using the permit number for this application, which is provided at the top of this notice.

Texas Commission on Environmental Quality

Instructions for Public Notice for a Water Quality Permit

Notice of Application and Preliminary Decision (NAPD)

The executive director has completed the technical review of your application and issued a preliminary decision. You must comply with the following instructions. There are seven (7) steps involved in publishing notice. Complete each step.

1. REVIEW THE NOTICE FOR ACCURACY

Read the enclosed notice carefully and notify the Wastewater Permitting Section at 512-239-4671 immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. Do not change the text or formatting of the notice or affidavit of publication without prior approval from the TCEQ. Changing the text or formatting of the notice may require new publication at your expense and delay processing of your application.

2. PUBLISH THE NOTICE IN THE NEWSPAPER

You must publish the enclosed notice as soon as possible, but no later than 45 days from the date on the cover letter.

For renewal applications, you must publish at least once in the same newspaper that you published the Notice of Receipt of Application and Intent to Obtain Permit.

For all other applications, you must publish at least once in a newspaper regularly published or circulated within each county where the facility and discharge point are located or proposed to be located.

The bold text of the enclosed notice must be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., bold, italics). Failure to do so may require re-notice.

3. PUBLISH THE NOTICE IN AN ALTERNATIVE LANGUAGE

You must publish notice in an alternative language IF: either the elementary or middle school nearest to the facility or proposed facility is required to provide a "bilingual education program" (BEP) as required by Texas Education Code (TEC), Chapter 29, Subchapter B, and 19 Tex. Admin. Code §89.1205(a) AND one of the following conditions is met:

- students are enrolled in a program at that school;
- students from that school attend a bilingual education program at another location; or
- the school that otherwise would be required to provide a bilingual education program has been granted an exception from the requirements to provide the program as provided for in 19 Tex. Admin. Code §89.1207(a).

A "bilingual education program" is different from an "English as a second language program" (ESL). An ESL program alone, will not require public notice in an alternative language.

If triggered, you must publish the notice in a newspaper or publication primarily published in the alternative language taught in the bilingual education program. Publication in an alternative language section or insert within a large publication which is not printed primarily in that alternative language does not satisfy these

requirements. The newspaper or publication must be of general circulation in the county in which the facility and discharge point are located or proposed to be located. If the facility and discharge point are located or proposed to be located in a municipality, and there exists a newspaper or publication of general circulation in the municipality, you must publish the notice only in the newspaper or publication in the municipality.

You must demonstrate a good faith effort to identify a newspaper or publication in the required language. If there is no general circulation newspaper or publication printed in such language, then publishing in that language is not required. You have the burden to demonstrate compliance with these requirements.

If you are required to publish notice in Spanish, you must translate the site-specific information in the notice that is specific to your application, at your own expense. You may then insert the Spanish translation of your site-specific information into a Spanish template developed by the TCEQ. The Spanish templates are available on the TCEQ website at www.tceq.texas.gov/permitting/wastewater/review/napd/wqspanish_napd.html. If you are required to publish notice in a language other than Spanish, you must translate the entire public notice, at your own expense.

4. PUT THE APPLICATION IN A PUBLIC PLACE

You must put a copy of the following documents in the public place identified in the enclosed notice:

- the complete application,
- the executive director's preliminary decision as contained in the technical summary and fact sheet,
- the draft permit, and
- any subsequent revisions to these documents.

This copy must be accessible to the public for review and copying beginning on the first day of newspaper publication and remain in place until the commission has taken action on the application or the commission refers issues to the State Office of Administrative Hearings.

For confidential information contained in the application, you must indicate which specific portions of the application cannot be made available to the public. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the TCEQ Public Information Coordinator, MC 197, P.O. Box 13087, Austin, Texas 78711-3087."

