

# Supplemental Form 2 – Equipment Type Exception Request

## Rebate Grants Program

**Texas Commission on Environmental Quality (TCEQ)**  
**Texas Emissions Reduction Plan (TERP)**  
**Solicitation No. 582-26-85004-RG**

Under the Rebate Grants Program, the replacement vehicle or equipment must be of the same type, weight category, body and axle configuration, and intended for use in the same application or vocation as the vehicle or equipment being replaced. TCEQ may accept vehicles or equipment of a different type to account for the latest technology or vehicle or equipment type used in a specific vocation.

Applicants may request an exception to the equipment-type requirement by completing and submitting this form with the application. Applicants must complete a separate form for each activity requiring an equipment type exception. The burden is on the applicant to demonstrate why an exception is needed based on the latest technology or equipment type for a specific vocation.

All requests will be considered by TCEQ on a case-by-case basis, with no assurance that an exception will be granted. If an exception is approved and a grant is awarded by TCEQ, the conditions under which the exception was granted will be included in the grant contract’s Scope of Work. If an exception is not granted by TCEQ, the applicant will have the option to continue with a vehicle or piece of equipment of the same type or withdraw their application from consideration.

### Applicant Information

Applicant Legal Name	
Applicant Phone Number	
Applicant Email Address	

### Activity Information

Activity Number	
Have you owned and operated the current vehicle/equipment for the past 2 years?	

### Old Vehicle or Equipment Information

Vehicle or Equipment Type	
Engine Model Year	
Vehicle or Equipment Fuel Type	Diesel
Vehicle GVWR (on-road only)	
Equipment Horsepower (non-road only)	
Federal NO <sub>x</sub> Emissions (g/mi or g/bhp-hr)	

## New Vehicle or Equipment Information

Vehicle or Equipment Type	
Engine Model Year	
Vehicle or Equipment Fuel Type	
Vehicle GVWR (on-road only)	
Federal NO <sub>x</sub> Emissions (g/mi or g/bhp-hr)	

## Equipment Use Description

In the space below, provide the following:

- a **detailed description** of how the current equipment is being used in its routine operations;
- a **detailed description** of how the replacement equipment will be used; and
- **justification** that demonstrates why an exception is needed based on the latest technology or equipment type for a specific vocation.
