Instructions for Obtaining Site Specific Emissions Inventory Reports

Procedures:

1. Go to the following web link to access the Central Registry query page:

   https://www15.tceq.texas.gov/crpub/

2. To search by a site's Air Account Number, click on the "Program ID Search" link (Figure 1).

Figure 1

3. Enter the Air Account number under the "Program ID" field and click the "Search" button (Figure 2).

Figure 2
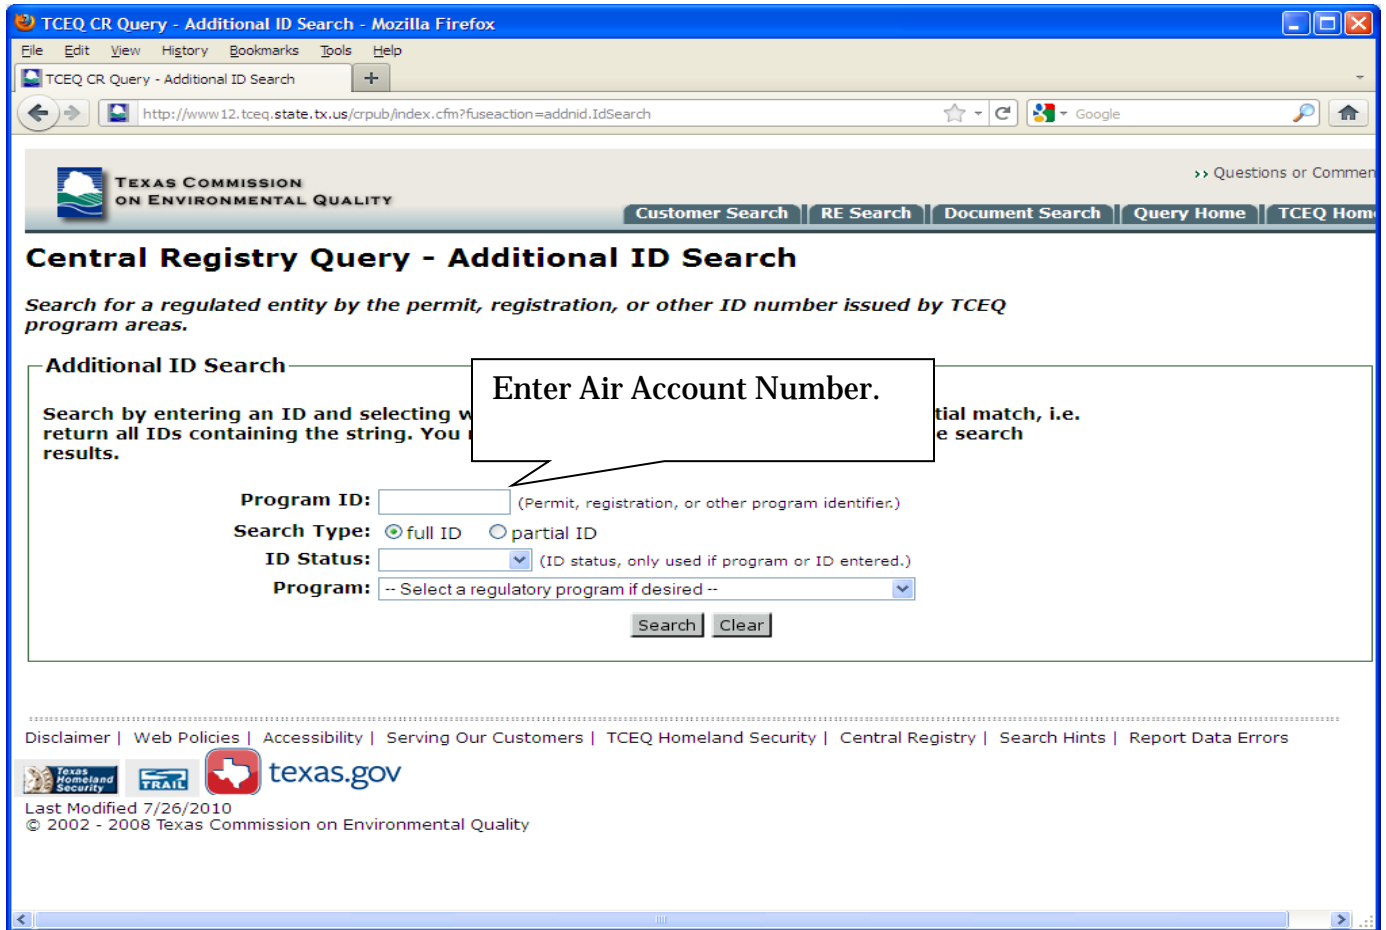

4. Scroll down to the Permits, Registrations, or Other Authorizations" section and locate the "Air Emissions Inventory" row in the "Program" column. Click on the hyperlinked Air Account Number in the "ID Number" column (Figure 3) of this row. This will route you to the "Related Information" page for the Air Emissions Inventory Account Number.

Figure 3

5. Click on the "Emissions Inventory Information" link under the "Related Information" section (Figure 4). The resulting screen displays the "Available Reports".

If no link is present, then emissions inventory reports may or may not be available for the specific Air Account Number. Please contact the Emissions Inventory Helpline for assistance at (512) 239-1773.