5. PROVIDE PROOF OF PUBLICATION

For each newspaper in which you published, you must submit proof of publication. Proof of publication must include the following:

- a completed Publisher's Affidavit (enclosed); and
- a copy of the published notice which shows the notice, the date published, and the newspaper name. The copy must be on standard-size 8½ x 11" paper and must show the actual size of the published notice. Do not reduce the image when making copies. Published notices longer than 11" must be

copied onto multiple 8½ x 11" pages. Or you can submit the original newspaper clipping.

If you are required to publish notice in an alternative language and are unable to do so, complete and submit the Alternative Language Exemption form (enclosed).

6. PROVIDE PROOF OF APPLICATION VIEWING LOCATION

You must submit a completed Public Notice Verification Form (enclosed), which certifies that the complete application and draft permit were placed at the public place identified in the enclosed notice.

7. SUBMIT PROOFS TO TCEQ

Scan and email the proof of publication documents (Step 5) and the completed Public Notice Verification Form (Step 6) within 30 days of publication to PROOFS@tceq.texas.gov;

Or Mail to:

TCEQ
Office of the Chief Clerk, MC 105
Attn: Notice Team
P.O. Box 13087
Austin, Texas 78711-3087

Additional Information

If you fail to publish the notice or submit proofs within the timeframes noted above, the TCEQ may suspend further processing on your application or take other actions in accordance with 30 Tex. Admin. Code §39.405(a).

If you have any questions regarding publication requirements, please contact the Office of Legal Services at 512-239-0600. If you have any questions regarding the content of the notice, please contact the Wastewater Permitting Section at 512-239-4671. NOTICE OF PUBLIC MEETING FOR WATER QUALITY LAND APPLICATION PERMIT FOR MUNICIPAL WASTEWATER

NEW

PROPOSED PERMIT NO. WQ0016111001

APPLICATION. Blizexas, LLC, 258 Union Avenue, Los Gatos, California 95032, has applied to the Texas Commission on Environmental Quality (TCEQ) for a new permit, proposed TCEQ Permit No. WQ0016111001, to authorize the disposal of treated domestic wastewater at a daily average flow not to exceed 12,000 gallons per day via subsurface drip irrigation system with a minimum area of 2.75 acres of public access land. This permit will not authorize a discharge of pollutants into water in the state.

The wastewater treatment facility and disposal site will be located approximately 0.25 mile east of the intersection of Crumley Ranch Road and Fitzhugh Road, in Hays County, Texas 78737. The wastewater treatment facility and disposal site will be located in the drainage basin of Barton Creek in Segment No. 1430 of the Colorado River Basin. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements.

A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. HCA puts on 2022 Hill Country Leadership Summit

Staff Reports

Last month, conservation leaders from across the Texas Hill Country met at The Hill at Jester King Brewery for the Hill Country Alliance's annual Leadership Summit.

The event brought together more than 250 attendees on Thursday, Sept. 29 — both online and in-person — to learn about conservation strategies, discuss complex natural resource challenges and solutions and connect with community leaders across the Hill Country. Attendees ranged from college students to professionals across the conservation, development and county government spaces.

Morning sessions began with a panel on storytelling, featuring Juan Martinez-Pineda from The Aspen Institute, Maria Rocha from the Indigenous Cultures Institute, Katy Baldoock from Fin & Fur Films and Vanessa Torres from The National Parks Service. The panel discussed the variety of perspectives each person brings to conservation, ways to engage new and changing audiences in the outdoors and the intrinsic ties between the natural world and cul-

ture. Rocha, an elder of the Mianan-Garza Band of the Coahuiltecan people, spoke to this connection. "According to archaeologists, our story goes back at least 14,000 years, but according to our people, it goes back to the very beginning," Rocha shared. "We are all living on sacred lands — this Hill Country, the springs, all throughout Texas... we're all now the stewards of that ancient story."

Rocha continued on to explain "Napako," the Coahuiltecan creation story, as well as the indigenous history behind the four great springs of Texas.

The opening panel was followed by a presentation from Judge Bella Rubio of Real County, who raised several issues impacting the western, less-populated, Hill Country counties.

