- This will bring you to the page below where you have the option to list other IDs under “Add New AEIF IDs.”
- Before you add the IDs (RNs), you must select an access type, relationship, and

authorization to add the accounts. Access type is described below:

- AEIF Read Only – View data in the AEIF system but cannot update or submit.
- AEIF Edit – Edit data on screen or upload delta files but cannot certify and submit.
- AEIF Submit – Same as Edit but can certify and submit data. Users selecting Submit access will need to certify they have the authority or have been given the authority to submit data by an appropriately authorized person. This is a self-certifying process, and it is the responsibility of the user to select the proper access and specify the proper authorization.

AEIF IDs to Add

You may enter each ID or copy IDs from another STEERS account.

-Enter AEIF IDs-

Enter the air IDs the account needs to access. You may enter either an Air Account number (without the hyphen) or a Regulated Entity reference number (RN + 9 digits). If you enter an account number and it is not found, try searching for the site RN number in the [TCEQ Central Registry](#).

- Since you will need to submit a STEERS Participation Agreement (See Step 6) every time an ID (RN) is added, it is more efficient to add multiple RNs at the same time.

6. After you select the access type for each account, you may type in each ID (RN) or copy IDs (RNs) from another account.

**If there is no information in connection with the RN, contact the air fees program so the account can be configured.

Step 6. Submitting the STEERS Participation Agreement (SPA)

This document is used to certify that users understand and agree to all rules and requirements of STEERS. This must be done and submitted by:

- New STEERS accounts
- Existing STEERS accounts when adding or updating new RNs (IDs)

1. If the account needs to submit an SPA, click on “My Account” on the top of the page.

2. Choose if you want to sign a paper SPA or electronically sign.

- If the user has a valid Texas driver’s license, the option to electronically sign the SPA may be used.
- If the user does not have a valid Texas driver’s license, click the Paper SPA button, then click the Generate Your SPA button. Follow the onscreen instructions for completing and submitting the paper SPA.
- Once the STEERS account is taken off probation, the user will have access to all of the requested functions.

Step 8. Submitting your site's (account's) status.

In this section you will enter the "Account Information" that will let TCEQ know the status of the site (RN or account) for the reported fiscal year.

1. Select the most accurate site status for the reported fiscal year. **Note: in this section of STEERS, the RN or site status is referred to as "account" status.**

Site Status Dropdown

The screenshot shows a web form with several sections: 'Account Information', 'Site/Company Information', 'Billing Contact Information', and 'Status of Account'. A red box highlights the 'Status of Account' section, which contains a question: 'What is the status of your account?'. A dropdown menu is open, showing options: 'ACTIVE', 'IDLE', 'SHUTDOWN', 'MERGED', 'DOES NOT QUALIFY', 'NOT BUILT', and 'SOLD'. A red arrow points to the dropdown menu. Below the form, there are 'Update' and 'Cancel' buttons. At the bottom, there is a 'Screen Notes' section.

- **Active:** Site will be operational/active for any portion of this fiscal year.
- **Idle:** Site will be idle for the entirety of this fiscal year
- **Sold*:** If an ownership transfer has occurred and new ownership will be in effect during the reporting fiscal year.
- **Permanently shut down*:** This site will not operate in any county in Texas and the site was *not sold*.
- **Merged:** This site was merged into another site by the Air Permits Division and the merger will be in effect during the reporting fiscal year.
- **Does not qualify (DNO) for either inspection or emissions fees:** This site does not have an applicable standard industrial classification (SIC) code or SIC tier letter and the site is not operating under Title V conditions regardless of permit authorizations.
- **Not Built:** This site is under construction and will not be operating during this fiscal year

2. If the status of the site is **Sold**:

- New owner information is **required** to continue. It is the **previous** owner's responsibility to provide new owner information.
- In order for the new owner information to be reflected on the invoice, the new company must submit a Core Data Form to Air Permits Division and Central Registry to officially have the name changed in the TCEQ systems. STEERS has a portal available to use for air permits and central registry.

***Information required: Date of sale, purchasing company's name, mailing address, contact person, phone number, email address, and new RN number (if applicable).** Provide a new RN number **only** if the Air Permit Division issued a new RN number. Typically, when an

ownership transfer occurs, the RN number remains the same. However, sometimes the Air Permits Division issues a new RN number.

- **Information required:** Date of shut down and the cancelled/voided air permit numbers corresponding to the site.
- If the Air Permits Division have not cancelled or voided the air permit(s) for the site, provide an explanation why the site needs to be shut down without the permits being cancelled/voided. The program area will review the explanation and contact you with any questions.
- For permit status:
https://www.tceq.texas.gov/permitting/air/nav/air_status_permits.html
- **Note:** Portable sites may shut down **temporarily** to move to another location to operate. If this is the case for your portable site, select another option from the drop-down menu. "Shutdown" should NOT be selected because the site does not meet the definition of a permanently shut down facility.

If the answer is “Yes”, review the definitions below and report site-level annual emissions for each regulated pollutant or group of pollutants in the table below to establish the emissions fee basis. Report the site’s emissions using either allowable emissions rates or actual emissions.

a. Allowable emissions rates: Emissions limits specified in an enforceable document such as a permit, certified registration of emissions, or Commission Order (hereafter referred to as enforceable emissions limits) that are in effect during the fiscal year that a fee is due. This is also referred to as the site’s potential-to-emit emissions.

