SECTOR AD: MISCELLANEOUS INDUSTRIAL ACTIVITIES

Activity Codes and Description of Industry

Limited to facilities that are designated by the executive director as needing a permit to control pollution related to stormwater discharges and that do not meet the description of an industrial activity covered by Sectors A-AC.

2. Miscellaneous Industrial Activities

Sector AD is used to provide permit coverage for facilities that are designated by the executive director as needing a permit to control pollution related to stormwater discharges and do not meet the description of an industrial activity covered by Sectors A through AC. A facility that is not otherwise listed in Part V of this general permit is not eligible to apply for coverage under Sector AD, unless directed to do so in writing by the executive director.

3. Co-located Industrial Activities

A facility operator is required to either obtain authorization under this general permit, under an individual TPDES stormwater permit, or under an alternative general permit if the facility meets one or more of the criteria listed in Part II, Section A.1.(a) above. If these facilities have additional activities that are described by a secondary SIC code that is listed in the table above, then these additional activities are described as co-located industrial activities. Stormwater discharges from co-located industrial activities may be authorized under this general permit provided that the operator complies with all of the sector specific requirements defined in Part V of this general permit for each of these co-located activities. The sector specific requirements apply only to the portion of the facility where that specific sector of activity occurs, except where runoff from different activities combines before leaving the property. In cases where these discharges combine, the monitoring requirements and effluent limitations from each sector that contributes runoff to the discharge must be met.

4. Co-located Industrial Facilities

A facility operator is required to either obtain authorization under this general permit, under an individual TPDES stormwater permit, or under an alternative general permit if the facility meets one or more of the criteria in Part II, Section A.1.(a) above. Multiple industrial facilities may be described as “co-located” if they share a common property boundary. If authorization under this general permit is sought, the operator of each of co-located facility must individually obtain authorization to discharge under this general permit.