"We have so much to offer, and we need to protect what we have," she said. Rubio also highlighted issues surrounding telecommunications, local business development, tourism and rivers running low during the drought.

Keynote speaker David Buggs, chief diversity and inclusion officer for the Texas Parks and Wild-

life Department, spoke on "Different Shades of Green," highlighting the needs to engage diverse audiences and to actively foster a sense of belonging in state parks, environmental work and conservation as a whole amid changing state demographics.

"Don't do anything for me without me," Buggs stressed, explaining how crucial it is to seek out new partners from historically excluded communities. "We need to share the bounty of this land as well as the responsibility of its stewardship."

Carolyn Chipman Evans, CEO of the Cibola Center for Conservation, and David Baker, founder and executive director of the Watershed Association and Art4Water, were honored with the Heart of the Hill Country Award to recognize and celebrate their work championing and stewarding the natural resources of the region. Chipman Evans and Baker have both spent decades working within their communities to preserve the Hill Country's unique resources and to educate and inspire others to do the same.

Afternoon sessions included a presentation on emerging research from

Angelica Lopez, Ph.D., a research scientist with Texas A&M University's Natural Resource Institute. Lopez presented the institute's recent research into water equity in the Hill Country, noting that the Natural Resource Institute created a data visualization tool (available on their website) which can be used to analyze land development, access to water and area demographics. In-person surveys involved in the research allowed researchers to hear the voices of people impacted by different forms of water inequity — in particular, flooding, water quality issues and a lack of access to safe drinking water, she added.

A panel on spring flows highlighted the state of springs in the Hill Country and steps communities can take to keep their springs flowing as demand on regional aquifers continues to rise. This panel was moderated by Vanessa Puig-Williams of

the Environmental Defense Fund (and current chair of the Hill Country Alliance Board of Directors) and featured Dr. Robert Mace, executive director of The Meadows Center for Water and the Environment, and Mitchell Sodek, general manager of the Central Texas Groundwater Conservation District. The panelists emphasized the importance of engaging with local Groundwater Conservation Districts and continuing to develop the science to better understand groundwater-surface water interactions.

A series of lightning-round talks preceded the final panel of the day: a conversation with regional elected officials, moderated by Hill Country Alliance Board member David Yeates. State Representative Erin Zwerner (Hays and Blanco Counties), Kendall County Commissioner Don Darden and Kimble County Judge-Elect Hal Rose

discussed their views on issues that span the Hill Country, focusing on growth, its challenges and the tools available for community planning. As Rose stated, "It starts at a local level... No elected official is ever going to agree with you on everything, but if you don't make your voice heard, they'll never start."

Jester King Brewery served as the 2022 Summit's signature sponsor and host. The full event was recorded and streamed live to online attendees across the Hill Country and beyond, thanks to the sponsorship of the Cynthia and George Mitchell Foundation. The first panel on storytelling is recorded and publicly available at <https://bit.ly/HCAStorytelling22>. Additional recordings will be shared through the Hill Country Alliance YouTube Channel and website at hillcountryalliance.org.

Blizexas, LLC, 258 Union Avenue, Los Gatos, California 95032, has applied to the Texas Commission on Environmental Quality (TCEQ) for a new permit, proposed TCEQ Permit No. WQ0016111001, to authorize the disposal of treated domestic wastewater at a daily average flow not to exceed 12,000 gallons per day via subsurface drip irrigation system with a minimum area of 2.75 acres of public access land. This permit will not authorize a discharge of pollutants into water in the state.

The wastewater treatment facility and disposal site will be located approximately 0.25 mile east of the intersection of Crumley Ranch Road and Fitzhugh Road, in Hays County, Texas 78737. The wastewater treatment facility and disposal site will be located in the drainage basin of Barton Creek in Segment No. 1430 of the Colorado River Basin. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements.

