

Texas Commission on Environmental Quality  
 New Technology Implementation Grant (NTIG) Program  
 Operation Phase Annual/Final Status Report

Contract Number:	582-19-90660-0402
Grantee:	University of Texas at Arlington
Report for the Annual Period:	September 2021 - August 2022 Resubmitted: Feb 22, 2024

**Section I. Accomplishments**

*Provide a bulleted list of operations of the facility during the past year. Include exact numbers and/or estimates.*

- The TEP (Thermal Energy Plant) Boilers 1 and 2 have been running in normal operation all year with no operational issues.
- Boiler 1 has a run time of 1836 hours Boiler 2 has a run time of 2722 hours on natural gas
- Estimated NOx saving is 60% over retrofitted burner system.

**Section II. Key Events and Issues**

*Report any key events that occurred during this reporting period. Please include any major project updates that impacted operations.*

- Staff operators were provided annual training from the burner controls manufacturer.
- No other major projects were completed that impacted these operations.

*Report any anticipated or unanticipated problem(s).*

- None

*Proposed Solution(s): Report any possible solution(s) to the anticipated or unanticipated problem(s).*

- No problems were encountered.

*Action(s) Conducted and Results: Describe the action(s) taken to resolve the anticipated or unanticipated problem(s). Were the actions successful in resolving the problem?*

- No problems were encountered.

**Section III. Provide a summary of the overall state of the facility and grant funded equipment.**

- The TEP has been running in normal operation and the newly installed burner controls have been operational and in excellent condition.
- Periodic preventative maintenance is performed on the burner control systems and recorded per manufacturers recommendations.

**Section IV. Goals and Issues for Upcoming Period**

*Provide a brief description of the project goal(s) you hope to realize during the next reporting period.*

- Continue to run these boilers as recommended so our emission footprint in minimized.
- Continue to look at new technology that will make sense for UTA to reduce emissions further.
- Maintain yearly training and preventative maintenance to ensure proper operation in the future.
