**NOTICE OF HEARING**  
**SJWTX, Inc. and Mary Jane Cielencki**  
**SOAH Docket No. 582-23-17418**  
**TCEQ Docket No. 2023-0120-MWD**  
**Permit No. WQ0016052001**

**APPLICATION.**

SJWTX, Inc. and Mary Jane Cielencki, P.O. Box 1742, Canyon Lake, Texas 78133, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016052001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 260,000 gallons per day.

The facility will be located approximately 0.25 miles northwest of the intersection of Rebecca Creek Road and U.S. Highway 281 North, in Comal County, Texas 78070. The treated effluent will be discharged via pipe to Cypress Creek, thence to the Guadalupe River Above Canyon Lake in Segment No. 1806 of the Guadalupe River Basin. The unclassified receiving water use is limited aquatic life use for Cypress Creek. The designated uses for Segment No. 1806 are primary contact recreation, public water supply, aquifer protection, and exceptional aquatic life use.

In accordance with 30 Texas Administrative Code §307.5 and the TCEQ implementation procedures (June 2010) for the Texas Surface Water Quality Standards, an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. This review has preliminarily determined that no water bodies with exceptional, high, or intermediate aquatic life uses are present within the stream reach assessed; therefore, no Tier 2 degradation determination is required. No significant degradation of water quality is expected in water bodies with exceptional, high, or intermediate aquatic life uses downstream, and existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary

decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Mammen Family Public Library, Circulation Desk, 131 Bulverde Crossing, Bulverde, Texas.