PUBLIC COMMENT / PUBLIC MEETING. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written

response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Instructions to Publish Notice for Public Meeting

The Executive Director has determined that a public meeting should be held for your permit application. The Chief Clerk has issued mailed notice, and now you must publish notice of the meeting in a newspaper.

Newspaper Notice

Please publish the enclosed notice of public meeting, at your expense, in a newspaper that is regularly published or circulated within each county where the proposed facility is located and in each county affected by the discharge. **The entire notice must be published once, including all text from 'NOTICE OF PUBLIC MEETING . . . ' through the issued date. While it is not required, we recommend that the notice be at least 15 square inches (96.8 square centimeters), with the shortest dimension at least three inches (7.6 centimeters) in size.** Also, if feasible, we recommend that the notice be published in a regular section of the paper, rather than in the classified advertising section. Please publish the notice as soon as possible, but not later than 30 calendar days prior to the date of the public meeting.

Proof of Publication

Please submit an **original newspaper clipping** of the published notice, and a sworn affidavit completed by the newspaper giving the date on which the notice was published and listing the pertinent counties of newspaper circulation. The enclosed affidavit includes all the information needed. Therefore, please ask the newspaper to use this form. Please file the newspaper clipping and affidavit of publication with the Office of the Chief Clerk within 10 days after the notice is published.

Submission Requirements

The newspaper clipping and affidavit should be mailed to:

TCEQ
Office of the Chief Clerk, MC 105
P.O. Box 13087
Austin, Texas 78711-3087

Please send an original newspaper clipping, rather than photocopies. Also, please be sure the affidavit of publication is completely filled out and is properly executed.

Failure to Publish and Submit Proof of Publication

Proper notice of the public meeting must be given before the public meeting can be held. If you fail to publish the notice or submit the affidavit, we may have to postpone the public meeting, and delay issuance of your permit. Ultimately, your application could be returned. If your application is returned, and you wish to continue with your project, you will need to submit a new application.

If you are unable publish the notice according to the instructions above, please notify us immediately so that we may reschedule the public meeting.

Please Review the Notice

We have included in the notice all the information which we believe is necessary. Please read it carefully and notify us immediately if it contains any errors or omissions.

Please Attend the Public Meeting

The Commission asks that you or your representative appear at the public meeting. Unless you are represented at the meeting, processing of your application may be suspended.

When contacting the Commission regarding this application, please refer to the permit number. If you have questions or need assistance regarding this notice, please contact the Office of the Chief Clerk at (512)239-3300.

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR WATER QUALITY LAND APPLICATION PERMIT FOR MUNICIPAL WASTEWATER

NEW

PROPOSED PERMIT NO. WQ0016111001

APPLICATION AND PRELIMINARY DECISION. Blizexas, LLC, 258 Union Avenue, Los Gatos, California 95032, has applied to the Texas Commission on Environmental Quality (TCEQ) for a new permit, proposed TCEQ Permit No. WQ0016111001, to authorize the disposal of treated domestic wastewater at a daily average flow not to exceed 12,000 gallons per day via subsurface drip irrigation system with a minimum area of 2.75 acres of public access land. This permit will not authorize a discharge of pollutants into water in the state. TCEQ received this application on February 17, 2022.

The wastewater treatment facility and disposal site will be located approximately 0.25 mile east of the intersection of Cramley Ranch Road and Fitzhugh Road, in Hays County, Texas 78737. The wastewater treatment facility and disposal site will be located in the drainage basin of Barton Creek in Segment No. 1430 of the Colorado River Basin. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Dripping Springs Community Library, 501 Sportsplex Drive, Dripping Springs, Texas.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. Texas Commission on Environmental Quality

Instructions for Public Notice for a Water Quality Permit

Notice of Application and Preliminary Decision (NAPD)

The executive director has completed the technical review of your application and issued a preliminary decision. You must comply with the following instructions. There are seven (7) steps involved in publishing notice. Complete each step.

