Subject: Appeal of Denial – Class D Water License Application

Dear Licensing and Registration Division,

I am writing to formally appeal the recent denial of my application for a Class D Water Operator License and request a contested case hearing. I will be respectfully requesting that the Texas Commission on Environmental Quality reconsider its decision after review of all the information to be presented during the appeal process.

As indicated in the notice I received, my application was declined due to concerns related to my criminal background. I respectfully wish to address this matter and offer further context that I believe demonstrates my rehabilitation and sincere commitment to being a productive citizen.

I appreciate TCEQ's role in maintaining high standards for water system operators and fully respect the licensing process. I hope that through the review process of this appeal you will find sufficient grounds to reconsider my application.

Thank you for your time and attention to this matter. I am available at your convenience to provide any additional information or clarification.

Sincerely,

Scotty Mack
