NOTICE OF HEARING
LVTP Holdings, LLC
SOAH Docket No. 582-25-04889
TCEQ Docket No. 2023-1558-MWD
TPDES Permit No. WQ0015964001

APPLICATION.

LVTP Holdings, LLC, 4173 Lomita Lane, Dallas, Texas 75220, has applied to the Texas Commission on Environmental Quality (TCEQ) for a new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0015964001, to authorize the discharge of treated domestic wastewater at an annual average flow not to exceed 1,200,000 gallons per day.

The facility will be located approximately 2.0 miles northeast of the intersection of Rex Odom Drive and West U.S Highway 287, in Ellis County, Texas 75165. The treated effluent will be discharged to an unnamed tributary of Long Branch, thence to an unnamed impoundment on Long Branch, thence to Long Branch, thence to an unnamed impoundment on Long Branch, thence to Long Branch, thence to Waxahachie Creek, thence to Bardwell Reservoir in Segment No. 0815 of the Trinity River Basin. The unclassified receiving water uses are minimal aquatic life use for the unnamed tributary and Long Branch, presumed high aquatic life use for the unnamed impoundments, and intermediate aquatic life use for the Waxahachie Creek. The designated uses for Segment No. 0815 are primary contact recreation, public water supply, and high aquatic life use. In accordance with 30 Texas Administrative Code §307.5 and the TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in the unnamed impoundments and Waxahachie Creek, which have been identified as having high and intermediate aquatic life uses respectively. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions

under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Nicholas P. Sims Library, 515 West Main Street, Waxahachie, Texas.