1. REVIEW THE NOTICE FOR ACCURACY

Read the enclosed notice carefully and notify the Wastewater Permitting Section at 512-239-4671 immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. Do not change the text or formatting of the notice or affidavit of publication without prior approval from the TCEQ. Changing the text or formatting of the notice may require new publication at your expense and delay processing of your application.

2. PUBLISH THE NOTICE IN THE NEWSPAPER

You must publish the enclosed notice as soon as possible, but no later than 45 days from the date on the cover letter.

For renewal applications, you must publish at least once in the same newspaper that you published the Notice of Receipt of Application and Intent to Obtain Permit.

For all other applications, you must publish at least once in a newspaper regularly published or circulated within each county where the facility and discharge point are located or proposed to be located.

The bold text of the enclosed notice must be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., bold, italics). Failure to do so may require re-notice.

3. PUBLISH THE NOTICE IN AN ALTERNATIVE LANGUAGE

You must publish notice in an alternative language IF: either the elementary or middle school nearest to the facility or proposed facility is required to provide a "bilingual education program" (BEP) as required by Texas Education Code (TEC), Chapter 29, Subchapter B, and 19 Tex. Admin. Code §89.1205(a) AND one of the following conditions is met:

- students are enrolled in a program at that school;
- students from that school attend a bilingual education program at another location; or
- the school that otherwise would be required to provide a bilingual education program has been granted an exception from the requirements to provide the program as provided for in 19 Tex. Admin. Code §89.1207(a).

A "bilingual education program" is different from an "English as a second language program" (ESL). An ESL program alone, will not require public notice in an alternative language.

If triggered, you must publish the notice in a newspaper or publication primarily published in the alternative language taught in the bilingual education program. Publication in an alternative language section or insert within a large publication which is not printed primarily in that alternative language does not satisfy these

requirements. The newspaper or publication must be of general circulation in the county in which the facility and discharge point are located or proposed to be located. If the facility and discharge point are located or proposed to be located in a municipality, and there exists a newspaper or publication of general circulation in the municipality, you must publish the notice only in the newspaper or publication in the municipality.

You must demonstrate a good faith effort to identify a newspaper or publication in the required language. If there is no general circulation newspaper or publication printed in such language, then publishing in that language is not required. You have the burden to demonstrate compliance with these requirements.

If you are required to publish notice in Spanish, you must translate the site-specific information in the notice that is specific to your application, at your own expense. You may then insert the Spanish translation of your site-specific information into a Spanish template developed by the TCEQ. The Spanish templates are available on the TCEQ website at

www.tceq.texas.gov/permitting/wastewater/review/napd/wqspanish_napd.html. If you are required to publish notice in a language other than Spanish, you must translate the entire public notice, at your own expense.

4. PUT THE APPLICATION IN A PUBLIC PLACE

You must put a copy of the following documents in the public place identified in the enclosed notice:

- the complete application,
- the executive director's preliminary decision as contained in the technical summary and fact sheet,
- the draft permit, and
- any subsequent revisions to these documents.

This copy must be accessible to the public for review and copying beginning on the first day of newspaper publication and remain in place until the commission has taken action on the application or the commission refers issues to the State Office of Administrative Hearings.

For confidential information contained in the application, you must indicate which specific portions of the application cannot be made available to the public. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the TCEQ Public Information Coordinator, MC 197, P.O. Box 13087, Austin, Texas 78711-3087."

5. PROVIDE PROOF OF PUBLICATION

For each newspaper in which you published, you must submit proof of publication. Proof of publication must include the following:

- a completed Publisher's Affidavit (enclosed); and
- a copy of the published notice which shows the notice, the date published, and the newspaper name. The copy must be on standard-size 8½ x 11" paper and must show the actual size of the published notice. Do not reduce the image when making copies. Published notices longer than 11" must be

copied onto multiple 8½ x 11" pages. Or you can submit the original newspaper clipping.

If you are required to publish notice in an alternative language and are unable to do so, complete and submit the Alternative Language Exemption form (enclosed).