- If a site did not submit a verifiable annual point source emissions inventory, then report allowable emission rates on the emissions table.

b. Routine: Report actual calendar year (CY) emissions associated with planned activities, including routine operations, and authorized maintenance, startup, and shutdown activities, that occurred during the most recent full calendar year.

If the site submitted a complete and verifiable emissions inventory (EI) for the applicable CY, then report all emissions for the last full CY in the “**Actual**” section below. Note: If submitting an EI, emissions reported in the table below should be within 5 tons of the emissions reported on the EI. Any discrepancies between the EI and fee emissions will need to be rectified prior to the submission of the fee basis form.

- If the site does not have enforceable emissions limits establishing allowable levels for regulated pollutants and the site is not required to submit an EI, then the site’s routine, SMSS, and EE emissions emitted during CY must be used to calculate the fee basis and should be reported in the “**Actual**” section below.
- Submit actual production, throughput, or measurement records along with the complete documentation of the calculation methods.

c. Scheduled Maintenance, Startup, and Shutdown (SMSS): Report actual emissions from all SMSS activities as defined in 30 TAC §101.1 that are **not** authorized by a permit and that occurred during the most recent full calendar year.

- Note: Authorized MSS should be included with routine emissions, and SMSS should NOT be included with routine emissions.

d. Emissions Events (EE): Report actual emissions from all EE as defined in 30 TAC §101.1 that occurred during the most recent full calendar year.

IMPORTANT

Please note the following:

- Report **either** allowable **or** actual emissions. Reporting both permit allowable and actual emissions will result in the site being assessed a fee for the **combined total of both types of emissions**.

Emissions Reporting Summary	
<p>Allowable Emissions:</p> <p>PTE thresholds during the fiscal year that a fee is due.</p> <p style="text-align: center;">+</p> <p>Emissions from all SMSS that are not authorized by a permit.</p> <p style="text-align: center;">+</p> <p>Emissions from all releases due to EEs.</p>	<p>Routine Emissions:</p> <p>Last full calendar year of actual emissions of all regulated pollutants from all individual emissions points or process units at the site.</p> <p style="text-align: center;">+</p> <p>Emissions from all SMSS that are not authorized by a permit.</p> <p style="text-align: center;">+</p> <p>Emissions from all releases due to EEs.</p>

- Under no circumstances may the emissions on the fee basis form be less than the actual emissions at the site.
- A complete and verifiable annual point source emissions inventory must be submitted to establish the emissions fee basis using actual emissions.
- The reported emissions in the emissions inventory should match the actual emissions reported on the fee form.

Step 11. Submitting comments and attachments.

1. Provide any comments and supporting documentation that will assist in processing and invoicing the site (RN) accurately.
2. Use this section to upload any supporting documents.
 - a. Select “**Choose File**” (next to “File to Upload”) to upload supporting documents such as the maximum allowable emissions rates table from the site’s air permit.
 - b. Click “**Upload File**”.

Attachments are not required. If not attaching documents, press the **Next** button to continue. When attaching documents, browse and select a file, then press the **Upload File** button to upload the supplementary documentation and/or emissions calculations.

- You must select a file and press the **Upload File** button to attach a file.
- Multiple files can be attached but must be attached one at a time.
- Allowed file types include PDFs, Word documents, Excel spreadsheets, and text files.
- The file cannot exceed 30 MB.

* **File to Upload:** No file chosen

* **Does the file contain information considered confidential?**

**It will appear under the attachments section of the page at the end if uploading was successful.

Step 12. Review the site (RN) information.

1. Review the site (RN) information before you **submit** the fee basis form. Ensure all data is **accurate**.

2. Once a form has been submitted, the status for the site will change to "View".

The screenshot displays the TCEQ STEERS portal interface. At the top, there is a navigation bar with the TCEQ logo and the text "TEXAS COMMISSION ON ENVIRONMENTAL QUALITY". To the right of the logo are links for "Help >>", "Contact Us >>", and "Logout >>". Below this is a secondary navigation bar with "AEIF Home", "RN List", and "STEERS Home". The main content area shows "Air Emissions and Inspection Fees (AEIF) Home" with the account number "RN101010101/BF1234X" and "Today's Date: 9/21/2023 20:00". The "Account Information on File" section lists details for the account, including the site name "CENTRAL TEXAS FACILITY #4", company "REAL PLASTICS CORP", and fiscal year "2025". The "Air Emissions and Inspection Fee Report" section features a "View" button highlighted with a red box and a red arrow pointing to it. The text next to the button indicates the report is for the fiscal year 2024 (9/1/2023 - 8/31/2024) and is due June 2, 2023. A link for assistance is provided at the bottom: <http://www.tceq.texas.gov/airquality/point-source-ei/air-fees.html>.

3. By clicking on "View" you will be able to review the submitted fee basis information. After submitting the form, no changes can be made in STEERS. Contact the air fees programs if changes need to be made to the reported information.

This report was submitted to the TCEQ on 11/20/2024 08:11 AM. The submission confirmation number is 107. The security data hash code is 1E57C7BFCDB9EC79E9C80F10CE690067C9ABC2BC9A68050448A25F9DA78191A9.
