# Original Equipment Manufacturer (OEM) Information Request Form for Heavy-Duty Natural Gas Engines

Texas Natural Gas Vehicle Grant Program (TNGVGP)

Texas Emissions Reduction Plan (TERP)
Texas Commission on Environmental Quality (TCEQ)

If you have questions on how to fill out this information request form, please contact us at 512-239-4950 or TERP@tceq.texas.gov.

TCEQ is requesting information from manufacturers of eligible natural gas vehicles and engines under the Texas Natural Gas Vehicle Grant Program (TNGVGP). TCEQ will use this information to compile a preapproved list of natural gas vehicles, engines, and conversion systems that are eligible for funding under the TNGVGP. This request is only for entities listed as the manufacturer on the U.S. Environmental Protection Agency (EPA) Certificate of Conformity issued to certify the emissions of the vehicle or engine.

**Heavy-Duty Natural Gas Engines:** Only purpose-built heavy-duty engines powered by compressed natural gas (CNG), liquefied natural gas (LNG), or liquefied petroleum gas (LPG) with a model year of 2017 or newer and certified to the current federal emission standards should be listed on this form. Refer to the <a href="TNGVGP">TNGVGP</a> webpage to view the information request forms for the other types of natural gas vehicles and engines that may qualify under this program.

**Submission Period:** Responses will be accepted for consideration by TCEQ on a continuous basis via electronic mail at <a href="mailto:TNGVGP-Apply@tceq.texas.gov">TNGVGP-Apply@tceq.texas.gov</a> or via mail at one of TCEQ's addresses. Responses sent via electronic mail should include 'TNGVGP Info Request' in the subject line.

## Regular Post Delivery

Texas Commission on Environmental Quality
Air Grants Division
(TNGVGP) MC-204
P.O. Box 13087
Austin, Texas 78711-3087

#### **Express Delivery**

## **Section 2: Heavy-Duty Engine Information**

This form should be used for purpose-built Heavy-Duty engines powered by CNG, LNG, or LPG and certified to the current federal emission standards. Heavy-duty engines include engines intended for installation of heavy-duty vehicles with a GVWR of 8,501 lbs. or more. This form should not be used for vehicles that are originally manufactured to operate on gasoline or diesel fuel, even if the conversion of the vehicle may occur through a flow-through process prior to first sale of the vehicle.

## List up to 5 Heavy-Duty Engines.