6. PROVIDE PROOF OF APPLICATION VIEWING LOCATION

You must submit a completed Public Notice Verification Form (enclosed), which certifies that the complete application and draft permit were placed at the public place identified in the enclosed notice.

7. SUBMIT PROOFS TO TCEQ

Scan and email the proof of publication documents (Step 5) and the completed Public Notice Verification Form (Step 6) within 30 days of publication to PROOFS@tceq.texas.gov;

Or Mail to:

TCEQ
Office of the Chief Clerk, MC 105
Attn: Notice Team
P.O. Box 13087
Austin, Texas 78711-3087

Additional Information

If you fail to publish the notice or submit proofs within the timeframes noted above, the TCEQ may suspend further processing on your application or take other actions in accordance with 30 Tex. Admin. Code §39.405(a).

If you have any questions regarding publication requirements, please contact the Office of Legal Services at 512-239-0600. If you have any questions regarding the content of the notice, please contact the Wastewater Permitting Section at 512-239-4671. The wastewater treatment facility and disposal site will be located in the drainage basin of Barton Creek in Segment No. 1430 of the Colorado River Basin. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.

<https://tceq.maps.arcgis.com/apps/webappviewer/index.html?id=db5bac44afbc468bbddd360f8168250f&marker=-98.025555%2C30.245555&level=12>

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Dripping Springs Community Library, 501 Sportsplex Drive, Dripping Springs, Texas.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision.** A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

All written public comments and public meeting requests must be submitted to the Office of the Chief Clerk, MC 105, Texas Commission on Environmental Quality, P.O. Box 13087, Austin, TX 78711-3087 or electronically at www.tceq.texas.gov/goto/comment within 30 days from the date of newspaper publication of this notice.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Search the database using the permit number for this application, which is provided at the top of this notice.

AGENCY CONTACTS AND INFORMATION. Public comments and requests must be submitted either electronically at www.tceq.texas.gov/goto/comment, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC 105, P.O. Box 13087, Austin, Texas 78711-3087. Any personal information you submit to the TCEQ will become part of the agency's record; this includes email addresses. BUSINESS, from page 5

we were here.

Since the start of our business, we give a percentage of our monthly proceeds to St. Vincent de Paul, which is an organization located at the Catholic Church but not funded by the church. Money and perishable food items are collected from donations received from parishioners. The organization uses the money and food to help those in the Kyle community who are in need with payments with utilities, and food. This organization helps anyone, regardless of religious affiliations or denominations.

Thanksgiving Turkeys and fixings are provided to some families who apply. At the end of every year the families with children that were visited during each year are kept on a list and the family and children are invited to a Christmas meal with Santa and the children are given gifts. We love being able to help our community in this way, it is a special way to give back.

TEXAS INDEPENDENT AUTO GLASS - KYLE

The challenges I face are having folks supporting and trusting a small glass

hit. We really had to get creative and come up with new ways to not only help the community feel some type of "normalcy," but also keep our business up and running. Till this day, we are still learning the ropes of having a small business.

We support other local businesses in our community by sharing with our customers other local business information so that those businesses can grow. Our team also volunteers at the end of the year with Brown Santa wrapping and delivering gifts to family members for Christmas. We also do many collaborations with other local small business hosting giveaways throughout the year. This allows small businesses to interact with the community and grow.

When the community shops locally, that is great support in itself. This allows small businesses to build rapport with our community along with building relationships. When providing phenomenal customer service, our community will share small business information with other individuals.

ALL WEATHER RESTORATION - KYLE

During Covid, cash flow was a real problem

practice, we chose to build new. You can imagine the excitement in those early days when we reached 25 patients per week - oh the days of small beginnings.

A unique challenge we had was that we are a self-financed, family-owned and operated business. We all brought different knowledge about business, administration, and

chiropractic medicine, but were really in uncharted territory. Kyle was still a relatively small community and while learning and growing, we had to establish ourselves as a trusted community partner. Another challenge we faced was, although we are a small business, we did not want to allow finances to drive patient

care. Our goal has always been to keep the lights on but keep our services affordable and accessible.

