THE VANTAGE AUSTIN, LLC  
SOAH Docket No. 582-23-20931  
TCEQ Docket No. 2023-0386-MWD  
Permit No. WQ0016132001**

**APPLICATION.**

The Vantage Austin, LLC, 5900 Balcones Drive, Suite 100, Austin, Texas 78731, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016132001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 450,000 gallons per day.

The facility will be located approximately 1.0 mile north of the intersection of County Road 140 and County Road 194, in Williamson County, Texas 78626. The treated effluent will be discharged to East Fork Ranger Branch, thence to Ranger Branch, thence to Berry Creek, thence to the San Gabriel River/North Fork San Gabriel River in Segment No. 1248 of the Brazos River Basin. The unclassified receiving water uses are limited aquatic life use for East Fork Ranger Branch and Ranger Branch, and high aquatic life use for Berry Creek. The designated uses for Segment No. 1248 are primary contact recreation, public water supply, aquifer protection, and high aquatic life use.

In accordance with 30 Texas Administrative Code Section 307.5 and the TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in Berry Creek, which has been identified as having high aquatic life use. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The

permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Weir City Hall, 2205 South Main Street, Weir, Texas.
