**NOTICE OF HEARING
GREEN VALLEY SPECIAL UTILITY DISTRICT
SOAH Docket No. 582-22-2394
TCEQ Docket No. 2022-0091-MWD
Permit No. WQ0015917001**

APPLICATION.

Green Valley Special Utility District, P.O. Box 99, Marion, Texas 78124, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0015917001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 400,000 gallons per day. TCEQ received this application on August 31, 2020.

The facility will be located at 4060 Stapper Rd., Saint Hedwig, in Bexar County, Texas 78152. The treated effluent will be discharged to Womans Hollow Creek, thence to Martinez Creek, thence to the Lower Cibolo Creek in Segment No. 1902 of the San Antonio River Basin. The unclassified receiving water use is limited aquatic life use for Womans Hollow Creek. The designated uses for Segment No. 1902 are primary contact recreation and high aquatic life use. In accordance with 30 Texas Administrative Code (TAC), Section 307.5 and the TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. This review has preliminarily determined that no water bodies with exceptional, high, or intermediate aquatic life uses are present within the stream reach assessed; therefore, no Tier 2 degradation determination is required. No significant degradation of water quality is expected in water bodies with exceptional, high, or intermediate aquatic life uses downstream, and existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. As a public courtesy, we have provided the following Web page to an online map of the site or the facility's general location. The online map is not part of the application or the notice:

The TCEQ Executive Director has prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary

decision, and draft permit are available for viewing and copying at St. Hedwig City Hall, 13065 Farm-to-Market Road 1346, St. Hedwig, Texas.

The hearing will address the disputed issues of fact identified in the TCEQ order concerning this application issued on February 28, 2022. In addition to these issues, the judge may consider additional issues if certain factors are met.

The hearing will be conducted in accordance with Chapter 2001, Texas Government Code; Chapter 26, Texas Water Code; and the procedural rules of the TCEQ and SOAH, including 30 TAC Chapter 80 and 1 TAC Chapter 155. The hearing will be held unless all timely hearing requests have been withdrawn or denied.