Although not unique to our business, the covid pandemic brought new challenges. One of the most rewarding was that we really became a safe haven for our patients. Dr. Lain is someone that our patients trust not only with

their health care, but also with their struggles and celebrations.

The Kyle community is amazing. I feel extremely supported by other businesses as well as the community in general. In many ways, I feel like the community is locking arms and venturing into exciting times ahead as we grow and prosper.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY**NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN WATER QUALITY PERMIT****PROPOSED PERMIT NO. WQ0016111001**

35555%2C30.245555&level=12

ADDITIONAL NOTICE. TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. **Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.**

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing.** A contested case hearing is a legal proceeding similar to a civil trial in state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and, the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.**

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

Hi Erin,

The ARP Team does not handle any forms for publications, other than the new Title VI requirements, so I have copied our Office of Chief's Clerk (OCC) and PROOFS, where publication documents are to be sent as stated in the instructions.

I believe OCC requires the original signed documents, but they will let you know for sure.

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN WATER QUALITY PERMIT

PROPOSED PERMIT NO. WQ0016111001

APPLICATION. Blizexas, LLC, 258 Union Avenue, Los Gatos, California 95032, has applied to the Texas Commission on Environmental Quality (TCEQ) for proposed Texas Land Application Permit (TLAP) No. WQ0016111001 to authorize the disposal of treated wastewater at a volume not to exceed a daily average flow of 12,000 gallons per day via subsurface drip irrigation system of 2.75 acres. The domestic wastewater treatment facility and disposal area are located approximately 0.25 mile east of the intersection of Crumley Ranch Road and Fitzhugh Road, in Hays County, Texas 78737. TCEQ received this application on February 17, 2022. The permit application is available for viewing and copying at Dripping Springs Community Library, 501 Sportsplex Drive, Dripping Springs, Texas. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For the exact location, refer to the application.

ADDITIONAL NOTICE. TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. **Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.**

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision**

and for requesting a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and, the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.**

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Search the database using the permit number for this application, which is provided at the top of this notice.

1. Publish the enclosed notice within **30 calendar days** after your application is declared administratively complete. Texas Commission on Environmental Quality
Instructions for Public Notice for a Water Quality Permit
Notice of Receipt of Application and Intent to Obtain Permit (NORI)

Your application has been declared administratively complete. You must comply with the following instructions. There are seven (7) steps involved in publishing notice. Complete each step.

1. REVIEW THE NOTICE FOR ACCURACY

Read the enclosed notice carefully and notify the Application Review and Processing Team at 512-239-4671 immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. Do not change the text or formatting of the notice or affidavit of publication without prior approval from the TCEQ. Changing the text or formatting of the notice may require new publication at your expense and delay processing of your application.

2. PUBLISH THE NOTICE IN THE NEWSPAPER

You must publish the enclosed notice within 30 days after the date of administrative completeness. Refer to the cover letter for the date of administrative completeness.

You must publish the enclosed notice at your expense, at least once in the newspaper of largest circulation within each county where the facility and discharge point are located or will be located. If the facility and discharge point are located or will be located in a municipality, the enclosed notice must be published at least once in a newspaper of general circulation in the municipality. These requirements may be satisfied by one publication if the newspaper meets all of the above requirements.

The bold text of the enclosed notice must be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., bold, italics). Failure to do so may require re-notice.

3. PUBLISH THE NOTICE IN AN ALTERNATIVE LANGUAGE

You must publish notice in an alternative language IF: either the elementary or middle school nearest to the facility or proposed facility is required to provide a "bilingual education program" (BEP) as required by Texas Education Code (TEC), Chapter 29, Subchapter B, and 19 Tex. Admin. Code §89.1205(a) AND one of the following conditions is met:

- students are enrolled in a program at that school;
- students from that school attend a bilingual education program at another location; or
- the school that otherwise would be required to provide a bilingual education program has been granted an exception from the requirements to provide the program as provided for in 19 Tex. Admin. Code §89.1207(a).

