**NOTICE OF HEARING**  
**The Psalm 25:10 Foundation**  
**SOAH Docket No. 582-24-25107**  
**TCEQ Docket No. 2024-0596-MWD**  
**TPDES Permit No. WQ0016202001**

**APPLICATION.**

The Psalm 25:10 Foundation, 3000 Altamesa Boulevard, Suite 300, Fort Worth, Texas 76133, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016202001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 500,000 gallons per day.

The facility will be located approximately 0.5 miles northwest of the intersection of West Farm-to-Market Road 4 and Farm-to-Market Road 2331, in Johnson County, Texas 76044. The treated effluent will be discharged to an unnamed tributary, thence to an unnamed impoundment, thence to West Fork Nolan River, thence to Nolan River, thence to Lake Pat Cleburne in Segment No. 1228 of the Brazos River Basin. The unclassified receiving water uses are limited aquatic life use for the unnamed tributary and West Fork Nolan River. The designated uses for Segment No. 1228 are primary contact recreation, public water supply, and high aquatic life use. In accordance with 30 Texas Administrative Code §307.5 and the TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. This review has preliminarily determined that no water bodies with exceptional, high, or intermediate aquatic life uses are present within the stream reach assessed; therefore, no Tier 2 degradation determination is required. No significant degradation of water quality is expected in water bodies with exceptional, high, or intermediate aquatic life uses downstream, and existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary

decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at City of Godley Municipal Complex, City Secretary's Office, 200 West Railroad Street, Godley, Texas.

The evidentiary hearing phase of the proceeding, which will occur at a later date, will be similar to a civil trial in state district court. The hearing will address the disputed issues of fact identified in the TCEQ order concerning this application issued on May 28, 2024. In addition to these issues, the judge may consider additional issues if certain factors are met.

The hearing will be conducted in accordance with Chapter 2001, Texas Government Code; Chapter 26, Texas Water Code; and the procedural rules of the TCEQ and SOAH, including 30 TAC Chapter 80 and 1 TAC Chapter 155. The hearing will be held unless all timely hearing requests have been withdrawn or denied.

To request to be a party, you must attend the hearing and show you would be adversely affected by the application in a way not common to members of the general public. Any person may attend the hearing and request to be a party. Only persons named as parties may participate at the hearing.
