# SIP Revision: Inspection and Maintenance (I/M) Program, El Paso (ELP), December 4, 2002

On December 4, 2002, the Texas Commission on Environmental Quality (TCEQ) adopted a State Implementation Plan (SIP) revision for the I/M Program.

## Summary of the SIP Revision

**Adoption Date:** 12/04/2002

**Proposal Date:** 09/13/2002

**EPA Approval Date:** 07/25/2014 ([79 FR 43264](#))

**Background and Key Changes:** On December 4, 2002, the TCEQ adopted this SIP revision to modify ELP's I/M program. It removed the on-board diagnostic (OBD) testing requirements for 1996 and newer model-year vehicles, and instead made it a contingency measure. As a result, only two-speed idle (TSI) testing would be required for all vehicles in ELP unless the contingency measure was triggered due to a violation of the National Ambient Air Quality Standard (NAAQS) in ELP.

## SIP Narrative and Appendices