A "bilingual education program" is different from an "English as a second language program" (ESL). An ESL program alone, will not require public notice in an alternative language.

If triggered, you must publish the notice in a newspaper or publication primarily published in the alternative language taught in the bilingual education program. Publication in an alternative language section or insert within a large publication which is not printed primarily in that alternative language does not satisfy these requirements. The newspaper or publication must be of general circulation in the county in which the facility and discharge point are located or proposed to be located. If the facility and discharge point are located or proposed to be located in a municipality, and there exists a newspaper or publication of general circulation in the municipality, you must publish the notice only in the newspaper or publication in the municipality.

You must demonstrate a good faith effort to identify a newspaper or publication in the required language. If there is no general circulation newspaper or publication printed in such language, then publishing in that language is not required. You have the burden to demonstrate compliance with these requirements.

If you are required to publish notice in Spanish, you must translate the site-specific information in the notice that is specific to your application, at your own expense. You may then insert the Spanish translation of your site-specific information into a Spanish template developed by the TCEQ. The Spanish templates are available on the TCEQ website at

http://www.tceq.texas.gov/permitting/wastewater/review/wqspanish_nori.html. If you are required to publish notice in a language other than Spanish, you must translate the entire public notice, at your own expense.

4. PUT THE APPLICATION IN A PUBLIC PLACE

You must put a copy of the administratively complete application in the public place identified in the enclosed notice.

This copy must be accessible to the public for review and copying beginning on the first day of newspaper publication and remain in place for the publication's designated comment period.

During the technical review, you must update the publicly available application so that it includes all application revisions within 10 business days from the date the revision is transmitted to the TCEQ.

For confidential information contained in the application, you must indicate which specific portions of the application cannot be made available to the public. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the TCEQ Public Information Coordinator, MC 197, P.O. Box 13087, Austin, Texas 78711-3087."

5. PROVIDE PROOF OF PUBLICATION

For each newspaper in which you published, you must submit proof of publication. Proof of publication must include the following:

- a completed Publisher's Affidavit (enclosed); and
- a copy of the published notice which shows the notice, the date published, and the newspaper name. The copy must be on standard-size 8½ x 11" paper and must show the actual size of the published notice. Do not reduce the

image when making copies. Published notices longer than 11" must be copied onto multiple 8½ x 11" pages. Or you can submit the original newspaper clipping.

If you are required to publish notice in an alternative language and are unable to do so, complete and submit the Alternative Language Exemption form (enclosed).

6. PROVIDE PROOF OF APPLICATION VIEWING LOCATION

You must submit a completed Public Notice Verification Form (enclosed) which certifies that the administratively complete application was placed at the public place identified in the enclosed notice.

7. SUBMIT PROOFS TO TCEQ

The proof of publication documents (Step 5) and the completed Public Notice Verification Form (Step 6) must be submitted to TCEQ within 30 days of publication.

By email to: PROOFS@tceq.texas.gov

OR by mail at:

TCEQ

Office of the Chief Clerk, MC 105

Attn: Notice Team

P.O. Box 13087

Austin, Texas 78711-3087

NOTE: If proofs are submitted by email, you do not have to mail in the original documents.

Additional Information

If you fail to publish the notice or submit proofs within the timeframes noted above, the TCEQ may suspend further processing on your application or take other actions in accordance with 30 Tex. Admin. Code §39.405(a).

If you have any questions regarding publication requirements, please contact the Office of Legal Services at 512-239-0600. If you have any questions regarding the content of the notice, please contact the Wastewater Permitting Section at 512-239-4671. When contacting TCEQ regarding this application, please refer to the permit number at the top of the enclosed notice.

If you wish to obtain an electronic copy of the notice, please visit our web site at http://www.tceq.texas.gov/agency/cc/cc_db.html or <http://www.tceq.texas.gov/agency/cc/eda.html>.