Figure 4
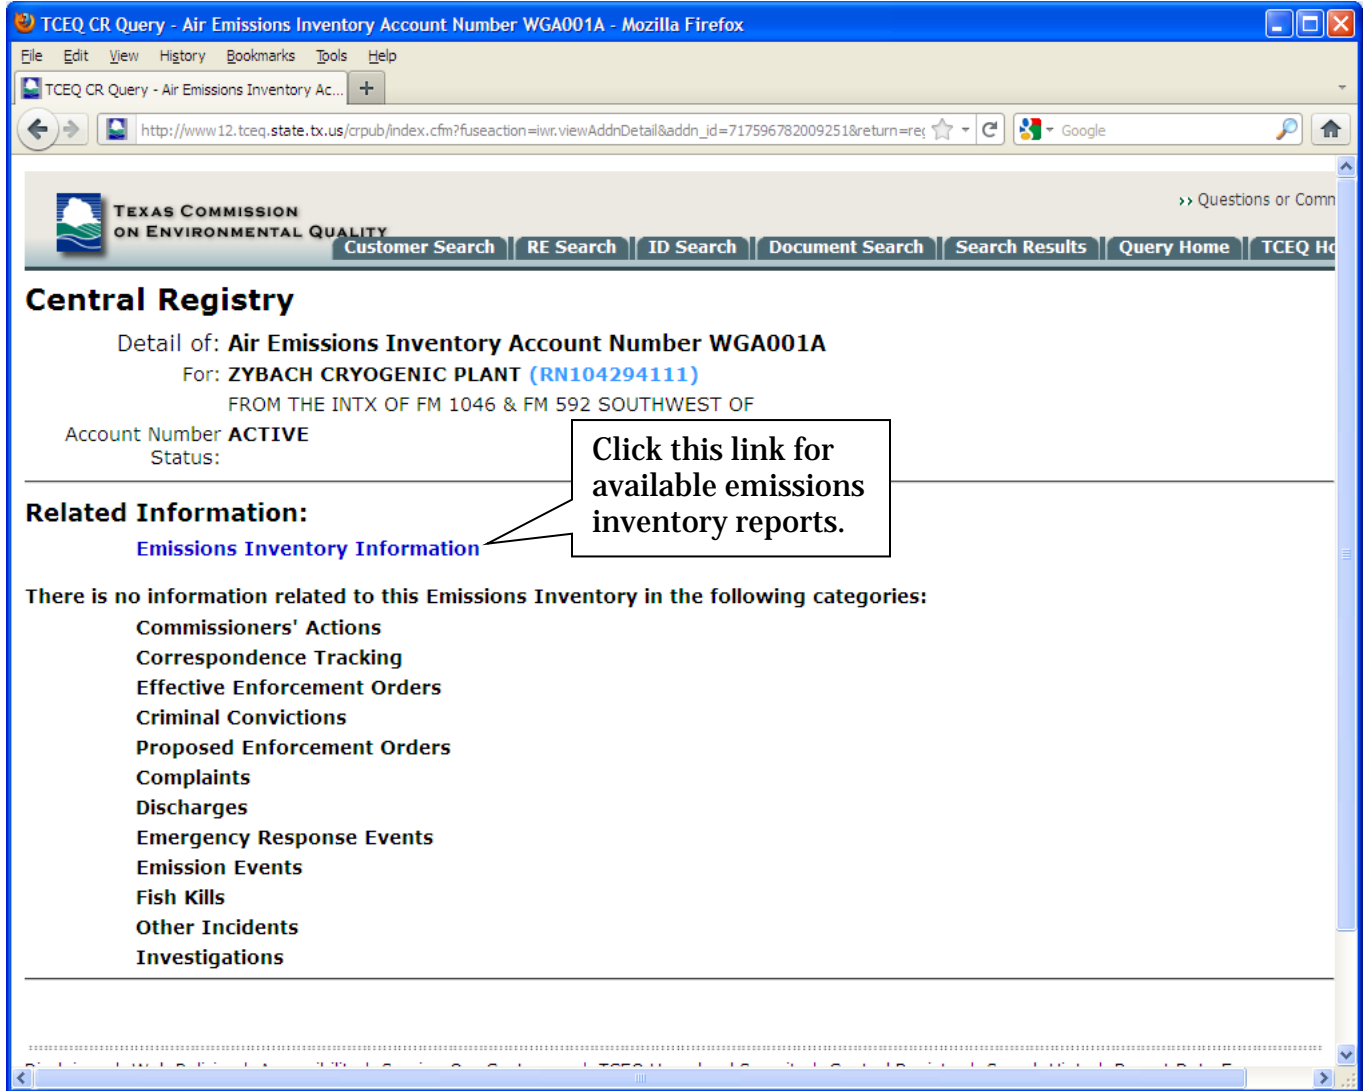

6. Under the "Available Reports" section, select from the five emissions inventory reports. See (Figure 5) for a description of each report type.

Page ▾ Tools ▾

Available Reports

The report generates a list of active and/or deactivated FINs (sources) and EPNs (emissions points) paths for a specified site.

Path List
○ Active ○ InActive ○ All [Run Report]

Contaminant Summary

The report summarizes a site's reported emissions for a specified calendar year.

Instructions:
1. Select a year for which the report will be run
2. Click "Run Report" - the selected report will then be displayed

2010 ▾ [Run Report]

Emissions Inventory Questionnaire (EIQ)

This report generates a historical emissions inventory questionnaire for a specified calendar year that may be used to update your current EI.

Instructions:
1. Select report year.
2. Enter e-mail address.
3. Click **Request Report** (do not press Enter key) - the report will be compiled and e-mailed to the supplied address.

2010 ▾ Email: [   ] [Request Report]

Report may take several minutes to run.
Clicking **Request Report** more than once will result in multiple copies being run.

The report lists the type of pollutants, annual emissions, ozone season emissions, emissions from emissions events, and emissions from scheduled maintenance, startup, and shutdown activities reported at the FIN/EPN paths for a specified calendar year. The user can specify the type of pollutant(s), pollutant class, FIN(s), and/or EPN(s).

Actual History Report

The report summarizes total emissions by criteria pollutant for previous calendar years.
