

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF PUBLIC MEETING AND PROPOSED RENEWAL WITH AMENDMENT OF GENERAL PERMIT TXR050000 AUTHORIZING THE DISCHARGE OF STORMWATER ASSOCIATED WITH INDUSTRIAL ACTIVITIES

The Texas Commission on Environmental Quality (TCEQ or commission) is proposing to renew and amend Texas Pollutant Discharge Elimination System General Permit TXR050000. This general permit authorizes the discharge of stormwater associated with industrial activities and certain non-stormwater discharges into surface water in the state. The proposed general permit applies to the entire state of Texas. General permits are authorized by Texas Water Code, §26.040.

PROPOSED GENERAL PERMIT. The executive director has prepared the proposed general permit renewal with amendments of an existing general permit that authorizes the discharges of stormwater and certain non-stormwater discharges from industrial activities that are categorized into 30 similar sectors based on Standard Industrial Classification Codes and Industrial Activity Codes into surface water in the state. The proposed changes to the general permit are included in this proposed general permit and described in the fact sheet.

The general permit specifies which facilities must obtain permit coverage, which are eligible for a conditional exclusion based on a certification of no-exposure of the industrial activity to stormwater, which are designated as eligible for coverage without submitting a Notice of Intent, and which must obtain individual permit coverage. Non-stormwater discharges that are not specifically listed in the general permit are not authorized by the general permit. No significant degradation of high-quality waters is expected, and existing uses will be maintained and protected.

The executive director has reviewed this action for consistency with the goals and policies of the Texas Coastal Management Program (CMP) according to General Land Office regulations and has determined that the action is consistent with applicable CMP goals and policies.
