NOTICE OF HEARING
Rattler Ridge, LLC
SOAH Docket No. 582-23-07913
TCEQ Docket No. 2022-1046-MWD
Permit No. WQ0016049001

APPLICATION.

Rattler Ridge, LLC, 1067 Farm-to-Market Road 306, Suite 106, New Braunfels, Texas 78130, has applied to the Texas Commission on Environmental Quality (TCEQ) for a new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016049001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 400,000 gallons per day.

The facility will be located approximately 7,656 feet southeast of the intersection of Farm-to-Market Road 1978 and State Highway 123, in Guadalupe County, Texas 78666. The treated effluent will be discharged to an onsite pond, thence to an unnamed tributary, thence to Long Creek, thence to an unnamed impoundment, thence to Long Creek, thence to York Creek, thence to the Lower San Marcos River in Segment No. 1808 of the Guadalupe River Basin. The unclassified receiving water uses are limited aquatic life use for the onsite pond, the unnamed tributary, and for Long Creek; and high aquatic life use for the unnamed reservoir. The designated uses for Segment No. 1808 are primary contact recreation, public water supply, and high aquatic life use. In accordance with 30 Texas Administrative Code Section 307.5 and the TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in the unnamed reservoir, which has been identified as having high aquatic life use. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary

decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Seguin Public Library, 313 West Nolte Street, Seguin, Texas.
