**NOTICE OF HEARING**  
**HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 171**  
**SOAH Docket No. 582-23-19994**  
**TCEQ Docket No. 2023-0325-MWD**  
**Permit No. WQ0015264001**

**APPLICATION.**

Harris County Municipal Utility District No. 171, c/o Allen Boone Humphries Robinson L.L.P., Rachel Wooten, 3200 Southwest Freeway, Suite 2600, Houston, Texas 77027, has applied to the Texas Commission on Environmental Quality (TCEQ) for a major amendment to Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0015264001, to authorize an increase in the discharge of treated domestic wastewater from an annual average flow not to exceed 1,000,000 gallons per day to an annual average flow not to exceed 3,000,000 gallons per day.

The facility is located approximately 3,000 feet southwest of the intersection of Beckendorf Road and Peek Road, in Harris County, Texas 77493. The treated effluent is discharged to a detention basin, thence to Harris County Flood Control District (HCFCD) ditch U101-00-00 (South Mayde Creek), thence to Buffalo Bayou Above Tidal in Segment No. 1014 of the San Jacinto River Basin. The unclassified receiving water uses are limited aquatic life use for the detention basin, and minimal aquatic life use for HCFCD ditch U101-00-00 (South Mayde Creek). The designated uses for Segment No. 1014 are primary contact recreation and limited aquatic life use.

In accordance with 30 Texas Administrative Code Section 307.5 and the TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review is not required since no exceptional, high, or intermediate aquatic life use water bodies have been identified in the discharge route. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions

under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Katy Branch Library, 5414 Franz Road, Katy, Texas.
